30179	<p>Circumferential lipectomy, as an independent procedure, to correct circumferential excess of redundant skin and fat that is a direct consequence of significant weight loss, with or without a radical abdominoplasty (Pitanguy type or similar), not being a service associated with a service to which item 30165, 30168, 30171, 30172, 30176, 30177, 45530, 45564 or 45565 applies, if:</p> <p>(a) the circumferential excess of redundant skin and fat is complicated by intertrigo or another skin condition that risks loss of skin integrity and has failed 3 months of conventional (or non surgical) treatment; and</p> <p>(b) the circumferential excess of redundant skin and fat interferes with the activities of daily living; and</p> <p>(c) the weight has been stable for at least 6 months following significant weight loss prior to the lipectomy</p> <p>(H) (Anaes.) (Assist.)</p> <p>(See para TN.8.8 of explanatory notes to this Category)  <b>Fee:</b> \$1,251.05      <b>Benefit:</b> 75% = \$938.30</p>
30180	<p>AXILLARY HYPERHIDROSIS, partial excision for (Anaes.)</p> <p><b>Fee:</b> \$140.80      <b>Benefit:</b> 75% = \$105.60    85% = \$119.70</p>
30183	<p>AXILLARY HYPERHIDROSIS, total excision of sweat gland bearing area (Anaes.)</p> <p><b>Fee:</b> \$254.20      <b>Benefit:</b> 75% = \$190.65    85% = \$216.10</p>
30187	<p>PALMAR OR PLANTAR WARTS, removal of, by carbon dioxide laser or erbium laser, requiring admission to a hospital, or when performed by a specialist in the practice of his/her specialty, (5 or more warts) (Anaes.)</p> <p>(See para TN.8.9 of explanatory notes to this Category)  <b>Fee:</b> \$264.95      <b>Benefit:</b> 75% = \$198.75    85% = \$225.25</p>
30189	<p>WARTS or MOLLUSCUM CONTAGIOSUM (one or more), removal of, by any method (other than by chemical means), where undertaken in the operating theatre of a hospital, not being a service associated with a service to which another item in this Group applies (H) (Anaes.)</p> <p>(See para TN.8.9 of explanatory notes to this Category)  <b>Fee:</b> \$151.90      <b>Benefit:</b> 75% = \$113.95</p>

**T8. SURGICAL OPERATIONS**

**1. GENERAL**

30190	<p>Angiofibromas, trichoepitheliomas or other severely disfiguring tumours of the face or neck (excluding melanocytic naevi, sebaceous hyperplasia, dermatosis papulosa nigra, Campbell De Morgan angiomas and seborrheic or viral warts), suitable for laser ablation as confirmed by the opinion of a specialist in the specialty of dermatology—removal of, by carbon dioxide laser or erbium laser ablation, including associated resurfacing (10 or more tumours) (Anaes.)</p> <p><b>Fee:</b> \$410.15      <b>Benefit:</b> 75% = \$307.65    85% = \$348.65</p>
30191	<p>Angiofibromas, trichoepithelioma, epidermal naevi, xanthelasma, pyogenic granuloma, genital angiokeratomas, hereditary haemorrhagic telangiectasia and other severely disfiguring or recurrently bleeding tumours (excluding melanocytic naevi, sebaceous hyperplasia, dermatosis papulosa nigra, Campbell De Morgan angiomas and seborrheic or viral warts), treatment of, with carbon dioxide/erbium or other appropriate laser (or curettage and fine point diathermy for pyogenic granuloma only), if confirmed by the opinion of a specialist in the specialty of dermatology, one or more lesions.</p> <p><b>Fee:</b> \$65.45      <b>Benefit:</b> 75% = \$49.10    85% = \$55.65</p>
30192	<p>PREMALIGNANT SKIN LESIONS (including solar keratoses), treatment of, by ablative technique (10 or more lesions) (Anaes.)</p> <p>(See para TN.8.9 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$40.80      <b>Benefit:</b> 75% = \$30.60    85% = \$34.70</p>
Amend 30196	<p>Malignant neoplasm of skin or mucous membrane that has been:</p> <p>(a) proven by histopathology; or</p> <p>(b) confirmed by the opinion of a specialist in the specialty of dermatology or plastic surgery where a specimen has been submitted for histologic confirmation;</p> <p>removal of, by serial curettage, or carbon dioxide laser or erbium laser excision-ablation, including any associated cryotherapy or diathermy (Anaes.)</p> <p>(See para TN.8.10 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$130.20      <b>Benefit:</b> 75% = \$97.65    85% = \$110.70</p>
Amend 30202	<p>Malignant neoplasm of skin or mucous membrane proven by histopathology or confirmed by the opinion of a specialist in the specialty of dermatology or plastic surgery—removal of, by liquid nitrogen cryotherapy using repeat freeze thaw cycles</p> <p>(See para TN.8.10 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$49.85      <b>Benefit:</b> 75% = \$37.40    85% = \$42.40</p>
30207	<p>Skin lesions, multiple injections with glucocorticoid preparations (Anaes.)</p> <p><b>Fee:</b> \$46.00      <b>Benefit:</b> 75% = \$34.50    85% = \$39.10</p>
30210	<p>Keloid and other skin lesions, extensive, multiple injections of glucocorticoid preparations, if undertaken in the operating theatre of a hospital on a patient less than 16 years of age (Anaes.)</p> <p><b>Fee:</b> \$168.05      <b>Benefit:</b> 75% = \$126.05</p>
30216	<p>HAEMATOMA, aspiration of (Anaes.)</p> <p><b>Fee:</b> \$28.20      <b>Benefit:</b> 75% = \$21.15    85% = \$24.00</p>
30219	<p>HAEMATOMA, FURUNCLE, SMALL ABSCESS OR SIMILAR LESION not requiring admission to a hospital - INCISION WITH DRAINAGE OF (excluding aftercare)</p> <p>(See para TN.8.4 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$28.20      <b>Benefit:</b> 75% = \$21.15    85% = \$24.00</p>

<b>T8. SURGICAL OPERATIONS</b>		<b>1. GENERAL</b>
30223	LARGE HAEMATOMA, LARGE ABSCESS, CARBUNCLE, CELLULITIS or similar lesion, requiring admission to a hospital, INCISION WITH DRAINAGE OF (excluding aftercare) (Anaes.)  (See para TN.8.4 of explanatory notes to this Category) <b>Fee:</b> \$168.05 <b>Benefit:</b> 75% = \$126.05	
30224	PERCUTANEOUS DRAINAGE OF DEEP ABSCESS using interventional imaging techniques - but not including imaging (Anaes.) <b>Fee:</b> \$245.00 <b>Benefit:</b> 75% = \$183.75    85% = \$208.25	
30225	ABSCESS DRAINAGE TUBE, exchange of using interventional imaging techniques - but not including imaging (Anaes.) <b>Fee:</b> \$276.05 <b>Benefit:</b> 75% = \$207.05    85% = \$234.65	
30226	MUSCLE, excision of (LIMITED), or fasciotomy (Anaes.) <b>Fee:</b> \$154.45 <b>Benefit:</b> 75% = \$115.85    85% = \$131.30	
30229	MUSCLE, excision of (EXTENSIVE) (Anaes.) (Assist.) <b>Fee:</b> \$281.45 <b>Benefit:</b> 75% = \$211.10    85% = \$239.25	
30232	MUSCLE, RUPTURED, repair of (limited), not associated with external wound (Anaes.) <b>Fee:</b> \$230.60 <b>Benefit:</b> 75% = \$172.95    85% = \$196.05	
30235	MUSCLE, RUPTURED, repair of (extensive), not associated with external wound (Anaes.) (Assist.) <b>Fee:</b> \$304.95 <b>Benefit:</b> 75% = \$228.75    85% = \$259.25	
30238	FASCIA, DEEP, repair of, FOR HERNIATED MUSCLE (Anaes.) <b>Fee:</b> \$154.45 <b>Benefit:</b> 75% = \$115.85    85% = \$131.30	
30241	BONE TUMOUR, INNOCENT, excision of, not being a service to which another item in this Group applies (Anaes.) (Assist.) <b>Fee:</b> \$367.50 <b>Benefit:</b> 75% = \$275.65    85% = \$312.40	
30244	STYLOID PROCESS OF TEMPORAL BONE, removal of (Anaes.) (Assist.) <b>Fee:</b> \$367.50 <b>Benefit:</b> 75% = \$275.65	
30246	PAROTID DUCT, repair of, using micro-surgical techniques (Anaes.) (Assist.) <b>Fee:</b> \$711.35 <b>Benefit:</b> 75% = \$533.55	
30247	PAROTID GLAND, total extirpation of (Anaes.) (Assist.) <b>Fee:</b> \$762.45 <b>Benefit:</b> 75% = \$571.85	
30250	PAROTID GLAND, total extirpation of, with preservation of facial nerve (Anaes.) (Assist.) <b>Fee:</b> \$1,290.15 <b>Benefit:</b> 75% = \$967.65	
30251	RECURRENT PAROTID TUMOUR, excision of, with preservation of facial nerve (Anaes.) (Assist.) <b>Fee:</b> \$1,981.80 <b>Benefit:</b> 75% = \$1486.35    85% = \$1897.10	
30253	PAROTID GLAND, SUPERFICIAL LOBECTOMY OF, with exposure of facial nerve (Anaes.) (Assist.) <b>Fee:</b> \$860.10 <b>Benefit:</b> 75% = \$645.10	

T8. SURGICAL OPERATIONS		1. GENERAL
30255	SUBMANDIBULAR DUCTS, relocation of, for surgical control of drooling (Anaes.) (Assist.) <b>Fee:</b> \$1,145.35 <b>Benefit:</b> 75% = \$859.05	
30256	SUBMANDIBULAR GLAND, extirpation of (Anaes.) (Assist.) <b>Fee:</b> \$459.35 <b>Benefit:</b> 75% = \$344.55	
30259	SUBLINGUAL GLAND, extirpation of (Anaes.) <b>Fee:</b> \$204.75 <b>Benefit:</b> 75% = \$153.60    85% = \$174.05	
30262	SALIVARY GLAND, DILATATION OR DIATHERMY of duct (Anaes.) <b>Fee:</b> \$60.65 <b>Benefit:</b> 75% = \$45.50    85% = \$51.60	
30266	Salivary gland, removal of calculus from duct or meatotomy or marsupialisation, 1 or more such procedures. (Anaes.) <b>Fee:</b> \$154.45 <b>Benefit:</b> 75% = \$115.85    85% = \$131.30	
30269	SALIVARY GLAND, repair of CUTANEOUS FISTULA OF (Anaes.) <b>Fee:</b> \$154.45 <b>Benefit:</b> 75% = \$115.85    85% = \$131.30	
30272	TONGUE, partial excision of (Anaes.) (Assist.) <b>Fee:</b> \$304.95 <b>Benefit:</b> 75% = \$228.75    85% = \$259.25	
30275	RADICAL EXCISION OF INTRAORAL TUMOUR INVOLVING RESECTION OF MANDIBLE AND LYMPH NODES OF NECK (commandotype operation) (Anaes.) (Assist.) <b>Fee:</b> \$1,817.80 <b>Benefit:</b> 75% = \$1363.35	
30278	TONGUE TIE, repair of, not being a service to which another item in this Group applies (Anaes.) <b>Fee:</b> \$47.95 <b>Benefit:</b> 75% = \$36.00    85% = \$40.80	
30281	TONGUE TIE, MANDIBULAR FRENULUM or MAXILLARY FRENULUM, repair of, in a person aged 2 years and over, under general anaesthesia (Anaes.) <b>Fee:</b> \$123.20 <b>Benefit:</b> 75% = \$92.40    85% = \$104.75	
30283	RANULA OR MUCOUS CYST OF MOUTH, removal of (Anaes.) <b>Fee:</b> \$211.10 <b>Benefit:</b> 75% = \$158.35    85% = \$179.45	
30286	BRANCHIAL CYST, on a person 10 years of age or over. Removal of, (Anaes.) (Assist.) <b>Fee:</b> \$410.25 <b>Benefit:</b> 75% = \$307.70    85% = \$348.75	
30287	BRANCHIAL CYST, on a person under 10 years of age. Removal of, (Anaes.) (Assist.) <b>Fee:</b> \$533.40 <b>Benefit:</b> 75% = \$400.05    85% = \$453.40	
30289	BRANCHIAL FISTULA, on a person 10 years of age or over. Removal of, (Anaes.) (Assist.) <b>Fee:</b> \$517.95 <b>Benefit:</b> 75% = \$388.50	
30293	CERVICAL OESOPHAGOSTOMY or CLOSURE OF CERVICAL OESOPHAGOSTOMY with or without plastic repair (Anaes.) (Assist.) <b>Fee:</b> \$459.35 <b>Benefit:</b> 75% = \$344.55    85% = \$390.45	
30294	CERVICAL OESOPHAGECTOMY with tracheostomy and oesophagostomy, with or without plastic	

<b>T8. SURGICAL OPERATIONS</b>		<b>1. GENERAL</b>
	reconstruction; or LARYNGOPHARYNGECTOMY with tracheostomy and plastic reconstruction (Anaes.) (Assist.) <b>Fee:</b> \$1,817.80 <b>Benefit:</b> 75% = \$1363.35	
30296	THYROIDECTOMY, total (Anaes.) (Assist.) (See para TN.8.137 of explanatory notes to this Category) <b>Fee:</b> \$1,055.70 <b>Benefit:</b> 75% = \$791.80	
30297	THYROIDECTOMY following previous thyroid surgery (Anaes.) (Assist.) (See para TN.8.138 of explanatory notes to this Category) <b>Fee:</b> \$1,055.70 <b>Benefit:</b> 75% = \$791.80	
30299	SENTINEL LYMPH NODE BIOPSY OR BIOPSIES for breast cancer, involving dissection in a level I axilla, using preoperative lymphoscintigraphy and lymphotropic dye injection, not being a service associated with a service to which item 30300, 30302 or 30303 applies (Anaes.) (Assist.) (See para TN.8.12 of explanatory notes to this Category) <b>Fee:</b> \$657.35 <b>Benefit:</b> 75% = \$493.05	
30300	SENTINEL LYMPH NODE BIOPSY OR BIOPSIES for breast cancer, involving dissection in a level II/III axilla, using preoperative lymphoscintigraphy and lymphotropic dye injection, not being a service associated with a service to which item 30299, 30302 or 30303 applies (Anaes.) (Assist.) (See para TN.8.12 of explanatory notes to this Category) <b>Fee:</b> \$788.80 <b>Benefit:</b> 75% = \$591.60	
30302	SENTINEL LYMPH NODE BIOPSY OR BIOPSIES for breast cancer, involving dissection in a level I axilla, using lymphotropic dye injection, not being a service associated with a service to which item 30299, 30300 or 30303 applies (Anaes.) (Assist.) (See para TN.8.12 of explanatory notes to this Category) <b>Fee:</b> \$525.85 <b>Benefit:</b> 75% = \$394.40	
30303	SENTINEL LYMPH NODE BIOPSY OR BIOPSIES for breast cancer, involving dissection in a level II/III axilla, using lymphotropic dye injection, not being a service associated with a service to which item 30299, 30300 or 30302 applies (Anaes.) (Assist.) (See para TN.8.12 of explanatory notes to this Category) <b>Fee:</b> \$630.95 <b>Benefit:</b> 75% = \$473.25	
30306	TOTAL HEMITHYROIDECTOMY (Anaes.) (Assist.) (See para TN.8.137, TN.8.138 of explanatory notes to this Category) <b>Fee:</b> \$823.60 <b>Benefit:</b> 75% = \$617.70	
30310	Partial or subtotal thyroidectomy (Anaes.) (Assist.) (See para TN.8.137 of explanatory notes to this Category) <b>Fee:</b> \$823.60 <b>Benefit:</b> 75% = \$617.70	
30314	THYROGLOSSAL CYST or FISTULA or both, on a person 10 years of age or over. Radical removal of, including thyroglossal duct and portion of hyoid bone (Anaes.) (Assist.) <b>Fee:</b> \$471.65 <b>Benefit:</b> 75% = \$353.75	
30315	Minimally invasive parathyroidectomy. Removal of 1 or more parathyroid adenoma through a small cervical incision for an image localised adenoma, including thymectomy.	

<b>T8. SURGICAL OPERATIONS</b>		<b>1. GENERAL</b>
	For any particular patient - applicable only once per occasion on which the service is provided. Not in association with a service to which item 30318, 30317 or 30320 applies. (Anaes.) (Assist.) <b>Fee:</b> \$1,175.50 <b>Benefit:</b> 75% = \$881.65	
30317	Redo parathyroidectomy. Cervical re-exploration for persistent or recurrent hyperparathyroidism, including thymectomy and cervical exploration of the mediastinum. For any particular patient - applicable only once per occasion on which the service is provided. Not in association with a service to which item 30315, 30318 or 30320 applies. (Anaes.) (Assist.) <b>Fee:</b> \$1,407.55 <b>Benefit:</b> 75% = \$1055.70	
30318	Open parathyroidectomy, exploration and removal of 1 or more adenoma or hyperplastic glands via a cervical incision including thymectomy and cervical exploration of the mediastinum when performed. For any particular patient - applicable only once per occasion on which the service is provided. Not in association with a service to which item 30315, 30317 or 30320 applies. (Anaes.) (Assist.) <b>Fee:</b> \$1,175.50 <b>Benefit:</b> 75% = \$881.65	
30320	Removal of a mediastinal parathyroid adenoma via sternotomy or mediastinal thoroscopic approach. For any particular patient - applicable only once per occasion on which the service is provided. Not in association with a service to which item 30315, 30317 or 30318 applies. (Anaes.) (Assist.) <b>Fee:</b> \$1,407.55 <b>Benefit:</b> 75% = \$1055.70	
30323	Excision of phaeochromocytoma or extraadrenal paraganglioma via endoscopic or open approach. (Anaes.) (Assist.) <b>Fee:</b> \$1,407.55 <b>Benefit:</b> 75% = \$1055.70	
30324	Excision of an adrenocortical tumour or hyperplasia via endoscopic or open approach. (Anaes.) (Assist.) <b>Fee:</b> \$1,407.55 <b>Benefit:</b> 75% = \$1055.70	
30326	THYROGLOSSAL CYST or FISTULA or both, radical removal of, including thyroglossal duct and portion of hyoid bone, on a person under 10 years of age (Anaes.) (Assist.) <b>Fee:</b> \$613.15 <b>Benefit:</b> 75% = \$459.90	
30329	LYMPH NODES of GROIN, limited excision of (Anaes.) <b>Fee:</b> \$254.65 <b>Benefit:</b> 75% = \$191.00    85% = \$216.50	
30330	LYMPH NODES of GROIN, radical excision of (Anaes.) (Assist.) <b>Fee:</b> \$741.20 <b>Benefit:</b> 75% = \$555.90	
30332	LYMPH NODES of AXILLA, limited excision of (sampling) (Anaes.) (Assist.) <b>Fee:</b> \$357.60 <b>Benefit:</b> 75% = \$268.20	
30335	LYMPH NODES of AXILLA, complete excision of, to level I (Anaes.) (Assist.) (See para TN.8.13 of explanatory notes to this Category) <b>Fee:</b> \$893.90 <b>Benefit:</b> 75% = \$670.45	

<b>T8. SURGICAL OPERATIONS</b>		<b>1. GENERAL</b>
30336	<p>LYMPH NODES of AXILLA, complete excision of, to level II or level III (Anaes.) (Assist.)</p> <p>(See para TN.8.13 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$1,072.75      <b>Benefit:</b> 75% = \$804.60</p>	
30373	<p>LAPAROTOMY (exploratory), including associated biopsies, where no other intra-abdominal procedure is performed (Anaes.) (Assist.)</p> <p><b>Fee:</b> \$498.35      <b>Benefit:</b> 75% = \$373.80</p>	
30375	<p>Caecostomy, Enterostomy, Colostomy, Enterotomy, Colotomy, Cholecystostomy, Gastrostomy, Gastrotomy, on a person 10 years of age or over. Reduction of intussusception, Removal of Meckel's diverticulum, Suture of perforated peptic ulcer, Simple repair of ruptured viscus, Reduction of volvulus, Pyloroplasty (adult) or Drainage of pancreas (Anaes.) (Assist.)</p> <p>(See para TN.8.14 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$537.55      <b>Benefit:</b> 75% = \$403.20</p>	
30376	<p>LAPAROTOMY INVOLVING DIVISION OF PERITONEAL ADHESIONS (where no other intraabdominal procedure is performed) on a person 10 years of age or over (Anaes.) (Assist.)</p> <p><b>Fee:</b> \$537.55      <b>Benefit:</b> 75% = \$403.20</p>	
30378	<p>LAPAROTOMY involving division of adhesions in conjunction with another intraabdominal procedure where the time taken to divide the adhesions is between 45 minutes and 2 hours, on a person 10 years of age or over (Anaes.) (Assist.)</p> <p><b>Fee:</b> \$540.10      <b>Benefit:</b> 75% = \$405.10</p>	
30379	<p>LAPAROTOMY WITH DIVISION OF EXTENSIVE ADHESIONS (duration greater than 2 hours) with or without insertion of long intestinal tube (Anaes.) (Assist.)</p> <p><b>Fee:</b> \$957.15      <b>Benefit:</b> 75% = \$717.90</p>	
30382	<p>ENTEROCUTANEOUS FISTULA, radical repair of, involving extensive dissection and resection of bowel (Anaes.) (Assist.)</p> <p><b>Fee:</b> \$1,347.70      <b>Benefit:</b> 75% = \$1010.80</p>	
30384	<p>LAPAROTOMY FOR GRADING OF LYMPHOMA, including splenectomy, liver biopsies, lymph node biopsies and oophoropexy (Anaes.) (Assist.)</p> <p><b>Fee:</b> \$1,133.75      <b>Benefit:</b> 75% = \$850.35</p>	
30385	<p>LAPAROTOMY FOR CONTROL OF POSTOPERATIVE HAEMORRHAGE, where no other procedure is performed (Anaes.) (Assist.)</p> <p><b>Fee:</b> \$580.90      <b>Benefit:</b> 75% = \$435.70</p>	
30387	<p>LAPAROTOMY INVOLVING OPERATION ON ABDOMINAL VISCERA (including pelvic viscera), not being a service to which another item in this Group applies (Anaes.) (Assist.)</p> <p><b>Fee:</b> \$654.85      <b>Benefit:</b> 75% = \$491.15</p>	
30388	<p>LAPAROTOMY for trauma involving 3 or more organs (Anaes.) (Assist.)</p> <p><b>Fee:</b> \$1,647.45      <b>Benefit:</b> 75% = \$1235.60</p>	
30390	<p>LAPAROSCOPY, diagnostic, not being a service associated with any other laparoscopic procedure, on a person 10 years of age or over (Anaes.)</p> <p>(See para TN.8.15 of explanatory notes to this Category)</p>	

<b>T8. SURGICAL OPERATIONS</b>		<b>1. GENERAL</b>
	<b>Fee:</b> \$226.80 <b>Benefit:</b> 75% = \$170.10	
30391	LAPAROSCOPY with biopsy (Anaes.) (Assist.) <b>Fee:</b> \$293.25 <b>Benefit:</b> 75% = \$219.95	
30392	RADICAL OR DEBULKING OPERATION for advanced intra-abdominal malignancy, with or without omentectomy, as an independent procedure (Anaes.) (Assist.) <b>Fee:</b> \$695.60 <b>Benefit:</b> 75% = \$521.70	
30393	LAPAROSCOPIC DIVISION OF ADHESIONS in association with another intra-abdominal procedure where the time taken to divide the adhesions exceeds 45 minutes (Anaes.) (Assist.) <b>Fee:</b> \$540.10 <b>Benefit:</b> 75% = \$405.10	
30394	LAPAROTOMY for drainage of subphrenic abscess, pelvic abscess, appendiceal abscess, ruptured appendix or for peritonitis from any cause, with or without appendectomy (Anaes.) (Assist.) <b>Fee:</b> \$508.25 <b>Benefit:</b> 75% = \$381.20	
30396	LAPAROTOMY for gross intra peritoneal sepsis requiring debridement of fibrin, with or without removal of foreign material or enteric contents, with lavage of the entire peritoneal cavity via a major abdominal incision, with or without closure of abdomen and with or without mesh or zipper insertion (Anaes.) (Assist.) (See para TN.8.16 of explanatory notes to this Category) <b>Fee:</b> \$1,048.30 <b>Benefit:</b> 75% = \$786.25	
30397	LAPAROSTOMY, via wound previously made and left open or closed with zipper, involving change of dressings or packs, and with or without drainage of loculated collections (Anaes.) <b>Fee:</b> \$239.60 <b>Benefit:</b> 75% = \$179.70	
30399	LAPAROSTOMY, final closure of wound made at previous operation, after removal of dressings or packs and removal of mesh or zipper if previously inserted (Anaes.) (Assist.) <b>Fee:</b> \$329.55 <b>Benefit:</b> 75% = \$247.20	
30400	LAPAROTOMY WITH INSERTION OF PORTACATH for administration of cytotoxic therapy including placement of reservoir (Anaes.) (Assist.) <b>Fee:</b> \$652.25 <b>Benefit:</b> 75% = \$489.20	
30402	RETROPERITONEAL ABSCESS, drainage of, not involving laparotomy (Anaes.) (Assist.) <b>Fee:</b> \$479.15 <b>Benefit:</b> 75% = \$359.40	
30403	VENTRAL, INCISIONAL, OR RECURRENT HERNIA OR BURST ABDOMEN, repair of with or without mesh (Anaes.) (Assist.) <b>Fee:</b> \$537.55 <b>Benefit:</b> 75% = \$403.20	
30405	VENTRAL OR INCISIONAL HERNIA, (excluding recurrent inguinal or femoral hernia), repair of, requiring muscle transposition, mesh hernioplasty or resection of strangulated bowel (Anaes.) (Assist.) <b>Fee:</b> \$943.55 <b>Benefit:</b> 75% = \$707.70	
30406	PARACENTESIS ABDOMINIS (Anaes.) <b>Fee:</b> \$53.85 <b>Benefit:</b> 75% = \$40.40    85% = \$45.80	
30408	PERITONEOVENOUS shunt, insertion of (Anaes.) (Assist.)	

<b>T8. SURGICAL OPERATIONS</b>		<b>1. GENERAL</b>
	<b>Fee:</b> \$404.35 <b>Benefit:</b> 75% = \$303.30

30562	ENTEROSTOMY or COLOSTOMY, closure of (not involving resection of bowel), on a person 10 years of age or over (Anaes.) (Assist.) <b>Fee:</b> \$613.55 <b>Benefit:</b> 75% = \$460.20	
30563	COLOSTOMY OR ILEOSTOMY, refashioning of, on a person 10 years of age or over (Anaes.) (Assist.) <b>Fee:</b> \$613.55 <b>Benefit:</b> 75% = \$460.20    85% = \$528.85	
30564	SMALL BOWEL STRICTUREPLASTY for chronic inflammatory bowel disease (Anaes.) (Assist.) <b>Fee:</b> \$796.40 <b>Benefit:</b> 75% = \$597.30	
30565	SMALL INTESTINE, resection of, without anastomosis (including formation of stoma) (Anaes.) (Assist.) <b>Fee:</b> \$898.55 <b>Benefit:</b> 75% = \$673.95	
30566	SMALL INTESTINE, resection of, with anastomosis, on a person 10 years of age or over (Anaes.) (Assist.) <b>Fee:</b> \$998.10 <b>Benefit:</b> 75% = \$748.60	
30568	INTRAOPERATIVE ENTEROTOMY for visualisation of the small intestine by endoscopy (Anaes.) (Assist.) <b>Fee:</b> \$748.70 <b>Benefit:</b> 75% = \$561.55	
30569	ENDOSCOPIC EXAMINATION of SMALL BOWEL with flexible endoscope passed at laparotomy, with or without biopsies (Anaes.) (Assist.) <b>Fee:</b> \$381.75 <b>Benefit:</b> 75% = \$286.35	
30571	APPENDICECTOMY, not being a service to which item 30574 applies on a person 10 years of age or over (Anaes.) (Assist.) <b>Fee:</b> \$459.35 <b>Benefit:</b> 75% = \$344.55	
30572	LAPAROSCOPIC APPENDICECTOMY, on a person 10 years of age or over (Anaes.) (Assist.) <b>Fee:</b> \$459.35 <b>Benefit:</b> 75% = \$344.55	
30574	NOTE: <i>Multiple Operation and Multiple Anaesthetic rules apply to this item</i>  APPENDICECTOMY, when performed in conjunction with any other intraabdominal procedure through the same incision (Anaes.) <b>Fee:</b> \$127.10 <b>Benefit:</b> 75% = \$95.35	
30575	PANCREATIC ABSCESS, laparotomy and external drainage of, not requiring retro-pancreatic dissection (Anaes.) (Assist.) <b>Fee:</b> \$528.70 <b>Benefit:</b> 75% = \$396.55	
30577	PANCREATIC NECROSECTOMY for PANCREATIC NECROSIS or ABSCESS FORMATION	

T8. SURGICAL OPERATIONS		1. GENERAL
	requiring major pancreatic or retro-pancreatic dissection, excluding aftercare (Anaes.) (Assist.) <b>Fee:</b> \$1,123.20 <b>Benefit:</b> 75% = \$842.40	
30578	ENDOCRINE TUMOUR, exploration of pancreas or duodenum, followed by local excision of pancreatic tumour (Anaes.) (Assist.) <b>Fee:</b> \$1,183.05 <b>Benefit:</b> 75% = \$887.30	
30580	ENDOCRINE TUMOUR, exploration of pancreas or duodenum, followed by local excision of duodenal tumour (Anaes.) (Assist.) <b>Fee:</b> \$1,078.10 <b>Benefit:</b> 75% = \$808.60	
30581	ENDOCRINE TUMOUR, exploration of pancreas or duodenum for, but no tumour found (Anaes.) (Assist.) <b>Fee:</b> \$786.15 <b>Benefit:</b> 75% = \$589.65	
30583	DISTAL PANCREATECTOMY (Anaes.) (Assist.) <b>Fee:</b> \$1,231.55 <b>Benefit:</b> 75% = \$923.70	
30584	PANCREATICO-DUODENECTOMY, WHIPPLE'S OPERATION, with or without preservation of pylorus (Anaes.) (Assist.) <b>Fee:</b> \$1,817.80 <b>Benefit:</b> 75% = \$1363.35	
30586	PANCREATIC CYST ANASTOMOSIS TO STOMACH OR DUODENUM - by open or endoscopic means (Anaes.) (Assist.) <b>Fee:</b> \$723.20 <b>Benefit:</b> 75% = \$542.40	
30587	PANCREATIC CYST, anastomosis to Roux loop of jejunum (Anaes.) (Assist.) <b>Fee:</b> \$748.70 <b>Benefit:</b> 75% = \$561.55	
30589	PANCREATICO-JEJUNOSTOMY for pancreatitis or trauma (Anaes.) (Assist.) <b>Fee:</b> \$1,290.15 <b>Benefit:</b> 75% = \$967.65	
30590	PANCREATICO-JEJUNOSTOMY following previous pancreatic surgery (Anaes.) (Assist.) <b>Fee:</b> \$1,422.55 <b>Benefit:</b> 75% = \$1066.95	
30593	PANCREATECTOMY, near total or total (including duodenum), with or without splenectomy (Anaes.) (Assist.) <b>Fee:</b> \$1,946.70 <b>Benefit:</b> 75% = \$1460.05    85% = \$1862.00	
30594	PANCREATECTOMY for pancreatitis following previously attempted drainage procedure or partial resection (Anaes.) (Assist.) <b>Fee:</b> \$2,246.30 <b>Benefit:</b> 75% = \$1684.75	
30596	SPLENORRHAPHY OR PARTIAL SPLENECTOMY (Anaes.) (Assist.) <b>Fee:</b> \$925.30 <b>Benefit:</b> 75% = \$694.00	
30597	SPLENECTOMY (Anaes.) (Assist.) <b>Fee:</b> \$742.70 <b>Benefit:</b> 75% = \$557.05	
30599	SPLENECTOMY, for massive spleen (weighing more than 1500 grams) or involving thoraco-abdominal	

T8. SURGICAL OPERATIONS		1. GENERAL
	incision (Anaes.) (Assist.) <b>Fee:</b> \$1,347.70 <b>Benefit:</b> 75% = \$1010.80	
30600	DIAPHRAGMATIC HERNIA, TRAUMATIC, repair of (Anaes.) (Assist.) <b>Fee:</b> \$801.40 <b>Benefit:</b> 75% = \$601.05	
30601	Diaphragmatic hernia, congenital repair of, by thoracic or abdominal approach, not being a service to which any of items 31569 to 31581 apply, on a person 10 years of age or over (Anaes.) (Assist.) <b>Fee:</b> \$987.20 <b>Benefit:</b> 75% = \$740.40	
30602	PORTAL HYPERTENSION, porto-caval shunt for (Anaes.) (Assist.) <b>Fee:</b> \$1,602.25 <b>Benefit:</b> 75% = \$1201.70	
30603	PORTAL HYPERTENSION, meso-caval shunt for (Anaes.) (Assist.) <b>Fee:</b> \$1,692.15 <b>Benefit:</b> 75% = \$1269.15    85% = \$1607.45	
30605	PORTAL HYPERTENSION, selective spleno-renal shunt for (Anaes.) (Assist.) <b>Fee:</b> \$1,924.25 <b>Benefit:</b> 75% = \$1443.20	
30606	PORTAL HYPERTENSION, oesophageal transection via stapler or oversew of gastric varices with or without devascularisation (Anaes.) (Assist.) <b>Fee:</b> \$1,145.50 <b>Benefit:</b> 75% = \$859.15	
30608	SMALL INTESTINE, resection of, with anastomosis, on a person under 10 years of age (Anaes.) (Assist.) <b>Fee:</b> \$1,297.55 <b>Benefit:</b> 75% = \$973.20	
30609	FEMORAL OR INGUINAL HERNIA, laparoscopic repair of, not being a service associated with a service to which item 30614 applies (Anaes.) (Assist.) <b>Fee:</b> \$479.05 <b>Benefit:</b> 75% = \$359.30	
30611	BENIGN TUMOUR of SOFT TISSUE, excluding tumours of skin, cartilage, and bone, simple lipomas covered by item 31345 and lipomata - removal of by surgical excision, where the specimen excised is sent for histological confirmation of diagnosis, on a person under 10 years of age, not being a service to which another item in this Group applies (Anaes.) (Assist.) <b>Fee:</b> \$580.95 <b>Benefit:</b> 75% = \$435.75    85% = \$496.25	
30614	FEMORAL OR INGUINAL HERNIA OR INFANTILE HYDROCELE, repair of, not being a service to which item 30403 or 30615 applies, on a person 10 years of age or over (Anaes.) (Assist.) <b>Fee:</b> \$479.05 <b>Benefit:</b> 75% = \$359.30	
30615	STRANGULATED, INCARCERATED OR OBSTRUCTED HERNIA, repair of, without bowel resection, on a person 10 years of age or over (Anaes.) (Assist.) <b>Fee:</b> \$537.55 <b>Benefit:</b> 75% = \$403.20	
30618	LYMPH NODES OF NECK, selective dissection of 1 or 2 lymph node levels involving removal of soft tissue and lymph nodes from one side of the neck, on a person under 10 years of age (Anaes.) (Assist.) (See para TN.8.24 of explanatory notes to this Category) <b>Fee:</b> \$538.55 <b>Benefit:</b> 75% = \$403.95    85% = \$457.80	

<b>T8. SURGICAL OPERATIONS</b>		<b>1. GENERAL</b>
30619	LAPAROSCOPIC SPLENECTOMY, on a person under 10 years of age (Anaes.) (Assist.) <b>Fee:</b> \$965.50 <b>Benefit:</b> 75% = \$724.15	
30621	Repair of symptomatic umbilical, epigastric or linea alba hernia requiring mesh or other formal repair of, in a person 10 years of age or over, other than a service to which item 30403 or 30405 applies (Anaes.) (Assist.) <b>Fee:</b> \$420.20 <b>Benefit:</b> 75% = \$315.15	
30622	Caecostomy, Enterostomy, Colostomy, Enterotomy, Colotomy, Cholecystostomy, Gastrostomy, Gastrotomy, Reduction of intussusception, Removal of Meckel's diverticulum, Suture of perforated peptic ulcer, Simple repair of ruptured viscus, Reduction of volvulus, Pyloroplasty or Drainage of pancreas on a person under 10 years of age (Anaes.) (Assist.)  (See para TN.8.14 of explanatory notes to this Category) <b>Fee:</b> \$698.85 <b>Benefit:</b> 75% = \$524.15	
30623	LAPAROTOMY INVOLVING DIVISION OF PERITONEAL ADHESIONS (where no other intraabdominal procedure is performed) on a person under 10 years of age (Anaes.) (Assist.) <b>Fee:</b> \$698.85 <b>Benefit:</b> 75% = \$524.15	
30626	LAPAROTOMY involving division of adhesions in conjunction with another intraabdominal procedure where the time taken to divide the adhesions is between 45 minutes and 2 hours, on a person under 10 years of age (Anaes.) (Assist.) <b>Fee:</b> \$702.10 <b>Benefit:</b> 75% = \$526.60	
30627	LAPAROSCOPY, diagnostic, not being a service associated with any other laparoscopic procedure, on a person under 10 years of age (Anaes.)  (See para TN.8.15 of explanatory notes to this Category) <b>Fee:</b> \$294.90 <b>Benefit:</b> 75% = \$221.20	
30628	HYDROCELE, tapping of <b>Fee:</b> \$36.70 <b>Benefit:</b> 75% = \$27.55    85% = \$31.20	
30629	Orchidectomy, radical, including spermatic cord, unilateral, for tumour, inguinal approach, without insertion of testicular prosthesis, other than a service associated with a service to which item 30631, 30635, 30641, 30643 or 30644 applies  (Anaes.) (Assist.) <b>Fee:</b> \$537.55 <b>Benefit:</b> 75% = \$403.20	
30630	Insertion of testicular prosthesis, at least 6 months following orchidectomy (Anaes.) (Assist.) <b>Fee:</b> \$488.55 <b>Benefit:</b> 75% = \$366.45	
30631	Hydrocele, removal of, other than a service associated with a service to which item 30641, 30642 or 30644 applies (Anaes.) <b>Fee:</b> \$244.05 <b>Benefit:</b> 75% = \$183.05    85% = \$207.45	
30635	Varicocele, surgical correction of, including microsurgical techniques, other than a service associated with a service to which item 30390, 30627, 30641, 30642 or 30644 applies—one procedure (Anaes.) (Assist.) <b>Fee:</b> \$300.90 <b>Benefit:</b> 75% = \$225.70	

<b>T8. SURGICAL OPERATIONS</b>		<b>1. GENERAL</b>
30636	<p>GASTROSTOMY BUTTON, caecostomy antegrade enema device (chait etc) and/or stomal indwelling device, non-endoscopic insertion of, or non-endoscopic replacement of, on a person under 10 years of age (Anaes.)</p> <p><b>Fee:</b> \$240.45      <b>Benefit:</b> 75% = \$180.35    85% = \$204.40</p>	
30637	<p>ENTEROSTOMY or COLOSTOMY, closure of not involving resection of bowel, on a person under 10 years of age (Anaes.) (Assist.)</p> <p><b>Fee:</b> \$797.70      <b>Benefit:</b> 75% = \$598.30</p>	
30639	<p>COLOSTOMY OR ILEOSTOMY, refashioning of, on a person under 10 years of age (Anaes.) (Assist.)</p> <p><b>Fee:</b> \$797.70      <b>Benefit:</b> 75% = \$598.30    85% = \$713.00</p>	
30640	<p>Repair of large and irreducible scrotal hernia, where duration of surgery exceeds 2 hours, in a person 10 years of age or over, other than a service to which item 30403, 30405, 30614, 30615 or 30621 applies (Anaes.) (Assist.)</p> <p><b>Fee:</b> \$943.55      <b>Benefit:</b> 75% = \$707.70</p>	
30641	<p>ORCHIDECTOMY, simple or subscapsular, unilateral with or without insertion of testicular prosthesis (Anaes.) (Assist.)</p> <p><b>Fee:</b> \$420.20      <b>Benefit:</b> 75% = \$315.15</p>	
30642	<p>Orchidectomy, radical, including spermatic cord, unilateral, for tumour, inguinal approach, with insertion of testicular prosthesis, other than a service associated with a service to which item 30631, 30635, 30641, 30643, 30644 or 45051 applies (Anaes.) (Assist.)</p> <p><b>Fee:</b> \$781.85      <b>Benefit:</b> 75% = \$586.40</p>	
30643	<p>Exploration of spermatic cord, inguinal approach, with or without testicular biopsy, with or without excision of spermatic cord lesion, for a patient under 10 years of age, other than a service associated with a service to which item 30629, 30630 or 30642 applies (Anaes.) (Assist.)</p> <p><b>Fee:</b> \$698.85      <b>Benefit:</b> 75% = \$524.15</p>	
30644	<p>Exploration of spermatic cord, inguinal approach, with or without testicular biopsy, with or without excision of spermatic cord lesion, for a patient at least 10 years of age, other than a service associated with a service to which item 30629, 30630 or 30642 applies (Anaes.) (Assist.)</p> <p><b>Fee:</b> \$537.55      <b>Benefit:</b> 75% = \$403.20</p>	
30645	<p>APPENDICECTOMY, not being a service to which item 30574 applies, on a person under 10 years of age (Anaes.) (Assist.)</p> <p><b>Fee:</b> \$597.05      <b>Benefit:</b> 75% = \$447.80</p>	
30646	<p>LAPAROSCOPIC APPENDICECTOMY, on a person under 10 years of age (Anaes.) (Assist.)</p> <p><b>Fee:</b> \$597.05      <b>Benefit:</b> 75% = \$447.80</p>	
30649	<p>HAEMORRHAGE, arrest of, following circumcision requiring general anaesthesia on a person under 10 years of age (Anaes.)</p> <p><b>Fee:</b> \$193.50      <b>Benefit:</b> 75% = \$145.15    85% = \$164.50</p>	
30654	<p>Circumcision of the penis, with topical or local analgesia, other than a service to which item 30658 applies</p> <p><b>Fee:</b> \$47.95      <b>Benefit:</b> 75% = \$36.00    85% = \$40.80</p>	

<b>T8. SURGICAL OPERATIONS</b>		<b>1. GENERAL</b>
30658	Circumcision of the penis, when performed under general or regional anaesthesia and in conjunction with a service to which an item in Group T7 or Group T10 applies (Anaes.) <b>Fee:</b> \$146.40 <b>Benefit:</b> 75% = \$109.80    85% = \$124.45	
30663	HAEMORRHAGE, arrest of, following circumcision requiring general anaesthesia on a person 10 years of age or over (Anaes.) <b>Fee:</b> \$148.85 <b>Benefit:</b> 75% = \$111.65    85% = \$126.55	
30666	PARAPHIMOSIS or PHIMOSIS, reduction of, under general anaesthesia, with or without dorsal incision, not being a service associated with a service to which another item in this Group applies (Anaes.) <b>Fee:</b> \$48.90 <b>Benefit:</b> 75% = \$36.70    85% = \$41.60	
30672	COCCYX, excision of (Anaes.) (Assist.) <b>Fee:</b> \$459.35 <b>Benefit:</b> 75% = \$344.55	
30676	PILONIDAL SINUS OR CYST, OR SACRAL SINUS OR CYST, excision of (Anaes.) <b>Fee:</b> \$390.90 <b>Benefit:</b> 75% = \$293.20    85% = \$332.30	
30679	PILONIDAL SINUS, injection of sclerosant fluid under anaesthesia (Anaes.) <b>Fee:</b> \$99.30 <b>Benefit:</b> 75% = \$74.50    85% = \$84.45	
30680	<p>Balloon enteroscopy, examination of the small bowel (oral approach), with or without biopsy, WITHOUT intraprocedural therapy, for diagnosis of patients with obscure gastrointestinal bleeding, not in association with another item in this subgroup (with the exception of item 30682 or 30686)</p> <p>The patient to whom the service is provided must:</p> <ul style="list-style-type: none"> <li>(i) have recurrent or persistent bleeding; and</li> <li>(ii) be anaemic or have active bleeding; and</li> <li>(iii) have had an upper gastrointestinal endoscopy and a colonoscopy performed which did not identify the cause of the bleeding. <b>T8. SURGICAL OPERATIONS</b>		<b>1. GENERAL</b>
31368	<p>Non-malignant skin lesion (other than viral verrucae (common warts) and seborrheic keratoses), including a cyst, ulcer or scar (other than a scar removed during the surgical approach at an operation), surgical excision (other than by shave excision) and repair of, if:</p> <p>(a) the lesion is excised from any part of the body not covered by item 31357, 31360, 31362 or 31364; and</p> <p>(b) the necessary excision diameter is at least 15 mm but not more than 30mm; and</p> <p>(c) the excised specimen is sent for histological examination;</p> <p>not in association with item 45201 (Anaes.)</p> <p>(See para TN.8.22, TN.8.125 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$129.45      <b>Benefit:</b> 75% = \$97.10    85% = \$110.05</p>	
31369	<p>Malignant skin lesion (other than a malignant skin lesion covered by item 31371, 31372, 31373, 31374, 31375 or 31376), surgical excision (other than by shave excision) and repair of, if:</p> <p>(a) the lesion is excised from any part of the body not covered by item 31356, 31358, 31359, 31361 or 31363; and</p> <p>(b) the necessary excision diameter is more than 30 mm; and</p> <p>(c) the excised specimen is sent for histological examination; and</p> <p>(d) malignancy is confirmed from the excised specimen or previous biopsy (Anaes.)</p> <p>(See para TN.8.22, TN.8.125 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$253.60      <b>Benefit:</b> 75% = \$190.20    85% = \$215.60</p>	
31370	<p>Non-malignant skin lesion (other than viral verrucae (common warts) and seborrheic keratoses), including a cyst, ulcer or scar (other than a scar removed during the surgical approach at an operation), surgical excision (other than by shave excision) and repair of, if:</p> <p>(a) the lesion is excised from any part of the body not covered by item 31357, 31360, 31362 or 31364; and</p> <p>(b) the necessary excision diameter is more than 30 mm; and</p> <p>(c) the excised specimen is sent for histological examination (Anaes.)</p> <p>(See para TN.8.22, TN.8.125 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$148.05      <b>Benefit:</b> 75% = \$111.05    85% = \$125.85</p>	
31371	<p>Malignant melanoma, appendageal carcinoma, malignant connective tissue tumour of skin or merkel cell carcinoma of skin, definitive surgical excision (other than by shave excision) and repair of, if:</p> <p>(a) the tumour is excised from nose, eyelid, eyebrow, lip, ear, digit or genitalia, or from a contiguous area; and</p> <p>(b) the necessary excision diameter is 6 mm or more; and</p> <p>(c) the excised specimen is sent for histological examination; and</p> <p>(d) malignancy is confirmed from the excised specimen or previous biopsy (Anaes.)</p> <p>(See para TN.8.22, TN.8.125 of explanatory notes to this Category)</p>	

<b>T8. SURGICAL OPERATIONS</b>		<b>1. GENERAL</b>
	<b>Fee:</b> \$368.15 <b>Benefit:</b> 75% = \$276.15    85% = \$312.95	
31372	<p>Malignant melanoma, appendageal carcinoma, malignant connective tissue tumour of skin or merkel cell carcinoma of skin, definitive surgical excision (other than by shave excision) and repair of, if:</p> <p>(a) the tumour is excised from face, neck, scalp, nipple-areola complex, distal lower limb (distal to, and including, the knee) or distal upper limb (distal to, and including, the ulnar styloid); and</p> <p>(b) the necessary excision diameter is less than 14 mm; and</p> <p>(c) the excised specimen is sent for histological examination; and</p> <p>(d) malignancy is confirmed from the excised specimen or previous biopsy;</p> <p>not in association with item 45201 (Anaes.)</p> <p>(See para TN.8.23, TN.8.22, TN.8.125 of explanatory notes to this Category)</p> <b>Fee:</b> \$318.35 <b>Benefit:</b> 75% = \$238.80    85% = \$270.60	
31373	<p>Malignant melanoma, appendageal carcinoma, malignant connective tissue tumour of skin or merkel cell carcinoma of skin, definitive surgical excision (other than by shave excision) and repair of, if:</p> <p>(a) the tumour is excised from face, neck, scalp, nipple-areola complex, distal lower limb (distal to, and including, the knee) or distal upper limb (distal to, and including, the ulnar styloid); and</p> <p>(b) the necessary excision diameter is 14 mm or more; and</p> <p>(c) the excised specimen is sent for histological examination; and</p> <p>(d) malignancy is confirmed from the excised specimen or previous biopsy (Anaes.)</p> <p>(See para TN.8.23, TN.8.22, TN.8.125 of explanatory notes to this Category)</p> <b>Fee:</b> \$367.95 <b>Benefit:</b> 75% = \$276.00    85% = \$312.80	
31374	<p>Malignant melanoma, appendageal carcinoma, malignant connective tissue tumour of skin or merkel cell carcinoma of skin, definitive surgical excision (other than by shave excision) and repair of, if:</p> <p>(a) the tumour is excised from any part of the body not covered by item 31371, 31372 or 31373; and</p> <p>(b) the necessary excision diameter is less than 15 mm; and</p> <p>(c) the excised specimen is sent for histological examination; and</p> <p>(d) malignancy is confirmed from the excised specimen or previous biopsy;</p> <p>not in association with item 45201 (Anaes.)</p> <p>(See para TN.8.125, TN.1.21 of explanatory notes to this Category)</p> <b>Fee:</b> \$290.70 <b>Benefit:</b> 75% = \$218.05    85% = \$247.10	
31375	<p>Malignant melanoma, appendageal carcinoma, malignant connective tissue tumour of skin or merkel cell carcinoma of skin, definitive surgical excision (other than by shave excision) and repair of, if:</p> <p>(a) the tumour is excised from any part of the body not covered by item 31371, 31372 or 31373; and</p>	

<b>T8. SURGICAL OPERATIONS</b>		<b>1. GENERAL</b>
	<p>(b) the necessary excision diameter is at least 15 mm but not more than 30 mm; and</p> <p>(c) the excised specimen is sent for histological examination; and</p> <p>(d) malignancy is confirmed from the excised specimen or previous biopsy;</p> <p>not in association with item 45201 (Anaes.)</p> <p>(See para TN.8.22, TN.8.125 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$312.85      <b>Benefit:</b> 75% = \$234.65    85% = \$265.95</p>	
31376	<p>Malignant melanoma, appendageal carcinoma, malignant connective tissue tumour of skin or merkel cell carcinoma of skin, definitive surgical excision (other than by shave excision) and repair of, if:</p> <p>(a) the tumour is excised from any part of the body not covered by item 31371, 31372 or 31373; and</p> <p>(b) the necessary excision diameter is more than 30 mm; and</p> <p>(c) the excised specimen is sent for histological examination; and</p> <p>(d) malignancy is confirmed from the excised specimen or previous biopsy (Anaes.)</p> <p>(See para TN.8.22, TN.8.125 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$362.60      <b>Benefit:</b> 75% = \$271.95    85% = \$308.25</p>	
31400	<p>MALIGNANT UPPER AERODIGESTIVE TRACT TUMOUR up to and including 20mm in diameter (excluding tumour of the lip), excision of, where histological confirmation of malignancy has been obtained (Anaes.) (Assist.)</p> <p><b>Fee:</b> \$269.25      <b>Benefit:</b> 75% = \$201.95    85% = \$228.90</p>	
31403	<p>MALIGNANT UPPER AERODIGESTIVE TRACT TUMOUR more than 20mm and up to and including 40mm in diameter (excluding tumour of the lip), excision of, where histological confirmation of malignancy has been obtained (Anaes.) (Assist.)</p> <p><b>Fee:</b> \$310.75      <b>Benefit:</b> 75% = \$233.10</p>	
31406	<p>MALIGNANT UPPER AERODIGESTIVE TRACT TUMOUR more than 40mm in diameter (excluding tumour of the lip), excision of, where histological confirmation of malignancy has been obtained (Anaes.) (Assist.)</p> <p><b>Fee:</b> \$517.85      <b>Benefit:</b> 75% = \$388.40    85% = \$440.20</p>	
31409	<p>PARAPHARYNGEAL TUMOUR, excision of, by cervical approach (Anaes.) (Assist.)</p> <p><b>Fee:</b> \$1,608.90      <b>Benefit:</b> 75% = \$1206.70</p>	
31412	<p>RECURRENT OR PERSISTENT PARAPHARYNGEAL TUMOUR, excision of, by cervical approach (Anaes.) (Assist.)</p> <p><b>Fee:</b> \$1,981.80      <b>Benefit:</b> 75% = \$1486.35</p>	
31420	<p>LYMPH NODE OF NECK, biopsy of (Anaes.)</p> <p><b>Fee:</b> \$189.65      <b>Benefit:</b> 75% = \$142.25    85% = \$161.25</p>	
31423	<p>LYMPH NODES OF NECK, selective dissection of 1 or 2 lymph node levels involving removal of soft tissue and lymph nodes from one side of the neck, on a person 10 years of age or over (Anaes.) (Assist.)</p> <p>(See para TN.8.24 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$414.30      <b>Benefit:</b> 75% = \$310.75    85% = \$352.20</p>	

<b>T8. SURGICAL OPERATIONS</b>		<b>1. GENERAL</b>
31426	<p>LYMPH NODES OF NECK, selective dissection of 3 lymph node levels involving removal of soft tissue and lymph nodes from one side of the neck (Anaes.) (Assist.)</p> <p>(See para TN.8.24 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$828.55      <b>Benefit:</b> 75% = \$621.45</p>	
31429	<p>LYMPH NODES OF NECK, selective dissection of 4 lymph node levels on one side of the neck with preservation of one or more of: internal jugular vein, sternocleido-mastoid muscle, or spinal accessory nerve (Anaes.) (Assist.)</p> <p>(See para TN.8.24 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$1,291.25      <b>Benefit:</b> 75% = \$968.45</p>	
31432	<p>LYMPH NODES OF NECK, bilateral selective dissection of levels I, II and III (bilateral supraomohyoid dissections) (Anaes.) (Assist.)</p> <p>(See para TN.8.24 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$1,381.00      <b>Benefit:</b> 75% = \$1035.75</p>	
31435	<p>LYMPH NODES OF NECK, comprehensive dissection of all 5 lymph node levels on one side of the neck (Anaes.) (Assist.)</p> <p>(See para TN.8.24 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$1,015.05      <b>Benefit:</b> 75% = \$761.30</p>	
31438	<p>LYMPH NODES OF NECK, comprehensive dissection of all 5 lymph node levels on one side of the neck with preservation of one or more of: internal jugular vein, sternocleido-mastoid muscle, or spinal accessory nerve (Anaes.) (Assist.)</p> <p>(See para TN.8.24 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$1,608.90      <b>Benefit:</b> 75% = \$1206.70</p>	
31450	<p>LAPAROSCOPIC DIVISION OF ADHESIONS, as an independent procedure, where the time taken is 1 hour or less (Anaes.) (Assist.)</p> <p><b>Fee:</b> \$419.35      <b>Benefit:</b> 75% = \$314.55</p>	
31452	<p>LAPAROSCOPIC DIVISION OF ADHESIONS, as an independent procedure, where the time taken in more than 1 hour (Anaes.) (Assist.)</p> <p><b>Fee:</b> \$733.75      <b>Benefit:</b> 75% = \$550.35</p>	
31454	<p>LAPAROSCOPY with drainage of pus, bile or blood, as an independent procedure (Anaes.) (Assist.)</p> <p><b>Fee:</b> \$580.90      <b>Benefit:</b> 75% = \$435.70</p>	
31456	<p>GASTROSCOPY and insertion of nasogastric or nasoenteral feeding tube, where blind insertion of the feeding tube has failed or is inappropriate due to the patient's medical condition (Anaes.)</p> <p><b>Fee:</b> \$253.25      <b>Benefit:</b> 75% = \$189.95</p>	
31458	<p>GASTROSCOPY and insertion of nasogastric or nasoenteral feeding tube, where blind insertion of the feeding tube has failed or is inappropriate due to the patient's medical condition, and where the use of imaging intensification is clinically indicated (Anaes.)</p> <p><b>Fee:</b> \$303.85      <b>Benefit:</b> 75% = \$227.90</p>	
31460	<p>PERCUTANEOUS GASTROSTOMY TUBE, jejunal extension to, including any associated imaging services (Anaes.) (Assist.)</p> <p><b>Fee:</b> \$368.15      <b>Benefit:</b> 75% = \$276.15</p>	
31462	<p>OPERATIVE FEEDING JEJUNOSTOMY performed in conjunction with major upper gastro-intestinal</p>	

T8. SURGICAL OPERATIONS		1. GENERAL
	resection (Anaes.) (Assist.) <b>Fee:</b> \$537.55 <b>Benefit:</b> 75% = \$403.20	
31464	ANTIREFLUX OPERATION BY FUNDOPLASTY, via abdominal or thoracic approach, with or without closure of the diaphragmatic hiatus, by laparoscopic technique - not being a service to which item 30601 applies (Anaes.) (Assist.)  (See para TN.8.19 of explanatory notes to this Category) <b>Fee:</b> \$898.55 <b>Benefit:</b> 75% = \$673.95	
31466	ANTIREFLUX OPERATION BY FUNDOPLASTY, via abdominal or thoracic approach, with or without closure of the diaphragmatic hiatus, revision procedure, by laparoscopy or open operation (Anaes.) (Assist.)  (See para TN.8.19 of explanatory notes to this Category) <b>Fee:</b> \$1,347.75 <b>Benefit:</b> 75% = \$1010.85	
31468	PARA-OESOPHAGEAL HIATUS HERNIA, repair of, with complete reduction of hernia, resection of sac and repair of hiatus, with or without fundoplication (Anaes.) (Assist.)  <b>Fee:</b> \$1,480.70 <b>Benefit:</b> 75% = \$1110.55	
31470	LAPAROSCOPIC SPLENECTOMY, on a person 10 years of age or over (Anaes.) (Assist.)  <b>Fee:</b> \$742.70 <b>Benefit:</b> 75% = \$557.05	
31472	CHOLECYSTODUODENOSTOMY, CHOLECYSTOENTEROSTOMY, CHOLEDOCHOJEJUNOSTOMY OR ROUX-EN-Y as a bypass procedure where prior biliary surgery has been performed (Anaes.) (Assist.)  <b>Fee:</b> \$1,206.35 <b>Benefit:</b> 75% = \$904.80	
31500	BREAST, BENIGN LESION up to and including 50mm in diameter, including simple cyst, fibroadenoma or fibrocystic disease, open surgical biopsy or excision of, with or without frozen section histology (Anaes.)  (See para TN.8.25 of explanatory notes to this Category) <b>Fee:</b> \$268.15 <b>Benefit:</b> 75% = \$201.15    85% = \$227.95	
31503	BREAST, BENIGN LESION more than 50mm in diameter, excision of (Anaes.) (Assist.)  (See para TN.8.25 of explanatory notes to this Category) <b>Fee:</b> \$357.60 <b>Benefit:</b> 75% = \$268.20    85% = \$304.00	
31506	BREAST, ABNORMALITY detected by mammography or ultrasound where guidewire or other localisation procedure is performed, excision biopsy of (Anaes.) (Assist.)  (See para TN.8.25 of explanatory notes to this Category) <b>Fee:</b> \$402.30 <b>Benefit:</b> 75% = \$301.75	
31509	BREAST, MALIGNANT TUMOUR, open surgical biopsy of, with or without frozen section histology (Anaes.)  (See para TN.8.25 of explanatory notes to this Category) <b>Fee:</b> \$357.60 <b>Benefit:</b> 75% = \$268.20    85% = \$304.00	
31512	BREAST, MALIGNANT TUMOUR, complete local excision of, with or without frozen section histology (Anaes.) (Assist.)  <b>Fee:</b> \$670.45 <b>Benefit:</b> 75% = \$502.85	
31515	BREAST, TUMOUR SITE, re-excision of following open biopsy or incomplete excision of malignant	

<b>T8. SURGICAL OPERATIONS</b>		<b>1. GENERAL</b>
	tumour (Anaes.) (Assist.)  (See para TN.8.25 of explanatory notes to this Category) <b>Fee:</b> \$449.80 <b>Benefit:</b> 75% = \$337.35	
<b>Amend</b> 31516	BREAST, MALIGNANT TUMOUR, complete local excision of, with or without frozen section histology when targeted intraoperative radiation therapy (using an Intrabeam® or Xofig® Axxent® device) is performed concurrently, if the patient satisfies the requirements mentioned in paragraphs (a) to (g) of item 15900  Applicable only once per breast per lifetime (H) (Anaes.) (Assist.) <b>Fee:</b> \$894.05 <b>Benefit:</b> 75% = \$670.55	
31519	BREAST, total mastectomy (H) (Anaes.) (Assist.) <b>Fee:</b> \$759.05 <b>Benefit:</b> 75% = \$569.30	
31524	BREAST, subcutaneous mastectomy (H) (Anaes.) (Assist.) <b>Fee:</b> \$1,072.75 <b>Benefit:</b> 75% = \$804.60	
31525	BREAST, mastectomy for gynecomastia, with or without liposuction (suction assisted lipolysis), not being a service associated with a service to which item 45585 applies (H) (Anaes.) (Assist.) <b>Fee:</b> \$536.20 <b>Benefit:</b> 75% = \$402.15	
31530	Breast, biopsy of solid tumour or tissue of, using a vacuum-assisted breast biopsy device under imaging guidance, for histological examination, if imaging has demonstrated: (a) microcalcification of lesion; or (b) impalpable lesion less than one cm in diameter; including pre-operative localisation of lesion, if performed, other than a service associated with a service to which item 31548 applies <b>Fee:</b> \$614.30 <b>Benefit:</b> 75% = \$460.75    85% = \$529.60	
31533	FINE NEEDLE ASPIRATION of an impalpable breast lesion detected by mammography or ultrasound, imaging guided - but not including imaging (Anaes.)  (See para TN.8.26 of explanatory notes to this Category) <b>Fee:</b> \$142.20 <b>Benefit:</b> 75% = \$106.65    85% = \$120.90	
31536	Breast, preoperative localisation of lesion of, by hookwire or similar device, using interventional imaging techniques, but not including imaging (Anaes.) (Anaes.) <b>Fee:</b> \$195.35 <b>Benefit:</b> 75% = \$146.55    85% = \$166.05	
31548	Breast, biopsy of solid tumour or tissue of, using mechanical biopsy device, for histological examination, other than a service associated with a service to which item 31530 applies (Anaes.) (Anaes.)  (See para TN.8.26 of explanatory notes to this Category) <b>Fee:</b> \$206.25 <b>Benefit:</b> 75% = \$154.70    85% = \$175.35	
31551	BREAST, HAEMATOMA, SEROMA OR INFLAMMATORY CONDITION including abscess, granulomatous mastitis or similar, exploration and drainage of when undertaken in the operating theatre of a hospital, excluding aftercare (Anaes.) <b>Fee:</b> \$223.50 <b>Benefit:</b> 75% = \$167.65	
31554	BREAST, microdochotomy of, for benign or malignant condition (Anaes.) (Assist.)	

<b>T8. SURGICAL OPERATIONS</b>		<b>1. GENERAL</b>
	<b>Fee:</b> \$447.05 <b>Benefit:</b> 75% = \$335.30	
31557	BREAST CENTRAL DUCTS, excision of, for benign condition (Anaes.) (Assist.) <b>Fee:</b> \$357.60 <b>Benefit:</b> 75% = \$268.20    85% = \$304.00	
31560	ACCESSORY BREAST TISSUE, excision of (Anaes.) (Assist.) <b>Fee:</b> \$357.60 <b>Benefit:</b> 75% = \$268.20    85% = \$304.00 <b>Extended Medicare Safety Net Cap:</b> \$286.10	
31563	INVERTED NIPPLE, surgical eversion of (Anaes.) <b>Fee:</b> \$267.85 <b>Benefit:</b> 75% = \$200.90    85% = \$227.70	
31566	ACCESSORY NIPPLE, excision of (Anaes.) <b>Fee:</b> \$134.05 <b>Benefit:</b> 75% = \$100.55    85% = \$113.95	
<b>BARIATRIC</b>		
31569	Adjustable gastric band, placement of, with or without crural repair taking 45 minutes or less, for a patient with clinically severe obesity (Anaes.) (Assist.)  (See para TN.8.29 of explanatory notes to this Category) <b>Fee:</b> \$876.10 <b>Benefit:</b> 75% = \$657.10	
31572	Gastric bypass by Roux-en-Y including associated anastomoses, with or without crural repair taking 45 minutes or less, for a patient with clinically severe obesity not being associated with a service to which item 30515 applies (Anaes.) (Assist.)  (See para TN.8.29 of explanatory notes to this Category) <b>Fee:</b> \$1,078.10 <b>Benefit:</b> 75% = \$808.60	
31575	Sleeve gastrectomy, with or without crural repair taking 45 minutes or less, for a patient with clinically severe obesity (Anaes.) (Assist.)  (See para TN.8.29 of explanatory notes to this Category) <b>Fee:</b> \$876.10 <b>Benefit:</b> 75% = \$657.10	
31578	Gastroplasty (excluding by gastric plication), with or without crural repair taking 45 minutes or less, for a patient with clinically severe obesity (Anaes.) (Assist.)  (See para TN.8.29 of explanatory notes to this Category) <b>Fee:</b> \$876.10 <b>Benefit:</b> 75% = \$657.10	
31581	Gastric bypass by biliopancreatic diversion with or without duodenal switch including gastric resection and anastomoses, with or without crural repair taking 45 minutes or less, for a patient with clinically severe obesity (Anaes.) (Assist.)  (See para TN.8.29 of explanatory notes to this Category) <b>Fee:</b> \$1,078.10 <b>Benefit:</b> 75% = \$808.60	
31584	Surgical reversal of adjustable gastric banding (removal or replacement of gastric band), gastric bypass, gastroplasty (excluding by gastric plication) or biliopancreatic diversion being services to which items 31569 to 31581 apply (Anaes.) (Assist.)  (See para TN.8.30 of explanatory notes to this Category) <b>Fee:</b> \$1,587.20 <b>Benefit:</b> 75% = \$1190.40	
31587	Adjustment of gastric band as an independent procedure including any associated consultation <b>Fee:</b> \$101.00 <b>Benefit:</b> 75% = \$75.75    85% = \$85.85	

T8. SURGICAL OPERATIONS		1. GENERAL
31590	Adjustment of gastric band reservoir, repair, revision or replacement of (Anaes.) (Assist.) <b>Fee:</b> \$259.60 <b>Benefit:</b> 75% = \$194.70    85% = \$220.70	
T8. SURGICAL OPERATIONS		2. COLORECTAL
	<b>Group T8. Surgical Operations</b>	
	Subgroup 2. Colorectal	
32000	LARGE INTESTINE, resection of, without anastomosis, including right hemicolectomy (including formation of stoma) (Anaes.) (Assist.) <b>Fee:</b> \$1,063.55 <b>Benefit:</b> 75% = \$797.70	
32003	LARGE INTESTINE, resection of, with anastomosis, including right hemicolectomy (Anaes.) (Assist.) <b>Fee:</b> \$1,112.50 <b>Benefit:</b> 75% = \$834.40	
32004	LARGE INTESTINE, subtotal colectomy (resection of right colon, transverse colon and splenic flexure) without anastomosis, not being a service associated with a service to which item 32000, 32003, 32005 or 32006 applies (Anaes.) (Assist.) <b>Fee:</b> \$1,186.30 <b>Benefit:</b> 75% = \$889.75	
32005	LARGE INTESTINE, subtotal colectomy (resection of right colon, transverse colon and splenic flexure) with anastomosis, not being a service associated with a service to which item 32000, 32003, 32004 or 32006 applies (Anaes.) (Assist.) <b>Fee:</b> \$1,340.15 <b>Benefit:</b> 75% = \$1005.15	
32006	LEFT HEMICOLECTOMY, including the descending and sigmoid colon (including formation of stoma) (Anaes.) (Assist.) <b>Fee:</b> \$1,186.30 <b>Benefit:</b> 75% = \$889.75	
32009	TOTAL COLECTOMY AND ILEOSTOMY (Anaes.) (Assist.) <b>Fee:</b> \$1,407.25 <b>Benefit:</b> 75% = \$1055.45	
32012	TOTAL COLECTOMY AND ILEORECTAL ANASTOMOSIS (Anaes.) (Assist.) <b>Fee:</b> \$1,554.45 <b>Benefit:</b> 75% = \$1165.85	
32015	TOTAL COLECTOMY WITH EXCISION OF RECTUM AND ILEOSTOMY 1 surgeon (Anaes.) (Assist.) <b>Fee:</b> \$1,910.40 <b>Benefit:</b> 75% = \$1432.80	
32018	TOTAL COLECTOMY WITH EXCISION OF RECTUM AND ILEOSTOMY, COMBINED SYNCHRONOUS OPERATION; ABDOMINAL RESECTION (including aftercare) (Anaes.) (Assist.) <b>Fee:</b> \$1,619.95 <b>Benefit:</b> 75% = \$1215.00	
32021	TOTAL COLECTOMY WITH EXCISION OF RECTUM AND ILEOSTOMY, COMBINED SYNCHRONOUS OPERATION; PERINEAL RESECTION (Assist.) <b>Fee:</b> \$580.90 <b>Benefit:</b> 75% = \$435.70	
32023	Endoscopic insertion of stent or stents for large bowel obstruction, stricture or stenosis, including colonoscopy and any image intensification, where the obstruction is due to:	

T8. SURGICAL OPERATIONS		2. COLORECTAL
	<p>a) a pre-diagnosed colorectal cancer, or cancer of an organ adjacent to the bowel; or</p> <p>b) an unknown diagnosis (Anaes.)</p> <p>(See para TN.8.17 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$572.70      <b>Benefit:</b> 75% = \$429.55</p>	
32024	<p>RECTUM, HIGH RESTORATIVE ANTERIOR RESECTION WITH INTRAPERITONEAL ANASTOMOSIS (of the rectum) greater than 10 centimetres from the anal verge excluding resection of sigmoid colon alone not being a service associated with a service to which item 32103, 32104 or 32106 applies (Anaes.) (Assist.)</p> <p><b>Fee:</b> \$1,407.25      <b>Benefit:</b> 75% = \$1055.45</p>	
32025	<p>RECTUM, LOW RESTORATIVE ANTERIOR RESECTION WITH EXTRAPERITONEAL ANASTOMOSIS (of the rectum) less than 10 centimetres from the anal verge, with or without covering stoma not being a service associated with a service to which item 32103, 32104 or 32106 applies (Anaes.) (Assist.)</p> <p><b>Fee:</b> \$1,882.30      <b>Benefit:</b> 75% = \$1411.75</p>	
32026	<p>RECTUM, ULTRA LOW RESTORATIVE RESECTION, with or without covering stoma, where the anastomosis is sited in the anorectal region and is 6cm or less from the anal verge (Anaes.) (Assist.)</p> <p><b>Fee:</b> \$2,027.05      <b>Benefit:</b> 75% = \$1520.30</p>	
32028	<p>RECTUM, LOW OR ULTRA LOW RESTORATIVE RESECTION, with peranal sutured coloanal anastomosis, with or without covering stoma (Anaes.) (Assist.)</p> <p><b>Fee:</b> \$2,172.00      <b>Benefit:</b> 75% = \$1629.00</p>	
32029	<p>COLONIC RESERVOIR, construction of, being a service associated with a service to which any other item in this Subgroup applies (Anaes.) (Assist.)</p> <p><b>Fee:</b> \$434.35      <b>Benefit:</b> 75% = \$325.80</p>	
32030	<p>RECTOSIGMOIDECTOMY (Hartmann's operation) (Anaes.) (Assist.)</p> <p><b>Fee:</b> \$1,063.55      <b>Benefit:</b> 75% = \$797.70</p>	
32033	<p>RESTORATION OF BOWEL following Hartmann's or similar operation, including dismantling of the stoma (Anaes.) (Assist.)</p> <p><b>Fee:</b> \$1,554.45      <b>Benefit:</b> 75% = \$1165.85</p>

	associated percutaneous central vein catheterization, on a person under 10 years of age (Anaes.) <b>Fee:</b> \$739.50 <b>Benefit:</b> 75% = \$554.65    85% = \$654.80	
34530	CENTRAL VENOUS LINE, OR OTHER CHEMOTHERAPY DEVICE, removal of, by open surgical procedure in the operating theatre of a hospital on a person 10 years of age or over (Anaes.) <b>Fee:</b> \$210.60 <b>Benefit:</b> 75% = \$157.95    85% = \$179.05	
34533	ISOLATED LIMB PERFUSION, including cannulation of artery and vein at commencement of procedure, regional perfusion for chemotherapy, or other therapy, repair of arteriotomy and venotomy at conclusion of procedure (excluding aftercare) (Anaes.) (Assist.) <b>Fee:</b> \$1,279.40 <b>Benefit:</b> 75% = \$959.55    85% = \$1194.70	
34534	CENTRAL VEIN CATHETERISATION by percutaneous technique, using subcutaneous tunnel with pump or access port as with central venous line catheter or other chemotherapy delivery device, on a person under 10 years of age (Anaes.) <b>Fee:</b> \$365.15 <b>Benefit:</b> 75% = \$273.90    85% = \$310.40	
34538	CENTRAL VEIN CATHETERISATION by percutaneous technique, using subcutaneous tunnelled cuffed catheter or similar device, for the administration of haemodialysis or parenteral nutrition (Anaes.) <b>Fee:</b> \$280.90 <b>Benefit:</b> 75% = \$210.70    85% = \$238.80	
34539	TUNNELLED CUFFED CATHETER, OR SIMILAR DEVICE, removal of, by open surgical procedure (Anaes.) <b>Fee:</b> \$210.60 <b>Benefit:</b> 75% = \$157.95    85% = \$179.05	
34540	CENTRAL VENOUS LINE, OR OTHER CHEMOTHERAPY DEVICE, removal of, by open surgical procedure in the operating theatre of a hospital, on a person under 10 years of age (Anaes.) <b>Fee:</b> \$273.80 <b>Benefit:</b> 75% = \$205.35    85% = \$232.75	
COMPLEX VENOUS OPERATIONS		
34800	INFERIOR VENA CAVA, plication, ligation, or application of caval clip (Anaes.) (Assist.) <b>Fee:</b> \$837.55 <b>Benefit:</b> 75% = \$628.20    85% = \$752.85	
34803	INFERIOR VENA CAVA, reconstruction of or bypass by vein or synthetic material (Anaes.) (Assist.) <b>Fee:</b> \$1,845.80 <b>Benefit:</b> 75% = \$1384.35	
34806	CROSS LEG BYPASS GRAFTING, saphenous to iliac or femoral vein (Anaes.) (Assist.) <b>Fee:</b> \$1,000.35 <b>Benefit:</b> 75% = \$750.30	
34809	SAPHENOUS VEIN ANASTOMOSIS to femoral or popliteal vein for femoral vein bypass (Anaes.) (Assist.) <b>Fee:</b> \$1,000.35 <b>Benefit:</b> 75% = \$750.30	
34812	VENOUS STENOSIS OR OCCLUSION, vein bypass for, using vein or synthetic material, not being a service associated with a service to which item 34806 or 34809 applies (Anaes.) (Assist.) <b>Fee:</b> \$1,209.70 <b>Benefit:</b> 75% = \$907.30	
34815	VEIN STENOSIS, patch angioplasty for, (excluding vein graft stenosis)-using vein or synthetic material (Anaes.) (Assist.) (See para TN.8.36 of explanatory notes to this Category)	

T8. SURGICAL OPERATIONS		3. VASCULAR
	<b>Fee:</b> \$1,000.35 <b>Benefit:</b> 75% = \$750.30	
34818	VENOUS VALVE, plication or repair to restore valve competency (Anaes.) (Assist.) <b>Fee:</b> \$1,101.15 <b>Benefit:</b> 75% = \$825.90	
34821	VEIN TRANSPLANT to restore valvular function (Anaes.) (Assist.) <b>Fee:</b> \$1,496.75 <b>Benefit:</b> 75% = \$1122.60    85% = \$1412.05	
34824	EXTERNAL STENT, application of, to restore venous valve competency to superficial vein - 1 stent (Anaes.) (Assist.) <b>Fee:</b> \$511.80 <b>Benefit:</b> 75% = \$383.85	
34827	EXTERNAL STENTS, application of, to restore venous valve competency to superficial vein or veins - more than 1 stent (Anaes.) (Assist.) <b>Fee:</b> \$620.45 <b>Benefit:</b> 75% = \$465.35	
34830	EXTERNAL STENT, application of, to restore venous valve competency to deep vein (1 stent) (Anaes.) (Assist.) <b>Fee:</b> \$729.05 <b>Benefit:</b> 75% = \$546.80    85% = \$644.35	
34833	EXTERNAL STENTS, application of, to restore venous valve competency to deep vein or veins (more than 1 stent) (Anaes.) (Assist.) <b>Fee:</b> \$946.10 <b>Benefit:</b> 75% = \$709.60	
SYMPATHECTOMY		
35000	LUMBAR SYMPATHECTOMY (Anaes.) (Assist.) <b>Fee:</b> \$729.05 <b>Benefit:</b> 75% = \$546.80    85% = \$644.35	
35003	CERVICAL OR UPPER THORACIC SYMPATHECTOMY by any surgical approach (Anaes.) (Assist.) <b>Fee:</b> \$946.10 <b>Benefit:</b> 75% = \$709.60	
35006	CERVICAL OR UPPER THORACIC SYMPATHECTOMY, where operation is a reoperation for previous incomplete sympathectomy by any surgical approach (Anaes.) (Assist.) <b>Fee:</b> \$1,186.50 <b>Benefit:</b> 75% = \$889.90	
35009	LUMBAR SYMPATHECTOMY, where operation is following chemical sympathectomy or for previous incomplete surgical sympathectomy (Anaes.) (Assist.) <b>Fee:</b> \$922.70 <b>Benefit:</b> 75% = \$692.05	
35012	SACRAL or PRE-SACRAL SYMPATHECTOMY (Anaes.) (Assist.) <b>Fee:</b> \$729.05 <b>Benefit:</b> 75% = \$546.80	
DEBRIDEMENT AND AMPUTATIONS FOR VASCULAR DISEASE		
35100	ISCHAEMIC LIMB, debridement of necrotic material, gangrenous tissue, or slough in, in the operating theatre of a hospital, when debridement includes muscle, tendon or bone (Anaes.) (Assist.) <b>Fee:</b> \$380.05 <b>Benefit:</b> 75% = \$285.05	
35103	ISCHAEMIC LIMB, debridement of necrotic material, gangrenous tissue, or slough in, in the operating theatre of a hospital, superficial tissue only (Anaes.)	

T8. SURGICAL OPERATIONS		3. VASCULAR
	<b>Fee:</b> \$241.85 <b>Benefit:</b> 75% = \$181.40	
	MISCELLANEOUS VASCULAR PROCEDURES	
35200	OPERATIVE ARTERIOGRAPHY OR VENOGRAPHY, 1 or more of, performed during the course of an operative procedure on an artery or vein, 1 site (Anaes.) <b>Fee:</b> \$176.85 <b>Benefit:</b> 75% = \$132.65	
35202	MAJOR ARTERIES OR VEINS IN THE NECK, ABDOMEN OR EXTREMITIES, access to, as part of RE-OPERATION after prior surgery on these vessels (Anaes.) (Assist.) <b>Fee:</b> \$842.60 <b>Benefit:</b> 75% = \$631.95	
	ENDOVASCULAR INTERVENTIONAL PROCEDURES	
35300	TRANSLUMINAL BALLOON ANGIOPLASTY of 1 peripheral artery or vein of 1 limb, percutaneous or by open exposure, excluding associated radiological services or preparation, and excluding aftercare (Anaes.) (Assist.) <b>Fee:</b> \$531.45 <b>Benefit:</b> 75% = \$398.60    85% = \$451.75	
35303	TRANSLUMINAL BALLOON ANGIOPLASTY of aortic arch branches, aortic visceral branches, or more than 1 peripheral artery or vein of 1 limb, percutaneous or by open exposure, excluding associated radiological services or preparation, and excluding aftercare (Anaes.) (Assist.) <b>Fee:</b> \$681.40 <b>Benefit:</b> 75% = \$511.05    85% = \$596.70	
35306	TRANSLUMINAL STENT INSERTION, 1 or more stents, including associated balloon dilatation for 1 peripheral artery or vein of 1 limb, percutaneous or by open exposure, excluding associated radiological services or preparation, and excluding aftercare. (Anaes.) (Assist.) <b>Fee:</b> \$628.95 <b>Benefit:</b> 75% = \$471.75    85% = \$544.25	
35307	TRANSLUMINAL STENT INSERTION, 1 or more stents (not drug-eluting), with or without associated balloon dilatation, for 1 carotid artery, percutaneous (not direct), with or without the use of an embolic protection device, in patients who:  <ul style="list-style-type: none"> <li>- meet the indications for carotid endarterectomy; and</li> <li>- have medical or surgical comorbidities that would make them at high risk of perioperative complications from carotid endarterectomy,</li> </ul> excluding associated radiological services or preparation, and excluding aftercare (Anaes.) (Assist.)  (See para TN.8.37 of explanatory notes to this Category) <b>Fee:</b> \$1,156.20 <b>Benefit:</b> 75% = \$867.15	
35309	TRANSLUMINAL STENT INSERTION, 1 or more stents, including associated balloon dilatation for visceral arteries or veins, or more than 1 peripheral artery or vein of 1 limb, percutaneous or by open exposure, excluding associated radiological services or preparation, and excluding aftercare. (Anaes.) (Assist.) <b>Fee:</b> \$786.15 <b>Benefit:</b> 75% = \$589.65    85% = \$701.45	
35312	PERIPHERAL ARTERIAL ATHERECTOMY including associated balloon dilatation of 1 limb, percutaneous or by open exposure, excluding associated radiological services or preparation, and excluding aftercare (Anaes.) (Assist.) <b>Fee:</b> \$891.00 <b>Benefit:</b> 75% = \$668.25	
35315	PERIPHERAL LASER ANGIOPLASTY including associated balloon dilatation of 1 limb, percutaneous	

<b>T8. SURGICAL OPERATIONS</b>		<b>3. VASCULAR</b>
	or by open exposure, excluding associated radiological services or preparation, and excluding aftercare (Anaes.) (Assist.)  <b>Fee:</b> \$891.00 <b>Benefit:</b> 75% = \$668.25	
35317	PERIPHERAL ARTERIAL OR VENOUS CATHETERISATION with administration of thrombolytic or chemotherapeutic agents, BY CONTINUOUS INFUSION, using percutaneous approach, excluding associated radiological services or preparation, and excluding aftercare (not being a service associated with a service to which another item in Subgroup 11 of Group T1 or items 35319 or 35320 applies and not being a service associated with photodynamic therapy with verteporfin) (Anaes.) (Assist.)  (See para TN.8.38 of explanatory notes to this Category) <b>Fee:</b> \$366.90 <b>Benefit:</b> 75% = \$275.20    85% = \$311.90	
35319	PERIPHERAL ARTERIAL OR VENOUS CATHETERISATION with administration of thrombolytic or chemotherapeutic agents, BY PULSE SPRAY TECHNIQUE, using percutaneous approach, excluding associated radiological services or preparation, and excluding aftercare (not being a service associated with a service to which another item in Subgroup 11 of Group T1 or items 35317 or 35320 applies and not being a service associated with photodynamic therapy with verteporfin) (Anaes.) (Assist.)  <b>Fee:</b> \$657.70 <b>Benefit:</b> 75% = \$493.30    85% = \$573.00	
35320	PERIPHERAL ARTERIAL OR VENOUS CATHETERISATION with administration of thrombolytic or chemotherapeutic agents, BY OPEN EXPOSURE, excluding associated radiological services or preparation, and excluding aftercare (not being a service associated with a service to which another item in Subgroup 11 of Group T1 or items 35317 or 35319 applies and not being a service associated with photodynamic therapy with verteporfin) (Anaes.) (Assist.)  <b>Fee:</b> \$883.45 <b>Benefit:</b> 75% = \$662.60    85% = \$798.75	
35321	PERIPHERAL ARTERIAL OR VENOUS CATHETERISATION to administer agents to occlude arteries, veins or arterio-venous fistulae or to arrest haemorrhage, (but not for the treatment of uterine fibroids or varicose veins) percutaneous or by open exposure, excluding associated radiological services or preparation, and excluding aftercare, not being a service associated with photodynamic therapy with verteporfin (Anaes.) (Assist.)  (See para TN.8.32 of explanatory notes to this Category) <b>Fee:</b> \$838.70 <b>Benefit:</b> 75% = \$629.05    85% = \$754.00	
35324	ANGIOSCOPY not combined with any other procedure, excluding associated radiological services or preparation, and excluding aftercare (Anaes.) (Assist.)  <b>Fee:</b> \$314.50 <b>Benefit:</b> 75% = \$235.90	
35327	ANGIOSCOPY combined with any other procedure, excluding associated radiological services or preparation, and excluding aftercare (Anaes.) (Assist.)  <b>Fee:</b> \$421.50 <b>Benefit:</b> 75% = \$316.15	
35330	INSERTION of INFERIOR VENA CAVAL FILTER, percutaneous or by open exposure, excluding associated radiological services or preparation, and excluding aftercare (Anaes.) (Assist.)  <b>Fee:</b> \$531.45 <b>Benefit:</b> 75% = \$398.60    85% = \$451.75	
35331	RETRIEVAL OF INFERIOR VENA CAVAL FILTER, percutaneous or by open exposure, not including associated radiological services or preparation, and not including aftercare (Anaes.)  <b>Fee:</b> \$611.00 <b>Benefit:</b> 75% = \$458.25	
35360	Retrieval of foreign body in PULMONARY ARTERY, percutaneous or by open exposure, not including	

T8. SURGICAL OPERATIONS		3. VASCULAR
	<p>associated radiological services or preparation, and not including aftercare</p> <p><i>(foreign body does not include an instrument inserted for the purpose of a service being rendered)</i> (Anaes.) (Assist.)</p> <p><b>Fee:</b> \$854.05      <b>Benefit:</b> 75% = \$640.55</p>	
35361	<p>Retrieval of foreign body in RIGHT ATRIUM, percutaneous or by open exposure, not including associated radiological services or preparation, and not including aftercare</p> <p><i>(foreign body does not include an instrument inserted for the purpose of a service being rendered)</i> (Anaes.) (Assist.)</p> <p><b>Fee:</b> \$732.45      <b>Benefit:</b> 75% = \$549.35</p>	
35362	<p>Retrieval of foreign body in INFERIOR VENA CAVA or AORTA, percutaneous or by open exposure, not including associated radiological services or preparation, and not including aftercare</p> <p><i>(foreign body does not include an instrument inserted for the purpose of a service being rendered)</i> (Anaes.) (Assist.)</p> <p><b>Fee:</b> \$611.00      <b>Benefit:</b> 75% = \$458.25</p>	
35363	<p>Retrieval of foreign body in PERIPHERAL VEIN or PERIPHERAL ARTERY, percutaneous or by open exposure, not including associated radiological services or preparation, and not including aftercare</p> <p><i>(foreign body does not include an instrument inserted for the purpose of a service being rendered)</i> (Anaes.) (Assist.)</p> <p><b>Fee:</b> \$489.50      <b>Benefit:</b> 75% = \$367.15</p>	
INTERVENTIONAL RADIOLOGY PROCEDURES		
35404	<p>DOSIMETRY, HANDLING AND INJECTION OF SIR-SPHERES for selective internal radiation therapy of hepatic metastases which are secondary to colorectal cancer and are not suitable for resection or ablation, used in combination with systemic chemotherapy using 5-fluorouracil (5FU) and leucovorin, not being a service to which item 35317, 35319, 35320 or 35321 applies</p> <p>The procedure must be performed by a specialist or consultant physician recognised in the specialties of nuclear medicine or radiation oncology on an admitted patient in a hospital. To be claimed once in the patient's lifetime only.</p> <p>(See para TN.3.1, TN.8.40 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$357.45      <b>Benefit:</b> 75% = \$268.10</p>	
35406	<p>Trans-femoral catheterisation of the hepatic artery to administer SIR-Spheres to embolise the microvasculature of hepatic metastases which are secondary to colorectal cancer and are not suitable for resection or ablation, for selective internal radiation therapy used in combination with systemic chemotherapy using 5-fluorouracil (5FU) and leucovorin, not being a service to which item 35317, 35319, 35320 or 35321 applies</p>	

T8. SURGICAL OPERATIONS		3. VASCULAR
	<p>excluding associated radiological services or preparation, and excluding aftercare (Anaes.) (Assist.)</p> <p>(See para TN.3.1, TN.8.40 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$838.70      <b>Benefit:</b> 75% = \$629.05</p>	
35408	<p>Catheterisation of the hepatic artery via a permanently implanted hepatic artery port to administer SIR-Spheres to embolise the microvasculature of hepatic metastases which are secondary to colorectal cancer and are not suitable for resection or ablation, for selective internal radiation therapy used in combination with systemic chemotherapy using 5-fluorouracil (5FU) and leucovorin, not being a service to which item 35317, 35319, 35320 or 35321 applies</p> <p>excluding associated radiological services or preparation, and excluding aftercare (Anaes.) (Assist.)</p> <p>(See para TN.3.1, TN.8.40 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$629.15      <b>Benefit:</b> 75% = \$471.90</p>	
35410	<p>UTERINE ARTERY CATHETERISATION with percutaneous administration of occlusive agents, for the treatment of symptomatic uterine fibroids in a patient who has been referred for uterine artery embolisation by a specialist gynaecologist, excluding associated radiological services or preparation, and excluding aftercare (Anaes.) (Assist.)</p> <p>(See para TN.8.34 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$838.70      <b>Benefit:</b> 75% = \$629.05    85% = \$754.00</p>	
35412	<p>Intracranial aneurysm, ruptured or unruptured, endovascular occlusion with detachable coils, and assisted coiling if performed, with parent artery preservation, not for use with liquid embolics only, including aftercare, including intra-operative imaging, but in association with the following pre-operative diagnostic imaging items:</p> <ul style="list-style-type: none"> <li>- either 60009 or 60010; and</li> <li>- either 60072, 60073, 60075, 60076, 60078 or 60079 (Anaes.) (Assist.)</li> </ul> <p>(See para TN.8.35 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$2,946.80      <b>Benefit:</b> 75% = \$2210.10    85% = \$2862.10</p>	
35414	<p>Mechanical thrombectomy, in a patient with a diagnosis of acute ischaemic stroke caused by occlusion of a large vessel of the anterior cerebral circulation, including intra-operative imaging and aftercare, if:</p> <p>(a) the diagnosis is confirmed by an appropriate imaging modality such as computed tomography, magnetic resonance imaging or angiography; and</p> <p>(b) the service is performed by a specialist or consultant physician with appropriate training that is recognised by the Conjoint Committee for Recognition of Training in Interventional Neuroradiology; and</p> <p>(c) the service is provided in an eligible stroke centre.</p> <p>For any particular patient - applicable once per presentation by the patient at an eligible stroke centre, regardless of the number of times mechanical thrombectomy is attempted during that presentation (Anaes.) (Assist.)</p> <p>(See para TR.8.1 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$3,609.35      <b>Benefit:</b> 75% = \$2707.05</p>	
T8. SURGICAL OPERATIONS		4. GYNAECOLOGICAL
	<b>Group T8. Surgical Operations</b>	

T8. SURGICAL OPERATIONS		4. GYNAECOLOGICAL
	Subgroup 4. Gynaecological	
35500	GYNAECOLOGICAL EXAMINATION UNDER ANAESTHESIA, not being a service associated with a service to which another item in this Group applies (Anaes.) <b>Fee:</b> \$83.85 <b>Benefit:</b> 75% = \$62.90    85% = \$71.30	
35502	INTRAUTERINE DEVICE, INTRODUCTION OF, for the control of idiopathic menorrhagia, AND ENDOMETRIAL BIOPSY to exclude endometrial pathology, not being a service associated with a service to which another item in this Group applies (Anaes.) <b>Fee:</b> \$82.65 <b>Benefit:</b> 75% = \$62.00    85% = \$70.30	
35503	Intra uterine contraceptive device, introduction of, if the service is not associated with a service to which another item in this Group applies (other than a service mentioned in item 30062) (Anaes.) <b>Fee:</b> \$55.20 <b>Benefit:</b> 75% = \$41.40    85% = \$46.95	
35506	INTRAUTERINE CONTRACEPTIVE DEVICE, REMOVAL OF UNDER GENERAL ANAESTHESIA, not being a service associated with a service to which another item in this Group applies (Anaes.) <b>Fee:</b> \$55.35 <b>Benefit:</b> 75% = \$41.55    85% = \$47.05	
35507	VULVAL OR VAGINAL WARTS, removal of under general anaesthesia, or under regional or field nerve block (excluding pudendal block) requiring admission to a hospital, where the time taken is less than or equal to 45 minutes - not being a service associated with a service to which item 32177 or 32180 applies (Anaes.) <b>Fee:</b> \$179.90 <b>Benefit:</b> 75% = \$134.95    85% = \$152.95	
35508	VULVAL OR VAGINAL WARTS, removal of under general anaesthesia, or under regional or field nerve block (excluding pudendal block) requiring admission to a hospital, where the time taken is greater than 45 minutes - not being a service associated with a service to which item 32177 or 32180 applies (Anaes.) (Assist.) <b>Fee:</b> \$264.95 <b>Benefit:</b> 75% = \$198.75    85% = \$225.25	
35509	HYMENECTOMY (Anaes.) <b>Fee:</b> \$92.25 <b>Benefit:</b> 75% = \$69.20    85% = \$78.45	
35513	BARTHOLIN'S CYST, excision of (Anaes.) <b>Fee:</b> \$228.65 <b>Benefit:</b> 75% = \$171.50    85% = \$194.40	
35517	BARTHOLIN'S CYST OR GLAND, marsupialisation of (Anaes.) <b>Fee:</b> \$150.60 <b>Benefit:</b> 75% = \$112.95    85% = \$128.05	
35518	OVARIAN CYST ASPIRATION, for cysts of at least 4cm in diameter in a premenopausal person and at least 2cm in diameter in a postmenopausal person, by abdominal or vaginal route, using interventional imaging techniques and not associated with services provided for assisted reproductive techniques (Anaes.) (See para TN.4.11 of explanatory notes to this Category) <b>Fee:</b> \$214.35 <b>Benefit:</b> 75% = \$160.80    85% = \$182.20	
35520	BARTHOLIN'S ABSCESS, incision of (Anaes.) <b>Fee:</b> \$60.15 <b>Benefit:</b> 75% = \$45.15    85% = \$51.15	

T8. SURGICAL OPERATIONS		4. GYNAECOLOGICAL
35523	URETHRA OR URETHRAL CARUNCLE, cauterisation of (Anaes.) <b>Fee:</b> \$60.15 <b>Benefit:</b> 75% = \$45.15    85% = \$51.15	
35527	URETHRAL CARUNCLE, excision of (Anaes.) <b>Fee:</b> \$150.60 <b>Benefit:</b> 75% = \$112.95    85% = \$128.05	
35530	CLITORIS, amputation of, where medically indicated (Anaes.) (Assist.) <b>Fee:</b> \$278.25 <b>Benefit:</b> 75% = \$208.70	
35533	Vulvoplasty or labioplasty, for repair of:  (a) female genital mutilation; or  (b) an anomaly associated with a major congenital anomaly of the uro-gynaecological tract  other than a service associated with a service to which item 35536, 37836, 37050, 37842, 37851 or 43882 applies (Anaes.)  (See para TN.8.123 of explanatory notes to this Category) <b>Fee:</b> \$360.80 <b>Benefit:</b> 75% = \$270.60	
35534	Vulvoplasty or labioplasty, in a patient aged 18 years or more, performed by a specialist in the practice of the specialist's specialty, for a structural abnormality that is causing significant functional impairment, if the patient's labium extends more than 8 cm below the vaginal introitus while the patient is in a standing resting position (Anaes.)  (See para TN.8.123 of explanatory notes to this Category) <b>Fee:</b> \$360.80 <b>Benefit:</b> 75% = \$270.60	
35536	VULVA, wide local excision of suspected malignancy or hemivulvectomy, 1 or both procedures (Anaes.) (Assist.) <b>Fee:</b> \$359.35 <b>Benefit:</b> 75% = \$269.55    85% = \$305.45	
35539	COLPOSCOPICALLY DIRECTED CO <sup>2</sup> LASER THERAPY for previously confirmed intraepithelial neoplastic changes of the cervix, vagina, vulva, urethra or anal canal, including any associated biopsies 1 anatomical site (Anaes.) <b>Fee:</b> \$281.45 <b>Benefit:</b> 75% = \$211.10    85% = \$239.25	
35542	COLPOSCOPICALLY DIRECTED CO <sup>2</sup> LASER THERAPY for previously confirmed intraepithelial neoplastic changes of the cervix, vagina, vulva, urethra or anal canal, including any associated biopsies 2 or more anatomical sites (Anaes.) (Assist.) <b>Fee:</b> \$329.55 <b>Benefit:</b> 75% = \$247.20    85% = \$280.15	
35545	COLPOSCOPICALLY DIRECTED CO <sup>2</sup> LASER THERAPY for condylomata, unsuccessfully treated by other methods (Anaes.) <b>Fee:</b> \$189.35 <b>Benefit:</b> 75% = \$142.05    85% = \$160.95	
35548	VULVECTOMY, radical, for malignancy (Anaes.) (Assist.) <b>Fee:</b> \$860.10 <b>Benefit:</b> 75% = \$645.10	
35551	Pelvic lymph nodes, radical excision of, unilateral, or sentinel node dissection (including any pre-operative injection) (Anaes.) (Assist.) <b>Fee:</b> \$953.60 <b>Benefit:</b> 75% = \$715.20	

T8. SURGICAL OPERATIONS		4. GYNAECOLOGICAL
35552	Pelvic lymph nodes, radical excision of, unilateral, following similar previous dissection, radiation or chemotherapy (Anaes.) (Assist.) <b>Fee:</b> \$1,434.60 <b>Benefit:</b> 75% = \$1075.95	
35554	VAGINA, DILATATION OF, as an independent procedure including any associated consultation (Anaes.) <b>Fee:</b> \$44.85 <b>Benefit:</b> 75% = \$33.65    85% = \$38.15	
35557	VAGINA, removal of simple tumour (including Gartner duct cyst) (Anaes.) <b>Fee:</b> \$221.20 <b>Benefit:</b> 75% = \$165.90    85% = \$188.05	
35560	VAGINA, partial or complete removal of (Anaes.) (Assist.) <b>Fee:</b> \$705.25 <b>Benefit:</b> 75% = \$528.95	
35561	VAGINECTOMY, radical, for proven invasive malignancy - 1 surgeon (Anaes.) (Assist.) <b>Fee:</b> \$1,422.55 <b>Benefit:</b> 75% = \$1066.95	
35562	VAGINECTOMY, radical, for proven invasive malignancy, conjoint surgery - abdominal surgeon (including aftercare) (Anaes.) (Assist.) <b>Fee:</b> \$1,167.95 <b>Benefit:</b> 75% = \$876.00	
35564	VAGINECTOMY, radical, for proven invasive malignancy, conjoint surgery - perineal surgeon (Assist.) <b>Fee:</b> \$539.15 <b>Benefit:</b> 75% = \$404.40	
35565	VAGINAL RECONSTRUCTION for congenital absence, gynatresia or urogenital sinus (Anaes.) (Assist.) <b>Fee:</b> \$705.25 <b>Benefit:</b> 75% = \$528.95	
35566	VAGINAL SEPTUM, excision of, for correction of double vagina (Anaes.) (Assist.) <b>Fee:</b> \$409.65 <b>Benefit:</b> 75% = \$307.25	
35568	SACROSPINOUS COLPOPEXY FOR MANAGEMENT OF UPPER VAGINAL PROLAPSE (Anaes.) (Assist.) <b>Fee:</b> \$644.10 <b>Benefit:</b> 75% = \$483.10	
35569	PLASTIC REPAIR TO ENLARGE VAGINAL ORIFICE (Anaes.) <b>Fee:</b> \$165.85 <b>Benefit:</b> 75% = \$124.40	
Amend 35570	Anterior vaginal compartment repair by vaginal approach for pelvic organ prolapse: (a) involving repair of urethrocele and cystocele; and (b) using native tissue without graft; other than a service associated with a service to which item 35573, 35577 or 35578 applies (Anaes.) (Assist.) <b>Fee:</b> \$571.15 <b>Benefit:</b> 75% = \$428.40	
Amend 35571	Posterior vaginal compartment repair by vaginal approach for pelvic organ prolapse:	

T8. SURGICAL OPERATIONS	4. GYNAECOLOGICAL
	<p>(a) involving repair of one or more of the following:</p> <ul style="list-style-type: none"> <li>(i) perineum;</li> <li>(ii) rectocele;</li> <li>(iii) enterocele; and</li> </ul> <p>(b) using native tissue without graft;</p> <p>other than a service associated with a service to which item 35573, 35577 or 35578 applies (Anaes.) (Assist.)</p> <p><b>Fee:</b> \$571.15      <b>Benefit:</b> 75% = \$428.40</p>
35572	<p>COLPOTOMY not being a service to which another item in this Group applies (Anaes.)</p> <p><b>Fee:</b> \$127.70      <b>Benefit:</b> 75% = \$95.80</p>
Amend 35573	<p>Anterior and posterior vaginal compartment repair by vaginal approach for pelvic organ prolapse:</p> <p>(a) involving anterior and posterior compartment defects; and</p> <p>(b) using native tissue without graft;</p> <p>other than a service associated with a service to which item 35577 or 35578 applies (Anaes.) (Assist.)</p> <p><b>Fee:</b> \$856.85      <b>Benefit:</b> 75% = \$642.65</p>
Amend 35577	<p>Manchester (Donald Fothergill) operation for pelvic organ prolapse, involving either or both of the following:</p> <p>(a) cervical amputation;</p> <p>(b) anterior and posterior native tissue vaginal wall repairs without graft</p> <p>(Anaes.) (Assist.)</p> <p><b>Fee:</b> \$695.60      <b>Benefit:</b> 75% = \$521.70</p>
35578	<p>LE FORT OPERATION for genital prolapse, not being a service associated with a service to which another item in this Subgroup applies (Anaes.) (Assist.)</p> <p><b>Fee:</b> \$695.60      <b>Benefit:</b> 75% = \$521.70</p>
Amend 35581	<p>Vaginal procedure for excision of graft material in symptomatic patients with graft related complications (including graft related pain or discharge and bleeding related to graft exposure), less than 2cm<sup>2</sup> in its maximum area, either singly or in multiple pieces, other than a service associated with a service to which item 35582 or 35585 applies</p> <p>(Anaes.) (Assist.)</p> <p>(See para TN.8.140 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$571.15      <b>Benefit:</b> 75% = \$428.40</p>
Amend 35582	<p>Vaginal procedure for excision of graft material in symptomatic patients with graft related complications (including graft related pain or discharge and bleeding related to graft exposure), 2cm<sup>2</sup> or more in its maximum area, either singly or in multiple pieces, other than a service associated with a service to which item 35581 or 35585 applies (Anaes.) (Assist.)</p>

T8. SURGICAL OPERATIONS		4. GYNAECOLOGICAL
	(See para TN.8.140 of explanatory notes to this Category) <b>Fee:</b> \$856.85 <b>Benefit:</b> 75% = \$642.65	
<b>Amend</b> 35585	Abdominal procedure, by open, laparoscopic or robot-assisted approach, if the service:  (a) is for the removal of graft material:  (i) in symptomatic patients with graft related complications (including graft related pain or discharge and bleeding related to graft exposure); or  (ii) where the graft has penetrated adjacent organs such as the bladder (including urethra) or bowel; and  (b) if required—includes retroperitoneal dissection, and mobilisation, of either or both of the bladder and bowel;  other than a service associated with a service to which item 35581 or 35582 applies  (Anaes.) (Assist.)  <b>Fee:</b> \$1,519.20 <b>Benefit:</b> 75% = \$1139.40	
35595	LAPAROSCOPIC OR ABDOMINAL PELVIC FLOOR REPAIR INCORPORATING THE FIXATION OF THE UTEROSACRAL AND CARDINAL LIGAMENTS TO RECTOVAGINAL AND PUBOCERVICAL FASCIA for symptomatic upper vaginal vault prolapse (Anaes.) (Assist.)  <b>Fee:</b> \$1,191.10 <b>Benefit:</b> 75% = \$893.35	
35596	FISTULA BETWEEN GENITAL AND URINARY OR ALIMENTARY TRACTS, repair of, not being a service to which item 37029, 37333 or 37336 applies (Anaes.) (Assist.)  <b>Fee:</b> \$705.25 <b>Benefit:</b> 75% = \$528.95	
35597	SACRAL COLPOPEXY, laparoscopic or open procedure where graft or mesh secured to vault, anterior and posterior compartment and to sacrum for correction of symptomatic upper vaginal vault prolapse (Anaes.) (Assist.)  <b>Fee:</b> \$1,519.20 <b>Benefit:</b> 75% = \$1139.40	
35599	Stress incontinence, procedure using a female synthetic mid-urethral sling, with diagnostic cystoscopy to assess the integrity of the lower urinary tract, other than a service associated with a service to which item 30405 or 36812 applies (Anaes.) (Assist.)  <b>Fee:</b> \$781.55 <b>Benefit:</b> 75% = \$586.20	
35602	STRESS INCONTINENCE, combined synchronous ABDOMINOVAGINAL operation for; abdominal procedure, with or without mesh, (including aftercare), not being a service associated with a service to which item 30405 applies (Anaes.) (Assist.)  <b>Fee:</b> \$695.60 <b>Benefit:</b> 75% = \$521.70	
35605	STRESS INCONTINENCE, combined synchronous ABDOMINOVAGINAL operation for; vaginal procedure, with or without mesh, (including aftercare), not being a service associated with a service to which item 30405 applies (Assist.)  <b>Fee:</b> \$377.40 <b>Benefit:</b> 75% = \$283.05    85% = \$320.80	
35608	CERVIX, cauterisation (other than by chemical means), ionisation, diathermy or biopsy of, with or without dilatation of cervix (Anaes.)  <b>Fee:</b> \$65.95 <b>Benefit:</b> 75% = \$49.50    85% = \$56.10	

T8. SURGICAL OPERATIONS		4. GYNAECOLOGICAL
35611	CERVIX, removal of polyp or polypi, with or without dilatation of cervix, not being a service associated with a service to which item 35608 applies (Anaes.) <b>Fee:</b> \$65.95 <b>Benefit:</b> 75% = \$49.50    85% = \$56.10	
35612	CERVIX, RESIDUAL STUMP, removal of, by abdominal approach (Anaes.) (Assist.) <b>Fee:</b> \$521.80 <b>Benefit:</b> 75% = \$391.35    85% = \$443.55	
35613	CERVIX, RESIDUAL STUMP, removal of, by vaginal approach (Anaes.) (Assist.) <b>Fee:</b> \$417.45 <b>Benefit:</b> 75% = \$313.10	
35614	EXAMINATION OF LOWER TRACT by a Hinselmanntype colposcope in a patient with a previous abnormal cervical smear screen result or a history of maternal ingestion of oestrogen or where a patient, because of suspicious signs of cancer, has been referred by another medical practitioner (Anaes.) (See para TN.8.42 of explanatory notes to this Category) <b>Fee:</b> \$65.85 <b>Benefit:</b> 75% = \$49.40    85% = \$56.00	
35615	VULVA, biopsy of, when performed in conjunction with a service to which item 35614 applies <b>Fee:</b> \$55.35 <b>Benefit:</b> 75% = \$41.55    85% = \$47.05	
35616	ENDOMETRIUM, endoscopic examination of and ablation of, by microwave or thermal balloon or radiofrequency electrosurgery, for chronic refractory menorrhagia including any hysteroscopy performed on the same day, with or without uterine curettage (Anaes.) <b>Fee:</b> \$463.65 <b>Benefit:</b> 75% = \$347.75	
35618	CERVIX, cone biopsy, amputation or repair of, other than a service to which item 35577 or 35578 applies (Anaes.) <b>Fee:</b> \$224.80 <b>Benefit:</b> 75% = \$168.60    85% = \$191.10	
35620	ENDOMETRIAL BIOPSY where malignancy is suspected in patients with abnormal uterine bleeding or post menopausal bleeding (Anaes.) <b>Fee:</b> \$55.00 <b>Benefit:</b> 75% = \$41.25    85% = \$46.75	
35622	ENDOMETRIUM, endoscopic ablation of, by laser or diathermy, for chronic refractory menorrhagia including any hysteroscopy performed on the same day, with or without uterine curettage, not being a service associated with a service to which item 30390 applies (Anaes.) <b>Fee:</b> \$621.30 <b>Benefit:</b> 75% = \$466.00	
35623	HYSTEROSCOPIC RESECTION of myoma, or myoma and uterine septum resection (where both are performed), followed by endometrial ablation by laser or diathermy (Anaes.) <b>Fee:</b> \$844.85 <b>Benefit:</b> 75% = \$633.65	
35626	HYSTEROSCOPY, including biopsy, performed by a specialist in the practice of his or her specialty where the patient is referred to him or her for the investigation of suspected intrauterine pathology (with or without local anaesthetic), not being a service associated with a service to which item 35627 or 35630 applies (See para TN.8.43 of explanatory notes to this Category) <b>Fee:</b> \$85.35 <b>Benefit:</b> 75% = \$64.05    85% = \$72.55	
35627	HYSTEROSCOPY with dilatation of the cervix performed in the operating theatre of a hospital - not being a service associated with a service to which item 35626 or 35630 applies (Anaes.)	

T8. SURGICAL OPERATIONS		4. GYNAECOLOGICAL
	<b>Fee:</b> \$110.50 <b>Benefit:</b> 75% = \$82.90	
35630	HYSTEROSCOPY, with endometrial biopsy, performed in the operating theatre of a hospital - not being a service associated with a service to which item 35626 or 35627 applies (Anaes.) <b>Fee:</b> \$188.75 <b>Benefit:</b> 75% = \$141.60	
35633	HYSTEROSCOPY with uterine adhesiolysis or polypectomy or tubal catheterisation (including for insertion of device for sterilisation) or removal of IUD which cannot be removed by other means, 1 or more of (Anaes.) <b>Fee:</b> \$224.80 <b>Benefit:</b> 75% = \$168.60    85% = \$191.10	
35634	HYSTEROSCOPIC RESECTION of uterine septum followed by endometrial ablation by laser or diathermy (Anaes.) <b>Fee:</b> \$707.10 <b>Benefit:</b> 75% = \$530.35    85% = \$622.40	
35635	HYSTEROSCOPY involving resection of the uterine septum (Anaes.) <b>Fee:</b> \$308.80 <b>Benefit:</b> 75% = \$231.60	
35636	HYSTEROSCOPY, involving resection of myoma, or resection of myoma and uterine septum (where both are performed) (Anaes.) <b>Fee:</b> \$446.55 <b>Benefit:</b> 75% = \$334.95	
35637	LAPAROSCOPY, involving puncture of cysts, diathermy of endometriosis, ventrosuspension, division of adhesions or similar procedure - 1 or more procedures with or without biopsy - not being a service associated with any other laparoscopic procedure or hysterectomy (Anaes.) (Assist.) (See para TN.1.4 of explanatory notes to this Category) <b>Fee:</b> \$419.35 <b>Benefit:</b> 75% = \$314.55	
35638	COMPLICATED OPERATIVE LAPAROSCOPY, including use of laser when required, for 1 or more of the following procedures; oophorectomy, ovarian cystectomy, myomectomy, salpingectomy or salpingostomy, ablation of moderate or severe endometriosis requiring more than 1 hours operating time, or division of utero-sacral ligaments for significant dysmenorrhoea - not being a service associated with any other intraperitoneal or retroperitoneal procedure except item 30393 (Anaes.) (Assist.) <b>Fee:</b> \$733.75 <b>Benefit:</b> 75% = \$550.35	
35640	UTERUS, CURETTAGE OF, with or without dilatation (including curettage for incomplete miscarriage) under general anaesthesia, or under epidural or spinal (intrathecal) nerve block, including procedures to which item 35626, 35627 or 35630 applies, if performed (Anaes.) (See para TN.8.44 of explanatory notes to this Category) <b>Fee:</b> \$188.75 <b>Benefit:</b> 75% = \$141.60	
35641	ENDOMETRIOSIS LEVEL 4 OR 5, LAPAROSCOPIC RESECTION OF, involving any two of the following procedures, resection of the pelvic side wall including dissection of endometriosis or scar tissue from the ureter, resection of the Pouch of Douglas, resection of an ovarian endometrioma greater than 2 cms in diameter, dissection of bowel from uterus from the level of the endocervical junction or above: where the operating time exceeds 90 minutes (Anaes.) (Assist.) <b>Fee:</b> \$1,281.50 <b>Benefit:</b> 75% = \$961.15	
35643	EVACUATION OF THE CONTENTS OF THE GRAVID UTERUS BY CURETTAGE OR SUCTION CURETTAGE other than a service to which item 35640 applies, including procedures to which item 35626, 35627 or 35630 applies, if performed (Anaes.)	

T8. SURGICAL OPERATIONS		4. GYNAECOLOGICAL
	<b>Fee:</b> \$224.80 <b>Benefit:</b> 75% = \$168.60    85% = \$191.10	
35644	CERVIX, electrocoagulation diathermy with colposcopy, for previously confirmed intraepithelial neoplastic changes of the cervix, including any local anaesthesia and biopsies, other than a service associated with a service to which item 35640 or 35647 applies (Anaes.)  (See para TN.8.45 of explanatory notes to this Category) <b>Fee:</b> \$210.00 <b>Benefit:</b> 75% = \$157.50    85% = \$178.50	
35645	CERVIX, electrocoagulation diathermy with colposcopy, for previously confirmed intraepithelial neoplastic changes of the cervix, including any local anaesthesia and biopsies, in conjunction with ablative therapy of additional areas of intraepithelial change in 1 or more sites of vagina, vulva, urethra or anus, not being a service associated with a service to which item 35648 applies (Anaes.)  (See para TN.8.45 of explanatory notes to this Category) <b>Fee:</b> \$328.65 <b>Benefit:</b> 75% = \$246.50    85% = \$279.40	
35646	CERVIX, colposcopy with radical diathermy of, with or without cervical biopsy, for previously confirmed intraepithelial neoplastic changes of the cervix (Anaes.)  (See para TN.8.45 of explanatory notes to this Category) <b>Fee:</b> \$210.00 <b>Benefit:</b> 75% = \$157.50    85% = \$178.50	
35647	CERVIX, large loop excision of transformation zone together with colposcopy for previously confirmed intraepithelial neoplastic changes of the cervix, including any local anaesthesia and biopsies, not being a service associated with a service to which item 35644 applies (Anaes.)  (See para TN.8.45 of explanatory notes to this Category) <b>Fee:</b> \$210.00 <b>Benefit:</b> 75% = \$157.50    85% = \$178.50	
35648	CERVIX, large loop excision diathermy for previously confirmed intraepithelial neoplastic changes of the cervix, including any local anaesthesia and biopsies, in conjunction with ablative treatment of additional areas of intraepithelial change of 1 or more sites of vagina, vulva, urethra or anus, not being a service associated with a service to which item 35645 applies (Anaes.)  (See para TN.8.45 of explanatory notes to this Category) <b>Fee:</b> \$328.65 <b>Benefit:</b> 75% = \$246.50    85% = \$279.40	
35649	HYSTEROTOMY or UTERINE MYOMECTOMY, abdominal (Anaes.) (Assist.)  <b>Fee:</b> \$552.75 <b>Benefit:</b> 75% = \$414.60	
35653	HYSTERECTOMY, ABDOMINAL, SUBTOTAL or TOTAL, with or without removal of uterine adnexae (Anaes.) (Assist.)  <b>Fee:</b> \$695.80 <b>Benefit:</b> 75% = \$521.85	
35657	HYSTERECTOMY, VAGINAL, with or without uterine curettage, not being a service to which item 35673 applies  <i>NOTE: Strict legal requirements apply in relation to sterilisation procedures on minors. Medicare benefits are not payable for services not rendered in accordance with relevant Commonwealth and State and Territory law. Observe the explanatory note before submitting a claim. (Anaes.) (Assist.)</i>  (See para TN.8.46 of explanatory notes to this Category) <b>Fee:</b> \$695.80 <b>Benefit:</b> 75% = \$521.85	
35658	UTERUS (at least equivalent in size to a 10 week gravid uterus), debulking of, prior to vaginal removal	

<b>T8. SURGICAL OPERATIONS</b>		<b>4. GYNAECOLOGICAL</b>
	at hysterectomy (Anaes.) (Assist.)  (See para TN.8.47 of explanatory notes to this Category) <b>Fee:</b> \$429.05 <b>Benefit:</b> 75% = \$321.80	
35661	HYSTERECTOMY, ABDOMINAL, requiring extensive retroperitoneal dissection, with or without exposure of 1 or both ureters, for the management of severe endometriosis, pelvic inflammatory disease or benign pelvic tumours, with or without conservation of the ovaries (Anaes.) (Assist.) <b>Fee:</b> \$898.55 <b>Benefit:</b> 75% = \$673.95	
35664	RADICAL HYSTERECTOMY with radical excision of pelvic lymph nodes (with or without excision of uterine adnexae) for proven malignancy including excision of any 1 or more of parametrium, paracolpos, upper vagina or contiguous pelvic peritoneum and involving ureterolysis where performed (Anaes.) (Assist.) <b>Fee:</b> \$1,497.60 <b>Benefit:</b> 75% = \$1123.20	
35667	RADICAL HYSTERECTOMY without gland dissection (with or without excision of uterine adnexae) for proven malignancy including excision of any 1 or more of parametrium, paracolpos, upper vagina or contiguous pelvic peritoneum and involving ureterolysis where performed (Anaes.) (Assist.) <b>Fee:</b> \$1,272.80 <b>Benefit:</b> 75% = \$954.60	
35670	HYSTERECTOMY, abdominal, with radical excision of pelvic lymph nodes, with or without removal of uterine adnexae (Anaes.) (Assist.) <b>Fee:</b> \$1,048.05 <b>Benefit:</b> 75% = \$786.05	
35673	HYSTERECTOMY, VAGINAL (with or without uterine curettage) with salpingectomy, oophorectomy or excision of ovarian cyst, 1 or more, 1 or both sides (Anaes.) (Assist.) <b>Fee:</b> \$781.45 <b>Benefit:</b> 75% = \$586.10	
35674	ULTRASOUND GUIDED NEEDLING and injection of ectopic pregnancy  (See para TN.4.11 of explanatory notes to this Category) <b>Fee:</b> \$214.35 <b>Benefit:</b> 75% = \$160.80    85% = \$182.20	
35677	ECTOPIC PREGNANCY, removal of (Anaes.) (Assist.) <b>Fee:</b> \$552.75 <b>Benefit:</b> 75% = \$414.60	
35678	ECTOPIC PREGNANCY, laparoscopic removal of (Anaes.) (Assist.) <b>Fee:</b> \$666.45 <b>Benefit:</b> 75% = \$499.85	
35680	BICORNUATE UTERUS, plastic reconstruction for (Anaes.) (Assist.) <b>Fee:</b> \$600.20 <b>Benefit:</b> 75% = \$450.15    85% = \$515.50	
35684	UTERUS, SUSPENSION OR FIXATION OF, as an independent procedure (Anaes.) (Assist.) <b>Fee:</b> \$485.90 <b>Benefit:</b> 75% = \$364.45	
35688	STERILISATION BY TRANSECTION OR RESECTION OF FALLOPIAN TUBES, via abdominal or vaginal routes or via laparoscopy using diathermy or any other method  <i>NOTE: Strict legal requirements apply in relation to sterilisation procedures on minors. Medicare benefits are not payable for services not rendered in accordance with relevant Commonwealth and State</i>	

T8. SURGICAL OPERATIONS		4. GYNAECOLOGICAL
	<i>and Territory law. Observe the explanatory note before submitting a claim. (Anaes.) (Assist.)</i>	
	(See para TN.8.46 of explanatory notes to this Category) <b>Fee:</b> \$409.65 <b>Benefit:</b> 75% = \$307.25	
35691	STERILISATION BY INTERRUPTION OF FALLOPIAN TUBES, when performed in conjunction with Caesarean section  NOTE: <i>Strict legal requirements apply in relation to sterilisation procedures on minors. Medicare benefits are not payable for services not rendered in accordance with relevant Commonwealth and State and Territory law. Observe the explanatory note before submitting a claim. (Anaes.) (Assist.)</i>  (See para TN.8.46 of explanatory notes to this Category) <b>Fee:</b> \$163.65 <b>Benefit:</b> 75% = \$122.75	
35694	TUBOPLASTY (salpingostomy, salpingolysis or tubal implantation into uterus), UNILATERAL or BILATERAL, 1 or more procedures (Anaes.) (Assist.) <b>Fee:</b> \$657.60 <b>Benefit:</b> 75% = \$493.20	
35697	MICROSURGICAL TUBOPLASTY (salpingostomy, salpingolysis or tubal implantation into uterus), UNILATERAL or BILATERAL, 1 or more procedures (Anaes.) (Assist.) <b>Fee:</b> \$975.75 <b>Benefit:</b> 75% = \$731.85	
35700	FALLOPIAN TUBES, unilateral microsurgical anastomosis of, using operating microscope (Anaes.) (Assist.) <b>Fee:</b> \$752.90 <b>Benefit:</b> 75% = \$564.70	
35703	HYDROTUBATION OF FALLOPIAN TUBES as a nonrepetitive procedure not being a service associated with a service to which another item in this Sub-group applies (Anaes.) <b>Fee:</b> \$69.65 <b>Benefit:</b> 75% = \$52.25    85% = \$59.25	
35706	RUBIN TEST FOR PATENCY OF FALLOPIAN TUBES (Anaes.) <b>Fee:</b> \$69.65 <b>Benefit:</b> 75% = \$52.25    85% = \$59.25	
35709	FALLOPIAN TUBES, hydrotubation of, as a repetitive postoperative procedure (Anaes.) <b>Fee:</b> \$44.85 <b>Benefit:</b> 75% = \$33.65    85% = \$38.15	
35710	FALLOPOSCOPY, unilateral or bilateral, including hysteroscopy and tubal catheterization (Anaes.) (Assist.) <b>Fee:</b> \$477.75 <b>Benefit:</b> 75% = \$358.35	
35713	LAPAROTOMY, involving OOPHORECTOMY, SALPINGECTOMY, SALPINGO-OOPHORECTOMY, removal of OVARIAN, PARAOVARIAN, FIMBRIAL or BROAD LIGAMENT CYST - one such procedure, other than a service associated with hysterectomy (Anaes.) (Assist.) <b>Fee:</b> \$467.00 <b>Benefit:</b> 75% = \$350.25	
35717	LAPAROTOMY, involving OOPHORECTOMY, SALPINGECTOMY, SALPINGO-OOPHORECTOMY, removal of OVARIAN, PARAOVARIAN, FIMBRIAL or BROAD LIGAMENT CYST - 2 or more such procedures, unilateral or bilateral, other than a service associated with hysterectomy (Anaes.) (Assist.) <b>Fee:</b> \$562.30 <b>Benefit:</b> 75% = \$421.75	

T8. SURGICAL OPERATIONS		4. GYNAECOLOGICAL
35720	<p>RADICAL OR DEBULKING OPERATION for advanced gynaecological malignancy, with or without omentectomy (Anaes.) (Assist.)</p> <p>(See para TN.8.57 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$695.60      <b>Benefit:</b> 75% = \$521.70</p>	
35723	<p>RETROPERITONEAL LYMPH NODE BIOPSIES from above the level of the aortic bifurcation, for staging or restaging of gynaecological malignancy (Anaes.) (Assist.)</p> <p><b>Fee:</b> \$498.20      <b>Benefit:</b> 75% = \$373.65</p>	
35726	<p>INFRACOLIC OMENTECTOMY with multiple peritoneal biopsies for staging or restaging of gynaecological malignancy (Anaes.) (Assist.)</p> <p><b>Fee:</b> \$498.20      <b>Benefit:</b> 75% = \$373.65</p>	
35729	<p>OVARIAN TRANSPOSITION out of the pelvis, in conjunction with radical hysterectomy for invasive malignancy (Anaes.)</p> <p><b>Fee:</b> \$224.60      <b>Benefit:</b> 75% = \$168.45</p>	
35730	<p>Ovarian repositioning for one or both ovaries to preserve ovarian function, prior to gonadotoxic radiotherapy when the treatment volume and dose of radiation have a high probability of causing infertility (Anaes.)</p> <p><b>Fee:</b> \$224.60      <b>Benefit:</b> 75% = \$168.45</p>	
35750	<p>LAPAROSCOPICALLY ASSISTED HYSTERECTOMY, including any associated laparoscopy (Anaes.) (Assist.)</p> <p><b>Fee:</b> \$809.10      <b>Benefit:</b> 75% = \$606.85</p>	
35753	<p>LAPAROSCOPICALLY ASSISTED HYSTERECTOMY with one or more of the following procedures: salpingectomy, oophorectomy, excision of ovarian cyst or treatment of moderate endometriosis, one or both sides, including any associated laparoscopy (Anaes.) (Assist.)</p> <p><b>Fee:</b> \$894.70      <b>Benefit:</b> 75% = \$671.05</p>	
35754	<p>LAPAROSCOPICALLY ASSISTED HYSTERECTOMY which requires dissection of endometriosis, or other pathology, from the ureter, one or both sides, including any associated laparoscopy, including when performed with one or more of the following procedures: salpingectomy, oophorectomy, excision of ovarian cyst, or treatment of endometriosis, not being a service to which item 35641 applies (Anaes.) (Assist.)</p> <p><b>Fee:</b> \$1,126.00      <b>Benefit:</b> 75% = \$844.50</p>	
35756	<p>LAPAROSCOPICALLY ASSISTED HYSTERECTOMY, when procedure is completed by open hysterectomy, including any associated laparoscopy (Anaes.) (Assist.)</p> <p><b>Fee:</b> \$809.10      <b>Benefit:</b> 75% = \$606.85</p>	
35759	<p>Procedure for the control of POST OPERATIVE HAEMORRHAGE following gynaecological surgery, under general anaesthesia, utilising a vaginal or abdominal and vaginal approach where no other procedure is performed (Anaes.) (Assist.)</p> <p><b>Fee:</b> \$580.90      <b>Benefit:</b> 75% = \$435.70</p>	
T8. SURGICAL OPERATIONS		5. UROLOGICAL
	Group T8. Surgical Operations	

T8. SURGICAL OPERATIONS		5. UROLOGICAL
	Subgroup 5. Urological	
37046	Suprapubic or perineal procedure for excision of graft material, either singly or in multiple pieces, for a symptomatic patient with graft related complications (including graft related pain or discharge and bleeding related to graft exposure), if not more than one service to which this item applies has been provided to the patient by the same practitioner in the preceding 12 months (Anaes.) (Assist.) <b>Fee:</b> \$714.05 <b>Benefit:</b> 75% = \$535.55	
37226 S	Prostate or prostatic bed, needle biopsy of, using prostatic magnetic resonance imaging techniques and obtaining 1 or more prostatic specimens.  (Anaes.)  (Anaes.)  (See para TN.8.2 of explanatory notes to this Category) <b>Fee:</b> \$289.65 <b>Benefit:</b> 75% = \$217.25    85% = \$246.25	
	GENERAL	
36502	PELVIC LYMPHADENECTOMY, open or laparoscopic, or both, unilateral or bilateral (Anaes.) (Assist.) <b>Fee:</b> \$705.25 <b>Benefit:</b> 75% = \$528.95	
36503	RENAL TRANSPLANT (not being a service to which item 36506 or 36509 applies) (Anaes.) (Assist.) <b>Fee:</b> \$1,434.60 <b>Benefit:</b> 75% = \$1075.95	
36506	RENAL TRANSPLANT, performed by vascular surgeon and urologist operating together vascular anastomosis including aftercare (Anaes.) (Assist.) <b>Fee:</b> \$953.60 <b>Benefit:</b> 75% = \$715.20	
36509	RENAL TRANSPLANT, performed by vascular surgeon and urologist operating together ureterovesical anastomosis including aftercare (Assist.) <b>Fee:</b> \$807.45 <b>Benefit:</b> 75% = \$605.60	
36516	Nephrectomy, complete, by open, laparoscopic or robot-assisted approach, other than a service associated with a service to which item 30390 or 30627 applies (Anaes.) (Assist.)  (See para TN.8.154 of explanatory notes to this Category) <b>Fee:</b> \$953.60 <b>Benefit:</b> 75% = \$715.20	
36519	Nephrectomy, complete, by open, laparoscopic or robot-assisted approach, complicated by previous surgery on the same kidney, other than a service associated with a service to which item 30390 or 30627 applies (Anaes.) (Assist.)  (See para TN.8.154 of explanatory notes to this Category) <b>Fee:</b> \$1,331.45 <b>Benefit:</b> 75% = \$998.60	
36522	Nephrectomy, partial, by open, laparoscopic or robot-assisted approach, other than a service associated with a service to which item 30390 or 30627 applies (Anaes.) (Assist.)  (See para TN.8.154 of explanatory notes to this Category) <b>Fee:</b> \$1,142.60 <b>Benefit:</b> 75% = \$856.95	
36525	Nephrectomy, partial, by open, laparoscopic or robot-assisted approach:	

T8. SURGICAL OPERATIONS	5. UROLOGICAL
	<p>(a) if complicated by previous surgery or ablative procedure on the same kidney; or</p> <p>(b) for a patient with a solitary functioning kidney; or</p> <p>(c) for a patient with an estimated glomerular filtration rate (eGFR) of less than 60ml/min/1.73m<sup>2</sup>;</p> <p>other than a service associated with a service to which item 30390 or 30627 applies (Anaes.) (Assist.)</p> <p><b>Fee:</b> \$1,623.65      <b>Benefit:</b> 75% = \$1217.75</p>
36528	<p>Nephrectomy, radical, by open, laparoscopic or robot-assisted approach, with or without en bloc dissection of lymph nodes, with or without adrenalectomy, for a tumour less than 10 cm in diameter, other than a service associated with a service to which item 30390 or 30627 applies (Anaes.) (Assist.)</p> <p>(See para TN.8.154 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$1,331.45      <b>Benefit:</b> 75% = \$998.60</p>
36529	<p>Nephrectomy, radical, by open, laparoscopic or robot-assisted approach, with or without en bloc dissection of lymph nodes, with or without adrenalectomy:</p> <p>(a) for a tumour 10 cm or more in diameter; or</p> <p>(b) if complicated by previous open or laparoscopic surgery on the same kidney;</p> <p>other than a service associated with a service to which item 30390 or 30627 applies (Anaes.) 36531	<p>Nephroureterectomy, complete, by open, laparoscopic or robot-assisted approach, including associated bladder repair and any associated endoscopic procedure, other than a service associated with a service to which item 30390 or 30627 applies (Anaes.) (Assist.)</p> <p>(See para TN.8.154 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$1,194.05      <b>Benefit:</b> 75% = \$895.55</p>
36532	<p>Nephroureterectomy, for tumour, by open, laparoscopic or robot-assisted approach, with or without en bloc dissection of lymph nodes, including associated bladder repair and any associated endoscopic procedures, other than a service to which item 36533 applies or a service associated with a service to which item 30390 or 30627 applies (Anaes.) (Assist.)</p> <p>(See para TN.8.154 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$1,713.80      <b>Benefit:</b> 75% = \$1285.35</p>
36533	<p>Nephroureterectomy, for tumour, by open, laparoscopic or robot-assisted approach, with or without en bloc dissection of lymph nodes, including associated bladder repair and any associated endoscopic procedures, if complicated by previous open or laparoscopic surgery on the same kidney or ureter, other than a service associated with a service to which item 30390 or 30627 applies (Anaes.) (Assist.)</p> <p>(See para TN.8.154 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$2,025.55      <b>Benefit:</b> 75% = \$1519.20</p>
36537	<p>KIDNEY OR PERINEPHRIC AREA, EXPLORATION OF, with or without drainage of, by open exposure, not being a service to which another item in this Sub-group applies (Anaes.) (Assist.)</p> <p><b>Fee:</b> \$713.00      <b>Benefit:</b> 75% = \$534.75</p>
36543	<p>Nephrolithotomy or pyelolithotomy, or both, extended, for one or more renal stones, including one or more of nephrostomy, pyelostomy, pedicle control with or without freezing, calyorrhaphy or pyeloplasty</p>

T8. SURGICAL OPERATIONS		5. UROLOGICAL
	(Anaes.) (Assist.) <b>Fee:</b> \$1,331.45 <b>Benefit:</b> 75% = \$998.60    85% = \$1246.75	
36546	EXTRACORPOREAL SHOCK WAVE LITHOTRIPSY (ESWL) to urinary tract and posttreatment care for 3 days, including pretreatment consultation, unilateral (Anaes.) <b>Fee:</b> \$713.00 <b>Benefit:</b> 75% = \$534.75    85% = \$628.30	
36549	Ureterolithotomy, by open, laparoscopic or robot-assisted approach (Anaes.) (Assist.) <b>Fee:</b> \$859.15 <b>Benefit:</b> 75% = \$644.40	
36552	NEPHROSTOMY or pyelostomy, open, as an independent procedure (Anaes.) (Assist.) <b>Fee:</b> \$764.65 <b>Benefit:</b> 75% = \$573.50	
36558	RENAL CYST OR CYSTS, excision or unroofing of (Anaes.) (Assist.) <b>Fee:</b> \$670.10 <b>Benefit:</b> 75% = \$502.60    85% = \$585.40	
36561	Renal biopsy, performed under image guidance (closed) (Anaes.) <b>Fee:</b> \$177.90 <b>Benefit:</b> 75% = \$133.45    85% = \$151.25	
36564	Pyeloplasty, (plastic reconstruction of the pelvi-ureteric junction) by open, laparoscopic or robot-assisted approach, with or without the use of a retroperitoneal approach (Anaes.) (Assist.) <b>Fee:</b> \$953.60 <b>Benefit:</b> 75% = \$715.20	
36567	Pyeloplasty in a kidney that is congenitally abnormal (in addition to the presence of pelvi-ureteric junction obstruction), or in a solitary kidney, by open, laparoscopic or robot-assisted approach, with or without the use of a retroperitoneal approach (Anaes.) (Assist.)  (See para TN.8.155 of explanatory notes to this Category) <b>Fee:</b> \$1,048.05 <b>Benefit:</b> 75% = \$786.05	
36570	Pyeloplasty, complicated by previous surgery on the same kidney, by open, laparoscopic or robot-assisted approach, with or without the use of a retroperitoneal approach (Anaes.) (Assist.) <b>Fee:</b> \$1,331.45 <b>Benefit:</b> 75% = \$998.60	
36573	DIVIDED URETER, repair of (Anaes.) (Assist.) <b>Fee:</b> \$953.60 <b>Benefit:</b> 75% = \$715.20	
36576	Kidney, exposure and exploration of, including repair or nephrectomy, for trauma, by open, laparoscopic or robot-assisted approach, other than a service associated with:  (a) any other procedure performed on the kidney, renal pelvis or renal pedicle; or  (b) a service to which item 30390 or 30627 applies (Anaes.) (Assist.)  (See para TN.8.154 of explanatory notes to this Category) <b>Fee:</b> \$1,194.05 <b>Benefit:</b> 75% = \$895.55	
36579	Ureterectomy, complete or partial:  (a) for a tumour within the ureter, proven by histopathology at the time of surgery; or  (b) for congenital anomaly;	

T8. SURGICAL OPERATIONS		5. UROLOGICAL
	with or without associated bladder repair (Anaes.) (Assist.) <b>Fee:</b> \$764.65 <b>Benefit:</b> 75% = \$573.50	
36585	URETER, transplantation of, into skin (Anaes.) (Assist.) <b>Fee:</b> \$764.65 <b>Benefit:</b> 75% = \$573.50	
36588	URETER, reimplantation into bladder (Anaes.) (Assist.) <b>Fee:</b> \$953.60 <b>Benefit:</b> 75% = \$715.20	
36591	URETER, reimplantation into bladder with psoas hitch or Boari flap or both (Anaes.) (Assist.) <b>Fee:</b> \$1,142.60 <b>Benefit:</b> 75% = \$856.95	
36594	URETER, transplantation of, into intestine (Anaes.) (Assist.) <b>Fee:</b> \$953.60 <b>Benefit:</b> 75% = \$715.20	
36597	URETER, transplantation of, into another ureter (Anaes.) (Assist.) <b>Fee:</b> \$953.60 <b>Benefit:</b> 75% = \$715.20	
36600	URETER, transplantation of, into isolated intestinal segment, unilateral (Anaes.) (Assist.) (See para TN.8.153 of explanatory notes to this Category) <b>Fee:</b> \$1,142.60 <b>Benefit:</b> 75% = \$856.95    85% = \$1057.90	
36603	URETERS, transplantation of, into isolated intestinal segment, bilateral (Anaes.) (Assist.) (See para TN.8.153 of explanatory notes to this Category) <b>Fee:</b> \$1,331.45 <b>Benefit:</b> 75% = \$998.60	
36604	Ureteric stent, passage of through percutaneous nephrostomy tube, using interventional radiology techniques, but not including imaging (Anaes.) <b>Fee:</b> \$276.05 <b>Benefit:</b> 75% = \$207.05    85% = \$234.65	
36606	INTESTINAL URINARY RESERVOIR, continent, formation of, including formation of nonreturn valves and implantation of ureters (1 or both) into reservoir (Anaes.) (Assist.) <b>Fee:</b> \$2,388.15 <b>Benefit:</b> 75% = \$1791.15	
36607	Ureteric stent insertion of, with balloon dilatation of:  (a) the pelvicalyceal system; or  (b) ureter; or  (c) the pelvicalyceal system and ureter;  through a nephrostomy tube using interventional radiology techniques, but not including imaging (Anaes.) <b>Fee:</b> \$712.30 <b>Benefit:</b> 75% = \$534.25	
36608	Ureteric stent, exchange of, percutaneously through either the ileal conduit or bladder, using interventional radiology techniques, but not including imaging, not being a service associated with a service to which items 36811 to 36854 apply (Anaes.) <b>Fee:</b> \$276.05 <b>Benefit:</b> 75% = \$207.05	

T8. SURGICAL OPERATIONS		5. UROLOGICAL
36609	Intestinal urinary conduit, reservoir or ureterostomy, revision of (Anaes.) (Assist.) <b>Fee:</b> \$764.65 <b>Benefit:</b> 75% = \$573.50	
36610	Intestinal urinary conduit, incontinent, formation of (including associated small bowel resection and anastomosis), including implantation of one or both ureters into reservoir (Anaes.) (Assist.) <b>Fee:</b> \$1,830.50 <b>Benefit:</b> 75% = \$1372.90	
36611	Intestinal urinary reservoir, continent, formation of (including associated small bowel resection and anastomosis), including formation of non-return valves and implantation of one or both ureters into reservoir, performed by open, laparoscopic or robot-assisted approach (Anaes.) (Assist.) <b>Fee:</b> \$2,887.20 <b>Benefit:</b> 75% = \$2165.40	
36612	URETER, exploration of, with or without drainage of, as an independent procedure (Anaes.) (Assist.) <b>Fee:</b> \$670.10 <b>Benefit:</b> 75% = \$502.60	
36615	Ureterolysis, unilateral, with or without repositioning of the ureter, for obstruction of the ureter, if: (a) the obstruction: (i) is evident either radiologically or by proximal ureteric dilatation at operation; and (ii) is secondary to retroperitoneal fibrosis; and (b) there is biopsy proven fibrosis, endometriosis or cancer at the site of the obstruction at time of surgery (Anaes.) (Assist.) (See para TN.8.156 of explanatory notes to this Category) <b>Fee:</b> \$764.65 <b>Benefit:</b> 75% = \$573.50	
36618	REDUCTION URETEROPLASTY (Anaes.) (Assist.) <b>Fee:</b> \$670.10 <b>Benefit:</b> 75% = \$502.60	
36621	CLOSURE OF CUTANEOUS URETEROSTOMY (Anaes.) (Assist.) <b>Fee:</b> \$479.05 <b>Benefit:</b> 75% = \$359.30	
36624	Nephrostomy, percutaneous, using interventional radiology techniques, but not including imaging (Anaes.) (Assist.) <b>Fee:</b> \$575.55 <b>Benefit:</b> 75% = \$431.70    85% = \$490.85	
36627	Nephroscopy, percutaneous, with or without any one or more of; stone extraction, biopsy or diathermy, not being a service to which item 36639 or 36645 applies (Anaes.) <b>Fee:</b> \$713.00 <b>Benefit:</b> 75% = \$534.75	
36633	Nephroscopy, percutaneous, with incision of any one or more of; renal pelvis, calyx or calyces or ureter and including antegrade insertion of ureteric stent, not being a service associated with a service to which item 36627, 36639 or 36645 applies (Anaes.) (Assist.) <b>Fee:</b> \$764.65 <b>Benefit:</b> 75% = \$573.50    85% = \$679.95	
36636	Nephroscopy, percutaneous, with incision of any one or more of; renal pelvis, calyx or calyces or ureter and including antegrade insertion of ureteric stent, being a service associated with a service to which item 36627, 36639 or 36645 applies (Anaes.) (Assist.) <b>Fee:</b> \$412.40 <b>Benefit:</b> 75% = \$309.30	

T8. SURGICAL OPERATIONS		5. UROLOGICAL
36639	Nephroscopy, percutaneous, with destruction and extraction of one or two stones using ultrasound or electrohydraulic shock waves or lasers, other than a service to which item 36645 applies (Anaes.) <b>Fee:</b> \$859.15 <b>Benefit:</b> 75% = \$644.40	
36645	NEPHROSCOPY, percutaneous, with removal or destruction of a stone greater than 3 cm in any dimension, or for 3 or more stones (Anaes.) (Assist.) <b>Fee:</b> \$1,099.60 <b>Benefit:</b> 75% = \$824.70	
36649	Nephrostomy drainage tube, exchange of, using interventional radiology techniques, but not including imaging (Anaes.) (Assist.) <b>Fee:</b> \$276.05 <b>Benefit:</b> 75% = \$207.05    85% = \$234.65	
36650	Nephrostomy tube, removal of, using interventional radiology techniques, but not including imaging, if the ureter has been stented with a double J ureteric stent and that stent is left in place (Anaes.) <b>Fee:</b> \$154.40 <b>Benefit:</b> 75% = \$115.80	
36652	PYELOSCOPY, retrograde, of one collecting system, with or without any one or more of, cystoscopy, ureteric meatotomy, ureteric dilatation, not being a service associated with a service to which item 36803, 36812 or 36824 applies (Anaes.) (Assist.) <b>Fee:</b> \$670.10 <b>Benefit:</b> 75% = \$502.60	
36654	PYELOSCOPY, retrograde, of one collecting system, being a service to which item 36652 applies, plus 1 or more of extraction of stone from the renal pelvis or calyces, or biopsy or diathermy of the renal pelvis or calyces, not being a service associated with a service to which item 36656 applies to a procedure performed in the same collecting system (Anaes.) (Assist.) <b>Fee:</b> \$859.15 <b>Benefit:</b> 75% = \$644.40	
36656	PYELOSCOPY, retrograde, of one collecting system, being a service to which item 36652 applies, plus extraction of 2 or more stones in the renal pelvis or calyces or destruction of stone with ultrasound, electrohydraulic or kinetic lithotripsy, or laser in the renal pelvis or calyces, with or without extraction of fragments, not being a service associated with a service to which item 36654 applies to a procedure performed in the same collecting system (Anaes.) (Assist.) <b>Fee:</b> \$1,099.60 <b>Benefit:</b> 75% = \$824.70	
OPERATIONS ON BLADDER		
36504	RIGID CYSTOSCOPY using blue light with hexaminolevulinate as an adjunct to white light, including catheterisation, with biopsy of bladder, not being a service associated with a service to which item 36505, 36507, 36508, 36812, 36830, 36836, 36840, 36845, 36848, 36854, 37203, 37206, 37215, 37230 or 37233 applies.  (Anaes.)  (See para TN.8.2 of explanatory notes to this Category) <b>Fee:</b> \$304.05 <b>Benefit:</b> 75% = \$228.05    85% = \$258.45	
36505	RIGID CYSTOSCOPY using blue light with hexaminolevulinate as an adjunct to white light, including catheterisation, with urethroscopy with or without urethral dilatation, not being a service associated with any other urological endoscopic procedure on the lower urinary tract except a service to which item 37327 applies.	

T8. SURGICAL OPERATIONS		5. UROLOGICAL

	<p>(where clinically indicated):</p> <p>(a) with or without bladder neck reconstruction; and</p> <p>(b) with pelvic lymphadenectomy;</p> <p>other than a service associated with a service to which item 30390, 30627, 35551, 36502 or 37375 applies (Anaes.) (Assist.)</p> <p>(See para TN.8.161 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$1,995.65      <b>Benefit:</b> 75% = \$1496.75</p>
37213	<p>Prostatectomy, radical, involving total excision of the prostate, sparing of nerves around the prostate (where clinically indicated):</p> <p>(a) complicated by:</p> <p style="padding-left: 40px;">(i) previous radiation therapy (including brachytherapy) on the prostate; or</p> <p style="padding-left: 40px;">(ii) previous ablative procedures on the prostate; and</p> <p>(b) with bladder neck reconstruction;</p> <p>other than a service associated with a service to which item 30390, 30627, 35551, 36502 or 37375 applies (Anaes.) (Assist.)</p> <p>(See para TN.8.161 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$2,464.65      <b>Benefit:</b> 75% = \$1848.50</p>
37214	<p>Prostatectomy, radical, involving total excision of the prostate, sparing of nerves around the prostate (where clinically indicated):</p> <p>(a) complicated by:</p> <p style="padding-left: 40px;">(i) previous radiation therapy (including brachytherapy) on the prostate; or</p> <p style="padding-left: 40px;">(ii) previous ablative procedures on the prostate; and</p> <p>(b) with bladder neck reconstruction and pelvic lymphadenectomy;</p> <p>other than a service associated with a service to which item 30390, 30627, 35551, 36502 or 37375 applies (Anaes.) (Assist.)</p> <p>(See para TN.8.161 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$2,993.70      <b>Benefit:</b> 75% = \$2245.30</p>
37215	<p>Prostate, biopsy of, endoscopic, with or without cystoscopy (Anaes.)</p> <p><b>Fee:</b> \$429.45      <b>Benefit:</b> 75% = \$322.10    85% = \$365.05</p>
37216	<p>Prostate or prostatic bed, needle biopsy of, by the transrectal route, using prostatic ultrasound guidance and obtaining one or more prostatic specimens, being a service associated with a service to which item 55603 applies (Anaes.)</p> <p>(See para TN.8.160 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$144.85      <b>Benefit:</b> 75% = \$108.65    85% = \$123.15</p>
37217	<p>Prostate, implantation of radio-opaque fiducial markers into the prostate gland or prostate surgical bed, under ultrasound guidance, being an item associated with a service to which item 55603 applies (Anaes.)</p>

T8. SURGICAL OPERATIONS		5. UROLOGICAL
	(See para TN.8.54 of explanatory notes to this Category) <b>Fee:</b> \$142.60 <b>Benefit:</b> 75% = \$106.95    85% = \$121.25	
37218	Prostate, injection into, one or more, excluding insertion of fiduciary markers (Anaes.)  (See para TN.8.54 of explanatory notes to this Category) <b>Fee:</b> \$142.60 <b>Benefit:</b> 75% = \$106.95    85% = \$121.25	
37219	Prostate or prostatic bed, needle biopsy of, by the transperineal route, using prostatic ultrasound guidance and obtaining one or more prostatic specimens, being a service associated with a service to which item 55600 or 55603 applies (Anaes.)  (See para TN.8.160 of explanatory notes to this Category) <b>Fee:</b> \$347.60 <b>Benefit:</b> 75% = \$260.70    85% = \$295.50	
37220	Prostate, radioactive seed implantation of, urological component, using transrectal ultrasound guidance:  (a) for a patient with:  (i) localised prostatic malignancy at clinical stages T1 (clinically inapparent tumour not palpable or visible by imaging) or T2 (tumour confined within prostate); and  (ii) a Gleason score of less than or equal to 7 (Grade Group 1 to Grade Group 3); and  (iii) a prostate specific antigen (PSA) of not more than 10ng/ml at the time of diagnosis; and  (b) performed by a urologist at an approved site in association with a radiation oncologist; and  (c) being a service associated with:  (i) services to which items 15338 and 55603 apply; and  (ii) a service to which item 60506 or 60509 applies (Anaes.)  (See para TN.8.55 of explanatory notes to this Category) <b>Fee:</b> \$1,076.80 <b>Benefit:</b> 75% = \$807.60	
37221	Prostatic abscess, endoscopic drainage of (Anaes.)  <b>Fee:</b> \$480.90 <b>Benefit:</b> 75% = \$360.70	
37223	PROSTATIC COIL, insertion of, under ultrasound control (Anaes.)  <b>Fee:</b> \$212.70 <b>Benefit:</b> 75% = \$159.55	
37224	Prostate, diathermy or cauterisation, other than a service associated with a service to which item 37201, 37202, 37203, 37206, 37207, 37208 or 37215 applies (Anaes.)  <b>Fee:</b> \$333.30 <b>Benefit:</b> 75% = \$250.00    85% = \$283.35	
37227	PROSTATE, transperineal insertion of catheters into, for high dose rate brachytherapy using ultrasound guidance including any associated cystoscopy. The procedure must be performed at an approved site in association with a radiation oncologist, and be associated with a service to which item 15331 or 15332 applies. (Anaes.)  (See para TN.8.56 of explanatory notes to this Category) <b>Fee:</b> \$583.50 <b>Benefit:</b> 75% = \$437.65    85% = \$498.80	
37230	Prostate, ablation by electrocautery or high-energy transurethral microwave thermotherapy, with or without cystoscopy and with or without urethroscopy (Anaes.)	

T8. SURGICAL OPERATIONS		5. UROLOGICAL
	(See para TN.8.163 of explanatory notes to this Category) <b>Fee:</b> \$1,074.70 <b>Benefit:</b> 75% = \$806.05    85% = \$990.00	
37233	Prostate, ablation by electrocautery or high-energy transurethral microwave thermotherapy, with or without cystoscopy and with or without urethroscopy, continuation, within 10 days, of a urological procedure of the prostate that had to be discontinued for medical reasons (Anaes.)  (See para TN.8.163 of explanatory notes to this Category) <b>Fee:</b> \$575.55 <b>Benefit:</b> 75% = \$431.70    85% = \$490.85	
37245	Prostate, endoscopic enucleation of, for the treatment of benign prostatic hyperplasia:  (a) with morcellation, including mechanical morcellation or by an endoscopic technique; and  (b) with or without cystoscopy; and  (c) with or without urethroscopy; and  other than a service associated with a service to which item 36827, 36854, 37008, 37201, 37202, 37203, 37206, 37207, 37208, 37303, 37321 or 37324 applies (Anaes.)  <b>Fee:</b> \$1,301.60 <b>Benefit:</b> 75% = \$976.20	
OPERATIONS ON URETHRA, PENIS OR SCROTUM		
37300	URETHRAL SOUNDS, passage of, as an independent procedure (Anaes.)  <b>Fee:</b> \$48.05 <b>Benefit:</b> 75% = \$36.05    85% = \$40.85	
37303	URETHRAL STRICTURE, dilatation of (Anaes.)  <b>Fee:</b> \$76.40 <b>Benefit:</b> 75% = \$57.30    85% = \$64.95	
37306	URETHRA, repair of rupture of distal section (Anaes.) (Assist.)  <b>Fee:</b> \$670.10 <b>Benefit:</b> 75% = \$502.60	
37309	URETHRA, repair of rupture of prostatic or membranous segment (Anaes.) (Assist.)  <b>Fee:</b> \$953.60 <b>Benefit:</b> 75% = \$715.20	
37318	Urethroscopy, with or without cystoscopy, with one or more of biopsy, diathermy, visual laser destruction of urethral calculi or removal of foreign body or calculi (Anaes.)  <b>Fee:</b> \$285.25 <b>Benefit:</b> 75% = \$213.95    85% = \$242.50	
37321	URETHRAL MEATOTOMY, EXTERNAL (Anaes.)  <b>Fee:</b> \$96.25 <b>Benefit:</b> 75% = \$72.20    85% = \$81.85	
37324	Urethrotomy or urethrostomy, internal or external (Anaes.) (Assist.)  <b>Fee:</b> \$237.05 <b>Benefit:</b> 75% = \$177.80	
37327	URETHROTOMY, optical, for urethral stricture (Anaes.) (Assist.)  <b>Fee:</b> \$333.30 <b>Benefit:</b> 75% = \$250.00	
37330	URETHRECTOMY, partial or complete, for removal of tumour (Anaes.) (Assist.)  <b>Fee:</b> \$670.10 <b>Benefit:</b> 75% = \$502.60	
37333	URETHROVAGINAL FISTULA, closure of (Anaes.) (Assist.)	

T8. SURGICAL OPERATIONS		5. UROLOGICAL
	<b>Fee:</b> \$575.55 <b>Benefit:</b> 75% = \$431.70	
37336	URETHRORECTAL FISTULA, closure of (Anaes.) (Assist.) <b>Fee:</b> \$764.65 <b>Benefit:</b> 75% = \$573.50	
37338	Urethral synthetic male sling system, division or removal of, for urethral obstruction, sling erosion, pain or infection, following previous surgery for urinary incontinence, other than a service associated with a service to which item 37340 or 37341 applies (Anaes.) (Assist.) <b>Fee:</b> \$939.80 <b>Benefit:</b> 75% = \$704.85	
37339	Periurethral or transurethral injection of urethral bulking agents for the treatment of urinary incontinence, including cystoscopy and urethroscopy, other than a service associated with a service to which item 18375 or 18379 applies (Anaes.) <b>Fee:</b> \$247.35 <b>Benefit:</b> 75% = \$185.55    85% = \$210.25	
37340	Urethral synthetic sling, division or removal of, for urethral obstruction, sling erosion, pain or infection following previous surgery for urinary incontinence, vaginal approach, other than a service associated with a service to which item 37341 or 37344 applies (Anaes.) (Assist.) <b>Fee:</b> \$939.80 <b>Benefit:</b> 75% = \$704.85	
37341	Urethral sling, division or removal of, for urethral obstruction, sling erosion, pain or infection following previous surgery for urinary incontinence, suprapubic, combined suprapubic and vaginal or combined suprapubic and perineal approach, other than a service associated with a service to which item 37340 or 37344 applies (Anaes.) (Assist.) <b>Fee:</b> \$939.80 <b>Benefit:</b> 75% = \$704.85	
37342	URETHROPLASTY single stage operation (Anaes.) (Assist.) <b>Fee:</b> \$859.15 <b>Benefit:</b> 75% = \$644.40	
37343	URETHROPLASTY, single stage operation, transpubic approach via separate incisions above and below the symphysis pubis, excluding laparotomy, symphysectomy and suprapubic cystotomy, with or without re-routing of the urethra around the crura (Anaes.) (Assist.) <b>Fee:</b> \$1,434.60 <b>Benefit:</b> 75% = \$1075.95	
37344	Urethral autologous fascial sling (or other biological sling), division or removal of, for urethral obstruction, sling erosion, pain or infection following previous surgery for urinary incontinence, vaginal approach, other than a service to which 37340 or 37341 applies (Anaes.) (Assist.) <b>Fee:</b> \$939.80 <b>Benefit:</b> 75% = \$704.85	
37345	URETHROPLASTY 2 stage operation first stage (Anaes.) (Assist.) <b>Fee:</b> \$713.00 <b>Benefit:</b> 75% = \$534.75	
37348	URETHROPLASTY 2 stage operation second stage (Anaes.) (Assist.) <b>Fee:</b> \$713.00 <b>Benefit:</b> 75% = \$534.75	
37351	URETHROPLASTY, not being a service to which another item in this Group applies (Anaes.) (Assist.) <b>Fee:</b> \$285.25 <b>Benefit:</b> 75% = \$213.95	
37354	HYPOSPADIAS, meatotomy and hemicircumcision (Anaes.) (Assist.) <b>Fee:</b> \$333.30 <b>Benefit:</b> 75% = \$250.00	

T8. SURGICAL OPERATIONS		5. UROLOGICAL
37369	URETHRA, excision of prolapse of (Anaes.) <b>Fee:</b> \$192.45 <b>Benefit:</b> 75% = \$144.35	
37372	Urethral diverticulum, excision of (Anaes.) (Assist.) <b>Fee:</b> \$953.60 <b>Benefit:</b> 75% = \$715.20	
37375	URETHRAL SPHINCTER, reconstruction by bladder tubularisation technique or similar procedure (Anaes.) (Assist.) <b>Fee:</b> \$1,194.05 <b>Benefit:</b> 75% = \$895.55	
37381	ARTIFICIAL URINARY SPHINCTER, insertion of cuff, perineal approach (Anaes.) (Assist.) <b>Fee:</b> \$764.65 <b>Benefit:</b> 75% = \$573.50	
37384	ARTIFICIAL URINARY SPHINCTER, insertion of cuff, abdominal approach (Anaes.) (Assist.) <b>Fee:</b> \$1,194.05 <b>Benefit:</b> 75% = \$895.55	
37387	ARTIFICIAL URINARY SPHINCTER, insertion of pressure regulating balloon and pump (Anaes.) (Assist.) <b>Fee:</b> \$333.30 <b>Benefit:</b> 75% = \$250.00	
37388	Artificial urinary sphincter, sterile, percutaneous adjustment of filling volume <b>Fee:</b> \$101.00 <b>Benefit:</b> 75% = \$75.75    85% = \$85.85	
37390	ARTIFICIAL URINARY SPHINCTER, revision or removal of, with or without replacement (Anaes.) (Assist.) <b>Fee:</b> \$953.60 <b>Benefit:</b> 75% = \$715.20	
37393	PRIAPISM, decompression by glanular stab cavernospongiosum shunt or penile aspiration with or without lavage (Anaes.) <b>Fee:</b> \$237.05 <b>Benefit:</b> 75% = \$177.80    85% = \$201.50	
37396	PRIAPISM, shunt operation for, not being a service to which item 37393 applies (Anaes.) (Assist.) <b>Fee:</b> \$764.65 <b>Benefit:</b> 75% = \$573.50	
37402	PENIS, partial amputation of (Anaes.) (Assist.) <b>Fee:</b> \$480.90 <b>Benefit:</b> 75% = \$360.70	
37405	PENIS, complete or radical amputation of (Anaes.) (Assist.) <b>Fee:</b> \$953.60 <b>Benefit:</b> 75% = \$715.20	
37408	PENIS, repair of laceration of cavernous tissue, or fracture involving cavernous tissue (Anaes.) (Assist.) <b>Fee:</b> \$480.90 <b>Benefit:</b> 75% = \$360.70	
37411	PENIS, repair of avulsion (Anaes.) (Assist.) <b>Fee:</b> \$953.60 <b>Benefit:</b> 75% = \$715.20    85% = \$868.90	
37415	Penis, injection of, for the investigation and treatment of erectile dysfunction. Applicable not more than twice in a 36-month period	

T8. SURGICAL OPERATIONS		5. UROLOGICAL
	<b>Fee:</b> \$48.05 <b>Benefit:</b> 75% = \$36.05    85% = \$40.85	
37417	Penis, correction of chordee by plication techniques including Nesbit's corporoplasty (Anaes.) (Assist.) <b>Fee:</b> \$575.55 <b>Benefit:</b> 75% = \$431.70	
37418	Penis, correction of chordee with incision or excision of fibrous plaque or plaques, with or without mobilisation of one or both of the neuro-vascular bundle and urethra (Anaes.) (Assist.) <b>Fee:</b> \$764.65 <b>Benefit:</b> 75% = \$573.50    85% = \$679.95	
37423	Penis, lengthening by translocation of corpora, in conjunction with partial penectomy or penile epispadias secondary repair, either as primary or secondary procedures (Anaes.) (Assist.) (See para TN.8.164 of explanatory notes to this Category) <b>Fee:</b> \$953.60 <b>Benefit:</b> 75% = \$715.20	
37426	PENIS, artificial erection device, insertion of, into 1 or both corpora (Anaes.) (Assist.) <b>Fee:</b> \$1,005.00 <b>Benefit:</b> 75% = \$753.75	
37429	PENIS, artificial erection device, insertion of pump and pressure regulating reservoir (Anaes.) (Assist.) <b>Fee:</b> \$333.30 <b>Benefit:</b> 75% = \$250.00	
37432	PENIS, artificial erection device, complete or partial revision or removal of components, with or without replacement (Anaes.) (Assist.) <b>Fee:</b> \$953.60 <b>Benefit:</b> 75% = \$715.20	
37435	PENIS, frenuloplasty as an independent procedure (Anaes.) <b>Fee:</b> \$96.25 <b>Benefit:</b> 75% = \$72.20    85% = \$81.85	
37438	Scrotum, partial excision of, for histologically proven malignancy or infection (Anaes.) (Assist.) <b>Fee:</b> \$285.25 <b>Benefit:</b> 75% = \$213.95    85% = \$242.50	
	OPERATIONS ON TESTES, VASA OR SEMINAL VESICLES	
37601	SPERMATOCELE OR EPIDIDYMAL CYST, excision of, 1 or more of, on 1 side (Anaes.) <b>Fee:</b> \$285.25 <b>Benefit:</b> 75% = \$213.95    85% = \$242.50	
37604	Exploration of scrotal contents, with or without fixation and with or without biopsy, unilateral or bilateral, other than a service associated with sperm harvesting for IVF (Anaes.) <b>Fee:</b> \$285.25 <b>Benefit:</b> 75% = \$213.95    85% = \$242.50	
37605	Transcutaneous sperm retrieval, unilateral, from either the testis or the epididymis, for the purposes of intracytoplasmic sperm injection, for male factor infertility, excluding a service to which item 13218 applies. (Anaes.) (See para TN.8.58, TN.1.5 of explanatory notes to this Category) <b>Fee:</b> \$385.15 <b>Benefit:</b> 75% = \$288.90    85% = \$327.40	
37606	Open surgical sperm retrieval, unilateral, including the exploration of scrotal contents, with our without biopsy, for the purposes of intracytoplasmic sperm injection, for male factor infertility, performed in a hospital, excluding a service to which item 13218 or 37604 applies. (Anaes.) (See para TN.1.5, TN.8.59 of explanatory notes to this Category) <b>Fee:</b> \$571.85 <b>Benefit:</b> 75% = \$428.90    85% = \$487.15	
37607	Bilateral retroperitoneal lymph node dissection, for testicular tumour, other than a service associated	

T8. SURGICAL OPERATIONS		5. UROLOGICAL
	with a service to which item 30390 or 30627 applies (Anaes.) (Assist.)  (See para TN.8.165 of explanatory notes to this Category) <b>Fee:</b> \$1,430.40 <b>Benefit:</b> 75% = \$1072.80	
37610	Bilateral retroperitoneal lymph node dissection, for testicular tumour, following previous similar retroperitoneal dissection, retroperitoneal radiation therapy or chemotherapy, other than a service associated with a service to which item 30390 or 30627 applies (Anaes.) (Assist.)  (See para TN.8.165 of explanatory notes to this Category) <b>Fee:</b> \$2,151.95 <b>Benefit:</b> 75% = \$1614.00	
37613	EPIDIDYMECTOMY (Anaes.)  <b>Fee:</b> \$285.25 <b>Benefit:</b> 75% = \$213.95    85% = \$242.50	
37616	VASOVASOSTOMY or VASOEPIDIDYMOSTOMY, unilateral, using operating microscope, not being a service associated with sperm harvesting for IVF (Anaes.) (Assist.)  <b>Fee:</b> \$713.00 <b>Benefit:</b> 75% = \$534.75	
37619	VASOVASOSTOMY or VASOEPIDIDYMOSTOMY, unilateral, not being a service associated with sperm harvesting for IVF (Anaes.) (Assist.)  <b>Fee:</b> \$285.25 <b>Benefit:</b> 75% = \$213.95    85% = \$242.50 <b>Extended Medicare Safety Net Cap:</b> \$228.20	
37623	VASOTOMY OR VASECTOMY, unilateral or bilateral  <i>NOTE: Strict legal requirements apply in relation to sterilisation procedures on minors. Medicare benefits are not payable for services not rendered in accordance with relevant Commonwealth and State and Territory law. Observe the explanatory note before submitting a claim. (Anaes.)</i>  (See para TN.8.46 of explanatory notes to this Category) <b>Fee:</b> \$237.05 <b>Benefit:</b> 75% = \$177.80    85% = \$201.50	
PAEDIATRIC GENITURINARY SURGERY		
37800	PATENT URACHUS, excision of, on a person 10 years of age or over. (Anaes.) (Assist.)  <b>Fee:</b> \$537.55 <b>Benefit:</b> 75% = \$403.20	
37801	PATENT URACHUS, excision of, when performed on a person under 10 years of age (Anaes.) (Assist.)  <b>Fee:</b> \$698.85 <b>Benefit:</b> 75% = \$524.15	
37803	UNDESCENDED TESTIS, orchidopexy for, not being a service to which item 37806 applies, on a person 10 years of age or over. (Anaes.) (Assist.)  <b>Fee:</b> \$537.55 <b>Benefit:</b> 75% = \$403.20	
37804	UNDESCENDED TESTIS, orchidopexy for, not being a service to which item 37807 applies, on a person under 10 years of age (Anaes.) (Assist.)  <b>Fee:</b> \$698.85 <b>Benefit:</b> 75% = \$524.15	
37806	UNDESCENDED TESTIS in inguinal canal close to deep inguinal ring or within abdominal cavity, orchidopexy for, on a person 10 years of age or over (Anaes.) (Assist.)  <b>Fee:</b> \$621.10 <b>Benefit:</b> 75% = \$465.85    85% = \$536.40	

T8. SURGICAL OPERATIONS		5. UROLOGICAL
37807	UNDESCENDED TESTIS in inguinal canal close to deep inguinal ring or within abdominal cavity, orchidopexy for, on a person under 10 years of age (Anaes.) (Assist.) <b>Fee:</b> \$807.45 <b>Benefit:</b> 75% = \$605.60    85% = \$722.75	
37809	UNDESCENDED TESTIS, revision orchidopexy for, on a person 10 years of age or over. (Anaes.) (Assist.) <b>Fee:</b> \$621.10 <b>Benefit:</b> 75% = \$465.85	
37810	UNDESCENDED TESTIS, revision orchidopexy for, on a person under 10 years of age (Anaes.) (Assist.) <b>Fee:</b> \$807.45 <b>Benefit:</b> 75% = \$605.60	
37812	IMPALPABLE TESTIS, exploration of groin for, not being a service associated with a service to which items 37803, 37806 and 37809 applies, on a person 10 years of age or over. (Anaes.) (Assist.) <b>Fee:</b> \$573.35 <b>Benefit:</b> 75% = \$430.05	
37813	IMPALPABLE TESTIS, exploration of groin for, not being a service associated with a service to which items 37804, 37807 and 37810 applies, on a person under 10 years of age (Anaes.) (Assist.) <b>Fee:</b> \$745.35 <b>Benefit:</b> 75% = \$559.05	
37815	HYPOSPADIAS, examination under anaesthesia with erection test on a person 10 years of age or over. (Anaes.) <b>Fee:</b> \$95.65 <b>Benefit:</b> 75% = \$71.75	
37816	HYPOSPADIAS, examination under anaesthesia with erection test, on a person under 10 years of age (Anaes.) <b>Fee:</b> \$124.40 <b>Benefit:</b> 75% = \$93.30	
37818	HYPOSPADIAS, glanuloplasty incorporating meatal advancement, on a person 10 years of age or over (Anaes.) (Assist.) <b>Fee:</b> \$506.80 <b>Benefit:</b> 75% = \$380.10    85% = \$430.80	
37819	HYPOSPADIAS, glanuloplasty incorporating meatal advancement, on a person under 10 years of age (Anaes.) (Assist.) <b>Fee:</b> \$658.85 <b>Benefit:</b> 75% = \$494.15    85% = \$574.15	
37821	HYPOSPADIAS, distal, 1 stage repair, on a person 10 years of age or over. (Anaes.) (Assist.) <b>Fee:</b> \$859.15 <b>Benefit:</b> 75% = \$644.40	
37822	HYPOSPADIAS, distal, 1 stage repair, on a person under 10 years of age (Anaes.) (Assist.) <b>Fee:</b> \$1,116.90 <b>Benefit:</b> 75% = \$837.70	
37824	HYPOSPADIAS, proximal, 1 stage repair on a person 10 years of age or over. (Anaes.) (Assist.) <b>Fee:</b> \$1,194.50 <b>Benefit:</b> 75% = \$895.90	
37825	HYPOSPADIAS, proximal, 1 stage repair, on a person under 10 years of age (Anaes.) (Assist.) <b>Fee:</b> \$1,552.85 <b>Benefit:</b> 75% = \$1164.65	
37827	HYPOSPADIAS, staged repair, first stage, on a person 10 years of age or over. (Anaes.) (Assist.) <b>Fee:</b> \$550.30 <b>Benefit:</b> 75% = \$412.75	

T8. SURGICAL OPERATIONS		5. UROLOGICAL
37828	HYPOSPADIAS, staged repair, first stage, on a person under 10 years of age (Anaes.) (Assist.) <b>Fee:</b> \$715.35 <b>Benefit:</b> 75% = \$536.55	
37830	HYPOSPADIAS, staged repair, second stage, on a person 10 years of age or over. (Anaes.) (Assist.) <b>Fee:</b> \$713.00 <b>Benefit:</b> 75% = \$534.75    85% = \$628.30	
37831	HYPOSPADIAS, staged repair, second stage, on a person under 10 years of age. (Anaes.) (Assist.) <b>Fee:</b> \$927.00 <b>Benefit:</b> 75% = \$695.25    85% = \$842.30	
37833	Hypospadias, repair of urethral fistula, on a person 10 years of age or over (Anaes.) (Assist.) <b>Fee:</b> \$340.30 <b>Benefit:</b> 75% = \$255.25

38359	PERICARDIUM, paracentesis of (excluding aftercare) (Anaes.)  <b>Fee:</b> \$137.75 <b>Benefit:</b> 75% = \$103.35    85% = \$117.10	
38362	INTRA-AORTIC BALLOON PUMP, percutaneous insertion of (Anaes.)  <b>Fee:</b> \$396.95 <b>Benefit:</b> 75% = \$297.75    85% = \$337.45	
38365	Permanent cardiac synchronisation device (including a cardiac synchronisation device that is capable of defibrillation), insertion, removal or replacement of, for a patient who:  (a) has:  (i) moderate to severe chronic heart failure (New York Heart Association (NYHA) class III or IV) despite optimised medical therapy; and  (ii) sinus rhythm; and  (iii) a left ventricular ejection fraction of less than or equal to 35%; and  (iv) a QRS duration greater than or equal to 120 ms; or  (b) satisfied the requirements mentioned in paragraph (a) immediately before the insertion of a cardiac resynchronisation therapy device and transvenous left ventricle electrode (Anaes.)  (See para TN.8.63 of explanatory notes to this Category) <b>Fee:</b> \$263.45 <b>Benefit:</b> 75% = \$197.60	
38368	Permanent transvenous left ventricular electrode, insertion, removal or replacement of through the coronary sinus, for the purpose of cardiac resynchronisation therapy, including right heart catheterisation and any associated venogram of left ventricular veins, other than a service associated with a service to which item 35200 or 38200 applies, for a patient who:  (a) has:  (i) moderate to severe chronic heart failure (New York Heart Association (NYHA) class III or IV) despite optimised medical therapy; and	

T8. SURGICAL OPERATIONS	6. CARDIO-THORACIC
	<p>(ii) sinus rhythm; and</p> <p>(iii) a left ventricular ejection fraction of less than or equal to 35%; and</p> <p>(iv) a QRS duration greater than or equal to 120 ms; or</p> <p>(b) has:</p> <p>(i) mild chronic heart failure (New York Heart Association (NYHA) class II) despite optimised medical therapy; and</p> <p>(ii) sinus rhythm; and</p> <p>(iii) a left ventricular ejection fraction of less than or equal to 35%; and</p> <p>(iv) a QRS duration greater than or equal to 150 ms; or</p> <p>(c) satisfied the requirements mentioned in paragraph (a) or (b) immediately before the insertion of a cardiac resynchronisation therapy device and transvenous left ventricle electrode (Anaes.)</p> <p>(See para TN.8.63 of explanatory notes to this Category)  <b>Fee:</b> \$1,262.85      <b>Benefit:</b> 75% = \$947.15</p>
38371	<p>Permanent cardiac synchronisation device capable of defibrillation, insertion, removal or replacement of, for a patient who:</p> <p>(a) has:</p> <p>(i) moderate to severe chronic heart failure (New York Heart Association ((NYHA) class III or IV) despite optimised medical therapy; and</p> <p>(ii) sinus rhythm; and</p> <p>(iii) a left ventricular ejection fraction of less than or equal to 35%; and</p> <p>(iv) a QRS duration greater than or equal to 120 ms; or</p> <p>(b) has:</p> <p>(i) mild chronic heart failure (New York Heart Association (NYHA) class II) despite optimised medical therapy; and</p> <p>(ii) sinus rhythm; and</p> <p>(iii) a left ventricular ejection fraction of less than or equal to 35%; and</p> <p>(iv) a QRS duration greater than or equal to 150 ms (Anaes.)</p> <p>(See para TN.8.65 of explanatory notes to this Category)  <b>Fee:</b> \$296.85      <b>Benefit:</b> 75% = \$222.65</p>
38384	<p>AUTOMATIC DEFIBRILLATOR, insertion of patches for, or insertion of transvenous endocardial defibrillation electrodes for, primary prevention of sudden cardiac death in:</p> <p>- patients with a left ventricular ejection fraction of less than or equal to 30% at least one month after</p>

T8. SURGICAL OPERATIONS		6. CARDIO-THORACIC
	<p>a myocardial infarct when the patient has received optimised medical therapy; or</p> <p>- patients with chronic heart failure associated with mild to moderate symptoms (NYHA II and III) and a left ventricular ejection fraction less than or equal to 35% when the patient has received optimised medical therapy.</p> <p>Not being a service associated with a service to which item 38213 applies (Anaes.) (Assist.)</p> <p><b>Fee:</b> \$1,085.55      <b>Benefit:</b> 75% = \$814.20    85% = \$1000.85</p>	
38387	<p>AUTOMATIC DEFIBRILLATOR GENERATOR, insertion or replacement of for, primary prevention of sudden cardiac death in:</p> <p>- patients with a left ventricular ejection fraction of less than or equal to 30% at least one month after a myocardial infarct when the patient has received optimised medical therapy; or</p> <p>- patients with chronic heart failure associated with mild to moderate symptoms (NYHA II and III) and a left ventricular ejection fraction less than or equal to 35% when the patient has received optimised medical therapy.</p> <p>Not being a service associated with a service to which item 38213 applies, not for defibrillators capable of cardiac resynchronisation therapy (Anaes.) (Assist.)</p> <p><b>Fee:</b> \$296.85      <b>Benefit:</b> 75% = \$222.65    85% = \$252.35</p>	
38390	<p>AUTOMATIC DEFIBRILLATOR, insertion of patches for, or insertion of transvenous endocardial defibrillation electrodes for - not for patients with heart failure or as primary prevention for tachycardia arrhythmias. Not being a service associated with a service to which item 38213 applies (Anaes.) (Assist.)</p> <p><b>Fee:</b> \$1,085.55      <b>Benefit:</b> 75% = \$814.20    85% = \$1000.85</p>	
38393	<p>AUTOMATIC DEFIBRILLATOR GENERATOR, insertion or replacement of for - not for patients with heart failure or as primary prevention for tachycardia arrhythmias. Not being a service associated with a service to which item 38213 applies. (Anaes.) (Assist.)</p> <p><b>Fee:</b> \$296.85      <b>Benefit:</b> 75% = \$222.65    85% = \$252.35</p>	
<b>THORACIC SURGERY</b>		
38415	<p>EMPHYEMA, radical operation for, involving resection of rib (Anaes.) (Assist.)</p> <p><b>Fee:</b> \$411.85      <b>Benefit:</b> 75% = \$308.90    85% = \$350.10</p>	
New 38416 S	<p>Endoscopic ultrasound guided fine needle aspiration biopsy or biopsies (endoscopy with ultrasound imaging) to obtain one or more specimens from either or both of the following:</p> <p>(a) mediastinal masses;</p>	

T8. SURGICAL OPERATIONS		6. CARDIO-THORACIC
	(b) locoregional nodes to stage non-small cell lung carcinoma;  other than a service associated with a service to which an item in Subgroup 1 of this Group, or item 38417 or 55054, applies (Anaes.)  (See para TN.8.21 of explanatory notes to this Category) <b>Fee:</b> \$580.90 <b>Benefit:</b> 75% = \$435.70    85% = \$496.20	
<b>New</b> 38417 S	Endobronchial ultrasound guided biopsy or biopsies (bronchoscopy with ultrasound imaging, with or without associated fluoroscopic imaging) to obtain one or more specimens by:  (a) transbronchial biopsy or biopsies of peripheral lung lesions; or  (b) fine needle aspirations of one or more mediastinal masses; or  (c) fine needle aspirations of locoregional nodes to stage non-small cell lung carcinoma;  other than a service associated with a service to which an item in Subgroup 1 of this Group, item 38416, 38420 or 38423, or an item in Subgroup I5 of Group I3, applies (Anaes.)  (See para TN.8.21 of explanatory notes to this Category) <b>Fee:</b> \$580.90 <b>Benefit:</b> 75% = \$435.70    85% = \$496.20	
38418	THORACOTOMY, exploratory, with or without biopsy (Anaes.) (Assist.)  <b>Fee:</b> \$988.35 <b>Benefit:</b> 75% = \$741.30	
<b>New</b> 38419 S	Bronchoscopy, as an independent procedure (Anaes.)  <b>Fee:</b> \$183.60 <b>Benefit:</b> 75% = \$137.70    85% = \$156.10	
<b>New</b> 38420 S	Bronchoscopy with one or more endobronchial biopsies or other diagnostic or therapeutic procedures (Anaes.)  <b>Fee:</b> \$242.40 <b>Benefit:</b> 75% = \$181.80    85% = \$206.05	
38421	THORACOTOMY, with pulmonary decortication (Anaes.) (Assist.)  <b>Fee:</b> \$1,579.85 <b>Benefit:</b> 75% = \$1184.90	
<b>New</b> 38422 S	Bronchus, removal of foreign body in (Anaes.) (Assist.)  <b>Fee:</b> \$379.25 <b>Benefit:</b> 75% = \$284.45	
<b>New</b> 38423 S	Fibreoptic bronchoscopy with one or more transbronchial lung biopsies, with or without bronchial or broncho-alveolar lavage, with or without the use of interventional imaging (Anaes.) (Assist.)  <b>Fee:</b> \$264.95 <b>Benefit:</b> 75% = \$198.75    85% = \$225.25	
38424	THORACOTOMY, with pleurectomy or pleurodesis, OR ENUCLEATION OF HYDATID cysts (Anaes.) (Assist.)  <b>Fee:</b> \$988.35 <b>Benefit:</b> 75% = \$741.30	
<b>New</b> 38425 S	Endoscopic laser resection of endobronchial tumours for relief of obstruction including any associated endoscopic procedures (Anaes.) (Assist.)  <b>Fee:</b> \$623.15 <b>Benefit:</b> 75% = \$467.40	
38427	THORACOPLASTY (complete) - 3 or more ribs (Anaes.) (Assist.)  <b>Fee:</b> \$1,220.40 <b>Benefit:</b> 75% = \$915.30	

T8. SURGICAL OPERATIONS		6. CARDIO-THORACIC
38430	THORACOPLASTY (in stages) each stage (Anaes.) (Assist.) <b>Fee:</b> \$628.95 <b>Benefit:</b> 75% = \$471.75	
38436	THORACOSCOPY, with or without division of pleural adhesions, including insertion of intercostal catheter where necessary, with or without biopsy (Anaes.) <b>Fee:</b> \$257.55 <b>Benefit:</b> 75% = \$193.20	
38438	PNEUMONECTOMY or LOBECTOMY or SEGMENTECTOMY not being a service associated with a service to which Item 38418 applies (Anaes.) (Assist.) <b>Fee:</b> \$1,579.85 <b>Benefit:</b> 75% = \$1184.90	
38440	LUNG, wedge resection of (Anaes.) (Assist.) <b>Fee:</b> \$1,183.05 <b>Benefit:</b> 75% = \$887.30	
38441	RADICAL LOBECTOMY or PNEUMONECTOMY including resection of chest wall, diaphragm, pericardium, or formal mediastinal node dissection (Anaes.) (Assist.) <b>Fee:</b> \$1,871.90 <b>Benefit:</b> 75% = \$1403.95	
38446	THORACOTOMY or STERNOTOMY, for removal of thymus or mediastinal tumour (Anaes.) (Assist.) <b>Fee:</b> \$1,220.40 <b>Benefit:</b> 75% = \$915.30	
38447	PERICARDIECTOMY via sternotomy or anterolateral thoracotomy without cardiopulmonary bypass (Anaes.) (Assist.) <b>Fee:</b> \$1,579.85 <b>Benefit:</b> 75% = \$1184.90	
38448	MEDIASTINUM, cervical exploration of, with or without biopsy (Anaes.) (Assist.) <b>Fee:</b> \$374.40 <b>Benefit:</b> 75% = \$280.80	
38449	PERICARDIECTOMY via sternotomy or anterolateral thoracotomy with cardiopulmonary bypass (Anaes.) (Assist.) <b>Fee:</b> \$2,210.15 <b>Benefit:</b> 75% = \$1657.65	
38450	PERICARDIUM, transthoracic open surgical drainage of (Anaes.) (Assist.) <b>Fee:</b> \$883.40 <b>Benefit:</b> 75% = \$662.55	
38452	PERICARDIUM, subxiphoid open surgical drainage of (Anaes.) (Assist.) <b>Fee:</b> \$591.65 <b>Benefit:</b> 75% = \$443.75	
38453	TRACHEAL excision and repair without cardiopulmonary bypass (Anaes.) (Assist.) <b>Fee:</b> \$1,774.70 <b>Benefit:</b> 75% = \$1331.05	
38455	TRACHEAL EXCISION AND REPAIR OF, with cardiopulmonary bypass (Anaes.) (Assist.) <b>Fee:</b> \$2,400.40 <b>Benefit:</b> 75% = \$1800.30	
38456	INTRATHORACIC OPERATION on heart, lungs, great vessels, bronchial tree, oesophagus or mediastinum, or on more than 1 of those organs, not being a service to which another item in this Group applies (Anaes.) (Assist.) <b>Fee:</b> \$1,579.85 <b>Benefit:</b> 75% = \$1184.90	

T8. SURGICAL OPERATIONS		6. CARDIO-THORACIC
38457	PECTUS EXCAVATUM or PECTUS CARINATUM, repair or radical correction of (Anaes.) (Assist.) <b>Fee:</b> \$1,474.95 <b>Benefit:</b> 75% = \$1106.25	
38458	PECTUS EXCAVATUM, repair of, with implantation of subcutaneous prosthesis (Anaes.) (Assist.) <b>Fee:</b> \$786.15 <b>Benefit:</b> 75% = \$589.65	
38460	STERNAL WIRE OR WIRES, removal of (Anaes.) <b>Fee:</b> \$284.00 <b>Benefit:</b> 75% = \$213.00	
38462	STERNOTOMY WOUND, debridement of, not involving reopening of the mediastinum (Anaes.) <b>Fee:</b> \$336.60 <b>Benefit:</b> 75% = \$252.45	
38464	STERNOTOMY WOUND, debridement of, involving curettage of infected bone with or without removal of wires but not involving reopening of the mediastinum (Anaes.) <b>Fee:</b> \$365.90 <b>Benefit:</b> 75% = \$274.45	
38466	STERNUM, reoperation on, for dehiscence or infection involving reopening of the mediastinum, with or without rewiring (Anaes.) (Assist.) <b>Fee:</b> \$987.95 <b>Benefit:</b> 75% = \$741.00	
38468	STERNUM AND MEDIASTINUM, reoperation for infection of, involving muscle advancement flaps or greater omentum (Anaes.) (Assist.) <b>Fee:</b> \$1,522.25 <b>Benefit:</b> 75% = \$1141.70	
38469	STERNUM AND MEDIASTINUM, reoperation for infection of, involving muscle advancement flaps and greater omentum (Anaes.) (Assist.) <b>Fee:</b> \$1,774.70 <b>Benefit:</b> 75% = \$1331.05	
CARDIAC SURGERY PROCEDURES		
38470	PERMANENT MYOCARDIAL ELECTRODE, insertion of, by thoracotomy or sternotomy (Anaes.) (Assist.) (See para TN.8.67 of explanatory notes to this Category) <b>Fee:</b> \$988.35 <b>Benefit:</b> 75% = \$741.30	
38473	PERMANENT PACEMAKER ELECTRODE, insertion by open surgical approach (Anaes.) (Assist.) (See para TN.8.67 of explanatory notes to this Category) <b>Fee:</b> \$591.65 <b>Benefit:</b> 75% = \$443.75	
VALVULAR PROCEDURES		
38475	VALVE ANNULOPLASTY without insertion of ring, not being a service associated with a service to which item 38480 or 38481 applies (Anaes.) (Assist.) (See para TN.8.67 of explanatory notes to this Category) <b>Fee:</b> \$857.75 <b>Benefit:</b> 75% = \$643.35	
38477	VALVE ANNULOPLASTY with insertion of ring not being a service to which item 38478 applies (Anaes.) (Assist.) (See para TN.8.67 of explanatory notes to this Category) <b>Fee:</b> \$2,065.95 <b>Benefit:</b> 75% = \$1549.50	
38478	VALVE ANNULOPLASTY with insertion of ring performed in conjunction with item 38480 or 38481	

T8. SURGICAL OPERATIONS	6. CARDIO-THORACIC
	<p>(Anaes.) (Assist.)</p> <p>(See para TN.8.67 of explanatory notes to this Category)  <b>Fee:</b> \$1,000.75      <b>Benefit:</b> 75% = \$750.60</p>
38480	<p>VALVE REPAIR, 1 leaflet (Anaes.) (Assist.)</p> <p>(See para TN.8.67 of explanatory notes to this Category)  <b>Fee:</b> \$2,065.95      <b>Benefit:</b> 75% = \$1549.50</p>
38481	<p>VALVE REPAIR, 2 or more leaflets (Anaes.) (Assist.)</p> <p>(See para TN.8.67 of explanatory notes to this Category)  <b>Fee:</b> \$2,351.90      <b>Benefit:</b> 75% = \$1763.95</p>
38483	<p>AORTIC VALVE LEAFLET OR LEAFLETS, decalcification of, not being a service to which item 38475, 38477, 38480, 38481, 38488 or 38489 applies (Anaes.) (Assist.)</p> <p>(See para TN.8.67 of explanatory notes to this Category)  <b>Fee:</b> \$1,774.70      <b>Benefit:</b> 75% = \$1331.05</p>
38485	<p>MITRAL ANNULUS, reconstruction of, after decalcification, when performed in association with valve surgery (Anaes.) (Assist.)</p> <p>(See para TN.8.67 of explanatory notes to this Category)  <b>Fee:</b> \$842.60      <b>Benefit:</b> 75% = \$631.95</p>
38487	<p>MITRAL VALVE, open valvotomy of (Anaes.) (Assist.)</p> <p>(See para TN.8.67 of explanatory notes to this Category)  <b>Fee:</b> \$1,774.70      <b>Benefit:</b> 75% = \$1331.05</p>
38488	<p>VALVE REPLACEMENT with BIOPROSTHESIS OR MECHANICAL PROSTHESIS (Anaes.) (Assist.)</p> <p>(See para TN.8.67 of explanatory notes to this Category)  <b>Fee:</b> \$1,969.25      <b>Benefit:</b> 75% = \$1476.95</p>
38489	<p>VALVE REPLACEMENT with allograft (subcoronary or cylindrical implant), or unstented xenograft (Anaes.) (Assist.)</p> <p>(See para TN.8.67 of explanatory notes to this Category)  <b>Fee:</b> \$2,342.00      <b>Benefit:</b> 75% = \$1756.50</p>
38490	<p>SUB-VALVULAR STRUCTURES, reconstruction and re-implantation of, associated with mitral and tricuspid valve replacement (Anaes.) (Assist.)</p> <p>(See para TN.8.67 of explanatory notes to this Category)  <b>Fee:</b> \$571.85      <b>Benefit:</b> 75% = \$428.90</p>
38493	<p>OPERATIVE MANAGEMENT of acute infective endocarditis, in association with heart valve surgery (Anaes.) (Assist.)</p> <p>(See para TN.8.67 of explanatory notes to this Category)  <b>Fee:</b> \$2,018.75      <b>Benefit:</b> 75% = \$1514.10</p>
38495	<p>TAVI, for the treatment of symptomatic severe aortic stenosis, performed via transfemoral delivery, unless transfemoral delivery is contraindicated or not feasible, in a TAVI Hospital on a TAVI Patient by a TAVI Practitioner – includes all intraoperative diagnostic imaging that the TAVI Practitioner performs upon the TAVI Patient.</p> <p>(Not payable more than once per patient in a five year period.) (Anaes.) (Assist.)</p>

T8. SURGICAL OPERATIONS		6. CARDIO-THORACIC
	(See para AN.33.1, TN.8.135 of explanatory notes to this Category) <b>Fee:</b> \$1,476.95 <b>Benefit:</b> 75% = \$1107.75    85% = \$1392.25	
	SURGERY FOR ISCHAEMIC HEART DISEASE	
38496	ARTERY HARVESTING (other than internal mammary), for coronary artery bypass (Anaes.) (Assist.)  (See para TN.8.67 of explanatory notes to this Category) <b>Fee:</b> \$643.45 <b>Benefit:</b> 75% = \$482.60	
38497	CORONARY ARTERY BYPASS with cardiopulmonary bypass, using saphenous vein graft or grafts only, including harvesting of vein graft material where performed, not being a service associated with a service to which items 38498, 38500, 38501, 38503 or 38504 apply (Anaes.) (Assist.)  (See para TN.8.68, TN.8.67 of explanatory notes to this Category) <b>Fee:</b> \$2,111.55 <b>Benefit:</b> 75% = \$1583.70	
38498	CORONARY ARTERY BYPASS with the aid of tissue stabilisers, performed without cardiopulmonary bypass, using saphenous vein graft or grafts only, including harvesting of vein graft material where performed, either via a median sternotomy or other minimally invasive technique and where a stand-by perfusionist is present, not being a service associated with a service to which items 38497, 38500, 38501, 38503, 38504 or 38600 apply (Anaes.) (Assist.)  (See para TN.8.68, TN.8.67 of explanatory notes to this Category) <b>Fee:</b> \$2,111.55 <b>Benefit:</b> 75% = \$1583.70	
38500	CORONARY ARTERY BYPASS with cardiopulmonary bypass, using single arterial graft, with or without vein graft or grafts, including harvesting of internal mammary artery or vein graft material where performed, not being a service associated with a service to which items 38497, 38498, 38501, 38503 or 38504 apply (Anaes.) (Assist.)  (See para TN.8.68, TN.8.67 of explanatory notes to this Category) <b>Fee:</b> \$2,268.75 <b>Benefit:</b> 75% = \$1701.60	
38501	CORONARY ARTERY BYPASS with the aid of tissue stabilisers, performed without cardiopulmonary bypass, using single arterial graft, with or without vein graft or grafts, including harvesting of internal mammary artery or vein graft material where performed, either via a median sternotomy or other minimally invasive technique and where a stand-by perfusionist is present, not being a service associated with a service to which items 38497, 38498, 38500, 38503, 38504 or 38600 apply (Anaes.) (Assist.)  (See para TN.8.68, TN.8.67 of explanatory notes to this Category) <b>Fee:</b> \$2,268.75 <b>Benefit:</b> 75% = \$1701.60	
38503	CORONARY ARTERY BYPASS with cardiopulmonary bypass, using 2 or more arterial grafts, with or without vein graft or grafts, including harvesting of internal mammary artery or vein graft material where performed, not being a service associated with a service to which items 38497, 38498, 38500, 38501 or 38504 apply (Anaes.) (Assist.)  (See para TN.8.68, TN.8.67 of explanatory notes to this Category) <b>Fee:</b> \$2,463.30 <b>Benefit:</b> 75% = \$1847.50	
38504	CORONARY ARTERY BYPASS with the aid of tissue stabilisers, performed without cardiopulmonary bypass, using 2 or more arterial grafts, with or without vein graft or grafts, including harvesting of internal mammary artery or vein graft material where performed, either via a median sternotomy or other minimally invasive technique and where a stand-by perfusionist is present, not being a service associated with a service to which items 38497, 38498, 38500, 38501, 38503 or 38600 apply (Anaes.) 38505	CORONARY ENDARTERECTOMY, by open operation, including repair with 1 or more patch grafts,	

T8. SURGICAL OPERATIONS		6. CARDIO-THORACIC
	each vessel (Anaes.) (Assist.)  (See para TN.8.67 of explanatory notes to this Category) <b>Fee:</b> \$285.95 <b>Benefit:</b> 75% = \$214.50	
38506	LEFT VENTRICULAR ANEURYSM, plication of (Anaes.) (Assist.)  (See para TN.8.67 of explanatory notes to this Category) <b>Fee:</b> \$1,677.05 <b>Benefit:</b> 75% = \$1257.80	
38507	LEFT VENTRICULAR ANEURYSM resection with primary repair (Anaes.) (Assist.)  (See para TN.8.67 of explanatory notes to this Category) <b>Fee:</b> \$1,968.85 <b>Benefit:</b> 75% = \$1476.65	
38508	LEFT VENTRICULAR ANEURYSM resection with patch reconstruction of the left ventricle (Anaes.) (Assist.)  (See para TN.8.67 of explanatory notes to this Category) <b>Fee:</b> \$2,463.30 <b>Benefit:</b> 75% = \$1847.50	
38509	ISCHAEMIC VENTRICULAR SEPTAL RUPTURE, repair of (Anaes.) (Assist.)  (See para TN.8.67 of explanatory notes to this Category) <b>Fee:</b> \$2,463.30 <b>Benefit:</b> 75% = \$1847.50	
ARRHYTHMIA SURGERY		
38512	DIVISION OF ACCESSORY PATHWAY, isolation procedure, procedure on atrioventricular node or perinodal tissues involving 1 atrial chamber only (Anaes.) (Assist.)  (See para TN.8.67 of explanatory notes to this Category) <b>Fee:</b> \$2,164.05 <b>Benefit:</b> 75% = \$1623.05	
38515	DIVISION OF ACCESSORY PATHWAY, isolation procedure, procedure on atrioventricular node or perinodal tissues involving both atrial chambers and including curative surgery for atrial fibrillation (Anaes.) (Assist.)  (See para TN.8.67 of explanatory notes to this Category) <b>Fee:</b> \$2,755.40 <b>Benefit:</b> 75% = \$2066.55	
38518	VENTRICULAR ARRHYTHMIA with mapping and muscle ablation, with or without aneurysmeotomy (Anaes.) (Assist.)  (See para TN.8.67 of explanatory notes to this Category) <b>Fee:</b> \$2,957.65 <b>Benefit:</b> 75% = \$2218.25	
PROCEDURES ON THORACIC AORTA		
38550	ASCENDING THORACIC AORTA, repair or replacement of, not involving valve replacement or repair or coronary artery implantation (Anaes.) (Assist.)  (See para TN.8.67 of explanatory notes to this Category) <b>Fee:</b> \$2,213.20 <b>Benefit:</b> 75% = \$1659.90	
38553	ASCENDING THORACIC AORTA, repair or replacement of, with aortic valve replacement or repair, without implantation of coronary arteries (Anaes.) (Assist.)  (See para TN.8.67 of explanatory notes to this Category) <b>Fee:</b> \$2,804.70 <b>Benefit:</b> 75% = \$2103.55	
38556	ASCENDING THORACIC AORTA, repair or replacement of, with aortic valve replacement or repair, and implantation of coronary arteries (Anaes.) (Assist.)	

T8. SURGICAL OPERATIONS		6. CARDIO-THORACIC
	(See para TN.8.67 of explanatory notes to this Category) <b>Fee:</b> \$3,201.70 <b>Benefit:</b> 75% = \$2401.30	
38559	AORTIC ARCH and ASCENDING THORACIC AORTA, repair or replacement of, not involving valve replacement or repair or coronary artery implantation (Anaes.) (Assist.)  (See para TN.8.67 of explanatory notes to this Category) <b>Fee:</b> \$2,610.05 <b>Benefit:</b> 75% = \$1957.55	
38562	AORTIC ARCH and ASCENDING THORACIC AORTA, repair or replacement of, with aortic valve replacement or repair, without implantation of coronary arteries (Anaes.) (Assist.)  (See para TN.8.67 of explanatory notes to this Category) <b>Fee:</b> \$3,201.70 <b>Benefit:</b> 75% = \$2401.30	
38565	AORTIC ARCH and ASCENDING THORACIC AORTA, repair or replacement of, with aortic valve replacement or repair, and implantation of coronary arteries (Anaes.) (Assist.)  (See para TN.8.67 of explanatory notes to this Category) <b>Fee:</b> \$3,591.00 <b>Benefit:</b> 75% = \$2693.25	
38568	DESCENDING THORACIC AORTA, repair or replacement of, without shunt or cardiopulmonary bypass, by open exposure, percutaneous or endovascular means (Anaes.) (Assist.)  (See para TN.8.67 of explanatory notes to this Category) <b>Fee:</b> \$1,921.15 <b>Benefit:</b> 75% = \$1440.90	
38571	DESCENDING THORACIC AORTA, repair or replacement of, using shunt or cardiopulmonary bypass (Anaes.) (Assist.)  (See para TN.8.67 of explanatory notes to this Category) <b>Fee:</b> \$2,115.85 <b>Benefit:</b> 75% = \$1586.90	
38572	OPERATIVE MANAGEMENT OF ACUTE RUPTURE OR DISSECTION, in conjunction with procedures on the thoracic aorta (Anaes.) (Assist.)  (See para TN.8.67 of explanatory notes to this Category) <b>Fee:</b> \$2,049.15 <b>Benefit:</b> 75% = \$1536.90	
38577	CANNULATION FOR, and supervision and monitoring of, the administration of retrograde cerebral perfusion during deep hypothermic arrest (Assist.)  (See para TN.8.67 of explanatory notes to this Category) <b>Fee:</b> \$571.85 <b>Benefit:</b> 75% = \$428.90	
TECHNIQUES FOR PRESERVATION OF ARRESTED HEART		
38588	CANNULATION of the coronary sinus for, and supervision of, the retrograde administration of blood or crystalloid for cardioplegia, including pressure monitoring (Assist.)  (See para TN.8.67 of explanatory notes to this Category) <b>Fee:</b> \$429.05 <b>Benefit:</b> 75% = \$321.80	
CIRCULATORY SUPPORT PROCEDURES		
38600	CENTRAL CANNULATION for cardiopulmonary bypass excluding post-operative management, not being a service associated with a service to which another item in this Subgroup applies (Anaes.) (Assist.)  (See para TN.8.67 of explanatory notes to this Category) <b>Fee:</b> \$1,579.85 <b>Benefit:</b> 75% = \$1184.90	
38603	PERIPHERAL CANNULATION for cardiopulmonary bypass excluding post-operative management	

<b>T8. SURGICAL OPERATIONS</b>		<b>6. CARDIO-THORACIC</b>
	(Anaes.) (Assist.)  (See para TN.8.67 of explanatory notes to this Category) <b>Fee:</b> \$988.35 <b>Benefit:</b> 75% = \$741.30	
38609	INTRA-AORTIC BALLOON PUMP, insertion of, by arteriotomy (Anaes.) (Assist.)  (See para TN.8.67 of explanatory notes to this Category) <b>Fee:</b> \$494.10 <b>Benefit:</b> 75% = \$370.60	
38612	INTRA-AORTIC BALLOON PUMP, removal of, with closure of artery by direct suture (Anaes.) (Assist.)  (See para TN.8.67 of explanatory notes to this Category) <b>Fee:</b> \$553.90 <b>Benefit:</b> 75% = \$415.45    85% = \$470.85	
38613	INTRA-AORTIC BALLOON PUMP, removal of, with closure of artery by patch graft (Anaes.) (Assist.)  (See para TN.8.67 of explanatory notes to this Category) <b>Fee:</b> \$695.10 <b>Benefit:</b> 75% = \$521.35	
38615	Insertion of a left or right ventricular assist device, for use as:  (a) a bridge to cardiac transplantation in patients with refractory heart failure who are:  (i) currently on a heart transplant waiting list, or  (ii) expected to be suitable candidates for cardiac transplantation following a period of support on the ventricular  assist device; or  (b) acute post cardiomy support for failure to wean from cardiopulmonary transplantation; or  (c) cardio-respiratory support for acute cardiac failure which is likely to recover with short term support of less than 6  weeks;  not being a service associated with the use of a ventricular assist device as destination therapy in the management of patients with heart failure who are not expected to be suitable candidates for cardiac transplantation (Anaes.) (Assist.)  (See para TN.8.67 of explanatory notes to this Category) <b>Fee:</b> \$1,579.85 <b>Benefit:</b> 75% = \$1184.90	
38618	Insertion of a left and right ventricular assist device, for use as:  (a) a bridge to cardiac transplantation in patients with refractory heart failure who are:  (i) currently on a heart transplant waiting list, or  (ii) expected to be suitable candidates for cardiac transplantation following a period of support on the ventricular  assist device; or  (b) acute post cardiomy support for failure to wean from cardiopulmonary transplantation; or	

T8. SURGICAL OPERATIONS		6. CARDIO-THORACIC
	(c) cardio-respiratory support for acute cardiac failure which is likely to recover with short term support of less than 6 weeks;  not being a service associated with the use of a ventricular assist device as destination therapy in the management of patients with heart failure who are not expected to be suitable candidates for cardiac transplantation (Anaes.) (Assist.)  (See para TN.8.67 of explanatory notes to this Category) <b>Fee:</b> \$1,969.25 <b>Benefit:</b> 75% = \$1476.95	
38621	LEFT OR RIGHT VENTRICULAR ASSIST DEVICE, removal of, as an independent procedure (Anaes.) (Assist.)  (See para TN.8.67 of explanatory notes to this Category) <b>Fee:</b> \$786.15 <b>Benefit:</b> 75% = \$589.65	
38624	LEFT AND RIGHT VENTRICULAR ASSIST DEVICE, removal of, as an independent procedure (Anaes.) (Assist.)  (See para TN.8.67 of explanatory notes to this Category) <b>Fee:</b> \$883.40 <b>Benefit:</b> 75% = \$662.55	
38627	EXTRA-CORPOREAL MEMBRANE OXYGENATION, BYPASS OR VENTRICULAR ASSIST DEVICE CANNULAE, adjustment and re-positioning of, by open operation, in patients supported by these devices (Anaes.) (Assist.)  (See para TN.8.67 of explanatory notes to this Category) <b>Fee:</b> \$690.50 <b>Benefit:</b> 75% = \$517.90	
RE-OPERATION		
38637	PATENT DISEASED coronary artery bypass vein graft or grafts, dissection, disconnection and oversewing of (Anaes.) (Assist.)  (See para TN.8.67 of explanatory notes to this Category) <b>Fee:</b> \$571.85 <b>Benefit:</b> 75% = \$428.90	
38640	RE-OPERATION via median sternotomy, for any procedure, including any divisions of adhesions where the time taken to divide the adhesions is 45 minutes or less (Anaes.) (Assist.)  (See para TN.8.69, TN.8.67 of explanatory notes to this Category) <b>Fee:</b> \$988.35 <b>Benefit:</b> 75% = \$741.30	
MISCELLANEOUS CARDIOTHORACIC SURGICAL PROCEDURES		
38643	THORACOTOMY OR STERNOTOMY involving division of adhesions where the time taken to divide the adhesions exceeds 45 minutes (Anaes.) (Assist.)  (See para TN.8.67 of explanatory notes to this Category) <b>Fee:</b> \$1,100.75 <b>Benefit:</b> 75% = \$825.60	
38647	THORACOTOMY OR STERNOTOMY involving division of extensive adhesions where the time taken to divide the adhesions exceeds 2 hours (Anaes.) (Assist.)  (See para TN.8.67 of explanatory notes to this Category) <b>Fee:</b> \$2,201.20 <b>Benefit:</b> 75% = \$1650.90	
38650	MYOMECTIONY or MYOTOMY for hypertrophic obstructive cardiomyopathy (Anaes.) (Assist.)  (See para TN.8.67 of explanatory notes to this Category)	

T8. SURGICAL OPERATIONS		6. CARDIO-THORACIC
	<b>Fee:</b> \$1,969.25 <b>Benefit:</b> 75% = \$1476.95	
38653	<p>OPEN HEART SURGERY, not being a service to which another item in this Group applies (Anaes.) (Assist.)</p> <p>(See para TN.8.67 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$1,969.25      <b>Benefit:</b> 75% = \$1476.95</p>	
38654	<p>Permanent left ventricular electrode, insertion, removal or replacement of via open thoracotomy, for the purpose of cardiac resynchronisation therapy, for a patient who:</p> <p>(a) has:</p> <ul style="list-style-type: none"> <li>(i) moderate to severe chronic heart failure (New York Heart Association (NYHA) class III or IV) despite optimised medical therapy; and</li> <li>(ii) sinus rhythm; and</li> <li>(iii) a left ventricular ejection fraction of less than or equal to 35%; and</li> <li>(iv) a QRS duration greater than or equal to 120 ms; or</li> </ul> <p>(b) has:</p> <ul style="list-style-type: none"> <li>(i) mild chronic heart failure (New York Heart Association (NYHA) class II) despite optimised medical therapy; and</li> <li>(ii) sinus rhythm; and</li> <li>(iii) a left ventricular ejection fraction of less than or equal to 35%; and</li> <li>(iv) a QRS duration greater than or equal to 150 ms; or</li> </ul> <p>(c) satisfied the requirements mentioned in paragraph (a) or (b) immediately before the insertion of a cardiac resynchronisation therapy device and transvenous left ventricle electrode</p> <p>(Anaes.) (Assist.)</p> <p>(See para TN.8.63, TN.8.67 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$1,262.85      <b>Benefit:</b> 75% = \$947.15</p>	
38656	<p>THORACOTOMY or median sternotomy for post-operative bleeding (Anaes.) (Assist.)</p> <p>(See para TN.8.67 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$988.35      <b>Benefit:</b> 75% = \$741.30</p>	
<b>CARDIAC TUMOURS</b>		
38670	<p>CARDIAC TUMOUR, excision of, involving the wall of the atrium or inter-atrial septum, without patch or conduit reconstruction (Anaes.) (Assist.)</p> <p>(See para TN.8.67 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$1,968.85      <b>Benefit:</b> 75% = \$1476.65</p>	
38673	<p>CARDIAC TUMOUR, excision of, involving the wall of the atrium or inter-atrial septum, requiring reconstruction with patch or conduit (Anaes.) (Assist.)</p> <p>(See para TN.8.67 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$2,216.00      <b>Benefit:</b> 75% = \$1662.00</p>	
38677	<p>CARDIAC TUMOUR arising from ventricular myocardium, partial thickness excision of (Anaes.)</p>	

T8. SURGICAL OPERATIONS		6. CARDIO-THORACIC
	(Assist.)  (See para TN.8.67 of explanatory notes to this Category) <b>Fee:</b> \$2,073.15 <b>Benefit:</b> 75% = \$1554.90	
38680	CARDIAC TUMOUR arising from ventricular myocardium, full thickness excision of including repair or reconstruction (Anaes.) (Assist.)  <b>Fee:</b> \$2,459.05 <b>Benefit:</b> 75% = \$1844.30    85% = \$2374.35	
CONGENITAL CARDIAC SURGERY		
38700	PATENT DUCTUS ARTERIOSUS, shunt, collateral or other single large vessel, division or ligation of, without cardiopulmonary bypass, for congenital heart disease (Anaes.) (Assist.)  (See para TN.8.67 of explanatory notes to this Category) <b>Fee:</b> \$1,100.75 <b>Benefit:</b> 75% = \$825.60	
38703	PATENT DUCTUS ARTERIOSUS, shunt, collateral or other single large vessel, division or ligation of, with cardiopulmonary bypass, for congenital heart disease (Anaes.) (Assist.)  (See para TN.8.67 of explanatory notes to this Category) <b>Fee:</b> \$1,984.20 <b>Benefit:</b> 75% = \$1488.15	
38706	AORTA, anastomosis or repair of, without cardiopulmonary bypass, for congenital heart disease (Anaes.) (Assist.)  (See para TN.8.67 of explanatory notes to this Category) <b>Fee:</b> \$1,879.30 <b>Benefit:</b> 75% = \$1409.50	
38709	AORTA, anastomosis or repair of, with cardiopulmonary bypass, for congenital heart disease (Anaes.) (Assist.)  (See para TN.8.67 of explanatory notes to this Category) <b>Fee:</b> \$2,201.20 <b>Benefit:</b> 75% = \$1650.90	
38712	AORTIC INTERRUPTION, repair of, for congenital heart disease (Anaes.) (Assist.)  (See para TN.8.67 of explanatory notes to this Category) <b>Fee:</b> \$2,643.20 <b>Benefit:</b> 75% = \$1982.40	
38715	MAIN PULMONARY ARTERY, banding, debanding or repair of, without cardiopulmonary bypass, for congenital heart disease (Anaes.) (Assist.)  (See para TN.8.67 of explanatory notes to this Category) <b>Fee:</b> \$1,759.60 <b>Benefit:</b> 75% = \$1319.70	
38718	MAIN PULMONARY ARTERY, banding, debanding or repair of, with cardiopulmonary bypass, for congenital heart disease (Anaes.) (Assist.)  (See para TN.8.67 of explanatory notes to this Category) <b>Fee:</b> \$2,201.20 <b>Benefit:</b> 75% = \$1650.90	
38721	VENA CAVA, anastomosis or repair of, without cardiopulmonary bypass, for congenital heart disease (Anaes.) (Assist.)  (See para TN.8.67 of explanatory notes to this Category) <b>Fee:</b> \$1,542.55 <b>Benefit:</b> 75% = \$1156.95	
38724	VENA CAVA, anastomosis or repair of, with cardiopulmonary bypass, for congenital heart disease (Anaes.) (Assist.)  (See para TN.8.67 of explanatory notes to this Category)	

T8. SURGICAL OPERATIONS		6. CARDIO-THORACIC
	<b>Fee:</b> \$2,201.20 <b>Benefit:</b> 75% = \$1650.90	
38727	INTRATHORACIC VESSELS, anastomosis or repair of, without cardiopulmonary bypass, not being a service to which item 38700, 38703, 38706, 38709, 38712, 38715, 38718, 38721 or 38724 applies, for congenital heart disease (Anaes.) (Assist.)  (See para TN.8.67 of explanatory notes to this Category) <b>Fee:</b> \$1,542.55 <b>Benefit:</b> 75% = \$1156.95	
38730	INTRATHORACIC VESSELS, anastomosis or repair of, with cardiopulmonary bypass, not being a service to which item 38700, 38703, 38706, 38709, 38712, 38715, 38718, 38721 or 38724 applies, for congenital heart disease (Anaes.) (Assist.)  <b>Fee:</b> \$2,201.20 <b>Benefit:</b> 75% = \$1650.90	
38733	SYSTEMIC PULMONARY or CAVO-PULMONARY SHUNT, creation of, without cardiopulmonary bypass, for congenital heart disease (Anaes.) (Assist.)  (See para TN.8.67 of explanatory notes to this Category) <b>Fee:</b> \$1,542.55 <b>Benefit:</b> 75% = \$1156.95	
38736	SYSTEMIC PULMONARY or CAVO-PULMONARY SHUNT, creation of, with cardiopulmonary bypass, for congenital heart disease (Anaes.) (Assist.)  (See para TN.8.67 of explanatory notes to this Category) <b>Fee:</b> \$2,201.20 <b>Benefit:</b> 75% = \$1650.90	
38739	ATRIAL SEPTECTOMY, with or without cardiopulmonary bypass, for congenital heart disease (Anaes.) (Assist.)  (See para TN.8.67 of explanatory notes to this Category) <b>Fee:</b> \$1,984.20 <b>Benefit:</b> 75% = \$1488.15	
38742	ATRIAL SEPTAL DEFECT, closure by open exposure direct suture or patch, for congenital heart disease (Anaes.) (Assist.)  (See para TN.8.67 of explanatory notes to this Category) <b>Fee:</b> \$1,984.20 <b>Benefit:</b> 75% = \$1488.15	
38745	INTRA-ATRIAL BAFFLE, insertion of, for congenital heart disease (Anaes.) (Assist.)  (See para TN.8.67 of explanatory notes to this Category) <b>Fee:</b> \$2,201.20 <b>Benefit:</b> 75% = \$1650.90	
38748	VENTRICULAR SEPTECTOMY, for congenital heart disease (Anaes.) (Assist.)  (See para TN.8.67 of explanatory notes to this Category) <b>Fee:</b> \$2,201.20 <b>Benefit:</b> 75% = \$1650.90	
38751	Ventricular septal defect, closure by direct suture or patch (Anaes.) (Assist.)  (See para TN.8.67 of explanatory notes to this Category) <b>Fee:</b> \$2,201.20 <b>Benefit:</b> 75% = \$1650.90	
38754	INTRAVENTRICULAR BAFFLE OR CONDUIT, insertion of, for congenital heart disease (Anaes.) (Assist.)  (See para TN.8.67 of explanatory notes to this Category) <b>Fee:</b> \$2,755.40 <b>Benefit:</b> 75% = \$2066.55	
38757	EXTRACARDIAC CONDUIT, insertion of, for congenital heart disease (Anaes.) (Assist.)  (See para TN.8.67 of explanatory notes to this Category)	

T8. SURGICAL OPERATIONS		6. CARDIO-THORACIC
	<b>Fee:</b> \$2,201.20 <b>Benefit:</b> 75% = \$1650.90	
38760	EXTRACARDIAC CONDUIT, replacement of, for congenital heart disease (Anaes.) (Assist.) (See para TN.8.67 of explanatory notes to this Category) <b>Fee:</b> \$2,201.20 <b>Benefit:</b> 75% = \$1650.90	
38763	VENTRICULAR MYECTOMY, for relief of ventricular obstruction, right or left, for congenital heart disease (Anaes.) (Assist.) (See para TN.8.67 of explanatory notes to this Category) <b>Fee:</b> \$2,201.20 <b>Benefit:</b> 75% = \$1650.90	
38766	VENTRICULAR AUGMENTATION, right or left, for congenital heart disease (Anaes.) (Assist.) (See para TN.8.67 of explanatory notes to this Category) <b>Fee:</b> \$2,201.20 <b>Benefit:</b> 75% = \$1650.90	
MISCELLANEOUS PROCEDURES ON THE CHEST		
38800	THORACIC CAVITY, aspiration of, for diagnostic purposes, not being a service associated with a service to which item 38803 applies <b>Fee:</b> \$39.70 <b>Benefit:</b> 75% = \$29.80    85% = \$33.75	
38803	THORACIC CAVITY, aspiration of, with therapeutic drainage (paracentesis), with or without diagnostic sample <b>Fee:</b> \$79.30 <b>Benefit:</b> 75% = \$59.50    85% = \$67.45	
38806	INTERCOSTAL DRAIN, insertion of, not involving resection of rib (excluding aftercare) (Anaes.) <b>Fee:</b> \$137.75 <b>Benefit:</b> 75% = \$103.35    85% = \$117.10	
38809	INTERCOSTAL DRAIN, insertion of, with pleurodesis and not involving resection of rib (excluding aftercare) (Anaes.) <b>Fee:</b> \$169.70 <b>Benefit:</b> 75% = \$127.30    85% = \$144.25	
38812	PERCUTANEOUS NEEDLE BIOPSY of lung (Anaes.) <b>Fee:</b> \$215.70 <b>Benefit:</b> 75% = \$161.80    85% = \$183.35

	intrathecal or epidural catheter, and filling of reservoir with a therapeutic agent or agents, with or without programming the pump, for the management of chronic intractable pain (Anaes.) (Assist.) <b>Fee:</b> \$373.20 <b>Benefit:</b> 75% = \$279.90	
39127	SUBCUTANEOUS RESERVOIR AND SPINAL CATHETER, insertion of, for the management of chronic intractable pain (Anaes.)  (See para TN.8.4 of explanatory notes to this Category) <b>Fee:</b> \$488.45 <b>Benefit:</b> 75% = \$366.35	
39128	INFUSION PUMP, subcutaneous implantation of, AND intrathecal or epidural SPINAL CATHETER insertion of, and connection of pump to catheter, and filling of reservoir with a therapeutic agent or agents, with or without programming the pump, for the management of chronic intractable pain (Anaes.) (Assist.) <b>Fee:</b> \$680.55 <b>Benefit:</b> 75% = \$510.45	
39130	EPIDURAL LEAD, percutaneous placement of, including intraoperative test stimulation, for the management of chronic intractable neuropathic pain or pain from refractory angina pectoris, to a maximum of 4 leads (Anaes.)  (See para TN.8.4 of explanatory notes to this Category) <b>Fee:</b> \$695.20 <b>Benefit:</b> 75% = \$521.40	
39131	ELECTRODES, epidural or peripheral nerve, management of patient and adjustment or reprogramming of neurostimulator by a medical practitioner, for the management of chronic intractable neuropathic pain or pain from refractory angina pectoris - each day <b>Fee:</b> \$131.80 <b>Benefit:</b> 75% = \$98.85    85% = \$112.05	
39133	Removal of subcutaneously IMPLANTED INFUSION PUMP OR removal or repositioning of intrathecal or epidural SPINAL CATHETER, for the management of chronic intractable pain (Anaes.)  (See para TN.8.4 of explanatory notes to this Category) <b>Fee:</b> \$164.40 <b>Benefit:</b> 75% = \$123.30	
39134	NEUROSTIMULATOR or RECEIVER, subcutaneous placement of, including placement and connection of extension wires to epidural or peripheral nerve electrodes, for the management of chronic intractable neuropathic pain or pain from refractory angina pectoris (Anaes.) (Assist.) <b>Fee:</b> \$351.25 <b>Benefit:</b> 75% = \$263.45	
39135	NEUROSTIMULATOR or RECEIVER, that was inserted for the management of chronic intractable neuropathic pain or pain from refractory angina pectoris, removal of, performed in the operating theatre of a hospital (Anaes.) <b>Fee:</b> \$164.40 <b>Benefit:</b> 75% = \$123.30	
39136	LEAD, epidural or peripheral nerve that was inserted for the management of chronic intractable neuropathic pain or pain from refractory angina pectoris, removal of, performed in the operating theatre of a hospital (Anaes.)  (See para TN.8.4 of explanatory notes to this Category) <b>Fee:</b> \$164.40 <b>Benefit:</b> 75% = \$123.30	
39137	LEAD, epidural or peripheral nerve that was inserted for the management of chronic intractable neuropathic pain or pain from refractory angina pectoris, surgical repositioning to correct displacement or unsatisfactory positioning, including intraoperative test stimulation, not being a service to which item 39130, 39138 or 39139 applies (Anaes.)	

T8. SURGICAL OPERATIONS		7. NEUROSURGICAL
	<b>Fee:</b> \$624.30 <b>Benefit:</b> 75% = \$468.25	
39138	PERIPHERAL NERVE LEAD, surgical placement of, including intraoperative test stimulation, for the management of chronic intractable neuropathic pain or pain from refractory angina pectoris, to a maximum of 4 leads (Anaes.) (Assist.) <b>Fee:</b> \$695.20 <b>Benefit:</b> 75% = \$521.40	
39139	Epidural lead, surgical placement of one or more by partial or total laminectomy, including intraoperative test stimulation, for the management of chronic intractable neuropathic pain or pain from refractory angina pectoris—to a maximum of 4 leads (H) (Anaes.) (Assist.) <b>Fee:</b> \$933.40 <b>Benefit:</b> 75% = \$700.05	
39140	EPIDURAL CATHETER, insertion of, under imaging control, with epidurogram and epidural therapeutic injection for lysis of adhesions (Anaes.) <b>Fee:</b> \$302.00 <b>Benefit:</b> 75% = \$226.50    85% = \$256.70	
PERIPHERAL NERVES		
39300	CUTANEOUS NERVE (including digital nerve), primary repair of, using microsurgical techniques (Anaes.) (Assist.) <b>Fee:</b> \$364.40 <b>Benefit:</b> 75% = \$273.30	
39303	CUTANEOUS NERVE (including digital nerve), secondary repair of, using microsurgical techniques (Anaes.) (Assist.) <b>Fee:</b> \$480.65 <b>Benefit:</b> 75% = \$360.50	
39306	NERVE TRUNK, primary repair of, using microsurgical techniques (Anaes.) (Assist.) <b>Fee:</b> \$697.95 <b>Benefit:</b> 75% = \$523.50	
39309	NERVE TRUNK, secondary repair of, using microsurgical techniques (Anaes.) (Assist.) <b>Fee:</b> \$736.70 <b>Benefit:</b> 75% = \$552.55	
39312	NERVE TRUNK, (interfascicular), neurolysis of, using microsurgical techniques (Anaes.) (Assist.) <b>Fee:</b> \$411.00 <b>Benefit:</b> 75% = \$308.25	
39315	NERVE TRUNK, nerve graft to, (cable graft) including harvesting of nerve graft using microsurgical techniques (Anaes.) (Assist.) <b>Fee:</b> \$1,062.40 <b>Benefit:</b> 75% = \$796.80	
39318	CUTANEOUS NERVE (including digital nerve), nerve graft to, using microsurgical techniques (Anaes.) (Assist.) <b>Fee:</b> \$659.20 <b>Benefit:</b> 75% = \$494.40	
39321	NERVE, transposition of (Anaes.) (Assist.) <b>Fee:</b> \$488.45 <b>Benefit:</b> 75% = \$366.35	
39323	PERCUTANEOUS NEUROTOMY by cryotherapy or radiofrequency lesion generator, not being a service to which another item applies (Anaes.) (Assist.) <b>Fee:</b> \$285.45 <b>Benefit:</b> 75% = \$214.10    85% = \$242.65	
39324	NEURECTOMY, NEUROTOMY or removal of tumour from superficial peripheral nerve, by open	

T8. SURGICAL OPERATIONS		7. NEUROSURGICAL
	operation (Anaes.) (Assist.)  (See para TN.8.4 of explanatory notes to this Category) <b>Fee:</b> \$285.45 <b>Benefit:</b> 75% = \$214.10    85% = \$242.65	
39327	NEURECTOMY, NEUROTOMY or removal of tumour from deep peripheral or cranial nerve, by open operation, not being a service to which item 41575, 41576, 41578 or 41579 applies (Anaes.) (Assist.)  (See para TN.8.4 of explanatory notes to this Category) <b>Fee:</b> \$488.55 <b>Benefit:</b> 75% = \$366.45	
39330	NEUROLYSIS by open operation without transposition, not being a service associated with a service to which item 39312 applies (Anaes.) (Assist.)  <b>Fee:</b> \$285.45 <b>Benefit:</b> 75% = \$214.10	
39331	CARPAL TUNNEL RELEASE (division of transverse carpal ligament), by any method (Anaes.)  <b>Fee:</b> \$285.45 <b>Benefit:</b> 75% = \$214.10    85% = \$242.65	
39333	BRACHIAL PLEXUS, exploration of, not being a service to which another item in this Group applies (Anaes.) (Assist.)  <b>Fee:</b> \$411.00 <b>Benefit:</b> 75% = \$308.25    85% = \$349.35	
CRANIAL NERVES		
39503	Facio-hypoglossal nerve or facio-accessory nerve, anastomosis of (Anaes.) (Assist.)  (See para TN.8.166 of explanatory notes to this Category) <b>Fee:</b> \$984.85 <b>Benefit:</b> 75% = \$738.65	
CRANIO-CEREBRAL INJURIES		
39604	Any of the following procedures for intracranial haemorrhage or swelling:  (a) craniotomy, craniectomy or burr-holes for removal of intracranial haemorrhage, including stereotaxy; (b) craniotomy or craniectomy for brain swelling, stroke, or raised intracranial pressure, including for subtemporal decompression, including stereotaxy; or (c) post-operative re-opening, including for swelling or post-operative cerebrospinal fluid leak. (Anaes.) (Assist.)  <b>Fee:</b> \$1,849.60 <b>Benefit:</b> 75% = \$1387.20	
39610	Fractured skull, without brain laceration or dural penetration, repair of (Anaes.) (Assist.)  <b>Fee:</b> \$984.85 <b>Benefit:</b> 75% = \$738.65	
39612	Fractured skull, with brain laceration or dural penetration but without cerebrospinal fluid, rhinorrhoea or otorrhoea, repair of (Anaes.) (Assist.)  <b>Fee:</b> \$1,155.50 <b>Benefit:</b> 75% = \$866.65	
39615	Fractured skull, after trauma, with cerebrospinal fluid rhinorrhoea or otorrhoea, repair of, including stereotaxy and dermofat graft (Anaes.) (Assist.)  <b>Fee:</b> \$1,971.75 <b>Benefit:</b> 75% = \$1478.85	
SKULL BASE SURGERY		
39638	Anterior or middle cranial fossa or cavernous sinus, tumour or vascular lesion, removal or radical excision of, including stereotaxy and cranioplasty—conjoint surgery, principal surgeon (Anaes.)	

T8. SURGICAL OPERATIONS	7. NEUROSURGICAL
	(Assist.)  (See para TN.8.70 of explanatory notes to this Category) <b>Fee:</b> \$4,390.15 <b>Benefit:</b> 75% = \$3292.65
39639	Anterior or middle cranial fossa or cavernous sinus, tumour or vascular lesion, removal or radical excision of, including stereotaxy and cranioplasty—conjoint surgery, co-surgeon (Assist.)  (See para TN.8.70 of explanatory notes to this Category) <b>Fee:</b> \$3,508.20 <b>Benefit:</b> 75% = \$2631.15
39641	Anterior or middle cranial fossa or cavernous sinus, tumour or vascular lesion, removal or radical excision of, including stereotaxy and cranioplasty - one surgeon (Anaes.) (Assist.)  (See para TN.8.70 of explanatory notes to this Category) <b>Fee:</b> \$4,630.50 <b>Benefit:</b> 75% = \$3472.90
39651	Petro-clival, clival or foramen magnum tumour or vascular lesion, removal or radical excision of, including stereotaxy and cranioplasty - one surgeon (Anaes.) (Assist.)  (See para TN.8.70 of explanatory notes to this Category) <b>Fee:</b> \$5,712.85 <b>Benefit:</b> 75% = \$4284.65
39654	Petro-clival, clival or foramen magnum tumour or vascular lesion, removal or radical excision of, including stereotaxy and cranioplasty—conjoint surgery, principal surgeon (Anaes.) (Assist.)  (See para TN.8.70 of explanatory notes to this Category) <b>Fee:</b> \$4,390.15 <b>Benefit:</b> 75% = \$3292.65
39656	Petro clival, clival or foramen magnum tumour or vascular lesion, removal or radical excision of, including stereotaxy and cranioplasty—conjoint surgery, co surgeon (Assist.)  (See para TN.8.70 of explanatory notes to this Category) <b>Fee:</b> \$3,508.20 <b>Benefit:</b> 75% = \$2631.15
INTRA-CRANIAL NEOPLASMS	
39700	Skull tumour, benign or malignant, excision of, including stereotaxy and cranioplasty (Anaes.) (Assist.)  <b>Fee:</b> \$1,869.00 <b>Benefit:</b> 75% = \$1401.75
39703	Intracranial tumour, cyst or other brain tissue, either or both of: (a) burr hole and biopsy of; (b) drainage of; including stereotaxy (Anaes.) (Assist.)  <b>Fee:</b> \$1,500.70 <b>Benefit:</b> 75% = \$1125.55
39710	Intracranial tumour, one or more, biopsy, drainage, decompression or removal of, through a single craniotomy, including stereotaxy and cranioplasty (Anaes.) (Assist.)  <b>Fee:</b> \$2,499.10 <b>Benefit:</b> 75% = \$1874.35
39712	Transcranial tumour removal or biopsy of one or more of any of the following: (a) meningioma; (b) pinealoma; (c) cranio pharyngioma; (d) pituitary tumour; (e) intraventricular lesion; (f) brain stem lesion; (g) any other intracranial tumour; by any means (with or without endoscopy), through a single craniotomy, including stereotaxy and

T8. SURGICAL OPERATIONS		7. NEUROSURGICAL
	cranioplasty (Anaes.) (Assist.)	
	<b>Fee:</b> \$3,817.30 <b>Benefit:</b> 75% = \$2863.00	
39715	Pituitary tumour, removal of, by transphenoidal approach, including stereotaxy and dermis, dermofat or fascia grafting, other than a service associated with a service to which item 40600 applies (Anaes.) (Assist.)	
	<b>Fee:</b> \$2,786.00 <b>Benefit:</b> 75% = \$2089.50	
39718	Arachnoidal cyst, craniotomy for, including stereotaxy and neuroendoscopy (Anaes.) (Assist.)	
	<b>Fee:</b> \$1,682.90 <b>Benefit:</b> 75% = \$1262.20	
39720	Awake craniotomy for functional neurosurgery (Anaes.) (Assist.)	
	<b>Fee:</b> \$3,571.05 <b>Benefit:</b> 75% = \$2678.30	
CEREBROVASCULAR DISEASE		
39801	Aneurysm, clipping, proximal ligation, or reinforcement of sac, including stereotaxy and cranioplasty (Anaes.) (Assist.)	
	<b>Fee:</b> \$5,712.85 <b>Benefit:</b> 75% = \$4284.65	
39803	Intracranial arteriovenous malformation or fistula, treatment through a craniotomy, including stereotaxy, cranioplasty and all angiography (Anaes.) (Assist.)	
	<b>Fee:</b> \$5,712.85 <b>Benefit:</b> 75% = \$4284.65	
39815	CAROTID-CAVERNOUS FISTULA, obliteration of - combined cervical and intracranial procedure (Anaes.) (Assist.)	
	<b>Fee:</b> \$1,884.35 <b>Benefit:</b> 75% = \$1413.30    85% = \$1799.65	
39818	Intracranial vascular bypass using indirect techniques, including stereotaxy (Anaes.) (Assist.)	
	<b>Fee:</b> \$2,500.95 <b>Benefit:</b> 75% = \$1875.75	
39821	Intracranial vascular bypass using direct anastomosis techniques, including stereotaxy (Anaes.) (Assist.)	
	<b>Fee:</b> \$3,563.35 <b>Benefit:</b> 75% = \$2672.55	
40004	Ventricular, lumbar or cisternal shunt diversion, insertion or revision of, including stereotaxy (Anaes.) (Assist.)	
	<b>Fee:</b> \$1,706.15 <b>Benefit:</b> 75% = \$1279.65	
INFECTION		
39900	Intracranial infection, treated by burr hole, including stereotaxy, other than a service associated with a service to which item 40600 applies (Anaes.) (Assist.)	
	<b>Fee:</b> \$1,500.70 <b>Benefit:</b> 75% = \$1125.55	
39903	Intracranial infection, treated by craniotomy, including stereotaxy, other than a service associated with a service to which item 40600 applies (Anaes.) (Assist.)	
	<b>Fee:</b> \$2,252.90 <b>Benefit:</b> 75% = \$1689.70	
39906	Osteomyelitis of skull or removal of infected bone flap, craniectomy for, other than a service associated with a service to which item 40600 applies (Anaes.) (Assist.) (See para TN.8.166 of explanatory notes to this Category)	

T8. SURGICAL OPERATIONS		7. NEUROSURGICAL
	<b>Fee:</b> \$822.00	<b>Benefit:</b> 75% = \$616.50
CEREBROSPINAL FLUID CIRCULATION DISORDERS		
40012	Endoscopic ventriculostomy for treatment of cerebrospinal fluid circulation disorders, including stereotaxy (Anaes.) (Assist.)	
	<b>Fee:</b> \$1,764.30	<b>Benefit:</b> 75% = \$1323.25
40018	LUMBAR CEREBROSPINAL FLUID DRAIN, insertion of (Anaes.)	
	<b>Fee:</b> \$164.40	<b>Benefit:</b> 75% = \$123.30 85% = \$139.75
CONGENITAL DISORDERS		
40104	Spinal myelomeningocele or spinal meningocele, excision and closure of, other than a service associated with a service to which item 40600 applies (Anaes.) (Assist.)  (See para TN.8.166 of explanatory notes to this Category)	
	<b>Fee:</b> \$1,046.95	<b>Benefit:</b> 75% = \$785.25
40106	Chiari malformation, decompression or reconstruction of, including laminectomy, dermofat graft and stereotaxy, other than a service associated with a service to which item 40600 applies (Anaes.) (Assist.)	
	<b>Fee:</b> \$2,485.45	<b>Benefit:</b> 75% = \$1864.10
40109	Encephalocele or cranial meningocele, excision and closure of, including stereotaxy and dermofat graft (Anaes.) (Assist.)	
	<b>Fee:</b> \$1,929.05	<b>Benefit:</b> 75% = \$1446.80
40112	Tethered cord, release of, including lipomeningocele or diastematomyelia, multiple levels, including laminectomy and rhizolysis, other than a service associated with a service to which item 40600 applies (Anaes.) (Assist.)	
	<b>Fee:</b> \$2,464.15	<b>Benefit:</b> 75% = \$1848.15
40119	Craniostenosis, operation for, other than a service associated with a service to which item 40600 applies (Anaes.) (Assist.)	
	<b>Fee:</b> \$984.85	<b>Benefit:</b> 75% = \$738.65
SKULL RECONSTRUCTION		
40600	Cranioplasty, reconstructive, other than a service associated with a service to which item 39113, 39638, 39639, 39641, 39651, 39654, 39656, 39700, 39710, 39712, 39715, 39801, 39803 or 40703 applies (Anaes.) (Assist.)	
	<b>Fee:</b> \$984.85	<b>Benefit:</b> 75% = \$738.65
EPILEPSY		
40700	Corpus callosotomy, for epilepsy, including stereotaxy (Anaes.) (Assist.)	
	<b>Fee:</b> \$2,415.70	<b>Benefit:</b> 75% = \$1811.80
40701	Vagus nerve stimulation therapy through stimulation of the left vagus nerve, subcutaneous placement of electrical pulse generator, for:  (a) management of refractory generalised epilepsy; or  (b) treatment of refractory focal epilepsy not suitable for resective epilepsy surgery (Anaes.) (Assist.)	
	<b>Fee:</b> \$351.25	<b>Benefit:</b> 75% = \$263.45

T8. SURGICAL OPERATIONS		7. NEUROSURGICAL
40702	<p>Vagus nerve stimulation therapy through stimulation of the left vagus nerve, surgical repositioning or removal of electrical pulse generator inserted for:</p> <p>(a) management of refractory generalised epilepsy; or</p> <p>(b) treatment of refractory focal epilepsy not suitable for resective epilepsy surgery (Anaes.) (Assist.)</p> <p><b>Fee:</b> \$164.40      <b>Benefit:</b> 75% = \$123.30</p>	
40703	<p>Corticectomy, topectomy or partial lobectomy, for epilepsy, including stereotaxy and cranioplasty (Anaes.) (Assist.)</p> <p><b>Fee:</b> \$2,499.10      <b>Benefit:</b> 75% = \$1874.35</p>	
40704	<p>Vagus nerve stimulation therapy through stimulation of the left vagus nerve, surgical placement of lead, including connection of lead to left vagus nerve and intra-operative test stimulation, for:</p> <p>(a) management of refractory generalised epilepsy; or</p> <p>(b) treatment of refractory focal epilepsy not suitable for resective epilepsy surgery (Anaes.) (Assist.)</p> <p><b>Fee:</b> \$695.20      <b>Benefit:</b> 75% = \$521.40</p>	
40705	<p>Vagus nerve stimulation therapy through stimulation of the left vagus nerve, surgical repositioning or removal of lead attached to left vagus nerve for:</p> <p>(a) management of refractory generalised epilepsy; or</p> <p>(b) treatment of refractory focal epilepsy not suitable for resective epilepsy surgery (Anaes.) (Assist.)</p> <p><b>Fee:</b> \$624.30      <b>Benefit:</b> 75% = \$468.25</p>	
40706	<p>Hemispherectomy or functional hemispherectomy, for intractable epilepsy, including stereotaxy (Anaes.) (Assist.)</p> <p><b>Fee:</b> \$3,571.10      <b>Benefit:</b> 75% = \$2678.35</p>	
40707	<p>Vagus nerve stimulation therapy through stimulation of the left vagus nerve, electrical analysis and programming of vagus nerve stimulation therapy device using external wand, for:</p> <p>(a) management of refractory generalised epilepsy; or</p> <p>(b) treatment of refractory focal epilepsy not suitable for resective epilepsy surgery</p> <p><b>Fee:</b> \$195.65      <b>Benefit:</b> 75% = \$146.75    85% = \$166.35</p>	
40708	<p>Vagus nerve stimulation therapy through stimulation of the left vagus nerve, surgical replacement of battery in electrical pulse generator inserted for:</p> <p>(a) management of refractory generalised epilepsy; or</p> <p>(b) treating refractory focal epilepsy not suitable for resective epilepsy surgery (Anaes.) (Assist.)</p> <p><b>Fee:</b> \$351.25      <b>Benefit:</b> 75% = \$263.45</p>	
40709	<p>Intracranial electrode placement by burr hole, including stereotaxy (Anaes.) (Assist.)</p> <p><b>Fee:</b> \$1,500.70      <b>Benefit:</b> 75% = \$1125.55</p>	
40712	<p>Intracranial electrode placement by craniotomy, single or multiple, including stereotactic EEG, including</p>	

T8. SURGICAL OPERATIONS		7. NEUROSURGICAL
	stereotaxy (Anaes.) (Assist.) <b>Fee:</b> \$3,571.10 <b>Benefit:</b> 75% = \$2678.35	
	STEREOTACTIC PROCEDURES	
40801	Functional stereotactic procedure including computer assisted anatomical localisation, physiological localisation, and lesion production, by any method, in the basal ganglia, brain stem or deep white matter tracts, other than a service associated with deep brain stimulation for Parkinson's disease, essential tremor or dystonia (Anaes.) (Assist.) <b>Fee:</b> \$1,800.35 <b>Benefit:</b> 75% = \$1350.30	
40803	Intracranial stereotactic procedure by any method, other than:  (a) a service to which item 40801 applies; or  (b) a service associated with a service to which item 39018, 39109, 39113, 39604, 39615, 39638, 39639, 39641, 39651, 39654, 39656, 39700, 39703, 39710, 39712, 39715, 39718, 39720, 39801, 39803, 39818, 39821, 39900, 39903, 40004, 40012, 40106, 40109, 40700, 40703, 40706, 40709 or 40712 applies (Anaes.) (Assist.)  (See para TN.8.166 of explanatory notes to this Category) <b>Fee:</b> \$1,233.05 <b>Benefit:</b> 75% = \$924.80    85% = \$1148.35	
40850	DEEP BRAIN STIMULATION (unilateral) functional stereotactic procedure including computer assisted anatomical localisation, physiological localisation including twist drill, burr hole craniotomy or craniectomy and insertion of electrodes for the treatment of:  Parkinson's disease where the patient's response to medical therapy is not sustained and is accompanied by unacceptable motor fluctuations; or  Essential tremor or dystonia where the patient's symptoms cause severe disability (Anaes.) (Assist.) <b>Fee:</b> \$2,335.20 <b>Benefit:</b> 75% = \$1751.40	
40851	DEEP BRAIN STIMULATION (bilateral) functional stereotactic procedure including computer assisted anatomical localisation, physiological localisation including twist drill, burr hole craniotomy or craniectomy and insertion of electrodes for the treatment of:  Parkinson's disease where the patient's response to medical therapy is not sustained and is accompanied by unacceptable motor fluctuations; or  Essential tremor or dystonia where the patient's symptoms cause severe disability. (Anaes.) (Assist.) <b>Fee:</b> \$4,086.80 <b>Benefit:</b> 75% = \$3065.10	
40852	DEEP BRAIN STIMULATION (unilateral) subcutaneous placement of neurostimulator receiver or pulse generator for the treatment of:  Parkinson's disease where the patient's response to medical therapy is not sustained and is accompanied by unacceptable motor fluctuations; or	

T8. SURGICAL OPERATIONS	7. NEUROSURGICAL
	<p>Essential tremor or dystonia where the patient's symptoms cause severe disability. (Anaes.) (Assist.)</p> <p><b>Fee:</b> \$351.25      <b>Benefit:</b> 75% = \$263.45</p>
40854	<p>DEEP BRAIN STIMULATION (unilateral) revision or removal of brain electrode for the treatment of:</p> <p>Parkinson's disease where the patient's response to medical therapy is not sustained and is accompanied by unacceptable motor fluctuations; or</p> <p>Essential tremor or dystonia where the patient's symptoms cause severe disability. (Anaes.)</p> <p><b>Fee:</b> \$542.80      <b>Benefit:</b> 75% = \$407.10</p>
40856	<p>DEEP BRAIN STIMULATION (unilateral) removal or replacement of neurostimulator receiver or pulse generator for the treatment of:</p> <p>Parkinson's disease where the patient's response to medical therapy is not sustained and is accompanied by unacceptable motor fluctuations; or</p> <p>Essential tremor or dystonia where the patient's symptoms cause severe disability. (Anaes.)</p> <p><b>Fee:</b> \$263.45      <b>Benefit:</b> 75% = \$197.60</p>
40858	<p>DEEP BRAIN STIMULATION (unilateral) placement, removal or replacement of extension lead for the treatment of:</p> <p>Parkinson's disease where the patient's response to medical therapy is not sustained and is accompanied by unacceptable motor fluctuations; or</p> <p>Essential tremor or dystonia where the patient's symptoms cause severe disability. (Anaes.)</p> <p><b>Fee:</b> \$542.80      <b>Benefit:</b> 75% = \$407.10</p>
40860	<p>DEEP BRAIN STIMULATION (unilateral) target localisation incorporating anatomical and physiological techniques, including intra-operative clinical evaluation, for the insertion of a single neurostimulation wire for the treatment of:</p> <p>Parkinson's disease where the patient's response to medical therapy is not sustained and is accompanied by unacceptable motor fluctuations; or</p> <p>Essential tremor or dystonia where the patient's symptoms cause severe disability. (Anaes.)</p> <p><b>Fee:</b> \$2,085.90      <b>Benefit:</b> 75% = \$1564.45</p>
40862	<p>DEEP BRAIN STIMULATION (unilateral) electronic analysis and programming of neurostimulator pulse generator for the treatment of:</p> <p>Parkinson's disease where the patient's response to medical therapy is not sustained and is accompanied by unacceptable motor fluctuations; or</p> <p>Essential tremor or dystonia where the patient's symptoms cause severe disability. (Anaes.)</p> <p><b>Fee:</b> \$195.65      <b>Benefit:</b> 75% = \$146.75    85% = \$166.35</p>

T8. SURGICAL OPERATIONS		7. NEUROSURGICAL
	MISCELLANEOUS	
40905	Craniotomy, performed by a neurosurgeon in conjunction with the correction of craniofacial abnormalities (Anaes.) (Assist.) <b>Fee:</b> \$620.50 <b>Benefit:</b> 75% = \$465.40	
T8. SURGICAL OPERATIONS		8. EAR, NOSE AND THROAT
	Group T8. Surgical Operations	
	Subgroup 8. Ear, Nose And Throat	
41500	EAR, foreign body (other than ventilating tube) in, removal of, other than by simple syringing (Anaes.) (See para TN.8.72 of explanatory notes to this Category) <b>Fee:</b> \$85.05 <b>Benefit:</b> 75% = \$63.80    85% = \$72.30	
41501	Examination of glottal cycles and vibratory characteristics of the vocal folds by a specialist in the practice of the specialist's specialty of otolaryngology using videostroboscopy, including capturing audio, video, frequency and intensity, for confirmation of diagnosis, or for confirmation of treatment effectiveness where there is failure to progress or respond as expected, for:  <ul style="list-style-type: none"> <li>a. dysphonia where non stroboscopic techniques of the visualising the larynx have failed to identify any frank abnormality of the vocal folds; or</li> <li>b. benign or malignant vocal fold lesions; or</li> <li>c. premalignant or malignant laryngeal lesions; or</li> <li>d. vocal fold motion impairment or glottal insufficiency; or</li> <li>e. evaluation of vocal fold function after treatment or phonosurgery</li> </ul> other than a service associated with a service to which item 41764 applies or with a services associated with the administration of a general anaesthetic  (See para TN.8.76 of explanatory notes to this Category) <b>Fee:</b> \$191.40 <b>Benefit:</b> 75% = \$143.55    85% = \$162.70	
41503	EAR, foreign body in, removal of, involving incision of external auditory canal (Anaes.) <b>Fee:</b> \$246.25 <b>Benefit:</b> 75% = \$184.70    85% = \$209.35	
41506	AURAL POLYP, removal of (Anaes.) <b>Fee:</b> \$148.50 <b>Benefit:</b> 75% = \$111.40    85% = \$126.25	
41509	EXTERNAL AUDITORY MEATUS, surgical removal of keratosis obturans from, not being a service to which another item in this Group applies (Anaes.) <b>Fee:</b> \$168.05 <b>Benefit:</b> 75% = \$126.05    85% = \$142.85	
41512	MEATOPLASTY involving removal of cartilage or bone or both cartilage and bone, not being a service to which item 41515 applies (Anaes.) (Assist.) <b>Fee:</b> \$604.20 <b>Benefit:</b> 75% = \$453.15	
41515	MEATOPLASTY involving removal of cartilage or bone or both cartilage and bone, being a service associated with a service to which item 41530, 41548, 41557, 41560 or 41563 applies (Anaes.) (Assist.) (See para TN.8.73 of explanatory notes to this Category) <b>Fee:</b> \$396.55 <b>Benefit:</b> 75% = \$297.45	

T8. SURGICAL OPERATIONS		8. EAR, NOSE AND THROAT
41518	EXTERNAL AUDITORY MEATUS, removal of EXOSTOSES IN (Anaes.) (Assist.) <b>Fee:</b> \$957.75 <b>Benefit:</b> 75% = \$718.35	
41521	Correction of AUDITORY CANAL STENOSIS, including meatoplasty, with or without grafting (Anaes.) (Assist.) <b>Fee:</b> \$1,019.70 <b>Benefit:</b> 75% = \$764.80	
41524	RECONSTRUCTION OF EXTERNAL AUDITORY CANAL, being a service associated with a service to which items 41557, 41560 and 41563 apply (Anaes.) (Assist.) (See para TN.8.74 of explanatory notes to this Category) <b>Fee:</b> \$294.60 <b>Benefit:</b> 75% = \$220.95	
41527	MYRINGOPLASTY, transcanal approach (Rosen incision) (Anaes.) (Assist.) <b>Fee:</b> \$605.95 <b>Benefit:</b> 75% = \$454.50	
41530	MYRINGOPLASTY, postaural or endaural approach with or without mastoid inspection (Anaes.) <b>Fee:</b> \$987.20 <b>Benefit:</b> 75% = \$740.40	
41533	ATTICOTOMY without reconstruction of the bony defect, with or without myringoplasty (Anaes.) (Assist.) <b>Fee:</b> \$1,180.05 <b>Benefit:</b> 75% = \$885.05	
41536	ATTICOTOMY with reconstruction of the bony defect, with or without myringoplasty (Anaes.) (Assist.) <b>Fee:</b> \$1,321.75 <b>Benefit:</b> 75% = \$991.35	
41539	OSSICULAR CHAIN RECONSTRUCTION (Anaes.) (Assist.) <b>Fee:</b> \$1,123.95 <b>Benefit:</b> 75% = \$843.00	
41542	OSSICULAR CHAIN RECONSTRUCTION AND MYRINGOPLASTY (Anaes.) (Assist.) <b>Fee:</b> \$1,231.55 <b>Benefit:</b> 75% = \$923.70	
41545	MASTOIDECTOMY (CORTICAL) (Anaes.) (Assist.) <b>Fee:</b> \$537.55 <b>Benefit:</b> 75% = \$403.20	
41548	OBLITERATION OF THE MASTOID CAVITY (Anaes.) (Assist.) <b>Fee:</b> \$713.35 <b>Benefit:</b> 75% = \$535.05	
41551	MASTOIDECTOMY, intact wall technique, with myringoplasty (Anaes.) (Assist.) <b>Fee:</b> \$1,642.85 <b>Benefit:</b> 75% = \$1232.15	
41554	MASTOIDECTOMY, intact wall technique, with myringoplasty and ossicular chain reconstruction (Anaes.) (Assist.) <b>Fee:</b> \$1,935.60 <b>Benefit:</b> 75% = \$1451.70	
41557	MASTOIDECTOMY (RADICAL OR MODIFIED RADICAL) (Anaes.) (Assist.) <b>Fee:</b> \$1,123.95 <b>Benefit:</b> 75% = \$843.00	
41560	MASTOIDECTOMY (RADICAL OR MODIFIED RADICAL) AND MYRINGOPLASTY (Anaes.) <b>Fee:</b> \$1,231.55 <b>Benefit:</b> 75% = \$923.70	

T8. SURGICAL OPERATIONS		8. EAR, NOSE AND THROAT
41563	MASTOIDECTOMY (RADICAL OR MODIFIED RADICAL), MYRINGOPLASTY AND OSSICULAR CHAIN RECONSTRUCTION (Anaes.) (Assist.) <b>Fee:</b> \$1,524.60 <b>Benefit:</b> 75% = \$1143.45	
41564	MASTOIDECTOMY (RADICAL OR MODIFIED RADICAL), OBLITERATION OF THE MASTOID CAVITY, BLIND SAC CLOSURE OF EXTERNAL AUDITORY CANAL AND OBLITERATION OF EUSTACHIAN TUBE (Anaes.) (Assist.) <b>Fee:</b> \$1,971.55 <b>Benefit:</b> 75% = \$1478.70	
41566	REVISION OF MASTOIDECTOMY (radical, modified radical or intact wall), including myringoplasty (Anaes.) (Assist.) <b>Fee:</b> \$1,123.95 <b>Benefit:</b> 75% = \$843.00	
41569	DECOMPRESSION OF FACIAL NERVE in its mastoid portion (Anaes.) (Assist.) <b>Fee:</b> \$1,231.55 <b>Benefit:</b> 75% = \$923.70	
41572	LABYRINTHOTOMY OR DESTRUCTION OF LABYRINTH (Anaes.) (Assist.) <b>Fee:</b> \$1,065.50 <b>Benefit:</b> 75% = \$799.15	
41575	CEREBELLO PONTINE ANGLE TUMOUR, removal of by 2 surgeons operating conjointly, by transmastoid, translabyrinthine or retromastoid approach transmastoid, translabyrinthine or retromastoid procedure (including aftercare) (Anaes.) (Assist.) <b>Fee:</b> \$2,511.75 <b>Benefit:</b> 75% = \$1883.85	
41576	CEREBELLO - PONTINE ANGLE TUMOUR, removal of, by transmastoid, translabyrinthine or retromastoid approach - intracranial procedure (including aftercare) not being a service to which item 41578 or 41579 applies (Anaes.) (Assist.) <b>Fee:</b> \$3,767.75 <b>Benefit:</b> 75% = \$2825.85	
41578	CEREBELLO PONTINE ANGLE TUMOUR, removal of, by transmastoid, translabyrinthine or retromastoid approach, (intracranial procedure) - conjoint surgery, principal surgeon (Anaes.) (Assist.) <b>Fee:</b> \$2,511.75 <b>Benefit:</b> 75% = \$1883.85	
41579	CEREBELLO-PONTINE ANGLE TUMOUR, removal of, by transmastoid, translabyrinthine or retromastoid approach, (intracranial procedure) - conjoint surgery, co-surgeon (Assist.) <b>Fee:</b> \$1,883.85 <b>Benefit:</b> 75% = \$1412.90	
41581	TUMOUR INVOLVING INFRA-TEMPORAL FOSSA, removal of, involving craniotomy and radical excision of (Anaes.) (Assist.) <b>Fee:</b> \$2,889.05 <b>Benefit:</b> 75% = \$2166.80	
41584	PARTIAL TEMPORAL BONE RESECTION for removal of tumour involving mastoidectomy with or without decompression of facial nerve (Anaes.) (Assist.) <b>Fee:</b> \$1,982.70 <b>Benefit:</b> 75% = \$1487.05	
41587	TOTAL TEMPORAL BONE RESECTION for removal of tumour (Anaes.) (Assist.) <b>Fee:</b> \$2,700.40 <b>Benefit:</b> 75% = \$2025.30	
41590	ENDOLYMPHATIC SAC, TRANSMASTOID DECOMPRESSION with or without drainage of (Anaes.) (Assist.)	

T8. SURGICAL OPERATIONS		8. EAR, NOSE AND THROAT
	<b>Fee:</b> \$1,231.55 <b>Benefit:</b> 75% = \$923.70	
41593	TRANSLABYRINTHINE VESTIBULAR NERVE SECTION (Anaes.) (Assist.) <b>Fee:</b> \$1,605.10 <b>Benefit:</b> 75% = \$1203.85	
41596	RETROLABYRINTHINE VESTIBULAR NERVE SECTION or COCHLEAR NERVE SECTION, or BOTH (Anaes.) (Assist.) <b>Fee:</b> \$1,793.85 <b>Benefit:</b> 75% = \$1345.40	
41599	INTERNAL AUDITORY MEATUS, exploration by middle cranial fossa approach with cranial nerve decompression (Anaes.) (Assist.) <b>Fee:</b> \$1,793.85 <b>Benefit:</b> 75% = \$1345.40	
41603	OSSEO-INTEGRATION PROCEDURE - implantation of titanium fixture for use with implantable bone conduction hearing system device, in patients: - With a permanent or long term hearing loss; and - Unable to utilise conventional air or bone conduction hearing aid for medical or audiological reasons; and - With bone conduction thresholds that accord to recognised criteria for the implantable bone conduction hearing device being inserted. Not being a service associated with a service to which items 41554, 45794 or 45797 (Anaes.) <b>Fee:</b> \$519.60 <b>Benefit:</b> 75% = \$389.70    85% = \$441.70	
41604	OSSEO-INTEGRATION PROCEDURE - fixation of transcutaneous abutment implantation of titanium fixture for use with implantable bone conduction hearing system device, in patients: - With a permanent or long term hearing loss; and - Unable to utilise conventional air or bone conduction hearing aid for medical or audiological reasons; and - With bone conduction thresholds that accord to recognised criteria for the implantable bone conduction hearing device being inserted. Not being a service associated with a service to which items 41554, 45794 or 45797 (Anaes.) <b>Fee:</b> \$192.35 <b>Benefit:</b> 75% = \$144.30    85% = \$163.50	
41608	STAPEDECTOMY (Anaes.) (Assist.) <b>Fee:</b> \$1,123.95 <b>Benefit:</b> 75% = \$843.00	
41611	STAPES MOBILISATION (Anaes.) (Assist.) <b>Fee:</b> \$723.20 <b>Benefit:</b> 75% = \$542.40	
41614	ROUND WINDOW SURGERY including repair of cochleotomy (Anaes.) (Assist.) <b>Fee:</b> \$1,123.95 <b>Benefit:</b> 75% = \$843.00    85% = \$1039.25	
41615	OVAL WINDOW SURGERY, including repair of fistula, not being a service associated with a service to which any other item in this Group applies (Anaes.) (Assist.) <b>Fee:</b> \$1,123.95 <b>Benefit:</b> 75% = \$843.00    85% = \$1039.25	

T8. SURGICAL OPERATIONS		8. EAR, NOSE AND THROAT
41617	COCHLEAR IMPLANT, insertion of, including mastoidectomy (Anaes.) (Assist.) <b>Fee:</b> \$1,954.40 <b>Benefit:</b> 75% = \$1465.80	
41618	Middle ear implant, partially implantable, insertion of, via mastoidectomy, for patients with: (a) stable sensorineural hearing loss; and (b) outer ear pathology that prevents the use of a conventional hearing aid; and (c) a PTA4 of less than 80 dBHL; and (d) bilateral, symmetrical hearing loss with PTA thresholds in both ears within 20 dBHL (0.5-4kHz) of each other; and (e) speech perception discrimination of at least 65% correct for word lists with appropriately amplified sound; and (f) a normal middle ear; and (g) normal tympanometry; and (h) on audiometry, an air-bone gap of less than 10 dBHL (0.5-4kHz) across all frequencies; and (i) no other inner ear disorders  (Anaes.) (Assist.) <b>Fee:</b> \$1,935.60 <b>Benefit:</b> 75% = \$1451.70	
41620	GLOMUS TUMOUR, transtympanic removal of (Anaes.) (Assist.) <b>Fee:</b> \$850.30 <b>Benefit:</b> 75% = \$637.75	
41623	GLOMUS TUMOUR, transmastoid removal of, including mastoidectomy (Anaes.) (Assist.) <b>Fee:</b> \$1,231.55 <b>Benefit:</b> 75% = \$923.70	
41626	ABSCESS OR INFLAMMATION OF MIDDLE EAR, operation for (excluding aftercare) (Anaes.) (See para TN.8.4 of explanatory notes to this Category) <b>Fee:</b> \$148.50 <b>Benefit:</b> 75% = \$111.40    85% = \$126.25	
41629	MIDDLE EAR, EXPLORATION OF (Anaes.) (Assist.) <b>Fee:</b> \$537.55 <b>Benefit:</b> 75% = \$403.20	
41632	MIDDLE EAR, insertion of tube for DRAINAGE OF (including myringotomy) (Anaes.) <b>Fee:</b> \$246.25 <b>Benefit:</b> 75% = \$184.70    85% = \$209.35	
41635	CLEARANCE OF MIDDLE EAR FOR GRANULOMA, CHOLESTEATOMA and POLYP, 1 or more, with or without myringoplasty (Anaes.) (Assist.) <b>Fee:</b> \$1,180.05 <b>Benefit:</b> 75% = \$885.05    85% = \$1095.35	
41638	CLEARANCE OF MIDDLE EAR FOR GRANULOMA, CHOLESTEATOMA and POLYP, 1 or more, with or without myringoplasty with ossicular chain reconstruction (Anaes.) (Assist.) <b>Fee:</b> \$1,472.95 <b>Benefit:</b> 75% = \$1104.75	

T8. SURGICAL OPERATIONS		8. EAR, NOSE AND THROAT
41641	PERFORATION OF TYMPANUM, cauterisation or diathermy of (Anaes.) <b>Fee:</b> \$48.90 <b>Benefit:</b> 75% = \$36.70    85% = \$41.60	
41644	EXCISION OF RIM OF EARDRUM PERFORATION, not being a service associated with myringoplasty (Anaes.) <b>Fee:</b> \$147.30 <b>Benefit:</b> 75% = \$110.50    85% = \$125.25	
41647	EAR TOILET requiring use of operating microscope and microinspection of tympanic membrane with or without general anaesthesia (Anaes.) <b>Fee:</b> \$113.30 <b>Benefit:</b> 75% = \$85.00    85% = \$96.35	
41650	TYMPANIC MEMBRANE, microinspection of 1 or both ears under general anaesthesia, not being a service associated with a service to which another item in this Group applies (Anaes.) <b>Fee:</b> \$113.30 <b>Benefit:</b> 75% = \$85.00    85% = \$96.35	
41653	EXAMINATION OF NASAL CAVITY or POSTNASAL SPACE, or NASAL CAVITY AND POSTNASAL SPACE, UNDER GENERAL ANAESTHESIA, not being a service associated with a service to which another item in this Group applies (Anaes.) <b>Fee:</b> \$74.20 <b>Benefit:</b> 75% = \$55.65    85% = \$63.10	
41656	NASAL HAEMORRHAGE, POSTERIOR, ARREST OF, with posterior nasal packing with or without cauterisation and with or without anterior pack (excluding aftercare) (Anaes.) (See para TN.8.4 of explanatory notes to this Category) <b>Fee:</b> \$126.65 <b>Benefit:</b> 75% = \$95.00    85% = \$107.70	
41659	NOSE, removal of FOREIGN BODY IN, other than by simple probing (Anaes.) <b>Fee:</b> \$80.00 <b>Benefit:</b> 75% = \$60.00    85% = \$68.00	
41662	NASAL POLYP OR POLYPI (SIMPLE), removal of (See para TN.8.75 of explanatory notes to this Category) <b>Fee:</b> \$85.05 <b>Benefit:</b> 75% = \$63.80    85% = \$72.30	
41668	NASAL POLYP OR POLYPI, removal of (Anaes.) (See para TN.8.75 of explanatory notes to this Category) <b>Fee:</b> \$226.80 <b>Benefit:</b> 75% = \$170.10	
41671	NASAL SEPTUM, SEPTOPLASTY, SUBMUCOUS RESECTION or closure of septal perforation (Anaes.) (See para TN.8.104 of explanatory notes to this Category) <b>Fee:</b> \$498.35 <b>Benefit:</b> 75% = \$373.80	
41672	NASAL SEPTUM, reconstruction of (Anaes.) (Assist.) <b>Fee:</b> \$621.70 <b>Benefit:</b> 75% = \$466.30	
41674	Cauterisation (other than by chemical means) or cauterisation by chemical means when performed under general anaesthesia or diathermy of septum or turbinates—one or more of these procedures (including any consultation on the same occasion) other than a service associated with another operation on the nose (Anaes.) <b>Fee:</b> \$103.65 <b>Benefit:</b> 75% = \$77.75    85% = \$88.15	
41677	NASAL HAEMORRHAGE, arrest of during an episode of epistaxis by cauterisation or nasal cavity	

T8. SURGICAL OPERATIONS		8. EAR, NOSE AND THROAT
	packing or both (Anaes.) <b>Fee:</b> \$92.80 <b>Benefit:</b> 75% = \$69.60    85% = \$78.90	
41683	DIVISION OF NASAL ADHESIONS, with or without stenting not being a service associated with any other operation on the nose and not performed during the postoperative period of a nasal operation (Anaes.) <b>Fee:</b> \$120.90 <b>Benefit:</b> 75% = \$90.70    85% = \$102.80	
41686	DISLOCATION OF TURBINATE OR TURBINATES, 1 or both sides, not being a service associated with a service to which another item in this Group applies (Anaes.) <b>Fee:</b> \$74.20 <b>Benefit:</b> 75% = \$55.65    85% = \$63.10	
41689	TURBINECTOMY or turbinectomies, partial or total, unilateral (Anaes.) <b>Fee:</b> \$140.80 <b>Benefit:</b> 75% = \$105.60	
41692	TURBINATES, submucous resection of, unilateral (Anaes.) <b>Fee:</b> \$183.60 <b>Benefit:</b> 75% = \$137.70	
41698	MAXILLARY ANTRUM, PROOF PUNCTURE AND LAVAGE OF (Anaes.) <b>Fee:</b> \$33.55 <b>Benefit:</b> 75% = \$25.20    85% = \$28.55	
41701	MAXILLARY ANTRUM, proof puncture and lavage of, under general anaesthesia (requiring admission to hospital) not being a service associated with a service to which another item in this Group applies (Anaes.) <b>Fee:</b> \$94.75 <b>Benefit:</b> 75% = \$71.10	
41704	MAXILLARY ANTRUM, LAVAGE OF each attendance at which the procedure is performed, including any associated consultation (Anaes.) <b>Fee:</b> \$37.45 <b>Benefit:</b> 75% = \$28.10    85% = \$31.85	
41707	MAXILLARY ARTERY, transantral ligation of (Anaes.) (Assist.) <b>Fee:</b> \$462.60 <b>Benefit:</b> 75% = \$346.95	
41710	ANTROSTOMY (RADICAL) (Anaes.) (Assist.) <b>Fee:</b> \$537.55 <b>Benefit:</b> 75% = \$403.20	
41713	ANTROSTOMY (RADICAL) with transantral ethmoidectomy or transantral vidian neurectomy (Anaes.) (Assist.) <b>Fee:</b> \$625.45 <b>Benefit:</b> 75% = \$469.10	
41716	ANTRUM, intranasal operation on, or removal of foreign body from (Anaes.) (Assist.) <b>Fee:</b> \$304.95 <b>Benefit:</b> 75% = \$228.75	
41719	ANTRUM, drainage of, through tooth socket (Anaes.) <b>Fee:</b> \$121.25 <b>Benefit:</b> 75% = \$90.95    85% = \$103.10	
41722	OROANTRAL FISTULA, plastic closure of (Anaes.) (Assist.) <b>Fee:</b> \$605.95 <b>Benefit:</b> 75% = \$454.50    85% = \$521.25	

T8. SURGICAL OPERATIONS		8. EAR, NOSE AND THROAT
41725	ETHMOIDAL ARTERY OR ARTERIES, transorbital ligation of (unilateral) (Anaes.) (Assist.) <b>Fee:</b> \$462.60 <b>Benefit:</b> 75% = \$346.95	
41728	LATERAL RHINOTOMY with removal of tumour (Anaes.) (Assist.) <b>Fee:</b> \$925.30 <b>Benefit:</b> 75% = \$694.00	
41729	DERMOID OF NOSE, excision of, with intranasal extension (Anaes.) (Assist.) <b>Fee:</b> \$586.40 <b>Benefit:</b> 75% = \$439.80	
41731	FRONTONASAL ETHMOIDECTOMY by external approach with or without sphenoidectomy (Anaes.) (Assist.) <b>Fee:</b> \$801.40 <b>Benefit:</b> 75% = \$601.05	
41734	RADICAL FRONTOETHMOIDECTOMY with osteoplastic flap (Anaes.) (Assist.) <b>Fee:</b> \$1,045.70 <b>Benefit:</b> 75% = \$784.30	
41737	FRONTAL SINUS, OR ETHMOIDAL SINUSES ON THE ONE SIDE, intranasal operation on (Anaes.) (Assist.) <b>Fee:</b> \$498.35 <b>Benefit:</b> 75% = \$373.80	
41740	FRONTAL SINUS, catheterisation of (Anaes.) <b>Fee:</b> \$60.65 <b>Benefit:</b> 75% = \$45.50	
41743	FRONTAL SINUS, trephine of (Anaes.) (Assist.) <b>Fee:</b> \$348.00 <b>Benefit:</b> 75% = \$261.00	
41746	FRONTAL SINUS, radical obliteration of (Anaes.) (Assist.) <b>Fee:</b> \$801.40 <b>Benefit:</b> 75% = \$601.05    85% = \$716.70	
41749	ETHMOIDAL SINUSES, external operation on (Anaes.) (Assist.) <b>Fee:</b> \$625.45 <b>Benefit:</b> 75% = \$469.10	
41752	SPHENOIDAL SINUS, intranasal operation on (Anaes.) (Assist.) <b>Fee:</b> \$304.95 <b>Benefit:</b> 75% = \$228.75	
41755	EUSTACHIAN TUBE, catheterisation of (Anaes.) <b>Fee:</b> \$47.95 <b>Benefit:</b> 75% = \$36.00    85% = \$40.80	
41764	NASENDOSCOPY or SINOSCOPY or FIBROPTIC EXAMINATION of NASOPHARYNX and LARYNX, one or more of these procedures, unilateral or bilateral examination (Anaes.) <b>Fee:</b> \$126.65 <b>Benefit:</b> 75% = \$95.00    85% = \$107.70	
41767	NASOPHARYNGEAL ANGIOFIBROMA, removal of (Anaes.) (Assist.) <b>Fee:</b> \$760.05 <b>Benefit:</b> 75% = \$570.05    85% = \$675.35	
41770	PHARYNGEAL POUCH, removal of, with or without cricopharyngeal myotomy (Anaes.) (Assist.) <b>Fee:</b> \$723.20 <b>Benefit:</b> 75% = \$542.40	
41773	PHARYNGEAL POUCH, ENDOSCOPIC RESECTION OF (Dohman's operation) (Anaes.) (Assist.)	

T8. SURGICAL OPERATIONS		8. EAR, NOSE AND THROAT
	<b>Fee:</b> \$605.95 <b>Benefit:</b> 75% = \$454.50	
41776	CRICOPHARYNGEAL MYOTOMY with or without inversion of pharyngeal pouch (Anaes.) (Assist.) <b>Fee:</b> \$604.20 <b>Benefit:</b> 75% = \$453.15	
41779	PHARYNGOTOMY (lateral), with or without total excision of tongue (Anaes.) (Assist.) <b>Fee:</b> \$723.20 <b>Benefit:</b> 75% = \$542.40	
41782	PARTIAL PHARYNGECTOMY via PHARYNGOTOMY (Anaes.) (Assist.) <b>Fee:</b> \$981.85 <b>Benefit:</b> 75% = \$736.40    85% = \$897.15	
41785	PARTIAL PHARYNGECTOMY via PHARYNGOTOMY with partial or total glossectomy (Anaes.) (Assist.) <b>Fee:</b> \$1,218.05 <b>Benefit:</b> 75% = \$913.55	
41786	UVULOPALATOPHARYNGOPLASTY, with or without tonsillectomy, by any means (Anaes.) (Assist.) <b>Fee:</b> \$760.05 <b>Benefit:</b> 75% = \$570.05	
41787	UVULECTOMY AND PARTIAL PALATECTOMY WITH LASER INCISION OF THE PALATE, with or without tonsillectomy, 1 or more stages, including any revision procedures within 12 months (Anaes.) (Assist.) <b>Fee:</b> \$586.40 <b>Benefit:</b> 75% = \$439.80    85% = \$501.70	
41789	Tonsils or tonsils and adenoids, removal of, in a person aged less than 12 years (including any examination of the postnasal space and nasopharynx and the infiltration of local anaesthetic), not being a service to which item 41764 applies  (Anaes.) <b>Fee:</b> \$304.95 <b>Benefit:</b> 75% = \$228.75	
41793	Tonsils or tonsils and adenoids, removal of, in a person 12 years of age or over (including any examination of the postnasal space and nasopharynx and the infiltration of local anaesthetic), not being a service to which item 41764 applies (Anaes.) <b>Fee:</b> \$383.10 <b>Benefit:</b> 75% = \$287.35	
41797	TONSILS OR TONSILS AND ADENOIDS, ARREST OF HAEMORRHAGE requiring general anaesthesia, following removal of (Anaes.) <b>Fee:</b> \$148.50 <b>Benefit:</b> 75% = \$111.40	
41801	Adenoids, removal of (including any examination of the postnasal space and nasopharynx and the infiltration of local anaesthetic), not being a service to which item 41764 applies (Anaes.) <b>Fee:</b> \$168.05 <b>Benefit:</b> 75% = \$126.05	
41804	LINGUAL TONSIL OR LATERAL PHARYNGEAL BANDS, removal of (Anaes.) <b>Fee:</b> \$92.80 <b>Benefit:</b> 75% = \$69.60	
41807	PERITONSILLAR ABSCESS (quinsy), incision of (Anaes.) <b>Fee:</b> \$72.25 <b>Benefit:</b> 75% = \$54.20    85% = \$61.45	

T8. SURGICAL OPERATIONS		8. EAR, NOSE AND THROAT
41810	UVULOTOMY or UVULECTOMY (Anaes.) <b>Fee:</b> \$36.70 <b>Benefit:</b> 75% = \$27.55    85% = \$31.20	
41813	VALLECULAR OR PHARYNGEAL CYSTS, removal of (Anaes.) (Assist.) <b>Fee:</b> \$367.50 <b>Benefit:</b> 75% = \$275.65	
41816	OESOPHAGOSCOPY (with rigid oesophagoscope) (Anaes.) <b>Fee:</b> \$191.40 <b>Benefit:</b> 75% = \$143.55    85% = \$162.70	
41822	OESOPHAGOSCOPY (with rigid oesophagoscope), with biopsy (Anaes.) <b>Fee:</b> \$246.25 <b>Benefit:</b> 75% = \$184.70	
41825	OESOPHAGOSCOPY (with rigid oesophagoscope), with removal of foreign body (Anaes.) (Assist.) <b>Fee:</b> \$367.50 <b>Benefit:</b> 75% = \$275.65	
41828	OESOPHAGEAL STRICTURE, dilatation of, without oesophagoscopy (Anaes.) <b>Fee:</b> \$53.85 <b>Benefit:</b> 75% = \$40.40    85% = \$45.80	
41831	Oesophagus, endoscopic pneumatic dilatation of, for treatment of achalasia (Anaes.) (Assist.) <b>Fee:</b> \$368.15 <b>Benefit:</b> 75% = \$276.15    85% = \$312.95	
41832	OESOPHAGUS, balloon dilatation of, using interventional imaging techniques (Anaes.) <b>Fee:</b> \$235.65 <b>Benefit:</b> 75% = \$176.75    85% = \$200.35	
41834	LARYNGECTOMY (TOTAL) (Anaes.) (Assist.) <b>Fee:</b> \$1,329.45 <b>Benefit:</b> 75% = \$997.10	
41837	VERTICAL HEMILARYNGECTOMY including tracheostomy (Anaes.) (Assist.) <b>Fee:</b> \$1,274.70 <b>Benefit:</b> 75% = \$956.05

OTHER GRAFTS AND MISCELLANEOUS PROCEDURES			
45496	FLAP, free tissue transfer using microvascular techniques - <i>revision of</i> , by open operation (Anaes.)	<b>Fee:</b> \$429.05	<b>Benefit:</b> 75% = \$321.80
45497	FLAP, free tissue transfer using microvascular techniques, <i>or</i> any autogenous breast reconstruction - <i>complete revision of</i> , by liposuction (Anaes.)	<b>Fee:</b> \$335.10	<b>Benefit:</b> 75% = \$251.35
45498	FLAP, free tissue transfer using microvascular techniques, <i>or</i> any autogenous breast reconstruction - <i>staged revision of</i> , by liposuction - first stage (Anaes.)	<b>Fee:</b> \$269.75	<b>Benefit:</b> 75% = \$202.35
45499	FLAP, free tissue transfer using microvascular techniques, <i>or</i> any autogenous breast reconstruction - <i>staged revision of</i> , by liposuction - second stage (Anaes.)	<b>Fee:</b> \$201.05	<b>Benefit:</b> 75% = \$150.80
45500	MICROVASCULAR REPAIR using microsurgical techniques, with restoration of continuity of artery or vein of distal extremity or digit (Anaes.) (Assist.)	<b>Fee:</b> \$1,124.40	<b>Benefit:</b> 75% = \$843.30
45501	MICROVASCULAR ANASTOMOSIS of artery using microsurgical techniques, for re-implantation of limb or digit (Anaes.) (Assist.)	<b>Fee:</b> \$1,830.15	<b>Benefit:</b> 75% = \$1372.65
45502	MICROVASCULAR ANASTOMOSIS of vein using microsurgical techniques, for re-implantation of limb or digit (Anaes.) (Assist.)	<b>Fee:</b> \$1,830.15	<b>Benefit:</b> 75% = \$1372.65
45503	MICRO-ARTERIAL OR MICRO-VEINOUS GRAFT using microsurgical techniques (Anaes.) (Assist.)	<b>Fee:</b> \$2,093.80	<b>Benefit:</b> 75% = \$1570.35
45504	MICROVASCULAR ANASTOMOSIS of artery using microsurgical techniques, for free transfer of tissue including setting in of free flap (Anaes.) (Assist.)	<b>Fee:</b> \$1,830.15	<b>Benefit:</b> 75% = \$1372.65
45505	MICROVASCULAR ANASTOMOSIS of vein using microsurgical techniques, for free transfer of tissue including setting in of free flap (Anaes.) (Assist.)	<b>Fee:</b> \$1,830.15	<b>Benefit:</b> 75% = \$1372.65
45506	SCAR, of face or neck, not more than 3 cm in length, revision of, where undertaken in the operating		

T8. SURGICAL OPERATIONS	13. PLASTIC AND RECONSTRUCTIVE SURGERY
	<p>theatre of a hospital, or where performed by a specialist in the practice of his or her specialty (Anaes.)</p> <p>(See para TN.8.95 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$226.80      <b>Benefit:</b> 75% = \$170.10    85% = \$192.80</p>
45512	<p>SCAR, of face or neck, more than 3 cm in length, revision of, where undertaken in the operating theatre of a hospital, or where performed by a specialist in the practice of his or her specialty (Anaes.)</p> <p>(See para TN.8.95 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$304.95      <b>Benefit:</b> 75% = \$228.75    85% = \$259.25</p>
45515	<p>SCAR, other than on face or neck, not more than 7 cms in length, revision of, as an independent procedure, where undertaken in the operating theatre of a hospital or where performed by a specialist in the practice of his or her specialty (Anaes.)</p> <p>(See para TN.8.95 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$192.35      <b>Benefit:</b> 75% = \$144.30    85% = \$163.50</p>
45518	<p>SCAR, other than on face or neck, more than 7 cms in length, revision of, as an independent procedure, where undertaken in the operating theatre of a hospital, or where performed by a specialist in the practice of his or her specialty (Anaes.)</p> <p>(See para TN.8.95 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$232.75      <b>Benefit:</b> 75% = \$174.60    85% = \$197.85</p>
45519	<p>EXTENSIVE BURN SCARS OF SKIN (more than 1 percent of body surface area), excision of, for correction of scar contracture (Anaes.) (Assist.)</p> <p><b>Fee:</b> \$442.45      <b>Benefit:</b> 75% = \$331.85</p>
45520	<p>Reduction mammoplasty (unilateral) with surgical repositioning of nipple, in the context of breast cancer or developmental abnormality of the breast (Anaes.) (Assist.)</p> <p><b>Fee:</b> \$928.55      <b>Benefit:</b> 75% = \$696.45</p>
45522	<p>Reduction mammoplasty (unilateral) without surgical repositioning of the nipple:</p> <p>(a) excluding the treatment of gynaecomastia; and</p> <p>(b) not with insertion of any prosthesis (Anaes.) (Assist.)</p> <p><b>Fee:</b> \$651.50      <b>Benefit:</b> 75% = \$488.65</p>
45523	<p>Reduction mammoplasty (bilateral) with surgical repositioning of the nipple:</p> <p>(a) for patients with macromastia and experiencing pain in the neck or shoulder region; and</p> <p>(b) not with insertion of any prosthesis (Anaes.) (Assist.)</p> <p><b>Fee:</b> \$1,392.90      <b>Benefit:</b> 75% = \$1044.70</p>
45524	<p>Mammoplasty, augmentation (unilateral) in the context of:</p> <p>(a) breast cancer; or</p> <p>(b) developmental abnormality of the breast, if there is a difference in breast volume, as demonstrated by an appropriate volumetric measurement technique, of at least:</p> <p style="padding-left: 40px;">(i) 20% in normally shaped breasts; or</p>

T8. SURGICAL OPERATIONS	13. PLASTIC AND RECONSTRUCTIVE SURGERY
	<p>(ii) 10% in tubular breasts or in breasts with abnormally high inframammary folds.</p> <p>Applicable only once per occasion on which the service is provided (Anaes.) (Assist.)</p> <p>(See para TN.8.96 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$764.80      <b>Benefit:</b> 75% = \$573.60</p>
45527	<p>Breast reconstruction (unilateral), following mastectomy, using a permanent prosthesis (Anaes.) (Assist.)</p> <p>(See para TN.8.96 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$764.80      <b>Benefit:</b> 75% = \$573.60</p>
45528	<p>Mammoplasty, augmentation, bilateral (other than a service to which item 45527 applies), if:</p> <p>(a) reconstructive surgery is indicated because of:</p> <ul style="list-style-type: none"> <li>(i) developmental malformation of breast tissue (excluding hypomastia); or</li> <li>(ii) disease of or trauma to the breast (other than trauma resulting from previous elective cosmetic surgery); or</li> <li>(iii) amastia secondary to a congenital endocrine disorder; and</li> </ul> <p>(b) photographic and/or diagnostic imaging evidence demonstrating the clinical need for this service is documented in the patient notes (Anaes.) (Assist.)</p> <p>(See para TN.8.96 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$1,147.10      <b>Benefit:</b> 75% = \$860.35</p>
45530	<p>Breast reconstruction (unilateral), using a latissimus dorsi or other large muscle or myocutaneous flap, including repair of secondary skin defect, if required, excluding repair of muscular aponeurotic layer, other than a service associated with a service to which item 30165, 30168, 30171, 30172, 30176, 30177 or 30179 applies</p> <p>(H) (Anaes.) (Assist.)</p> <p>(See para TN.8.97 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$1,133.75      <b>Benefit:</b> 75% = \$850.35</p>
45533	<p>BREAST RECONSTRUCTION using breast sharing technique (first stage) including breast reduction, transfer of complex skin and breast tissue flap, split skin graft to pedicle of flap or other similar procedure (Anaes.) (Assist.)</p> <p>(See para TN.8.8 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$1,283.95      <b>Benefit:</b> 75% = \$963.00</p>
45536	<p>BREAST RECONSTRUCTION using breast sharing technique (second stage) including division of pedicle, inseting of breast flap, with closure of donor site or other similar procedure (Anaes.) (Assist.)</p> <p><b>Fee:</b> \$472.20      <b>Benefit:</b> 75% = \$354.15</p>
45539	<p>BREAST RECONSTRUCTION (unilateral), following mastectomy, using tissue expansion - insertion of tissue expansion unit and all attendances for subsequent expansion injections (Anaes.) (Assist.)</p> <p><b>Fee:</b> \$1,104.70      <b>Benefit:</b> 75% = \$828.55</p>
45542	<p>BREAST RECONSTRUCTION (unilateral), following mastectomy, using tissue expansion - removal of tissue expansion unit and insertion of permanent prosthesis (Anaes.) (Assist.)</p> <p><b>Fee:</b> \$632.55      <b>Benefit:</b> 75% = \$474.45</p>

T8. SURGICAL OPERATIONS	13. PLASTIC AND RECONSTRUCTIVE SURGERY
45545	<p>NIPPLE OR AREOLA or both, reconstruction of, by any surgical technique (Anaes.) (Assist.)</p> <p>(See para TN.8.100 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$642.00      <b>Benefit:</b> 75% = \$481.50    85% = \$557.30</p> <p><b>Extended Medicare Safety Net Cap:</b> \$513.60</p>
45546	<p>NIPPLE OR AREOLA or both, intradermal colouration of, following breast reconstruction after mastectomy or for congenital absence of nipple</p> <p>(See para TN.8.100 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$204.00      <b>Benefit:</b> 75% = \$153.00    85% = \$173.40</p>
45548	<p>BREAST PROSTHESIS, removal of, as an independent procedure (Anaes.)</p> <p><b>Fee:</b> \$285.45      <b>Benefit:</b> 75% = \$214.10    85% = \$242.65</p>
45551	<p>Breast prosthesis, removal of, with excision of at least half of the fibrous capsule, not with insertion of any prosthesis. The excised specimen must be sent for histopathology and the volume removed must be documented in the histopathology report (Anaes.) (Assist.)</p> <p><b>Fee:</b> \$457.55      <b>Benefit:</b> 75% = \$343.20</p>
45553	<p>Breast prosthesis, removal of and replacement with another prosthesis, following medical complications (for rupture, migration of prosthetic material or symptomatic capsular contracture), if:</p> <p>(a) either:</p> <p style="padding-left: 40px;">(i) it is demonstrated by intra-operative photographs post-removal that removal alone would cause unacceptable deformity; or</p> <p style="padding-left: 40px;">(ii) the original implant was inserted in the context of breast cancer or developmental abnormality; and</p> <p>(b) photographic and/or diagnostic imaging evidence demonstrating the clinical need for this service is documented in the patient notes (Anaes.) (Assist.)</p> <p>(See para TN.8.98 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$589.45      <b>Benefit:</b> 75% = \$442.10</p>
45554	<p>Breast prosthesis, removal and replacement with another prosthesis, following medical complications (for rupture, migration of prosthetic material or symptomatic capsular contracture), including excision of at least half of the fibrous capsule or formation of a new pocket, or both, if:</p> <p>(a) either:</p> <p style="padding-left: 40px;">(i) it is demonstrated by intra-operative photographs post-removal that removal alone would cause unacceptable deformity; or</p> <p style="padding-left: 40px;">(ii) the original implant was inserted in the context of breast cancer or developmental abnormality; and</p> <p>(b) the excised specimen is sent for histopathology and the volume removed is documented in the histopathology report; and</p> <p>(c) photographic and/or diagnostic imaging evidence demonstrating the clinical need for this service is documented in the patient notes (Anaes.) (Assist.)</p> <p>(See para TN.8.98 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$721.30      <b>Benefit:</b> 75% = \$541.00</p>

T8. SURGICAL OPERATIONS	13. PLASTIC AND RECONSTRUCTIVE SURGERY
45556	<p>Breast ptosis, correction of (unilateral), in the context of breast cancer or developmental abnormality, if photographic evidence (including anterior, left lateral and right lateral views) and/or diagnostic imaging evidence demonstrating the clinical need for this service is documented in the patient notes</p> <p>Applicable only once per occasion on which the service is provided (Anaes.) (Assist.)</p> <p>(See para TN.8.99 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$789.95      <b>Benefit:</b> 75% = \$592.50</p>
45558	<p>Breast ptosis, correction by mastopexy of (bilateral), if:</p> <p>(a) at least two-thirds of the breast tissue, including the nipple, lies inferior to the infra-mammary fold where the nipple is located at the most dependent, inferior part of the breast contour; and</p> <p>(b) if the patient has been pregnant—the correction is performed not less than 1 year, or more than 7 years, after completion of the most recent pregnancy of the patient; and</p> <p>(c) photographic evidence (including anterior, left lateral and right lateral views), with a marker at the level of the inframammary fold, demonstrating the clinical need for this service, is documented in the patient notes</p> <p>Applicable only once per lifetime (Anaes.) (Assist.)</p> <p>(See para TN.8.99 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$1,184.85      <b>Benefit:</b> 75% = \$888.65</p>
45560	<p>HAIR TRANSPLANTATION for the treatment of alopecia of congenital or traumatic origin or due to disease, excluding male pattern baldness, not being a service to which another item in this Group applies (Anaes.)</p> <p><b>Fee:</b> \$488.45      <b>Benefit:</b> 75% = \$366.35    85% = \$415.20</p> <p><b>Extended Medicare Safety Net Cap:</b> \$171.00</p>
45561	<p>MICROVASCULAR ANASTOMOSIS of artery or vein using microsurgical techniques, for supercharging of pedicled flaps (Anaes.) (Assist.)</p> <p><b>Fee:</b> \$1,830.15      <b>Benefit:</b> 75% = \$1372.65</p>
45562	<p>FREE TRANSFER OF TISSUE involving raising of tissue on vascular or neurovascular pedicle, including direct repair of secondary cutaneous defect if performed, excluding flap for male pattern baldness (Anaes.) (Assist.)</p> <p><b>Fee:</b> \$1,133.75      <b>Benefit:</b> 75% = \$850.35    85% = \$1049.05</p>
45563	<p>NEUROVASCULAR ISLAND FLAP, including direct repair of secondary cutaneous defect if performed, excluding flap for male pattern baldness (Anaes.) (Assist.)</p> <p><b>Fee:</b> \$1,133.75      <b>Benefit:</b> 75% = \$850.35    85% = \$1049.05</p>
45564	<p>Free transfer of tissue reconstructive surgery for the repair of major tissue defect due to congenital deformity, surgery or trauma, involving anastomoses of up to 2 vessels using microvascular techniques and including raising of tissue on a vascular or neurovascular pedicle, preparation of recipient vessels, transfer of tissue, inseting of tissue at recipient site and direct repair of secondary cutaneous defect if performed, other than a service associated with a service to which item 30165, 30168, 30171, 30172, 30176, 30177, 30179, 45501, 45502, 45504, 45505 or 45562 applies-conjoint surgery, principal specialist surgeon (H) (Anaes.) (Assist.)</p> <p>(See para TN.8.8 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$2,625.85      <b>Benefit:</b> 75% = \$1969.40</p>

T8. SURGICAL OPERATIONS	13. PLASTIC AND RECONSTRUCTIVE SURGERY
45565	<p>Free transfer of tissue reconstructive surgery for the repair of major tissue defect due to congenital deformity, surgery or trauma, involving anastomoses of up to 2 vessels using microvascular techniques and including raising of tissue on a vascular or neurovascular pedicle, preparation of recipient vessels, transfer of tissue, inseting of tissue at recipient site and direct repair of secondary cutaneous defect if performed, other than a service associated with a service to which item 30165, 30168, 30171, 30172, 30176, 30177, 30179, 45501, 45502, 45504, 45505 or 45562 applies-conjoint surgery, conjoint specialist surgeon (H) (Assist.)</p> <p>(See para TN.8.8 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$1,969.45      <b>Benefit:</b> 75% = \$1477.10</p>
45566	<p>TISSUE EXPANSION not being a service to which item 45539 or 45542 applies - insertion of tissue expansion unit and all attendances for subsequent expansion injections (Anaes.) (Assist.)</p> <p><b>Fee:</b> \$1,104.70      <b>Benefit:</b> 75% = \$828.55</p>
45568	<p>TISSUE EXPANDER, removal of, with complete excision of fibrous capsule (Anaes.) (Assist.)</p> <p><b>Fee:</b> \$457.55      <b>Benefit:</b> 75% = \$343.20</p>
45569	<p>CLOSURE OF ABDOMEN WITH RECONSTRUCTION OF UMBILICUS, with or without lipectomy, being a service associated with items 45562, 45564, 45565 or 45530 (Anaes.) (Assist.)</p> <p><b>Fee:</b> \$698.80      <b>Benefit:</b> 75% = \$524.10</p>
45570	<p>CLOSURE OF ABDOMEN, repair of musculoaponeurotic layer, being a service associated with item 45569 (Anaes.) (Assist.)</p> <p><b>Fee:</b> \$943.55      <b>Benefit:</b> 75% = \$707.70    85% = \$858.85</p>
45572	<p>INTRA OPERATIVE TISSUE EXPANSION performed during an operation when combined with a service to which another item in Group T8 applies including expansion injections and excluding treatment of male pattern baldness (Anaes.)</p> <p><b>Fee:</b> \$300.80      <b>Benefit:</b> 75% = \$225.60    85% = \$255.70</p>
45575	<p>FACIAL NERVE PARALYSIS, free fascia graft for (Anaes.) (Assist.)</p> <p><b>Fee:</b> \$742.70      <b>Benefit:</b> 75% = \$557.05    85% = \$658.00</p>
45578	<p>FACIAL NERVE PARALYSIS, muscle transfer for (Anaes.) (Assist.)</p> <p><b>Fee:</b> \$860.10      <b>Benefit:</b> 75% = \$645.10</p>
45581	<p>FACIAL NERVE PALSY, excision of tissue for (Anaes.)</p> <p><b>Fee:</b> \$285.45      <b>Benefit:</b> 75% = \$214.10    85% = \$242.65</p>
45584	<p>Liposuction (suction assisted lipolysis) to one regional area (one limb or trunk), for treatment of post traumatic pseudolipoma, if photographic and/or diagnostic imaging evidence demonstrating the clinical need for this service is documented in the patient notes (Anaes.)</p> <p>(See para TN.8.8, TN.8.101 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$651.50      <b>Benefit:</b> 75% = \$488.65</p>
45585	<p>Liposuction (suction assisted lipolysis) to one regional area (one limb or trunk), other than a service associated with a service to which item 31525 applies, if:</p> <p>(a) the liposuction is for:</p> <p style="padding-left: 40px;">(i) the treatment of Barraquer-Simons syndrome, lymphoedema or macrodystrophia lipomatosa; or</p>

T8. SURGICAL OPERATIONS	13. PLASTIC AND RECONSTRUCTIVE SURGERY
	<p>(ii) the reduction of a buffalo hump that is secondary to an endocrine disorder or pharmacological treatment of a medical condition; and</p> <p>(b) photographic and/or diagnostic imaging evidence demonstrating the clinical need for this service is documented in the patient notes (Anaes.)</p> <p>(See para TN.8.8, TN.8.101 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$651.50      <b>Benefit:</b> 75% = \$488.65</p>
45587	<p>Meloplasty for correction of facial asymmetry if:</p> <p>(a) the asymmetry is secondary to trauma (including previous surgery), a congenital condition or a medical condition (such as facial nerve palsy); and</p> <p>(b) the meloplasty is limited to one side of the face (Anaes.) (Assist.)</p> <p>(See para TN.8.102 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$918.70      <b>Benefit:</b> 75% = \$689.05</p>
45588	<p>Meloplasty (excluding browlifts and chinlift platysmaplasties), bilateral, if:</p> <p>(a) surgery is indicated to correct a functional impairment due to a congenital condition, disease (excluding post-acne scarring) or trauma (other than trauma resulting from previous elective cosmetic surgery); and</p> <p>(b) photographic and/or diagnostic imaging evidence demonstrating the clinical need for this service is documented in the patient notes (Anaes.) (Assist.)</p> <p>(See para TN.8.102 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$1,378.15      <b>Benefit:</b> 75% = \$1033.65</p>
45590	<p>ORBITAL CAVITY, reconstruction of a wall or floor, with or without foreign implant (Anaes.) (Assist.)</p> <p><b>Fee:</b> \$498.35      <b>Benefit:</b> 75% = \$373.80</p>
45593	<p>ORBITAL CAVITY, bone or cartilage graft to orbital wall or floor including reduction of prolapsed or entrapped orbital contents (Anaes.) (Assist.)</p> <p><b>Fee:</b> \$585.40      <b>Benefit:</b> 75% = \$439.05</p>
45596	<p>MAXILLA, total resection of (Anaes.) (Assist.)</p> <p><b>Fee:</b> \$928.55      <b>Benefit:</b> 75% = \$696.45</p>
45597	<p>MAXILLA, total resection of both maxillae (Anaes.) (Assist.)</p> <p><b>Fee:</b> \$1,243.05      <b>Benefit:</b> 75% = \$932.30</p>
45599	<p>MANDIBLE, total resection of both sides, including condylectomies where performed (Anaes.) (Assist.)</p> <p><b>Fee:</b> \$965.80      <b>Benefit:</b> 75% = \$724.35    85% = \$881.10</p>
45602	<p>MANDIBLE, including lower border, OR MAXILLA, sub-total resection of (Anaes.) (Assist.)</p> <p><b>Fee:</b> \$721.30      <b>Benefit:</b> 75% = \$541.00</p>
45605	<p>MANDIBLE OR MAXILLA, segmental resection of, for tumours or cysts (Anaes.) (Assist.)</p> <p><b>Fee:</b> \$605.95      <b>Benefit:</b> 75% = \$454.50</p>
45608	<p>MANDIBLE, hemimandibular reconstruction with bone graft, not being a service associated with a</p>

T8. SURGICAL OPERATIONS	13. PLASTIC AND RECONSTRUCTIVE SURGERY
	service to which item 45599 applies (Anaes.) (Assist.) <b>Fee:</b> \$853.15 <b>Benefit:</b> 75% = \$639.90
45611	MANDIBLE, condylectomy (Anaes.) (Assist.) <b>Fee:</b> \$488.55 <b>Benefit:</b> 75% = \$366.45
45614	EYELID, WHOLE THICKNESS RECONSTRUCTION OF other than by direct suture only (Anaes.) (Assist.) <b>Fee:</b> \$605.95 <b>Benefit:</b> 75% = \$454.50    85% = \$521.25 <b>Extended Medicare Safety Net Cap:</b> \$484.80
45617	Upper eyelid, reduction of, if: (a) the reduction is for any of the following: (i) skin redundancy that causes a visual field defect (confirmed by an optometrist or ophthalmologist) or intertriginous inflammation of the eyelid; (ii) herniation of orbital fat in exophthalmos; (iii) facial nerve palsy; (iv) post-traumatic scarring; (v) the restoration of symmetry of contralateral upper eyelid in respect of one of the conditions mentioned in subparagraphs (i) to (iv); and (b) photographic and/or diagnostic imaging evidence demonstrating the clinical need for this service is documented in the patient notes (Anaes.) (See para TN.8.103 of explanatory notes to this Category) <b>Fee:</b> \$242.40 <b>Benefit:</b> 75% = \$181.80    85% = \$206.05 <b>Extended Medicare Safety Net Cap:</b> \$193.95
45620	Lower eyelid, reduction of, if: (a) the reduction is for: (i) herniation of orbital fat in exophthalmos, facial nerve palsy or post-traumatic scarring; or (ii) the restoration of symmetry of the contralateral lower eyelid in respect of one of these conditions; and (b) photographic and/or diagnostic imaging evidence demonstrating the clinical need for this service is documented in the patient notes (Anaes.) (See para TN.8.103 of explanatory notes to this Category) <b>Fee:</b> \$336.20 <b>Benefit:</b> 75% = \$252.15    85% = \$285.80 <b>Extended Medicare Safety Net Cap:</b> \$269.00
45623	Ptosis of upper eyelid (unilateral), correction of, by: (a) sutured elevation of the tarsal plate on the eyelid retractors (Muller's or levator muscle or levator aponeurosis); or

T8. SURGICAL OPERATIONS	13. PLASTIC AND RECONSTRUCTIVE SURGERY
	<p>(b) sutured suspension to the brow/frontalis muscle;</p> <p>Not applicable to a service for repair of mechanical ptosis to which item 45617 applies (Anaes.) (Assist.)</p> <p><b>Fee:</b> \$745.60      <b>Benefit:</b> 75% = \$559.20    85% = \$660.90  <b>Extended Medicare Safety Net Cap:</b> \$596.50</p>
45624	<p>Ptosis of upper eyelid, correction of, by:</p> <p>(a) sutured elevation of the tarsal plate on the eyelid retractors (Muller's or levator muscle or levator aponeurosis); or</p> <p>(b) sutured suspension to the brow/frontalis muscle;</p> <p>if a previous ptosis surgery has been performed on that side (Anaes.) (Assist.)</p> <p><b>Fee:</b> \$966.70      <b>Benefit:</b> 75% = \$725.05    85% = \$882.00  <b>Extended Medicare Safety Net Cap:</b> \$773.40</p>

50100	JOINT, diagnostic arthroscopy of (including biopsy), not being a service to which another item in this Group applies and not being a service associated with any other arthroscopic procedure (Anaes.) (Assist.) <b>Fee:</b> \$281.45 <b>Benefit:</b> 75% = \$211.10    85% = \$239.25	
50102	JOINT, arthroscopic surgery of, not being a service to which another item in this Group applies (Anaes.) (Assist.) <b>Fee:</b> \$631.05 <b>Benefit:</b> 75% = \$473.30	
50103	JOINT, arthrotomy of, not being a service to which another item in this Group applies (Anaes.) (Assist.) <b>Fee:</b> \$339.85 <b>Benefit:</b> 75% = \$254.90	
50104	JOINT, synovectomy of, not being a service to which another item in this Group applies (Anaes.) (Assist.) <b>Fee:</b> \$322.05 <b>Benefit:</b> 75% = \$241.55    85% = \$273.75	
50106	JOINT, stabilisation of, involving 1 or more of: repair of capsule, repair of ligament or internal fixation, not being a service to which another item in this Group applies (Anaes.) (Assist.) <b>Fee:</b> \$485.40 <b>Benefit:</b> 75% = \$364.05	
50109	JOINT, arthrodesis of, not being a service to which another item in this Group applies, with synovectomy if performed (Anaes.) (Assist.) <b>Fee:</b> \$485.40 <b>Benefit:</b> 75% = \$364.05	
50112	CICATRICAL FLEXION OR EXTENSION CONTRACTION OF JOINT, correction of, involving tissues deeper than skin and subcutaneous tissue, not being a service to which another item in this Group applies (Anaes.) (Assist.) <b>Fee:</b> \$372.35 <b>Benefit:</b> 75% = \$279.30	
50115	JOINT or JOINTS, manipulation of, performed in the operating theatre of a hospital, not being a service associated with a service to which another item in this Group applies (Anaes.) <b>Fee:</b> \$147.45 <b>Benefit:</b> 75% = \$110.60	
50118	SUBTALAR JOINT, arthrodesis of, with synovectomy if performed (Anaes.) (Assist.) <b>Fee:</b> \$446.50 <b>Benefit:</b> 75% = \$334.90	

T8. SURGICAL OPERATIONS		15. ORTHOPAEDIC
50121	GREATER TROCHANTER, transplantaion of ileopsoas tendon to (Anaes.) (Assist.) <b>Fee:</b> \$873.80 <b>Benefit:</b> 75% = \$655.35	
50127	JOINT OR JOINTS, arthroplasty of, by any technique not being a service to which another item applies (Anaes.) (Assist.) <b>Fee:</b> \$724.45 <b>Benefit:</b> 75% = \$543.35	
50130	JOINT OR JOINTS, application of external fixator to, other than for treatment of fractures (Anaes.) (Assist.) <b>Fee:</b> \$322.05 <b>Benefit:</b> 75% = \$241.55	
MALIGNANT DISEASE		
50200	AGGRESSIVE OR POTENTIALLY MALIGNANT BONE OR DEEP SOFT TISSUE TUMOUR, biopsy of (not including aftercare) (Anaes.) <b>Fee:</b> \$194.05 <b>Benefit:</b> 75% = \$145.55    85% = \$164.95	
50201	AGGRESSIVE OR POTENTIALLY MALIGNANT BONE OR DEEP SOFT TISSUE TUMOUR, involving neurovascular structures, open biopsy of (not including aftercare) (Anaes.) (Assist.) <b>Fee:</b> \$339.75 <b>Benefit:</b> 75% = \$254.85	
50203	BONE OR MALIGNANT DEEP SOFT TISSUE TUMOUR, lesional or marginal excision of (Anaes.) (Assist.) <b>Fee:</b> \$427.20 <b>Benefit:</b> 75% = \$320.40    85% = \$363.15	
50206	BONE TUMOUR, lesional or marginal excision of, combined with any 1 of: liquid nitrogen freezing, autograft, allograft or cementation (Anaes.) (Assist.) <b>Fee:</b> \$631.05 <b>Benefit:</b> 75% = \$473.30	
50209	BONE TUMOUR, lesional or marginal excision of, combined with any 2 or more of: liquid nitrogen freezing, autograft, allograft or cementation (Anaes.) (Assist.) <b>Fee:</b> \$776.80 <b>Benefit:</b> 75% = \$582.60	
50212	MALIGNANT or AGGRESSIVE SOFT TISSUE TUMOUR affecting the long bones of leg or arm, enbloc resection of, with compartmental or wide excision of soft tissue, without reconstruction (Anaes.) (Assist.) <b>Fee:</b> \$1,699.00 <b>Benefit:</b> 75% = \$1274.25	
50215	MALIGNANT or AGGRESSIVE SOFT TISSUE TUMOUR affecting the long bones of leg or arm, enbloc resection of, with compartmental or wide excision of soft tissue, with intercalary reconstruction (prosthesis, allograft or autograft) (Anaes.) (Assist.) <b>Fee:</b> \$2,135.90 <b>Benefit:</b> 75% = \$1601.95	
50218	MALIGNANT TUMOUR of LONG BONE, enbloc resection of, with replacement or arthrodesis of adjacent joint, with synovectomy if performed (Anaes.) (Assist.) <b>Fee:</b> \$2,815.60 <b>Benefit:</b> 75% = \$2111.70	
50221	MALIGNANT or AGGRESSIVE SOFT TISSUE TUMOUR of PELVIS, SACRUM or SPINE; or SCAPULA and SHOULDER, enbloc resection of (Anaes.) (Assist.) <b>Fee:</b> \$2,621.25 <b>Benefit:</b> 75% = \$1965.95	

T8. SURGICAL OPERATIONS		15. ORTHOPAEDIC
50224	MALIGNANT or AGGRESSIVE SOFT TISSUE TUMOUR of PELVIS, SACRUM or SPINE; or SCAPULA and SHOULDER, enbloc resection of, with reconstruction by prosthesis, allograft or autograft (Anaes.) (Assist.) <b>Fee:</b> \$2,912.60 <b>Benefit:</b> 75% = \$2184.45    85% = \$2827.90	
50227	MALIGNANT BONE TUMOUR, enbloc resection of, with massive anatomic specific allograft or autograft, with or without prosthetic replacement (Anaes.) (Assist.) <b>Fee:</b> \$3,398.00 <b>Benefit:</b> 75% = \$2548.50	
50230	BENIGN TUMOUR, resection of, requiring anatomic specific allograft, with or without internal fixation (Anaes.) (Assist.) <b>Fee:</b> \$1,747.55 <b>Benefit:</b> 75% = \$1310.70	
50233	MALIGNANT TUMOUR, amputation for, hemipelvectomy or interscapulo-thoracic (Anaes.) (Assist.) <b>Fee:</b> \$2,233.00 <b>Benefit:</b> 75% = \$1674.75	
50236	MALIGNANT TUMOUR, amputation for, hip disarticulation, shoulder disarticulation or proximal third femur (Anaes.) (Assist.) <b>Fee:</b> \$1,747.55 <b>Benefit:</b> 75% = \$1310.70	
50239	MALIGNANT TUMOUR, amputation for, not being a service to which another item in this Group applies (Anaes.) (Assist.) <b>Fee:</b> \$1,164.90 <b>Benefit:</b> 75% = \$873.70	
LIMB LENGTHENING AND DEFORMITY CORRECTION		
50300	JOINT DEFORMITY, slow correction of, using ring fixator or similar device, including all associated attendances - payable only once in any 12 month period (Anaes.) (Assist.) <b>Fee:</b> \$1,193.85 <b>Benefit:</b> 75% = \$895.40	
50303	LIMB LENGTHENING, 5cm or less, by gradual distraction, with application of an external fixator or intra-medullary device, in the operating theatre of a hospital - payable only once per limb in any 12 month period (Anaes.) (Assist.) <b>Fee:</b> \$1,630.00 <b>Benefit:</b> 75% = \$1222.50	
50306	LIMB LENGTHENING , where the lengthening is bipolar, or bone transport is performed or where the fixator is extended to correct an adjacent joint deformity, or where the lengthening is greater than 5cm (Anaes.) (Assist.) <b>Fee:</b> \$2,545.00 <b>Benefit:</b> 75% = \$1908.75    85% = \$2460.30	
50309	RING FIXATOR OR SIMILAR DEVICE, adjustment of, with or without insertion or removal of fixation pins, performed under general anaesthesia in the operating theatre of a hospital, not being a service to which item 50303 or 50306 applies (Anaes.) (Assist.) <b>Fee:</b> \$314.60 <b>Benefit:</b> 75% = \$235.95	
50312	ANKLE, synovectomy of, by arthroscopic or open means - not associated with any other arthroscopic procedure of the ankle (Anaes.) (Assist.) <b>Fee:</b> \$721.95 <b>Benefit:</b> 75% = \$541.50	
50315	TALIPES EQUINOVARUS, posterior release of (Anaes.) (Assist.) <b>Fee:</b> \$714.95 <b>Benefit:</b> 75% = \$536.25	

T8. SURGICAL OPERATIONS		15. ORTHOPAEDIC
50318	TALIPES EQUINOVARUS, medial release of (Anaes.) (Assist.) <b>Fee:</b> \$714.95 <b>Benefit:</b> 75% = \$536.25	
50321	TALIPES EQUINOVARUS, combined postero-medial release of (Anaes.) (Assist.) <b>Fee:</b> \$957.85 <b>Benefit:</b> 75% = \$718.40	
50324	TALIPES EQUINOVARUS, combined postero-medial release of, revision procedure (Anaes.) (Assist.) <b>Fee:</b> \$1,365.55 <b>Benefit:</b> 75% = \$1024.20	
50327	TALIPES EQUINOVARUS, bilateral procedures (Anaes.) (Assist.) <b>Fee:</b> \$1,665.60 <b>Benefit:</b> 75% = \$1249.20	
50330	TALIPES EQUINOVARUS, or talus, vertical congenital - post operative manipulation and change of plaster, performed under general anaesthesia in the operating theatre of a hospital, not being a service to which item 50315, 50318, 50321, 50324 or 50327 applies (Anaes.) <b>Fee:</b> \$235.85 <b>Benefit:</b> 75% = \$176.90	
50333	TARSAL COALITION, excision of, with interposition of muscle, fat graft or similar graft (Anaes.) (Assist.) <b>Fee:</b> \$636.10 <b>Benefit:</b> 75% = \$477.10	
50336	TALUS, VERTICAL, CONGENITAL, combined anterior and posterior reconstruction (Anaes.) (Assist.) <b>Fee:</b> \$950.85 <b>Benefit:</b> 75% = \$713.15	
50339	FOOT AND ANKLE, tibialis anterior tendon (split or whole) transfer to lateral column (Anaes.) (Assist.) <b>Fee:</b> \$579.10 <b>Benefit:</b> 75% = \$434.35	
50342	FOOT AND ANKLE, tibialis or tibialis posterior tendon transfer, through the interosseous membrane to anterior or posterior aspect of foot (Anaes.) (Assist.) <b>Fee:</b> \$672.00 <b>Benefit:</b> 75% = \$504.00	
50345	HYPEREXTENSION DEFORMITY OF TOE, release incorporating V-Y plasty of skin, lengthening of extensor tendons and release of capsule contracture (Anaes.) (Assist.) <b>Fee:</b> \$357.50 <b>Benefit:</b> 75% = \$268.15	
	<i>HIP, KNEE AND LEG PROCEDURES</i>	
50348	KNEE, deformity of, post-operative manipulation and change of plaster, performed under general anaesthesia in the operating theatre of a hospital (Anaes.) <b>Fee:</b> \$235.85 <b>Benefit:</b> 75% = \$176.90	
50349	HIP, congenital dislocation of, treatment of, by closed reduction (Anaes.) <b>Fee:</b> \$330.15 <b>Benefit:</b> 75% = \$247.65    85% = \$280.65	
50351	HIP, developmental dislocation of, open reduction of (Anaes.) (Assist.) <b>Fee:</b> \$1,647.15 <b>Benefit:</b> 75% = \$1235.40	

T8. SURGICAL OPERATIONS		15. ORTHOPAEDIC
50352	HIP, congenital dislocation of, treatment of, involving supervision of splint, harness or cast - each attendance (Anaes.) <b>Fee:</b> \$58.25 <b>Benefit:</b> 75% = \$43.70    85% = \$49.55	
50353	HIP SPICA, initial application of, for congenital dislocation of hip (excluding aftercare) (Anaes.) (Assist.) <b>Fee:</b> \$365.90 <b>Benefit:</b> 75% = \$274.45	
50354	TIBIA, pseudarthrosis of, congenital, resection and internal fixation (Anaes.) (Assist.) <b>Fee:</b> \$1,351.05 <b>Benefit:</b> 75% = \$1013.30    85% = \$1266.35	
50357	KNEE, LEG OR THIGH, rectus femoris tendon transfer, or medial or lateral hamstring tendon transfer (Anaes.) (Assist.) <b>Fee:</b> \$579.10 <b>Benefit:</b> 75% = \$434.35	
50360	KNEE, LEG OR THIGH, combined medial and lateral hamstring tendon transfer (Anaes.) (Assist.) <b>Fee:</b> \$672.00 <b>Benefit:</b> 75% = \$504.00	
50363	KNEE, contracture of, posterior release involving multiple tendon lengthening or tenotomies, unilateral (Anaes.) (Assist.) <b>Fee:</b> \$514.65 <b>Benefit:</b> 75% = \$386.00	
50366	KNEE, contracture of, posterior release involving multiple tendon lengthening or tenotomies, bilateral (Anaes.) (Assist.) <b>Fee:</b> \$900.75 <b>Benefit:</b> 75% = \$675.60	
50369	KNEE, contracture of, posterior release involving multiple tendon lengthening with or without tenotomies and release of joint capsule with or without cruciate ligaments, unilateral (Anaes.) (Assist.) <b>Fee:</b> \$672.00 <b>Benefit:</b> 75% = \$504.00	
50372	KNEE, contracture of, posterior release involving multiple tendon lengthening with or without tenotomies and release of joint capsule with or without cruciate ligaments, bilateral (Anaes.) (Assist.) <b>Fee:</b> \$1,179.55 <b>Benefit:</b> 75% = \$884.70	
50375	HIP, contracture of, medial release, involving lengthening of, or division of the adductors and psoas with or without division of the obturator nerve, unilateral (Anaes.) (Assist.) <b>Fee:</b> \$514.65 <b>Benefit:</b> 75% = \$386.00	
50378	HIP, contracture of, medial release, involving lengthening of, or division of the adductors and psoas with or without division of the obturator nerve, bilateral (Anaes.) (Assist.) <b>Fee:</b> \$900.75 <b>Benefit:</b> 75% = \$675.60	
50381	HIP, contracture of, anterior release, involving lengthening of, or division of the hip flexors and psoas with or without division of the joint capsule, unilateral (Anaes.) (Assist.) <b>Fee:</b> \$672.00 <b>Benefit:</b> 75% = \$504.00	
50384	HIP, contracture of, anterior release, involving lengthening of, or division of the hip flexors and psoas with or without division of the joint capsule, bilateral (Anaes.) (Assist.) <b>Fee:</b> \$1,179.55 <b>Benefit:</b> 75% = \$884.70	
50387	HIP, iliopsoas tendon transfer to greater trochanter, or transfer of abdominal musculature to greater

SPINE SURGERY FOR SCOLIOSIS AND KYPHOSIS IN PAEDIATRIC PATIENTS		
50600	SCOLIOSIS OR KYPHOSIS, in a growing child, manipulation of deformity and application of a localiser cast, under general anaesthesia, in a hospital (Anaes.) (Assist.)  (See para TN.8.118 of explanatory notes to this Category) <b>Fee:</b> \$448.25 <b>Benefit:</b> 75% = \$336.20	
50604	SCOLIOSIS or KYPHOSIS, in a child or adolescent, spinal fusion for (without instrumentation) (Anaes.) (Assist.)  (See para TN.8.118 of explanatory notes to this Category) <b>Fee:</b> \$1,902.65 <b>Benefit:</b> 75% = \$1427.00	
50608	SCOLIOSIS OR KYPHOSIS, in a child or adolescent, treatment by segmental instrumentation and fusion of the spine, not being a service to which item 51011 to 51171 applies (Anaes.) (Assist.)  (See para TN.8.118 of explanatory notes to this Category) <b>Fee:</b> \$3,534.05 <b>Benefit:</b> 75% = \$2650.55	
50612	SCOLIOSIS OR KYPHOSIS, in a child or adolescent, with spinal deformity, treatment by segmental instrumentation, utilising separate anterior and posterior approaches, not being a service to which item 51011 to 51171 applies (Anaes.) (Assist.)  (See para TN.8.118 of explanatory notes to this Category) <b>Fee:</b> \$5,026.80 <b>Benefit:</b> 75% = \$3770.10	
50616	SCOLIOSIS, in a child or adolescent, re-exploration for adjustment or removal of segmental instrumentation used for correction of spine deformity (Anaes.) (Assist.)  (See para TN.8.118 of explanatory notes to this Category) <b>Fee:</b> \$638.70 <b>Benefit:</b> 75% = \$479.05	
50620	SCOLIOSIS, in a child or adolescent, revision of failed scoliosis surgery, involving more than 1 of osteotomy, fusion, removal of instrumentation or instrumentation, not being a service to which item 51011 to 51171 applies (Anaes.) (Assist.)  (See para TN.8.118 of explanatory notes to this Category) <b>Fee:</b> \$3,534.05 <b>Benefit:</b> 75% = \$2650.55	

<b>T8. SURGICAL OPERATIONS</b>		<b>15. ORTHOPAEDIC</b>
50624	<p>SCOLIOSIS, in a child or adolescent, anterior correction of, with fusion and segmental fixation (Dwyer, Zielke or similar) - not more than 4 levels (Anaes.) (Assist.)</p> <p>(See para TN.8.118 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$3,534.05      <b>Benefit:</b> 75% = \$2650.55</p>	
50628	<p>SCOLIOSIS, in a child or adolescent, anterior correction of, with fusion and segmental fixation (Dwyer, Zielke or similar) - more than 4 levels (Anaes.) (Assist.)</p> <p>(See para TN.8.118 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$4,365.45      <b>Benefit:</b> 75% = \$3274.10</p>	
50632	<p>SCOLIOSIS OR KYPHOSIS, in a child or adolescent, requiring segmental instrumentation and fusion of the spine down to and including the pelvis or sacrum, not being a service to which item 51011 to 51171 applies (Anaes.) (Assist.)</p> <p>(See para TN.8.118 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$3,669.85      <b>Benefit:</b> 75% = \$2752.40</p>	
50636	<p>SCOLIOSIS, in a child or adolescent, requiring anterior decompression of the spinal cord with vertebral resection and instrumentation in the presence of spinal cord involvement, not being a service to which item 51011 to 51171 applies (Anaes.) (Assist.)</p> <p>(See para TN.8.118 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$4,077.60      <b>Benefit:</b> 75% = \$3058.20</p>	
50640	<p>SCOLIOSIS, in a child or adolescent, congenital, resection and fusion of abnormal vertebra via an anterior or posterior approach, not being a service to which item 51011 to 51171 applies (Anaes.) (Assist.)</p> <p>(See para TN.8.118 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$2,254.05      <b>Benefit:</b> 75% = \$1690.55</p>	
50644	<p>SPINE, bone graft to, for a child or adolescent, associated with surgery for correction of scoliosis or kyphosis or both (Anaes.) (Assist.)</p> <p>(See para TN.8.118 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$2,174.85      <b>Benefit:</b> 75% = \$1631.15</p>	
<b>TREATMENT OF HIP DYSPLASIA OR DISLOCATION IN PAEDIATRIC PATIENTS</b>		
50650	<p>HIP DYSPLASIA or DISLOCATION, in a child, examination, manipulation and arthrography of the hip under anaesthesia (Anaes.)</p> <p>(See para TN.8.118 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$427.70      <b>Benefit:</b> 75% = \$320.80    85% = \$363.55</p>	
50654	<p>HIP DYSPLASIA or DISLOCATION, in a child, application or reapplication of a hip spica, including examination of the hip (Anaes.) (Assist.)</p> <p>(See para TN.8.118 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$512.15      <b>Benefit:</b> 75% = \$384.15</p>	
50658	<p>HIP DYSPLASIA or DISLOCATION, in a child, examination and manipulation of the hip under anaesthesia (Anaes.)</p> <p>(See para TN.8.118 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$203.90      <b>Benefit:</b> 75% = \$152.95    85% = \$173.35</p>	
<b>T8. SURGICAL OPERATIONS</b>		<b>16. RADIOFREQUENCY AND MICROWAVE TISSUE ABLATION</b>

<b>T8. SURGICAL OPERATIONS</b>		<b>16. RADIOFREQUENCY AND MICROWAVE TISSUE ABLATION</b>
	<b>Group T8. Surgical Operations</b>	
	Subgroup 16. Radiofrequency And Microwave Tissue Ablation	
	Unresectable primary malignant tumour of the liver, destruction of, by percutaneous radiofrequency ablation or percutaneous microwave tissue ablation (including any associated imaging services), other than a service associated with a service to which item 30419 or 50952 applies	
	(Anaes.)	
50950	<b>Fee:</b> \$842.60	<b>Benefit:</b> 75% = \$631.95    85% = \$757.90
	Unresectable primary malignant tumour of the liver, destruction of, by open or laparoscopic radiofrequency ablation or open or laparoscopic microwave tissue ablation (including any associated imaging services), if a multi-disciplinary team has assessed that percutaneous radiofrequency ablation or percutaneous microwave tissue ablation cannot be performed or is not practical because of one or more of the following clinical circumstances:	
	(a) percutaneous access cannot be achieved;	
	(b) vital organs or tissues are at risk of damage from the percutaneous radiofrequency ablation or percutaneous microwave tissue ablation procedure;	
	(c) resection of one part of the liver is possible, however there is at least one primary liver tumour in an unresectable portion of the liver that is suitable for radiofrequency ablation or microwave tissue ablation;	
	other than a service associated with a service to which item 30419 or 50950 applies.	
	(Anaes.)	
	(See para TN.8.120 of explanatory notes to this Category)	
50952	<b>Fee:</b> \$842.60	<b>Benefit:</b> 75% = \$631.95    85% = \$757.90
<b>T8. SURGICAL OPERATIONS</b>		<b>17. SPINAL SURGERY</b>
	<b>Group T8. Surgical Operations</b>	
	Subgroup 17. Spinal Surgery	
	Spinal decompression or exposure via partial or total laminectomy, partial vertebrectomy or posterior spinal release, one motion segment, not being a service associated with a service to which item 51012, 51013, 51014 or 51015 applies (Anaes.) (Assist.)	
	(See para TN.8.141, TN.8.142 of explanatory notes to this Category)	
51011	<b>Fee:</b> \$1,480.35	<b>Benefit:</b> 75% = \$1110.30
	Spinal decompression or exposure via partial or total laminectomy, partial vertebrectomy or posterior spinal release, 2 motion segments, not being a service associated with a service to which item 51011, 51013, 51014 or 51015 applies (Anaes.) (Assist.)	
	(See para TN.8.141, TN.8.142 of explanatory notes to this Category)

18368	<p>Botulinum Toxin Type A Purified Neurotoxin Complex (Botox), injection of, for the treatment of spasmodic dysphonia, including all such injections on any one day</p> <p>(See para TN.11.1 of explanatory notes to this Category)  <b>Fee:</b> \$275.35      <b>Benefit:</b> 75% = \$206.55    85% = \$234.05</p>
18369	<p>Clostridium Botulinum Type A Toxin-Haemagglutinin Complex (Dysport) or IncobotulinumtoxinA (Xeomin), injection of, for the treatment of unilateral blepharospasm in a patient who is at least 18 years of age, including all such injections on any one day (Anaes.)</p> <p>(See para TN.11.1 of explanatory notes to this Category)  <b>Fee:</b> \$46.45      <b>Benefit:</b> 75% = \$34.85    85% = \$39.50</p>
18370	<p>Botulinum Toxin Type A Purified Neurotoxin Complex (Botox), injection of, for the treatment of unilateral blepharospasm in a patient who is at least 12 years of age, including all such injections on any one day (Anaes.)</p> <p>(See para TN.11.1 of explanatory notes to this Category)  <b>Fee:</b> \$46.45      <b>Benefit:</b> 75% = \$34.85    85% = \$39.50</p>
18372	<p>Botulinum Toxin Type A Purified Neurotoxin Complex (Botox), injection of, for the treatment of</p>

**T11. BOTULINUM TOXIN INJECTIONS**

	<p>bilateral blepharospasm, in a patient who is at least 12 years of age; including all such injections on any one day (Anaes.)</p> <p>(See para TN.11.1 of explanatory notes to this Category)  <b>Fee:</b> \$128.75      <b>Benefit:</b> 75% = \$96.60    85% = \$109.45</p>
18374	<p>Clostridium Botulinum Type A Toxin-Haemagglutinin Complex (Dysport) or IncobotulinumtoxinA (Xeomin), injection of, for the treatment of bilateral blepharospasm in a patient who is at least 18 years of age, including all such injections on any one day (Anaes.)</p> <p>(See para TN.11.1 of explanatory notes to this Category)  <b>Fee:</b> \$128.75      <b>Benefit:</b> 75% = \$96.60    85% = \$109.45</p>
18375	<p>Botulinum Toxin Type A Purified Neurotoxin Complex (Botox), intravesical injection of, with cystoscopy, for the treatment of urinary incontinence, including all such injections on any one day, if:</p> <ul style="list-style-type: none"> <li>(a) the urinary incontinence is due to neurogenic detrusor overactivity as demonstrated by urodynamic study of a patient with: <ul style="list-style-type: none"> <li>(i) multiple sclerosis; or</li> <li>(ii) spinal cord injury; or</li> <li>(iii) spina bifida and who is at least 18 years of age; and</li> </ul> </li> <li>(b) the patient has urinary incontinence that is inadequately controlled by anti-cholinergic therapy, as manifested by having experienced at least 14 episodes of urinary incontinence per week before commencement of treatment with botulinum toxin type A; and</li> <li>(c) the patient is willing and able to self-catheterise; and</li> <li>(d) the requirements relating to botulinum toxin type A under the Pharmaceutical Benefits Scheme are complied with; and</li> <li>(e) treatment is not provided on the same occasion as a service described in item 104, 105, 110, 116, 119, 11900 or 11919</li> </ul> <p>For each patient - applicable not more than once except if the patient achieves at least a 50% reduction in</p>

**T11. BOTULINUM TOXIN INJECTIONS**

	<p>urinary incontinence episodes from baseline at any time during the period of 6 to 12 weeks after first treatment (Anaes.)</p> <p>(See para TN.11.1 of explanatory notes to this Category)  <b>Fee:</b> \$237.05      <b>Benefit:</b> 75% = \$177.80</p>
18377	<p>Botulinum Toxin Type A Purified Neurotoxin Complex (Botox), injection of, for the treatment of chronic migraine, including all injections in 1 day, if:</p> <p>(a) the patient is at least 18 years of age; and</p> <p>(b) the patient has experienced an inadequate response, intolerance or contraindication to at least 3 prophylactic migraine medications before commencement of treatment with botulinum toxin, as manifested by an average of 15 or more headache days per month, with at least 8 days of migraine, over a period of at least 6 months, before commencement of treatment with botulinum toxin; and</p> <p>(c) the requirements relating to botulinum toxin type A under the Pharmaceutical Benefits Scheme are complied with</p> <p>For each patient-applicable not more than twice except if the patient achieves and maintains at least a 50% reduction in the number of headache days per month from baseline after 2 treatment cycles (each of 12 weeks duration)</p> <p>(See para TN.11.1 of explanatory notes to this Category)  <b>Fee:</b> \$128.75      <b>Benefit:</b> 75% = \$96.60    85% = \$109.45</p>
18379	<p>Botulinum Toxin Type A Purified Neurotoxin Complex (Botox), intravesical injection of, with cystoscopy, for the treatment of urinary incontinence, including all such injections on any one day, if:</p> <p>(a) the urinary incontinence is due to idiopathic overactive bladder in a patient: and</p> <p>(b) the patient is at least 18 years of age; and</p> <p>(c) the patient has urinary incontinence that is inadequately controlled by at least 2 alternative anti-cholinergic agents, as manifested by having experienced at least 14 episodes of urinary incontinence per week before commencement of treatment with botulinum toxin; and</p> <p>(d) the patient is willing and able to self-catheterise; and</p> <p>(e) treatment is not provided on the same occasion as a service mentioned in item 104, 105, 110, 116, 119, 11900 or 11919</p> <p>For each patient-applicable not more than once except if the patient achieves at least a 50% reduction in urinary incontinence episodes from baseline at any time during the period of 6 to 12 weeks after first treatment</p> <p>(H) (Anaes.)</p> <p>(See para TN.11.1 of explanatory notes to this Category)  <b>Fee:</b> \$237.05      <b>Benefit:</b> 75% = \$177.80</p>

## INDEX

(

(other than acromion), osteectomy/osteotomy 48406, 48409

- controlled hydrodilatation of bladder 36827
- diathermy or resection of bladder tumour/s 36845
- endoscopic incision/resection 36854
- formation of 45227
- injection into bladder wall 36851
- insertion of ureteric stent, or brush biopsy 36821
- insertion of urethral prosthesis 36811
- laser destruction of bladder tumours 36840
- lavage of blood clots from bladder 36842
- or primary restoration of alimentary continuity after 41843
- preparation of site and attachment to site 45233
- removal of foreign body 36833
- removal of, twelve years or over 41793
- removal of, under twelve years 41789
- resection of ureterocele 36848
- spreading of pedicle 45236
- ureteric catheterisation 36818, 36824
- ureteric meatotomy 36830
- urethroscopy with/without urethral dilatation 36812
- with tracheostomy and plastic reconstruction 30294
- without litholapaxy 36863
- without urethroscopy 36815
- Achilles, repair of 49718, 49721, 49724, 49727
- and mastoidectomy 41551, 41560
- and ossicular chain reconstruction 41542
- and revision of mastoidectomy 41566
- artificial prosthesis, insertion of for grafting 46414
- control under GA, independent 30058
- diabetes or anaemia 16502
- following circumcision, with GA 30663
- following tonsillectomy, with GA 41797
- foot, adductor hallucis, transfer of 49827, 49830
- foot, repair of 49800, 49803, 49806, 49809, 49812
- foreign body in, removal 30068
- hand/digit, synovectomy of 46336, 46339, 46342, 46345, 46348, 46351, 46354, 46357, 46360
- hand/wrist, repair of 46420, 46423, 46426, 46429, 46432, 46435
- insertion of pressure regulating balloon, pump 37387
- into bladder 36588, 36591
- into intestine 36594
- into isolated intestinal segment 36600, 36603
- into skin 36585
- intrauterine growth retardation 16508
- laparotomy for control of 30385
- lengthening of 47957, 47960, 47963
- major, of ankle, repair of 49718, 49721, 49724, 49727
- or ligament transfer 47966
- prosthesis, artificial, insertion for grafting 46414
- reconstruction of, by tendon graft 46408
- reconstruction, congenital atresia 45662
- removal of foreign body, incision 41503
- repair of 47954, 49718
- retromastoid removal of 41575-41576, 41578-41579
- revision or removal of 37390

- sheath, open operation for tenovaginitis 46363, 47972
- tenotomy 47960, 47963
- threatened premature labour 16502, 16508
- tonsils/adenoids, arrest, under GA 41797
- transfer of, to restore elbow function 50405
- transfer of, to restore hand function 46417
- translabyrinthine removal 41575-41576, 41578-41579
- transmastoid removal 41575-41576, 41578-41579
- transplantation of 47966
- with arytenoidectomy 41867
- with division of laryngeal web 41868
- with mastoidectomy and ossicular chain recon 41554
- with removal of juvenile papillomata 41858
- with removal of papillomata by laser surgery 41861
- with removal of tumour 41864
- abbe 45701, 45704

## A

Abbe flap, reconstruction of cleft lip 45701

Abdomen, burst, repair of 30403

abdomen, lower 20800, 20802-20804, 20806, 20810, 20815, 20820, 20830, 20832, 20840-20842, 20844-20848, 20850, 20855, 20860, 20862-20864, 20866-20868, 20880, 20882, 20884

abdomen, upper 20700, 20702-20704, 20706, 20730, 20740, 20745, 20750, 20752, 20754, 20756, 20770, 20790-20794, 20798-20799

abdominal aortic aneurysm, endovascular repair 33116, 33119

Abdominal apron, wedge excision 30165

abdominal contouring post diabetic injections 31346

Abdomino-perineal resection, rectum and anus 32039, 32042, 32045-32046

Abdomino-vaginal op for stress incontinence 35602, 35605

ablation of, by radiofrequency electrosurgery 35616

abnormality detected by mammography 31506

Abortion, threatened, treatment of 16505

Abrasive therapy 45021, 45024

Abscess, anal, drainage of 32174-32175

- abscess, incision with drainage 30223
- abscess, laparotomy for drainage of 30394
- access device, prosthetic, correction of 34518
- access device, thrombectomy of 34515

Accessory bone, osteotomy or osteectomy of 48400

Acetabular dysplasia, pelvis, bone graft/shelf procedure 50393

Acetabulum, treatment of fracture of 47492, 47495, 47498, 47501, 47504, 47507, 47510

- achilles tendon, repair of 49718, 49721, 49724
- Achilles' tendon, operation for lengthening 49727
- Acoustic neuroma, removal of 41575-41576, 41578-41579
- additional incisions for astigmatism 42673
- Adductors to ischium transfer 50387
- Adenoids and tonsils, removal of 41789, 41793
- adhesiolysis, with hysteroscopy 35633
- Adhesions, division of, via laparoscope 31450, 31452, 35637
- adhesions, laparoscopic division 35638
- Administration of 16018
- adnexae, removal, with abdominal hysterectomy 35653
- alba hernia, repair of, over 10 years 30621
- alcohol, cortisone, phenol into trigeminal nerve 39100
- Alcohol, injection of trigeminal nerve/s 39100

alcohol, retrobulbar	42824	21842, 21850, 21860, 21865, 21870, 21872, 21878-21887	
Alimentary continuity, primary restoration	41843	21900, 21906, 21908, 21910, 21912, 21914-21916, 21918	
Alopecia, hair transplantation for	45560	21922, 21925-21926, 21930, 21935-21936, 21939, 21941-21943	
Alveolar ridge augmentation	45841, 45843	21945, 21949, 21952, 21955, 21959, 21962, 21965	
Amnio-infusion	16621	21969-21970, 21973, 21976, 21980, 21990, 21992, 21997	
Amniocentesis, diagnostic	16600	22002, 22007-22008, 22012, 22014-22015, 22020, 22025	
Amputation, limb, digit etc.	44325, 44328, 44331, 44334	22031, 22036, 22051, 22055, 22060, 22065, 22075, 22900	
44338, 44342, 44346, 44350, 44354, 44358-44359, 44361		22905, 23010, 23091, 23101, 23111-23119, 23121, 23170	
44364, 44367, 44370, 44373, 44376		23180, 23190, 23200, 23210, 23220, 23230, 23240, 23250	
anaesthesia in connection with burns	21878-21887	23260, 23270, 23280, 23290, 23300, 23310, 23320, 23330	
anaesthesia in connection with dental services	22900	23340, 23350, 23360, 23370, 23380, 23390, 23400, 23410	
22905		23420, 23430, 23440, 23450, 23460, 23470, 23480, 23490	
anaesthesia in connection with radiological diagnostic or		23500, 23510, 23520, 23530, 23540, 23550, 23560, 23570	
therapeutic procedures	21900, 21906, 21908, 21910, 21912	23580, 23590, 23600, 23610, 23620, 23630, 23640, 23650	
21914-21916, 21918, 21922, 21925-21926, 21930		23660, 23670, 23680, 23690, 23700, 23710, 23720, 23730	
21935-21936, 21939, 21941-21943, 21945, 21949, 21952		23740, 23750, 23760, 23770, 23780, 23790, 23800, 23810	
21955, 21959, 21962, 21965, 21969-21970, 21973, 21976		23820, 23830, 23840, 23850, 23860, 23870, 23880, 23890	
21980		23900, 23910, 23920, 23930, 23940, 23950, 23960, 23970	
anaesthesia modifiers	25000, 25005, 25010, 25020, 25025	23980, 23990, 24100-24136, 25000, 25005, 25010, 25020	
25030		25025, 25030, 25050, 25200, 25205	
anaesthesia time	23010, 23091, 23101, 23111-23119, 23121	Anal canal, laser therapy (restriction)	35539, 35542, 35545
23170, 23180, 23190, 23200, 23210, 23220, 23230, 23240		anal, excision/repair	32159, 32162, 32165-32166
23250, 23260, 23270, 23280, 23290, 23300, 23310, 23320		anal, stretching of	32153
23330, 23340, 23350, 23360, 23370, 23380, 23390, 23400		anastomosis of upper or lower limb	34503, 34509
23410, 23420, 23430, 23440, 23450, 23460, 23470, 23480		Anastomosis, aorta, congenital heart disease	38706, 38709
23490, 23500, 23510, 23520, 23530, 23540, 23550, 23560		and ankle, tibialis tendon transfer	50339, 50342
23570, 23580, 23590, 23600, 23610, 23620, 23630, 23640		and excision of cyst/teratoma	43912
23650, 23660, 23670, 23680, 23690, 23700, 23710, 23720		and foot, tibialis tendon transfer	50339, 50342
23730, 23740, 23750, 23760, 23770, 23780, 23790, 23800		and sclerectomy, for glaucoma (Lagrange's op)	42746
23810, 23820, 23830, 23840, 23850, 23860, 23870, 23880		aneurysm, endovascular coiling	35412
23890, 23900, 23910, 23920, 23930, 23940, 23950, 23960		aneurysm, resection	38507-38508
23970, 23980, 23990, 24100-24136		Angiofibroma, face/neck, removal by laser excision	30190
Anaesthetic, Relative Value Guide	20100, 20102, 20104, 20120	angiography, selected coronary	38215, 38218, 38220, 38222
20124, 20140, 20142-20148, 20160, 20162, 20164, 20170		38225, 38228, 38231, 38234, 38237, 38240-38241, 38243	
20172, 20174, 20176, 20190, 20192, 20210, 20212, 20214		38246	
20216, 20220, 20222, 20225, 20230, 20300, 20305		angiography, selective	38215, 38218, 38220, 38222, 38225
20320-20321, 20330, 20350, 20352, 20355, 20400-20406		38228, 38231, 38234, 38237, 38240-38241, 38243, 38246	
20410, 20420, 20440, 20450, 20452, 20470, 20472		Angioma, cauterisation/injection into	45027
20474-20475, 20500, 20520, 20522, 20524, 20526, 20528		angioplasty, peripheral	35315
20540, 20542, 20546, 20548, 20560, 20600, 20604, 20620		Angioplasty, peripheral laser	35315
20622, 20630, 20632, 20634, 20670, 20680, 20690, 20700		Angioscopy	35324, 35327
20702-20704, 20706, 20730, 20740, 20745, 20750, 20752		Ankle, achilles tendon, operation for lengthening	49727
20754, 20756, 20770, 20790-20794, 20798-20800, 20802-20804		Annuloplasty, heart valve	38475, 38477-38478
20806, 20810, 20815, 20820, 20830, 20832, 20840-20842		Anophthalmic orbit, insertion cartilage/implant	42518
20844-20848, 20850, 20855, 20860, 20862-20864, 20866-20868		anophthalmic, placement of motility integrating peg	42518
20880, 20882, 20884, 20886, 20900, 20902, 20904-20906		Anoplasty for anal stricture	32123
20910-20912, 20914, 20916, 20920, 20924, 20926, 20928		Anorectal carcinoma, excision of	32105
20930, 20932, 20934, 20936, 20938, 20940, 20942-20944		Anorectoplasty of anorectal malformation	43963, 43966
20946, 20948, 20950, 20952, 20954, 20956, 20958, 20960		antenatal	16500
21100, 21110, 21112, 21114, 21116, 21120, 21130, 21140		Antenatal cardiotocography (restriction)	16514
21150, 21155, 21160, 21170, 21195, 21199-21200, 21202		Antepartum haemorrhage, treatment of	16509
21210, 21212, 21214, 21216, 21220, 21230, 21232, 21234		Anterior chamber, irrigation of blood from	42743
21260, 21270, 21272, 21274-21275, 21280, 21300, 21321		anterior or posterior chamber or both	42740
21340, 21360, 21380, 21382, 21390, 21392, 21400		anterior resection of	32024-32026, 32028
21402-21404, 21420, 21430, 21432, 21440, 21445		antireflux operation by	31464, 31466
21460-21462, 21464, 21472, 21474, 21480, 21482, 21484		Antireflux operations	30527, 30529-30530
21486, 21490, 21500, 21502, 21520, 21522, 21530, 21532		Antrectomy and/or vagotomy	30497, 30503
21535, 21600, 21610, 21620, 21622, 21630, 21632, 21634		Antrobuccal fistula operation	41722
21636, 21638, 21650, 21652, 21654, 21656, 21670, 21680		antrobuccal, operation for	41722
21682, 21685, 21700, 21710, 21712, 21714, 21716, 21730		Antroscopy of temporomandibular joint	45855, 45857
21732, 21740, 21756, 21760, 21770, 21772, 21780, 21785		Antrostomy, radical	41710, 41713
21790, 21800, 21810, 21820, 21830, 21832, 21834, 21840		Antrum, drainage of, through tooth socket	41719

antrum, proof puncture and lavage of	41698, 41701	Arthrodesis, ankle	49712
Anus, dilatation of (Lord's procedure)	32153	arthroplasty	49309, 49312, 49315, 49318-49319, 49321 49324, 49327, 49330, 49333, 49336, 49339, 49342 49345-49346
Aorta, anastomosis, congenital heart disease	38706, 38709	arthroplasty of	49209, 49518-49519, 49521, 49524, 49527 49530, 49533-49534
aorta, operative management of rupture/dissection	38572	arthroplasty of, not otherwise covered	50127
aorta, repair or replacement procedures	38550, 38553	Arthroplasty, ankle	49715
38556, 38559, 38562, 38565, 38568, 38571		arthroplasty, revision	49346
aortic aneurysm, endovascular repair of	33116, 33119	arthroscopic surgery	48948, 48951, 48954, 48957, 48960 49221, 49224, 49227
Aortic bypass	32708, 32710-32711	arthroscopic surgery of	49121, 49703
Aorto-duodenal fistula, repair of	34160, 34163, 34166	arthroscopy	48945, 49360, 49363, 49366
aorto-duodenal, repair of	34160, 34163, 34166	arthroscopy of	45855, 45857, 49218, 49557-49564, 49566 50100
Aorto-femoral endarterectomy	33515	arthroscopy of, diagnostic	49118, 49700
Aorto-iliac endarterectomy	33512	Arthroscopy, ankle	49700, 49703
Aortopexy for tracheomalacia	43909	arthrotomy	45859, 46327, 46330, 48912, 49303
Appendiceal abscess, laparotomy for drainage	30394	arthrotomy of	49100, 49212, 49500, 49706, 50103
appendiceal, laparotomy for drainage	30394	Arthrotomy, ankle	49706
Appendicectomy	30571-30572, 30574, 30645	artificial erection device, insertion	37426, 37429
Appendicectomy, laparoscopic	30646	Artificial erection device, insertion of	37426, 37429
Appendix, ruptured, laparotomy for drainage	30394	artificial erection device, revision or removal of	37432
application of a localiser cast to	50600	artificial, removal and replacement	42707, 42710
application of formalin	32212	artificial, removal or repositioning	42704
Arachnoidal cyst, craniotomy for	39718	Arytenoidectomy with microlaryngoscopy	41867
Arch Bars, to maxilla or mandible, removal of	45823	aspiration biopsy of cyst/s	45799
area, exploration of	36537	Aspiration biopsy, bone marrow	30087
Areola, reconstruction of	45545-45546	assist device, insertion of	38615, 38618
Arm, amputation or disarticulation of	44328	assist device, removal of, independent	38621, 38624
arm, upper (and elbow)	21700, 21710, 21712, 21714, 21716	assistance at anaesthesia	25200, 25205
21730, 21732, 21740, 21756, 21760, 21770, 21772, 21780		Assistance at operations	51300, 51303, 51306, 51309, 51312 51315, 51318
21785, 21790		assistance time	23010, 23091, 23101, 23111-23119, 23121 23170, 23180, 23190, 23200, 23210, 23220, 23230, 23240 23250, 23260, 23270, 23280, 23290, 23300, 23310, 23320 23330, 23340, 23350, 23360, 23370, 23380, 23390, 23400 23410, 23420, 23430, 23440, 23450, 23460, 23470, 23480 23490, 23500, 23510, 23520, 23530, 23540, 23550, 23560 23570, 23580, 23590, 23600, 23610, 23620, 23630, 23640 23650, 23660, 23670, 23680, 23690, 23700, 23710, 23720 23730, 23740, 23750, 23760, 23770, 23780, 23790, 23800 23810, 23820, 23830, 23840, 23850, 23860, 23870, 23880 23890, 23900, 23910, 23920, 23930, 23940, 23950, 23960 23970, 23980, 23990, 24100-24136
Arnold Chiari malformation, decompression of	40106	assistance, modifiers	25000, 25005, 25010, 25020, 25025 25030
arrest of post-operative haemorrhage	30663	Assisted reproductive technologies	13200, 13203, 13206 13209, 13212, 13215, 13218, 13221
Arrhythmia ablation	38287, 38290, 38293	atherectomy, peripheral	35312
arrhythmia, surgery for	38287, 38290, 38293, 38390, 38393	Atherectomy, peripheral arterial	35312
38512, 38515, 38518		atresia, auditory canal reconstruction	45662
Arterial anastomosis, not otherwise covered	32766, 32769	Atresia, choanal, repair/correction	45645-45646
arterial catheterisation	35321	atresia/corrosive stricture, replacement for	43903
arterial, collection for pathology	13839, 13842	Atrial chamber/s, operations for arrhythmia	38512, 38515
arterial/venous, independent	32766	Atticotomy	41533, 41536
arterial/venous, with other operation	32769	auditory canal, correction of	41521
Arteries, major, access as part of re-operation	35202	Auditory canal, external	41524
Arteriography, operative	35200	auditory meatus, removal of exostoses	41518
Arteriography, preparation for	38215, 38218	augmentation	38766
Arteriovenous access device, insertion of	34512	Augmentation mammoplasty	45524, 45527-45528
arteriovenous malformation, excision of	39803	Aural polyp, removal of	41506
arteriovenous, dissection, ligation	34112, 34115, 34118		
arteriovenous, dissection, repair	34121, 34124, 34127 34130		
arteriovenous, external, insertion/removal	34500, 34506		
arteriovenous, upper or lower limb	34503, 34509		
artery bypass vein graft, dissection	38637		
artery catheterisation	13818		
artery catheterisation for SIRT	35406, 35408		
artery embolisation	35410		
Artery, anastomosis of, microvascular	45502		
Artery, great ligation/exploration, other	34103		
artery, internal, transection/resection	32703		
artery, transantral ligation of	41707		
arthrectomy	49309, 49312		
arthrectomy or arthrodesis	48939, 48942		
Arthrectomy, hip	49309, 49312		
Arthrocentesis, with irrigation of temporomandibular joint	45865		
arthrodesis	45877, 49306		
arthrodesis of	49512, 49545, 49712, 49815, 49845, 50109		

aural, removal of 41506, 41509  
 Autoconjunctival transplant 42641  
 Avulsion, penis, repair of 37411  
 Axilla, lymph glands, excision of 30332  
 Axillary hyperhidrosis, excision for 30180, 30183  
 Axillary hyperhidrosis, vessel, ligation/exploration, other 34103  
 Axillofemoral graft, infected, excision of 34172

**B**

Baker's cyst, excision of 30114  
 Baker's, excision of 30114  
 Balloon catheter, right heart, insertion of 13818  
 balloon dilatation of 41832  
 Balloon enteroscopy 30680, 30682, 30684, 30686  
 balloon pump, insertion of 38362, 38609  
 balloon pump, removal of 38612-38613  
 bands or lingual tonsils, removal of 41804  
 Bariatric Surgery 31569, 31572, 31575, 31578, 31581, 31584  
 Bariatric surgery, surgical reversal of 31584  
 Bartholin's abscess, incision of 35520  
 Bartholin's, cautery destruction of 35517  
 Bartholin's, excision of 35513  
 Bartholin's, incision of 35520  
 Bartholin's, marsupialisation of 35517  
 base tumour, removal, infra-temporal 41581  
 Bat ear or similar deformity, correction of 45659  
 bed, reconstruction of laceration 46486  
 benign lesion 31500, 31503  
 benign, of soft tissue, removal 31350  
 Bicornuate uterus, plastic reconstruction for 35680  
 bicornuate, plastic reconstruction for 35680  
 Bile duct, common, radical resection 30461, 30463-30464  
 Biliary atresia, paediatric, portoenterostomy for 43978  
 biliary dilatation 30495  
 biliary drainage 30440, 30451, 30495  
 biliary stenting 30492  
 biliary/renal tract, extraction of 30450  
 biopsies, multiple, with infracolic omentectomy 35726  
 biopsy 30409, 30411-30412  
 biopsy (closed) 36561  
 biopsy of 30075, 30081, 30084, 30087, 42676  
 biopsy of for suspected malignancy 35620  
 biopsy of prostate 37218  
 biopsy of solid tumour, vacuum-assisted, image guided 31530  
 biopsy of vertebra 30093  
 biopsy of with hysteroscopy 35630  
 biopsy of, with cystoscopy 36836  
 biopsy of, with IUD insertion for idiopathic menorrhagia 35502  
 Biopsy, aggressive bone/deep tissue tumour 50200-50201  
 biopsy, by cardiac catheterisation 38275  
 biopsy, deep organ, imaging guided 30094  
 bladder stress, suprapubic operation 37044  
 Bladder, aspiration of, by needle 37041  
 bladder, cystoscopic removal of 36833  
 bladder, diathermy/resection with cystoscopy 36840, 36845  
 bladder, endoscopic incision/resection 36854  
 bladder, laser destruction with cystoscopy 36840  
 bladder, removal of 36863  
 Bladder, stress incontinence, sling procedure 37040, 37338  
 blepharospasm 18369-18370, 18372, 18374  
 blood pressure monitoring 13876

body tumour, resection of 34148, 34151, 34154  
 bone conduction hearing system 41603-41604  
 bone graft to 50644  
 bone grafting for pseudarthrosis 46405  
 bone grafting of phalanx for 46402, 46405  
 bone marrow 30081, 30084, 30087  
 bone, benign, requiring allograft, resection of 50230  
 Bone, cysts, injection into or aspiration of 47900  
 bone, fracture, treatment of 45981, 47762, 47765, 47768  
 47771  
 bone, injection into or aspiration of 47900  
 bone, innocent, excision of 30241  
 bone, malignant, operations for 50200-50201, 50203, 50206  
 50209, 50212, 50215, 50218, 50221, 50224, 50227, 50230  
 50233, 50236, 50239  
 bone, operation on, for osteomyelitis 43509, 43518  
 bone, osteectomy or osteotomy of 48424, 48427  
 bone, reconstruction of 45788  
 bone, removal of styloid process of 30244  
 bone, resection for removal of tumour 41584, 41587  
 bones, bone grafting, pseudarthrosis 46402, 46405  
 bones, fracture, treatment of 47735, 47738, 47741  
 bones, operation for osteomyelitis 46462  
 bones, osteotomy/osteectomy 46396, 46399  
 Botulinum toxin, injection for 18350-18351, 18353-18354  
 18360, 18362, 18365-18366, 18368-18370, 18372, 18374  
 18377, 18379  
 Boutonniere deformity, reconstruction of 46444, 46447  
 bowel intubation 30488  
 bowel strictureplasty 30564  
 Bowel, colectomy, total 30608, 30622, 32009, 32012, 32015  
 32018, 32021  
 bowel, endoscopic examination of 32095  
 Brachial fistula 43832  
 Brachial plexus, exploration of 39333  
 Brachial, removal of 30287  
 Brachycephaly, cranial vault reconstruction for 45785  
 Brachytherapy planning 15536  
 brain, operations for 39703  
 Branchial cyst, removal of 30286-30287  
 branchial, removal of 30286, 30289  
 breast 31530, 31533, 31548  
 Breast, biopsy, fine needle, imaging guided 31533  
 breast, correction of (unilateral) 45556  
 breast, exploration and drainage 31551  
 Breast, malignant tumour, targeted intraoperative radiotherapy 15900  
 Breast, malignant tumour, complete local excision 31516  
 breast, removal and/or replacement 45548, 45551  
 45553-45554  
 Broad ligament cyst/tumour, excision/removal 35713, 35717  
 broad ligament, excision of 35713, 35717  
 broad ligament, removal of 35713, 35717  
 Brodie's abscess, operation for 43515  
 bronchogenic, thoracotomy and excision 43912  
 Bronchial tree, intrathoracic operation on, other 38456  
 Broviac catheter, insertion of, for chemotherapy 34527-34528  
 34540  
 Bubonocele operation 30614  
 Bunion, excision of 47933  
 Burch colposuspension 37044  
 Burns, dressing of (not involving grafting) 30003, 30006

30010, 30014  
 Burst abdomen, repair of 30403  
 by open exposure of the trachea 41881  
 bypass 30460, 30466-30467, 38627  
 bypass for venous stenosis or occlusion 34812  
 bypass grafting, occlusive arterial disease 32700, 32703  
 32708, 32710-32712, 32715, 32718, 32721, 32724, 32730  
 32733, 32736, 32739, 32742, 32745, 32748, 32751, 32754  
 32757, 32760, 32763  
 Bypass, extracranial to intracranial 39818  
 bypass, for occlusive arterial disease 32700, 32703, 32708  
 32710-32712, 32715, 32718, 32721, 32724, 32730, 32733  
 32736, 32739, 32742, 32745, 32748, 32751, 32754, 32757  
 32760, 32763

### C

Caecostomy, 30375, 30637  
 Caesarean section 16520, 16522  
 calcaneal spur, excision of 49818  
 Calcaneal spur, of foot, excision of 49818  
 Calcanean bursa, excision of 30111  
 Calcaneum fracture, treatment of 47606, 47609, 47612, 47615  
 47618  
 Calculus, biliary, extraction of 30454-30455, 30457-30458  
 Caldwell-Luc operation 41710  
 Calf, decompression fasciotomy of 47975, 47978, 47981  
 canal external, blind sac closure 41564  
 canal stenosis, correction of, with meatoplasty 41521  
 canaliculus, immediate repair of 42605  
 Cancer of skin/mucous membrane, removal 30196, 30202  
 cancer, treatment of 30196, 30202  
 Cannulae, membrane oxygenation 38627  
 cannulation for cardiopulmonary bypass 38603  
 cannulation for infusion chemotherapy, open 34524  
 cannulation of, in a neonate 13300  
 Cannulation, arterial, for infusion chemotherapy 34524  
 Canthoplasty 42590  
 Capsulectomy 42719, 42731  
 capsulotomy 42788  
 Capsulotomy, laser 42788  
 Carbon dioxide laser resurfacing, face or neck 45025-45026  
 Caruncle, incision and drainage, with GA 30223  
 cardiac 38200, 38203, 38206, 38209, 38212-38213, 38215  
 38218, 38220, 38222  
 Cardiac by-pass, whole body perfusion 22060  
 cardiac, excision of 38670, 38673, 38677, 38680  
 Cardiopexy, antireflux operation 30530  
 Cardiopulmonary bypass, cannulation for 38600, 38603  
 Cardiotocography, antenatal (restriction) 16514  
 Cardioversion 13400  
 care, independent of confinement 16500  
 Carotid artery, aneurysm, graft replacement 33100  
 carotid body, resection of 34148, 34151, 34154  
 carotid-cavernous, obliteration of 39815  
 carpal bone 46324-46325  
 Carpal bone, replacement arthroplasty 46324-46325  
 Carpometacarpal joint, arthrodesis of 46303  
 carpus 48406, 48409  
 Carpus dislocation, treatment of 47030, 47033  
 carpus, operation for 46462  
 caruncle, cauterisation of 35523

caruncle, excision of 35527  
 Caruncle, urethral, cauterisation of 35523  
 Cataract, juvenile, removal of 42716  
 catheter, insertion and fixation of 13109  
 catheter, insertion of 39140  
 catheter, insertion of for infusion device 39125, 39128  
 Catheter, peritoneal insertion and fixation 13109  
 catheter, removal of 13110, 34530, 34540  
 catheterisation 38200, 38203, 38206, 38209, 38212-38213  
 38215, 38218, 38220, 38222  
 catheterisation - for myocardial biopsy 38275  
 catheterisation of 36800, 38200, 38203, 38206  
 catheterisation with cystoscopy 36818, 36824  
 Catheterisation, bladder, independent procedure 36800  
 catheterisation, peripheral 35317, 35319-35321  
 cauterisation of, for ectropion or entropion 42581  
 cauterisation of, other than by chemical means 35608  
 Cauterisation, angioma (restriction applies) 45027  
 Cautery, conjunctiva, including treatment of pannus 42677  
 caval filter, insertion of 35330  
 cavernous fistula, obliteration of 39815  
 cavity and/or post nasal space, examination of 41653  
 cavity, aspiration of 38800, 38803  
 cavity, packing for arrest of haemorrhage 41677  
 cavity, reconstruction of 45590  
 Cavopulmonary shunt, creation of 38733, 38736  
 Cellulitis, incision with drainage, under GA 30223  
 Central cannulation for cardiopulmonary bypass 38600  
 central ducts, excision for benign condition 31557  
 central vein 13318-13319, 13815  
 central vein, for haemodialysis or parenteral nutrition 34538  
 central vein, subcutaneous tunnel 34527-34528  
 central vein, tunnelled cuffed 34538  
 central vein, tunnelled cuffed catheter 34538  
 central, catheterisation 13318-13319, 13815  
 central, catheterisation, subcutaneous tunnel 34527-34528  
 cephalic version 16501  
 Cerebello-pontine angle tumour 41575-41576, 41578-41579  
 cerebello-pontine angle, removal of 41575-41576  
 41578-41579  
 Cerebral palsy, hips or knees, application of cast under GA 50390  
 Cerebrospinal fluid drain, lumbar, insertion of 40018  
 cervical 30294  
 cervical, neonatal oesophageal atresia 43858  
 cervix 35608, 35646  
 Cervix, amputation or repair of 35618  
 cervix, cone 35618  
 cervix, punch 35608  
 cervix, removal of 35611  
 cervix-residual, removal of, abdominal approach 35612  
 cervix-residual, removal of, vaginal approach 35613  
 Chalazion, extirpation of 42575  
 chamber, operation for arrhythmia 38518  
 chemical peel 45019  
 Chemical peel, full face 45019  
 Chemotherapy 34529, 34534  
 chemotherapy, cannulation for 34521, 34524  
 Chest, or limb, decompression escharotomy 45054  
 Chloasma, full face chemical peel 45019  
 Choanal atresia, repair/correction 45645-45646  
 cholangio-pancreatography 30484  
 Cholangiogram, percutaneous transhepatic 30440

cholangiography or pancreatography	30439	Colpoperineorrhaphy	35571, 35573
Cholangiography, operative	30439	colpexy	35597
Cholangiopancreatography	30484	Colpexy, sacral	35597
Cholecystectomy	30443, 30445-30446, 30448-30449	colposcopic examination of	35614
Cholecystoduodenostomy	30460, 31472	colposcopy with biopsy and diathermy	35646
Cholecystoenterostomy	30460, 31472	Colposcopy, using Hinselmann-type instrument	35614
Cholecystostomy	30375	Colpotomy	35572
Choledochal cyst, resection of	43972, 43975	compartment repair, anterior	35570
choledochal, resection of	43972, 43975	compartment repair, anterior/posterior	35573
Choledochoduodenostomy	30460-30461	compartment repair, posterior	35571
Choledochoenterostomy	30460-30461	complicated operative	35638, 35641
Choledochogastrostomy	30461	composite (chondro-cutaneous/mucosal)	45656
Choledochojejunostomy	30460-30461	composite graft to	45656
Choledochoscopy	30442, 30452	Composite graft to nose, ear or eyelid	45656
Choledochotomy	30454-30455, 30457	conduit, revision of	36609
Chondro-cutaneous or chondro-mucosal graft	45656	Condylectomy	45611, 48406, 48424
Chondroplasty of knee	49503, 49506	Condylectomy/condylotomy	45863
Chordee, correction of	37417	cone biopsy of	35618
Chorionic villus sampling	16603	Cone biopsy of cervix	35618
cicatricial flexion contracture of, correction	50112	Confinement	16515, 16518-16520, 16522
Cicatricial flexion/extension contracture, joint, correction	50112	congenital abnormalities, amputation of phalanges	50396
Ciliary body and/or iris, excision of tumour	42767	congenital abnormalities, splitting of phalanges	50396
Circulatory support device, management of	13851, 13854	Congenital absence of vagina, reconstruction for	35565
Circumcision	30649, 30654, 30658	congenital deficiency, treatment of	50411, 50414, 50417
clavicle	48406, 48409	50423	
Clavicle, dislocation, treatment of	47003, 47006	congenital deformity, post-op manipulation, plaster	50348
claw or hammer toe, correction of	49848, 49851	congenital dislocation, open reduction	50351
Claw toe, correction of	49848	congenital dislocation, reconstruction of quadriceps	50420
Cleft lip, operations for	45677, 45680, 45683, 45686, 45689	congenital pseudarthrosis, resection, fixation	50354
45692, 45695, 45698, 45701, 45704		congenital, vertebral resection and fusion for	50640
Clitoris, amputation of, medically indicated	35530	conjunctiva	42676
Clitoroplasty, reduction, ambiguous genitalia	37845, 37848	Conjunctiva, cautery of	42677
Clival tumour, removal of	39654, 39656	conjunctiva, cautery of	42677
Cloaca, persistent, correction of	43969	Conjunctival cysts, removal of	42683
Cloacal exstrophy, neonatal, operation for	43882	conjunctival graft	42638
closure of	30103, 30562	conjunctival over cornea	42638
closure of and repair of musculoaponeurotic layer	45570	Conjunctivorhinostomy	42629
closure of, in conjunction with free tissue transfer or breast		Contour reconstruction, insertion of foreign implant	45051
reconstruction	45569	Contraceptive device, intra-uterine, introduction of	35503
closure of, with rectal resection	32060, 32063, 32066	contraceptive device, removal of under GA	35506
closure of, without resection of bowel	30562	Contracted socket, reconstruction	42527
closure or plastic repair of	30293	contracture of, medial/anterior release	50375, 50378
Club hand, radial, centralisation/radialisation	50399	50381, 50384	
coalition, excision of	50333	contracture of, posterior release	50363, 50366, 50369
Coccyx, excision of	30672	50372	
Cochlear implant, insertion with mastoidectomy	41617	Contracture, cicatricial flexion/extension of joint, correction	50112
Cochleotomy, or repair of round window	41614	cord, teflon injection into	41870
Coeliac artery, decompression of	34142	cordotomy	39121
coeliac, decompression of	34142	Cordotomy, laminectomy for	39124
coil, insertion of	37223	core biopsy of solid tumour or tissue	31548
Colectomy, subtotal, of large intestine	32004-32005	cornea or sclera, imbedded, removal of	42644
collateral or cruciate ligament repair	49503, 49506	cornea or sclera, superficial, removal of	30061
collection of, in infants, for pathology	13312	Cornea, conjunctival graft over	42638
Colonic atresia, neonatal, laparotomy for	43816	corneal	42653, 42656
Colonic stent, insertion of	32023	Coronary artery bypass operations	38497-38498, 38500-38501
colonic, total, intra-operative	32186	38503-38504	
colonoscopy	32084, 32087	Coronary pressure wire	38241
Colonoscopy, fiberoptic	32084, 32087	coronary sinus, for admin of blood or crystalloid	38588
Colorectal strictures, endoscopic dilatation of	32094	coronary, bypass operations	38497-38498, 38500-38501
colostomy	30375	38503-38504	
Colostomy, closure of	30562, 30639	coronary, open operation	38505
Colotomy	30375	Corpus callosum, anterior section of, for epilepsy	40700

correction of chordee 37417-37418  
 Corticectomy, for epilepsy 40703  
 Corticolysis of lens material 42791  
   corticolysis, laser, of lens material 42791  
 Costo-transverse joint, injection into 39013  
 Counterpulsation, intra-aortic balloon, management 13848  
 Craniopharyngioma, craniotomy for removal of 39712  
 Cranioplasty and repair of fractured skull 39615  
 Craniotomy and tumour removal 39712  
 Cricopharyngeal myotomy 41776  
 Cricothyrostomy 41884  
   cruciate ligament reconstruction 49536, 49539, 49542  
 Cruciate ligaments, reconstruction/repair 49536, 49539  
   49542  
 Cryotherapy for detached retina 42773  
   cryotherapy to 42680  
 Crystalloid, retrograde admin for cardioplegia 38588  
   curettage of 35640  
   curettage of uterus 35640, 35643  
 Curettage, for evacuation of gravid uterus 35643  
   cutaneous, nerve graft to 39318  
   cutaneous, repair of 39300, 39303  
   cutaneous, salivary gland, repair of 30269  
 Cyclodestructive procedures treatment of glaucoma 42770  
   cyst aspiration 35518  
   cyst or gland, marsupialisation of 35517  
   cyst, anastomosis to Roux loop of jejunum 30587  
   cyst, anastomosis to stomach or duodenum 30586  
 Cyst, arachnoidal, craniotomy for other, removal of 31220  
   31225, 39718  
   cyst, drainage of via burr-hole 39703  
   cyst, excision of 35513, 36558  
   cyst, excision of, with hysterectomy 35673  
   cyst, excision of, with laparotomy 35713, 35717  
   cyst, extirpation of 42575  
   cyst, liver, removal of contents of 30434, 30436  
   cyst, lungs, enucleation of 38424  
   cyst, puncture of, via laparoscope 35637  
   cyst/s, laparoscopic marsupialisation 30416-30417  
 Cystadenomatoid malformation, neonatal, thoracotomy 43861  
   cystectomy, laparoscopic 35638  
 Cystocoele, repair of 35570  
 Cystoscopy, with 36836  
   cystostomy or cystotomy 37008  
 Cystostomy, suprapubic 37008  
 Cystotomy, suprapubic 37008, 37011  
   cysts, removal of 41813

## D

D and C 35640  
 Dacryocystectomy 42596  
 Dacryocystorhinostomy 42623, 42626  
 Debridement of contaminated wound 30023  
   debridement/eliminating band keratoplasty 42651  
 Debulking operation, gynaecological malignancy 35720  
   debulking prior to vaginal hysterectomy 35658  
   decompression fasciotomy 47981  
   decompression fasciotomy of 47975, 47978, 47981  
 Decompression fasciotomy, calf/forearm 47975, 47978, 47981  
   decortication with thoracotomy 38421  
   deep hypothermic circulatory arrest 22075

Deep organ, percutaneous aspiration biopsy 30094  
   deep, percutaneous drainage 30224  
   deep, peripheral nerve, removal of 39327  
   defect, ventricular, closure of 38751  
 Defibrillator generator, insertion/replacement 38393  
   deformity, correction of 50300  
 Delorme procedure 32111  
 Dermabrasion 45021, 45024  
   dermis, dermo-fat or fascia 45018  
 Dermo-fat or fascia graft 45018  
   dermoid of, congenital, excision of 41729  
   dermoid, congenital, excision of 42573-42574  
 Dermoid, excision of 42576  
   dermoid, excision of 42573-42574  
   destruction by radiofrequency ablation 50950, 50952  
   destruction of bladder tumour with cystoscopy 36840, 36845  
   destruction of stone with urethroscopy 37318  
   destruction/non-resectable liver cancer 50950, 50952  
   detached retina 42773  
 Detached retina, diathermy/cryotherapy 42773  
   detached, diathermy or cryotherapy for 42773  
   detached, removal of encircling silicone band 42812  
   detached, resection or buckling operation for 42776  
   detached, revision operation for 42779  
 device for delivery of therapeutic agents 14221, 14224  
   14227  
   device, automated, spinal, insertion of 39125-39128  
   device, insertion, central vein catheterisation 34527-34529, 34534  
   device, intra-uterine, removal under GA 35506  
   device, introduction of, for idiopathic menorrhagia 35502  
   device, removal of 34530  
   diagnostic 30390  
   dialysis in hospital 13100, 13103  
 Diaphragm, plication of for eventration 43915  
 Diaphragmatic hernia, neonatal, repair of 43837, 43840  
   diaphragmatic, neonatal, repair of 43837, 43840  
   diaphragmatic, repair of 30600-30601, 43838  
 Diaphyseal aclasia, removal of lesion/s from bone 50426  
 Diastematomyelia, tethered cord, release of 40112  
   diathermy of 35608, 35646, 37224, 37318  
 Diathermy of bladder tumours 36840, 36845  
   diathermy or visual laser destruction of 37224  
 Digit, amputation of 46464-46465, 46468, 46471, 46474, 46477  
   46480  
   digital nail, removal of 46513, 46516  
 Digital nail, toe, removal of 47904, 47906  
   digital, of finger or thumb, removal of 46513, 46516  
   digital, of toe, removal of 47904, 47906  
   digits, flexor/extensor contracture, correction 46492  
   dilatation 36821  
   dilatation of 41822, 41825, 41828, 41831  
   dilatation of colorectal strictures 32094  
   dilatation of, as an independent procedure 35554  
   dilatation with cystoscopy 36812  
   dilatation, endoscopic 30494  
   dilatation, percutaneous 30495  
 Direct flap repair 45209, 45212, 45215, 45218, 45221, 45224  
   direct, indirect or local, revision of 45239-45240  
 discontinuation of surgical procedure on medical groups 30001  
 disease, neonatal, laparotomy for 43819  
 disease, paediatric, operations for 43990, 43993, 43996  
   43999

Disimpaction of faeces under GA	32153	duplication of digits, splitting of phalanges	50396
dislocation, acetabulum fracture, treatment	47495, 47498	Dupuytren's contracture, operations for	46366, 46369, 46372
dislocation, congenital, treatment of	50349, 50352		46375, 46378, 46381, 46384, 46387, 46390, 46393
dislocation, congenital, treatment of including paediatric	50650, 50654, 50658	Dupuytren's, subcutaneous fasciotomy for	46366
dislocation, treatment of	41686, 47009, 47012, 47015	dynamic equinus foot deformity	18354
	47018, 47021, 47024, 47027, 47030, 47033, 47036, 47039	Dysthyroid eye disease, decompression of orbit	42545
	47042, 47045, 47048, 47051, 47054, 47057, 47060, 47063	dystopia, correction of	45776, 45779
	47066, 47069, 47072		
dislocations, treatment of	47000	<b>E</b>	
Dissection, lymph nodes of neck	30618, 31423, 31426, 31429	E.C.T.	14224
	31432, 31435, 31438	ear, complex total reconstruction of	45660-45661
distal, devascularisation of	32200	Ear, composite graft to	45656
distal, excision of ganglion/mucous cyst	46495	ear, exploration of	41629
distal, for osteomyelitis	46459	ear, insertion of tube for drainage of	41632
diverticulum of, excision or obliteration	37020	ear, operation for abscess or inflammation of	41626
Diverticulum, bladder, excision/obliteration	37020	ear, removal of	41500, 41503
diverticulum, excision of	37372	Eclampsia, treatment of	16509
divided, repair of	36573	Ectopic bladder, 'turning-in' operation	37842
division of adhesions	30393, 35637	ectopic, 'turning-in' operation	37842
division of suture, eye	42794	ectropion or entropion, correction of	45626-45627
division of suture, laser	42794	Ectropion, correction of	45626-45627
division of, with laparoscopy	30393	elbow	49100, 49106, 49118, 49121
division of, with laparotomy	30376, 30378-30379	Elbow, arthrodesis of	49106
Dohlman's operation	41773	electrical stimulation of	13400
Donald-Fothergill operation	35577	electrocoagulation diathermy	35644-35645
Donor haemapheresis	13755	electrocoagulation, of cervix	35644-35645
donor, continuous perfusion of	22055	Electroconvulsive therapy	14224
Double vagina, excision of septum	35566	electrode placement	40709, 40712
drainage by insertion of glass tube	42608	Electrode(s), epidural, insertion by laminectomy	39139
drainage of deep abscess, imaging guided	30224	electrode, insertion	39130, 39139
drainage of empyema, without rib resection	38806, 38809	electrode, management, adjustment etc.	39131
drainage of, transthoracic	38450	Electrolysis epilation, for trichiasis	42587-42588
drainage tube exchange, imaging guided	30451	electrophysiological studies	38209, 38212-38213
drainage tube, exchange of	30225	Electrophysiological studies, cardiac	38209, 38212-38213
drainage tube, exchange of, imaging guided	36649	Embolectomy	33803, 33806
dressing and removal of, requiring GA	30055	embolectomy of	33800, 33803, 33806
dressing of, requiring GA	30055	Embolus, removal from artery of neck	33800
Drez lesion, operation for	39124	Emphysema, lobar, neonatal, thoracotomy & lung resection	43861
Drill biopsy of lymph gland/deep tissue/organ	30078	Empyema, intercostal drainage of	38806, 38809
drill decompression of head/neck or both	47982	Enbloc resection of tumour	50212, 50215, 50218, 50221, 50224
drill, lymph gland, deep tissue/organ	30078		50227
drug delivery system	39125-39126, 39128, 39133	Encephalocoele, excision and closure of	40109
drug delivery system for spasticity management	14227	Enderterectomy	33500, 33506, 33509, 33512, 33515, 33518
drum perforation, excision of rim	41644		33521, 33524, 33527, 33530, 33533, 33536, 33539, 33542
duct, common, repair of	30472	endarterectomy	33509, 33521
duct, endoscopic stenting of	30491	endarterectomy of	33500, 33506, 33509, 33512, 33515, 33518
duct, meatotomy or marsupialisation	30266		33521, 33524, 33527, 33530, 33533, 33536, 33539, 33542
duct, patent vitello, excision of	43945	endarterectomy, open operation	38505
duct, removal of calculus	30266	Endocarditis, operative management of	38493
duct, repair of,	30246	Endocrine tumour, exploration of	30578, 30580-30581
Duct, salivary gland, diathermy/dilatation	30262	endocrine, exploration of	30578, 30580-30581
Ducts submandibular, removal of	30255	Endolymphatic sac, transmastoid decompression	41590
ducts, relocation of	30255	endometrial	35616
ducts, Roux-en-Y bypass	30466-30467	Endometrial biopsy for suspected malignancy	35620
ductus arteriosus, division/ligation	38700, 38703	endometrial, for suspected malignancy	35620
Duodenal atresia, duodeno-duodenostomy/jejunostomy	43807	Endometriosis, laparoscopic ablation	35638
duodenal, perforated, suture of	30375	Endometrium, ablation of, endoscopic	35622
Duodenoduodenostomy for duodenal atresia/stenosis	43807	endoscopic	30485, 36854
Duodenojejunostomy for duodenal atresia/stenosis	43807	Endoscopic biliary dilatation	30494
Duodenoscopy	30473, 30478	endoscopic examination and ablation by microwave or thermal	
duplication of digits, amputation of phalanges	50396	balloon	35616

endoscopic examination with cystoscopy	36812	examination, under GA	32171
endoscopic gastrostomy	30481-30482	excavatum, repair or radical correction	38457-38458
endoscopic laser ablation	37207-37208	excision of	30099, 30103, 30226, 30229, 30443, 30445-30446 30448-30449, 30583, 37000, 37014, 45030, 45033 45035-45036
Endoscopy with balloon dilatation gastric stricture	30475	excision of infected by-pass graft	34157
enlargement of, using intestine	37047	excision of lip, eyelid or ear, full thickness	45665
entero-	30515	excision of rectal tumour	32103-32104, 32106
Enterocoele, repair of	35571	excision of tumour of	42764
Enterocolitis, acute neonatal necrotising, laparotomy	43828	excision of under GA (not involving grafting)	30017, 30020
43831		excision of, in oral & maxillofacial region	45801, 45803 45805, 45807, 45809
Enterocolostomy	30515	excision of, oral & maxillofacial region	45801, 45803 45805, 45807, 45809
Enterocutaneous fistula, radical repair of	30382	excision of, with melanoma	31340
enterocutaneous, radical resection	30382	excision of, with melanoma	31340
Enterocentrostomy	30515	excision, repair, without cardiopulmonary bypass	38453
enterogenous, thoracotomy and excision	43912	excision, tumours of face/neck	30190
enterostomy	30375	Exenteration of orbit of eye	42536
Enterostomy, closure of	30562	Exomphalos, neonatal, operations for	43870, 43873
enterotomy	30375	Exostoses in external auditory meatus, removal	41518
Enterotomy, intra-operative, for endoscopy	30568	Exostosis, excision of	47933, 47936
Entropion, correction of	45626-45627	expander, insertion of	45566
enucleation of	42506, 42509-42510	expander, removal of	45568
Enucleation of eye	42506, 42509	expansion, intra-operative	45572
Epicondylitis, open operation for	47903	exploration of	36537, 36612, 39330
Epididymal cyst, excision of	37601	exploration of, for hyperparathyroidism	30318, 30320
epididymal, removal of	37601	exploration/drainage, operating theatre	31551
Epididymectomy	37613	exploratory	30373
Epidural blood patch	18233	exstrophy closure	37050
epidural electrode, insertion	39130	exstrophy of, repair of	37842
epidural electrodes, management of	39131	Exstrophy, cloacal, neonatal, operation for	43882
epidural implant, removal	39136	extension, percutaneous gastrostomy tube	31460
epidural, for pain management, removal of	39136	extensive, multiple injections of hydrocortisone	30210
epidural, insertion of	39140	Extensor tendon of hand or wrist, repair of	46420, 46423
epidural, percutaneous insertion of	39130	extensor tendon of, repair of	46420, 46423
epidural, percutaneous, management of	39131	extensor tendon of, tenolysis of	46450
Epigastric hernia, repair of	30621	External auditory canal, reconstruction	41524, 45662
Epilation electrolysis, for trichiasis	42587-42588	external auditory canal, reconstruction	45662
Epilepsy, operations for	40700-40709, 40712	external auditory, removal of keratosis obturans	41509
Epiphyseal arrest	48500, 48503, 48506, 48509	External cephalic version	16501
epiphyseodesis	48500, 48503, 48506	external operation on	41876
Epiphysiodesis, femur/fibula/tibia	48500, 48503, 48506	external, complex total reconstruction of	45660-45661
Epiphysiolysis, to prevent closure of plate	48512	Extra digit, amputation of	46464
Epispadias, repair of	37836, 37839, 37842	extra, amputation of	46464
Epistaxis, treatment of	41656, 41677	extra-ocular, ruptured, repair of	42854
Epithelial debridement for corneal ulcer/erosion	42650	Extracardiac conduit, insertion/replacement	38757, 38760
epithelial debridement for corneal ulcer/erosion	42650	Extracorporeal shock wave lithotripsy	36546
epithelial debridement for keratoplasty	42651	Extracranial to intracranial bypass	39818, 39821
equinovarus, procedures for	50315, 50318, 50321, 50324 50327, 50330	extraction	42698
erection device, revision or removal of	37432	extraction and insertion of artificial lens	42702
ESWL	36546	extremity, reoperation for control of	33848
Ethmoidal artery, transorbital ligation of	41725	Eye, capsulotomy, laser	42788
ethmoidal, external operation on	41749	eye, decompression of	42545
ethmoidal, transorbital ligation of	41725	eye, exenteration of	42536
Ethmoidectomy, fronto-nasal	41731	eye, exploration of	42530, 42533
Etonogestral, subcutaneous implant, removal of	30062	eye, removal tumour/foreign body	42539, 42542-42543
eustachian tube	41755	eye, skin graft to	42524
Eustachian tube, catheterisation of	41755	Eyeball, repair of perforating wound	42551, 42554, 42557
Evacuation of retained products of conception	16564	Eyebrow, elevation of	42872
Eventration, plication of diaphragm for	43915	Eyelashes, ingrowing, operation for	45626
Evisceration of globe of eye	42512, 42515	Eyelid closure in facial nerve paralysis, implant insertion	42869
examination of intestinal conduit/reservoir	36860		
examination of small bowel	30569, 32095		
examination under GA, paediatric	44101-44102		

face or neck, revision of (restriction applies)  
45512 45506

## F

Face, injections of poly-L-Lactic acid 14201  
Face, repair of complex fractures 45753-45754  
face/neck, laser excision 30190  
Facet joint denervation by percutaneous neurotomy 39118  
Facial, nerve, decompression of 41569  
facio-hypoglossal or facio-accessory, anastomosis of 39503  
facio-hypoglossal/accessory nerve 39503  
Facio-hypoglossal/accessory nerve, anastomosis of 39503  
Faecal incontinence, sacral nerve stimulation for 32213-32218  
Fallopian tubes, catheterisation, with hysteroscopy 35633  
Fallopscopy, unilateral/bilateral 35710  
Fascia, deep, repair of, for herniated muscle 30238  
Fasciectomy, for Dupuytren's Contracture 46369, 46372, 46375  
46378, 46381, 46384, 46387, 46390, 46393  
Fasciotomy, forearm or calf 47975, 47978, 47981  
fasciotomy, hand 47981  
feeding jejunostomy 31462  
femoral bypass, saphenous vein anastomosis 34809  
Femoral hernia, repair of 30609, 30614  
Femoral hernia, vessel, ligation/exploration, other 34103  
femoral or inguinal, repair of 30609, 30614, 43841  
Femoro-femoral crossover bypass grafting 32718  
femoro-femoral, infected, excision of 34172  
femur 48424, 48427  
Femur, bone graft to 48200, 48203  
Fetal blood sampling 16606  
Feto-amniotic shunt, insertion of 16627  
fiberoptic examination of 41764  
fiberoptic, with examination of larynx 41764  
Fibrinolysis 42791  
fibrinolysis 42791  
fibula 48406, 48409  
Fibula, congenital deficiency, transfer fibula to tibia 50423  
field setting 15500, 15503, 15506, 15509, 15512-15513  
15515  
Filtering and allied operations for glaucoma 42746  
Fimbrial cyst, removal of 35713, 35717  
fimbrial, excision of 35713, 35717  
Finger, amputation of 46465, 46468, 46471, 46474, 46477  
46480, 46483  
finger, open repair of text test 46441  
finger, with intra-articular fracture, open reduction 46442  
finger/hand 46300, 46303, 46306-46307, 46309, 46312, 46315  
46318, 46321, 46327, 46330  
finger/hand, debridement of 46336  
first, resection of portion 34136  
Fissure in ano, operation for 32150  
fissure, operation for, including excision 32150  
fistula extremity, surgically created, closure 34130  
fistula in ano, excision of 32156  
Fistula, alimentary, repair of 35596, 37834  
fistula, closure of 37038, 37333, 37336, 37833  
fistula, dissection and ligation/repair 34112, 34115  
34118, 34121, 34124, 34127  
fistula, excision/repair 32156, 32159, 32162, 32165  
fistula, readjustment of Seton 32166  
fistula, removal of 30289

fistula, repair of 30269  
fistula, repair or closure of 35596, 37029, 37333  
fistula, stenosis of, correction of 34518  
Fixation, external, removal of 47948, 47951  
fixation, orthopaedic, removal 47948, 47951  
flap for velo-pharyngeal incompetence 45716  
flap repair 45000, 45003, 45006, 45009, 45012, 45200  
45203, 45206  
flap revision 45239-45240  
flap, delay of 45015  
flap, infected, craniectomy for 39906  
flexor tendon of, repair of 46423, 46426, 46429, 46432  
46435  
flexor tendon of, tenolysis of 46453  
flexor tendon sheath, open operation 46522  
Flexor tendon, hand, repair of 46426, 46429, 46432, 46435  
flexor/extensor contracture, correction of 46492  
flexor/extensor, digits of hand, correction of 46492  
Flexorplasty to restore elbow function 50405  
flexorplasty/tendon transfer to restore function 50405  
floor repair, laparoscopic or abdominal 35595  
Fluid Filled Cavity, drainage of 16624  
fluid filled cavity, drainage of 16624  
fluid reservoir, insertion of 39018  
focal spasticity 18360  
following gynaecological surgery, under GA 35759  
following intraocular procedures 42857  
foot 49815, 49833, 49836-49839, 49842, 49845  
foot deformities due to spasticity 18354  
Foot, amputation or disarticulation of 44359, 44361, 44364  
For anaesthesia 20100, 20102, 20104, 20120, 20124, 20140  
20142-20148, 20160, 20162, 20164, 20170, 20172, 20174  
20176, 20190, 20192, 20210, 20212, 20214, 20216, 20220  
20222, 20225, 20230, 20300, 20305, 20320-20321, 20330  
20350, 20352, 20355, 20400-20406, 20410, 20420, 20440  
20450, 20452, 20470, 20472, 20474-20475, 20500, 20520  
20522, 20524, 20526, 20528, 20540, 20542, 20546, 20548  
20560, 20600, 20604, 20620, 20622, 20630, 20632, 20634  
20670, 20680, 20690, 20700, 20702-20704, 20706, 20730  
20740, 20745, 20750, 20752, 20754, 20756, 20770

25205	
for arachnoidal cyst	39718
for cardiopulmonary bypass	38600, 38603
for congenital cystadenomatoid malformation	43861
for congenital lobar emphysema	43861
for control of post-operative haemorrhage	30385, 33845
for cordotomy or myelotomy	39124
for drainage	30394
for grading of lymphoma	30384
for gross intra-peritoneal sepsis	30396
for implantable bone conduction hearing system	41603-41604
for intussusception, paediatric	43933, 43936
for neonatal conditions	43801, 43804, 43807, 43810, 43813 43816, 43819, 43822, 43825, 43828, 43831
for oesophageal atresia, neonatal	43852
for osteomyelitis/removal infected bone	39906
For prostate cancer	15338, 15513, 15539, 37220
for removal of thymus or mediastinal tumour	38446
for retrograde cerebral perfusion	38577
for staging of gynaecological malignancy	35726
for supercharging of pedicled flaps	45561
for symblepharon	45629
for thrombosis	33845
for trauma, involving 3 or more organs	30388
for trichiasis	42587-42588
for tumour	36532
for tumour, complicated	36533
Forearm, amputation or disarticulation of	44328
forearm, wrist & hand	21800, 21810, 21820, 21830, 21832 21834, 21840, 21842, 21850, 21860, 21865, 21870, 21872
foreign body in cornea or sclera, removal of	42644
foreign body in, removal of	42563, 42569
foreign body in, removal of, other than simple	41659
foreign body in, superficial, removal of	30061
Foreign body, antrum, removal of	41716
foreign body, removal not otherwise covered	30064
foreign body, removal of	42563, 42569
foreign, insertion for contour reconstruction	45051
formation of, including endoscopic procedures	41885
fracture, treatment of	47348, 47351, 47378, 47381 47384-47387, 47390, 47393, 47396, 47399, 47402, 47405 47408, 47411, 47414, 47417, 47420, 47423, 47426, 47429 47432, 47435, 47438, 47441, 47444, 47447, 47450-47451 47453, 47456, 47459, 47462, 47465-47467, 47471, 47474 47477, 47480, 47483, 47486, 47489, 47492, 47495, 47498

47648, 47651, 47654, 47657, 47735, 47738, 47741, 49336	
50552, 50556, 50560, 50564, 50568, 50572, 50576	
fracture, treatment of paediatric	50500, 50504, 50508 50512, 50516, 50520, 50524, 50528, 50532, 50536, 50540 50544, 50548, 50580, 50584, 50588
fractured, operation for	41873
fractured, operations for	39612, 39615
fractures, treatment by reduction	47663, 47666, 47672 47678
free fascia for facial nerve paralysis	45575, 45578
free grafting	45406, 45409, 45412, 45415, 45418, 45439 45442, 45445, 45448, 45451, 45460-45462, 45464-45466 45468-45469, 45471-45472, 45474-45475, 45477-45478 45480-45481, 45483-45494
Free grafts	45400, 45403, 45406, 45409, 45412, 45415, 45418 45439, 45442, 45445, 45448, 45451, 45460-45462 45464-45466, 45468-45469, 45471-45472, 45474-45475 45477-45478, 45480-45481, 45483-45494
free tissue transfer, complete revision of	45497
free tissue transfer, first stage revision of	45498
free tissue transfer, revision of	45496-45499
free tissue transfer, second stage revision	45499
free transfer of	45563-45565
free, split skin	45400, 45403, 45406, 45409, 45412, 45415 45418, 45439, 45442, 45445, 45448, 45451, 45460-45462 45464-45466, 45468-45469, 45471-45472, 45474-45475 45477-45478, 45480-45481, 45483-45494
frenuloplasty	37435
Frenulum, mandibular or maxillary, repair	30281
frenulum, repair of	30281
frontal sinus	41740
Frontal sinus, catheterisation of	41740
frontal, catheterisation of	41740
frontal, radical obliteration of	41746
frontal, trephine of	41743
Fronto-ethmoidectomy, radical	41734
Fronto-nasal ethmoidectomy	41731
Fronto-orbital advancement	45782, 45785
fronto-radical	41734
full face chemical peel	45019
Full thickness grafts, free	45451
full thickness laceration, repair	30052
full thickness laceration, repair of	30052
full thickness repair of laceration (restriction)	30052
full thickness wedge excision	45665
full thickness wedge excision of	45665
Fundoplasty/plication, antireflux operation	30527
30529-30530	
Funnel chest, elevation of	38457-38458
Furuncle, incision with drainage of	30219, 30223
<b>G</b>	
Gallbladder, drainage of	30375
Galvanocautery of skin lesions	30192
Gamete intra-fallopian transfer	13200, 13203, 13206, 13209 13212, 13215, 13218, 13221

Ganglion, excision of	30107	graft over cornea	42638
ganglion, excision of	46494	graft to femur	48200, 48203
Gangliotomy, radiofrequency trigeminal	39109	graft to humerus	48212, 48215
Gangrenous tissue, debridement of	35100, 35103	graft to lid	42860
Gartner duct cyst, removal of	35557	graft to nerve trunk	39315
Gastrectomy, partial	30518	graft to orbit	42524
Gastrectomy, sleeve	31575	graft to other bones	48239
Gastric band reservoir, adjustment of	31590	graft to phalanx or metacarpal	46402, 46405
Gastric band, adjustable, placement of	31569	graft to radius and ulna	48221
Gastric band, adjustment of	31587	graft to radius or ulna	48218, 48224, 48227
Gastric bypass by Roux-en-Y	31572	graft to scaphoid	48230, 48233, 48236
Gastric bypass, by Biliopancreatic diversion, with or without		graft to tibia	48206, 48209
duodenal switch	31581	Graft, axillo-femoral, infected, excision of	34172
gastric ulcer, suture of	30375	graft, harvesting of	47726, 47729, 47732
gastric, perforated, suture of	30375	graft, infected, excision of	34172
gastric, removal of	30520	graft, infected, of extremities, excision of	34175
Gastro-camera investigation	30473	graft, infected, of neck, excision of	34157
Gastro-oesophageal balloon intubation	13506	graft, infected, of trunk, excision of	34169
gastrocnemius aponeurosis, operation for lengthening	49728	graft, with internal fixation	48242
Gastroduodenal stricture, balloon dilatation	30475	grafting for aneurysm	33050, 33055
Gastroduodenostomy	30515	grafting for symblepharon	45629
Gastroenterostomy	30515	grafting to artery or vein	33545, 33548
Gastroplasty	31578	grafting, arterial, for occlusive arterial disease	32700
Gastroschisis, operations for	43864, 43867	32703, 32708, 32710-32712, 32715, 32718, 32721, 32724	
Gastroscopy	30473, 30478	32730, 32733, 32736, 32739, 32742, 32745, 32748, 32751	
gastrostomy	30375	32754, 32757, 32760, 32763	
Gastrostomy button, non-endoscopic insertion/replacement	30483, 30636	grafting, cross leg, saphenous to iliac or femoral vein	34806
gastrostomy tube, jejunal extension	31460	Granuloma, cautery of	42677
gastrostomy, percutaneous	30481-30482	granuloma, excision under GA	43948
Genioplasty	45761	granulomatous disease	44130
genito-urinary, repair	35596	granuloplasty, meatal advancement	37818-37819
Gilliam's operation	35684	Gravid uterus, evacuation of contents by curettage	35643
gland bearing area, excision of	30180, 30183	gravid, evacuation of contents	35643
gland tumour, excision of	30324	Great vessel, intrathoracic operation on, other	38456
gland, excision of palpebral lobe	42593	Great vessel, ligation or exploration, other	34103
gland, extirpation of	30256, 30259	Greater trochanter, transplant of ileopsoas tendon	50121
gland, meatotomy or marsupialisation	30266	greater trochanter, transplantation of	50121
gland, operations on	30262, 30266, 30269	Groin, lymph, excision of	30329-30330
gland, superficial lobectomy/removal of tumour	30253	growth retardation, attendance for	16508
gland, total extirpation of	30247, 30250	growth stimulator	45821
glands, biopsy of	30075, 30078	Gunderson flap operation	42638
glands, groin, excision of	30329-30330	Gynaecological examination under GA	35500
glands, pelvic, radical excision of	35551	gynaecological, radical or debulking operation	35720
Glaucoma, filtering and allied operations for	42746, 42749	Gynatresia, vaginal reconstruction for	35565
Glenoid fossa, reconstruction of	45788		
Globe of eye, evisceration of	42512, 42515	<b>H</b>	
globe of, evisceration of	42512	Haemangioma, cauterisation of (restriction)	45027
Glomus tumour, transmastoid removal of	41623	Haemapheresis	13750, 13755
glomus, removal of	41620, 41623	Haematoma, aspiration of	30216
Glossectomy, with partial pharyngectomy	41785	haematoma, drainage of	30387
Gonadal dysgenesis, vaginoplasty for	37851	Haemochromatosis	13757
Goniotomy	42758	Haemodialysis, in hospital	13100, 13103
gracilis neosphincter	32210	Haemofiltration, continuous (ICU)	13885, 13888
graciloplasty	32203, 32209	Haemoperfusion, in hospital	13100, 13103
Graciloplasty procedures	32200, 32203, 32206, 32209-32210	Haemorrhage, antepartum, treatment of	16509
graciloplasty, insert. stimulator & electrode	32209	haemorrhage, arrest of	41656, 41677
graciloplasty, insertion of	32206	Haemorrhoidectomy	32138-32139
graciloplasty, insertion of stimulator & electrode	32209	Hair transplants, congenital/traumatic alopecia	45560
Grafenberg's (or Graf) ring, introduction of	35503	Hallux rigidus/valgus, correction of	49821, 49824, 49827
graft	45018	49830, 49833, 49836-49839, 49842	
graft for priapism	37396	hallux valgus or hallux rigidus, correction of	49821

49824, 49827, 49830, 49833, 49836-49839, 49842			
hammer or claw, correction of	49848, 49851		
Hammer toe, correction of	49848		
hamstring tendon transfer	50357, 50360		
Hand, amputation or disarticulation of	44325, 44328		
hand, excision of	46494-46495, 46498		
Hartmann's operation	32030		
harvesting for coronary bypass	38496		
harvesting, leg/arm, for bypass, not same limb	32760		
harvesting, leg/arm, for patch graft, not same incision	33551		
head	20100, 20102, 20104, 20120, 20124, 20140, 20142-20148		
	20160, 20162, 20164, 20170, 20172, 20174, 20176, 20190		
	20192, 20210, 20212, 20214, 20216, 20220, 20222, 20225		
Heart arrhythmia, ablation of	38287, 38290, 38293		
heart disease, operations for	38700, 38703, 38706, 38709		
	38712, 38715, 38718, 38721, 38724, 38727, 38730, 38733		
	38736, 38739, 38742, 38745, 38748, 38751, 38754, 38757		
	38760, 38763, 38766		
Heller's operation	30532-30533		
hemi-arthroplasty of	48915		
hemi-mandibular reconstruction with bone graft	45608		
hemiarthroplasty of	49517		
Hemiarthroplasty, hand	46309, 46312, 46315, 46318, 46321		
Hemicircumcision, for hypospadias	37354		
Hemicolectomy	32000, 32003, 32006		
hemicolectomy	32000, 32003, 32006		
Hemiepiphysis, staple arrest of	48509		
Hemifacial microsomia, construction condyle and ramus	45791		
hemifacial spasm	18350-18351		
Hemilaryngectomy, vertical, with tracheostomy	41837		
Hemispherectomy, for intractible epilepsy	40706		
Hemithyroidectomy	30306		
Hemivulvectomy	35536		
Hepatic duct, common, resection for carcinoma	30463-30464		
hepatic, destruction of liver tumours	30419		
Hernia, antireflux operations for	30527, 30529-30530, 43838		
	43841		
Hernia, epigastric or Linea Alba Hernia	43805		
hernia, repair of	30403, 30600-30601, 30609, 30614, 30621		
hernia, repair, age less than 3 months	44108, 44111, 44114		
Hernia, scrotal, large and irreducible, repair of	30640		
Herniated muscle, fascia, deep, repair of	30238		
Hiatus hernia, antireflux operations for	30527, 30529-30530		
Hickman catheter, insertion of, for chemotherapy	34527-34528		
High dose rate brachytherapy	37227		
high energy transurethral microwave thermotherapy	37230		
	37233		
Hindquarter, amputation or disarticulation of	44373		
Hinselmann colposcope, examination uterine cervix	35614		
hip	49303, 49306, 49309, 49312, 49315, 49318-49319, 49321		
	49324, 49327, 49330, 49333, 49346, 49360, 49363, 49366		
Hip, amputation or disarticulation at	44370		
Hirschsprung's disease, colostomy/enterostomy for	30375		
Home, dialysis	13104		
Hormone implantation, by cannula	14206		
hormone or living tissue	14203, 14206		
humerus	48412, 48415		
Humerus, bone graft to	48212, 48215		
Hummelsheim type muscle transplant, squint	42848		
Hydatid cyst, liver, total excision of	30437-30438		
hydatid cyst, removal of contents of	30434, 30436		
hydatid cyst, total excision of	30437-30438		
hydatid cysts of lung	38424		
hydatid cysts, enucleation of	38424		
hydatid, liver, treatment of	30434, 30436-30438		
hydatid, lungs, enucleation of	38424		
Hydradenitis, excision for	31245		
Hydrocele, infantile, repair of	30614		
Hydrocortisone, injections into keloid with GA	30210		
Hydrodilatation of bladder with cystoscopy	36827		
Hydrotubation of Fallopian tubes	35703, 35709		
Hymenectomy	35509		
Hyperbaric oxygen therapy	13020, 13025, 13030		
Hyperemesis gravidarum, treatment of	16505		
Hyperextension deformity of toe, release, lengthening	50345		
hyperextension deformity, release, lengthening	50345		
Hyperhidrosis, axillary, excision for	30180, 30183		
Hyperparathyroidism, operations for	30315, 30317-30318		
	30320		
hyperplasia, congenital, vaginoplasty for	37851		
Hyperplasia, papillary, of palate, removal of	45831, 45833		
	45835		
Hypertelorism, correction, intra/sub-cranial	45767, 45770		
Hypertension, portal, treatment of	30602-30603, 30605-30606		
hypertrophic obstructive cardiomyopathy	38650		
Hypertrophied tissue, removal of	45801, 45803, 45805, 45807		
Hypospadias, examination under GA	37815-37816, 37819, 37822		
	37825, 37828		
Hypothenar spaces of hand, drainage of	46519		
Hysterectomy	35653, 35657-35658, 35661, 35664, 35667, 35670		
	35673		
hysterectomy	35657, 35673		
Hysteroscopic resection of myoma or uterine septum	35623		
	35634		
Hysteroscopy	35626-35627, 35630, 35633-35636		
Hysterotomy	35649		
I			
IGRT	15715		
Ileal atresia, neonatal, laparotomy for	43816		
Ileo-femoral by-pass grafting	32712, 32718		
ileo-rectal, with total colectomy	32012		
Ileorectal anastomosis	32012		
Ileostomy	30639, 32009, 32012, 32015, 32018, 32021		
ileostomy closure/reservoir	32060, 32063, 32066, 32069		
Iliac endarterectomy	33518		
Iliac vessel, ligation or exploration not otherwise covered	34103		
Iliopsoas tendon transfer to greater trochanter	50387		
iliopsoas tendon transfer to greater trochanter	50387		
impalpable, exploration of groin	37812		
Implanon, removal of	30062		
Implant, cochlear, insertion of	41617		
implant, contour reconstruction, insertion	45051		
implant, enucleation of eye	42506, 42509		
implant, evisceration of eye and insertion of	42515		
implant, removal of	39136		
implantable bone conduction hearing system	41603-41604		
Implantable Cardioverter Defibrillator	38371, 38384, 38387		
implantation of Fallopian tubes into	35694, 35697		
implantation, direct, incision and suture	14203		
Implantation, fallopian tubes into uterus	35694, 35697		
implanted drug delivery system	14227		
Impotence, injection for investigation/treatment	37415		

IMRT	15275, 15555, 15565	intact wall technique, with myringoplasty	41551, 41554
in ano, subcutaneous, excision of	32156	Intensive care management/procedures	13815, 13818, 13830
in conjunction with Caesarean section	35691	13839, 13842, 13848, 13851, 13854, 13857, 13870, 13873	
in hospital	13100, 13103	13876, 13881-13882, 13885, 13888	
in oral & maxillofacial, complicated, removal	45811	intensive care unit (specialist)	13870, 13873
45813		Intercostal drain, insertion of	38806, 38809
in oral & maxillofacial, uncomplicated, removal of	45801	Internal auditory meatus, exploration of	41599
45803, 45805, 45807, 45809		internal auditory, exploration of	41599
in oral and maxillofacial region	45801, 45803, 45805	internal radiation therapy	35404, 35406, 35408
45807		interosseous muscle space of hand	47981
in relation to eye	42734	Interosseous muscle space of hand, fasciotomy of	47981
in situ in drum, removal of	41500	Interphalangeal joint, arthrodesis of	46300
Incidental appendectomy	30574	interruption, repair of	38712
incision and drainage, without GA	30219	Interscapulothoracic amputation or disarticulation	44334
incision of palate	41787	Interventional endovascular procedures	35300, 35303
incision/resection, external sphincter/bladder neck	36854	35306-35307, 35309, 35312, 35315, 35317, 35319-35321	
Incisional hernia, repair of	30403	35324, 35327, 35330, 35414, 38306	
incisions for astigmatism	42672	Intestinal conduit or reservoir, endoscopic examination	36860
Incomplete confinement	16518	intestinal remnant, abdominal wall, excision of	43942
incomplete, curettage for	35640	intestine, resection of	30565-30566
Incontinence, anal, Parks' intersphincteric procedure	32126	intestine, subtotal colectomy	32004-32005
incontinence, Parks' procedure	32126	into angioma (restriction applies)	45027
indirect	45227, 45230, 45233, 45236	into prostate	37218
Indirect flap	45227, 45230, 45233, 45236, 45239	into spinal joints or nerves	39013
Indwelling oesophageal tube, gastrostomy for fixation	30375	Intra-abdominal artery/vein, cannulation, chemotherapy	34521
Infantile hydrocele, repair of	30614	intra-abdominal vessel, for chemotherapy	34521
Infection, acute intercurrent, complicating pregnancy	16508	intra-abdominal, cannulation, infusion chemotherapy	34521
infection, drainage of via burr-hole	39900	Intra-anal abscess, drainage of	32174-32175
Inferior vena cava, thrombectomy	33810-33811	Intra-aortic balloon, counterpulsation, management	13848
Inflammation of middle ear, operation for	41626	Intra-arterial cannulisation for blood collection	13842
Infliximab	14245	intra-arterial, sympatholytic agent	14209
infusion, cannulation for	34521, 34524	Intra-atrial baffle, insertion of	38745
infusion, of sympatholytic agent	14209	Intra-epithelial neoplasia, laser therapy for	35539, 35542
Ingrowing eyelashes, operation for	45626-45627	35545	
ingrowing nail, resection	46528, 46531	Intra-ocular excision of dermoid of eye	42574
ingrowing nail, resection of	46528, 46531	intra-ocular, removal of	42563, 42569
ingrowing, of finger or thumb, resection	46528, 46531	Intra-operative ultrasound, biliary tract	30439
ingrowing, of toe, excision/resection	47915-47916, 47918	Intra-oral tumour, radical excision of	30275
ingrown, of toe, operation under GA, paediatric	44136	intra-oral, radical excision of	30275
ingrown, operation with GA, paediatric	44136	Intra-orbital abscess, drainage of	42572
Inguinal abscess, incision of	30223	intra-orbital, drainage of	42572
inguinal, repair, age less than 3 months	44108, 44111	intra-temporal fossa, removal of	41578
44114		Intracranial abscess, excision of	39903
injection for impotence	37415	intracranial placement	40709, 40712
injection of alcohol	42824	intracranial, burr-hole biopsy or drainage	39703
injection of sclerosant fluid under anaesthesia	30679	intracranial, craniotomy and removal of	39712
injection, peri-urethral	37339	intracranial, excision of	39903
Injections, multiple, for skin lesions	30207	intracranial, for pressure monitoring	13830
Inlay graft, using a mould	45445	intracranial, needling and drainage of	39703
inlay, using a mould	45445	Intrahepatic bypass	30466-30467
Innocent bone tumour, excision of	30241	intranasal operation on	41737
Innominate artery, endarterectomy of	33506	Intranasal operation on antrum/removal of foreign body	41716
insemination services	13203, 13209, 13221	intranasal, operation on	41716
insertion of	41632	intraocular, repositioning of	42713
insertion of nasogastric/nasoenteral tube	31456, 31458	intraoperative blood transfusion	16612, 16615
insertion of patches for	38390	Intrascleral ball or cartilage, insertion of	42515
insertion of, for drainage of middle ear	41632	Intrathecal infusion device, revision of	39133
insertion or removal from eye socket	42518	intrathoracic	20500, 20520, 20522, 20524, 20526, 20528
insertion, transluminal	35306-35307, 35309	20540, 20542, 20546, 20548, 20560	
insertion, transluminal, rotational atherectomy	38312	Intrathoracic operation on heart, lungs, etc, other	38456
38318		intrathoracic operation on, not otherwise covered	38456
Insufflation Fallopian tubes, for patency (Rubin test)	35706	intrathoracic operation, not otherwise covered	38456

intrathoracic, congenital heart disease 38727, 38730  
 Intrauterine contraceptive device, introduction of 35503  
 intravascular blood transfusion 16609  
 Intraventricular baffle, insertion of 38754  
 intubation 30488  
 intubation, gastro-oesophageal 13506  
 Intubation, small bowel 30488  
 Intussusception, reduction of 30375  
 inverted, surgical eversion of 31563  
 Invitro fertilisation 13200, 13203, 13206, 13209, 13212  
 13215, 13218, 13221  
 involving ciliary body an/or iris, excision of 42767  
 involving division of adhesions 38643, 38647  
 involving gynaecology (exc. hysterectomy) 35713, 35717  
 involving procedures via laparoscope 35637-35638  
 ionisation of 35608  
 Ionisation, cervix 35608  
 Iridectomy 42764  
 iridectomy and sclerectomy for 42746  
 iridectomy or iridotomy 42764  
 Iridencleisis 42746  
 Iridocyclectomy 42767  
 Iridotomy 42764  
 iridotomy 42785  
 iridotomy, laser 42785  
 Iris and ciliary body, excision of tumour of 42767  
 iris tumour, laser photocoagulation 42806  
 iris, excision of 42764  
 Ischaemic limb, debridement of deep tissue 35100  
 ischaemic, debridement of tissue 35100, 35103  
 Ischio-rectal abscess, drainage of 32174-32175  
 ischio-rectal, drainage of 32174-32175  
 island flap, with vascular pedicle 45563

## J

Jaw, dislocation, treatment of 47000  
 Jejunal atresia, bowel resection and anastomosis 43810  
 Jejunostomy, operative feeding 31462  
 joint disruption, treatment of 47513  
 Joint, application of external fixator, not for fracture 50130  
 joint, arthroplasty 46306-46307, 46309, 46312, 46315  
 46318, 46321  
 joint, arthrotomy 46327, 46330  
 joint, arthrotomy of 46327, 46330  
 joint, dislocation, treatment of 47030, 47033, 47036  
 47039, 47042, 47045  
 joint, distal, reconstruction/stabilisation 46345  
 joint, distal, synovectomy 46342  
 joint, external fixation, application of 45879  
 joint, hemiarthroplasty 46309, 46312, 46315, 46318, 46321  
 joint, interposition arthroplasty of 46306  
 joint, irrigation of 45865  
 joint, joint capsule release of 46381  
 joint, ligamentous repair 46333  
 joint, ligamentous repair of 46333  
 joint, Lisfranc's amputation of 44364  
 joint, manipulation of 45851  
 joint, open surgical exploration of 45861, 45863, 45865  
 45867, 45869, 45871, 45873  
 joint, other 50100, 50102-50103, 50109, 50127  
 joint, synovectomy of 46342

joint, synovectomy/capsulectomy/debridement 46336  
 joint, total replacement arthroplasty of 46309, 46312  
 46315, 46318, 46321  
 joint, total replacement of 49857  
 joint, volar plate arthroplasty 46307  
 juice, collection of 30488  
 Juvenile cataract, removal of 42716  
 juxtasceral Depot injection 42741

## K

Keratotomy, partial, for corneal scars 42647  
 Keratoplasty 42653, 42656  
 keratoplasty, epithelial debridement for 42651  
 Keratosis, obturans, surgical removal 41509  
 Kidney, dialysis, in hospital 13100, 13103  
 kidney, removal from 36558  
 kidney, removal of 36543  
 Kirschner wire, insertion of 47921  
 knee 49500, 49509, 49512, 49517-49519, 49521, 49524, 49527  
 49530, 49533-49534, 49545, 49557-49564, 49566  
 knee & popliteal area 21300, 21321, 21340, 21360, 21380  
 21382, 21390, 21392, 21400, 21402-21404, 21420, 21430  
 21432, 21440  
 Knee, amputation at or below 44367  
 knee, removal of 49515

## L

Labyrinth, destruction of 41572  
 Labyrinthotomy 41572  
 Laceration, ear/eyelid/nose/lip, full thickness, repair 30052  
 lacerations not involving sclera 30032  
 Lacrimal canalicular system, establishment patency 42599  
 42602  
 lacrimal, excision of palpebral lobe 42593  
 Lagrange's operation (iridectomy and sclerectomy) 42746  
 Laminectomy and insertion of epidural implant 39139  
 Laparoscopic division of adhesions 31450, 31452, 35637  
 laparoscopic 30391, 31470, 35638  
 Laparoscopic resection of 35641  
 laparoscopically assisted 35750, 35753-35754, 35756  
 laparoscopically assisted hysterectomy 35750, 35753-35754  
 35756  
 Laparoscopy and hysteroscopy under GA 35636  
 laparoscopy, complicated 35641  
 Laparoscopy, diagnostic 30627  
 Laparostomy 30397, 30399  
 Laparotomy and division of adhesions 30376, 30378-30379  
 30623, 30626  
 laparotomy for drainage of 30394  
 Large intestine, resection of 32000, 32003  
 large loop excision 35647-35648  
 large, excision of 30111  
 large, incision and drainage, with GA 30223  
 large, resection of 32000, 32003  
 large, subtotal colectomy 32004-32005  
 Laryngeal web, division of 41868  
 Laryngectomy 41834  
 Laryngofissure, external operation on 41876  
 Laryngopharyngectomy 41843  
 Laryngoplasty 41876, 41879

laser	30191, 42785	Liposuction, for post-traumatic pseudolipoma	45584-45585
laser ablation of prostate	37207-37208	Lippe's loop, introduction of	35503
laser angioplasty	35315	Lisfranc's amputation	44364
laser photocoagulation	42806	Litholapaxy, with or without cystoscopy	36863
laser therapy (restriction applies)	35539, 35542, 35545	Lithotripsy, extracorporeal shock wave (ESWL)	36546
laser therapy for intraepithelial neoplasia	35539, 35542	Little's Area, cautery of	41674
35545		liver	30409, 30411
laser therapy of gastrointestinal tract	30479	Liver abscess, open abdominal drainage of	30431, 30433
laser therapy, intraepithelial neoplasia	35539, 35542	liver biopsy	30409
35545		liver, destruction of by cryotherapy	30419
Laser: ablation of prostate, endoscopic	37206-37208	liver, laparoscopic marsupialisation	30416-30417
Lateral pharyngeal bands, removal of	41804	liver, open abdominal drainage of	30431
Lavage and proof puncture of maxillary antrum	41698, 41701	liver, other than for trauma	30418, 30421
lavage, total, intra-operative	32186	Living tissue, implantation of	14203, 14206
Le Fort osteotomies	45753-45754	living, implantation of	14203, 14206
leaflet/s, aortic, decalcification of	38483	Lobar emphysema, neonatal, thoracotomy & lung resection	43861
left ventricular, plication of	38506	lobe of lacrimal gland, excision of	42593
left ventricular, resection	38507-38508	lobectomy of, for trauma	30428, 30430
Leg, amputation	44367, 44370	lobectomy of, other than for trauma	30418, 30421
leg, lower (below knee)	21460-21462, 21464, 21472, 21474	Lobectomy, liver, for trauma	30428, 30430
21480, 21482, 21484, 21486, 21490, 21500, 21502, 21520		local excision for tumour	30559
21522, 21530, 21532		loop, removal of under GA	35506
leg, upper (except knee)	21195, 21199-21200, 21202, 21210	Lop ear or similar deformity, correction of	45659
21212, 21214, 21216, 21220, 21230, 21232, 21234, 21260		lop, bat or similar deformity, correction of	45659
21270, 21272, 21274-21275, 21280		Lord's procedure, massive dilatation of anus	32153
lengthening by translocation of corpora	37423	lower, congenital deficiency, treatment of	50411, 50414
lengthening procedures	50303, 50306	50417	
Lens, artificial, insertion of	42701, 42703	Lumbar cerebrospinal fluid drain, insertion of	40018
lens, insertion of	42701	Lunate bone, osteectomy or osteotomy of	48406
lens, removal of	42704	lung	38438, 38441
lens, removal, replacement different lens	42707	lung, percutaneous needle	38812
lens, repositioning of, open operation	42704	lymph gland, muscle, other deep tissue/organ	30075
Lensectomy	42731	Lymph glands, axilla, excision of	30332, 30335-30336
lesion, pre-op localisation, imaging guided	31536	lymph glands, excision of	35551, 35664, 35670
lesion/s, removal, diaphyseal aclasia	50426	lymph node biopsies	35723
lesions, multiple injections for	30207	lymph node dissection	37607, 37610
Lesions, skin, multiple injections for	30207	lymph node of neck	31420
lesions, treatment of	30192	lymph nodes, excision of	30335-30336
Leveen shunt, insertion of	30408	lymph, biopsy of	30075
Lid, ophthalmic, suturing of	42584	lymph, drill biopsy of	30078
ligament or tendon transfer	49503, 49506	lymph, pelvic, excision of	35551
Ligament, finger joint, repair of	46333	lymph, pelvic, excision of, with hysterectomy	35664
ligament, transverse, division of	39331	Lymphadenectomy, atypical mycobacterial infection	44130
ligamentous stabilisation of	49103, 49709	Lymphangiectasis, limbs, major excision	45048
ligation of maxillary artery	41707	Lymphangioma, excision of	45030, 45033, 45035-45036
ligation or exploration not otherwise covered	34106	Lymphoedema, major excision of	45048
Ligation, great vessel	34103	Lymphoid patches, removal of	45801, 45803, 45805, 45807
ligation/exploration not otherwise covered	34106	45809	
Ligature of cervix, purse string, removal of	16512		
light coagulation for	42782	<b>M</b>	
limb, debridement of superficial tissue	35103	Macrocheilia, operation for	45675
Limb, fasciotomy of	30226	Macroductyly, surgical reduction of enlarged elements	46510
Limbic tumour, removal or excision of	42692, 42695	Macroglossia, operation for	45675
limbic, removal of	42692	Macrostomia, operation for	45676
line for blood pressure monitoring	13876	major artery, replacement/repair	33050, 33055, 33070
Lingual tonsil, removal of	41804	33075, 33080, 33100, 33103, 33109, 33112, 33115-33116	
Lip, cleft, operations for	45677, 45680, 45683, 45686, 45689	33118-33119, 33121, 33124, 33127, 33130, 33133, 33136	
45692, 45695, 45698, 45701, 45704		33139, 33142, 33145, 33148, 33151, 33154, 33157, 33160	
Lipectomy, circumferential	30179	33163, 33166, 33169, 33172, 33175, 33178, 33181	
Lipectomy, radical abdominoplasty	30176-30177	major tendon repair	49718
lipoma, liposuction or surgical removal of	31345	major, of neck, ligation/exploration, other	34100
Lipomeningocele, tethered cord, release of	40112		

major, repair of wound of	33815, 33818, 33821, 33824 33827, 33830, 33833, 33836, 33839		mediastinal, removal by thoracotomy or sternotomy	38446
male urinary, injection for treatment of		37339	Mediastinum, cervical exploration of	38448
malformation, excision of	45039, 45042, 45045		Meibomian cyst, extirpation of	42575
malformation, intracranial, excision of		39803	Melasma, full face chemical peel	45019
malformation, neonatal, laparotomy and colostomy		43822	Meloplasty, for correction of facial asymmetry	45587-45588
malformation, paediatric, operations	43960, 43963, 43966		membrane, cancer, treatment	30196, 30202
malignancy, radical or debulking operation		30392	membrane, graft	42641
malignant of soft tissue, removal of		31355	membrane, micro-inspection with ear toilet	41647
malignant tumour		31509, 31512	membrane, punch biopsy of	30087
malignant upper aerodigestive tract	31400, 31403, 31406		membrane, repair of recent wound	30026, 30029, 30032 30035, 30038, 30042, 30045, 30049
Malignant upper aerodigestive tract tumour	31400, 31403 31406		Membranes, retained, evacuation of	16564
malignant, bone, operations for	50200-50201, 50203, 50206 50209, 50212, 50215, 50218, 50221, 50224, 50227, 50230 50233, 50236, 50239		membranes, threatened premature labour	16508
Mallet finger, closed pin fixation of		46438	meniscectomy	45755
mallet, fixation/repair		46438, 46441	meniscectomy of	49503, 49506
malrotation, neonatal, laparotomy for		43801, 43804	Meniscectomy, knee	49503, 49506
mammoplasty	45524, 45527-45528		Mesenteric artery, inferior, operation on	32736
Mammoplasty, augmentation	45524, 45527-45528		Meso caval shunt for portal hypertension	30603
Mammary prosthesis, removal of		45548, 45551	Metacarpal bones, amputation of	44325
management fluid/gas reduction for		14212	metacarpal, operation for	46462
Manchester operation for genital prolapse		35577	Metacarpophalangeal joint, arthrodesis	46300
mandible or maxilla	45720, 45723, 45726, 45729 45731-45732, 45735, 45738, 45741, 45744, 45747, 45752		Metacarpus, operation on, for chronic osteomyelitis	43512
Mandible, condylectomy		45611	metastases, selective internal radiation therapy for	35406, 35408
mandible, segmental resection for		45605	metatarsal	48400, 48403
mandibular or palatal		45825	Metatarsal bones, osteotomy or osteectomy of	48400, 48403
Mandibular, frenulum, repair of, under GA		30281	metatarso-phalangeal joint, replacement of	49857
manipulation of		50115	Metatarso-phalangeal joint, synovectomy of	49860, 49863
marrow, administration of		13706	metatarso-phalangeal joint, synovectomy of	49860, 49863
marrow, aspiration biopsy of		30087	Metatarsus, amputation or disarticulation of	44358
marrow, harvesting of for transplantation		13700	Micro-arterial graft	45503
marrow, in vitro processing/cryopreservation		13760	micro-arterial or micro-venous	45503
Marshall-Marchetti operation for urethropexy	35599, 37044		microdochotomy	31554
Marshall-Marchetti, urethropexy	35599, 37044		Microdochotomy of breast, benign or malignant condition	31554
Marsupialisation of Bartholin's cyst or gland		35517	Microdaryngoscopy	41855
Mastitis, granulomatous, exploration and drainage		31551	microdaryngoscopy with removal of	41864
Mastoid cavity, obliteration of	41548, 41564		Microsomia, construction of condyle and ramus	45791
Mastoidectomy, cortical		41545	Microvascular anastomosis using microsurgical techniques	45502
Maxilla, operation on, for acute osteomyelitis		43503	microvascular, in plastic surgery	45502
maxillary antrum		41704	Microvenous graft	45503
Maxillary antrum, lavage of		41704	Middle ear, clearance of	41635, 41638
maxillary sinus, removal of		41716	middle ear, operation for	41626
maxillary, drainage of, through tooth socket		41719	middle or proximal, for osteomyelitis	46462
maxillary, lavage of		41704	middle palmar/thenar/hypothenar spaces, drainage	46519
maxillary, proof puncture, lavage	41698, 41701		middle, clearance of	41635, 41638
maxillary, transantral ligation of		41707	middle, exploration of	41629
Meatoplasty, with correction of auditory canal stenosis	41521		middle, insertion of tube for drainage of	41632
meatotomy		36830	middle, operation for abscess or inflammation of midfacial	41626 45753-45754
meatotomy and hemi-circumcision		37354	Midtarsal amputation of foot	44364
Meatotomy and hemi-circumcision, hypospadias		37354	Miles' operation	32039
Meatus, external auditory, removal of exostoses in		41518	Minitracheostomy insertion	41884
meatus, external, removal of exostoses in		41518	Minnesota tube, insertion of	13506
meatus, internal, exploration		41599	miscarriage, purse string ligation of cervix	16511
Meckel's diverticulum, removal of		30375	miscarriage, treatment of	16505
Meckel's, removal of		30375	Mitral annulus, reconstruction after decalcification	38485
Meconium ileus, laparotomy for	43813, 43816		mitral annulus, reconstruction after decalcification	38485
Medial palpebral ligament, ruptured, repair of		42854	mitral, open valvotomy of	38487
Median bar, endoscopic resection of		36854	Mitrofanoff continent valve, formation of	37045
median, for post-operative bleeding		38656	mobilisation, for post-traumatic stiffness	49569
			Moh's procedure	31000-31005
			Molluscum contagiosum, removal in operating theatre	30189

Molteno valve, insertion of 42752  
Molteno valve, removal of 42755  
monitoring, intravascular 13876  
mucous membrane 30072  
mucous, of mouth, removal 30283  
multiple, attendance other than routine antenatal 16502  
Multiple, injections for varicose veins 32500  
muscle 30226  
muscle, repair of 30232, 30235  
muscle/deep tissue, removal of 30068  
musculature transfer to greater trochanter 50387  
Myelotomy, laminectomy for 39124  
Mylohyoid ridge, reduction of 45827  
Myocardial electrode, permanent, insertion, thoracotomy 38470  
myocardial, by cardiac catheterisation 38275  
myocardial, permanent, insertion, thoracotomy 38470  
Myocutaneous flap, delay of 45015  
myocutaneous, delay of 45015  
myocutaneous, for breast reconstruction 45530  
Myoma, hysteroscopic resection 35623  
myomectomy 35649, 38763  
Myomectomy, hypertrophic obstructive cardiomyopathy 38650  
Myotomy, cricopharyngeal 41770, 41776  
Myringoplasty 41527, 41530  
Myringotomy 41626

## N

Nail bed, exploration and repair of deformity 46489  
nail of finger or thumb, resection of 46528, 46531  
nail of toe, resection of 47915-47916  
Nasal adhesions, division of 41683  
nasal, arrest of 41656, 41677  
nasal, cauterisation/diathermy 41674  
nasal, division of 41683  
nasal, excision of 41729  
nasal, for arrest of haemorrhage 41677  
nasal, reconstruction of 41672  
nasal, removal of 41662, 41668  
nasal, septoplasty or submucous resection 41671  
Nasendoscopy 41764  
Naso-lacrimal tube, replacement of 42610-42611, 42614-42615  
Nasopharyngeal angiofibroma, transpalatal removal 41767  
nasopharyngeal, removal 41767  
Nasopharynx, fiberoptic examination of 41764  
neck 20300, 20305, 20320-20321, 20330, 20350, 20352  
neck reconstruction, prostatectomy 37210-37211  
neck resection, endoscopic 36854  
Neck, deep-seated haemangioma, excision of 45036  
neck, reoperation for bleeding/thrombosis 33842  
necrosectomy 30577  
Necrosectomy, pancreatic 30577  
Necrotic material, debridement of 35100, 35103  
necrotising stricture, bowel resection 43834  
needle biopsy of 38812  
needle biopsy of lung 38812  
Needling of cataract 42734  
needling of encysted bleb 42744  
Neonatal alimentary obstruction, laparotomy for 43825  
neonatal, repair of 30387  
Neoplasia, intraepithelial, laser therapy 35539, 35542  
35545

Nephrectomy 36516, 36519, 36522, 36525, 36528-36529  
Nephro-ureterectomy, complete, with bladder repair 36531  
Nephroblastoma, operations for 43981, 43984  
Nephrolithotomy 36543  
Nephroscopy 36627, 36633, 36636, 36639, 36645  
Nephrostomy 36552  
nerve 39315, 39318  
Nerve block, regional or field 18213, 18216, 18219, 18222  
18225-18228, 18230, 18232-18234, 18236, 18238, 18240  
18242, 18244, 18248, 18250, 18252, 18254, 18256, 18258  
18260, 18262, 18264, 18266, 18268, 18270, 18272, 18274  
18276, 18278, 18280, 18282, 18284, 18286, 18288, 18290  
18292, 18294, 18296, 18298  
nerve meninges, incision of 42548  
nerve palsy, excision of tissue for 45581  
nerve paralysis, plastic operation for 45575, 45578  
nerve section, translabyrinthine 41593  
nerve stimulation for faecal incontinence 32213-32218  
nerve, injection with alcohol, cortisone etc 39100  
nerve, nerve graft to 39318  
nerve, neurectomy/neuromyotomy/tumour 39324, 39327  
nerve, repair of 39300, 39303  
nerves, injection into 39013  
nerves, percutaneous neurotomy 39115  
neurectomy for plantar digital neuritis 49866  
Neurectomy, foot, for plantar digital neuritis 49866  
Neuroblastoma, operations for 43981, 43984, 43987  
neuroendocrine tumour, removal of 30323  
Neuroendocrine tumour, retroperitoneal, removal of 30323  
neuroendocrine, removal of 30323  
Neurolysis, by open operation 39330  
Neuroma, acoustic, removal of 41575-41576, 41578-41579  
Neurostimulator receiver, spinal, subcutaneous placement 39134  
neurostimulator receiver, subcutaneous placement 39134  
neurotomy for facet joint denervation 39118  
neurotomy of peripheral nerves 39323  
neurotomy of spinal nerves 39115  
Neurotomy, of peripheral nerves 39327  
neurovascular island 45563, 46504  
Neurovascular island flap, for pulp innervation 46504  
Nipple, accessory, excision of 31566  
nipple, accessory, excision of 31566  
Noble type intestinal plication with enterolysis 30375  
node biopsies, retroperitoneal 35723  
node dissection, retroperitoneal 37607, 37610  
node of neck, biopsy of 31420  
Node, lymph, biopsy of 30075  
nodes of axilla, excision of 30335-30336  
nodes of neck, dissection of 31423, 31426, 31429, 31432  
31435, 31438  
Nodes, lymph, pelvic, excision of 35551  
Non-gravid uterus, suction curettage of 35640  
Nose, cauterisation or packing, for haemorrhage 41677  
nose, removal of 41659  
not otherwise covered, removal of (OMS) 45801, 45803  
45805, 45807, 45809  
obliteration of 41564  
obstruction, neonatal, laparotomy for 43825  
obstruction, surgical relief of 30387

## O

Ocular muscle, torn, repair of	42854	operation for chronic osteomyelitis	43512
ocular muscles	42833, 42839, 42851	operation for genital prolapse	35578
oesophageal atresia, neonatal	43855	operation for osteomyelitis	43506, 43515
Oesophageal atresia, neonatal, operations for	43843, 43846	operation for priapism	37393
oesophageal, insertion of	30490	operation on frontal sinus or ethmoid sinuses	41737
Oesophagectomy	30535-30536, 30538-30539, 30541-30542	operation on sphenoidal sinus	41752
30544-30545, 30547-30548, 30550-30551, 30553-30554		operation on, acute osteomyelitis	43503, 46462
30556-30557		operation on, chronic osteomyelitis	43512, 46462
oesophagectomy	30294	operation on, for acute osteomyelitis	43500, 43503, 43509
oesophagogastric (Heller's operation)	30532-30533	operation on, for chronic osteomyelitis	43512, 43518
Oesophagogastric myotomy	30532-30533	45815	
Oesophagoscopy	30473, 30475, 30478	operation on, for osteomyelitis	43503, 43506, 43512, 43515
Oesophagostomy, cervical	30293-30294	operations for, in oral and maxillofacial region	45815
oesophagostomy, closure or plastic repair of	30293	45817	
oesophagus, removal of	41825	operations on	30663, 30666
Oesophagus, resection of stricture, paediatric	43906	operations, other	41659, 41662, 41668, 41671-41672, 41674
of Arnold-Chiari malformation	40106	41677, 41683, 41686, 41689, 41692	
of artery or vein	33803, 33806, 33812	Operative arteriography or venography	35200
of bladder, closure	37050	Ophthalmological examination under GA	42503
of bladder, needle	37041	optical, for urethral stricture	37327
of bladder, repair of	37842	or chest, decompression escharotomy	45054
of elbow	49109	or mandible, fractures, treatment of	47753, 47756, 47762
of facial nerve, mastoid portion	41569	47765, 47768, 47771, 47774, 47777, 47780, 47783, 47786	
of finger joints	46336	47789	
of foot, repair of	49812	or maxilla, fractures, treatment of	47753, 47756, 47762
of haematoma	30216	47765, 47768, 47771, 47774, 47777, 47780, 47783, 47786	
of hand tendons	46336, 46342	47789	
of hand, incision for	46525	or median sternotomy for post-operative bleeding	38656
of joint, not otherwise covered	50104	or palatal exostosis, excision of	45825
of joints	50115	or pump, loading of	14218
of limb or organ	22055	or ray, transposition/transfer, vascular pedicle	46507
of mandible	45611	or tendon transfer	47966
of metatarso-phalangeal joint	49860, 49863	or tonsils and adenoids	41797
of neck, deep-seated, excision of	45036	oral and maxillofacial region	45801, 45803, 45805, 45807
of nerve	39321	Orbit, anophthalmic, insertion of cartilage or implant	42518
of nerve trunk	39312	orbit, insert/remove implant	42518
of Oddi, transduodenal operation on	30458	orbit, placement of motility integrating peg	42518
of peripheral nerves	39323	orbit, removal of implant from socket	42518
of shoulder	48936	Orbital cavity, bone or cartilage graft to	45593
of skin lesions	30189, 30192	orbital, excision of	42574
of tendons of digit	46348, 46351, 46354, 46357, 46360	Orbitotomy	42530, 42533
of thoracic cavity	38800, 38803	Orchidectomy	30641-30642
of tissue, ischaemic limb	35100, 35103	Orchidopexy for undescended testis	37803-37804, 37806-37807
of tympanum	41626	37809-37810	
of xenon arc	42782	orifice, plastic repair to enlarge	35569
Olecranon, excision of bursa of	30111	Oro-antral fistula, plastic closure of	41722
Omentectomy, infra-colic	35726	oro-antral, plastic closure of	41722
on abdominal viscera	30375, 30387	Oro-nasal fistula, plastic closure of	45714
oncology treatment	15211, 15214-15215, 15218, 15221, 15224	Orthopaedic pin or wire, insertion of	47921
15227, 15230, 15233, 15236, 15239, 15242, 15245, 15248		orthopaedic treatment of	48900, 48903, 49503, 49506
15251, 15254, 15257, 15260, 15263, 15266, 15269, 15272		Osseo-integration procedures	45794, 45797, 45847
one or more jaw cysts	45799	Ossicular chain reconstruction	41539, 41542
Oophorectomy, laparoscopic	35638	Osteectomy of accessory bone	48400
open	37200	osteectomy or osteotomy	45720, 45723, 45726, 45729
Open heart surgery, not otherwise covered	38653	45731-45732, 45735, 45738, 45741, 45744, 45747, 45752	
open reduction for congenital dislocation	50408	osteectomy or osteotomy of	45720, 45723, 45726, 45729
open, of mitral valve	38487	45731-45732, 45735, 45738, 45741, 45744, 45747, 45752	
operation (intrathoracic), other	38456	46399, 48400, 48403, 48406, 48409, 48418, 48421	
operation by fundoplasty	31464, 31466	osteectomy/osteotomy	46396, 46399, 48406, 48409, 48412
operation for	42833, 42836, 42839, 42842, 44133	48415, 48424, 48427	
operation for acute osteomyelitis	43500, 43503	osteectomy/osteotomy of	48406, 48409
		Osteomyelitis, acute or chronic, operations for	43500, 43503

43506, 43509, 43512, 43515, 43518, 43521, 43524  
osteomyelitis, acute, operation for 43503  
osteomyelitis, chronic, operation for 43521  
osteomyelitis, craniectomy for 39906  
osteoplasty 49224  
Osteoplasty of knee 49503, 49506  
Osteotomy of accessory bone 48400  
osteotomy or osteectomy of 48424, 48427  
other than face or neck, revision of (restriction) 45515  
45518  
other than laser 42734  
Otitis media, acute, operation for 41626  
outlet compression, removal operation 34139  
Oval window surgery 41615  
Ovarian biopsy by laparoscopy 35637  
ovarian, aspiration of 35518  
ovarian, excision of, with laparotomy 35713, 35717  
ovarian, radical or debulking operation for 35720  
ovaries, operation for 30387  
Ovaries, prolapse, operation for 30387  
Oxycephaly, cranial vault reconstruction for 45785

**P**

Pacemaker electrode, permanent, insertion, sub-xyphoid 38473  
pacemaker, insertion/replacement 38353  
pacemaker, permanent, insertion sub xyphoid 38473  
Pacemaking electrode, temporary transvenous, insertion 38256  
pacemaking electrode, temporary, insertion of 38256  
paediatric, operations for 43933, 43936  
paediatric/neonatal 13306, 13309  
Pain management, implanted drug delivery system 39125-39128  
39130-39131, 39133  
Palatal exostosis, excision of 45825  
Palate, cleft, repair of 45707, 45710, 45713  
palate, correction of 45707, 45710, 45713  
palmar or plantar, removal of 30187  
palmar spaces of hand, drainage of 46519  
Palmar warts, removal of 30187  
Palpebral ligament, medial, ruptured, repair of 42854  
Pancreas, drainage of 30375  
Pancreatectomy 30583, 30593-30594  
Pancreatic abscess, laparotomy and external drainage of 30575  
pancreatic, anastomosis 30586-30587  
pancreatic, laparotomy, external drainage 30575  
Pancreatico-duodenectomy (Whipple's operation) 30584  
Pancreatico-jejunostomy 30589-30590  
Pancreato-cholangiography, endoscopic 30484  
Pancreatography, operative 30439  
Panendoscopy 30473, 30478  
Panhysterectomy 35664  
Pannus, treatment of, with cautery of conjunctiva 42677  
papillary hyperplasia removal of 45831, 45833, 45835  
Papilloma, bladder, transurethral resection 36840, 36845  
Papillomata, juvenile, removal with microlaryngoscopy 41858  
Para-oesophageal, hiatus hernia, repair of 31468  
para-oesophageal, repair of 31468  
paracentesis 30406, 42734  
Paracentesis abdominis 30406  
Paralysis, facial nerve, plastic operations for 45575, 45578  
Parapharyngeal tumour, excision of 31409, 31412  
parapharyngeal, excision of, cervical approach 31409

31412  
Paraphimosis, reduction of under GA 30666  
paraphimosis, reduction of under GA 30666  
Parathyroid operation for hyperparathyroidism 30315  
parathyroid, removal of 30306  
Paretic states, eyebrows, elevation of 42872  
Parks' intersphincteric operation 32126  
Paronychia of foot, incision for 47912  
paronychia of, pulp space infection, incision 47912  
paronychia/pulp space infection, incision for 46525  
Parotid duct, diathermy or dilatation 30262  
parotid gland, removal of 30253  
parotid gland, repair of 30269  
parotid, excision of 30251  
parotid, superficial lobectomy/tumour removal 30253  
parotid, total extirpation of 30247, 30250  
Parovarian cyst, removal of 35713, 35717  
parovarian, excision of, with laparotomy 35713, 35717  
partial amputation of 37402  
partial excision of 37438  
partial or complete removal of 35560  
partial, for epilepsy 40703  
passages, obstruction, probing for 42610-42611  
42614-42615  
Patch angioplasty for vein stenosis 34815  
patch grafting to 33545, 33548  
patch, to artery or vein 33545, 33548  
Patella, bursa, excision of 30111  
Patellar bursa, excision of 30111  
Patellectomy 49503, 49506  
Patello-femoral stabilisation 49503, 49506, 49564  
patello-femoral stabilisation 49503, 49506, 49564  
patello-femoral stabilisation, revision of 49548  
Patent diseased coronary bypass vein graft, dissection 38637  
Patent ductus arteriosus, transcatheter closure 38273  
Patent Urachus 37801  
Pectus carinatum, repair or radical correction 38457  
Pedicle, tubed, or indirect flap 45230  
Pelvi-ureteric junction, plastic procedures to 36564  
pelvic 35551, 36502  
Pelvic abscess, drainage via rectum or vagina 30223  
pelvic bone 48424  
Pelvic lymphadenectomy 36502, 37211  
pelvic, drainage of 30387  
pelvic, laparotomy for drainage of 30394  
pelvic, operation involving laparotomy 30387  
pelvis 48427  
pelvis (except hip) 21100, 21110, 21112, 21114, 21116  
21120, 21130, 21140, 21150, 21155, 21160, 21170  
Pelvis, bone graft/shelf procedure, acetabular dysplasia 50393  
pelvis, brush biopsy of, with cystoscopy 36821  
penile or urethral, cystoscopy for treatment of 36815  
Penile warts, cystoscopy for treatment of 36815  
penis erection test with examination 37815  
Penis, amputation of 37402, 37405  
Penis, circumcision of 30654, 30658  
Peptic ulcer, bleeding, control of 30505-30506, 30508-30509  
peptic ulcer, suture of 30375  
peptic, bleeding, control of 30505-30506, 30508-30509  
peptic, perforated, suture of 30375  
Per anal release, rectal stricture 32114  
percutaneous 39121

Percutaneous aspiration biopsy of deep organ	30094	30378-30379	
percutaneous aspiration, deep organ	30094	peritoneal, for dialysis	13109-13110
percutaneous endoscopic	30481-30482	Peritoneo venous (Leveen) shunt, insertion of	30408
percutaneous technique, sequential dilation, partial splitting		Peritonitis, laparotomy for	30394
method	41880	Peritonsillar abscess, incision of	41807
percutaneous tenotomy of	46456	peritonsillar, incision of	41807
percutaneous transluminal angioplasty with stenting	35307	Periurethral injection for urinary incontinence	37339
percutaneous tube, jejunal extension	31460	permanent, insertion or replacement	38353
percutaneous, for facet joint denervation	39118	Perthes, hips or knees, application of cast under GA	50390
percutaneous, of finger	46456	Petro-clival and clival tumour, removal of	39654, 39656
percutaneous, of spinal nerves	39115	Peyronie's plaque, operation for	37417
percutaneous, using interventional imaging	36624	Phalanges, amputation/splitting, congenital abnormalities	50396
Perforated duodenal ulcer, suture of	30375	phalanx	48400, 48403
Perforating wound of eyeball, repair of	42551, 42554, 42557	phalanx of, operation for acute osteomyelitis	43500
perforation of tympanum	41641	Phalanx, bone grafting of, for pseudarthrosis	46402, 46405
perforation, closure of	41671	phalanx, operation for	46459, 46462
perforation, repair of, by thoracotomy	30560	pharyngeal, for velo-pharyngeal incompetence	45716
perforations, sealing of	42635	pharyngeal, removal of	41813
perfusion of	22055, 34533	Pharyngectomy, partial	41782, 41785
perfusion of a sympatheolytic agent	14209	Pharyngoplasty	45716
Perfusion of donor kidney, continuous	22055	pharyngotomy	41779
perfusion, modifiers	25000, 25005, 25010, 25020, 25050	Pharyngotomy (lateral)	41779
perfusion, retrograde, cannulation for	38577	photocoagulation of	42809
perfusion, time	23010, 23091, 23101, 23111-23119, 23121	photocoagulation of iris tumour	42806
23170, 23180, 23190, 23200, 23210, 23220, 23230, 23240		photocoagulation of vascular lesions	14100, 14106, 14115
23250, 23260, 23270, 23280, 23290, 23300, 23310, 23320		14118, 14124	
23330, 23340, 23350, 23360, 23370, 23380, 23390, 23400		Photoocoagulation, laser, vascular lesions	14100, 14106
23410, 23420, 23430, 23440, 23450, 23460, 23470, 23480		14115, 14118, 14124	
23490, 23500, 23510, 23520, 23530, 23540, 23550, 23560		photoiridosyneresis	42808
23570, 23580, 23590, 23600, 23610, 23620, 23630, 23640		Photoiridosyneresis, laser	42808
23650, 23660, 23670, 23680, 23690, 23700, 23710, 23720		photomydriasis	42807
23730, 23740, 23750, 23760, 23770, 23780, 23790, 23800		Photomydriasis, laser	42807
23810, 23820, 23830, 23840, 23850, 23860, 23870, 23880		phototherapeutic	42810
23890, 23900, 23910, 23920, 23930, 23940, 23950, 23960		phototherapeutic keratectomy, laser	42810
23970, 23980, 23990, 24100-24136		Phototherapeutic, keratectomy	42810
perfusion, whole body, cardiac bypass	22060	Pigeon chest, correction of	38457
Perianal abscess, drainage of	32174-32175	Pilonidal cyst or sinus, excision of	30676
Pericardectomy	38447, 38449	pilonidal, excision of	30676
Pericardium, drainage of, sub-xyphoid	38452	pin or screw, buried, removal of	47924, 47927
Perineal anoplasty, ano-rectal malformation	43960	pin or wire, insertion of	47921
perineal proctectomy	32047	Pin, orthopaedic, insertion of	47921
perineal resection of	32047	Pinealoma, craniotomy for removal of	39712
perineal, for rectal prolapse	32112	Pinguecula, removal of	42689
Perineorrhaphy	35571	pinguecula, surgical excision	42689
Perinephric abscess, drainage of	36537	Pinhole urinary meatus, dilatation of	37300
perineum	20900, 20902, 20904-20906, 20910-20912, 20914	pinhole urinary, dilatation of	37300
20916, 20920, 20924, 20926, 20928, 20930, 20932, 20934		Pirogoff's amputation of foot	44361
20936, 20938, 20940, 20942-20944, 20946, 20948, 20950		Pituitary tumour, removal of	39715
20952, 20954, 20956, 20958, 20960		pituitary, hypophysectomy or removal of	39715
Periorbital correction of Treacher Collins Syndrome	45773	Placement of catheters	38220, 38222, 38243
periorbital, excision of	42573, 42576	placement of catheters and injection of opaque material	38243
peripheral arterial	35317, 35319-35321	placement of intracranial electrodes	40709
Peripheral arterial atherectomy	35312	Placenta, retained, evacuation of	16564
peripheral nerve	39324, 39327	Placentography, preparation for	36800
peripheral nerve stimulation for pain	39131, 39133-39137	planning	15500, 15503, 15506, 15509, 15512-15513, 15515
peripheral nerve, removal from	39324, 39327	15518, 15521, 15524, 15527, 15530, 15533, 15536	
peripheral venous	35317, 35319-35320	Plantar fasciotomy, radical	49854
peripheral, invitro processing, cryopreservation	13760	plantar, radical	49854
peripheral, removal of tumour from	39324, 39327	plastic operations	45632, 45635, 45641, 45644-45647, 45650
peritomy	42632	45652-45653	
Peritomy, conjunctival	42632	Plastic procedures to pelvi-ureteric junction	36564
Peritoneal adhesions, division, with laparotomy	30376	plate injury/deformity, radical excision	46534

plate or rod, removal of	47930	Proctectomy, perineal	32047
plate, prevention of closure	48512	proctitis, anorectal application of formalin	32212
Plate, rod or nail, removal of	47930	Proctocolectomy with ileostomy	32015, 32018, 32021
pleura	30090	Products of conception, retained, evacuation of	16564
Pleura, percutaneous biopsy of	30090	Progesterone implant	14203, 14206
Pleural effusion	38803	prolapse, abdominal rectopexy of	32117
Pleurectomy with thoracotomy	38424	prolapse, Delorme procedure for	32111
pleurodesis	38424, 38436	prolapse, paediatric, injection under GA	44105
Plexus, brachial, exploration of	39333	prolapse, perineal recto-sigmoidectomy for	32112
Plication, intestinal, with enterolysis, Noble type	30375	prolapse, perineal repair of	32120
plication, Noble type, with enterolysis	30375	prolapse, rubber band ligation of	32135
Pneumonectomy	38438, 38441	prolapse, sclerotherapy for	32132
Polycythemia	13757	prolapsed, excision of	37369
Polyhydramnios, attendance, not routine antenatal	16502	Proof puncture of maxillary antrum	41698, 41701
polyp or polypi, removal of	41662, 41668	prostate	37215, 37218
Polyp, anal, excision of	32142, 32145	Prostate, biopsy of	37215, 37218-37219
Polypectomy, with hysteroscopy	35633	prostate, drainage of	37221
Popliteal artery, exploration of, for popliteal entrapment	34145	Prostate, impantation of gold fiducial markers	37217
Popliteal artery, vessel, ligation or exploration, other	34103	prostatectomy	37200, 37203, 37206
popliteal, exploration for popliteal entrapment	34145	Prostatectomy, endoscopic	37203, 37206
Porta hepatitis, radical resection for carcinoma	30461	Prostatic abscess, endoscopic drainage of	37221
Portacath, laparotomy with insertion of	30400	prosthesis operations	45548, 45551, 45553-45554
Portal hypertension, operations for	30602-30603, 30605-30606	prosthesis, insertion of	30490
portion, decompression of facial nerve	41569	prosthesis, operation on	49315
Porto caval shunt for portal hypertension	30602	prosthesis, removal of	48927, 49515
Portoenterostomy for biliary atresia	43978	prosthesis, replacement of	45553-45554
post-op, control under GA, independent	30058	prosthesis, with cystoscopy	36811
post-operative, following gynaecological surgery	35759	proximal carpectomy	49206
post-operative, laparotomy for	30385	Pseudarthrosis, bone grafting of metatarsal for	46402, 46405
Posterior chamber, removal of silicone oil	42815	pstosis, correction of (unilateral)	45556
Postnasal space, examination under GA	41653	Pterygium, removal of	42686
Postnatal care	16564, 16567, 16570-16571, 16573	Ptosis of eyelid, correction of	45623-45625
Postoperative haemorrhage	30058	ptosis, correction of	45623
Postpartum haemorrhage, treatment of	16567	ptosis, correction of (bilateral)	45558
postpartum, treatment of	16567	pulmonary artery	13818
pouch, endoscopic resection (Dohman's op)	41773	Pulmonary artery, banding of	38715, 38718
pouch, removal of	41770	Pulp space infection of foot, incision for	47912
Pre-auricular sinus, excision of	30104-30105	Pulse generator, subcutaneous placement	39134
Pre-auricular, excision of	30105	pump or reservoir, loading of	14218
pre-auricular, excision of	30104	Pump or resevoir, loading of	14218
pre-detachment of, cryotherapy for	42818	punch biopsy	35608
Preeclampsia, treatment of	16509	Punch biopsy of synovial membrane	30087
Pregnancy, attendance for complication by	16508	punch, of synovial membrane	30087
pregnancy, removal of	35677-35678	Punctum, occlusion of	42620, 42622
pregnancy, ultrasound guided needling and injection	35674	puncture	39000
Premalignant skin lesions, treatment of	30192	puncture and blood collection, diagnostic	13839
Premature labour, attendances not routine antenatal	16502	purse string ligation	16511
16508		Purse string ligation, cervix	16511
premature labour, treatment of	16502, 16508	purse string, cervix	16511
Prepuce, breakdown of adhesions of	30649	Puva therapy	14050
Prepuce, operations on	30654, 30658	Pyelography retrograde, preparation for	36824
Presacral and sacrococcygeal tumour, excision of	32036	Pyelolithotomy	36543
pressure monitoring	13876	Pyeloplasty, by open exposure	36564, 36567, 36570
pressure monitoring device, insertion of	39015	Pyeloscopy, retrograde	36652, 36654, 36656
pressure monitoring, catheter/subarachnoid bolt	13830	Pyelostomy, open	36552
pressure monitoring, indwelling catheter (ICU only)	13876	Pyloromyotomy for pyloric stenosis	43930
Pressure monitoring, intracranial	13830	Pyloroplasty	30375
Priapism, decompression of	37393	Pylorus, dilation of, with vagotomy	30502
Primary repair of cutaneous nerve	39300	Pyonephrosis, drainage of	36537
procedure, intestinal, prior to radiotherapy	32183		
procedures, resuturing of wound after	42857		
processing of bone marrow	13760		

**Q**

Quadriceps, patella, reconstruction, congenital dislocation 50420  
 Quadricepsplasty, for knee mobilisation 49569  
 Quinsy, incision of 41807  
 radial aplasia/dysplasia, centralisation/radialisation 50399  
 radial head, replacement of 49112

**R**

Radial vessel, ligation or exploration, other 34106  
 Radiation dosimetry 15518, 15521, 15524, 15527, 15530, 15533  
 15536  
 radical 37210-37211  
 radical for malignancy 35548  
 radical operation for 38415  
 radical or modified radical 41557, 41560, 41563-41564  
 radical plantar fasciotomy or fasciectomy of 49854  
 radical, for nephroblastoma, paediatric 43984  
 radioactive plaques, construction, insertion & removal 42801-  
 42802  
 radioactive sources, sealed 15303-15304, 15307-15308  
 15311-15312, 15315-15316, 15319-15320, 15323-15324  
 15327-15328, 15331-15332, 15335-15336, 15338-15339  
 15342, 15345, 15348, 15351, 15354, 15357  
 radioactive sources, unsealed 16003, 16006, 16009, 16012  
 16015, 16018  
 Radioisotope, therapeutic dose, administration of 16003  
 16006, 16009, 16012  
 Radiosurgery, stereotactic 15600  
 Radiotherapy, deep or orthovoltage 15100, 15103, 15106  
 15109, 15112, 15115  
 Radioulnar joint, dislocation, treatment of 47024, 47027  
 radius 48406, 48409  
 Radius, bone graft to 48218, 48221, 48224, 48227  
 Ranula, removal of 30283  
 re-exploration for 50616  
 re-exploration for hyperparathyroidism 30317  
 readjustment of adjustable sutures 42845  
 reconstruction 45530, 45533, 45536, 45539, 45542, 45671  
 45674  
 reconstruction for bicornuate uterus 35680  
 reconstruction of 30517, 45545-45546, 49215  
 reconstruction of lacrimal canaliculus 42602  
 reconstruction of lip or eyelid 45671  
 reconstruction of, whole thickness 45614, 45671, 45674  
 reconstruction operation 45596-45597, 45599, 45602, 45605  
 45608, 45611  
 reconstruction with oesophagectomy 30535  
 reconstruction, congenital absence/gynatresia 35565  
 reconstruction, hypospadias/epispadias 37815-37816  
 37827-37828, 37830  
 reconstruction/repair 49536, 49539  
 reconstructive 40600  
 Rectal biopsy, full thickness 32096  
 Rectal prolapse, submucosal or perirectal injection 44104  
 rectal, dilatation of 32115  
 rectal, excision of 32099, 32102, 32108  
 recto-sigmoidectomy for rectal prolapse 32112  
 Rectocele, perineal repair of 32131  
 Rectopexy, abdominal, of rectal prolapse 32117  
 rectosigmoidectomy (Hartmann's op) 32030  
 Rectosigmoidectomy (Hartmann's operation) 32030  
 Rectovaginal fistula, repair of 35596

Rectum and anus, abdomino-perineal resection of suction biopsy  
 of 32039, 32042, 32045-32046, 44101  
 rectum and anus, resection 32039, 32042, 32045-32046  
 rectum, abdominal rectopexy 32117  
 rectum, full thickness 32096  
 rectum, perineal repair of 32120  
 rectum, plastic operation to 30387  
 rectum, resection of 32024-32026, 32028  
 rectum, rubber band ligation of 32135  
 rectum, sclerotherapy for 32132  
 rectus femoris tendon transfer 50357  
 Recurrent hernia, repair of 30403  
 recurrent, operation for 42851  
 reduction 45520, 45522-45523  
 Reduction mammoplasty (unilateral) 45520, 45522-45523  
 reduction of 45617, 45620  
 Reduction ureteroplasty 36618  
 refashioning of 30563  
 reflux, correction of 36588  
 Reflux, gastro-oesophageal, correction 43951, 43954, 43957  
 reflux, operations for 43951, 43954, 43957  
 regional anaesthesia of limb 18213  
 remnant, abdominal wall vitello, excision of 43942  
 removal 34539  
 removal from eye, surgical excision 42689  
 removal in operating theatre 30189  
 removal in oral & maxillofacial region 45801, 45803, 45805  
 45807, 45809  
 removal of 30631, 32138-32139, 41801, 47904, 47906  
 removal of by laser surgery 41861  
 removal of calcium deposit from cuff 48900  
 removal of cancer of skin/mucous membrane 30196  
 removal of cyst from 42575  
 removal of foreign body from 30061, 30068, 41500, 41503  
 41716, 41886  
 removal of foreign body in 41825  
 removal of glomus tumour 41623  
 removal of imbedded foreign body 42644  
 removal of palmar/plantar warts 30187  
 removal of polyp from 35611  
 removal of purse string ligature 16512  
 removal of simple tumour of 35557  
 removal of superficial foreign body 30061  
 removal of tunnelled cuffed catheter 34539  
 removal of, by lateral rhinotomy 41728  
 removal of, by neurectomy, neurotomy 39327  
 removal of, by temporal bone resection 41584, 41587  
 removal of, by urethrectomy 37330  
 removal of, by urethroscopy 36543  
 removal of, in oral and maxillofacial region 45801, 45803  
 45805, 45807, 45809, 45811, 45813  
 renal (closed) 36561  
 Renal artery, aberrant, operation for 36537  
 renal, excision of 36558  
 renal, extraction of 36627, 36633, 36636, 36639, 36645  
 reoperation for dehiscence or infection 38466  
 reoperation on extremity for 33848  
 repair - H-flap or double advancement 45207  
 repair and suturing of 30026, 30029, 30032, 30035, 30038  
 30042, 30045, 30049  
 repair of 35570, 35573, 37821-37822, 37824-37825  
 37827-37828, 37830, 37833, 42866

repair of abdominal aortic aneurysm	33116, 33119	retina, removal of silicone band	42812
repair of avulsion	37411	retina, resection/buckling/revision	42776
repair of extensive laceration/s	16571	retrieval of foreign body	35360-35363
repair of extensor tendon of hand or wrist	46420	retrieval of inferior vena caval filter	35331
repair of flexor tendon of hand or wrist	46426, 46429	Retrobulbar abscess, operation for	42572
46432		retrobulbar injection of	42824
repair of laceration of cavernous tissue, or fracture	37408	retrocaval, correction of, by open exposure	36564, 36567
repair of laceration/s, for trauma	30422, 30425	retrograde admin for cardioplegia	38588
repair of nerve trunk	39306	retrograde, cerebral (if performed)	22075
repair of recent wound of	30026, 30029, 30032, 30035	retrograde, intravenous, sympatholytic agent	14209
30038, 30042, 30045, 30049		Retrolabyrinthine vestibular nerve section	41596
repair of rectocele	32131	Retroperitoneal abscess, drainage of	30402
repair of rupture	37004	retroperitoneal, drainage of	30402
repair of, not otherwise covered	35618	Retropharyngeal abscess, incision with drainage	30223
repair using microsurgical techniques	45500-45501, 45504	Retropubic prostatectomy	37200
repair, direct	45209, 45212, 45215, 45218, 45221, 45224	Retroversion, operation for	35684
repair, direct flap	45209, 45212, 45215, 45218, 45221	revision arthroplasty	49116-49117, 49210-49211
45224		49716-49717	
repair, heart	38480-38481	revision of	36609
repair, local, single stage	45200, 45203, 45206	revision of failed surgery	50620
repair, muscle, single stage	45000, 45003, 45006, 45009	revision of orthopaedic procedures	49551, 49554
45012		revision of, by incision and suture	45239
repair, of cervical oesophagostomy	30293	revision of, by liposuction	45240
repair, rectal prolapse	32120	revision of, with myringoplasty	41566
repair, single stage, local flap	45200, 45203, 45206	Rhinophyma, carbon dioxide laser ablation/excision	45652
repair, to enlarge vaginal orifice	35569	Rhinoplasty procedures	45632, 45635, 45641, 45644, 45650
replacement procedures	49318-49319, 49321, 49324, 49327	rhinotomy with removal of tumour	41728
49330, 49333, 49336, 49339, 49342, 49345, 49518-49519		Rhinotomy, lateral, with removal of tumour	41728
49521, 49524, 49527, 49530, 49533-49534		rhythm, restoration, electrical stimulation	13400
replacement, heart	38488-38489	rib	48406, 48409
requiring anterior decompression of spinal cord	50636	Rib, cervical, removal of	34139
resection arthroplasty	46325	rib, removal of	34139
resection for enterocolitis stricture, neonatal	43834	right heart balloon	13818
resection for jejunal atresia, neonatal	43810	Ring fixator, adjustment of	50309
resection of	45599, 45602, 45605	ring fixator, adjustment of	50309
resection of pharyngeal pouch	41773	ring, fracture, treatment of	47474, 47477, 47480, 47483
resection of rectum	32024-32025	47486, 47489	
resection of turbinates	41692	ring, removal under GA	35506
resection of uterine septum	35634	Rod, plate or nail, removal of	47930
resection of, segmental, for tumour/cyst	45605	Rosen incision, myringoplasty	41527
resection of, sub-total	37203, 45602	rotational atherectomy with stent insertion	38312, 38318
resection of, total	45596-45597	rotational atherectomy without stent insertion	38309
resection, congenital cystadenomatoid malformation	43861	38315	
resection, congenital lobar emphysema	43861	Rotational atherectomy, of the coronary artery	38309, 38312
resection, large	32000, 32003	38315, 38318	
resection, small	30565-30566	rotational, coronary artery	38309, 38312, 38315, 38318
resection, with radical operation for empyema	38415	Rotator cuff of shoulder, repair of	48906, 48909
reservoir or external drain, insertion of	39015	rotator cuff, repair of	48906, 48909
reservoir, construction of	32029	Round window repair or cochleotomy	41614
reservoir, continent type, creation of	32069	Roux-en-Y biliary bypass	30460, 30466-30467
reservoir, formation of	36606	Rovsing's operation	36537
residual stump, removal of, abdominal approach	35612	rubber band ligation of	32135
residual stump, removal of, vaginal approach	35613	rubber band, of haemorrhoids or rectal prolapse	32135
restoration following Hartmann's op	32029, 32033	Rubin test for patency of Fallopian tubes	35706
restoration of alimentary continuity	41843	Ruptured medial palpebral ligament, repair of	42854
restoration of face, autologous bone/cartilage graft	45647	ruptured medial palpebral, repair of	42854
resurfacing, carbon dioxide, face or neck	45025-45026	ruptured, exposure and exploration of	36576
resuturing following intraocular procedures	42857	ruptured, repair	30375
Resuturing of wound following intraocular procedures	42857	ruptured, repair of	30232, 30235, 37306, 37309
resynchronisation therapy	38365, 38368, 38371, 38654	sac, excision of	42596
retained, evacuation of	16564		
Retina, cryotherapy of	42818		

**S**

Sacral nerve lead(s)	36663	section, translabyrinthine, vestibular	41593
Sacral sinus, excision of	30676	segmental resection of	30414-30415, 30427
sacral, stimulation for faecal incontinence	32213-32218	segmental resection of, for tumours	45605
sacro-iliac joint	49300	Segmentectomy	38438
Sacro-iliac joint, arthrodesis of	49300	Selective coronary angiography	38215, 38218, 38220, 38222
sacro-iliac, arthrodesis	49300	38225, 38228, 38231, 38234, 38237, 38240-38241, 38243	38246
sacro-iliac, disruption of	47513	Semen, collection of	13290, 13292
Sacrococcygeal and presacral tumour, excision of	32036	Semimembranosus bursa, excision of	30114
sacrococcygeal and presacral, excision of	32036	semimembranosus, excision of	30114
sacrococcygeal, excision of	30676	Seminal vesicle/ampulla of vas, total excision of	37209
sacrococcygeal, neonatal, excision of	43876, 43879	Sengstaken-Blakemore tube, insertion of	13506
sacrospinous	35568	Sentinel lymph node biopsy for breast cancer	30299-30300
sacrospinous colpopexy	35568	30302-30303	
salivary gland	30266	sentinel lymph node, for breast cancer	30299-30300
salivary gland duct	30262	30302-30303	
salivary gland, major, transposition of	41910	sentinel node biopsy for breast cancer	30299-30300
Salivary gland, major, transposition of duct	41910	30302-30303	
salivary gland, marsupialisation	30266	septal defect closure, surgical	38742
salivary gland, meatotomy	30266	septal defect closure, transcatheter approach	38272
salivary gland, removal of calculus	30266	Septal defect, atrial, closure of	38742
salivary, duct, dilatation or diathermy of	30262	septal defect, closure of	38751
salivary, duct, marsupialisation	30266	septal rupture, ischaemic, repair of	38509
salivary, duct, meatotomy	30266	septectomy	38739, 38748
salivary, duct, removal of calculus	30266	Septectomy, cardiac	38739, 38748
salivary, operations on	30262, 30266, 30269	Septoplasty of nasal septum	41671
Salpingectomy, laparoscopic	35638	Septostomy, or balloon valvuloplasty	38270
Salpingo-oophorectomy not with hysterectomy	35713, 35717	septum	41674
Salpingolysis	35694, 35697	septum button, insertion of	41907
Salpingostomy	35694, 35697	Septum button, nasal, insertion of	41907
sampling, fetal	16606	septum, excision for correction of double vagina	35566
Saphenous vein anastomosis	34809	septum, hysteroscopic resection	35623
saphenous vein, for femoral vein bypass	34809	septum, reconstruction of	41672
saphenous, cross leg by-pass graft	34806	septum, septoplasty or submucous resection	41671
scalene node	30096	Sequestrectomy	43512, 43515, 43518, 43521, 43524
Scalene node biopsy	30096	Seroma, breast, exploration, drainage, operating theatre	31551
scalene, biopsy	30096	service provided by a midwife, nurse or ATSI health practitioner	16400
Scalenotomy	34133	sesamoid bone	48400
Scalp vein catheterisation in a neonate	13300	Sesamoid bone, osteotomy or osteectomy of	48400
scalp, catheterisation of	13300	Seton, readjustment of, in anal fistula	32166
Scaphoid, bone graft to	48230, 48233, 48236	shaving of	45653
scaphoid, fracture, treatment of	47354, 47357	shirodkar	16511
scapula (other than acromion)	48406, 48409	Shirodkar suture	16511
Scapula, fracture, treatment of	47468	shoulder	48912, 48915, 48918, 48921, 48924, 48939, 48942
Scar, abrasive therapy to	31220, 31225, 45021, 45024	48945, 48948, 48951, 48954, 48957, 48960	
scar, revision of (restriction applies)	45506, 45512	shoulder & axilla	21600, 21610, 21620, 21622, 21630, 21632
Scars, corneal, removal of, by partial keratectomy	42647	21634, 21636, 21638, 21650, 21652, 21654, 21656, 21670	
scars, excision of	42647, 45519	21680, 21682	
Sclera, removal of imbedded foreign body	42644	Shoulder, amputation or disarticulation at	44331
scleral graft to	42860	shoulder, removal of	48927
Sclerectomy and iridectomy for glaucoma	42746	shunt operation for	37396
sclerosant fluid into pilonidal sinus	30679	Shunt, aorto-pulmonary or cavo-pulmonary	38733, 38736
Sclerosant fluid, injection of into pilonidal sinus	30679	shunt, declotting of	13106
sclerotherapy for	32132	shunt, external, insertion/removal	34500, 34506
sclerotomy	42734	Sigmoidoscopic examination	32072, 32075
Screw, pin or wire, buried, removal of	47924, 47927	Sigmoidoscopy, fiberoptic, flexible	32084, 32087
Scrotal contents, exploration of	37604	Silicone band, encircling, removal from detached retina	42812
Scrotum, excision of abscess of	30223	single event multilevel surgery	50450-50451, 50455-50456
secondary revision of	45650	50460-50461, 50465-50466, 50470-50471, 50475-50476	
Secondary, repair of extensor tendon of hand or wrist	46423	Sinoscopy	41764
section of corpus callosum for epilepsy	40700	sinus lift procedure	45849
section, retrolabyrinthine, vestibular/cochlear	41596		

sinus, drainage of, through tooth socket	41719		
sinus, injection of sclerosant fluid	30679	Squint, muscle transplant (Hummelsheim type)	42848
sinus, intranasal operation on	41737	stab cystotomy	37011
sinus, operations on	41710, 41713, 41716, 41719, 41722	stabilisation of	45875
sinus, radical obliteration of	41746	Stabilisation procedure for recurrent anterior or posterior dislocation	48930
sinus, trephine of	41743	stabilisation, for multidirection instability	48933
sinuses, operation on	41737, 41749	stabilisation, repair capsule/ligament	50106
SIR-Spheres administration	35404, 35406, 35408	stabilisation, revision of	49548
skin free grafts to one defect	45439, 45442, 45445, 45448	staghorn, nephrolithotomy and/or pyelolithotomy	36543
skin tags or polyps, excision of	32142, 32145	Staging laparotomy for gynaecological malignancy	35726
Skin, biopsy of	30071	staging of intra-abdominal tumours	30441
skin, micrographic serial excision	31000-31005	Stamey or similar type needle colposuspension	37043
skin, to orbit	42524	Stapedectomy	41608
skin/subcutaneous/mucous membrane, removal of	31220, 31225	Stapes mobilisation	41611
Skull base surgery for tumour removal	39654, 39656	Staple arrest of hemi-epiphysis	48509
skull base, removal of	39654, 39656	staple arrest of hemi-epiphysis	48509
skull, craniectomy for	39906	Stenosing tendovaginitis, hand/wrist, open operation	46363
skull, excision of	39700	stenosis or occlusion, vein bypass for	34812
sling operation	35599, 37042	Stenosis, arteriovenous fistula/access device, correction of	34518
Sling operation for stress incontinence	35599	stenosis, duodeno-duodenostomy/jejunostomy	43807
sling procedure prior to radiotherapy	32183	stenosis, patch angioplasty for	34815
Slough, debridement of	35100, 35103	stent insertion	35306, 35309
Small bone, exostosis, excision of	47933	stent, application	34824, 34827, 34830, 34833
small, excision of	30107	Stent, external, application restore valve competency	34824
small, incision, drainage, without GA	30219	34827, 34830, 34833	
small, intubation	30488	stent, insertion of	36607, 36821
small, resection of	30565-30566	stent, through nephrostomy tube	36604
small, strictureplasty	30564	stenting of bile duct	30491
Smith-Petersen nail, removal of	47924, 47927	stenting, percutaneous	30492
snip operation	42617	Stereotactic procedures	40801, 40803
Socket, eye, contracted, reconstruction of	42527	stereotactic procedures	40803
socket, treatment as secondary procedure	42521	Sterilisation (female)	35688
solitary, pyeloplasty by open exposure	36567	sterilisation via	35688
sounds, passage of, as an independent procedure	37300	Sternal wire/s, removal of	38460
space infection of hand, incision for	46525	Sternocleidomastoid muscle, bipolar release, torticollis	50402
Spermatic cord, exploration of, inguinal approach	30643-30644	sternotomy for post-operative bleeding	38656
Spermatocoele, excision of	37601	Sternotomy for removal of thymus or mediastinal tumour	38446
Sphenoidal sinus, intranasal operation on	41752	Sternum and mediastinum, reoperation for infection	38468-38469
sphenoidal, intranasal operation on	41752	steroid injection	18232
Sphincter, anal, direct repair of	32129	stimulation for pain	39130-39131, 39133-39139
sphincter, artificial	37381, 37384	stimulation, restoration cardiac rhythm	13400
sphincter, direct repair of	32129	stimulator, revision of	39133
sphincter, reconstruction of	37375	Strabismus, operation for	42833, 42836, 42839
sphincterotomy	30485	strangulated, incarcerated or obstructed, repair of	30615
Sphincterotomy, anal, independent procedure	43999	43835	
sphincterotomy, independent, Hirschsprung's	43999	Stress incontinence, abdomino-vaginal operation	35602, 35605
spica, application of	47540, 50564	stress incontinence, sling procedure	37042
spica, application, congenital dislocation	50353, 50564	stress incontinence, Stamey or similar	37043
spigelian, repair of	30403, 30405	stress incontinence, suprapubic procedure	37044
spinal and peripheral nerve stimulation	39130-39131	stress, sling operation for	35599
39133-39139		Stricture, anal, anoplasty for	32123
spinal stimulation, for pain	39131, 39133-39139	stricture, anoplasty for	32123
spine & spinal cord	20600, 20604, 20620, 20622, 20630	stricture, dilatation of	32115, 37303
20632, 20634, 20670, 20680, 20690		stricture, dilatation of with bronchoscopy	41904
Spleen, ruptured, repair of	30375	stricture, endoscopy with balloon dilatation	30475
Splenectomy	30597, 30599, 30619	stricture, optical urethrotomy for	37327
splenectomy	31470	stricture, per anal release of	32114
Spleno renal shunt, selective, for portal hypertension	30605	stricture, plastic repair of	37342-37343, 37345, 37348
Splenorrhaphy	30596	37351	
Split skin free grafts, granulating areas	45400, 45403	stricture, repair of	30469
split skin, to burns	45460-45462, 45464-45466, 45468-45469	Strictureplasty, small bowel	30564
45471-45472, 45474-45475, 45477-45478, 45480-45481			
		45483-45493	

string ligature of cervix, removal	16512	Surgical reduction of enlarged elements, macrodactyly	46510
Strontium 89, administration of	16015	Suspension of uterus	35684
Stump, amputation, reamputation of	44376	suspension or fixation of	35684
stump, reamputation of	44376	Suture, laser division of, eye, following trabeculoplasty	42794
stump, revision of	46483	suture, running, manipulation of	42667
Styloid process of temporal bone, removal of	30244	Sutures, adjustable, readjustment of, for squint	42845
sub-total, radical, for carcinoma	30523	sutures, removal of	42668
Sub-valvular structures, heart, reconstruction, re-implant	38490	Swann-Ganz catheterisation	13818
Subclavian artery, endarterectomy	33506	Sycosis barbae/nuchae, excision of	31245
Subclavian artery, vessel, ligation/exploration, other	34103	Symblepharon, grafting for	45629
subcutaneous	31524	Syme's amputation of foot	44361
Subcutaneous fasciotomy, Dupuytren's contracture	46366	sympathectomy	35000, 35003, 35006, 35009, 35012
subcutaneous tissue, extensive excision	31245	Symphysis pubis, fracture, treatment of	47474, 47477, 47480
subcutaneous, Dupuytren's contracture	46366	47483, 47486, 47489	
subcutaneous, removal of	30064	Synacthen stimulation testing	30097
subcutaneous, repair of recent wound of	30026, 30029	Synechia, division of	42761
30032, 30035, 30038, 30042, 30045, 30049		synechia, division of	42761
Sublingual gland, duct, removal of calculus	30266	synovectomy of	45867, 48936, 49509, 50312
sublingual, extirpation of	30259	synovectomy of tendon/s	46348, 46351, 46354, 46357, 46360
sublingual/salivary gland duct, removal of	30266	synovectomy of, not otherwise covered	50104
Submandibular abscess, incision of	30223	Synovectomy, of ankle	50312
submandibular, extirpation of	30256	tags, anal, excision of	32142, 32145
Submaxillary gland, repair of cutaneous fistula	30269		
submucous resection of	41692	<b>T</b>	
Submucous resection of nasal septum	41671		
subperiosteal	43500, 43503, 43506, 43509, 43512, 43515	Talipes equinovarus, cast/manipulation/splint	49878
43518, 43521, 43524		Talus fracture, treatment of	47606, 47609, 47612, 47615
Subperiosteal abscess	43500, 43503, 43506, 43509, 43512	47618	
43515, 43518, 43521, 43524		tantalum marker, insertion and removal	42805
Subphrenic abscess, laparotomy for drainage of	30394	Tantalum markers, surgical insertion of	42805
subphrenic, laparotomy for drainage	30394	tapping of	30628
Subtalar arthrodesis	50118	tarsal cauterisation for	42581
subtalar joint	50118	tarsal, extirpation of	42575
subtalar, arthrodesis of	50118	Tarsometatarsal joint, fracture, treatment of	47621, 47624
Subungual haematoma, incision of	30219	Tarsorrhaphy	42584
subvalvular structures, reconstruction, re-implantation	38490	tarsorrhaphy	42584
Suction biopsy of rectum	30071	tarsus	48406, 48409
superficial	15000, 15003, 15006, 15009, 15012	Tarsus, dislocation, treatment of	47063, 47066
superficial, of parotid gland	30253	tarsus, for ectropian/entropian	42581
superficial, removal of	30061	Tear duct, probing of	42610-42611, 42614-42615
supervision in home	13104	Teflon injection, into vocal cord	41870
supervision in hospital	13100, 13103	Temporal artery, biopsy of	34109
support procedures	13815, 13818, 13830, 13839, 13842	temporal, biopsy of	34109
13848, 13851, 13854, 13857, 38362, 38600, 38603, 38609		temporo-mandibular	45755
38612-38613, 38615, 38618, 38621, 38624		temporomandibular joint	45758
supraglottic	41840	Temporomandibular joint, arthroplasty	45758
Supraglottic laryngectomy with tracheostomy	41840	tenckhoff peritoneal dialysis, removal of	13110
Suprapubic cystostomy or cystotomy	37008	Tendon	49718, 49721, 49724, 49727
suprapubic procedure for	37044	tendon of hand, tenolysis of	46450
surgery	38390, 38393, 38512, 38515, 38518, 42702, 43801	tendon of, repair of	49800, 49803
43804, 43807, 43810, 43813, 43816, 43819, 43822		tendon or ligament transplantation of	49812
surgery for congenital heart disease	38700, 38703, 38706	tendon pulley, reconstruction	46411
38709, 38712, 38715, 38718, 38721, 38724, 38727, 38730		tendon sheath, finger or thumb, open operation	46522
38733, 38736, 38739, 38742, 38745, 38748, 38751, 38754		tendon sheath, open operation	46363
38757, 38760, 38763, 38766		tendon sheath, operation for tendovaginitis	46363
surgery, for congenital heart disease	38700, 38703, 38706	tendon transfer for restoration of function	46417
38709, 38712, 38715, 38718, 38721, 38724, 38727, 38730		tendon, hand, tenolysis of	46453
38733, 38736, 38739, 38742, 38745, 38748, 38751, 38754		tendon, hand/wrist, synovectomy of	46339
38757, 38760, 38763, 38766		tendon, removal of	30068
surgery, open, not otherwise covered	38653	tendon, repair of	46420, 46423, 46426, 46429, 46432, 46435
surgery, re-operation via median sternotomy	38640	49718, 49721, 49724	
surgical	35000, 35003, 35006, 35009, 35012	tendon, synovectomy of	46339

tendon, wrist, repair of	46426, 46429	tibialis tendon transfer	50339, 50342
tendon/s, digit, synovectomy of	46348, 46351, 46354, 46357	Tic douloureux, injection for	39100
46360		tie, repair of	30278, 30281
Tenolysis, hand	46450, 46453	tissue or organ, biopsy of	30075, 30078
Tenoplasty	47963	tissue, accessory, excision of	31560
Tenosynovectomy	47969	Tissue, expansion for breast reconstruction	45539, 45542
Tenosynovitis, open operation, tendon sheath hand/wrist	46363	tissue, repair of recent wound of	30026, 30029, 30032
Tenotomy	47960, 47963, 49806, 49809	30035, 30038, 30042, 30045, 30049	
tenotomy	47960	to femoral bypass grafting	32715
tenotomy of	49806, 49809	to haemorrhoids with rubber band ligation	32135
Tenovaginitis, open operation for	46363, 47972	to prepare bypass site for anastomosis	33554
Teratoma, mediastinal, thoracotomy and excision	43912	to retina, independent procedure	42818
teratoma, neonatal, excision of	43876, 43879	Toe, amputation or disarticulation of	44338, 44342, 44346
Testicular implant	45051	44350, 44354, 44358	
Testis, exploration of	37604, 37810, 37813	toe, fracture, treatment of	47663, 47666, 47672, 47678
Testopexy	37803	Toenail, ingrowing, excision or resection for	47915-47916
Tethered cord, release of	40112	47918	
Thenar spaces of hand, drainage of	46519	toilet, using operating microscope	41647
therapeutic	13757, 16618	Tongue, partial or complete excision of	30272, 41779, 41782
Therapeutic haemapheresis	13750	41785	
Therapeutic venesection	13757	Tonsils, lingual, removal of	41804
therapy for intraepithelial neoplasia	35539, 35542, 35545	Topectomy, for epilepsy	40703
therapy, hyperbaric	13020, 13025, 13030	Torticollis, bipolar release sternocleidomastoid muscle	50402
thickness wedge excision of lip, eyelid or ear	45665	total	30521, 30524, 30526
Thigh, amputation through	44367	total body	22065
Third degree tear, repair of	16573	total excision of	37209-37211
third degree, repair of	16573	total joint replacement	49715
Thompson arthroplasty of hip	49315	total replacement of	48918, 48921, 48924, 49115
Thoracic aneurysm, replacement by graft	33103	total synovectomy of	49109
thoracic aorta, operative management of	38572	total, for Hirschsprung's, paediatric	43996
thoracic cavity	38803	total, of knee	49509
thoracic, management of rupture/dissection	38572	total, of wrist	49224
thoracic, repair/replacement procedures	38550, 38553	total, with excision rectum/anastomosis	32051, 32054
38556, 38559, 38562, 38565, 38568, 38571		32057	
Thoracoplasty	38427, 38430	total, with excision rectum/ileostomy	32015, 32018, 32021
Thoracoscopy	38436	total, with ileo-rectal anastomosis	32012
Thoracotomy	38418, 38421, 38424	total, with ileostomy	32009
thorax	20400-20406, 20410, 20420, 20440, 20450, 20452	Trabeculectomy for glaucoma	42746
20470, 20472, 20474		trabeculectomy	42782
Threatened abortion, treatment of	16505	trabeculectomy, laser	42782
threatened, ligation of cervix	16511	Trabeculectomy, laser, of eye	42782
threatened, treatment of	16505	trachea, removal of	41886
Three snip operation	42617	Tracheal excision, repair, with cardiopulmonary bypass	38455
thrombectomy of	33803, 33806, 33810-33812	tracheal, dilatation of, with bronchoscopy	41904
Thrombectomy of arteriovenous access device	34515	Trachelorrhaphy	35618
thrombosis, incision of	32147	Tracheo-oesophageal fistula, division and repair	43900
Thrombosis, peri-anal, incision of	32147	tracheo-oesophageal, division and repair	43900
Thrombus, removal of	33803, 33806, 33812	Tracheomalacia, aortopexy for	43909
Thumb, digital nail, removal of	46513, 46516	Tracheoplasty or laryngoplasty with tracheostomy	41879
Thymectomy	38456	transanal endoscopic microsurgery	32103-32104, 32106
Thymoma, malignant, removal from mediastinum	38456	Transantral ethmoidectomy with radical antrostomy	41713
Thymus, removal of by thoracotomy or sternotomy	38446	transantral vidian, with antrostomy	41713
Thyroglossal cyst and/or fistula, removal of	30314, 30326	transantral, of maxillary artery	41707
Thyroglossal, radical removal of	30326	transantral, with radical antrostomy	41713
thyroglossal, radical removal of	30314	transection for portal hypertension	30606
thyroglossal, removal of	30314	transection, with re-anastomosis to trigone	37053
thyroid, removal of	30310	transfer for facial nerve paralysis	45578
Thyroidectomy	30296-30297, 30299-30300, 30302-30303, 30306	transfer of abdominal musculature to greater trochanter	50387
30310		transfer of adductors to ischium	50387
tibia	48418, 48421	transfer of tissue	45562-45565
Tibia, bone graft to	48206, 48209	transfer of tissue, anastomosis artery/vein	45502
Tibial vessel, ligation/exploration not otherwise covered	34106	Transfusion	13703, 13706

upper vault prolapse, sacral colpopexy	35597		
urachus, excision of	37800	Vagina, artificial formation of	35565
Urachus, patent, excision of	37800	vagina, simple, removal of	35557
ureter 36585, 36588, 36591, 36594, 36597, 36600, 36603	36821	vaginal compartment repair	35571, 35573
Ureter, brush biopsy of, with cystoscopy	36549	vaginal compartment repair of	35571
ureter, removal of	36579	Vaginal correction of acute inversion of uterus	16570
Ureterectomy	36608	vaginal repair	35570-35573, 35577-35578
ureteric stent exchange	36604	vaginal, excision of	35557
ureteric, passage through nephrostomy tube	30266, 36824, 36830	vaginal, excision of, for correction of double vagina	35566
ureteric, with cystoscopy	36549	vaginal, repair of	35568-35573, 35577-35578, 35595-35597
Ureterolithotomy	36615	Vaginectomy, radical, for malignancy	35561-35562, 35564
Ureterolysis	36618	Vaginoplasty for congenital adrenal hyperplasia	37851
Ureteroplasty	36803, 36806, 36809	Vagotomy	30496-30497, 30499-30500, 30502-30503
Ureteroscopy	36621	Vallecular cysts, removal of	41813
ureterostomy, closure of	36621	vallecular, removal of	41813
Ureterostomy, cutaneous, closure of	35570, 35573, 37318	Valve annuloplasty, heart	38475, 38477-38478
urethra	35523	valve leaflet/s, decalcification of	38483
urethra or urethral caruncle	35523	valve replacement	38488-38489
Urethra, cauterisation of	37369	valve, open valvotomy of	38487
urethra, excision of	37318	valve, plication or repair to restore competency	34818
urethra, removal of	37306, 37309	valve, repair	38480-38481
urethra, repair of	37321	valves, destruction of	37854
urethral	30223, 37816, 37828	Valvotomy for pulmonary stenosis	38456
Urethral abscess, drainage of	37833	valvuloplasty or septostomy	38270
urethral fistula repair	37340-37341	Valvuloplasty, balloon or septostomy	38270
Urethral sling, division or removal of	37833	Varicocele, surgical correction of	30635
urethral, closure of	37303	varicose veins	32520, 32522-32523, 32526, 32528-32529
urethral, dilatation of	35527, 37372	varicose, multiple injections	32500
urethral, excision of	37375	varicose, operations for	32500
urethral, reconstruction	37330	Vas deferens, operations on	37616, 37619, 37623
Urethrectomy	37336	Vasectomy	37623
urethro-rectal	37333	Vasopididymostomy (unilateral)	37616, 37619
urethro-vaginal	35570	Vasotomy	37623
Urethrocoele, repair of	35599, 37044	Vasovasotomy	37616, 37619
Urethropexy (Marshall-Marchetti operation)	37342-37343, 37345, 37348, 37351	vault reconstruction	45785
Urethroplasty	37324	vein catheterisation	13318-13319, 13815
Urethrostomy	37324	vein catheterisation in a neonate	13300
Urethrotomy, external or internal	36860	vein catheterisation, via subcutaneous tunnel	34527-34528
Urinary conduit or reservoir, endoscopic examination	36609	vein puncture in infants, blood collection	13312
urinary conduit, revision	36606	Vein, anastomosis, microsurgical	45502
urinary reservoir, continent, formation	37381, 37384, 37387	Vein, great, ligation or exploration not otherwise covered	34103
urinary sphincter, insertion	37390	vein, thrombectomy	33810-33811
urinary sphincter, revision/removal	37381, 37384, 37387	Veins, major, access as part of re-operation	35202
urinary, artificial, insertion	37390	veins, multiple injections	32500
urinary, artificial, revision or removal	35565	veins, operations for	32500, 32504, 32507-32508, 32511
Urogenital sinus, vaginal reconstruction for	35565	32514, 32517	
urogenital, vaginal reconstruction for	41884	Velopharyngeal incompetence, flap or pharyngoplasty	45716
using Minitrach or similar device	35649	vena cava, for congenital heart disease	38721, 38724
Uterine adenomyoma, excision of	35649	Vena cava, inferior, operations on	34800, 34803
uterine, abdominal	35638	vena caval filter, insertion of	35330
uterine, laparoscopic	35638	Venography, operative	35200
Utero-sacral ligaments, laparoscopic division	35640	Venous anastomosis, not otherwise covered	32766, 32769
uterus (D and C)	16570	venous catheterisation	35317, 35319-35320
Uterus, acute inversion, vaginal correction	35640	venous, operations for	34812, 34815
uterus, removal of	14050	Ventilation, mechanical, intensive care	13857, 13881-13882
UVB therapy	41810	Ventral hernia following closure exomphalos, repair of	43939
Uvula, excision of	41787	ventral or incisional, repair of	30403, 30405
Uvulectomy and partial palatotomy	41786	ventral, following closure exomphalos, repair of	43939
Uvulopalatopharyngoplasty	41810	Ventricular aneurysm, plication of	38506
Uvulotomy		ventricular assist	38627
		Ventricular septal defect, transcatheter closure	38274
		ventricular septal rupture, repair of	38509

V

ventriculostomy	40012	with cystoscopy	36812
Ventriculostomy, third	40012	with cystoscopy and injection for incontinence	37339
Vermilionectomy	45668-45669	with debulking operation	35720
Version, external cephalic	16501	with dilatation of tracheal stricture	41904
vertebra, needle	30093	with division of extensive adhesions	30379
Vertebra, needle biopsy of	30093	with drainage of pus	31454
vertical, congenital, reconstruction	50336	with insertion of cochlear implant	41617
Vesical fistula, cutaneous, operation for	37023	with insertion of portacath	30400
vesical fistula, operation for	37023	with laparotomy, neonatal anorectal malformation	43822
vesical, cutaneous, operation for	37023	with laparotomy, not with hysterectomy	35713, 35717
Vesico-intestinal fistula, closure of	37038	with laryngoplasty or tracheoplasty	41879
vesico-intestinal, closure of	37038	with laser destruction of stone	37318
vesico-ureteric, correction	36588	with other procedures	35644-35647
vesico-vaginal, closure of	37029	with ovarian transposition, malignancy	35729
Vesicostomy, cutaneous, establishment of	37026	with proctocolectomy	32015
vesicostomy, establishment of	37026	with removal of cartilage and/or bone	41512, 41515
Vesicovaginal fistula, closure of	37029	with rigid oesophagoscope	41816, 41822, 41825
vessel, ligation/exploration, other	34106	with supraglottic laryngectomy	41840
vessels, anastomosis/repair	38727, 38730	with surgical repositioning of nipple	45520, 45523
vessels, by-pass grafting to	32730, 32733	with total colectomy	32009
Vestibular nerve section, retrolabyrinthine	41596	with transection/resection Fallopian tubes	35688
Vestibuloplasty, unilateral or bilateral	45837	with transmastoid removal of glomus tumour	41623
vidian neurectomy	41713	with vaginal hysterectomy	35673
Vidian neurectomy, transantral, with antrostomy	41713	with vertical hemi-laryngectomy	41837
Villus, chorionic, sampling	16603	without surgical repositioning of nipple	45522
Viscera, abdominal, operation involving laparotomy	30387	Wolfe graft	45451
viscera, operations involving laparotomy	30387	wound, debridement of	38462, 38464
Viscus, ruptured, simple repair of	30375	Wound, debridement under GA or major block	30023
viscus, simple repair of	30375	wound, review under GA, independent	32168
Vitello intestinal duct, patent, excision of	43945	wrist 49200, 49203, 49209, 49212, 49218, 49221, 49224	
Vitrectomy	42719, 42725	49227	
Vitreolysis of lens material	42791	wrist joint, excision of	46500-46503
vitrealysis, laser, of lens material	42791	Wrist, arthrodesis of	49200, 49203
vitrealysis/corticolysis	42791	Wry neck, operation for	44133
Volvulus, reduction of	30375		
Vulva, biopsy of, with colposcopy	35615		
Vulval warts, removal under GA or nerve block	35507-35508		
vulval/vaginal, removal, GA or nerve block	35507-35508		
Vulvectomy, hemi	35536		
Vulvoplasty, for localised gigantism	35534		
Vulvoplasty, for repair of female genital mutilation or anomalies			
of the uro-gyn	35533		
wall vitello intestinal remnant, excision of	43942		
<b>W</b>			
Warts, anal, removal under GA or nerve block	32177, 32180		
warts, cystoscopy for the treatment of	36815		
warts, removal of	30187		
warts, removal under GA or nerve block	32177, 32180		
35507-35508			
wedge excision	30165, 30168, 30171-30172		
Wedge excision for axillary hyperhidrosis	30180		
wedge resection of	38440		
Wertheim's operation	35664		
Whipple's operation (pancreatico-duodenectomy)	30584		
whole body	22060		
wide local excision of suspected malignancy	35536		
wire or screw, buried, removal of	47924, 47927		
Wire, orthopaedic, insertion of	47921		
with biopsy	30391		
with biopsy/diathermy/foreign body/stone	37318		
		<b>X</b>	
		Xenon arc photo-coagulation	42782
		<b>Z</b>	
		Z-plasty, in association with Dupuytren's Contracture	46384
		Zygo-apophyseal joint, injection into	39013
		Zygoma, osteotomy or osteectomy of	45720, 45723, 45726
		45729, 45731-45732, 45735, 45738, 45741, 45744, 45747	
		45752	
		Zygomatic arch, reconstruction of	45788

# **CATEGORY 4: ORAL AND MAXILLOFACIAL SERVICES**

## SUMMARY OF CHANGES FROM 01/03/2021

The 01/03/2021 changes to the MBS are summarised below and are identified in the Schedule pages by one or more of the following words appearing above the item number:

- |                         |       |
|-------------------------|-------|
| (a) new item            | New   |
| (b) amended description | Amend |
| (c) fee amended         | Fee   |
| (d) item number changed | Renum |
| (e) EMSN changed        | EMSN  |

There are no changes to this Category for 01/03/2021

## **ORAL AND MAXILLOFACIAL SERVICES NOTES**

### **ON.1.1 Benefits for Medical Services Performed by Approved Dental Practitioners**

Under the provisions of the *Health Insurance Act 1973* (the Act), Medicare benefits are payable where an eligible person incurs medical expenses in respect of certain professional services rendered by a approved dental practitioner approved before 1 November 2004.

Category 4 is restricted to those dental practitioners who were approved by the Minister prior to 1 November 2004 for the provision of oral and maxillofacial surgery services and relevant attendances.

Approved dental practitioners may also request certain diagnostic imaging services - refer to Category 5 - Diagnostic Imaging Services for more information.

### **ON.1.2 Changes to the Scheme Effective from 1 November 2004**

From 1 November 2004, access to Category 4 is restricted to those dental practitioners who were approved by the Minister prior to 1 November 2004. No new approvals will be granted after that date.

#### Background

Since 2000, practitioners performing oral and maxillofacial surgery in Australia are required to have both dental and medical qualifications in order to sit for their FRACDS(OMS) exam. This effectively means that since then, any practitioner who has obtained an FRACDS(OMS) or equivalent can access Category 3 of the MBS because they are medically qualified. The Government, in consultation with the Australian and New Zealand Association of Oral and Maxillofacial Surgeons, the Australian Dental Association, the Royal Australian College of Surgeons, the Royal Australian College of Dental Surgeons and the Australian Medical Association, has agreed that access by new practitioners to Category 4 will be withdrawn from 1 November 2004. Practitioners who were approved prior to that date will continue to have access to Category 4. The long-term proposal is that once all practitioners who currently access Category 4 have left the workforce, Category 4 will be removed from the Medicare Benefits Schedule.

Details of the services attracting Medicare benefits are set out in the Medicare Benefits Schedule.

### **ON.2.1 Definition of Oral and Maxillofacial Surgery**

Oral and Maxillofacial Surgery is defined as the surgical specialty which deals with the diagnosis, surgical and adjunctive treatment of diseases, injuries and defects of the oral and maxillofacial region.

### **ON.2.2 Services That Can Be Provided**

Dental practitioners holding the FRACDS (OMS) or equivalent who were approved by the Minister prior to 1 November 2004 may perform prescribed oral and maxillofacial services listed in this category. All dental practitioners approved for the purposes of subsection 3(1) of the Act are also recognised to perform those items of oral and maxillofacial surgery listed in Group C2 of the booklet "Medicare Benefits for Treatment of Cleft Lip and Cleft Palate Conditions".

It is emphasised that -

- the sole purpose of granting approval to dental practitioners is to enable payment of Medicare benefits;
- the services set out in Groups 01 to 011 of the Medicare Benefits Schedule book, and in the Cleft Lip and Cleft Palate Schedule are the only ones for which Medicare benefits are payable when the services are performed by an eligible dental practitioner.

### **ON.3.1 Principles of Interpretation**

Each professional service listed in the Schedule is a complete medical service in itself. Where a service is rendered partly by one practitioner and partly by another, only the one amount of benefit is payable.

### **ON.3.2 Multiple Operation Rule**

The Schedule fees for two or more operations performed on a patient on the one occasion are calculated by the following rule:-

100% for the item with the greatest Schedule fee, plus 50% for the item with the next greatest Schedule fee, plus 25% for each other item.

#### **NOTE:**

1. Fees so calculated which result in a sum which is not a multiple of 5 cents are to be taken to the next higher multiple of 5 cents
2. Where two or more operations performed on the one occasion have fees which are equal, one of these amounts shall be treated as being greater than the other or others of those amounts.
3. The Schedule fee for benefits purposes is the aggregate of the fees calculated in accordance with the above formula.

The above rule does not apply to an operation which is one of two or more operations performed under the one anaesthetic on the same patient by different dental practitioners unless either practitioner assists the other. In this case, the fees and benefits specified in the Schedule apply. For these purposes the term "operation" includes all services in Groups O3 to O9.

If the operation comprises a combination of procedures which are commonly performed together and for which a specific combined item is provided in the Schedule, it is regarded as the one item and service in applying the multiple operation rule.

### **ON.3.3 After Care (Post-operative Treatment)**

The fee specified for each of the operations listed in the Schedule contains a component for the consequential after-care customarily provided unless otherwise indicated. After-care is deemed to include all post-operative treatment rendered by practitioners and need not necessarily be limited to treatment given by the approved dental practitioner or to treatment given by any one practitioner. This does not preclude, however, the payment of benefit for professional services for the treatment by a dental practitioner of an intercurrent condition or an unusual complication arising from the operation.

Some minor operations are merely stages in the treatment of a particular condition. Professional services by dental practitioners subsequent to such operations should not be regarded as after-care but rather as continuation of the treatment of the original condition and should attract benefit. Item 52057 is a service to which this policy applies.

### **ON.3.4 Administration of Anaesthetics by Medical Practitioners**

When a medical practitioner administers an anaesthetic in connection with a procedure prescribed for the payment of Medicare benefits (and the procedure has been performed by an approved dental practitioner), Medicare benefits are payable for the administration of the anaesthetic on the same basis as if the procedure had been rendered by a medical practitioner.

The Schedule fee for anaesthesia is established using the RVG schedule at Category 3 - Group T10.

Before the payment of benefits for the administration of anaesthesia, or for the services of an assistant anaesthetist, a number of additional details are required on the anaesthetist's account:

- The anaesthetist's account must show the name/s of the medical practitioner/s who performed the associated operation/s. Also, where the after hours emergency modifier applies to the anaesthesia service, the account must include the start time, the end time and the total time of the anaesthesia;

- The assistant anaesthetist's account must show the name/s of the medical practitioners who performed the associated operation/s, as well as the name of the principle anaesthetist. In addition, where the after hours emergency modifier applies, the assistant anaesthetist's account must record the start time, the end time and the total time for which he or she was providing professional attention to the patient during the anaesthesia.

#### **ON.4.1 Consultations - (Items 51700 and 51703)**

The consultation item numbers (51700 and 51703) are to be used by approved dental practitioners in the practice of oral and maxillofacial surgery.

The referral must be from a registered dental practitioner or a medical practitioner.

#### **ON.4.2 Assistance at Operations - (Items 51800 and 51803)**

Items covering operations which are eligible for benefits for assistance by an approved dental practitioner in the practice of oral and maxillofacial surgery or surgical assistance have been identified by the inclusion of the word "Assist" in the item description. Medicare benefits are not payable for surgical assistance associated with procedures which have not been so identified.

The assistance must be rendered by a practitioner other than the surgeon, the anaesthetist or the assistant anaesthetist.

Where more than one practitioner provides assistance to an approved dental practitioner no additional benefits are payable. The assistance benefit is the same irrespective of the number of practitioners providing assistance.

##### Benefits payable under item 51800

Medicare benefits are payable under Item 51800 for assistance rendered at the following procedures:

51900, 51904, 52010, 52018, 52039, 52048, 52051, 52062, 52063, 52066, 52078, 52090, 52092, 52095, 52105, 52108, 52111, 52130, 52138, 52141, 52144, 52147, 52182, 52300, 52303, 52312, 52315, 52321, 52324, 52336, 52339, 52424, 52440, 52452, 52480, 52482, 52600, 52603, 52609, 52612, 52615, 52624, 52626, 52627, 52800, 52803, 52806, 52809, 52818, 52824, 52828, 52830, 53006, 53009, 53016, 53215, 53220, 53225, 53226, 53236, 53239, 53242, 53406, 53409, 53412, 53413, 53415, 53416, 53453, 53460.

Where assistance with any of the above procedures is provided by a medical practitioner, benefits are payable under item 51300.

##### Benefits payable under Item 51803

Medicare benefits are payable under Item 51803 for assistance rendered at the following procedures:

51906, 52054, 52094, 52114, 52117, 52120, 52122, 52123, 52126, 52129, 52131, 52148, 52158, 52184, 52186, 52306, 52330, 52333, 52337, 52342, 52345, 52348, 52351, 52354, 52357, 52360, 52363, 52366, 52369, 52372, 52375, 52378, 52379, 52380, 52382, 52430, 52442, 52444, 52446, 52456, 52484, 52618, 52621, 52812, 52815, 52821, 52832, 53015, 53017, 53019, 53209, 53212, 53218, 53221, 53224, 53227, 53230, 53233, 53414, 53418, 53419, 53422, 53423, 53424, 53425, 53427, 53429, 53455.

or at a combination of procedures (including those identified as payable under item 51800 above) for which the aggregate fee exceeds the amount specified in the item.

Where assistance with any of the above procedures is provided by a medical practitioner, benefits are payable under Item 51303.

##### Assistance at multiple operations

Where assistance is provided at two or more operations performed on a patient on the one occasion the multi operation formula is applied to all the operations to determine the surgical fee payable to each approved dental

practitioner. The multi-operation formula is then applied to those items at which assistance was rendered and for which Medicare benefits for assistance is payable to determine the abated fee level for assistance. The abated fee is used to determine the appropriate Schedule item covering the surgical assistance (ie either Items 51800/51300 or 51803/51303).

The derived fee applicable to Item 51803/51303 is calculated on the basis of one-fifth of the abated Schedule fee for the surgery.

#### **ON.4.3 Repair of Wound - (Item 51900)**

Item 51900 covers debridement of "deep and extensively contaminated" wound. Benefits are not payable under this item for debridement which would be expected to be encountered as part of an operative approach to the treatment of fractures.

#### **ON.4.4 Lipectomy, Wedge Excision - Two or More Excisions - (Item 51906)**

Multiple lipectomies attract benefits under Item 51906 once only, i.e. the multiple operation rule does not apply.

Medicare benefits are not payable in respect of liposuction.

#### **ON.4.5 Upper Aerodigestive Tract Endoscopic Procedure - (Item 52035)**

The following are guidelines of appropriate minimum standards for the performance of GI endoscopy in relation to (a) cleaning, disinfection and sterilisation procedures, and (b) anaesthetic and resuscitation equipment. These guidelines are based on the advice of the Gastroenterological Society of Australia, the Sections of HPB and Upper GI and of Colon and Rectal Surgery of the Royal Australasian College of Surgeons, and the Colorectal Surgical Society of Australia.

##### *Cleaning, disinfection and sterilisation procedures*

Endoscopic procedures should be performed in facilities where endoscope and accessory reprocessing protocols follow procedures outlined in:-

- (i) 'Infection and Endoscopy' (3rd edition), Gastroenterological Society of Australia;
- (ii) 'Infection control in the health care setting - Guidelines for the prevention of transmission of infectious diseases', National Health and Medical Research Council; and
- (iii) Australian Standard AS 4187-1994 (and Amendments), Standards Association of Australia.

##### *Anaesthetic and resuscitation equipment*

Where the patient is anaesthetised, anaesthetic equipment, administration and monitoring, and post operative and resuscitation facilities should conform to the standards outlined in 'Sedation for Endoscopy', Australian & New Zealand College of Anaesthetists, Gastroenterological Society of Australia and Royal Australasian College of Surgeons. These guidelines will be taken into account in determining appropriate practice in the context of the Professional Services Review process.

#### **ON.4.6 Tumour, cyst, Ulcer or Scar - (Items 52036 to 52054)**

It is recognised that odontogenic keratocysts, although not neoplastic, often require the surgical management of benign tumours.

#### **ON.4.7 Aspiration of Haematoma - (Item 52056)**

Aspiration of haematoma is indicated in clinical situations where incision may leave an unsightly scar or where access is difficult for conventional drainage.

#### **ON.4.8 Osteotomy of Jaw - (Items 52342 to 52375)**

The fee and benefit for these items include the various forms of internal or dental fixation, jaw immobilisation, the transposition of nerves and vessels and bone grafts taken from the same site.

Bone grafts taken from a separate site, e.g. iliac crest, would attract additional benefit under Item 52318 or 52319 for the harvesting, plus item 52130 or 52131 for the grafting.

Where the site of grafting under item 52131 requires closure by single stage local flap, item 52300 may be claimed where clinically appropriate. Clinically appropriate in this instance means that the flap is required to close defects because the defect cannot be closed directly.

A local skin flap is an area of skin or subcutaneous tissue designed to be elevated from the skin adjoining a defect requiring closure. The flap remains partially attached by pedicle and is moved to the defect by rotation, advancement or transposition, or a combination of these manoeuvres.

Benefits are only payable where the flap is required for adequate wound closure. A secondary defect will be created which may be closed by direct suture, skin grafting or sometimes a further local skin flap. This latter procedure will also attract benefit if closed by graft or flap repair but not been closed by direct suture.

By definition, direct wound closure (e.g. by suture) does not constitute skin flap. Similarly, angled, curved or trapdoor incisions which are used for exposure and which are sutured back into the same position relative to the adjacent tissues are not skin flap repairs. Undermining of the edges of the wound prior to suturing is considered a normal part of wound closure and is not considered to skin flap repair.

For the purposes of these items, a reference to maxilla includes the zygoma.

#### **ON.4.9 Genioplasty - (Item 52378)**

Genioplasty attracts benefit once only although a section is made on both sides of the symphysis of the mandible.

#### **ON.4.10 Fracture of Mandible or Maxilla - (Items 53400 to 53439)**

There are two maxillae in the skull and for the purpose of these items the mandible is regarded as comprising two bones.

Hence a bilateral fracture of the mandible would be assessed as:

- Item 53409 x 1½;
- two maxillae and one side of the mandible as Item 53406 x 1½ + 53409 x ¼.

Splinting in Item 53406 or 53409 refers to cap splints, arch bars, silver (cast metal) or acrylic splints.

#### **ON.4.12 Destruction of Nerve Branch by Neurolytic Agent - (Item 53706)**

Item 53706 includes the use of botulinum toxin as a neurolytic agent.

**ORAL AND MAXILLOFACIAL SERVICES ITEMS**

<b>O1. CONSULTATIONS</b>	
	<b>Group O1. Consultations</b>
	APPROVED DENTAL PRACTITIONER, REFERRED CONSULTATION - SURGERY, HOSPITAL OR RESIDENTIAL AGED CARE FACILITY
	Professional attendance (other than a second or subsequent attendance in a single course of treatment) by an approved dental practitioner, at consulting rooms, hospital or residential aged care facility where the patient is referred to him or her

52108	LIP, full thickness wedge excision of, with repair by direct sutures (Anaes.) (Assist.) <b>Fee:</b> \$336.20 <b>Benefit:</b> 75% = \$252.15    85% = \$285.80
52111	VERMILIONECTOMY (Anaes.) (Assist.) <b>Fee:</b> \$336.20 <b>Benefit:</b> 75% = \$252.15    85% = \$285.80
52114	MANDIBLE or MAXILLA, segmental resection of, for tumours or cysts (Anaes.) (Assist.) <b>Fee:</b> \$605.95 <b>Benefit:</b> 75% = \$454.50    85% = \$521.25
52117	MANDIBLE, including lower border, or MAXILLA, sub-total resection of (Anaes.) (Assist.) <b>Fee:</b> \$721.30 <b>Benefit:</b> 75% = \$541.00    85% = \$636.60
52120	MANDIBLE, hemimandiblectomy of, including condylectomy where performed (Anaes.) (Assist.) <b>Fee:</b> \$853.15 <b>Benefit:</b> 75% = \$639.90    85% = \$768.45
52122	MANDIBLE, hemi-mandibular reconstruction of, OR MAXILLA, reconstruction of, with BONE GRAFT, PLATE, TRAY OR ALLOPLAST, not being a service associated with a service to which item

<b>O3. GENERAL SURGERY</b>	
	52123 applies (Anaes.) (Assist.) <b>Fee:</b> \$853.15 <b>Benefit:</b> 75% = \$639.90    85% = \$768.45
52123	MANDIBLE, total resection of both sides, including condylectomies where performed (Anaes.) (Assist.) <b>Fee:</b> \$965.80 <b>Benefit:</b> 75% = \$724.35    85% = \$881.10
	52126 MAXILLA, total resection of (Anaes.) (Assist.) <b>Fee:</b> \$928.55 <b>Benefit:</b> 75% = \$696.45    85% = \$843.85
52129	MAXILLA, total resection of both maxillae (Anaes.) (Assist.) <b>Fee:</b> \$1,243.05 <b>Benefit:</b> 75% = \$932.30    85% = \$1158.35
52130	BONE GRAFT, not being a service to which another item in Groups O3 to O9 applies (Anaes.) (Assist.) <b>Fee:</b> \$456.30 <b>Benefit:</b> 75% = \$342.25    85% = \$387.90
52131	BONE GRAFT WITH INTERNAL FIXATION, not being a service to which an item in the range  (a) 51900 to 52186; or (b) 52303 to 53460 applies (Anaes.) (Assist.) <b>Fee:</b> \$631.05 <b>Benefit:</b> 75% = \$473.30    85% = \$546.35
52132	TRACHEOSTOMY (Anaes.) <b>Fee:</b> \$256.75 <b>Benefit:</b> 75% = \$192.60    85% = \$218.25
52133	CRICOTHYROSTOMY by direct stab or Seldinger technique, using Minitrach or similar device (Anaes.) <b>Fee:</b> \$93.90 <b>Benefit:</b> 75% = \$70.45    85% = \$79.85
52135	POST-OPERATIVE or POST-NASAL HAEMORRHAGE, or both, control of, where undertaken in the operating theatre of a hospital (Anaes.) <b>Fee:</b> \$148.85 <b>Benefit:</b> 75% = \$111.65
52138	MAXILLARY ARTERY, ligation of (Anaes.) (Assist.) <b>Fee:</b> \$462.60 <b>Benefit:</b> 75% = \$346.95    85% = \$393.25
52141	FACIAL, MANDIBULAR or LINGUAL ARTERY or VEIN or ARTERY and VEIN, ligation of, not being a service to which item 52138 applies (Anaes.) (Assist.) <b>Fee:</b> \$457.55 <b>Benefit:</b> 75% = \$343.20    85% = \$388.95
52144	FOREIGN BODY, deep, removal of using interventional imaging techniques (Anaes.) (Assist.) <b>Fee:</b> \$426.45 <b>Benefit:</b> 75% = \$319.85    85% = \$362.50
52147	DUCT OF MAJOR SALIVARY GLAND, transposition of (Anaes.) (Assist.) <b>Fee:</b> \$402.45 <b>Benefit:</b> 75% = \$301.85    85% = \$342.10
52148	PAROTID DUCT, repair of, using micro-surgical techniques (Anaes.) (Assist.) <b>Fee:</b> \$711.35 <b>Benefit:</b> 75% = \$533.55    85% = \$626.65
52158	SUBMANDIBULAR DUCTS, relocation of, for surgical control of drooling (Anaes.) (Assist.) <b>Fee:</b> \$1,145.35 <b>Benefit:</b> 75% = \$859.05    85% = \$1060.65
52180	MALIGNANT DISEASE

<b>03. GENERAL SURGERY</b>	
	AGGRESSIVE OR POTENTIALLY MALIGNANT BONE OR DEEP SOFT TISSUE TUMOUR, biopsy of (not including aftercare) (Anaes.) <b>Fee:</b> \$194.05 <b>Benefit:</b> 75% = \$145.55    85% = \$164.95
52182	BONE OR MALIGNANT DEEP SOFT TISSUE TUMOUR, lesional or marginal excision of (Anaes.) (Assist.) <b>Fee:</b> \$427.20 <b>Benefit:</b> 75% = \$320.40    85% = \$363.15
52184	BONE TUMOUR, lesional or marginal excision of, combined with any 1 of: liquid nitrogen freezing, autograft, allograft or cementation (Anaes.) (Assist.) <b>Fee:</b> \$631.05 <b>Benefit:</b> 75% = \$473.30    85% = \$546.35
52186	BONE TUMOUR, lesional or marginal excision of, combined with any 2 or more of: liquid nitrogen freezing, autograft, allograft or cementation (Anaes.) (Assist.) <b>Fee:</b> \$776.80 <b>Benefit:</b> 75% = \$582.60    85% = \$692.10
<b>04. PLASTIC &amp; RECONSTRUCTIVE</b>	
	<b>Group 04. Plastic &amp; Reconstructive</b>
52300	SINGLE-STAGE LOCAL FLAP, where indicated, repair to 1 defect, with skin or mucosa (Anaes.) (Assist.) <b>Fee:</b> \$293.25 <b>Benefit:</b> 75% = \$219.95    85% = \$249.30
52303	SINGLE-STAGE LOCAL FLAP, where indicated, repair to 1 defect, with buccal pad of fat (Anaes.) (Assist.) <b>Fee:</b> \$418.75 <b>Benefit:</b> 75% = \$314.10    85% = \$355.95
52306	SINGLE-STAGE LOCAL FLAP, where indicated, repair to 1 defect, using temporalis muscle (Anaes.) (Assist.) <b>Fee:</b> \$621.30 <b>Benefit:</b> 75% = \$466.00    85% = \$536.60
52309	FREE GRAFTING (mucosa or split skin) of a granulating area (Anaes.) <b>Fee:</b> \$211.10 <b>Benefit:</b> 75% = \$158.35    85% = \$179.45
52312	FREE GRAFTING (mucosa, split skin or connective tissue) to 1 defect, including elective dissection (Anaes.) (Assist.) <b>Fee:</b> \$293.25 <b>Benefit:</b> 75% = \$219.95    85% = \$249.30
52315	FREE GRAFTING, FULL THICKNESS, to 1 defect (mucosa or skin) (Anaes.) (Assist.) <b>Fee:</b> \$488.55 <b>Benefit:</b> 75% = \$366.45    85% = \$415.30
52318	BONE GRAFT, harvesting of, via separate incision, being a service associated with a service to which another item in Groups O3 to O9 applies - Autogenous - small quantity (Anaes.) <b>Fee:</b> \$145.65 <b>Benefit:</b> 75% = \$109.25    85% = \$123.85
52319	BONE GRAFT, harvesting of, via separate incision, being a service associated with a service to which another item in Groups O3 to O9 applies - Autogenous - large quantity (Anaes.) <b>Fee:</b> \$242.85 <b>Benefit:</b> 75% = \$182.15    85% = \$206.45
52321	FOREIGN IMPLANT (NON-BIOLOGICAL), insertion of, for CONTOUR RECONSTRUCTION of pathological deformity, not being a service associated with a service to which item 52624 applies (Anaes.) (Assist.) <b>Fee:</b> \$488.55 <b>Benefit:</b> 75% = \$366.45    85% = \$415.30

<b>04. PLASTIC &amp; RECONSTRUCTIVE</b>	
52324	DIRECT FLAP REPAIR, using tongue, first stage (Anaes.) (Assist.) <b>Fee:</b> \$488.55 <b>Benefit:</b> 75% = \$366.45    85% = \$415.30
52327	DIRECT FLAP REPAIR, using tongue, second stage (Anaes.) <b>Fee:</b> \$242.40 <b>Benefit:</b> 75% = \$181.80    85% = \$206.05
52330	PALATAL DEFECT (oro-nasal fistula), plastic closure of, including services to which item 52300, 52303, 52306 or 52324 applies (Anaes.) (Assist.) <b>Fee:</b> \$806.35 <b>Benefit:</b> 75% = \$604.80    85% = \$721.65
52333	CLEFT PALATE, primary repair (Anaes.) (Assist.) <b>Fee:</b> \$806.35 <b>Benefit:</b> 75% = \$604.80    85% = \$721.65
52336	CLEFT PALATE, secondary repair, closure of fistula using local flaps (Anaes.) (Assist.) <b>Fee:</b> \$504.00 <b>Benefit:</b> 75% = \$378.00    85% = \$428.40
52337	ALVEOLAR CLEFT (congenital) unilateral, grafting of, including plastic closure of associated oro-nasal fistulae and ridge augmentation (Anaes.) (Assist.) <b>Fee:</b> \$1,102.50 <b>Benefit:</b> 75% = \$826.90    85% = \$1017.80
52339	CLEFT PALATE, secondary repair, lengthening procedure (Anaes.) (Assist.) <b>Fee:</b> \$574.00 <b>Benefit:</b> 75% = \$430.50    85% = \$489.30
52342	MANDIBLE or MAXILLA, unilateral osteotomy or osteectomy of, including transposition of nerves and vessels and bone grafts taken from the same site (Anaes.) (Assist.)  (See para ON.4.8 of explanatory notes to this Category) <b>Fee:</b> \$997.00 <b>Benefit:</b> 75% = \$747.75
52345	MANDIBLE or MAXILLA, unilateral osteotomy or osteectomy of, including transposition of nerves and vessels and bone grafts taken from the same site and stabilisation with fixation by wires, screws, plates or pins, or any combination (Anaes.) (Assist.)  (See para ON.4.8 of explanatory notes to this Category) <b>Fee:</b> \$1,124.40 <b>Benefit:</b> 75% = \$843.30
52348	MANDIBLE or MAXILLA, bilateral osteotomy or osteectomy of, including transposition of nerves and vessels and bone grafts taken from the same site (Anaes.) (Assist.)  (See para ON.4.8 of explanatory notes to this Category) <b>Fee:</b> \$1,270.55 <b>Benefit:</b> 75% = \$952.95
52351	MANDIBLE or MAXILLA, bilateral osteotomy or osteectomy of, including transposition of nerves and vessels and bone grafts taken from the same site and stabilisation with fixation by wires, screws, plates or pins, or any combination (Anaes.) (Assist.)  (See para ON.4.8 of explanatory notes to this Category) <b>Fee:</b> \$1,426.90 <b>Benefit:</b> 75% = \$1070.20
52354	MANDIBLE or MAXILLA, osteotomies or osteectomies of, involving 3 or more such procedures on the 1 jaw, including transposition of nerves and vessels and bone grafts taken from the same site (Anaes.) (Assist.)  (See para ON.4.8 of explanatory notes to this Category) <b>Fee:</b> \$1,446.55 <b>Benefit:</b> 75% = \$1084.95
52357	MANDIBLE or MAXILLA, osteotomies or osteectomies of, involving 3 or more such procedures on the 1 jaw, including transposition of nerves and vessels and bone grafts taken from the same site and stabilisation with fixation by wires, screws, plates or pins, or any combination (Anaes.) (Assist.)  (See para ON.4.8 of explanatory notes to this Category)

<b>04. PLASTIC &amp; RECONSTRUCTIVE</b>	
	<b>Fee:</b> \$1,628.50 <b>Benefit:</b> 75% = \$1221.40
52360	MANDIBLE and MAXILLA, osteotomies or osteectomies of, involving 2 such procedures of each jaw, including transposition of nerves and vessels and bone grafts taken from the same site (Anaes.) (Assist.)  (See para ON.4.8 of explanatory notes to this Category) <b>Fee:</b> \$1,661.40 <b>Benefit:</b> 75% = \$1246.05
52363	MANDIBLE and MAXILLA, osteotomies or osteectomies of, involving 2 such procedures of each jaw, including transposition of nerves and vessels and bone grafts taken from the same site and stabilisation with fixation by wires, screws, plates or pins, or any combination (Anaes.) (Assist.)  (See para ON.4.8 of explanatory notes to this Category) <b>Fee:</b> \$1,869.00 <b>Benefit:</b> 75% = \$1401.75
52366	MANDIBLE and MAXILLA, complex bilateral osteotomies or osteectomies of, involving 3 or more such procedures of 1 jaw and 2 such procedures of the other jaw, including genioplasty when performed and transposition of nerves and vessels and bone grafts taken from the same site (Anaes.) (Assist.)  (See para ON.4.8 of explanatory notes to this Category) <b>Fee:</b> \$1,827.65 <b>Benefit:</b> 75% = \$1370.75
52369	MANDIBLE and MAXILLA, complex bilateral osteotomies or osteectomies of, involving 3 or more such procedures of 1 jaw and 2 such procedures of the other jaw, including genioplasty when performed and transposition of nerves and vessels and bone grafts taken from the same site and stabilisation with fixation by wires, screws, plates or pins, or any combination (Anaes.) (Assist.)  (See para ON.4.8 of explanatory notes to this Category) <b>Fee:</b> \$2,054.95 <b>Benefit:</b> 75% = \$1541.25
52372	MANDIBLE and MAXILLA, complex bilateral osteotomies or osteectomies of, involving 3 or more such procedures of each jaw, including genioplasty when performed and transposition of nerves and vessels and bone grafts taken from the same site (Anaes.) (Assist.)  (See para ON.4.8 of explanatory notes to this Category) <b>Fee:</b> \$1,993.95 <b>Benefit:</b> 75% = \$1495.50
52375	MANDIBLE and MAXILLA, complex bilateral osteotomies or osteectomies of, involving 3 or more such procedures of each jaw, including genioplasty when performed and transposition of nerves and vessels and bone grafts taken from the same site and stabilisation with fixation by wires, screws, plates or pins, or any combination (H) (Anaes.) (Assist.)  (See para ON.4.8 of explanatory notes to this Category) <b>Fee:</b> \$2,233.40 <b>Benefit:</b> 75% = \$1675.05
52378	GENIOPLASTY including transposition of nerves and vessels and bone grafts taken from the same site (Anaes.) (Assist.)  (See para ON.4.9 of explanatory notes to this Category) <b>Fee:</b> \$772.05 <b>Benefit:</b> 75% = \$579.05    85% = \$687.35
52379	FACE, contour reconstruction of 1 region, using autogenous bone or cartilage graft (Anaes.) (Assist.)  <b>Fee:</b> \$1,319.40 <b>Benefit:</b> 75% = \$989.55    85% = \$1234.70
52380	MIDFACIAL OSTEOTOMIES - Le Fort II, Modified Le Fort III (Nasomalar), Modified Le Fort III (Malar-Maxillary), Le Fort III involving 3 or more osteotomies of the midface including transposition of nerves and vessels and bone grafts taken from the same site (Anaes.) (Assist.)  <b>Fee:</b> \$2,246.65 <b>Benefit:</b> 75% = \$1685.00    85% = \$2161.95
52382	MIDFACIAL OSTEOTOMIES - Le Fort II, Modified Le Fort III (Nasomalar), Modified Le Fort III (Malar-Maxillary), Le Fort III involving 3 or more osteotomies of the midface including transposition of nerves and vessels and bone grafts taken from the same site and stabilisation with fixation by wires, screws, plates or pins, or any combination (Anaes.) (Assist.)

<b>O4. PLASTIC &amp; RECONSTRUCTIVE</b>	
	<b>Fee:</b> \$2,693.20 <b>Benefit:</b> 75% = \$2019.90    85% = \$2608.50
52420	MANDIBLE, fixation by intermaxillary wiring, excluding wiring for obesity <b>Fee:</b> \$248.65 <b>Benefit:</b> 75% = \$186.50    85% = \$211.40
52424	DERMIS, DERMOFAT OR FASCIA GRAFT (excluding transfer of fat by injection) (Anaes.) (Assist.) <b>Fee:</b> \$488.45 <b>Benefit:</b> 75% = \$366.35    85% = \$415.20
52430	MICROVASCULAR REPAIR OF, using microsurgical techniques, with restoration of continuity of artery or vein of distal extremity or digit (Anaes.) (Assist.) <b>Fee:</b> \$1,124.40 <b>Benefit:</b> 75% = \$843.30    85% = \$1039.70
52440	CLEFT LIP, unilateral - primary repair, 1 stage, without anterior palate repair (Anaes.) (Assist.) <b>Fee:</b> \$558.25 <b>Benefit:</b> 75% = \$418.70    85% = \$474.55
52442	CLEFT LIP, unilateral - primary repair, 1 stage, with anterior palate repair (Anaes.) (Assist.) <b>Fee:</b> \$697.95 <b>Benefit:</b> 75% = \$523.50    85% = \$613.25
52444	CLEFT LIP, bilateral - primary repair, 1 stage, without anterior palate repair (Anaes.) (Assist.) <b>Fee:</b> \$775.35 <b>Benefit:</b> 75% = \$581.55    85% = \$690.65
52446	CLEFT LIP, bilateral - primary repair, 1 stage, with anterior palate repair (Anaes.) (Assist.) <b>Fee:</b> \$915.25 <b>Benefit:</b> 75% = \$686.45    85% = \$830.55
52450	CLEFT LIP, partial revision, including minor flap revision alignment and adjustment, including revision of minor whistle deformity if performed (Anaes.) <b>Fee:</b> \$310.15 <b>Benefit:</b> 75% = \$232.65    85% = \$263.65
52452	CLEFT LIP, total revision, including major flap revision, muscle reconstruction and revision of major whistle deformity (Anaes.) (Assist.) <b>Fee:</b> \$504.00 <b>Benefit:</b> 75% = \$378.00    85% = \$428.40
52456	CLEFT LIP RECONSTRUCTION using full thickness flap (Abbe or similar), first stage (Anaes.) (Assist.) <b>Fee:</b> \$853.15 <b>Benefit:</b> 75% = \$639.90    85% = \$768.45
52458	CLEFT LIP RECONSTRUCTION using full thickness flap (Abbe or similar), second stage (Anaes.) <b>Fee:</b> \$310.15 <b>Benefit:</b> 75% = \$232.65    85% = \$263.65
52460	VELO-PHARYNGEAL INCOMPETENCE, pharyngeal flap for, or pharyngoplasty for (Anaes.) <b>Fee:</b> \$806.35 <b>Benefit:</b> 75% = \$604.80    85% = \$721.65
52480	COMPOSITE GRAFT (Chondro-cutaneous or chondro-mucosal) to nose, ear or eyelid (Anaes.) (Assist.) <b>Fee:</b> \$517.95 <b>Benefit:</b> 75% = \$388.50    85% = \$440.30
52482	MACROCHEILIA or macroglossia, operation for (Anaes.) (Assist.) <b>Fee:</b> \$498.35 <b>Benefit:</b> 75% = \$373.80    85% = \$423.60
52484	MACROSTOMIA, operation for (Anaes.) (Assist.) <b>Fee:</b> \$593.25 <b>Benefit:</b> 75% = \$444.95    85% = \$508.55
<b>O5. PREPROSTHETIC</b>	
	<b>Group O5. Preprosthetic</b>
52600	MANDIBULAR OR PALATAL EXOSTOSIS, excision of (Anaes.) (Assist.)

<b>05. PREPROSTHETIC</b>	
	<b>Fee:</b> \$348.90 <b>Benefit:</b> 75% = \$261.70    85% = \$296.60
	MYLOHYOID RIDGE, reduction of (Anaes.) (Assist.)
52603	<b>Fee:</b> \$333.50 <b>Benefit:</b> 75% = \$250.15    85% = \$283.50
	MAXILLARY TUBEROSITY, reduction of (Anaes.)
52606	<b>Fee:</b> \$254.40 <b>Benefit:</b> 75% = \$190.80    85% = \$216.25
	PAPILLARY HYPERPLASIA OF THE PALATE, removal of - less than 5 lesions (Anaes.) (Assist.)
52609	<b>Fee:</b> \$333.50 <b>Benefit:</b> 75% = \$250.15    85% = \$283.50
	PAPILLARY HYPERPLASIA OF THE PALATE, removal of - 5 to 20 lesions (Anaes.) (Assist.)
52612	<b>Fee:</b> \$418.75 <b>Benefit:</b> 75% = \$314.10    85% = \$355.95
	PAPILLARY HYPERPLASIA OF THE PALATE, removal of - more than 20 lesions (Anaes.) (Assist.)
52615	<b>Fee:</b> \$519.60 <b>Benefit:</b> 75% = \$389.70    85% = \$441.70
	VESTIBULOPLASTY, submucosal or open, including excision of muscle and skin or mucosal graft when performed - unilateral or bilateral (Anaes.) (Assist.)
52618	<b>Fee:</b> \$604.85 <b>Benefit:</b> 75% = \$453.65    85% = \$520.15
	FLOOR OF MOUTH LOWERING (Obwegeser or similar procedure), including excision of muscle and skin or mucosal graft when performed - unilateral (Anaes.) (Assist.)
52621	<b>Fee:</b> \$604.85 <b>Benefit:</b> 75% = \$453.65    85% = \$520.15
	ALVEOLAR RIDGE AUGMENTATION with bone or alloplast or both - unilateral (Anaes.) (Assist.)
52624	<b>Fee:</b> \$488.45 <b>Benefit:</b> 75% = \$366.35    85% = \$415.20
	ALVEOLAR RIDGE AUGMENTATION - unilateral, insertion of tissue expanding device into maxillary or mandibular alveolar ridge region for (Anaes.) (Assist.)
52626	<b>Fee:</b> \$299.60 <b>Benefit:</b> 75% = \$224.70    85% = \$254.70
	OSSEO-INTEGRATION PROCEDURE - in the practice of oral and maxillofacial surgery, extra oral implantation of titanium fixture (Anaes.) (Assist.)
52627	<b>Fee:</b> \$519.60 <b>Benefit:</b> 75% = \$389.70    85% = \$441.70
	OSSEO-INTEGRATION PROCEDURE - in the practice of oral and maxillofacial surgery, fixation of transcutaneous abutment (Anaes.)
52630	<b>Fee:</b> \$192.35 <b>Benefit:</b> 75% = \$144.30    85% = \$163.50
	OSSEO-INTEGRATION PROCEDURE - intra-oral implantation of titanium fixture to facilitate restoration of the dentition following resection of part of the maxilla or mandible for benign or malignant tumours (Anaes.)
52633	<b>Fee:</b> \$519.60 <b>Benefit:</b> 75% = \$389.70    85% = \$441.70
	OSSEO-INTEGRATION PROCEDURE - fixation of transmucosal abutment to fixtures placed following resection of part of the maxilla or mandible for benign or malignant tumours (Anaes.)
52636	<b>Fee:</b> \$192.35 <b>Benefit:</b> 75% = \$144.30    85% = \$163.50
<b>06. NEUROSURGICAL</b>	
	<b>Group 06. Neurosurgical</b>
	NEUROLYSIS BY OPEN OPERATION, without transposition, not being a service associated with a service to which item 52803 applies (Anaes.) (Assist.)
52800	<b>Fee:</b> \$285.45 <b>Benefit:</b> 75% = \$214.10    85% = \$242.65
52803	NERVE TRUNK, internal (interfascicular), NEUROLYSIS of, using microsurgical techniques (Anaes.)

<b>O6. NEUROSURGICAL</b>	
	(Assist.) <b>Fee:</b> \$411.00 <b>Benefit:</b> 75% = \$308.25    85% = \$349.35
52806	NEURECTOMY, NEUROTOMY or REMOVAL OF TUMOUR from superficial peripheral nerve (Anaes.) (Assist.) <b>Fee:</b> \$285.45 <b>Benefit:</b> 75% = \$214.10    85% = \$242.65
52809	NEURECTOMY, NEUROTOMY or REMOVAL OF TUMOUR from deep peripheral nerve (Anaes.) (Assist.) <b>Fee:</b> \$488.55 <b>Benefit:</b> 75% = \$366.45    85% = \$415.30
52812	NERVE TRUNK, PRIMARY repair of, using microsurgical techniques (Anaes.) (Assist.) <b>Fee:</b> \$697.95 <b>Benefit:</b> 75% = \$523.50    85% = \$613.25
52815	NERVE TRUNK, SECONDARY repair of, using microsurgical techniques (Anaes.) (Assist.) <b>Fee:</b> \$736.70 <b>Benefit:</b> 75% = \$552.55    85% = \$652.00
52818	NERVE, TRANSPOSITION OF (Anaes.) (Assist.) <b>Fee:</b> \$488.55 <b>Benefit:</b> 75% = \$366.45    85% = \$415.30
52821	NERVE GRAFT TO NERVE TRUNK, (cable graft) including harvesting of nerve graft using microsurgical techniques (Anaes.) (Assist.) <b>Fee:</b> \$1,062.40 <b>Benefit:</b> 75% = \$796.80    85% = \$977.70
52824	PERIPHERAL BRANCHES OF THE TRIGEMINAL NERVE, cryosurgery of, for pain relief (Anaes.) (Assist.) <b>Fee:</b> \$457.55 <b>Benefit:</b> 75% = \$343.20    85% = \$388.95
52826	INJECTION OF PRIMARY BRANCH OF TRIGEMINAL NERVE with alcohol, cortisone, phenol, or similar substance (Anaes.) <b>Fee:</b> \$245.00 <b>Benefit:</b> 75% = \$183.75    85% = \$208.25
52828	CUTANEOUS NERVE, primary repair of, using microsurgical techniques (Anaes.) (Assist.) <b>Fee:</b> \$364.40 <b>Benefit:</b> 75% = \$273.30    85% = \$309.75
52830	CUTANEOUS NERVE, secondary repair of, using microsurgical techniques (Anaes.) (Assist.) <b>Fee:</b> \$480.65 <b>Benefit:</b> 75% = \$360.50    85% = \$408.60
52832	CUTANEOUS NERVE, nerve graft to, using microsurgical techniques (Anaes.) (Assist.) <b>Fee:</b> \$659.20 <b>Benefit:</b> 75% = \$494.40    85% = \$574.50
<b>O7. EAR, NOSE &amp; THROAT</b>	
	<b>Group O7. Ear, Nose &amp; Throat</b>
53000	MAXILLARY ANTRUM, PROOF PUNCTURE AND LAVAGE OF (Anaes.) <b>Fee:</b> \$33.55 <b>Benefit:</b> 75% = \$25.20    85% = \$28.55
53003	MAXILLARY ANTRUM, proof puncture and lavage of, under general anaesthesia (requiring admission to hospital) not being a service associated with a service to which another item in Groups O3 to O9 applies (Anaes.) <b>Fee:</b> \$94.75 <b>Benefit:</b> 75% = \$71.10    85% = \$80.55
53004	MAXILLARY ANTRUM, LAVAGE OF - each attendance at which the procedure is performed, including any associated consultation (Anaes.) <b>Fee:</b> \$36.70 <b>Benefit:</b> 75% = \$27.55    85% = \$31.20

<b>07. EAR, NOSE &amp; THROAT</b>	
	ANTROSTOMY (RADICAL) (Anaes.) (Assist.)
53006	<b>Fee:</b> \$537.55 <b>Benefit:</b> 75% = \$403.20    85% = \$456.95
	ANTRUM, intranasal operation on, or removal of foreign body from (Anaes.) (Assist.)
53009	<b>Fee:</b> \$304.95 <b>Benefit:</b> 75% = \$228.75    85% = \$259.25
	ANTRUM, drainage of, through tooth socket (Anaes.)
53012	<b>Fee:</b> \$121.25 <b>Benefit:</b> 75% = \$90.95    85% = \$103.10
	ORO-ANTRAL FISTULA, plastic closure of (Anaes.) (Assist.)
53015	<b>Fee:</b> \$605.95 <b>Benefit:</b> 75% = \$454.50    85% = \$521.25
	NASAL SEPTUM, septoplasty, submucous resection or closure of septal perforation (Anaes.) (Assist.)
53016	<b>Fee:</b> \$498.35 <b>Benefit:</b> 75% = \$373.80    85% = \$423.60
	NASAL SEPTUM, reconstruction of (Anaes.) (Assist.)
53017	<b>Fee:</b> \$621.70 <b>Benefit:</b> 75% = \$466.30    85% = \$537.00
	MAXILLARY SINUS, BONE GRAFT to floor of maxillary sinus following elevation of mucosal lining (sinus lift procedure), (unilateral) (Anaes.) (Assist.)
53019	<b>Fee:</b> \$599.05 <b>Benefit:</b> 75% = \$449.30    85% = \$514.35
	POST-NASAL SPACE, direct examination of, with or without biopsy (Anaes.)
53052	<b>Fee:</b> \$126.65 <b>Benefit:</b> 75% = \$95.00    85% = \$107.70
	NASENOSCOPY or SINOSCOPY or FIBREOPTIC EXAMINATION of NASOPHARYNX one or more of these procedures (Anaes.)
53054	<b>Fee:</b> \$126.65 <b>Benefit:</b> 75% = \$95.00    85% = \$107.70
	EXAMINATION OF NASAL CAVITY or POST-NASAL SPACE, or NASAL CAVITY AND POST-NASAL SPACE, UNDER GENERAL ANAESTHESIA, not being a service associated with a service to which another item in this Group applies (Anaes.)
53056	<b>Fee:</b> \$74.20 <b>Benefit:</b> 75% = \$55.65    85% = \$63.10
	NASAL HAEMORRHAGE, POSTERIOR, ARREST OF, with posterior nasal packing with or without cauterisation and with or without anterior pack (excluding aftercare) (Anaes.)
53058	<b>Fee:</b> \$126.65 <b>Benefit:</b> 75% = \$95.00    85% = \$107.70
	CAUTERISATION (other than by chemical means) OR CAUTERISATION by chemical means when performed under general anaesthesia OR DIATHERMY OF SEPTUM, TURBINATES FOR OBSTRUCTION OR HAEMORRHAGE SECONDARY TO SURGERY (OR TRAUMA) - 1 or more of these procedures (including any consultation on the same occasion) not being a service associated with any other operation on the nose (Anaes.)
53060	<b>Fee:</b> \$103.65 <b>Benefit:</b> 75% = \$77.75    85% = \$88.15
	POST SURGICAL NASAL HAEMORRHAGE, arrest of during an episode of epistaxis by cauterisation or nasal cavity packing or both (Anaes.)
53062	<b>Fee:</b> \$92.80 <b>Benefit:</b> 75% = \$69.60    85% = \$78.90
	CRYOTHERAPY TO NOSE in the treatment of nasal haemorrhage (Anaes.)
53064	<b>Fee:</b> \$168.05 <b>Benefit:</b> 75% = \$126.05    85% = \$142.85
	TURBINECTOMY or TURBINECTOMIES, partial or total, unilateral (Anaes.)
53068	<b>Fee:</b> \$140.80 <b>Benefit:</b> 75% = \$105.60    85% = \$119.70

<b>07. EAR, NOSE &amp; THROAT</b>	
53070	TURBINATES, submucous resection of, unilateral (Anaes.) <b>Fee:</b> \$183.60 <b>Benefit:</b> 75% = \$137.70    85% = \$156.10
<b>08. TEMPOROMANDIBULAR JOINT</b>	
	<b>Group 08. Temporomandibular Joint</b>
53200	MANDIBLE, treatment of a dislocation of, not requiring open reduction (Anaes.) <b>Fee:</b> \$72.90 <b>Benefit:</b> 75% = \$54.70    85% = \$62.00
53203	MANDIBLE, treatment of a dislocation of, requiring open reduction (Anaes.) <b>Fee:</b> \$122.40 <b>Benefit:</b> 75% = \$91.80    85% = \$104.05
53206	TEMPOROMANDIBULAR JOINT, manipulation of, performed in the operating theatre of a hospital, not being a service associated with a service to which another item in Groups O3 to O9 applies (Anaes.) <b>Fee:</b> \$147.45 <b>Benefit:</b> 75% = \$110.60
53209	GLENOID FOSSA, ZYGOMATIC ARCH and TEMPORAL BONE, reconstruction of (Obwegeser technique) (Anaes.) (Assist.) <b>Fee:</b> \$1,700.65 <b>Benefit:</b> 75% = \$1275.50    85% = \$1615.95
53212	ABSENT CONDYLE and ASCENDING RAMUS in hemifacial microsomia, construction of, not including harvesting of graft material (Anaes.) (Assist.) <b>Fee:</b> \$918.70 <b>Benefit:</b> 75% = \$689.05    85% = \$834.00
53215	TEMPOROMANDIBULAR JOINT, arthroscopy of, with or without biopsy, not being a service associated with any other arthroscopic procedure of that joint (Anaes.) (Assist.) <b>Fee:</b> \$421.50 <b>Benefit:</b> 75% = \$316.15    85% = \$358.30
53218	TEMPOROMANDIBULAR JOINT, arthroscopy of, removal of loose bodies, debridement, or treatment of adhesions - 1 or more such procedures (Anaes.) (Assist.) <b>Fee:</b> \$674.20 <b>Benefit:</b> 75% = \$505.65    85% = \$589.50
53220	TEMPOROMANDIBULAR JOINT, arthrotomy of, not being a service to which another item in this Group applies (Anaes.) (Assist.) <b>Fee:</b> \$339.85 <b>Benefit:</b> 75% = \$254.90    85% = \$288.90
53221	TEMPOROMANDIBULAR JOINT, open surgical exploration of, with or without microsurgical techniques (Anaes.) (Assist.) <b>Fee:</b> \$899.55 <b>Benefit:</b> 75% = \$674.70    85% = \$814.85
53224	TEMPOROMANDIBULAR JOINT, open surgical exploration of, with condylectomy or condylotomy, with or without microsurgical techniques (Anaes.) (Assist.) <b>Fee:</b> \$997.20 <b>Benefit:</b> 75% = \$747.90    85% = \$912.50
53225	ARTHROCENTESIS, irrigation of temporomandibular joint after insertion of 2 cannuli into the appropriate joint space(s) (Anaes.) (Assist.) <b>Fee:</b> \$299.60 <b>Benefit:</b> 75% = \$224.70    85% = \$254.70
53226	TEMPOROMANDIBULAR JOINT, synovectomy of, not being a service to which another item in this Group applies (Anaes.) (Assist.) <b>Fee:</b> \$322.05 <b>Benefit:</b> 75% = \$241.55    85% = \$273.75
53227	TEMPOROMANDIBULAR JOINT, open surgical exploration of, with or without meniscus or capsular surgery, including meniscectomy when performed, with or without microsurgical techniques (Anaes.) (Assist.)

<b>08. TEMPOROMANDIBULAR JOINT</b>	
	<b>Fee:</b> \$1,225.30 <b>Benefit:</b> 75% = \$919.00    85% = \$1140.60
	TEMPOROMANDIBULAR JOINT, open surgical exploration of, with meniscus, capsular and condylar head surgery, with or without microsurgical techniques (Anaes.) (Assist.)
53230	<b>Fee:</b> \$1,380.25 <b>Benefit:</b> 75% = \$1035.20    85% = \$1295.55
	TEMPOROMANDIBULAR JOINT, surgery of, involving procedures to which items 53224, 53226, 53227 and 53230 apply and also involving the use of tissue flaps, or cartilage graft, or allograft implants, with or without microsurgical techniques (Anaes.) (Assist.)
53233	<b>Fee:</b> \$1,551.00 <b>Benefit:</b> 75% = \$1163.25    85% = \$1466.30
	TEMPOROMANDIBULAR JOINT, stabilisation of, involving 1 or more of: repair of capsule, repair of ligament or internal fixation, not being a service to which another item in this Group applies (Anaes.) (Assist.)
53236	<b>Fee:</b> \$485.40 <b>Benefit:</b> 75% = \$364.05    85% = \$412.60
	TEMPOROMANDIBULAR JOINT, arthrodesis of, not being a service to which another item in this Group applies (Anaes.) (Assist.)
53239	<b>Fee:</b> \$485.40 <b>Benefit:</b> 75% = \$364.05    85% = \$412.60
	TEMPOROMANDIBULAR JOINT OR JOINTS, application of external fixator to, other than for treatment of fractures (Anaes.) (Assist.)
53242	<b>Fee:</b> \$322.05 <b>Benefit:</b> 75% = \$241.55    85% = \$273.75
<b>09. TREATMENT OF FRACTURES</b>	
	<b>Group 09. Treatment Of Fractures</b>
	MAXILLA, unilateral or bilateral, treatment of fracture of, not requiring splinting  (See para ON.4.10 of explanatory notes to this Category)
53400	<b>Fee:</b> \$133.20 <b>Benefit:</b> 75% = \$99.90    85% = \$113.25
	MANDIBLE, treatment of fracture of, not requiring splinting  (See para ON.4.10 of explanatory notes to this Category)
53403	<b>Fee:</b> \$162.80 <b>Benefit:</b> 75% = \$122.10    85% = \$138.40
	MAXILLA, treatment of fracture of, requiring splinting, wiring of teeth, circumosseous fixation or external fixation (Anaes.) (Assist.)  (See para ON.4.10 of explanatory notes to this Category)
53406	<b>Fee:</b> \$419.35 <b>Benefit:</b> 75% = \$314.55    85% = \$356.45
	MANDIBLE, treatment of fracture of, requiring splinting, wiring of teeth, circumosseous fixation or external fixation (Anaes.) (Assist.)  (See para ON.4.10 of explanatory notes to this Category)
53409	<b>Fee:</b> \$419.35 <b>Benefit:</b> 75% = \$314.55    85% = \$356.45
	ZYGOMATIC BONE, treatment of fracture of, not requiring surgical reduction  (See para ON.4.10 of explanatory notes to this Category)
53410	<b>Fee:</b> \$88.30 <b>Benefit:</b> 75% = \$66.25    85% = \$75.10
	ZYGOMATIC BONE, treatment of fracture of, requiring surgical reduction by a temporal, intra-oral or other approach (Anaes.)  (See para ON.4.10 of explanatory notes to this Category)
53411	<b>Fee:</b> \$246.25 <b>Benefit:</b> 75% = \$184.70    85% = \$209.35
	ZYGOMATIC BONE, treatment of fracture of, requiring surgical reduction and involving internal or external fixation at 1 site (Anaes.) (Assist.)
53412	

**09. TREATMENT OF FRACTURES**

	(See para ON.4.10 of explanatory notes to this Category) <b>Fee:</b> \$404.35 <b>Benefit:</b> 75% = \$303.30    85% = \$343.70
53413	ZYGOMATIC BONE, treatment of fracture of, requiring surgical reduction and involving internal or external fixation or both at 2 sites (Anaes.) (Assist.)  (See para ON.4.10 of explanatory notes to this Category) <b>Fee:</b> \$495.35 <b>Benefit:</b> 75% = \$371.55    85% = \$421.05
53414	ZYGOMATIC BONE, treatment of fracture of, requiring surgical reduction and involving internal or external fixation or both at 3 sites (Anaes.) (Assist.)  (See para ON.4.10 of explanatory notes to this Category) <b>Fee:</b> \$569.10 <b>Benefit:</b> 75% = \$426.85    85% = \$484.40
53415	MAXILLA, treatment of fracture of, requiring open reduction (Anaes.) (Assist.)  (See para ON.4.10 of explanatory notes to this Category) <b>Fee:</b> \$449.25 <b>Benefit:</b> 75% = \$336.95    85% = \$381.90
53416	MANDIBLE, treatment of fracture of, requiring open reduction (Anaes.) (Assist.)  (See para ON.4.10 of explanatory notes to this Category) <b>Fee:</b> \$449.25 <b>Benefit:</b> 75% = \$336.95    85% = \$381.90
53418	MAXILLA, treatment of fracture of, requiring open reduction and internal fixation not involving plate(s) (Anaes.) (Assist.)  (See para ON.4.10 of explanatory notes to this Category) <b>Fee:</b> \$584.05 <b>Benefit:</b> 75% = \$438.05    85% = \$499.35
53419	MANDIBLE, treatment of fracture of, requiring open reduction and internal fixation not involving plate(s) (Anaes.) (Assist.)  (See para ON.4.10 of explanatory notes to this Category) <b>Fee:</b> \$584.05 <b>Benefit:</b> 75% = \$438.05    85% = \$499.35
53422	MAXILLA, treatment of fracture of, requiring open reduction and internal fixation involving plate(s) (Anaes.) (Assist.)  (See para ON.4.10 of explanatory notes to this Category) <b>Fee:</b> \$741.20 <b>Benefit:</b> 75% = \$555.90    85% = \$656.50
53423	MANDIBLE, treatment of fracture of, requiring open reduction and internal fixation involving plate(s) (Anaes.) (Assist.)  (See para ON.4.10 of explanatory notes to this Category) <b>Fee:</b> \$741.20 <b>Benefit:</b> 75% = \$555.90    85% = \$656.50
53424	MAXILLA, treatment of a complicated fracture of, involving viscera, blood vessels or nerves, requiring open reduction not involving plate(s) (Anaes.) (Assist.)  (See para ON.4.10 of explanatory notes to this Category) <b>Fee:</b> \$635.90 <b>Benefit:</b> 75% = \$476.95    85% = \$551.20
53425	MANDIBLE, treatment of a complicated fracture of, involving viscera, blood vessels or nerves, requiring open reduction not involving plate(s) (Anaes.) (Assist.)  (See para ON.4.10 of explanatory notes to this Category) <b>Fee:</b> \$635.90 <b>Benefit:</b> 75% = \$476.95    85% = \$551.20
53427	MAXILLA, treatment of a complicated fracture of, involving viscera, blood vessels or nerves, requiring open reduction involving the use of plate(s) (Anaes.) (Assist.)  (See para ON.4.10 of explanatory notes to this Category) <b>Fee:</b> \$868.60 <b>Benefit:</b> 75% = \$651.45    85% = \$783.90
53429	MANDIBLE, treatment of a complicated fracture of, involving viscera, blood vessels or nerves,

<b>O9. TREATMENT OF FRACTURES</b>	
	<p>requiring open reduction involving the use of plate(s) (Anaes.) (Assist.)</p> <p>(See para ON.4.10 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$868.60      <b>Benefit:</b> 75% = \$651.45    85% = \$783.90</p>
53439	<p>MANDIBLE, treatment of a closed fracture of, involving a joint surface (Anaes.)</p> <p>(See para ON.4.10 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$246.25      <b>Benefit:</b> 75% = \$184.70    85% = \$209.35</p>
53453	<p>ORBITAL CAVITY, reconstruction of a wall or floor with or without foreign implant (Anaes.) (Assist.)</p> <p><b>Fee:</b> \$498.35      <b>Benefit:</b> 75% = \$373.80    85% = \$423.60</p>
53455	<p>ORBITAL CAVITY, bone or cartilage graft to orbital wall or floor including reduction of prolapsed or entrapped orbital contents (Anaes.) (Assist.)</p> <p><b>Fee:</b> \$585.40      <b>Benefit:</b> 75% = \$439.05    85% = \$500.70</p>
53458	<p>NASAL BONES, treatment of fracture of, not being a service to which item 53459 or 53460 applies</p> <p><b>Fee:</b> \$44.40      <b>Benefit:</b> 75% = \$33.30    85% = \$37.75</p>
53459	<p>NASAL BONES, treatment of fracture of, by reduction (Anaes.)</p> <p><b>Fee:</b> \$242.85      <b>Benefit:</b> 75% = \$182.15    85% = \$206.45</p>
53460	<p>NASAL BONES, treatment of fractures of, by open reduction involving osteotomies (Anaes.) (Assist.)</p> <p><b>Fee:</b> \$495.35      <b>Benefit:</b> 75% = \$371.55    85% = \$421.05</p>
<b>O11. REGIONAL OR FIELD NERVE BLOCKS</b>	
	<p><b>Group O11. Regional Or Field Nerve Blocks</b></p>
	<p>(Note. Where an anaesthetic combines a regional nerve block with a general anaesthetic for an operative procedure, benefits will be paid only under the anaesthetic item relevant to the operation. The items in this Group are to be used in the practice of oral and maxillofacial surgery and are not to be used for dental procedures (eg. restorative dentistry or dental extraction.))</p>
53700	<p>TRIGEMINAL NERVE, primary division of, injection of an anaesthetic agent</p> <p><b>Fee:</b> \$128.75      <b>Benefit:</b> 75% = \$96.60    85% = \$109.45</p>
53702	<p>TRIGEMINAL NERVE, peripheral branch of, injection of an anaesthetic agent</p> <p><b>Fee:</b> \$64.45      <b>Benefit:</b> 75% = \$48.35    85% = \$54.80</p>
53704	<p>FACIAL NERVE, injection of an anaesthetic agent</p> <p><b>Fee:</b> \$38.80      <b>Benefit:</b> 75% = \$29.10    85% = \$33.00</p>
53706	<p>NERVE BRANCH, destruction by a neurolytic agent, not being a service to which any other item in this Group applies</p> <p>(See para ON.4.12 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$128.75      <b>Benefit:</b> 75% = \$96.60    85% = \$109.45</p>

## INDEX

### A

Abscess, incision with drainage, requiring admission 52055  
 Abscess, large, incision with drainage, requiring admission 52057  
 Alveolar ridge augmentation 52624, 52626  
 Alveolar ridge augmentation, cleft grafting of 52337  
 Antrobuccal fistula operation 53015  
 Antroscopy of temporomandibular joint 53215, 53218  
 Antrostomy, radical 53006  
 Antrum, drainage of, through tooth socket 53012  
 Antrum, intranasal operation, or removal of foreign body 53009  
 Antrum, maxillary, proof puncture and lavage of 53000, 53003  
 Antrum, maxillary, removal of foreign body from 53009  
 Arch bars, to maxilla or mandible, removal of 52106  
 Artery, facial, mandibular or lingual, ligation of 52141  
 Artery, maxillary, ligation of 52138  
 Arthrocentesis, with irrigation of temporomandibular joint 53225  
 Aspiration biopsy, one or more jaw cysts 52021  
 Assistance at operation 51800, 51803  
 Attendance 51700, 51703  
 Axillary sinus, excision of 52033

### B

Basal cell carcinoma, complicated, removal 52051, 52054  
 Basal cell carcinoma, uncomplicated, removal 52036, 52039  
 52045, 52048  
 Basal cell carcinoma, uncomplicated, removal 52042  
 Biopsy, aspiration of jaw cysts 52021  
 Biopsy, aspiration of jaw cysts, lymph gland, muscle or other deep  
 tissue or org 52027  
 Biopsy, aspiration of jaw cysts, skin or mucous membrane 52024  
 bone, fracture, treatment of 53410-53411  
 Bone, graft, harvesting of, via separate incision 52319  
 Bone, graft, harvesting of, via separate incision 52318  
 Bone, graft, to other bones 52130  
 Bone, graft, with internal fixation 52131  
 Bone, growth stimulator 52095  
 Bone, tumour, malignant, operations for 52180, 52182, 52184  
 52186  
 Bone, cyst, injection into or aspiration of 52064

### C

Calculus, removal of, salivary gland duct 52075  
 Caldwell-Luc's operation 53006  
 Carbuncle, incision with drainage, in operating theatre 52057  
 Cauterisation, septum/turbinates/pharynx 53060  
 Cellulitis, incision with drainage, not requiring GA 52055  
 Cleft lip, operations for 52440, 52442, 52444, 52446, 52450  
 52452, 52456, 52458  
 Cleft palate, palate, secondary repair, closure of fistula 52336  
 Cleft palate, palate, secondary repair, lengthening procedure 52339  
 Cleft palate, primary repair 52333  
 Composite graft to nose, ear or eyelid 52482  
 Condylectomy/condylotomy 53224  
 Contour reconstruction, insertion of foreign implants 52321  
 Cricothyrostomy 52133

Cutaneous nerve, nerve graft to 52832  
 Cutaneous nerve, repair of 52828, 52830  
 Cyst, jaw, aspiration biopsy of, mandible or maxilla, segmental  
 resection of 52114  
 Cyst, jaw, not otherwise covered, removal of 52036, 52039  
 52042, 52045, 52048  
 Cyst, jaw, aspiration biopsy of 52021

### D

Deep tissue or organ, biopsy of 52027  
 deep, percutaneous drainage 52058  
 Dermis, dermofat or fascia graft 52424  
 Dermoid, excision 52036, 52039, 52042, 52045  
 Diathermy, salivary gland duct 52072  
 Dilatation, salivary gland duct 52072  
 Dislocation, mandible, treatment of 53200, 53203  
 drainage tube, exchange of 52059  
 Duct, salivary gland, diathermy or dilatation of 52072  
 Duct, salivary gland, removal of calculus from 52075  
 Duct, sublingual gland, removal of calculus from 52075

### E

Endo-biopsy 52024, 52027  
 Endoscopic, laser therapy of upper aerodigestive tract 52035  
 Exostosis, mandibular or palatal, excision of 52600  
 External fixation, orthopaedic, removal 52097-52098

### F

Face, contour reconstruction 52379  
 Facial artery or vein, ligation of 52141  
 Fibroma, removal of 52036, 52039, 52042, 52045  
 Fistula, antrobuccal, operation for 53015  
 Fistula, oro-antral, plastic closure of 53015  
 Flap repair, direct 52324, 52327  
 Flap repair, single stage local 52300, 52303, 52306  
 Foreign body, antrum, removal of 53009  
 Foreign body, deep, removal, interventional imaging 52144  
 Foreign body, implants for contour reconstruction, insertion of  
 52321  
 Foreign body, maxillary sinus, removal of 53009  
 Foreign body, muscle/other deep tissue, removal of 52018  
 Foreign body, subcutaneous, removal, other 52015  
 Foreign body, superficial removal, other 52012  
 Foreign body, tendon, removal of 52018, 52144  
 Fracture, mandible or maxilla, treatment of 53400, 53403  
 53406, 53409-53416, 53418-53419, 53422-53425, 53427, 53429  
 53439  
 Fracture, zygomatic bone, treatment of 53411-53414  
 Free grafts, full thickness 52315  
 Free grafts, full thickness grafts, mucosa/split skin/connective  
 tissue 52309, 52312  
 Frenulum, mandibular or maxillary, repair of 52084  
 Furuncle, incision with drainage, in operating theatre 52057

### G

Genioplasty 52378  
 Gland, lymph, biopsy of 52027

Gland, salivary, incision of 52057  
 Gland, salivary, meatotomy or marsupialisation 52075  
 Gland, salivary, removal of calculus from duct 52075  
 Gland, salivary, transportation of duct 52147  
 Gland, salivary, dilation or diathermy of duct 52072  
 Gland, sublingual, extirpation of 52069  
 Gland, submandibular, extirpation of 52066  
 Gland, submaxillary, extirpation of 52066  
 Gland, submaxillary, incision of 52057, 52147  
 Glenoid fossa, zygomatic arch, temporal bone, reconstruction 53209  
 Grafts, composite (chondrocutaneous/mucosal) 52480  
 Grafts, free, full thickness 52315  
 Grafts, mucosa or split skin 52309, 52312

## H

Haematoma, aspiration of 52056  
 Haematoma, incision with drainage, not requiring GA 52055  
 Haematoma, large, incision with drainage, in operating theatre 52057  
 Haemorrhage, post-nasal and/or post-operative, control of 52135  
 Hemifacial microsomia, construction condyle and ramus 53212  
 Hyperplasia, papillary, of palate, removal of 52609, 52612  
 52615  
 Hypertrophied tissue, removal of 52036, 52039, 52042, 52045

## I

Innocent bone tumour, excision of 52063  
 Intranasal operation on antrum/foreign body 53009

## J

Jaw dislocation, treatment of 53200  
 Jaw, aspiration biopsy of cyst/s 52021  
 Jaw, dislocation, treatment of 53203  
 Jaw, fracture, treatment of 53400, 53403, 53406, 53409-53416  
 53418-53419, 53422-53425, 53427, 53429, 53439  
 Jaw, operation on, for osteomyelitis 52090  
 Jaw, plastic and reconstructive operation on 52342, 52345  
 52348, 52351, 52354, 52357, 52360, 52363, 52366, 52369  
 52372, 52375

## K

Keloid, excision of 52036, 52039, 52042, 52045  
 Kirschner wire, insertion of 52096

## L

Lacerations, ear/eyelid/nose/lip, full thickness, repair of 52010  
 Lacerations, repair and suturing of 52000, 52003, 52006  
 52009  
 Lavage and proof puncture of maxillary antrum 53000, 53003  
 Le Fort osteotomies 52380, 52382  
 Lingual artery or vein, ligation of 52141  
 Lip, full thickness wedge excision of 52108  
 Lipoma, removal of 52036, 52039, 52042, 52045  
 Local flap repair, single stage 52300, 52303, 52306  
 Lymph gland, muscle or other deep tissue or organ biopsy of 52027

Lymph node, biopsy of 52025  
 Lymphoid patches, removal of 52036, 52039, 52042, 52045

## M

Macrocheilia, operation for 52482  
 Macrostomia, operation for 52484  
 Mandible, dislocation, treatment of 53200, 53203  
 Mandible, fixation by intermaxillary wiring 52420  
 Mandible, hemi-mandiblectomy of 52120  
 Mandible, hemi-mandibular reconstruction with bone graft 52122  
 Mandible, operation on, for osteomyelitis 52090  
 Mandible, or maxilla, fractures, treatment of 53400, 53403  
 53406, 53409-53416, 53418-53419, 53422-53425, 53427, 53429  
 53439  
 Mandible, osteectomy or osteotomy of 53400, 53403, 53406  
 53409-53416, 53418-53419, 53422-53425, 53427, 53429, 53439  
 Mandible, removal of buried wire, pin or screw 52099, 52102  
 Mandible, removal of one or more plates 52342, 52345, 52348  
 52351, 52354, 52357, 52360, 52363, 52366, 52369, 52372  
 52375  
 Mandible, segmental resection of, for tumours or cysts 52114  
 Mandible, sub-total resection of 52117  
 Mandible, total resection of 52123  
 Mandibular artery or vein, exostosis, excision of 52600  
 Mandibular artery or vein, frenulum, repair of 52084  
 Mandibular artery or vein, ligation of 52141  
 Maxilla, operation on, for osteomyelitis 52090  
 Maxilla, or mandible, fractures, treatment of 53400, 53403  
 53406, 53409-53416, 53418-53419, 53422-53425, 53427, 53429  
 53439  
 Maxilla, osteectomy or osteotomy of 52342, 52345, 52348  
 52351, 52354, 52357, 52360, 52363, 52366, 52369, 52372  
 52375  
 Maxilla, removal of buried wire, pin or screw 52099, 52102  
 Maxilla, removal of one or more plates 52105  
 Maxilla, sub-total resection of 52117  
 Maxilla, total resection of 52126, 52129  
 Maxillary antrum, artery, ligation of 52138  
 Maxillary antrum, frenulum, repair of 52084  
 Maxillary antrum, lavage of 53004  
 Maxillary antrum, proof puncture and lavage of 53000, 53003  
 Maxillary antrum, sinus, drainage of, through tooth socket 53012  
 Maxillary antrum, sinus, operations on 53006, 53009  
 Maxillary antrum, sinus, sinus lift procedure 53019  
 Maxillary antrum, tuberosity, reduction of 52606  
 Melanoma, excision of 52036, 52039, 52042, 52045, 52048  
 Microvascular anastomosis repair using microsurgical techniques 52424  
 Microvascular anastomosis using microsurgical techniques 52430  
 Mouth, lowering of floor of (Oswegeser or similar) 52621  
 Mucous membrane, biopsy of 52024  
 Mucous membrane, repair of recent wound of 52000, 52003  
 52006, 52009  
 Muscle, biopsy of 52027  
 Muscle, excision of 52060  
 Muscle, or other deep tissue, removal of foreign body 52018  
 Muscle, ruptured repair of 52061-52062  
 Mylohyoid ridge, reduction of 52603

## N

Naevus, excision of 52036, 52039, 52042, 52045  
 Nasal bones, treatment of fracture/s 53458-53460  
 Nasal cavity and/or post nasal space, examination of 53056  
 Nasal cavity, packing for arrest of haemorrhage 53062  
 Nasal haemorrhage, arrest of 53058  
 Nasal haemorrhage, cryotherapy to 53064  
 Nasal septum, reconstruction 53017  
 Nasal septum, septoplasty 53016  
 Nasal, space, post, direct examination of 53052  
 Nasendoscopy 53054  
 Nerve, clock, regional or field 53700, 53702, 53704  
 Nerve, peripheral, neurectomy/neurotomy/tumour 52806, 52809  
 Nerve, transposition of 52818  
 Nerve, trigeminal, cryosurgery of 52824  
 Nerve, trunk, graft to 52821  
 Nerve, trunk, neurolysis of 52803  
 Nerve, trunk, repair of 52812, 52815  
 Neurectomy, peripheral nerve 52806, 52809  
 Neurolysis by open operation 52800  
 Neurolysis, of nerve trunk 52803  
 Node, lymph, biopsy of 52027

### O

Orbital cavity, bone or cartilage graft to wall or floor 53455  
 Orbital cavity, reconstruction of wall or floor 53453  
 Oro-antral fistula, plastic closure of 53015  
 Orthopaedic pin or wire, insertion of 52096  
 Orthopaedic pin or wire, removal of 52099, 52102  
 Orthopaedic, plates, removal of 52105  
 Osseointegration procedure 52627, 52630, 52633, 52636  
 Osteectomy of mandible or maxilla 52342, 52345, 52348, 52351  
 52354, 52357, 52360, 52363, 52366, 52369, 52372, 52375  
 Osteomyelitis, operation on mandible or maxilla 52090  
 Osteomyelitis, operation on skull 52092  
 Osteomyelitis, operation on combination of adjoining bones 52094  
 Osteotomies, mid-facial 52380, 52382  
 Osteotomy, of mandible or maxilla 52342, 52345, 52348, 52351  
 52354, 52357, 52360, 52363, 52366, 52369, 52372, 52375

### P

Palatal exostosis, excision of 52600  
 Palate, cleft, repair of 52333, 52336, 52339  
 Palate, papillary hyperplasia removal of 52609, 52612, 52615  
 Palate, plastic closure of defect of 52330  
 Papillary hyperplasia of the palate, removal of 52609, 52612  
 52615  
 papillary hyperplasia removal of 52609, 52612, 52615  
 Papilloma, removal of 52036, 52039, 52042, 52045  
 Parotid duct, repair of 52148  
 Pharyngeal flap for velo-pharyngeal incompetence 52460  
 Pin, orthopaedic removal of 52102  
 Pin, orthopaedic, insertion of 52096  
 Pin, orthopaedic, removal of 52099  
 Plastic repair, free grafts 52309, 52312, 52315  
 Plastic repair, single stage, local flap 52300, 52303, 52306  
 Plates, orthopaedic, removal of 52015, 52018  
 Post nasal space, direct examination of with/without biopsy 53052  
 Post nasal space, examination under GA 53056  
 preauricular sinus operation 52030

Premalignant lesions, cryotherapy, diathermy or carbon dioxide  
 laser 52034  
 Proof puncture of maxillary antrum 53000, 53003

### R

Radical anrostomy 53006  
 Ranula, removal of 52087  
 Reduction, of dislocation of mandible 53200, 53203  
 Rodent ulcer, operation for 52036, 52039, 52042, 52045

### S

Salivary gland duct, diathermy or dilatation of 52072  
 Salivary gland duct, removal of calculus from 52075  
 Salivary gland duct, transposition of 52147  
 Salivary gland, incision of 52057  
 Salivary gland, repair of cutaneous fistula of 52073  
 Scar, removal of, not otherwise covered 52036, 52039, 52042  
 52045  
 Sebaceous cyst, removal of 52036, 52039, 52042, 52045  
 Segmental resection, of mandible or maxilla for tumours 52114  
 Single stage local flap repair 52303, 52306  
 Single stage local flap repair 52300  
 Sinus, excision of 52030, 52033  
 Sinus, maxillary, drainage of, through tooth socket 53012  
 Skin biopsy repair of recent wound 52000, 52003, 52006  
 52009  
 Skin biopsy, of 52024  
 Skull, operation on, for osteomyelitis 52092  
 Subcutaneous, foreign body, removal, other 52015  
 Subcutaneous, tissue, repair of recent wound 52000, 52003  
 52006, 52009  
 Sublingual gland duct, removal of calculus from 52075  
 Sublingual gland, extirpation of 52069  
 Submandibular abscess, incision of 52057  
 Submandibular ducts, relocation of 52158  
 Submandibular gland, extirpation of 52066  
 Submandibular gland, incision of 52057  
 Submaxillary gland, extirpation of 52066  
 Submaxillary gland, incision of 52057  
 Superficial foreign body, removal of 52012  
 Superficial, wound repair of 52000, 52009  
 Suture, of traumatic wounds 52000, 52003, 52006, 52009

### T

Temporal, bone glenoid fossa/zygomatic arch, reconstruction of  
 53209  
 Temporomandibular joint, arthrodesis 53239  
 Temporomandibular joint, arthroscopy of 53215, 53218  
 Temporomandibular joint, arthrotomy 53220  
 Temporomandibular joint, external fixation, application of 53242  
 Temporomandibular joint, irrigation of 53225  
 Temporomandibular joint, manipulation of 53206  
 Temporomandibular joint, open surgical exploration of 53221  
 53224-53227, 53230, 53233  
 Temporomandibular joint, stabilisation of 53236  
 Temporomandibular joint, synovectomy of 53226  
 Tendon, foreign body in, removal of 52018  
 Tendon, or other deep tissue, foreign body in, removal of 52018

Tissue, subcutaneous, repair of recent wound	52000, 52003
52006, 52009	
Tongue, partial excision of	52078
Tongue, tie, repair of	52081, 52084
Tracheostomy	52132
Traumatic wounds, repair of	52000, 52003, 52006, 52009
Trigeminal nerve, injection with alcohol, cortisone, etc	52826
Tuberosity, maxillary, reduction of	52606
Tumour, bone, innocent, excision of	52063
Tumour, mandible or maxilla, segmental resection of	52114
Tumour, not otherwise covered, removal of	52036, 52039
52042, 52045, 52048	
Tumour, peripheral nerve, removal of	52806, 52809
Tumour, soft tissue, excision of	52051, 52054
Turbinates, submucous resection of	53070

## V

Vein, facial, mandibular or lingual, ligation of	52141
Vermilionectomy	52111
Vestibuloplasty, unilateral or bilateral	52618

## W

Washout, antrum	53000, 53003
wedge excision	51904, 51906
Wire, orthopaedic, insertion of	52096
Wire, orthopaedic, removal of	52099, 52102
Wound, debridement under GA or major block	51900
Wound, dressing of, requiring GA	51902
Wound, traumatic, suture of	52000, 52003, 52006, 52009

## Z

Zygomatic arch, reconstruction of	53209
-----------------------------------	-------

# **CATEGORY 5: DIAGNOSTIC IMAGING SERVICES**

## SUMMARY OF CHANGES FROM 01/03/2021

The 01/03/2021 changes to the MBS are summarised below and are identified in the Schedule pages by one or more of the following words appearing above the item number:

(a) new item	New
(b) amended description	Amend
(c) fee amended	Fee
(d) item number changed	Renum
(e) EMSN changed	EMSN

### Description Amended

55118	55126	55127	55128	55129	55132	55133	55134	55137	55141	55143	55145	55146
57352	57353	57354	61311	61321	61324	61325	61329	61332	61333	61336	61337	61341
61344	61345	61349	61357	61365	61377	61380	61394	61398	61406	61410	61414	61418
61422	61505											

As at 1 March 2021, 24 items (55126, 55127, 55128, 55129, 55132, 55133, 55134, 55137, 55141, 55143, 55145, 55146, 61321, 61324, 61325, 61329, 61345, 61349, 61357, 61394, 61398, 61406, 61410 and 61414) from the *Health Insurance (Section 3C Diagnostic Imaging Services – Cardiac Services) Determination* will be incorporated into the Diagnostic Imaging Services Table (DIST)

### Changes to item 55118

This change reintroduces a restriction that was removed in error on 1 May 2020.

### Minor language change to items 57352, 57353, and 57354

This is a minor administrative change for consistency of language referring to general practitioners.

### Change to subgroup for item 61505

Item 61505 was recently amended to apply to both PET and non-PET nuclear medicine imaging services, this change removed the item from the non-PET subgroup and places it in its own subgroup.

## **DIAGNOSTIC IMAGING SERVICES NOTES**

### **IN.0.1 Diagnostic Imaging Services – Overview**

Section 4AA of the Health Insurance Act 1973 (the Act) enables the Health Insurance (Diagnostic Imaging Services Table) Regulations to prescribe a table of diagnostic imaging services that sets out rules for interpretation of the table, items of diagnostic imaging services and the amount of fees applicable to each item. For further information on diagnostic imaging, visit the Department of Health's website.

### **IN.0.2 What is a Diagnostic Imaging Service**

A diagnostic imaging service is defined in the Act as "an R-type diagnostic imaging service or an NR-type diagnostic imaging service to which an item in the DIST applies".

A diagnostic imaging service includes the diagnostic imaging procedure, which is defined in the Act as 'a procedure for the production of images (for example x-rays, computerised tomography scans, ultrasound scans, magnetic resonance imaging scans and nuclear scans) for use in the rendering of diagnostic imaging services as well as the report'.

The Schedule fee for each diagnostic imaging service described in the DIST covers both the diagnostic imaging procedure and the reading and report on that procedure by the diagnostic imaging service provider. Exceptions to the reporting requirement are as follows:

- where the service is provided in conjunction with a surgical procedure, the findings may be noted on the operation record (items 55054, 55130, 55135, 55848, 59312, 59314, 60506, 60509 and 61109);
- where a service is provided in preparation of a radiological procedure (items 60918 and 60927).

As for all Medicare services, diagnostic imaging services have to be clinically relevant before they are eligible for Medicare benefits. A clinically relevant service is a service that is generally accepted by the profession as being necessary for the appropriate treatment of the patient.

For R-type services rendered at the request of another practitioner, responsibility for determining the clinical relevance of the service lies with the requesting practitioner. For NR-type services (and R-type services provided without a request under the exemption provisions - see IN.0.6 - 'Exemptions from the written request requirements for R-type diagnostic imaging services'), the clinical relevance of the service is determined by the providing practitioner.

### **IN.0.3 Registration of Sites Undertaking Diagnostic Imaging Procedures**

All sites (including hospitals) and bases for mobile equipment at or from which diagnostic imaging procedures are performed need to be registered with Services Australia in order for Medicare benefits to be payable for diagnostic imaging procedures provided at the site, or in the case of procedures reported remotely, for procedures reported for the site.

Registered sites and bases for mobile equipment are allocated a Location Specific Practice Number (LSPN). The LSPN is a unique identifier comprising a six digit numeric and is required on all accounts, receipts and Medicare assignment of benefits forms for diagnostic imaging services before patients can receive Medicare benefits. In addition, benefits are not payable unless there is equipment of appropriate type listed on the register for the practice.

Sites or bases for mobile equipment need only register once. To maintain registration, sites are required to advise of any changes to their primary information within 28 days of the change occurring. Primary information is:

- proprietor details;
- ACN (for companies);
- business name and ABN;
- address of practice site or base for mobile equipment;

- type of equipment located at the site;
- information about any health care provider not employed at, or contracted to provide services for the site or base, who has an interest in any of the equipment listed on the register.

### **Suspension or Cancellation**

Registration will be suspended if a proprietor fails to respond to notices from Services Australia about registration details. The suspension will be lifted as soon as the notices are responded to and Medicare benefits will be backdated for the period of suspension.

Registration will be cancelled after a continuous period of three months suspension. Cancellation under these circumstances is taken to have commenced from the date of suspension.

The proprietor may, at any time, request cancellation of the registration of a practice site or base for mobile equipment. Otherwise, registration may be cancelled by Service Australia if the registration was obtained improperly (false information supplied) or if the proprietor fails to notify Services Australia of changes to primary information. A decision to cancel a registration will only be made following due consideration of a submission by the site or base. The proprietor may apply to the Administrative Appeals Tribunal for a review of this decision. If registration is cancelled involuntarily, the proprietor may not apply to re-register the site or base for a period of 12 months unless permitted to do so.

Proprietors of unregistered practices (including where the registration is under suspension or has been cancelled) need to either advise patients in writing or display a notice that no Medicare benefits will be payable for the diagnostic imaging services.

From 1 July 2010 practices applying for an LSPN will also need to apply for and be accredited under the Diagnostic Imaging Accreditation Scheme (DIAS) in order to be eligible to provide diagnostic imaging services under Medicare. Information about DIAS is available here: [Diagnostic Imaging Accreditation Scheme \(the DIAS\)](#).

For full details about LSPNs including how to register a practice site are available at Services Australia' website at <https://www.servicesaustralia.gov.au/search/LSPN>.

### **IN.0.4 Accreditation of Practices Background**

All practices providing diagnostic imaging services needed to be accredited under the Diagnostic Imaging Accreditation Scheme (DIAS) in order for Medicare benefits to be payable for those services.

#### **First time accreditation**

New practices entering the Scheme may choose to be accredited against either three entry-level Standards or the full suite of Standards. Practices initially choosing to be accredited against the entry level Standards have a further period of two years to become accredited against the full suite of Standards.

#### **Re-accreditation of Practices**

Practices previously accredited must seek re-accreditation against the full suite of Standards and cannot apply for re-accreditation against the entry level Standards. Accreditation against the full suite of Standards is for a four year period.

#### **Non-Accredited Practices**

Practices may choose not to be accredited and still provide diagnostic imaging services, but these services do not attract a Medicare rebate.

Practices which are not accredited under the DIAS must inform patients prior to carrying out the service that the practice is not accredited and as such the service does not attract a Medicare rebate. It is an offence under the Health Insurance Act 1973 not to do so.

### **The Medical Imaging Accreditation Program (MIAP)**

The Royal Australian and New Zealand College of Radiologist (RANZCR) offers a voluntary accreditation program jointly with the National Association of Testing Authorities (NATA).

Practices participating in MIAP can seek recognition of their MIAP accreditation under the DIAS. This recognition will grant MIAP Practices accreditation against the full suite of Standards until the date of the expiration of the recognised MIAP accreditation. By this date Practices will need to either provide their Approved Accreditor with evidence of renewal of MIAP accreditation or have been granted accreditation against the full suite of Standard.

### **The Standards**

The current Standards are made up of three entry level Standards and the full suite of Practice Accreditation Standards. If a practice is applying for accreditation against the entry level Standards, an accreditation decision will be made by an Approved Accreditor within 15 business days of the lodgement of an application for accreditation.

If a practice is applying for accreditation against the full suite of Standards, an accreditation decision will be made by an Approved Accreditor within 30 business days of the lodgement of an application for accreditation.

From the date of being granted accreditation, the practice site can provide diagnostic imaging services under Medicare.

#### **Entry Level Standards**

- Registration and Licensing Standard (Standard 1.2)
- Radiation Safety Standard (Standard 1.3)
- Equipment Inventory Standard (Standard 1.4)

#### **Full Suite Standards**

- Part 1 - Organisational Standards
- Part 2 - Pre-procedure Standards
- Part 3 - Procedure Standards
- Part 4 - Post Procedure Standards

### **Applying for accreditation**

Whether a practice is applying for accreditation against entry-level Standards or the full suite Standards, the application process is the same. A practice is required to submit to an Approved Accreditor either:

- an application for accreditation providing written documentary evidence of compliance with the entry level Standards or the full suite Standards; or
- written evidence of accreditation under the Medical Imaging Accreditation Program (MIAP) jointly administered by RANZCR and NATA.

### **Renewal of Accreditation**

Practices awarded accreditation against the full suite of Standards enter the maintenance program which requires them to be re-accredited every 4 years.

## Approved Accreditors

There are three Accreditation agencies approved by the Minister for Health to provide Accreditation services:

HDAA Australia	(HDAA)	Ph: 1800 601 696
National Association of Testing Authorities	(NATA)	Ph: 1800 621 666
Quality Innovation Performance	(QIP)	Ph: 1300 888 329

Further information can be obtained from:

Website: [www.diagnosticimaging.health.gov.au](http://www.diagnosticimaging.health.gov.au)

Email: [DIAS@health.gov.au](mailto:DIAS@health.gov.au)

Phone: 02 6289 8859

### IN.0.5 Capital Sensitivity Diagnostic Imaging Equipment

Except where there is an exemption in force, Medicare benefits are not payable for diagnostic imaging services rendered using equipment, other than positron emission tomography (PET), that has exceeded its 'effective life age' for new equipment or 'maximum extended life age' for upgraded equipment as shown in the table below.

This is known as capital sensitivity and is intended to ensure that patients have access to quality diagnostic imaging services by encouraging providers to upgrade and replace aged equipment as appropriate.

#### Life ages of diagnostic imaging equipment

Type of Equipment	Definition of type of equipment	Effective life age for new equipment (years)	Maximum extended life age (years)
Ultrasound	Equipment primarily used in carrying out a diagnostic imaging procedure used in rendering a service to which an item in Group I1 applies	10	15
CT	Equipment primarily used in carrying out a diagnostic imaging procedure used in rendering a service to which an item in Group I2 applies	10	15
Mammography	Equipment primarily used in carrying out a diagnostic imaging procedure used in rendering a service to which an item in Subgroup 10 of Group I3 applies	10	15
Angiography	Equipment primarily used in carrying out a diagnostic imaging procedure used in rendering a service to which an item in Subgroup 13 of Group I3 applies	10	15
Other diagnostic radiology	Equipment primarily used in carrying out a diagnostic imaging procedure used in rendering a service to which an item in Subgroups 1 to 9, 12, 14, 15 or 17 of Group I3 applies	15	20
Nuclear medicine imaging (other than for PET)	Equipment primarily used in carrying out a diagnostic imaging procedure used in rendering a service to which an item in Group I4 applies (other than items 61523 to 61647)	10	15

MRI	Equipment primarily used in carrying out a diagnostic imaging procedure used in rendering a service to which an item in Group I5 applies	10	20
-----	--	----	----

**Capital sensitivity exemptions**

A regional exemption automatically applies if services are provided in a location in Remoteness Area (RA) outer regional, remote, or very remote. Exemptions may be granted by the Department of Health (subject to particular criteria) to practices located in inner regional areas, where the location was previously under the Rural, Remote and Metropolitan Area (RRMA) classification system, RRMA4 or RRMA5.

From 1 May 2020, a further exemption is available for practices located in any region where they have not been able to replace or upgrade equipment due to delays beyond the control of the practice.

For full details about the rules for capital sensitivity, the exemptions, and the definition of upgrade, providers should access the Department of Health's website at [www.health.gov.au/capitalsensitivity](http://www.health.gov.au/capitalsensitivity) or send an email enquiry to [capsens@health.gov.au](mailto:capsens@health.gov.au).

**IN.0.6 Requests for R-type Diagnostic Imaging Services**

**Request requirements**

Medicare benefits are not payable for diagnostic imaging services that are classified as R-type (requested) services unless, prior to commencing the relevant service, the practitioner receives a request from a requesting practitioner who determined the service was necessary.

There are exemptions to the request requirements in specified circumstances. These circumstances are detailed below under 'Exemptions from the written request requirements for R-type diagnostic imaging services'.

**Expiry of a diagnostic imaging request**

Requests for diagnostic imaging do not expire and are valid until the required test has been performed.

**Form of a diagnostic imaging request**

Responsibility for the adequacy of requesting details rests with the requesting practitioner. A request for a diagnostic imaging service does not have to be in a particular form, however, the legislation provides that a request must be in writing and contain sufficient information, in terms that are generally understood by the profession, to clearly identify the item/s of service requested.

The *Electronic Transactions Act 1999* allows for documents required by law to be in writing, to instead be provided electronically in a range of circumstances. Diagnostic imaging requests may be made by email or other electronic medium, either directly to the imaging practice (with the patient's consent), or via the patient, as long as:

- the recipient agrees to the request being made in that form;
- it would be accessible for subsequent reference; and
- it contains the information prescribed as for requests made in writing.

There is no requirement for a diagnostic imaging request to be signed.

A written request must contain the name and address or name and provider number in respect of the place of practice of the requesting practitioner.

A request to a medical imaging specialist for a diagnostic imaging service should include sufficient clinical information to assist the service provider to accurately provide the diagnostic imaging service requested and:

- ensure compliance with the MBS item descriptors, and
- where the requested service involves ionising radiation (x-ray, CT etc.), make a decision whether to expose the patient to radiation, consistent with the diagnostic imaging providers' obligations under the International Commission on Radiological Protection's (ICRP) doctrine of radiation protection.

Unless sufficient clinical information is provided, the requesting practitioner may be asked to provide additional information to the diagnostic imaging provider, which could result in delays for the patient.

The following should be provided on a request for a diagnostic imaging service:

- ***A clear and legible request*** - a request must be in writing, dated and be legible so that all information contained is transferred between requestor and provider without loss of content or meaning, or risk of misinterpretation. The use of abbreviations should be avoided. Where permitted, verbal referrals should ensure clear communication between the requestor and provider.
  - Under the Electronic Transactions Act 1999, this information can be provided in electronic form.
- ***Identity of the patient*** – a request should include details which confirm the identity of the patient, including their contact details.
- ***Identity of the requestor*** – a request should include the identity and contact details of the requesting practitioner, including their Medicare provider number, to ensure effective and timely communication.
- ***Clinical detail*** - a request should include a clinical justification for each examination requested and performed to support the performance of the diagnostic imaging examination.
  - Requests should contain information to enable the provider to confirm that the requested diagnostic imaging modality and examination are appropriate to that individual patient's presentation and circumstances, to answer the referrer's diagnostic question with the least number of diagnostic steps (with due regard for patient safety, radiation dose, local expertise and cost).
  - Where the request is for diagnostic imaging involving ionising radiation (e.g. x-ray, CT) the request should include clinical information for the provider to determine whether the expected clinical benefit to the patient of being exposed to diagnostic radiation outweighs the risk of radiation exposure ('justification for medical radiation exposure').
  - The provider must have sufficient information to justify and approve a medical radiation procedure. Where known, this information should include pregnancy status for women of child-bearing age.
  - Before requesting a diagnostic imaging service, the requesting practitioner must turn their mind to the clinical relevance of the request and determine that the service is necessary. For example, an ultrasound to determine the sex of a foetus is generally not a clinically relevant service, unless there is an indication this service will determine further courses of treatment (e.g. where there is a genetic risk of a sex-related disease or condition).

The requestor should consider whether:

- they are duplicating recent tests.
- the results would change the diagnosis, affect patient management or do more harm than good.
- RANZCR's Education Modules for appropriate Imaging Referrals contains decision support tools for select clinical scenarios.
- the Australian Radiation Protection and Nuclear Safety Agency's Radiation Protection of the Patient Module provides information about diagnostic imaging for medical practitioners, to ensure radiation use is justified, and may aid in communicating benefits and risks of diagnostic imaging modalities to patients.

- the benefits and risks to the patient or carer have been communicated, including any alternatives available, and
- there is information available to the patient about the tests requested. Consumer resources available include the:
  - o NPS Medicine Wise Choosing Wisely program
  - o Consumers Health Forum's Why do I even need this test? A Diagnostic Imaging and Informed Consent Consumer Resource
  - o RANZCR's Inside Radiology website.
- **MBS requirements** - a request should meet any specific MBS item requirements. Failure to provide this information may mean that a Medicare benefit is not paid for the service.

### **Who may request a diagnostic imaging service?**

The following practitioners may request a diagnostic imaging service:

#### **Medical practitioners, specialists and consultant physicians**

Specialists and consultant physicians can request any diagnostic imaging service (some exceptions apply, for example, obstetric ultrasound item 55712 where the requester needs to have obstetric qualifications).

Other medical practitioners can request any service and specific MRI Services – including on behalf of the treating practitioner, for example, by a resident medical officer at a hospital on behalf of the patient's treating practitioner.

#### **Dental practitioners**

All dental practitioners may request the following items:

57509, 57515, 57521, 57523, 57527, 57901 to 57969, 58100, 58300, 58503, 58903, 59733, 59739, 59751, 60500 and 60503.

Oral and maxillofacial surgeons, prosthodontists, approved dental practitioners, dental specialists (periodontists, endodontists, pedodontists, orthodontists) and specialists in oral medicine and oral pathology are also able to request the following items:

*Oral and maxillofacial surgeons (without medical specialist registration i.e. approved dental practitioners)*

55028, 55030, 55032, 56001 to 56220, 56224, 56301 to 56507, 56801 to 57007, 57341, 57362, 57703, 57709, 57712, 57715, 58103 to 58115, 58306, 58506, 58521 to 58527, 58909, 59103, 59703, 60000 to 60009, 60506, 60509, 61109, 61372, 61421, 61425, 61429, 61430, 61433, 61434, 61446, 61449, 61450, 61453, 61454, 61457, 61462, 63007 and 63334.

Note: Approved dental practitioners are dentists who were approved by the Medical Benefits (Dental Practitioners) Advisory Committee to provide oral and maxillofacial MRI services and request certain diagnostic imaging services. This committee no longer exists. Practices should contact Services Australia to determine their eligibility for providing and requesting these services.

*Oral and maxillofacial surgeons (with medical specialist registration)*

Oral and maxillofacial surgeons who also have a medical qualification and are registered as medical specialist can request any item in the Diagnostic Imaging Services Table, subject to their scope of practice and any clauses or requirements relevant to the individual item.

*Prosthodontists*

55028, 56013, 56016, 56022, 56028, 57362, 58306, 61421, 61425, 61429, 61430, 61433, 61434, 61446, 61449, 61450, 61453, 61454, 61457, 61462 and 63334.

*Dental specialists (periodontists, endodontists, pedeodontists, orthodontists).*

56022, 57362, 58306, 61421, 61454, 61457 and 63334.

*Specialists in oral medicine and/or oral pathology*

55028, 55030, 55032, 56001, 56007, 56010, 56013, 56016, 56022, 56028, 56101, 56107, 56301, 56307, 56401, 56407, 57341, 57362, 58306, 58506, 58909, 59103, 59703, 60000 to 60009, 60506, 60509, 61109, 61372, 61421, 61425, 61429, 61430, 61433, 61434, 61446, 61449, 61450, 61453, 61454, 61457, 61462, 63007 and 63334.

### **Chiropractors**

57712, 57715, 58100 to 58106, 58109 and 58112.

### **Physiotherapists and Osteopaths**

57712, 57715, 58100 to 58106, 58109, 58112, 58120 and 58121.

### **Podiatrists**

55844, 55888, 55889, 55890, 55891, 55892, 55893, 55894, 55895, 57521, 57523 and 57527.

### **Participating Nurse Practitioners**

55036, 55066, 55070, 55071, 55076, 55600, 55768, 55812, 55844, 55848, 55850, 55852, 55856, 55857, 55858, 55859, 55860, 55861, 55862, 55863, 55864, 55865, 55866, 55867, 55868, 55869, 55870, 55871, 55872, 55873, 55874, 55875, 55876, 55877, 55878, 55879, 55880, 55881, 55882, 55883, 55884, 55885, 55886, 55887, 55888, 55889, 55890, 55891, 55892, 55893, 55894, 55895, 57509, 57515, 57521, 57523, 57527, 57703, 57709, 57712, 57715, 57721, 58503 to 58527.

### **Participating Midwives**

55700, 55704, 55706, 55707, 55718.

### **Request to specified provider not required**

It is not necessary that a written request for a diagnostic imaging service be addressed to a particular provider or that, if the request is addressed to a particular provider, the service must be rendered by that provider. Request forms containing relevant information about a diagnostic imaging provider supplied, or made available to, a requesting practitioner by a diagnostic imaging provider must include a statement that informs the patient that the request may be taken to a diagnostic imaging provider of the patient's choice.

### **Request for more than one service and limit on time to render services**

The requesting practitioner may use a single request to order a number of diagnostic imaging services. However, all services provided under this request must be rendered within seven days after the rendering of the first service.

### **Contravention of request requirements**

A practitioner who, without reasonable excuse makes a request for a diagnostic imaging service that does not include the required information in his or her request or in a request made on his or her behalf is guilty of an offence under the Health Insurance Act 1973 punishable, upon conviction, by a fine of up to 10 penalty units.

A practitioner who renders "R-type" diagnostic imaging services and who, without reasonable excuse, provides either directly or indirectly, to a requesting practitioner a document to be used in the making of a request which

would contravene the request information requirements is guilty of an offence under the Health Insurance Act 1973. The offence is punishable, upon conviction, by a fine of up to 10 penalty units.

### **Exemptions from the written request requirements for R-type diagnostic imaging services**

There are exemptions from the general written request requirements (R-type) diagnostic imaging services and these are outlined as follows:

#### *Consultant physician or specialist*

A consultant physician or specialist is a medical practitioner recognised for the purposes of the Health Insurance Act 1973 as a specialist or consultant physician, in a particular specialty.

A written request is not required for the payment of Medicare benefits when the diagnostic imaging service is provided by or on behalf of a consultant physician or a specialist (other than a specialist in diagnostic radiology) in his or her specialty and after clinical assessment he/she determines that the service was necessary.

However, if in the referral to the consultant physician or specialist, the referring practitioner specifically requests a diagnostic imaging service (eg to a cardiologist to perform an echocardiogram) the service provided is a requested, not self-determined service. If further services are subsequently provided, these further services are self-determined - see "Additional services".

#### *Additional services*

A written request is not required for a diagnostic imaging service if that service was provided after one which has been formally requested and the providing practitioner determines that, on the basis of the results obtained from the requested service, that an additional service was necessary. However, the following services cannot be self-determined as "additional services":

- MRI services;
- PET services; and
- services not otherwise able to be requested by the original requesting practitioner.

For details required for accounts/receipts see Note IN.0.8

#### *Substituted services*

A provider may substitute a service for the service originally requested when:

- the provider determines, from the clinical information provided on the request, that the substituted service would be more appropriate for the diagnosis of the patient's condition; and
- the provider has consulted with the requesting practitioner or taken all reasonable steps to do so before providing the substituted service; and
- the substituted service was one that would be accepted as a more appropriate service in the circumstances by the practitioner's speciality group.

However, the following services cannot be substituted:

- MRI services;
- PET services; and
- services not otherwise able to be requested by the original requesting practitioner.

For details required for accounts/receipts see Note IN.0.8.

### *Remote areas*

A written request is not required for the payment of Medicare benefits for a R-type diagnostic imaging service rendered by a medical practitioner in a remote area provided:

- the R-type service is not one for which there is a corresponding NR-type service; and
- the medical practitioner rendering the service has been granted a remote area exemption for that service.

For details required for accounts/receipts see Note IN.0.8.

### *Definition of remote area*

The definition of a remote area is one that is more than 30 kilometres by road from:

- a) a hospital which provides a radiology service under the direction of a specialist in the specialty of diagnostic radiology; and
- b) a free-standing radiology facility under the direction of a specialist in the specialty of diagnostic radiology.

### *Application for remote area exemption*

A medical practitioner, other than a consultant physician or specialist, who believes that he or she qualifies for exemption under the remote area definition, should obtain an application form from Services Australia website <https://www.servicesaustralia.gov.au> or by contacting Services Australia' Provider Eligibility Section, by email at [prov.elig@servicesaustralia.gov.au](mailto:prov.elig@servicesaustralia.gov.au) or via phone on 1800 032 259 Monday to Friday, between 8.30 am and 5.00 pm, Australian Eastern Standard Time.

### *Quality assurance requirement for remote area exemption*

Application for, or continuation of, a remote area exemption will be contingent on practitioners being enrolled in an approved continuing medical education and quality assurance program. For further information, please visit the Australian College of Rural and Remote Medicine (ACRRM) website at [www.acrrm.org.au](http://www.acrrm.org.au), or call the ACRRM on 1800 223 226.

### *Emergencies*

The written request requirement does not apply if the providing practitioner determines that, because the need for the service arose in an emergency, the service should be performed as quickly as possible.

For details required for accounts/receipts see Note IN.0.8.

### *Lost requests*

The written request requirement does not apply where:

- the person who received the diagnostic imaging service, or someone acting on that person's behalf, claimed that a written request had been made for such a service but that the request had been lost; and
- the provider of the diagnostic imaging service or that provider's agent or employee obtained confirmation from the requesting practitioner that the request had been made.

The lost request exemption is applicable only to services that the practitioner could originally request.

For details required for accounts/receipts see Note IN.0.8.

### *Pre-existing diagnostic imaging practices*

The legislation provides for exemption from the written request requirement for services provided by practitioners who have operated pre-existing diagnostic imaging practices. The exemption applies to the services covered by the following items: 57712, 57715, 57901, 57902, 57907, 57915, 57921, 58100 to 58115, 58521, 58524, 58527, 58700 and 59103.

To qualify for this pre-existing exemption the providing practitioner must:

- be treating his or her own patient;
- have determined that the service was necessary;
- have rendered between 17 October 1988 and 16 October 1990 at least 50 services (which resulted in the payment of Medicare benefits) of the kind which have been designated "R-type" services from 1 May 1991;
- provide the exempted services at the practice location where the services which enabled the practitioner to qualify for the this exemption were rendered; and
- be enrolled in an approved continuing medical education and quality assurance program from 1 January 2001. For further information, please contact the Royal Australian College of General Practitioners (RACGP), at [www.racgp.org.au](http://www.racgp.org.au), on 1800 472 247 or via email to [racgp@racgp.org.au](mailto:racgp@racgp.org.au), or the Australian College of Rural and Remote Medicine (ACRRM), at [www.acrrm.org.au](http://www.acrrm.org.au) or by calling 1800 223 226.

Benefits are only payable for services exempted under these provisions where the service was provided by the exempted medical practitioner at the exempted location. Exemptions are not transferable.

For details required for accounts/receipts see Note IN.0.8.

### **Retention of requests**

A medical practitioner who has rendered an R-type diagnostic imaging service in response to a written request must retain that request for a period of two years commencing on the day on which the service was rendered.

A medical practitioner must, if requested by Services Australia, produce written requests retained by that practitioner for an R-type diagnostic imaging service as soon as practicable and in any case by the end of the day after the day on which Services Australia's request was made. An employee of Services Australia is authorised to make and retain copies of or take and retain extracts from written requests or written confirmations of lost requests.

A medical practitioner who, without reasonable excuse, fails to comply with the above requirements is guilty of an offence under the Health Insurance Act 1973 punishable, upon conviction, by a fine of up to 10 penalty units.

The Department of Health has developed a Health Practitioner Guideline to substantiate that a valid request existed (pathology or diagnostic imaging), which is located online at [www.health.gov.au](http://www.health.gov.au).

### **IN.0.7 Maintaining Records of Diagnostic Imaging Services**

Providers of diagnostic imaging services must keep records of diagnostic imaging services in a manner that facilitates retrieval on the basis of the patient's name and date of service. Records of R-type diagnostic imaging services must be retained for a period of 2 years commencing on the day on which the service was rendered.

The records must include the report by the providing practitioner on the diagnostic imaging service. For ultrasound services, where the service is performed on behalf of a medical practitioner the report must record the name of the sonographer.

- Where the provider substitutes a service for the service originally requested, the provider's records must include:
  - words indicating that the providing practitioner has consulted with the requesting practitioner and the date of consultation; or

- if the providing practitioner has not consulted with the requesting practitioner, sufficient information to demonstrate that he or she has taken all reasonable steps to do so.
  - o For services rendered after a lost request, the records must include words to the effect that the request was lost but confirmed by the requesting practitioner and the manner of confirmation, e.g. how and when.
  - o For emergency services, the records must indicate the nature of the emergency.

If requested by Services Australia, records retained by a providing practitioner must be produced to an officer of Services Australia as soon as practicable but in any event within seven days after the request. Service Australia officers may make and retain copies, or take and retain extracts, of such records. A medical practitioner who, without reasonable excuse, contravenes any of the above provisions is guilty of an offence under the Health Insurance Act 1973 punishable, upon conviction, by a fine of \$1000.

### **IN.0.8 Details Required on Accounts, Receipts and Medicare Assignment of Benefit Forms**

In addition to the normal particulars of the patient, date of service, the services performed and the fees charged, the details which must be entered on accounts or receipts, and Medicare assignment of benefits forms in respect of diagnostic imaging services are as follows:

- the LSPN of the diagnostic imaging premises or mobile facility where the diagnostic imaging procedure was undertaken;
- if the professional service is provided by a specialist in diagnostic radiology the name and either the address of the place of practice, or the provider number, of that specialist;
- if the medical practitioner is not a specialist in diagnostic radiology the name and either the practice address or provider number of the practitioner who is claiming or receiving fees;
- for R-type (requested) services and services rendered subsequent to lost requests, the account or receipt or the Medicare assignment form must indicate the date of the request and the name and provider number, or the name and address, of the requesting practitioner.
- services that are self-determined must be endorsed with the letters 'SD' to indicate that the service was self-determined. Services are classified as self-determined when rendered:
  - by a consultant physician or specialist, in the course of that consultant physician or specialist practicing his or her specialty (other than a specialist in diagnostic radiology), or - to provide additional services to those specified in the original request and the additional services are of the type that would have otherwise required a referral from a specialist or consultant physician in a remote area, or
  - under a pre-existing diagnostic imaging practice exemption.
  - substituted services the account etc. must be endorsed 'SS'.
  - emergencies, the account etc. must be endorsed 'emergency'.
  - lost requests the account etc. must be endorsed 'lost request'.

### **IN.0.9 Contravention of State and Territory Laws and Disqualified Practitioners**

Medicare benefits are not payable where a diagnostic imaging service is provided by, or on behalf of, a medical practitioner, and the provision of that service by that practitioner or any other person contravenes a state or territory law which, directly or indirectly, relates to the use of diagnostic imaging procedures or equipment. The Managing Director of Services Australia may notify the relevant state or territory authorities if he/she believes that a person may have contravened a law of a state or territory relating directly or indirectly to the use of diagnostic imaging procedures or equipment.

### **IN.0.10 Prohibited Practices**

Part IIBA of the Health Insurance Act 1973 contains a number of provisions prohibiting inducements to request diagnostic imaging (and pathology) services.

#### **Who might be affected?**

Anyone who can provide or request a Medicare-funded diagnostic imaging service.

Anyone who has a relevant connection to a provider or a requester, including relatives, bodies corporate, trusts, partnerships and employees may also be affected.

#### **What is prohibited?**

- it is unlawful to ask for, accept, offer or provide a benefit, or make a threat, that is reasonably likely to induce a requester to make diagnostic imaging requests, or is related to the business of providing diagnostic imaging services.
- it is a criminal offence to ask for, accept, offer, or provide a benefit, or make a threat that is intended to induce requests to a particular provider.
- the prohibitions apply to the provision of benefits, or the making of threats, that are directed to a requester by a provider, whether directly or through another person.

#### **A requester of diagnostic imaging services means:**

- a medical practitioner;
- a dental practitioner, a chiropractor, a physiotherapist, a podiatrist or an osteopath (in relation to certain types of services prescribed in Regulations);
- a person who employs, or engages under a contract for services, one of the people mentioned above; or
- a person who exercises control or direction over one of the people mentioned above (in his or her professional capacity).

#### **A provider of a diagnostic imaging service means:**

- a person who renders that kind of service;
- a person who carries on a business of rendering that kind of service;
- a person who employs, or engages under a contract for services, one of the people detailed above; or
- a person who exercises control or direction over a person who renders that kind of service or a person who carries on a business of rendering that kind of service.

#### **What is permitted?**

Under the Act it is permitted to:

- share the profits of a diagnostic imaging business, provided the dividend is in proportion to the beneficiary's interest in the business;
- accept or pay remuneration, including salary, wages, commission, provided the remuneration is not substantially different from the usual remuneration paid to people engaged in similar employment;
- make or accept payments for property, goods or services, provided the amount paid is not substantially different from the market value of the property, goods or services;

- make or accept payments for shared property, goods or services, provided the amount paid is proportionate to the person's share of the cost of the property, goods or services and shared staff and/or equipment are not used to provide diagnostic imaging services;
- provide or accept property, goods or services, provided the benefit exchanged is not substantially different from the market value of the property, goods or services;
- provide benefits of a type determined by the Minister. These include items to support a requester to view diagnostic imaging reports, such as specially designed computer monitors. Modest gifts and hospitality may also be permitted, under certain circumstances. A full list of the Ministerial determined permitted benefits are contained in the Health Insurance (Permitted benefits — diagnostic imaging services) Determination 2018.

### **What are the penalties for those not complying with the provisions?**

If the provisions are breached, a range of penalties would apply, depending on the kind of breach, including: civil penalties; criminal offences; referral to a Medicare Participation Review Committee (MPRC), possibly resulting in loss of access to Medicare. For further information on prohibited practices visit the Department of Health's publication 'Guidance on Laws Relating to Pathology and Diagnostic Imaging - Prohibited Practices'.

## **IN.0.11 Multiple Services Rules**

### **Background**

There are several rules that may apply when calculating Medicare benefits payable when multiple diagnostic imaging services are provided to a patient at the same attendance (same day). These rules were developed in association with the diagnostic imaging profession representative organisations and reflect that there are efficiencies to the provider when these services are performed on the same occasion. Unless there are clinical reasons for doing so, they should be provided to the patient at the one attendance and the efficiencies from doing this reflected in the overall fee charged.

### **General diagnostic imaging - multiples services**

The diagnostic imaging multiple services rules apply to all diagnostic imaging services. There are three rules, and more than one rule may apply in a patient episode. The rules do not apply to diagnostic imaging services rendered in a remote area by a medical practitioner who has a remote area exemption for that area - see IN.0.6.

Rule A. When a medical practitioner renders two or more diagnostic imaging services to a patient on the same day, then:

- the diagnostic imaging service with the highest Schedule fee has an unchanged Schedule fee; and
- the Schedule fee for each additional diagnostic imaging service is reduced by \$5.

Rule B. When a medical practitioner renders at least one R-type diagnostic imaging service and at least one consultation to a patient on the same day, there is a deduction to the Schedule fee for the diagnostic imaging service with the highest Schedule fee as follows:

- if the Schedule fee for the consultation is \$40 or more - by \$35; or
- if the Schedule fee for the consultation is less than \$40 but more than \$15 - by \$15; or
- if the Schedule fee for the consultation is less than \$15 - by the amount of that fee.

The deduction under Rule B is made once only. If there is more than one consultation, the consultation with the highest Schedule fee determines the deduction amount. There is no further deduction for additional consultations.

A 'consultation' is a service rendered under an item from Category 1 of the MBS, that is, items 1 to 10816 inclusive.

Rule C. When a medical practitioner renders an R-type diagnostic imaging service and at least one non-consultation service to the same patient on the same day, the Schedule fee for the diagnostic imaging service with the highest Schedule fee is reduced by \$5.

A deduction under Rule C is made once only. There is no further deduction for any additional medical services.

For Rule C, a 'non-consultation' is defined as any following item from the MBS:

- Category 2, items 11000 to 12533;
- Category 3, items 13020 to 51318;
- Category 4, items 51700 to 53460;
- Cleft Lip and Palate services, items 75001 to 75854 (as specified in the 'Medicare Benefits for the treatment of cleft lip and cleft palate conditions' book.)

Pathology services are not included in Rule C.

When both Rules B and C apply, the sum of the deductions in the Schedule fee for the diagnostic imaging service with the highest Schedule fee is not to exceed that Schedule fee.

### **Ultrasound - Vascular**

This rule applies to all vascular ultrasound items claimed on the same day of service ie whether performed at the same attendance by the same practitioner or at different attendances.

Where more than one vascular ultrasound service is provided to the same patient by the same practitioner on the same date of service, the following formula applies to the Schedule fee for each service:

- 100% for the item with the greatest Schedule fee
- plus 60% for the item with the next greatest Schedule fee
- plus 50% for each other item.

When the Schedule fee for some of the items are the same, the reduction is calculated in the following order:

- 100% for the item with the greatest Schedule fee and the lowest item number
- plus 60% for the item with the greatest Schedule fee and the second lowest item number
- plus 50% for each other item.

Note: If 2 or more Schedule fees are equally the highest, the one with the lowest item number is taken to have the higher fee e.g. item 55238 and 55280, item 55238 would be considered the highest.

When calculating the benefit, it should be noted that despite the reduction, the collective items are treated as one service for the application of Rule A of the General Diagnostic Imaging Multiple Services rules and the patient gap. Examples can be found on the Services Australia website.

### **Magnetic Resonance Imaging (MRI) - Musculoskeletal**

If a medical practitioner performs 2 or more scans from subgroup 12 and 13 for the same patient on the same day, the fees specified for items that apply to the service are affected as follows:

- the item with the highest schedule fee retains 100% of the schedule fee; and
- any other fee, except the highest is reduced by 50%.

Note: If 2 or more Schedule fees are equally the highest, the one with the lowest item number is taken to have the higher fee eg. item 63322 and 63331, item 63322 would be considered the highest.

If the reduced fee is not a multiple of 5 cents, the reduced fee is taken to be the nearest amount that is a multiple of 5 cents.

In addition, the modifying item for contrast may only be claimed once for a group of services subject to this rule.

If a medical practitioner provides:

- 2 or more MRI services from subgroups 12 and 13 for the same patient on the same day; and
- 1 or more other diagnostic imaging services for that patient on that day

the amount of the fees payable for the MRI services is taken, for the purposes of this rule, to be an amount payable for 1 diagnostic imaging service in applying Rule A of the General Diagnostic Imaging Multiple Services rules.

### **IN.0.12 Co-claiming consultations with DIST items – Specialist Radiologists**

From 1 May 2020, specialist radiologists will no longer be able to claim a consultation in conjunction with one of the following diagnostic imaging services:

- All musculoskeletal ultrasound – Group I1, Subgroup 6 (items 55800 – 55855)
- Diagnostic radiology items as follows:
  - Group I3, Subgroup 1 – Radiographic Examination of the Extremities - items 57506 to 57539
  - Group I3, Subgroup 2 – Radiographic Examination of Shoulder and Pelvis - items 57700 to 57723
  - Group I3, Subgroup 3 – Radiographic Examination of the Head - items 57901 to 57969
  - Group I3, Subgroup 4 – Radiographic Examination of the Spine - items 58100 to 58127
  - Group I3, Subgroup 5 – Bone Age Study and Skeletal Survey - items 58300 to 58308
  - Group I3, Subgroup 6 – Radiographic Examination of Thoracic Region - items - 58500 to 58529
  - Group I3, Subgroup 7 – Radiographic Examination of Urinary Tract - items 58700 to 58723
  - Group I3, Subgroup 8 – Radiographic Examination of Alimentary Tract and Biliary System - items 58900 to 58905
  - Group I3, Subgroup 9 – Radiographic Examination of Localisation of Foreign Bodies - items 59103 to 59104

Radiologists may claim consultation items when they attend the patient before, during or after the rendering of other diagnostic imaging services. Consultation items should only be claimed where the attendance on the patient is meaningful. That is:

- the radiologist utilises their medical knowledge, clinical acumen, technical skills and personal experience in clinical radiology to consult with a patient so as to alter, or potentially alter, the course of the patient's management in the best interests of the patient.
- the radiologist takes primary clinical responsibility for the management decisions made during the consultation (even if the decision is to proceed with the planned course of management).
- the consultation itself includes components of history taking; physical examination; discussion with the patient; formulation of management plans; and referral for additional opinion or tests.

Not all the components need be present in any one consultation, but presence of at least some indicates that a meaningful consultation occurred.

To claim a specialist referred consultation (item 104 or 105), the specialist radiologist must have received a valid referral (not simply a request for a diagnostic imaging service) from a medical practitioner for the investigation, opinion, treatment and/or management of a condition or problem of a patient or for the performance of a specific examination(s) or test(s). The requesting practitioner must have undertaken a professional attendance with the

patient and turned their mind to the patient's need for referral and have communicated relevant information about the patient to the specialist or consultant physician (this need not mean an attendance on the occasion of the referral) – see note GN.6.16.

A request for the undertaking of a diagnostic imaging service in the absence of the other elements of a referral as noted above does not constitute a valid referral for a specialist referred consultation.

The new consultation co-claiming rules do not apply to consultant physicians, other specialists and specialist radiologists who are also specialists in other medical disciplines. However, where a specialist radiologist has more than one qualification, co-claiming is only permitted where the patient has been referred to the provider in their non-radiologist capacity.

Where a specialist or consultant physician receives a request for diagnostic imaging service only, for example, a request to a cardiologist to do an echocardiogram, a consultation should not be claimed.

In addition, consultations must not be claimed in place of claiming a diagnostic imaging service.

## **IN.0.13 Ultrasound**

### **Professional supervision for ultrasound services - R-type eligible services**

Ultrasound services (items 55028 to 55895) marked with the symbol (R) with the exception of items 55600 and 55603 are not eligible for a Medicare rebate unless the diagnostic imaging procedure is performed under the professional supervision of a:

- (a) specialist or a consultant physician in the practice of his or her specialty who is available to monitor and influence the conduct and diagnostic quality of the examination, and if necessary to personally attend the patient; or
- (b) practitioner who is not a specialist or consultant physician who meets the requirements of A or B hereunder, and who is available to monitor and influence the conduct and diagnostic quality of the examination and, if necessary, to personally attend the patient.

A. Between 1 September 1997 and 31 August 1999, at least 50 services were rendered by or on behalf of the practitioner at the location where the service was rendered and the rendering of those services entitled the payment of Medicare benefits.

B. Between 1 September 1997 and 31 August 1999, at least 50 services were rendered by or on behalf of the practitioner in nursing homes or patients' residences and the rendering of those services entitled payment of Medicare benefits.

If paragraph (a) or (b) cannot be complied with, ultrasound services are eligible for a Medicare rebate:

- in an emergency; or
- in a location that is not less than 30 kilometres by the most direct road route from another practice where services that comply with paragraph (a) or (b) are available.

Note: Practitioners do not have to apply for a remote area exemption in these circumstances.

### **Sonographer accreditation**

Sonographers performing medical ultrasound examinations (either R or NR type items) on behalf of a medical practitioner must be suitably qualified, involved in a relevant and appropriate Continuing Professional Development program and be Registered on the Register of Accredited Sonographers held by Services Australia.

### **Eligibility for registration**

To be eligible for registration on the Register of Accredited Sonographers held by Services Australia, the person must be accredited with the Australian Sonographer Accreditation Registry. For accreditation with the Australian Sonographer Accreditation Registry the person must hold an accredited postgraduate qualification in medical ultrasound or be studying ultrasound.

For further information, please contact Services Australia, Provider Liaison Section, on 132 150 for the cost of a local call or the Australian Sonographer Accreditation Registry through its website at [www.asar.com.au](http://www.asar.com.au).

### **Report requirements**

The sonographer's initial and surname is to be written on the report. It is not required on billing documents. The name of the sonographer is not required to be included on the copy of the report given to the patient. For the purpose of this rule, the "name" means the sonographer's initial and surname.

### **Benefits payable**

As a rule, benefit is payable once only for ultrasonic examination at the one attendance, irrespective of the areas involved.

Except as indicated in the succeeding paragraphs, attendance means that there is a clear separation between one service and the next. For example, where there is a short time between one ultrasound and the next, benefits will be payable for one service only. As a guide, Services Australia will look to a separation of three hours between services and this must be stated on accounts issued for more than one service on the one day.

Where more than one ultrasound service is rendered on the one occasion and the service relates to a non-contiguous body area, and they are "clinically relevant", (i.e. the service is generally accepted in the medical profession as being necessary for the appropriate treatment or management of the patient to whom it is rendered), benefits greater than the single rate may be payable. Accounts should be marked "non-contiguous body areas".

Benefits for two contiguous areas may be payable where it is generally accepted that there are different preparation requirements for the patient and a clear difference in set-up time and scanning. Accounts should be endorsed "contiguous body area with different set-up requirements".

### **Subgroup 1 - General Ultrasound**

#### ***Abdominal Ultrasound Items 55036 and 55037***

Medicare benefits are not payable for ultrasound items 55036 and 55037 unless a morphological assessment of the abdomen has been performed. That is, the items should be used for imaging purposes, not for non-imaging procedures such as transient elastography.

#### ***Urinary ultrasound item 55084 and 55085***

When a post-void residual is the only service clinically indicated and/or rendered, it is inappropriate to report a pelvic, urinary or abdominal ultrasound, instead of or in addition to this service (55084 or 55085). Similarly, if a complete pelvic, urinary or abdominal ultrasound is billed, it is inappropriate to bill separately for a post-void residual determination, since payment of this has already been included in the payment for the complete scans.

The report must contain an entry denoting the post-void residual amount and/or bladder capacity as calculated/estimated from the ultrasound device. In addition, the medical record must contain documentation of the indication for the service and the number of times performed.

### **Subgroup 3 – Vascular Ultrasound**

#### ***General***

Medicare benefits are only payable for:

- a maximum of two vascular ultrasound studies in a seven-day period. A vascular ultrasound study may include one or more items. Additionally where a patient is referred for a bilateral study of both arms or both legs, the account should indicate 'bilateral' or 'left' and 'right' to enable a benefit to be paid.
- clinically relevant services, that is, the service is generally accepted in the medical profession as being necessary for the appropriate treatment or management of the patient to whom it is rendered. Any decision to have a patient return on a different day to complete a multi-area diagnostic imaging service should only be made on the basis of clinical necessity.

#### ***Deep vein thrombosis (DVT) – items 55244 and 55246***

Medical practitioners referring patients for duplex ultrasound for suspected lower limb DVT (items 55244 and 55246) should read and consider the RANZCR 2015 Choosing Wisely recommendations, or such RANZCR Choosing Wisely recommendations that succeed it.

#### ***Examination of peripheral vessels***

Vascular ultrasound services can be claimed in conjunction with item 11612 (Exercises study for the evaluation of lower extremity arterial disease).

### **Subgroup 4: Urological ultrasound Prostate ultrasound - Items 55600 and 55603**

Benefits for these items are payable where the service is rendered in the following circumstances:

- a digital rectal examination of the prostate was personally performed by the medical practitioner who also personally rendered the ultrasound service; and
- the transducer probe or probes used can obtain both axial and sagittal scans in 2 planes at right angles; and
- the patient was assessed prior to the service by a medical practitioner recognised in one or more of the specialties specified, not more than 60 days prior to the ultrasound service.

Items 55600 applies where the service is rendered by a medical practitioner who did not assess the patient, whereas items 55603 applies where the service was rendered by a medical practitioner who did assess the patient.

### **Subgroup 5: Obstetric and Gynaecological ultrasound**

#### ***NR Services***

Medicare benefits are not payable for more than three NR-type ultrasound services in Subgroup 5 of Group II (ultrasound) that are performed on the same patient in any one pregnancy.

#### ***Pre-requisite services***

A patient must have previously had either a 55706 or 55709 ultrasound in the same pregnancy to be eligible to claim for either a 55712 or 55715 obstetric service. To be eligible to claim for either a 55721 or 55725 obstetric service, a patient must have previously had either a 55718 or 55723 ultrasound in the same pregnancy.

#### ***Frequency of services***

Medicare benefits are only payable once per item per pregnancy for items 55706, 55707, 55708, 55709, 55718, 55723, 55759, 55762, 55768 and 55770.

### ***Dating of pregnancy***

When dating a pregnancy for the purpose of items 55700 to 55774, a patient is:

- "less than 12 weeks of gestation" means up to 11 weeks and 6 days of pregnancy;
- "12 to 16 weeks of gestation" means from 12 weeks 0 days of pregnancy up to 16 weeks plus 6 days of pregnancy (inclusive);
- "17 to 22 weeks of gestation" means from 17 weeks 0 days of pregnancy up to 22 weeks plus 6 days of pregnancy (inclusive);
- "after 22 weeks of gestation" means from 23 weeks 0 days of pregnancy onwards;
- "after 24 weeks of gestation" means from 25 weeks 0 days of pregnancy onwards.

### ***Nuchal Translucency Testing***

Where a nuchal translucency measurement is performed when the pregnancy is dated by a crown rump length of 45-84mm in conjunction with items 55700 (R) or 55703 (NR) or 55704 (R) or 55705 (NR), then items 55707 (R) or 55708 (NR) should be claimed. If nuchal translucency measurement for risk of foetal abnormality is performed in conjunction with any additional condition in items 55700, 55703, 55704 or 55705, only one fee is payable.

The Royal Australian and New Zealand College of Obstetricians and Gynaecologists provides a credentialling program for providers of nuchal translucency scans.

### ***Multiple pregnancies***

Obstetric ultrasound items 55759 to 55774 cover scanning of a patient who is experiencing a multiple pregnancy. The items incorporate a fee adjustment in recognition of the added complexity and costs associated with scanning multiple pregnancies. Based on the recommendations of the profession, the items apply only to patients where a multiple pregnancy has been confirmed by ultrasound. The items include identical restrictions and provisions as the second and third trimester items (55706-55725), and include items for requested and non-requested services.

### ***Obstetric ultrasound and non-metropolitan providers (items 55712, 55721, 55764 and 55772)***

Where a practitioner has obstetric privileges at a non-metropolitan hospital and refers for items 55712, 55721 and 55764 and 55772, the practitioner must confirm his/her eligibility by stating 'non-metropolitan obstetric privileges' on the referral form.

In relation to items 55712, 55721, 55764 and 55772, a non-metropolitan area includes any location outside of the Sydney, Melbourne, Brisbane, Adelaide, Perth, Greater Hobart, Darwin or Canberra major statistical divisions, as defined in the Australian Standard Geographical Classification 2010 published by the Australian Bureau of Statistics (publication number 1216.0 of 2010).

### **Subgroup 6: Musculoskeletal (MSK)**

#### ***Personal attendance***

Medicare benefits are only payable for a musculoskeletal ultrasound service (items 55812 to 55895) if the medical practitioner responsible for the conduct and report of the examination personally attends during the performance of the scan and personally examines the patient. Services that are performed because of medical necessity in a remote location are exempt from this requirement - see IN.0.6 for definition of remote area. Note: Practitioners do not have to apply for a remote area exemption in these circumstances.

#### ***Multiple Musculoskeletal Ultrasound Scans***

Generally Medicare benefits are payable for more than one musculoskeletal ultrasound scan performed on the same day, however the scans are subject to Rule A of the general diagnostic imaging multiple services rules.

It is not permitted to split a bilateral scan. Where bilateral ultrasound scans are performed, the relevant item should be itemised once only on accounts and receipts or Medicare bulk billing forms. For example if both shoulders are scanned, item 55866 or 55867, as the case may be, should be claimed once only. This is because the item descriptor for these items covers both sides. A patient should not be asked to make a second appointment in order to attract a benefit for multiple scans.

***Shoulder and knee (items 55864 to 55867 and 55880 to 55883)***

Benefits for shoulder and knee ultrasound items are only payable when the request is based on the clinical indicators outlined in the item descriptions. Benefits are not payable when referred for non-specific shoulder or knee pain alone or other specific conditions such as meniscal and cruciate ligament tears and assessment of chondral surfaces.

***Items in association with a surgical procedure (55848 and 55850)***

Item 55848 is a musculoskeletal (MSK) ultrasound service for use in association with a surgical procedure, such as a joint injection.

Item 55850 is a musculoskeletal ultrasound service for use in association with a surgical procedure, such as a joint injection, which is inclusive of a diagnostic ultrasound.

**IN.0.14 Restriction anaesthetic items in conjunction with item 55054**

An item in Group T10 (Relative Value Guide) cannot be claimed in association with item 55054 (ultrasound when used in conjunction with procedures). Medicare benefits will continue to be available for the procedures alone and whether individual anaesthetists choose to use ultrasound to assist with those procedures is a matter of clinical judgement for those providers.

**IN.0.15 Group I2 - Computed Tomography (CT)  
Professional supervision**

CT services (items 56001 to 57360) are not eligible for a Medicare rebate unless the service is performed:

- (a) under the professional supervision of a specialist in the specialty of diagnostic radiology who is available:
  - to monitor and influence the conduct and diagnostic quality of the examination; and
  - if necessary, to personally attend on the patient; or
- (b) if the above criterion cannot be complied with
  - in an emergency, or
  - because of medical necessity in a remote area - refer to IN.06 for definition of remote area.

Note: Practitioners do not have to apply for a remote area exemption in these circumstances.

Item 57360 applies only to a CT service that is:

- (a) performed under the professional supervision of a specialist or consultant physician recognised by the Conjoint Committee for the Recognition of Training in CT Coronary Angiography who is available:
  - to monitor and influence the conduct and diagnostic quality of the examination; and

- if necessary, to attend on the patient personally; and
- (b) reported by a specialist or consultant physician recognised by the Conjoint Committee for the Recognition of Training in CT Coronary Angiography; or
- (c) if paragraphs a and b cannot be complied with
  - in an emergency, or
  - because of medical necessity in a remote area - refer to IN.06 for definition of remote area.

### **Use of PET/CT or SPECT/CT machines**

CT scans rendered on Positron Emission Tomography (PET)/CT Single Photon Emission Computed Tomography (SPECT)/CT units are eligible for a Medicare benefit provided:

- the CT scan is not solely used for the purposes of attenuation correction and anatomical correlation of any associated PET or SPECT scan; and
- the CT scan is rendered under the same conditions as those applying to services rendered on stand-alone CT equipment. For example, the service would need to be properly requested and performed under the professional supervision of a specialist radiologist, including specialist radiologists with dual nuclear medicine qualifications.

### **Scan of more than one area/region**

Where regions are scanned on the one occasion which are not covered by a combination item, for example, item 56219 (scan of the spine) with item 56620 (scan of lower limbs), both examinations would attract a separate benefit.

Items covering individual contiguous regions must not be used when scans of multiple regions are performed.

### **More than one attendance of the patient to complete a scan**

Items 56220 to 56238 (CT of the spine) and 56620 to 56630 (CT of the extremities) apply once only for a service described in any of those items, regardless of the number of patient attendances required to complete the service. For example, where a request relates to two or more regions of the spine and one region only is scanned on one occasion with the balance of regions being scanned on a subsequent occasion, benefits are payable for one combination service only upon completion.

### **Pre-contrast scans**

Pre-contrast scans are included in an item of service with contrast medium only when the pre-contrast scans are of the same region.

### **Scan of Head**

#### ***Exclusion of acoustic neuroma***

If an axial scan is performed for the exclusion of acoustic neuroma, Medicare benefits are payable under item 56001 or 56007.

#### ***Assessment of headache***

If item 56007 is used for the assessment of headache of a patient, the fee mentioned in the item applies only if:

- a. a scan without intravenous contrast medium has been undertaken on the patient; and
- b. the service is required because the result of the scan is abnormal.

This rule applies to a patient who:

- is under 50 years; and
- is (apart from the headache) otherwise well; and
- has no localising symptoms or signs; and
- has no history of malignancy or immunosuppression.

### **Scan of Spine**

#### ***Multiple regions***

CT items exist which separate the examination of the spine into the cervical, thoracic and lumbosacral regions.

These items are 56220 to 56238 inclusive. They include items for CT scans of two regions of the spine (56233 and 56234) and for all three regions of the spine (56237 and 56238). Restrictions apply to the following items:

- item 56233 is used where two examinations of the kind referred to in items 56220, 56221 and 56223 are performed. The item numbers of the examination which are performed must be shown on any accounts issued or patient assignment forms completed.
- item 56234 is used where two examinations of the kind referred to in items 56224, 56225 and 56226 are performed. The item numbers of the examination which are performed must be shown on any accounts issued or patient assignment forms completed.

Example: for a CT examination of the spine where the cervical and thoracic regions are to be studied (item 56233), item numbers 56220 and 56221 must be specified.

#### **With intrathecal contrast medium - item 56219**

The item incorporates the cost of contrast medium for intrathecal injection and associated x-rays. Benefits are not payable for this item when rendered in association with myelograms (items 59724 and 59725). Where a myelogram is rendered under item 59724 and a CT is necessary, the relevant item would be scan of spine without intravenous contrast (items 56220, 56221 or 56223).

### **Scan of the upper abdomen and pelvis**

Items 56501 and 56507 are not eligible for benefits if performed for the purpose of performing a virtual colonoscopy (otherwise known as CT colonography and CT colography). CT Colonography is covered by item 56553.

#### **Scan of the colon (Item 56553)**

In item 56553, the terms 'high risk' and 'incomplete colonoscopy' are defined as follows:

##### ***High Risk***

Asymptomatic people fit into this category if they have:

- three or more first-degree or a combination of first-degree and second-degree relatives on the same side of the family diagnosed with bowel cancer (suspected hereditary non-polyposis colorectal cancer or NPCC), or
- two or more first-degree or second-degree relatives on the same side of the family diagnosed with bowel cancer, including any of the following high-risk features, or
- multiple bowel cancers in the one person, or
- bowel cancer before the age of 50 years, or

- at least one relative with cancer of the endometrium, ovary, stomach, small bowel, ureter, biliary tract or brain, or
- at least one first-degree relative with a large number of adenomas throughout the large bowel (suspected familial adenomatous polyposis or FAP), or
- somebody in the family in whom the presence of a high-risk mutation in the adenomatous polyposis coli (APC) gene or one of the mismatch repair (MMR) genes has been identified.

Source: NHMRC 2005 Clinical Practice Guidelines for the Prevention, Early Detection and Management of Colorectal Cancer - Category 3 - those at potentially high risk.

### ***Incomplete Colonoscopy***

For audit purposes, an incomplete colonoscopy is defined as one that is not completed for technical or medical reasons and must have been performed in the preceding 3 months.

### **CT angiography**

#### ***Other than coronary arteries - items 57351 to 57354***

CT angiography items 57351 applies under the circumstances specified in the item including where a service to which items 57352, 57353 or 57354 have been performed on the same patient within the previous 12 months,

Item 57352, 57353 and 57354 apply under the circumstances specified in the items and where the service has not been performed on the same patient within the previous 12 months.

#### ***Coronary arteries – item 57360***

Payment of Medicare rebates for item 57360 is limited to specialists or consultant physicians who have fulfilled the training and credentialing requirements developed by the Conjoint Committee for the Recognition of Training in CT Coronary Angiography (CTCA).

#### ***Pulmonary Embolism (PE) – Item 57351***

Medical practitioners requesting imaging for suspected PE (item 57351) should read and consider the RANZCR 2015 Choosing Wisely recommendations, or such clinical RANZCR Choosing Wisely recommendations as succeed it.

## **IN.0.16 Group I3 - Diagnostic Radiology**

### **Examination and report**

As for all diagnostic imaging services, the benefits allocated to each item from 57506 to 60509 inclusive cover the total service, i.e. the image, reading and report. Separate benefits are not payable for individual components of the service, e.g. preliminary reading. Benefits are not separately payable for associated plain films involved with these items.

### **Exposure of more than one film**

Where the radiographic examination of a specific area involves the exposure of more than one film, benefits are payable once only, except where special provision is made in the description of the item for the inclusion of all films taken for the purpose of the examination. This means that if an x-ray of the foot is requested, regardless of the number of exposures from different angles, the completed service comprises x-ray of the foot by one or more exposures and the report. The exception to this would be the plain x-ray of the spine items (58100 to 58121) where the item number differs dependent upon the regions of the spine that are examined at the same occasion, ie. 58112 applies where two regions are examined.

## **Comparison X-rays**

Where it is necessary for one or more films of the opposite limb to be taken for comparison purposes, benefits are payable for radiographic examination and reporting of one limb only. Comparison views are considered to be part of the examination requested.

## **Images produced using Dual Energy X-ray Absorptiometry (DEXA) equipment**

X-ray items of the spine 58100 to 58121 and hip 57712 cannot be claimed when images are produced using Dual Energy X-ray Absorptiometry (DEXA) equipment. DEXA should be claimed under General Medical Services Table items 12306 to 12322.

## **Subgroup 1 – Radiographic examination of the extremities**

### ***Hand and wrist combination X-ray***

An examination of the hand and the wrist on the same side should be claimed as item 57512 (NR) or 57515 (R). If items 57506 (NR) or 57509 (R) are claimed for multiple non-adjacent areas on the same side, or areas on different sides, the account should include annotation on this e.g. L and R hand, or hand and humerus.

## **Subgroup 4: Radiographic examination of the spine**

### ***Multiple regions***

Multiple region items require that the regions of the spine to be studied must be specified on any account issued or patient assignment form completed.

### ***Item 58112 - spine, two regions***

Where item 58112 is rendered (spine, two regions), the item numbers for the regions of the spine being studied must be specified (i.e. from items 58100, 58103, 58106 and 58109).

Example: for a radiographic examination of the spine where the cervical and thoracic regions are to be studied, item numbers 58100 and 58103 must be specified on any account issued or patient assignment forms completed.

### ***Item 58115 - spine, three region***

Where item 58115 is rendered (spine, three regions), the item numbers for the regions of the spine being studied must be specified (items 58100, 58103, 58106 and 58109).

Example: for a radiographic examination of the spine where the cervical, the thoracic and the lumbosacral regions are to be studied, item numbers 58100, 58103 and 58106 must be specified on any accounts issued or patient assignment forms completed.

### ***Item 58115 and 58108 - spine, three and four regions – request by medical practitioner***

Three and four region radiographic examinations items 58115 and 58108 only apply when requested by a medical practitioner.

### ***Items 58120 and 58121 - spine, three and four regions – request by non-medical practitioner***

Items 58120 and 58121 apply to physiotherapists and osteopaths who request a three or four region x-ray. Benefits are payable for one of these items only per patient per calendar year.

## **Subgroup 8: Radiographic examination of alimentary tract and biliary system**

### ***Plain abdominal film - items 58900 and 58903***

Benefits are not payable for items 58900 and 58903 in association with barium meal examinations or cholecystograms whether provided on the same day or previous day. Preliminary plain films are covered in each study.

### **Subgroup 10: Radiographic examination of the breasts**

#### ***Request requirements - items 59300 and 59303***

Benefits under items 59300 and 59303 are payable only where the patient has been referred in specific circumstances as indicated in the description of the items. To facilitate these provisions, the requesting medical practitioner is required to include in the request the clinical indication for the procedure.

#### ***Professional supervision***

Mammography services (items 59300 to 59318) are not eligible for a Medicare rebate unless the diagnostic imaging procedure is performed under the professional supervision of a:

- specialist in the specialty of diagnostic radiology who is available to monitor and influence the conduct and diagnostic quality of the examination, and, if necessary, to personally attend on the patient; or
- if paragraph (a) cannot be complied with:
- in an emergency; or
- because of medical necessity in a remote location.

Note: Practitioners do not have to apply for a remote area exemption in these circumstances.

### ***Subgroup 12: Radiographic examination with opaque or contrast media***

#### ***Myelogram- item 59724***

Benefits are not payable where a myelogram is rendered in association with a CT myelogram (item 56219 – see IN.0.16). Where it is necessary to render a CT and a myelogram, CT items 56220, 56221 and 56223 would apply.

### **Subgroup 13: Angiography**

#### ***Digital subtraction angiography (DSA) - items 60000-60078***

Benefits are payable only where these services are rendered in an angiography suite (a room that contains only equipment designed for angiography that is able to perform digital subtraction or rapid-sequence film angiography). Benefits are not payable when these services are rendered using mobile DSA imaging equipment as these services are covered by item 59970.

Each item includes all preparation and contrast injections other than for selective catheterisation. For DSA, benefits are payable for a maximum of one DSA item (from Items 60000 to 60069). For selective DSA - one DSA item (from 60000 to 60069) and one item covering selective catheterisation (from 60072, 60075 or 60078).

If a DSA examination covers more than one of the specified regions/combinations, then the region/combination forming the major part of the examination should be selected, with itemisation to cover the total number of film runs obtained. A run is the injection of contrast, data acquisition, and the generation of a hard copy record.

### **Subgroup 16: Preparation for radiological procedure**

#### ***Preparation items - 60918 and 60927***

Items 60918 and 60927 apply only to the preparation of a patient for a radiological procedure for a service to which any of items 59903 to 59970 apply. A report is not required for these services.

## **IN.0.17 Group I4 - Nuclear Medicine Imaging**

### **General**

Benefits for a nuclear scanning service (other than PET) are only payable when the service is performed:

- by a credentialed specialist or consultant physician, or by a person acting on behalf of the specialist; and
- the final report of the service is compiled by the specialist or consultant physician who performed the preliminary examination of the patient and the estimation and administration of the dosage.

Additional benefits will only be attracted for specialist physician or consultant physician attendance under Category 1 of the Schedule where there is a request for a full medical examination accompanied by a referral letter or note of referral.

### **Credentiailling for nuclear medicine imaging services**

Payment of Medicare rebates for nuclear medicine imaging services is limited to specialists or consultant physicians who are credentiailled by the Joint Nuclear Medicine Credentiailling and Accreditation Committee of the Royal Australian College of Physicians (RACP) and RANZCR.

The scheme was developed by the profession in consultation with Government to ensure that specialists in nuclear medicine are appropriately trained and licensed, provide appropriate personal supervision of procedures and are involved in ongoing continuing medical education.

For information regarding the Scheme and for application forms, please phone the RACP or RANZCR.

### **Temporary Nuclear Medicine Items**

Nuclear medicine items 61311, 61332, 61365, 61377, 61380, 61418, 61422, 61333, 61336, 61337, 61341 and 61344 may only be used during specified time periods, following a valid referral for the equivalent nuclear medicine imaging item on which it is based. Items 61311, 61332, 61333, 61336, 61337, 61341 and 61344 were available for a period from 14 September 2019 until 20 December 2019. All items were available for a further period from 1 December 2020 until 28 February 2021.

In the event that there is a future national shortage in the supply of technetium, these items may again become available. Announcements about the commencement of temporary nuclear medicine items will be published on the Department of Health's Nuclear Medicine and Positron Emission Tomography (PET) webpage.

### **Radiopharmaceuticals**

The schedule fees for nuclear medicine imaging services incorporate the costs of radiopharmaceuticals.

### **Single myocardialperfusion studies -items 61302 and 61303**

Items 61302 and 61303 apply to single myocardial perfusion studies which can only be used once and cannot be used in conjunction with any other myocardial perfusion study for an individual patient referral.

### **Myocardial perfusion - items 61306 and 61307**

Items 61306 and 61307 refer to all myocardial perfusion studies involving two or more sets of imaging times related to an individual patient referral. This includes stress/rest, stress/re-injection, stress/rest and re-injection thallium studies, one or two-day technetium-based perfusion agent protocols, mixed technetium-based perfusion agent/thallium protocols and the use of gated SPECT when undertaken.

### **Pulmonary Embolism (PE) – items 61328, 61340 and 61348**

Medical practitioners requesting imaging for suspected PE should read and consider the RANZCR 2015 Choosing Wisely recommendations, or such clinical RANZCR Choosing Wisely recommendations as succeed it.

#### **Hepatobiliary study (pre-treatment) - item 61360**

Item 61360 - the standard hepatobiliary item - also includes allowance of the pre-procedural chologogue administration for preparatory emptying of the gall bladder and also morphine augmentation.

#### **Hepatobiliary study (infusion) - item 61361**

Item 61361 applies specifically to a standard hepatobiliary study to which has been added an infusion of chologogue following which acquisition is continued and quantification of gallbladder ejection fraction and/or common bile duct activity time curves are performed.

#### **Whole body studies - items 61426-61438**

"Whole body" studies must include the trunk, head and upper and lower limbs down to the elbow and knee joints respectively, whether acquired as multiple overlapping camera views or whole body sweeps (runs) with additional camera views as required. Any study that does not fulfil these criteria is a localised study.

#### **Repeat studies - item 61462**

Item 61462 covers repeat planar (whole body or localised) and/or SPECT imaging performed on a separate occasion using the same administration of radiopharmaceutical. The repeat planar and SPECT imaging when performed on a separate occasion using the same administration of radiopharmaceutical should be itemised as item 61462 and the original item and date of service should be indicated for reference purposes.

This item does not apply to bone scans, adrenal studies or gastro-oesophageal reflux studies, myocardial perfusion studies, colonic transit or CFS transport studies, where allowance for performance of the delayed study is incorporated into the baseline benefit fee.

#### **Thyroid study - item 61473**

Item 61473 incorporates the measurement of thyroid uptake on a gamma camera using a proven technique, where clinically indicated.

#### **Positron Emission Tomography (PET) - items 61523 to 61647**

##### ***General***

Payment of Medicare rebates for PET services is limited to credentialled specialists or consultant physicians who meet eligibility requirements in the Diagnostic Imaging Services Table Regulations. PET services must be:

- performed under the supervision of:
  - specialist or consultant physician credentialled under the Joint Nuclear Medicine Specialist Credentialling Program for the Recognition of the Credentials of Nuclear Medicine Specialists for Positron Emission Tomography overseen by the Joint Nuclear Medicine Credentialling and Accreditation Committee of the RACP and RANZCR; or
  - practitioner who is a Fellow of either the RACP or RANZCR, and who, prior to 1 November 2011, reported 400 or more studies forming part of PET services for which a Medicare benefit was payable, and who holds a current license from the relevant State radiation licensing body to prescribe and administer the intended PET radiopharmaceuticals to humans;
- provided in a comprehensive facility that can provide a full range of diagnostic imaging services (including PET, CT, X-Ray and diagnostic ultrasound) and cancer treatment services (including chemotherapy, radiation oncology and surgical oncology) at the one site;

- provided using equipment that meets the Requirements for PET Accreditation (Instrumentation & Radiation Safety) 3rd Edition (2017) issued by the Australian and New Zealand Society of Nuclear Medicine Inc; and
- only provided following referral from a recognised specialist or consultant physician.

All PET providers must complete a specific PET provider Statutory Declaration prior to being eligible to claim Medicare rebates. Statutory declarations can be obtained directly from Services Australia.

### ***Whole body FDG PET***

In patients with Hodgkin and non- Hodgkin lymphoma (excluding indolent non- Hodgkin lymphoma), whole body FDG PET studies should not be used for surveillance nor for assessment of patients with suspected (as opposed to confirmed) disease recurrence.

Whole body FDG PET studies should be used as an alternative rather than additional to conventional CT scanning.

## **IN.0.18 Group I5 - Magnetic Resonance Imaging Itemisation**

Items in Group I5 are divided into subgroups defined according to the area of the body to be scanned, (ie head, spine, musculoskeletal system, cardiovascular system or body) and the number of occasions in a defined period in which Medicare benefits may be claimed by a patient. Subgroups are divided into individual items, with each item being for a specific clinical indication.

### **Eligible services**

Items in Subgroups 1 to 21 of Group I5 (other than items 63541 to 63544) apply to a MRI or MRA service performed:

- a. on request by a recognised specialist or consultant physician, where the request made in writing identifies the clinical indication for the service;
- b. under the professional supervision of an eligible provider; and
- c. with eligible equipment.

Items 63395 to 63397 and the items in Subgroups 19, 20 and 21 (other than items 63455 and 63461) of Group I5 apply to a MRI service performed:

- a. on request by a recognised specialist or consultant physician, where the request made in writing identifies the clinical indication for the service;
- b. under the professional supervision of an eligible provider; and
- c. with partial eligible equipment.

Items in Subgroup 22 of Group I5 apply to a MRI or MRA service performed:

- a. on request by a medical practitioner, where the request made in writing identifies the clinical indication for the service;
- b. under the professional supervision of an eligible provider; and
- c. with eligible equipment or partial eligible equipment.

Items in Subgroups 33 and 34 of Group I5 apply to a MRI service performed

- a. on request by a medical practitioner other than a specialist or consultant physician, where the request made in writing identifies the clinical indication for the service;
- b. under the professional supervision of an eligible provider; and
- c. with eligible equipment or partial eligible equipment.

Prostate Multiparametric MRI items 63541 to 63544 apply to a service performed:

- a. at the request of a specialist in the speciality of urology, radiation oncology, or medical oncology; and
- b. in a permissible circumstance; and
- c. using:
  - eligible equipment; or
  - partial eligible equipment.

### **Requests**

A request must identify the clinical indications for the service.

MRI services can only be requested by a recognised specialist medical practitioner or consultant physician for the purposes of the Health Insurance Act 1973. However, there are exceptions to this provision for a limited number of MRI services:

- all dental specialists, prosthodontists, oral and maxillofacial surgeons, oral medicine specialists and oral pathology specialists may request item 63334 - scan of musculoskeletal system for derangement of the temporomandibular joint (s); and
- oral and maxillofacial surgeons and oral medicine and oral pathology specialists can also request item 63007 - scan of the head for skull base or orbital tumour; and
- items in subgroup 33 and 34 may only be requested by a medical practitioner other than a specialist or a consultant physician.

For cardiac MRI items 63395 and 63397 (scan for diagnosis of arrhythmogenic right ventricular cardiomyopathy (ARVC)), the request must specify that ARVC is suspected on the basis of diagnostic criteria endorsed by the Cardiac Society of Australia and New Zealand (CSANZ), in force at the time the service is requested.

### **Permissible circumstances for performance of service**

Benefits are only payable for MRI when performed as follows:

- a. both:
  - under the professional supervision of an eligible provider who is available to monitor and influence the conduct and diagnostic quality of the examination, including, if necessary, by personal attendance on the patient; and
  - reported by an eligible provider; or
- b. if paragraph (a) is not complied with:
  - in an emergency; or
  - because of medical necessity, in a remote location (refer to IN.0.7.)

Note: Practitioners do not have to apply for a remote area exemption in these circumstances.

**Eligible providers**

For items in Group I5 (excluding cardiac MRI items 63395 to 63397), an eligible provider is a specialist in diagnostic radiology who satisfies the Chief Executive Medicare (Services Australia) that he or she is a participant of the RANZCR Quality and Accreditation Program.

For cardiac MRI items 63395 to 63397, an eligible provider is a specialist in diagnostic radiology or a consultant physician, who is recognised by the Conjoint Committee for Certification in Cardiac MRI. The conjoint committee is comprised of specialists from RANZCR and the Cardiac Society of Australia and New Zealand (CSANZ).

**Eligible equipment is equipment which:**

- a. is located at premises of a comprehensive practice; and
- b. is made available to the practice by a person:
  - who is subject to a deed with the Commonwealth that relates to the equipment; and
  - for whom the deed has not been terminated; and
- c. is not identified as partial eligible equipment in the deed

**Partial eligible equipment is equipment which:**

- a. is located at premises of a comprehensive practice; and
- b. is made available to the practice by a person:
  - who is subject to a deed with the Commonwealth that relates to the equipment; and
  - for whom the deed has not been terminated; and
- c. is identified as partial eligible equipment in the deed

The location of Medicare-eligible MRI machines is available at the Department of Health's website at <http://www.health.gov.au>.

**Number of eligible services**

Services in subgroups 1, 4, 6, 8, 11 and 18 have no frequency restriction.

<b>Item</b>	<b>MRI or MRA items</b>	<b>Limitation Period</b>	<b>Maximum number of services</b>
1	63040 to 63073	12 months	3
2	63101	12 months	3
3	63125 to 63131	12 months	3
4	63161 to 63185	12 months	3
5	63219 to 63243	12 months	3
6	63271 to 63280	12 months	3
7	63322 to 63340	12 months	3
8	63361	12 months	2
9	63385 to 63391	12 months	2
10	63395	12 months	1

11	63397	36 months	1
12	63401 to 63404	12 months	3
13	63416	12 months	1
14	63425 to 63428	12 months	2
15	63454 to 63467	12 months	1
16	63547	patient's lifetime	1
17	63482	12 months	3
18	63507 to 63522 and 63551 to 63560	12 months	3

Items 63470 or 63473 in subgroup 20 may be claimed only once ever.

Medicare benefits are only payable once in a 12 month period for item 63740, where it is provided for assessment of change to therapy in a patient with small bowel Crohn's disease. Medicare benefits are only payable once in a 12 month period for item 63743, where it is provided for assessment of change to therapy of pelvis sepsis and fistulas from Crohn's disease.

Items in subgroup 22 (modifying items) may only be ordered in conjunction with an eligible MRI/MRA service.

Example: Item 63271 in subgroup 10 can be claimed by a patient on three occasions in any 12 month period. If the patient had claimed Medicare benefits for the following:

Item	Date of Service
63271	10/12/04
63271	18/04/05
63271	16/10/05
63271	11/12/05

The following table provides examples of further dates of service would, and would not, be eligible:

Date of Service	Claimable	Why?
12/03/05	No	Between 10/12/04 and 9/12/05, the patient would have had 4 x 63271 in 12 months - 10/12/04, 12/03/05, 18/4/05 and 16/10/05
04/03/06	No	Between 5/03/05 and 4/03/06, the patient would have had 4 x 63271 in 12 months - 18/04/05, 16/10/05, 11/12/05 and 4/03/06
20/04/06	Yes	Between 21/04/05 and 20/04/06, the patient would have had 3 x 63271 in 12 months - 16/10/05, 11/12/05 and 20/04/06

The frequency restrictions are therefore considered to be rolling restrictions and not based on calendar or financial years.

In addition, restrictions on the number of services of the kind described in subgroup 12 apply to specific anatomical sites. Where an item description applies to more than one anatomical site the restriction on the number of services applies to each site.

Item 63328, MRI scan for derangement of the knee or its supporting structures, applies to two specific anatomical sites, ie, right knee and left knee. Each anatomical site may be scanned up to 3 times in any 12-month period.

### IN.0.19 Bulk Billing Incentive

Out-of-hospital services (except item 61369) attract higher benefits when they are bulk billed by the provider.

For other than items in Group I5 – Magnetic Resonance Imaging (MRI) - benefits for bulk billed services are payable at 95% of the schedule fee for the item. For MRI services, benefits for bulk billed services are payable at 100% of the schedule for the item.

### **IN.0.20 Management of bulk-billed services**

#### **Additional bulk billing payment for diagnostic imaging services (item 64990 and 64991)**

Item 64990 operates in the same way as item 10990 and item 64991 operates in the same way as item 10991, apart from the following differences:

- Item 64990 and 64991 can only be used in conjunction with items in the Diagnostic Imaging Services Table of the MBS;
- Item 64990 and 64991 applies to diagnostic imaging services self-determined by general practitioners and specialists with dual qualifications acting in their capacity as general practitioners;
- Specialists and consultant physicians who provide diagnostic imaging services are not able to claim item 64990 or 64991 unless, for the purposes of the Health Insurance Act 1973, the medical practitioner is also a general practitioner and the service provided by the medical practitioner has not been referred to that practitioner by another medical practitioner or person with referring rights.

### **IN.1.3 Echocardiography - Initial study**

#### **Indications**

Examples of other rare but acceptable indications include (but are not limited to): sudden death of an immediate relative, prior to the commencement of specific drugs which require cardiac monitoring, and for patients scheduled for cardiac surgery who have not previously had an echocardiogram.

#### **Providers**

Providers of this item number should meet the Level 1 requirements described in the Cardiac Society of Australia & New Zealand Guidelines for Training and Performance in Adult Echocardiography or equivalent.

[https://www.csanz.edu.au/wp-content/uploads/2015/04/Adult-Echo\\_2015-February.pdf](https://www.csanz.edu.au/wp-content/uploads/2015/04/Adult-Echo_2015-February.pdf)

#### **Results**

Discussions of the results, findings or interpretation of a study are reasonably expected to be part of a formal report. Discussion of these findings with a patient does not constitute a consult. Similarly, discussion(s) during the course of a study or to determine the safety or appropriateness of the study is part of the service and should not be claimed as a consult.

### **IN.1.4 Echocardiography - Primary valvular**

Recommended intervals adapted from the 2014 American Heart Association/American College of Cardiology Guideline for the Management of Patients with Valvular Heart Disease.

The guidelines are available at: [http://my.americanheart.org/idc/groups/ahamah-public/@wcm/@sop/@smd/documents/downloadable/ucm\\_462851.pdf](http://my.americanheart.org/idc/groups/ahamah-public/@wcm/@sop/@smd/documents/downloadable/ucm_462851.pdf)

#### **Mild to moderate disease:**

- i. Aortic stenosis should have a repeat every 3–5 years for mild disease and 1–2 years for moderate disease.
- ii. Other valvular disease should NOT have repeat imaging more frequently than every 3 years for mild disease and every 1–2 years for moderate disease.

**Severe disease:**

- i. should be monitored in line with the guidelines.

**Provider**

Providers of this item number should meet the Level 1 requirements described in the CSANZ Guidelines for Training and Performance in Adult Echocardiography or equivalent. [https://www.csanz.edu.au/wp-content/uploads/2015/04/Adult-Echo\\_2015-February.pdf](https://www.csanz.edu.au/wp-content/uploads/2015/04/Adult-Echo_2015-February.pdf)

**Results**

Discussions of the results, findings or interpretation of a study are reasonably expected to be part of a formal report. Discussion of these findings with a patient does not constitute a consult. Similarly, discussion(s) during the course of a study or to determine the safety or appropriateness of the study is part of the service and should not be claimed as a consult.

**IN.1.5 Echocardiography - Structural Heart Disease and Heart failure****Indications**

When requesting this service the provider should adhere to the National Heart Foundation/Cardiac Society of Australia & New Zealand guidelines which state “An echocardiogram is usually repeated 3–6 months after commencing medical therapy in patients with heart failure and reduced ejection fraction (HFrEF) or if there is a change in clinical status, or to determine eligibility for other pharmacological treatments (e.g. switching an ACE inhibitor or angiotensin receptor blocker to an angiotensin receptor neprilysin inhibitor [ARNI], adding ivabradine) or to determine eligibility for device therapy (ICD and CRT)”

**Providers**

Providers of this item number should meet the Level 1 requirements described in the CSANZ Guidelines for Training and Performance in Adult Echocardiography or equivalent. [https://www.csanz.edu.au/wp-content/uploads/2015/04/Adult-Echo\\_2015-February.pdf](https://www.csanz.edu.au/wp-content/uploads/2015/04/Adult-Echo_2015-February.pdf)

**Results**

Discussions of the results, findings or interpretation of a study are reasonably expected to be part of a formal report. Discussion of these findings with a patient does not constitute a consult. Similarly, discussion(s) during the course of a study or to determine the safety or appropriateness of the study is part of the service and should not be claimed as a consult.

**IN.1.6 Echocardiography - Paediatric and Adult Congenital Heart Disease****Providers**

- i. For patients under 17 years it is expected that this service will be conducted by a paediatric cardiologist or appropriately qualified sonographer under the paediatric cardiologist's supervision.
- ii. For patients 17 years and over with complex congenital heart disease it is expected that this service will be provided by a specialist practicing in the area of congenital heart disease or appropriately qualified sonographer under the specialist's supervision.

Providers of this service for patients under 17 years should meet the requirements described in the Cardiac Society of Australia & New Zealand guidelines for paediatric echocardiography, and should be competent to perform paediatric echocardiography.

[https://www.csanz.edu.au/wp-content/uploads/2016/09/Paeds-Echo-Standards-of-Practice\\_2015\\_ratified\\_11-March-2016.pdf](https://www.csanz.edu.au/wp-content/uploads/2016/09/Paeds-Echo-Standards-of-Practice_2015_ratified_11-March-2016.pdf)

Providers of this item number for patients 17 years and over with complex congenital heart disease should meet the Level 2 requirements described in the Cardiac Society of Australia & New Zealand Guidelines for Training and Performance in Adult Echocardiography.

[https://www.csanz.edu.au/wp-content/uploads/2015/04/Adult-Echo\\_2015-Februaryv.pdf](https://www.csanz.edu.au/wp-content/uploads/2015/04/Adult-Echo_2015-Februaryv.pdf)

### **Indications**

Complex congenital heart disease does not include single lesions which are haemodynamically insignificant and uncomplicated.

Examples of non-complex congenital lesions include but are not limited to:

i) isolated atrial septal defect, ii) ventricular septal defect, iii) patent ductus arteriosus, iv) mitral valve prolapse, v) bicuspid aortic valve, vi) other isolated congenital valvular disease including congenital aortic stenosis or vii) aortic root dilation

Accepted for use in those persons under 17 years with significant genetic syndromes or dysrhythmias that are likely to lead to substantial structural or functional abnormalities.

### **Results**

Discussion of these findings with a patient does not constitute a consult. Similarly, discussion(s) during the course of a study or to determine the safety or appropriateness of the study is part of the service and should not be claimed as a consult.

### **Paediatric Investigations and Consultations**

For investigations performed by a specialist paediatric or fetal cardiologist, co-claiming of a consultation with the investigation is permitted even when a consultation was not specifically requested when:

- the paediatric patient was referred for an investigation; and
- the paediatric patient was not known to the provider; and
- the paediatric patient was not under the care of another paediatric cardiologist; and
- the findings on the investigation appropriately warranted a consultation.

The paediatric co-claiming exception should not be applied to adult cardiologists treating or investigating adult congenital heart disease, unless the consultation service is provided after the echocardiographic examination where clinical management decisions are made, or the decision to perform the echocardiographic examination on the same day was made during the consultation service subject to clinical assessment.

### **IN.1.7 Echocardiography - Frequent repetition (Item 55133)**

#### **Providers**

Providers of this item number should meet the Level 1 requirements described in the Cardiac Society of Australia & New Zealand Guidelines for Training and Performance in Adult Echocardiography or equivalent.

[https://www.csanz.edu.au/wp-content/uploads/2015/04/Adult-Echo\\_2015-February.pdf](https://www.csanz.edu.au/wp-content/uploads/2015/04/Adult-Echo_2015-February.pdf)

#### **Results**

Discussions of the results, findings or interpretation of a study are reasonably expected to be part of a formal report. Discussion of these findings with a patient does not constitute a consult. Similarly, discussion(s) during the course of a study or to determine the safety or appropriateness of the study is part of the service and should not be claimed as a consult.

### **IN.1.8 Repeat Echocardiogram (Item 55134)**

#### **Providers**

It is expected that on average, a limited percentage of a provider's services would be claimed under this item. However it is acknowledged that some providers in specific areas of clinical practice may have higher rates that are clinically appropriate, and substantiation of this appropriateness (such as compliance with guidelines or best practice) may be requested by the Department of Health's compliance area and will be considered during any clinical audit activities.

Providers of this item number should meet the Level 1 requirements described in the Cardiac Society of Australia & New Zealand Guidelines for Training and Performance in Adult Echocardiography or equivalent at

[https://www.csanz.edu.au/wp-content/uploads/2015/04/Adult-Echo\\_2015-February.pdf](https://www.csanz.edu.au/wp-content/uploads/2015/04/Adult-Echo_2015-February.pdf)

#### **Results**

Discussions of the results, findings or interpretation of a study are reasonably expected to be part of a formal report. Discussion of these findings with a patient does not constitute a consult. Similarly, discussion(s) during the course of a study or to determine the safety or appropriateness of the study is part of the service and should not be claimed as a consult

### **IN.1.9 Echocardiogram fetal item (55137)**

#### **Providers**

This item may be claimed for fetal cardiac evaluation (claimed against the mother). It is expected that this service will be conducted by a paediatric cardiologist trained in fetal echocardiography or appropriately qualified sonographer under the paediatric cardiologist's supervision.

Providers of this item number should meet the:

- the Cardiac Society of Australia & New Zealand Guidelines for Paediatric Echocardiography for paediatric patients; and
- be competent to perform fetal echocardiography.

The Cardiac Society of Australia & New Zealand Guidelines for Paediatric Echocardiography are available at

[https://www.csanz.edu.au/wp-content/uploads/2016/09/Paeds-Echo-Standards-of-Practice\\_2015\\_ratified\\_11-March-2016.pdf](https://www.csanz.edu.au/wp-content/uploads/2016/09/Paeds-Echo-Standards-of-Practice_2015_ratified_11-March-2016.pdf)

#### **Indications**

For use when there is suspected or confirmed congenital structural or functional abnormality, fetal cardiac rhythm abnormalities, or where co-pathology, maternal illness or family history creates an increased risk of congenital cardiac abnormality requiring review by a paediatric cardiologist with specialist training and ongoing involvement in fetal cardiology.

#### **Results**

Discussion of these findings with a patient (mother) does not constitute a consult. Similarly, discussion(s) during the course of a study or to determine the safety or appropriateness of the study is part of the service and should not be claimed as a consult.

For investigations performed by a specialist paediatric cardiologist (with fetal cardiology training), co-claiming of a consultation with the investigation is permitted even when a consultation was not specifically requested when:

- the patient was referred for an investigation; and
- the patient was not known to the provider; and
- the findings on the investigation appropriately warranted a consultation.

### **IN.1.10 Functional studies include stress echocardiograms and myocardial perfusion studies** **Functional studies include stress echocardiograms and nuclear myocardial perfusion studies**

#### **Indications**

Assessment before cardiac surgery or catheter-based interventions to ensure the criteria for intervention are met could include assessment of the severity of aortic stenosis in patients with impaired left ventricular function or obtaining objective evidence of the correlation between functional capacity and ischaemic threshold.

A calcium score of zero is normal in adults and clinician judgement should be applied for scores of 0–10 (does not apply to persons under 17 years).

#### **Providers**

Appropriately trained means a provider that meets the level 2 requirements for stress echocardiography as described in the Cardiac Society of Australia & New Zealand Guidelines for Training and Performance in Adult Echocardiography or CSANZ Guidelines for Training and Performance in Paediatric Echocardiography, or an equivalent training standard.

This available at: [https://www.csanz.edu.au/wp-content/uploads/2015/04/Adult-Echo\\_2015-February.pdf](https://www.csanz.edu.au/wp-content/uploads/2015/04/Adult-Echo_2015-February.pdf)

A complete echocardiogram refers to services performed under items 55126, 55127, 55128, 55129, 55132, 55134 and 55137.

In most cases, stress echocardiography and myocardial perfusion studies provide equivalent information. Consideration should be given to the radiation burden of any test that is requested when determining the appropriate modality for a patient, and the patient should be fully informed and involved in this decision.

#### **Results**

Discussions of the results, findings or interpretation of a study are reasonably expected to be part of a formal report. Discussion of these findings with a patient does not constitute a consult. Similarly, discussion(s) during the course of a study or to determine the safety or appropriateness of the study is part of the service and should not be claimed as a consult.

### **IN.4.1 Single Rest Myocardial Perfusion Study - Item 61321 and 61422** **Item interpretation**

A service provided under new items 61321 or 61422 is for a single rest myocardial perfusion study (MPS) for the assessment of extent and severity of viable and non-viable heart tissue (myocardium), when performed on a patient with left ventricular systolic dysfunction, using a single rest technetium-99m (Tc-99m) protocol for item 61321 or an equivalent protocol to the single rest technetium-99m (Tc-99m) protocol when technetium is not available using item 61422.

### **Results**

Discussions of the results, findings or interpretation of a study are reasonably expected to be part of a formal report. Discussion of these findings with a patient does not constitute a consult. Similarly, discussion(s) during the course of a study or to determine the safety or appropriateness of the study is part of the service and should not be claimed as a consult.

## **IN.4.2 Single Rest Myocardial Perfusion Study Item 61325**

### **Item indication**

A service provided under new item 61325 is for a single rest myocardial perfusion study (MPS) for the assessment of extent and severity of viable and non-viable heart tissue (myocardium), when performed on a patient with left ventricular systolic dysfunction. This item allows the use of an initial rest study followed by redistribution study, later the same day, with or without 24 hour imaging, with thallous chloride-201 (Tl-201).

### **Claiming**

This item can be claimed twice in a 24 month period, however it would be expected that the item would be claimed twice in a 24 hour period to reflect the requirements of the study.

### **Results**

Discussions of the results, findings or interpretation of a study are reasonably expected to be part of a formal report. Discussion of these findings with a patient does not constitute a consult. Similarly, discussion(s) during the course of a study or to determine the safety or appropriateness of the study is part of the service and should not be claimed as a consult.

## **IN.4.3 Myocardial Perfusion Study Items**

### **Stress Myocardial Perfusion Study Items (61311, 61324, 61329, 61332, 61345, 61349, 61357, 61365, 61377, 61380, 61394, 61398, 61406, 61410, 61414 and 61418)**

Functional studies include stress echocardiograms and nuclear myocardial perfusion studies.

In most cases, stress echocardiography and myocardial perfusion studies provide equivalent information. Consideration should be given to the radiation burden of any test that is requested when determining the appropriate modality for a patient, the patient should be fully informed and involved in this decision.

A calcium score of zero is normal in adults and clinician judgement should be applied for scores of 0–10 (does not apply to persons under 17 years).

### **Results**

Discussions of the results, findings or interpretation of a study are reasonably expected to be part of a formal report. Discussion of these findings with a patient does not constitute a consult. Similarly, discussion(s) during the course of a study or to determine the safety or appropriateness of the study is part of the service and should not be claimed as a consult.

### **IR.0.1 Stress echocardiography indications and requirements of use**

1. For any particular patient, item 55141, 55143, 55145 or 55146 applies if one or more of the following is applicable:

- a. if the patient displays one or more of the following symptoms of typical or atypical angina:
  - i. constricting discomfort in the:
    - a. front of the chest; or
    - b. neck; or
    - c. shoulders; or
    - d. jaw; or
    - e. arms; or
  - ii. the patient's symptoms, as described in subparagraph (3)(a)(i), are precipitated by physical exertion; or
  - iii. the patient's symptoms, as described in subparagraph (3)(a)(i), are relieved by rest or glyceryl trinitrate within 5 minutes or less; or
- b. if the patient has known coronary artery disease and displays one or more symptoms that are suggestive of ischaemia:
  - i. which are not adequately controlled with medical therapy; or
  - ii. have evolved since the last functional study; or
- c. if the patient qualifies for one or more of the following indications:
  - i. assessment of myocardial ischaemia with exercise is required if a patient with congenital heart lesions has undergone surgery and reversal of ischemia is considered possible; or
  - ii. assessment indicates that resting 12 lead electrocardiogram changes are consistent with coronary artery disease or ischaemia, in a patient that is without known coronary artery disease; or
  - iii. coronary artery disease related lesions, of uncertain functional significance, which have previously been identified on computed tomography coronary angiography or invasive coronary angiography; or
  - iv. assessment by a specialist or consultant physician indicates that the patient has potential non-coronary artery disease, where a stress echocardiography study is likely to assist the diagnosis; or
  - v. assessment indicates that the patient has undue exertional dyspnoea of uncertain aetiology; or
  - vi. a pre-operative assessment of a patient with functional capacity of less than 4 metabolic equivalents confirming that surgery is intermediate to high risk, and the patient has at least one of following conditions:
    - a. ischaemic heart disease or previous myocardial infarction; or
    - b. heart failure; or
    - c. stroke or transient ischaemic attack; or
    - d. renal dysfunction (serum creatinine greater than 170umol/L or 2 mg/dL or a creatinine clearance of less than 60 mL/min); or
    - e. diabetes mellitus requiring insulin therapy; or
  - vii. assessment before cardiac surgery or catheter-based interventions is required to:
    - a. increase the cardiac output to assess the severity of aortic stenosis; or
    - b. determine whether valve regurgitation worsens with exercise and/or correlates with functional capacity; or
    - c. correlate functional capacity with the ischaemic threshold; or
  - viii. for patients where silent myocardial ischaemia is suspected, or due to the patient's cognitive capacity or expressive language impairment, it is not possible to accurately assess symptom frequency based on medical history.

2. For any particular patient, the request for a service to be provided under item 55141, 55143, 55145 or 55146 must identify the symptom/s or clinical indications/s, as outlined in subclause 1.1.1(3).

3. For any particular patient, item 55141, 55143, 55145 or 55146 applies to a service if:
  - a. the diagnostic imaging procedure is performed on premises equipped with resuscitation equipment, which includes a defibrillator; and
  - b. the diagnostic imaging procedure is performed by a person trained in exercise testing and cardiopulmonary resuscitation who is in personal attendance during the procedure; and
  - c. a second person trained in exercise testing and cardiopulmonary resuscitation is located at the diagnostic imaging premise where the procedure is performed and is immediately available to respond at the time the exercise test is performed on the patient, if required; and
  - d. one of the persons mentioned in paragraphs (b) and (c) must be a medical practitioner.

4. Limitation of ultrasound items 55141, 55143, 55145 and 55146

1. For any particular patient, a service under item 55141, 55143, 55145 and 55146 does not apply if:
  - a. the patient has body habitus or other physical condition/s (including heart rhythm disturbance) to the extent where a stress echocardiography would not provide adequate information; or
  - b. the patient is unable to exercise to the extent where a stress echocardiography would not provide adequate information; or
  - c. results of a previous imaging service indicate that a stress echocardiography service would not provide adequate information.

**IR.1.1 Repeat Stress echo requirements 55143**

1. For any particular patient, item 55143 applies to a service if:
  - a. the service is for an exercise stress echocardiography and includes all of the following:
    - i. two-dimensional recordings before exercise (baseline) from at least 2 acoustic windows; and
    - ii. matching recordings at or immediately after peak exercise, which include at least parasternal short and long axis views, and apical 4-chamber and 2 chamber views; and
    - iii. recordings on digital media with equipment permitting display of baseline and matching peak images on the same screen; and
    - iv. resting electrocardiogram and continuous multi-channel electrocardiogram monitoring and recording during stress; and
    - v. blood pressure monitoring and the recording of other parameters (including heart rate); or
  - b. the service is for a pharmacological stress echocardiography and includes all of the following:
    - i. two-dimensional recordings before drug infusion (baseline) from at least 2 acoustic windows; and
    - ii. matching recordings at least twice during drug infusion, including a recording at the peak drug dose, which include at least parasternal short and long axis views, and apical 4-chamber and 2 chamber views; and
    - iii. recordings on digital media with equipment permitting display of baseline and matching peak images on the same screen; and
    - iv. resting electrocardiogram and continuous multi-channel electrocardiogram monitoring and recording during stress; and
    - v. blood pressure monitoring and the recording of other parameters (including heart rate).

**IR.1.2 Echocardiography and attendance requirements**

1. For any particular patient, a service associated with an attendance item listed in Part 2 of the general medical services table does not apply if a service to which item 55126, 55127, 55128, 55129, 55132, 55133, 55134, 55137, 55141, 55143, 55145 or 55146 applies is provided on the same day; unless:

- a. the attendance service is provided after the service where clinical management decisions are made; or
- b. the decision to perform the service on the same day was made during the attendance service subject to clinical assessment.

### **IR.1.3 Echocardiography Multiple Services Rule (EMSR)**

1. If one or more services in paragraph (a) is rendered with one or more services in paragraph (b) for the same patient on the same day by the same medical practitioner, then the item with the lesser fee will be reduced by 40% of the fee.

2. The items applicable to the echocardiography multiple services fee reduction rule are:

- a. a service to which one or more of items 55126, 55127, 55128, 55129, 55132, 55133, 55134 or 55137 apply; and
- b. a service to which one or more of items 55141, 55143, 55145 or 55146 apply.

### **IR.4.1 Stress myocardial perfusion studies - Indications and requirements of use**

1. For any particular patient, item 61311, 61324, 61329, 61332, 61345, 61349, 61357, 61365, 61377, 61380, 61394, 61398, 61406, 61410, 61414 or 61418 applies if one or more of the following is applicable:

- a. if the patient displays one or more of the following symptoms of typical or atypical angina:
  - i. constricting discomfort in the:
    - a. front of the chest; or
    - b. neck; or
    - c. shoulders; or
    - d. jaw; or
    - e. arms; or
  - ii. the patient's symptoms, as described in subparagraph (3)(a)(i), are precipitated by physical exertion; or
  - iii. the patient's symptoms, as described in subparagraph (3)(a)(i), are relieved by rest or glyceryl trinitrate within 5 minutes or less; or
- b. if the patient has known coronary artery disease, and displays one or more symptoms that are suggestive of ischaemia:
  - i. which are not adequately controlled with medical therapy; or
  - ii. which have evolved since the last functional study; or
- c. if the patient qualifies for one or more of the following indications:
  - i. assessment indicates that resting 12 lead electrocardiogram changes are consistent with coronary artery disease or ischaemia, in a patient that is without known coronary artery disease; or
  - ii. coronary artery disease related lesions, of uncertain functional significance, which have previously been identified on computed tomography coronary angiography or invasive coronary angiography; or
  - iii. an assessment by a specialist or consultant physician indicates that the patient has possible painless myocardial ischaemia, which includes undue exertional dyspnoea of uncertain aetiology; or
  - iv. a pre-operative assessment of a patient with functional capacity of less than 4 metabolic equivalents, confirming that surgery is intermediate to high risk, and the patient has at least one of following conditions:
    - a. ischaemic heart disease or previous myocardial infarction; or
    - b. heart failure; or
    - c. stroke or transient ischaemic attack; or
    - d. renal dysfunction (serum creatinine greater than 70umol/L or 2 mg/dL or a creatinine clearance of less than 60 mL/min); or
    - e. diabetes mellitus requiring insulin therapy; or
  - v. quantification of extent and severity of myocardial ischaemia, before either percutaneous coronary intervention or coronary bypass surgery, to ensure the criteria for intervention are met; or
  - vi. assessment of relative amounts of ischaemic viable myocardium and non-viable (infarcted) myocardium, in patients with previous myocardial infarction; or
  - vii. assessment of myocardial ischaemia with exercise is required, if a patient with congenital heart lesions has undergone surgery and ischemia is considered possible; or

- viii. assessment of myocardial perfusion in a person who is under 17 years old with coronary anomalies, before and after cardiac surgery for congenital heart disease, or where there is a probable or confirmed coronary artery abnormality; or
- ix. for patients where myocardial perfusion abnormality is suspected but due to the patient's cognitive capacity or expressive language impairment, it is not possible to accurately assess symptom frequency based on medical history.

2. For any particular patient, the request for a service to be provided under item 61311, 61332, 61324, 61329, 61345, 61349, 61357, 61365, 61377, 61380, 61394, 61398, 61406, 61410, 61414 or 61418 must identify the symptom/s or clinical indications/s, as outlined in subclause 1.2.1(1).

3. For any particular patient, item 61311, 61324, 61329, 61332, 61345, 61349, 61357, 61365, 61377, 61380, 61394, 61398, 61406, 61410 61414 or 61418 applies to a service if:

- a. the diagnostic imaging procedure is performed on premises equipped with resuscitation equipment, which includes a defibrillator; and
- b. the diagnostic imaging procedure is performed by a person trained in cardiopulmonary resuscitation who is in personal attendance during the procedure; and
- c. a second person trained in exercise testing and cardiopulmonary resuscitation is located at the diagnostic imaging premise where the procedure is performed and is immediately available to respond at the time the exercise test is performed on the patient, if required; and
- d. one of the persons mentioned in paragraphs (b) and (c) must be a medical practitioner.

4. For any particular patient, a service associated with an attendance item listed in Part 2 of the general medical services table does not apply if a service to which item 61311, 61324, 61329, 61332, 61345, 61349, 61357, 61365, 61377, 61380, 61394, 61398, 61406, 61410, 61414 or 61418 applies is provided in the same day; unless:

- a. the attendance service is provided after the service where clinical management decisions are made; or
- b. the decision to perform the service on the same day was made during the attendance service subject to clinical assessment.

**5. Limitations of items 61311, 61324, 61329, 61332, 61345, 61357, 61365, 61377, 61380, 61394, 61398, 61406, 61414 or 61418**

- A. Item 61324, 61329, 61345, 61357, 61394, 61398, 61406 or 61414 are applicable not more than once in any 24 month period if the patient is 17 years old or older.
- B. Item 61311 does not apply to a service provided to a patient who is 17 years old or older if in the previous 24 months, a service associated with:
  - (i) a service to which item 61332, 61377 or 61380 applies has been provided to the patient; or
  - (ii) a service to which item 61324, 61349, 61357, 61365, 61394, 61398, 61406, 61410, 61414 or 61418 of the diagnostic imaging services table applies has been provided to the patient
- C. Item 61332 does not apply to a service provided to a patient who is 17 years old or older if in the previous 24 months, a service associated with:
  - (i) a service to which item 61311, 61377, 61380 or 61422 applies has been provided to the patient; or
  - (ii) a service to which item 61329, 61345, 61349, 61365, 61410 or 61418 of the diagnostic imaging services table applies has been provided to the patient.
- D. Item 61365 does not apply to a service provided to a patient if in the previous 12 months, a service associated with a service to which item 61349, 61410 or 61418 of the diagnostic imaging services table applies has been provided to the patient.

- E. Item 61377 does not apply to a service provided to a patient who is 17 years old or older if in the previous 24 months, a service associated with:
  - (i) a service to which item 61311, 61332 or 61380 applies has been provided to the patient; or
  - (ii) to which item 61329, 61345, 61349, 61365, 61394, 61410, 61414 or 61418 of the diagnostic imaging services table applies has been provided to the patient.
- F. Item 61380 does not apply to a service provided to a patient who is 17 years old or older if in the previous 24 months, a service associated with:
  - (i) a service to which item 61311, 61332, 61337 or 61422 applies has been provided to the patient; or
  - (ii) a service to which item 61349, 61365, 61398, 61406, 61410 or 61418 of the diagnostic imaging services table applies has been provided to the patient.
- G. Item 61418 does not apply to a service provided to a patient if in the previous 12 months, a service associated with a service to which item 61349, 61365 or 61410 of the diagnostic imaging services table applies has been provided to the patient.
- H. Item 61422 does not apply to a service provided to a patient who is 17 years old or older if in the previous 24 months, a service associated with:
  - (i) a service to which item 61332 or 61380 applies has been provided to the patient; or
  - (ii) a service to which item 61321, 61325, 61329, 61345, 61349, 61365, 61410 or 61418 of the diagnostic imaging services table has been provided to the table.
- I. An item in Part 2 of the general medical services table does not apply to a service (the attendance service) provided to a patient on a day if either of the following is provided to the patient on the same day:
  - (i) a myocardial perfusion study service to which item 61311, 61332, 61365, 61377, 61380, 61418 or 61422 of the diagnostic imaging services table applies.

#### **IR.4.2 Single rest myocardial perfusion studies - requirements for use**

1. For any particular patient, a service associated with an attendance item listed in Part 2 of the general medical services table does not apply if a service to which item 61321 or 61325 or 61422 applies is provided in the same day; unless:

- a. the attendance service is provided after the service where clinical management decisions are made; or
- b. the decision to perform the service on the same day was made during the attendance service subject to clinical assessment.

2. Limitations of items 61321 and 61325

- 1. Item 61321 is applicable not more than once in any 24 month period if the patient is 17 years old or older.
- 2. Item 61325 is applicable not more than twice in any 24 month period if the patient is 17 years old or older.

55038	Urinary tract, ultrasound scan of, if:	

11. ULTRASOUND	1. GENERAL
	<p>(a) the service is not solely a transrectal ultrasonic examination of any of the following:</p> <p>(i) prostate gland;</p> <p>(ii) bladder base;</p> <p>(iii) urethra; and</p> <p>(b) within 24 hours of the service, a service mentioned in item 55036 or 55065 is not performed on the same patient by the providing practitioner (R)</p> <p>(See para IN.0.19 of explanatory notes to this Category)  <b>Fee:</b> \$110.75      <b>Benefit:</b> 75% = \$83.10    85% = \$94.15</p>
55039	<p>Urinary tract, ultrasound scan of, if the service is not solely a transrectal ultrasonic examination of any of the following:</p> <p>(a) prostate gland;</p> <p>(b) bladder base;</p> <p>(c) urethra (NR)</p> <p>(See para IN.0.19 of explanatory notes to this Category)  <b>Fee:</b> \$38.40      <b>Benefit:</b> 75% = \$28.80    85% = \$32.65</p>
55048	<p>Scrotum, ultrasound scan of (R)</p> <p>(See para IN.0.19 of explanatory notes to this Category)  <b>Fee:</b> \$111.15      <b>Benefit:</b> 75% = \$83.40    85% = \$94.50</p>
55049	<p>Scrotum, ultrasound scan of (NR)</p> <p>(See para IN.0.19 of explanatory notes to this Category)  <b>Fee:</b> \$38.40      <b>Benefit:</b> 75% = \$28.80    85% = \$32.65</p>
55054	<p>Ultrasonic cross-sectional echography, in conjunction with a surgical procedure (other than a procedure to which item 55848 or 55850 applies) using interventional techniques, not being a service associated with a service to which any other item in this Group applies (R)</p> <p>(See para IN.0.19 of explanatory notes to this Category)  <b>Fee:</b> \$110.75      <b>Benefit:</b> 75% = \$83.10    85% = \$94.15  <b>Extended Medicare Safety Net Cap:</b> \$88.60</p>
55065	<p>Pelvis, ultrasound scan of, by any or all approaches, if:</p> <p>(a) the service is not solely:</p> <p>(i) a service to which an item in Subgroup 5 of this Group applies, or</p> <p>(ii) a transrectal ultrasonic examination of the prostate gland, bladder base and urethra, or any of those organs; and</p> <p>(b) within 24 hours of the service, a service mentioned in item 55038 is not performed on the same patient by the providing practitioner (R)</p> <p>(See para IN.0.19 of explanatory notes to this Category)  <b>Fee:</b> \$99.70      <b>Benefit:</b> 75% = \$74.80    85% = \$84.75</p>
55066	<p>Breasts, both, ultrasound scan, in conjunction with a surgical procedure using interventional techniques, if:</p> <p>(a) the request for the scan indicates that an ultrasound guided breast intervention be performed; and</p>

I1. ULTRASOUND		1. GENERAL
	(b) the service is not performed in conjunction with any other item in this Group (R)  (See para IN.0.19 of explanatory notes to this Category) <b>Fee:</b> \$221.45 <b>Benefit:</b> 75% = \$166.10    85% = \$188.25	
55068	Pelvis, ultrasound scan of, by any or all approaches, if the service is not solely a service to which an item in Subgroup 5 of this Group applies or a transrectal ultrasonic examination of any of the following: (i) prostate gland; (ii) bladder base; (iii) urethra (NR)  (See para IN.0.19 of explanatory notes to this Category) <b>Fee:</b> \$35.50 <b>Benefit:</b> 75% = \$26.65    85% = \$30.20	
55070	Breast, one, ultrasound scan of (R)  (See para IN.0.19 of explanatory notes to this Category) <b>Fee:</b> \$99.70 <b>Benefit:</b> 75% = \$74.80    85% = \$84.75	
55071	Breast, one, ultrasound scan, in conjunction with a surgical procedure using interventional techniques, if: (a) the request for the scan indicates that an ultrasound guided breast intervention be performed; and (b) the service is not performed in conjunction with any other item in this group (R)  (See para IN.0.19 of explanatory notes to this Category) <b>Fee:</b> \$210.45 <b>Benefit:</b> 75% = \$157.85    85% = \$178.90	
55073	Breast, one, ultrasound scan of (NR)  (See para IN.0.19 of explanatory notes to this Category) <b>Fee:</b> \$34.55 <b>Benefit:</b> 75% = \$25.95    85% = \$29.40	
55076	Breasts, both, ultrasound scan of, including an ultrasound scan for post mastectomy surveillance (R)  (See para IN.0.19 of explanatory notes to this Category) <b>Fee:</b> \$110.75 <b>Benefit:</b> 75% = \$83.10    85% = \$94.15	
55079	Breasts, both, ultrasound scan of, including an ultrasound scan for post mastectomy surveillance (NR)  (See para IN.0.19 of explanatory notes to this Category) <b>Fee:</b> \$38.40 <b>Benefit:</b> 75% = \$28.80    85% = \$32.65	
55084	Urinary bladder, ultrasound scan of, by any or all approaches, if within 24 hours of the service, a service mentioned in item 11917, 55036, 55038, 55065, 55600 or 55603 is not performed on the same patient by the providing practitioner (R)  (See para IN.0.19 of explanatory notes to this Category) <b>Fee:</b> \$99.70 <b>Benefit:</b> 75% = \$74.80    85% = \$84.75	
55085	Urinary bladder, ultrasound scan of, by any or all approaches, if within 24 hours of the service, a service mentioned in item 11917, 55037, 55039, 55068, 55600 or 55603 is not performed on the same patient by the providing practitioner (NR)  (See para IN.0.19 of explanatory notes to this Category) <b>Fee:</b> \$34.55 <b>Benefit:</b> 75% = \$25.95    85% = \$29.40	
I1. ULTRASOUND		2. CARDIAC
	<b>Group I1. Ultrasound</b>	
	Subgroup 2. Cardiac	
<b>Amend</b> 55118	Heart, two dimensional real time transoesophageal examination of, from at least 2 levels, and in more than one plane at each level, if: (a) the service includes:	

11. ULTRASOUND		2. CARDIAC
	<p>(i) real time colour flow mapping and, if indicated, pulsed wave Doppler examination; and (ii) recordings on video tape or digital medium; and (b) the service is not: (i) an intra operative service; or (ii) a service associated with a service to which an item in Subgroup 3 of this Group applies (R) (Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category) <b>Fee:</b> \$279.65      <b>Benefit:</b> 75% = \$209.75    85% = \$237.75</p>	
55130	<p>Intra-operative two-dimensional real time transoesophageal echocardiography incorporating Doppler techniques with colour flow mapping and recording onto video tape or digital medium, performed during cardiac surgery incorporating sequential assessment of cardiac function before and after the surgical procedure, not being a service associated with a service to which item 55135 applies (R) (Anaes.) (Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category) <b>Fee:</b> \$172.55      <b>Benefit:</b> 75% = \$129.45    85% = \$146.70</p>	
55135	<p>Intra-operative two-dimensional real time transoesophageal echocardiography incorporating Doppler techniques with colour flow mapping and recording onto video tape or digital medium, performed during cardiac valve surgery (replacement or repair) incorporating sequential assessment of cardiac function and valve competence before and after the surgical procedure, not being a service associated with a service to which item 55130 applies (R) (Anaes.) (Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category) <b>Fee:</b> \$358.90      <b>Benefit:</b> 75% = \$269.20    85% = \$305.10</p>	
11. ULTRASOUND		3. VASCULAR
	<b>Group 11. Ultrasound</b>	
		<b>Subgroup 3. Vascular</b>
55238	<p>Duplex scanning, unilateral, involving B mode ultrasound imaging and integrated Doppler flow measurements by spectral analysis of arteries or bypass grafts in the lower limb or of arteries and bypass grafts in the lower limb, below the inguinal ligament, not being a service associated with any of the following: (a) a service to which an item in Subgroup 4 applies; (b) a service to which item 55880, 55881, 55882, 55883, 55884, 55885, 55886, 55887, 55888, 55889, 55890, 55891, 55892, 55893, 55894 or 55895 applies (R)</p> <p>(See para IN.0.19 of explanatory notes to this Category) <b>Fee:</b> \$172.05      <b>Benefit:</b> 75% = \$129.05    85% = \$146.25</p>	
55244	<p>Duplex scanning, unilateral, involving B mode ultrasound imaging and integrated Doppler flow measurements by spectral analysis of veins in the lower limb, below the inguinal ligament, for acute venous thrombosis, not being a service associated with any of the following: (a) a service to which item 55246 applies; (b) a service to which an item in Subgroup 4 applies; (c) a service to which item 55880, 55881, 55882, 55883, 55884, 55885, 55886, 55887, 55888, 55889, 55890, 55891, 55892, 55893, 55894 or 55895 applies (R)</p> <p>(See para IN.0.19 of explanatory notes to this Category) <b>Fee:</b> \$172.05      <b>Benefit:</b> 75% = \$129.05    85% = \$146.25</p>	
55246	<p>Duplex scanning, unilateral, involving B mode ultrasound imaging and integrated Doppler flow measurements by spectral analysis of veins in the lower limb, below the inguinal ligament, for chronic venous disease, not being a service associated with any of the following: (a) a service to which item 55244 applies;</p>	

I1. ULTRASOUND	3. VASCULAR
	<p>(b) a service to which an item in Subgroup 4 applies;  (c) a service to which item 55880, 55881, 55882, 55883, 55884, 55885, 55886, 55887, 55888, 55889, 55890, 55891, 55892, 55893, 55894 or 55895 applies (R)</p> <p>(See para IN.0.19 of explanatory notes to this Category)  <b>Fee:</b> \$172.05      <b>Benefit:</b> 75% = \$129.05    85% = \$146.25</p>
55248	<p>Duplex scanning, unilateral, involving B mode ultrasound imaging and integrated Doppler flow measurements by spectral analysis of arteries or bypass grafts in the upper limb or of arteries and bypass grafts in the upper limb, not being a service associated with a service to which an item in Subgroup 4 applies (R)</p> <p>(See para IN.0.19 of explanatory notes to this Category)  <b>Fee:</b> \$172.05      <b>Benefit:</b> 75% = \$129.05    85% = \$146.25</p>
55252	<p>Duplex scanning, unilateral, involving B mode ultrasound imaging and integrated Doppler flow measurements by spectral analysis of veins in the upper limb, not being a service associated with a service to which an item in Subgroup 4 applies (R).</p> <p>(See para IN.0.19 of explanatory notes to this Category)  <b>Fee:</b> \$172.05      <b>Benefit:</b> 75% = \$129.05    85% = \$146.25</p>
55274	<p>Duplex scanning, bilateral, involving B mode ultrasound imaging and integrated Doppler flow measurements by spectral analysis of extra cranial bilateral carotid and vertebral vessels, with or without subclavian and innominate vessels, with or without oculoplethysmography or peri orbital Doppler examination, not being a service associated with a service to which an item in Subgroup 4 applies (R).</p> <p>(See para IN.0.19 of explanatory notes to this Category)  <b>Fee:</b> \$172.05      <b>Benefit:</b> 75% = \$129.05    85% = \$146.25</p>
55276	<p>Duplex scanning involving B mode ultrasound imaging and integrated Doppler flow measurements by spectral analysis of intra-abdominal, aorta and iliac arteries or inferior vena cava and iliac veins or of intra-abdominal, aorta and iliac arteries and inferior vena cava and iliac veins, excluding pregnancy related studies, not being a service associated with a service to which an item in Subgroup 4 applies (R)</p> <p>(See para IN.0.19 of explanatory notes to this Category)  <b>Fee:</b> \$172.05      <b>Benefit:</b> 75% = \$129.05    85% = \$146.25</p>
55278	<p>Duplex scanning involving B mode ultrasound imaging and integrated Doppler flow measurements by spectral analysis of renal or visceral vessels or of renal and visceral vessels, including aorta, inferior vena cava and iliac vessels as required excluding pregnancy related studies, not being a service associated with a service to which an item in Subgroup 4 applies (R)</p> <p>(See para IN.0.19 of explanatory notes to this Category)  <b>Fee:</b> \$172.05      <b>Benefit:</b> 75% = \$129.05    85% = \$146.25</p>
55280	<p>Duplex scanning involving B mode ultrasound imaging and integrated Doppler flow measurements by spectral analysis of intra cranial vessels, not being a service associated with a service to which an item in Subgroup 4 applies (R)</p> <p>(See para IN.0.19 of explanatory notes to this Category)  <b>Fee:</b> \$172.05      <b>Benefit:</b> 75% = \$129.05    85% = \$146.25</p>
55282	<p>Duplex scanning involving B mode ultrasound imaging and integrated Doppler flow measurements:  (a) by spectral analysis of cavernosal artery of the penis following intracavernosal administration of a vasoactive agent; and  (b) performed during the period of pharmacological activity of the injected agent, to confirm a diagnosis of vascular aetiology for impotence; and  (c) if a specialist in diagnostic radiology, nuclear medicine, urology, general surgery (sub specialising in</p>

I1. ULTRASOUND		3. VASCULAR
	<p>vascular surgery) or a consultant physician in nuclear medicine attends the patient in person at the practice location where the service is performed, immediately before or for a period during the performance of the service; and</p> <p>(d) if the specialist or consultant physician interprets the results and prepares a report, not being a service associated with a service to which an item in Subgroup 4 applies (R)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$172.05      <b>Benefit:</b> 75% = \$129.05    85% = \$146.25</p>	
55284	<p>Duplex scanning involving B mode ultrasound imaging and integrated Doppler flow measurements:</p> <p>(a) by spectral analysis of cavernosal tissue of the penis to confirm a diagnosis; and</p> <p>(b) if indicated, assess the progress and management of:</p> <p>(i) priapism; or</p> <p>(ii) fibrosis of any type; or</p> <p>(iii) fracture of the tunica; or</p> <p>(iv) arteriovenous malformations; and</p> <p>(c) if a specialist in diagnostic radiology, nuclear medicine, urology, general surgery (sub specialising in vascular surgery) or a consultant physician in nuclear medicine attends the patient in person at the practice location where the service is performed, immediately before or for a period during the performance of the service; and</p> <p>(d) if the specialist or consultant physician interprets the results and prepares a report, not being a service associated with a service to which an item in Subgroup 4 applies (R)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$172.05      <b>Benefit:</b> 75% = \$129.05    85% = \$146.25</p>	
55292	<p>Duplex scanning, unilateral, involving B mode ultrasound imaging and integrated Doppler flow measurements by spectral analysis of surgically created arteriovenous fistula or surgically created arteriovenous access grafts in the upper or lower limbs, not being a service associated with a service to which an item in Subgroup 4 applies (R)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$172.05      <b>Benefit:</b> 75% = \$129.05    85% = \$146.25</p>	
55294	<p>Duplex scanning involving B mode ultrasound imaging and integrated Doppler flow measurements by spectral analysis of arteries or veins, or both, including any associated skin marking, for mapping of bypass conduit before vascular surgery, not being a service associated with any of the following:</p> <p>(a) a service to which an item in Subgroup 3 or 4 applies;</p> <p>(b) a service to which item 55880, 55881, 55882, 55883, 55884, 55885, 55886, 55887, 55888, 55889, 55890, 55891, 55892, 55893, 55894 or 55895 applies (R)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$172.05      <b>Benefit:</b> 75% = \$129.05    85% = \$146.25</p>	
55296	<p>Duplex scanning, unilateral, involving B mode ultrasound imaging and integrated Doppler flow spectral analysis and marking of veins in the lower limbs below the inguinal ligament before varicose vein surgery, including any associated skin marking, not being a service associated with any of the following:</p> <p>(a) a service to which an item in Subgroup 3 or 4 applies;</p> <p>(b) a service to which item 55880, 55881, 55882, 55883, 55884, 55885, 55886, 55887, 55888, 55889, 55890, 55891, 55892, 55893, 55894 or 55895 applies (R)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$112.70      <b>Benefit:</b> 75% = \$84.55    85% = \$95.80</p>	
I1. ULTRASOUND		4. UROLOGICAL
	<b>Group I1. Ultrasound</b>	
		Subgroup 4. Urological

11. ULTRASOUND		4. UROLOGICAL
55600	<p>Prostate, bladder base and urethra, ultrasound scan of, if performed:</p> <p>(a) personally by a medical practitioner (not being the medical practitioner who assessed the patient as specified in paragraph (c)) using one or more transducer probes that can obtain both axial and sagittal scans in 2 planes at right angles; and</p> <p>(b) after a digital rectal examination of the prostate by that medical practitioner; and</p> <p>(c) on a patient who has been assessed by:</p> <p>(i) a specialist in urology, radiation oncology or medical oncology; or</p> <p>(ii) a consultant physician in medical oncology;</p> <p>who has:</p> <p>(iii) examined the patient in the 60 days before the scan; and</p> <p>(iv) recommended the scan for the management of the patient's current prostatic disease</p> <p>(R)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$110.75      <b>Benefit:</b> 75% = \$83.10    85% = \$94.15</p>	
55603	<p>Prostate, bladder base and urethra, ultrasound scan of, if performed:</p> <p>(a) personally by a medical practitioner who made the assessment mentioned in paragraph (c) using one or more transducer probes that can obtain both axial and sagittal scans in 2 planes at right angles; and</p> <p>(b) after a digital rectal examination of the prostate by that medical practitioner; and</p> <p>(c) on a patient who has been assessed by:</p> <p>(i) a specialist in urology, radiation oncology or medical oncology; or</p> <p>(ii) a consultant physician in medical oncology;</p> <p>who has:</p> <p>(iii) examined the patient in the 60 days before the scan; and</p> <p>(iv) recommended the scan for the management of the patient's current prostatic disease</p> <p>(R)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$110.75      <b>Benefit:</b> 75% = \$83.10    85% = \$94.15</p>	
11. ULTRASOUND		5. OBSTETRIC AND GYNAECOLOGICAL
	<b>Group 11. Ultrasound</b>	
	Subgroup 5. Obstetric And Gynaecological	
55700	<p>Pelvis or abdomen, pregnancy related or pregnancy complication, ultrasound scan of, by any or all approaches, for determining the gestation, location, viability or number of foetuses, if the dating of the pregnancy (as confirmed by ultrasound) is less than 12 weeks of gestation (R)</p>	

11. ULTRASOUND	5. OBSTETRIC AND GYNAECOLOGICAL
	<p>(See para IN.0.19 of explanatory notes to this Category)  <b>Fee:</b> \$60.90      <b>Benefit:</b> 75% = \$45.70    85% = \$51.80  <b>Extended Medicare Safety Net Cap:</b> \$33.20</p>
55703	<p>Pelvis or abdomen, pregnancy related or pregnancy complication, ultrasound scan of, by any or all approaches, for determining the gestation, location, viability or number of foetuses, if the dating of the pregnancy (as confirmed by ultrasound) is less than 12 weeks of gestation (NR)</p> <p>(See para IN.0.19 of explanatory notes to this Category)  <b>Fee:</b> \$35.50      <b>Benefit:</b> 75% = \$26.65    85% = \$30.20  <b>Extended Medicare Safety Net Cap:</b> \$16.65</p>
55704	<p>Pelvis or abdomen, pregnancy related or pregnancy complication, fetal development and anatomy, ultrasound scan of, by any or all approaches, for determining the structure, gestation, location, viability or number of foetuses, if the dating of the pregnancy (as confirmed by ultrasound) is 12 to 16 weeks of gestation (R)</p> <p>(See para IN.0.19 of explanatory notes to this Category)  <b>Fee:</b> \$71.05      <b>Benefit:</b> 75% = \$53.30    85% = \$60.40  <b>Extended Medicare Safety Net Cap:</b> \$38.75</p>
55705	<p>Pelvis or abdomen, pregnancy related or pregnancy complication, fetal development and anatomy, ultrasound scan of, by any or all approaches, for determining the structure, gestation, location, viability or number of foetuses, if the dating of the pregnancy (as confirmed by ultrasound) is 12 to 16 weeks of gestation (NR)</p> <p>(See para IN.0.19 of explanatory notes to this Category)  <b>Fee:</b> \$35.50      <b>Benefit:</b> 75% = \$26.65    85% = \$30.20  <b>Extended Medicare Safety Net Cap:</b> \$16.65</p>
55706	<p>Pelvis or abdomen, pregnancy related or pregnancy complication, fetal development and anatomy, ultrasound scan of, by any or all approaches, with measurement of all parameters for dating purposes, if:  (a) the dating for the pregnancy (as confirmed by ultrasound) is 17 to 22 weeks of gestation; and  (b) the service is not performed in the same pregnancy as item 55709 (R)</p> <p>(See para IN.0.19 of explanatory notes to this Category)  <b>Fee:</b> \$101.50      <b>Benefit:</b> 75% = \$76.15    85% = \$86.30  <b>Extended Medicare Safety Net Cap:</b> \$55.30</p>

11. ULTRASOUND	5. OBSTETRIC AND GYNAECOLOGICAL
55707	<p>Pelvis or abdomen, pregnancy related or pregnancy complication, fetal development and anatomy, ultrasound scan of, by any or all approaches, if:</p> <p>(a) the pregnancy (as confirmed by ultrasound) is dated by a fetal crown rump length of 45 to 84 mm; and</p> <p>(b) nuchal translucency measurement is performed to assess the risk of fetal abnormality; and</p> <p>(c) the service is not performed with item 55700, 55703, 55704 or 55705 on the same patient within 24 hours (R)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$71.05      <b>Benefit:</b> 75% = \$53.30    85% = \$60.40</p> <p><b>Extended Medicare Safety Net Cap:</b> \$38.75</p>
55708	<p>Pelvis or abdomen, pregnancy related or pregnancy complication, fetal development and anatomy, ultrasound scan of, by any or all approaches, if:</p> <p>(a) the pregnancy (as confirmed by ultrasound) is dated by a crown rump length of 45 to 84 mm; and</p> <p>(b) nuchal translucency measurement is performed to assess the risk of fetal abnormality; and</p> <p>(c) the service is not performed with item 55700, 55703, 55704 or 55705, on the same patient within 24 hours (NR)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$35.50      <b>Benefit:</b> 75% = \$26.65    85% = \$30.20</p> <p><b>Extended Medicare Safety Net Cap:</b> \$16.65</p>
55709	<p>Pelvis or abdomen, pregnancy related or pregnancy complication, fetal development and anatomy, ultrasound scan of, by any or all approaches, with measurement of all parameters for dating purposes, if:</p> <p>(a) the dating of the pregnancy (as confirmed by ultrasound) is 17 to 22 weeks of gestation; and</p> <p>(b) the service is not performed in the same pregnancy as item 55706 (NR)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$38.55      <b>Benefit:</b> 75% = \$28.95    85% = \$32.80</p> <p><b>Extended Medicare Safety Net Cap:</b> \$22.15</p>
55712	<p>Pelvis or abdomen, pregnancy related or pregnancy complication, fetal development and anatomy, ultrasound scan of, by any or all approaches, with measurement of all parameters for dating purposes, if:</p> <p>(a) the service is requested by a medical practitioner who:</p> <p>(i) is a Member or a Fellow of the Royal Australian and New Zealand College of Obstetricians and Gynaecologists; or</p> <p>(ii) has a Diploma of Obstetrics; or</p> <p>(iii) has a qualification recognised by the Royal Australian and New Zealand College of Obstetricians and Gynaecologists as being equivalent to a Diploma of Obstetrics; or</p> <p>(iv) has obstetric privileges at a non metropolitan hospital; and</p> <p>(b) the dating of the pregnancy (as confirmed by ultrasound) is 17 to 22 weeks of gestation; and</p> <p>(c) further examination is clinically indicated after performance, in the same pregnancy, of a scan mentioned in item 55706 or 55709 (R)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$116.70      <b>Benefit:</b> 75% = \$87.55    85% = \$99.20</p> <p><b>Extended Medicare Safety Net Cap:</b> \$66.35</p>

57357	Computed tomography—angiography with intravenous contrast medium of any or all, or any part, of the pulmonary arteries and their branches, including any scans performed before intravenous contrast injection—one or more data acquisitions, including image editing, and maximum intensity projections or 3 dimensional surface shaded display, with hardcopy or digital recording of multiple projections, if:  a. the service is not a service to which another item in this group applies; and b. the service is not a study performed to image the coronary arteries; and c. the service is: (i) performed for the exclusion of pulmonary arterial stenosis, occlusion, aneurysm or embolism and is requested by a specialist or consultant physician; or (ii) performed for the exclusion of pulmonary arterial stenosis, occlusion or aneurysm and is requested by a medical practitioner (other than a specialist or consultant physician) and the request indicates that the patient’s case has been discussed with a specialist or consultant physician; or (iii) for the exclusion of pulmonary embolism and is requested by a medical practitioner (other than a specialist or consultant physician) (R) (Anaes.)  <b>Fee:</b> \$517.65 <b>Benefit:</b> 75% = \$388.25    85% = \$440.05		
57360	Computed tomography of the coronary arteries performed on a minimum of a 64 slice (or equivalent) scanner if: (a) the request is made by a specialist or consultant physician; and (b) one of the following subparagraphs applies to the patient: (i) the patient has stable symptoms consistent with coronary ischaemia, is at low to intermediate risk of coronary artery disease and would have been considered for coronary angiography; (ii) the patient requires exclusion of coronary artery anomaly or fistula; (iii) the patient will be undergoing non coronary cardiac surgery (R) (Anaes.)  (See para IN.0.19 of explanatory notes to this Category) <b>Fee:</b> \$710.50 <b>Benefit:</b> 75% = \$532.90    85% = \$625.80		
I2. COMPUTED TOMOGRAPHY		13. CONE BEAM COMPUTED TOMOGRAPHY	
	<b>Group I2. Computed Tomography</b>		
	Subgroup 13. Cone beam computed tomography		
57362	Cone beam computed tomography—dental and temporo mandibular joint imaging (without contrast medium) for diagnosis and management of any of the following: (a) mandibular and dento alveolar fractures; (b) dental implant planning; (c) orthodontics; (d) endodontic conditions; (e) periodontal conditions; (f) temporo mandibular joint conditions Applicable once per patient per day, not being for a service to which any of items 57960 to 57969 apply, and not being a service associated with another service in Group I2 (R) (Anaes.)  <b>Fee:</b> \$114.85 <b>Benefit:</b> 75% = \$86.15    85% = \$97.65		

<b>I3. DIAGNOSTIC RADIOLOGY</b>		<b>1. RADIOGRAPHIC EXAMINATION OF EXTREMITIES</b>
	<b>Group I3. Diagnostic Radiology</b>	
	Subgroup 1. Radiographic Examination Of Extremities	
	Hand, wrist, forearm, elbow or humerus (NR)	
57506	(See para IN.0.19 of explanatory notes to this Category) <b>Fee:</b> \$30.20 <b>Benefit:</b> 75% = \$22.65    85% = \$25.70	
	Hand, wrist, forearm, elbow or humerus (R)	
57509	(See para IN.0.19 of explanatory notes to this Category) <b>Fee:</b> \$40.35 <b>Benefit:</b> 75% = \$30.30    85% = \$34.30	
	Hand and wrist, or hand, wrist and forearm, or forearm and elbow, or elbow and humerus (NR)	
57512	(See para IN.0.19 of explanatory notes to this Category) <b>Fee:</b> \$41.10 <b>Benefit:</b> 75% = \$30.85    85% = \$34.95	
	Hand and wrist, or hand, wrist and forearm, or forearm and elbow, or elbow and humerus (R)	
57515	(See para IN.0.19 of explanatory notes to this Category) <b>Fee:</b> \$54.80 <b>Benefit:</b> 75% = \$41.10    85% = \$46.60	
	Foot, ankle, leg or femur (NR)	
57518	(See para IN.0.19 of explanatory notes to this Category) <b>Fee:</b> \$33.00 <b>Benefit:</b> 75% = \$24.75    85% = \$28.05	
	Foot, ankle, leg or femur (R)	
57521	(See para IN.0.19 of explanatory notes to this Category) <b>Fee:</b> \$44.05 <b>Benefit:</b> 75% = \$33.05    85% = \$37.45	
	Knee (NR)	
57522	(See para IN.0.19 of explanatory notes to this Category) <b>Fee:</b> \$33.00 <b>Benefit:</b> 75% = \$24.75    85% = \$28.05	
	Knee (R)	
57523	(See para IN.0.19 of explanatory notes to this Category) <b>Fee:</b> \$44.05 <b>Benefit:</b> 75% = \$33.05    85% = \$37.45	
	Foot and ankle, or ankle and leg, or leg and knee, or knee and femur (NR)	
57524	(See para IN.0.19 of explanatory notes to this Category) <b>Fee:</b> \$50.15 <b>Benefit:</b> 75% = \$37.65    85% = \$42.65	
	Foot and ankle, or ankle and leg, or leg and knee, or knee and femur (R)	
57527	(See para IN.0.19 of explanatory notes to this Category) <b>Fee:</b> \$66.75 <b>Benefit:</b> 75% = \$50.10    85% = \$56.75	
<b>I3. DIAGNOSTIC RADIOLOGY</b>		<b>2. RADIOGRAPHIC EXAMINATION OF SHOULDER OR PELVIS</b>
	<b>Group I3. Diagnostic Radiology</b>	
	Subgroup 2. Radiographic Examination Of Shoulder Or Pelvis	
	Shoulder or scapula (NR)	
57700	(See para IN.0.19 of explanatory notes to this Category)	

<b>I3. DIAGNOSTIC RADIOLOGY</b>		<b>2. RADIOGRAPHIC EXAMINATION OF SHOULDER OR PELVIS</b>
	<b>Fee:</b> \$41.10 <b>Benefit:</b> 75% = \$30.85    85% = \$34.95	
	Shoulder or scapula (R)  (See para IN.0.19 of explanatory notes to this Category)	
57703	<b>Fee:</b> \$54.80 <b>Benefit:</b> 75% = \$41.10    85% = \$46.60	
	Clavicle (NR)  (See para IN.0.19 of explanatory notes to this Category)	
57706	<b>Fee:</b> \$33.00 <b>Benefit:</b> 75% = \$24.75    85% = \$28.05	
	Clavicle (R)  (See para IN.0.19 of explanatory notes to this Category)	
57709	<b>Fee:</b> \$44.05 <b>Benefit:</b> 75% = \$33.05    85% = \$37.45	
	Hip joint (R)  (See para IN.0.19 of explanatory notes to this Category)	
57712	<b>Fee:</b> \$47.85 <b>Benefit:</b> 75% = \$35.90    85% = \$40.70	
	Pelvic girdle (R)  (See para IN.0.19 of explanatory notes to this Category)	
57715	<b>Fee:</b> \$61.80 <b>Benefit:</b> 75% = \$46.35    85% = \$52.55	
	Femur, internal fixation of neck or intertrochanteric (pertrochanteric) fracture (R)  (See para IN.0.19 of explanatory notes to this Category)	
57721	<b>Fee:</b> \$100.75 <b>Benefit:</b> 75% = \$75.60    85% = \$85.65	
<b>I3. DIAGNOSTIC RADIOLOGY</b>		<b>3. RADIOGRAPHIC EXAMINATION OF HEAD</b>
	<b>Group I3. Diagnostic Radiology</b>	
	Subgroup 3. Radiographic Examination Of Head	
	Skull, not in association with item 57902 (R)  (See para IN.0.19 of explanatory notes to this Category)	
57901	<b>Fee:</b> \$65.45 <b>Benefit:</b> 75% = \$49.10    85% = \$55.65	
	Cephalometry, not in association with item 57901 (R)  (See para IN.0.19 of explanatory notes to this Category)	
57902	<b>Fee:</b> \$65.45 <b>Benefit:</b> 75% = \$49.10    85% = \$55.65	
	Mastoids or petrous temporal bones (R)  (See para IN.0.19 of explanatory notes to this Category)	
57905	<b>Fee:</b> \$65.45 <b>Benefit:</b> 75% = \$49.10    85% = \$55.65	
	Sinuses or facial bones – orbit, maxilla or malar, any or all (R)  (See para IN.0.19 of explanatory notes to this Category)	
57907	<b>Fee:</b> \$48.00 <b>Benefit:</b> 75% = \$36.00    85% = \$40.80	

I3. DIAGNOSTIC RADIOLOGY	3. RADIOGRAPHIC EXAMINATION OF HEAD
57915	Mandible, not by orthopantomography technique (R) (See para IN.0.19 of explanatory notes to this Category) <b>Fee:</b> \$47.85 <b>Benefit:</b> 75% = \$35.90    85% = \$40.70
57918	Salivary calculus (R) (See para IN.0.19 of explanatory notes to this Category) <b>Fee:</b> \$47.85 <b>Benefit:</b> 75% = \$35.90    85% = \$40.70
57921	Nose (R) (See para IN.0.19 of explanatory notes to this Category) <b>Fee:</b> \$47.85 <b>Benefit:</b> 75% = \$35.90    85% = \$40.70
57924	Eye (R) (See para IN.0.19 of explanatory notes to this Category) <b>Fee:</b> \$47.85 <b>Benefit:</b> 75% = \$35.90    85% = \$40.70
57927	Temporo mandibular joints (R) (See para IN.0.19 of explanatory notes to this Category) <b>Fee:</b> \$50.40 <b>Benefit:</b> 75% = \$37.80    85% = \$42.85
57930	Teeth—single area (R) (See para IN.0.19 of explanatory notes to this Category) <b>Fee:</b> \$33.40 <b>Benefit:</b> 75% = \$25.05    85% = \$28.40
57933	Teeth - full mouth (R) (See para IN.0.19 of explanatory notes to this Category) <b>Fee:</b> \$79.40 <b>Benefit:</b> 75% = \$59.55    85% = \$67.50
57939	Palato pharyngeal studies with fluoroscopic screening (R) (See para IN.0.19 of explanatory notes to this Category) <b>Fee:</b> \$65.45 <b>Benefit:</b> 75% = \$49.10    85% = \$55.65
57942	Palato pharyngeal studies without fluoroscopic screening (R) (See para IN.0.19 of explanatory notes to this Category) <b>Fee:</b> \$50.40 <b>Benefit:</b> 75% = \$37.80    85% = \$42.85
57945	Larynx, lateral airways and soft tissues of the neck, not being a service associated with a service to which item 57939 or 57942 applies (R) (See para IN.0.19 of explanatory notes to this Category) <b>Fee:</b> \$44.05 <b>Benefit:</b> 75% = \$33.05    85% = \$37.45
57960	Orthopantomography for diagnosis or management (or both) of trauma, infection, tumour or a congenital or surgical condition of the teeth or maxillofacial region (R) (See para IN.0.19 of explanatory notes to this Category) <b>Fee:</b> \$48.10 <b>Benefit:</b> 75% = \$36.10    85% = \$40.90
57963	Orthopantomography for diagnosis or management (or both) of any of the following conditions, if the signs and symptoms of the condition is present: (a) impacted teeth; (b) caries; (c) periodontal pathology; (d) periapical pathology (R)

I3. DIAGNOSTIC RADIOLOGY		3. RADIOGRAPHIC EXAMINATION OF HEAD
	(See para IN.0.19 of explanatory notes to this Category) <b>Fee:</b> \$48.10 <b>Benefit:</b> 75% = \$36.10    85% = \$40.90	
57966	Orthopantomography for diagnosis or management (or both) of missing or crowded teeth, or developmental anomalies of the teeth or jaws (R)  (See para IN.0.19 of explanatory notes to this Category) <b>Fee:</b> \$48.10 <b>Benefit:</b> 75% = \$36.10    85% = \$40.90	
57969	Orthopantomography for diagnosis or management (or both) of temporo mandibular joint arthroses or dysfunction (R)  (See para IN.0.19 of explanatory notes to this Category) <b>Fee:</b> \$48.10 <b>Benefit:</b> 75% = \$36.10    85% = \$40.90	
I3. DIAGNOSTIC RADIOLOGY		4. RADIOGRAPHIC EXAMINATION OF SPINE
	<b>Group I3. Diagnostic Radiology</b>	
	Subgroup 4. Radiographic Examination Of Spine	
58100	Spine—cervical (R)  (See para IN.0.19 of explanatory notes to this Category) <b>Fee:</b> \$68.15 <b>Benefit:</b> 75% = \$51.15    85% = \$57.95	
58103	Spine—thoracic (R)  (See para IN.0.19 of explanatory notes to this Category) <b>Fee:</b> \$55.95 <b>Benefit:</b> 75% = \$42.00    85% = \$47.60	
58106	Spine—lumbosacral (R)  (See para IN.0.19 of explanatory notes to this Category) <b>Fee:</b> \$78.15 <b>Benefit:</b> 75% = \$58.65    85% = \$66.45	
58108	Spine—4 regions, cervical, thoracic, lumbosacral and sacrococcygeal (R)  (See para IN.0.19 of explanatory notes to this Category) <b>Fee:</b> \$111.65 <b>Benefit:</b> 75% = \$83.75    85% = \$94.95	
58109	Spine—sacrococcygeal (R)  (See para IN.0.19 of explanatory notes to this Category) <b>Fee:</b> \$47.70 <b>Benefit:</b> 75% = \$35.80    85% = \$40.55	
58112	<i>NOTE: An account issued or a patient assignment form must show the item numbers of the examinations performed under this item</i>  Spine—2 examinations of the kind mentioned in items 58100, 58103, 58106 and 58109 (R)  (See para IN.0.19 of explanatory notes to this Category) <b>Fee:</b> \$98.70 <b>Benefit:</b> 75% = \$74.05    85% = \$83.90	
58115	<i>NOTE: An account issued or a patient assignment form must show the item numbers of the examinations performed under this item</i>  Spine—3 examinations of the kind mentioned in items 58100, 58103, 58106 and 58109 (R)  (See para IN.0.19 of explanatory notes to this Category)	

I3. DIAGNOSTIC RADIOLOGY		4. RADIOGRAPHIC EXAMINATION OF SPINE	
	<b>Fee:</b> \$111.65	<b>Benefit:</b> 75% = \$83.75	85% = \$94.95
58120	Spine—4 regions, cervical, thoracic, lumbosacral and sacrococcygeal, if the service to which item 58120 or 58121 applies has not been performed on the same patient within the same calendar year (R)		
	<b>Fee:</b> \$111.65	<b>Benefit:</b> 75% = \$83.75	85% = \$94.95
58121	<p><i>NOTE: An account issued or a patient assignment form must show the item numbers of the examinations performed under this item</i></p> <p>Spine—3 examinations of the kind mentioned in items 58100, 58103, 58106 and 58109, if the service to which item 58120 or 58121 applies has not been performed on the same patient within the same calendar year (R)</p>		
	<b>Fee:</b> \$111.65	<b>Benefit:</b> 75% = \$83.75	85% = \$94.95
I3. DIAGNOSTIC RADIOLOGY		5. BONE AGE STUDY AND SKELETAL SURVEYS	
	<b>Group I3. Diagnostic Radiology</b>		
	Subgroup 5. Bone Age Study And Skeletal Surveys		
58300	<p>Bone age study (R)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$40.70      <b>Benefit:</b> 75% = \$30.55      85% = \$34.60</p>

61650	LeukoScan study of the long bones and feet for suspected osteomyelitis, if: (a) the patient does not have access to ex vivo white blood cell scanning; and (b) the patient is not being investigated for other sites of infection (R)          (See para IN.0.19 of explanatory notes to this Category) <b>Fee:</b> \$878.70 <b>Benefit:</b> 75% = \$659.05    85% = \$794.00	

14. NUCLEAR MEDICINE IMAGING		2. PET
	<b>Group 14. Nuclear Medicine Imaging</b>	
	Subgroup 2. PET	
61523	<p>Whole body FDG PET study, performed for evaluation of a solitary pulmonary nodule where the lesion is considered unsuitable for transthoracic fine needle aspiration biopsy, or for which an attempt at pathological characterisation has failed.(R)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$953.00      <b>Benefit:</b> 75% = \$714.75    85% = \$868.30</p>	
61524	<p>Whole body FDG PET study, performed for the staging of locally advanced (Stage III) breast cancer, for a patient who is considered suitable for active therapy (R)</p> <p>(Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$953.00      <b>Benefit:</b> 75% = \$714.75    85% = \$868.30</p>	
61525	<p>Whole body FDG PET study, performed for the evaluation of suspected metastatic or suspected locally or regionally recurrent breast carcinoma, for a patient who is considered suitable for active therapy (R)</p> <p>(Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$953.00      <b>Benefit:</b> 75% = \$714.75    85% = \$868.30</p>	
61529	<p>Whole body FDG PET study, performed for the staging of proven non-small cell lung cancer, where curative surgery or radiotherapy is planned (R)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$953.00      <b>Benefit:</b> 75% = \$714.75    85% = \$868.30</p>	
61538	<p>FDG PET study of the brain for evaluation of suspected residual or recurrent malignant brain tumour based on anatomical imaging findings, after definitive therapy (or during ongoing chemotherapy) in patients who are considered suitable for further active therapy. (R)</p> <p><b>Fee:</b> \$901.00      <b>Benefit:</b> 75% = \$675.75    85% = \$816.30</p>	
61541	<p>Whole body FDG PET study, following initial therapy, for the evaluation of suspected residual, metastatic or recurrent colorectal carcinoma in patients considered suitable for active therapy (R)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$953.00      <b>Benefit:</b> 75% = \$714.75    85% = \$868.30</p>	
61553	<p>Whole body FDG PET study, following initial therapy, performed for the evaluation of suspected metastatic or recurrent malignant melanoma in patients considered suitable for active therapy (R)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$999.00      <b>Benefit:</b> 75% = \$749.25    85% = \$914.30</p>	
61559	<p>FDG PET study of the brain, performed for the evaluation of refractory epilepsy which is being evaluated for surgery (R)</p>	

14. NUCLEAR MEDICINE IMAGING		2. PET
	(See para IN.0.19 of explanatory notes to this Category) <b>Fee:</b> \$918.00 <b>Benefit:</b> 75% = \$688.50    85% = \$833.30	
61565	Whole body FDG PET study, following initial therapy, performed for the evaluation of suspected residual, metastatic or recurrent ovarian carcinoma in patients considered suitable for active therapy. (R)  (See para IN.0.19 of explanatory notes to this Category) <b>Fee:</b> \$953.00 <b>Benefit:</b> 75% = \$714.75    85% = \$868.30	
61571	Whole body FDG PET study, for the further primary staging of patients with histologically proven carcinoma of the uterine cervix, at FIGO stage IB2 or greater by conventional staging, prior to planned radical radiation therapy or combined modality therapy with curative intent. (R) <b>Fee:</b> \$953.00 <b>Benefit:</b> 75% = \$714.75    85% = \$868.30	
61575	Whole body FDG PET study, for the further staging of patients with confirmed local recurrence of carcinoma of the uterine cervix considered suitable for salvage pelvic chemoradiotherapy or pelvic exenteration with curative intent. (R) <b>Fee:</b> \$953.00 <b>Benefit:</b> 75% = \$714.75    85% = \$868.30	
61577	Whole body FDG PET study, performed for the staging of proven oesophageal or GEJ carcinoma, in patients considered suitable for active therapy (R). <b>Fee:</b> \$953.00 <b>Benefit:</b> 75% = \$714.75    85% = \$868.30	
61598	Whole body FDG PET study performed for the staging of biopsy-proven newly diagnosed or recurrent head and neck cancer (R). <b>Fee:</b> \$953.00 <b>Benefit:</b> 75% = \$714.75    85% = \$868.30	
61604	Whole body FDG PET study performed for the evaluation of patients with suspected residual head and neck cancer after definitive treatment, and who are suitable for active therapy (R). <b>Fee:</b> \$953.00 <b>Benefit:</b> 75% = \$714.75    85% = \$868.30	
61610	Whole body FDG PET study performed for the evaluation of metastatic squamous cell carcinoma of unknown primary site involving cervical nodes (R). <b>Fee:</b> \$953.00 <b>Benefit:</b> 75% = \$714.75    85% = \$868.30	
61620	Whole body FDG PET study for the initial staging of newly diagnosed or previously untreated Hodgkin or non-Hodgkin lymphoma (R)  (See para IN.0.19 of explanatory notes to this Category) <b>Fee:</b> \$953.00 <b>Benefit:</b> 75% = \$714.75    85% = \$868.30	
61622	Whole body FDG PET study to assess response to first line therapy either during treatment or within three months of completing definitive first line treatment for Hodgkin or non-Hodgkin lymphoma (R)  (See para IN.0.19 of explanatory notes to this Category) <b>Fee:</b> \$953.00 <b>Benefit:</b> 75% = \$714.75    85% = \$868.30	
61628	Whole body FDG PET study for restaging following confirmation of recurrence of Hodgkin or non-Hodgkin lymphoma (R)  (See para IN.0.19 of explanatory notes to this Category) <b>Fee:</b> \$953.00 <b>Benefit:</b> 75% = \$714.75    85% = \$868.30	
61632	Whole body FDG PET study to assess response to second-line chemotherapy if haemopoietic stem cell transplantation is being considered for Hodgkin or non-Hodgkin lymphoma (R)  (See para IN.0.19 of explanatory notes to this Category) <b>Fee:</b> \$953.00 <b>Benefit:</b> 75% = \$714.75    85% = \$868.30	

<b>14. NUCLEAR MEDICINE IMAGING</b>		<b>2. PET</b>
61640	Whole body FDG PET study for initial staging of patients with biopsy-proven bone or soft tissue sarcoma (excluding gastrointestinal stromal tumour) considered by conventional staging to be potentially curable. (R) <b>Fee:</b> \$999.00 <b>Benefit:</b> 75% = \$749.25    85% = \$914.30	
61646	Whole body FDG PET study for the evaluation of patients with suspected residual or recurrent sarcoma (excluding gastrointestinal stromal tumour) after the initial course of definitive therapy to determine suitability for subsequent therapy with curative intent. (R) <b>Fee:</b> \$999.00 <b>Benefit:</b> 75% = \$749.25    85% = \$914.30	
61647	Whole body <sup>68</sup> Ga DOTA peptide PET study, if: (a) a gastro entero pancreatic neuroendocrine tumour is suspected on the basis of biochemical evidence with negative or equivocal conventional imaging; or (b) both: (i) a surgically amenable gastro entero pancreatic neuroendocrine tumour has been identified on the basis of conventional techniques; and (ii) the study is for excluding additional disease sites (R)  (See para IN.0.19 of explanatory notes to this Category) <b>Fee:</b> \$953.00 <b>Benefit:</b> 75% = \$714.75    85% = \$868.30	
<b>14. NUCLEAR MEDICINE IMAGING</b>		<b>3. ADJUNCTIVE SERVICES</b>
	<b>Group 14. Nuclear Medicine Imaging</b>	
		Subgroup 3. Adjunctive services
<b>Amend</b> 61505	CT scan performed at the same time and covering the same body area as single photon emission tomography or positron emission tomography for the purpose of anatomic localisation or attenuation correction if no separate diagnostic CT report is issued and performed in association with a service to which an item in Subgroup 1 or 2 of Group I4 applies (R)  (See para IN.0.19 of explanatory notes to this Category) <b>Fee:</b> \$100.00 <b>Benefit:</b> 75% = \$75.00    85% = \$85.00	
<b>15. MAGNETIC RESONANCE IMAGING</b>		<b>1. SCAN OF HEAD - FOR SPECIFIED CONDITIONS</b>
	<b>Group 15. Magnetic Resonance Imaging</b>	
		Subgroup 1. Scan Of Head - For Specified Conditions
63001	MRI—scan of head (including MRA, if performed) for tumour of the brain or meninges (R) (Anaes.) (Contrast) (Anaes.)  (See para IN.0.19 of explanatory notes to this Category) <b>Fee:</b> \$403.20 <b>Benefit:</b> 75% = \$302.40    85% = \$342.75	
63004	MRI—scan of head (including MRA, if performed) for inflammation of brain or meninges (R) (Anaes.) (Contrast) (Anaes.)  (See para IN.0.19 of explanatory notes to this Category) <b>Fee:</b> \$403.20 <b>Benefit:</b> 75% = \$302.40    85% = \$342.75	
63007	MRI—scan of head (including MRA, if performed) for skull base or orbital tumour (R) (Anaes.) (Contrast) (Anaes.)  (See para IN.0.19 of explanatory notes to this Category)	

15. MAGNETIC RESONANCE IMAGING		1. SCAN OF HEAD - FOR SPECIFIED CONDITIONS
	<b>Fee:</b> \$403.20 <b>Benefit:</b> 75% = \$302.40    85% = \$342.75	
63010	MRI—scan of head (including MRA, if performed) for stereotactic scan of brain, with fiducials in place, for the sole purpose of allowing planning for stereotactic neurosurgery (R) (Anaes.) (Contrast) (Anaes.)  (See para IN.0.19 of explanatory notes to this Category) <b>Fee:</b> \$336.00 <b>Benefit:</b> 75% = \$252.00    85% = \$285.60	
15. MAGNETIC RESONANCE IMAGING		2. SCAN OF HEAD - FOR SPECIFIED CONDITIONS
	<b>Group 15. Magnetic Resonance Imaging</b>	
	Subgroup 2. Scan Of Head - For Specified Conditions	
63040	MRI—scan of head (including MRA, if performed) for acoustic neuroma (R) (Anaes.) (Contrast) (Anaes.)  (See para IN.0.19 of explanatory notes to this Category) <b>Fee:</b> \$336.00 <b>Benefit:</b> 75% = \$252.00    85% = \$285.60	
63043	MRI—scan of head (including MRA, if performed) for pituitary tumour (R) (Anaes.) (Contrast) (Anaes.)  (See para IN.0.19 of explanatory notes to this Category) <b>Fee:</b> \$358.40 <b>Benefit:</b> 75% = \$268.80    85% = \$304.65	
63046	MRI—scan of head (including MRA, if performed) for toxic or metabolic or ischaemic encephalopathy (R) (Anaes.) (Contrast) (Anaes.)  (See para IN.0.19 of explanatory notes to this Category) <b>Fee:</b> \$403.20 <b>Benefit:</b> 75% = \$302.40    85% = \$342.75	
63049	MRI—scan of head (including MRA, if performed) for demyelinating disease of the brain (R) (Anaes.) (Contrast) (Anaes.)  (See para IN.0.19 of explanatory notes to this Category) <b>Fee:</b> \$403.20 <b>Benefit:</b> 75% = \$302.40    85% = \$342.75	
63052	MRI—scan of head (including MRA, if performed) for congenital malformation of the brain or meninges (R) (Anaes.) (Contrast) (Anaes.)  (See para IN.0.19 of explanatory notes to this Category) <b>Fee:</b> \$403.20 <b>Benefit:</b> 75% = \$302.40    85% = \$342.75	
63055	MRI—scan of head (including MRA, if performed) for venous sinus thrombosis (R) (Anaes.) (Contrast) (Anaes.)  (See para IN.0.19 of explanatory notes to this Category) <b>Fee:</b> \$403.20 <b>Benefit:</b> 75% = \$302.40    85% = \$342.75	
63058	MRI—scan of head (including MRA, if performed) for head trauma (R) (Anaes.) (Contrast) (Anaes.)  (See para IN.0.19 of explanatory notes to this Category) <b>Fee:</b> \$403.20 <b>Benefit:</b> 75% = \$302.40    85% = \$342.75	
63061	MRI—scan of head (including MRA, if performed) for epilepsy (R) (Anaes.) (Contrast) (Anaes.)  (See para IN.0.19 of explanatory notes to this Category) <b>Fee:</b> \$403.20 <b>Benefit:</b> 75% = \$302.40    85% = \$342.75	
63064	MRI—scan of head (including MRA, if performed) for stroke (R) (Anaes.) (Contrast) (Anaes.)  (See para IN.0.19 of explanatory notes to this Category) <b>Fee:</b> \$403.20 <b>Benefit:</b> 75% = \$302.40    85% = \$342.75	

<b>15. MAGNETIC RESONANCE IMAGING</b>		<b>2. SCAN OF HEAD - FOR SPECIFIED CONDITIONS</b>
63067	<p>MRI—scan of head (including MRA, if performed) for carotid or vertebral artery dissection (R) (Anaes.) (Contrast) (Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$403.20      <b>Benefit:</b> 75% = \$302.40    85% = \$342.75</p>	
63070	<p>MRI—scan of head (including MRA, if performed) for intracranial aneurysm (R) (Anaes.) (Contrast) (Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$403.20      <b>Benefit:</b> 75% = \$302.40    85% = \$342.75</p>	
63073	<p>MRI—scan of head (including MRA, if performed) for intracranial arteriovenous malformation (R) (Anaes.) (Contrast) (Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$403.20      <b>Benefit:</b> 75% = \$302.40    85% = \$342.75</p>	
<b>15. MAGNETIC RESONANCE IMAGING</b>		<b>3. SCAN OF HEAD AND NECK VESSELS - FOR SPECIFIED CONDITIONS</b>
	<b>Group 15. Magnetic Resonance Imaging</b>	
	Subgroup 3. Scan Of Head And Neck Vessels - For Specified Conditions	
63101	<p>MRI and MRA of extracranial or intracranial circulation (or both)—scan of head and neck vessels for stroke (R) (Anaes.) (Contrast) (Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$492.80      <b>Benefit:</b> 75% = \$369.60    85% = \$418.90</p>	
<b>15. MAGNETIC RESONANCE IMAGING</b>		<b>4. SCAN OF HEAD AND CERVICAL SPINE - FOR SPECIFIED CONDITIONS</b>
	<b>Group 15. Magnetic Resonance Imaging</b>	
	Subgroup 4. Scan Of Head And Cervical Spine - For Specified Conditions	
63111	<p>MRI—scan of head and cervical spine (including MRA, if performed) for tumour of the central nervous system or meninges (R) (Anaes.) (Contrast) (Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$492.80      <b>Benefit:</b> 75% = \$369.60    85% = \$418.90</p>	
63114	<p>MRI—scan of head and cervical spine (including MRA, if performed) for inflammation of the central nervous system or meninges (R) (Anaes.) (Contrast) (Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$492.80      <b>Benefit:</b> 75% = \$369.60    85% = \$418.90</p>	
<b>15. MAGNETIC RESONANCE IMAGING</b>		<b>5. SCAN OF HEAD AND CERVICAL SPINE - FOR SPECIFIED CONDITIONS</b>

	<b>Group 15. Magnetic Resonance Imaging</b>		
	Subgroup 12. Scan Of Musculoskeletal System - For Joint Derangement		
63322	MRI—scan of musculoskeletal system for derangement of hip or its supporting structures (R) (Anaes.) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) <b>Fee:</b> \$403.20 <b>Benefit:</b> 75% = \$302.40    85% = \$342.75		
63325	MRI—scan of musculoskeletal system for derangement of shoulder or its supporting structures (R)		

<b>15. MAGNETIC RESONANCE IMAGING</b>		<b>12. SCAN OF MUSCULOSKELETAL SYSTEM - FOR JOINT DERANGEMENT</b>	
	(Anaes.) (Contrast) (Anaes.)  (See para IN.0.19 of explanatory notes to this Category) <b>Fee:</b> \$403.20 <b>Benefit:</b> 75% = \$302.40    85% = \$342.75		
63328	MRI—scan of musculoskeletal system for derangement of knee or its supporting structures (R) (Anaes.) (Contrast) (Anaes.)  (See para IN.0.19 of explanatory notes to this Category) <b>Fee:</b> \$403.20 <b>Benefit:</b> 75% = \$302.40    85% = \$342.75		
63331	MRI—scan of musculoskeletal system for derangement of ankle or foot (or both) or its supporting structures (R) (Anaes.) (Contrast) (Anaes.)  (See para IN.0.19 of explanatory notes to this Category) <b>Fee:</b> \$403.20 <b>Benefit:</b> 75% = \$302.40    85% = \$342.75		
63334	MRI—scan of musculoskeletal system for derangement of one or both temporomandibular joints or their supporting structures (R) (Anaes.) (Contrast) (Anaes.)  (See para IN.0.19 of explanatory notes to this Category) <b>Fee:</b> \$336.00 <b>Benefit:</b> 75% = \$252.00    85% = \$285.60		
63337	MRI—scan of musculoskeletal system for derangement of wrist or hand (or both) or its supporting structures (R) (Anaes.) (Contrast) (Anaes.)  (See para IN.0.19 of explanatory notes to this Category) <b>Fee:</b> \$448.00 <b>Benefit:</b> 75% = \$336.00    85% = \$380.80		
63340	MRI—scan of musculoskeletal system for derangement of elbow or its supporting structures (R) (Anaes.) (Contrast) (Anaes.)  (See para IN.0.19 of explanatory notes to this Category) <b>Fee:</b> \$403.20 <b>Benefit:</b> 75% = \$302.40    85% = \$342.75		
<b>15. MAGNETIC RESONANCE IMAGING</b>		<b>13. SCAN OF MUSCULOSKELETAL SYSTEM - FOR GAUCHER DISEASE</b>	
	<b>Group 15. Magnetic Resonance Imaging</b>		
	Subgroup 13. Scan Of Musculoskeletal System - For Gaucher Disease		
63361	MRI—scan of musculoskeletal system for Gaucher disease (R) (Anaes.) (Anaes.)  (See para IN.0.19 of explanatory notes to this Category) <b>Fee:</b> \$403.20 <b>Benefit:</b> 75% = \$302.40    85% = \$342.75		
<b>15. MAGNETIC RESONANCE IMAGING</b>		<b>14. SCAN OF CARDIOVASCULAR SYSTEM - FOR SPECIFIED CONDITIONS</b>	
	<b>Group 15. Magnetic Resonance Imaging</b>		
	Subgroup 14. Scan Of Cardiovascular System - For Specified Conditions		
63385	MRI—scan of cardiovascular system for congenital disease of the heart or a great vessel (R) (Anaes.) (Contrast) (Anaes.)  (See para IN.0.19 of explanatory notes to this Category) <b>Fee:</b> \$448.00 <b>Benefit:</b> 75% = \$336.00    85% = \$380.80		
63388	MRI—scan of cardiovascular system for tumour of the heart or a great vessel (R) (Anaes.) (Contrast) (Anaes.)		

<b>15. MAGNETIC RESONANCE IMAGING</b>		<b>14. SCAN OF CARDIOVASCULAR SYSTEM - FOR SPECIFIED CONDITIONS</b>
	(See para IN.0.19 of explanatory notes to this Category) <b>Fee:</b> \$448.00 <b>Benefit:</b> 75% = \$336.00    85% = \$380.80	
63391	MRI—scan of cardiovascular system for abnormality of thoracic aorta (R) (Anaes.) (Contrast) (Anaes.)  (See para IN.0.19 of explanatory notes to this Category) <b>Fee:</b> \$403.20 <b>Benefit:</b> 75% = \$302.40    85% = \$342.75	
63395	MRI—scan of cardiovascular system for assessment of myocardial structure and function involving: (a) dedicated right ventricular views; and (b) 3D volumetric assessment of the right ventricle; and (c) reporting of end diastolic and end systolic volumes, ejection fraction and BSA indexed values; if the request for the scan indicates that: (d) the patient presented with symptoms consistent with arrhythmogenic right ventricular cardiomyopathy (ARVC); or (e) investigative findings in relation to the patient are consistent with ARVC (R) (Contrast)  (Anaes.)  (See para IN.0.19 of explanatory notes to this Category) <b>Fee:</b> \$855.20 <b>Benefit:</b> 75% = \$641.40    85% = \$770.50	
63397	MRI—scan of cardiovascular system for assessment of myocardial structure and function involving:  (a) dedicated right ventricular views; and (b) 3D volumetric assessment of the right ventricle; and (c) reporting of end diastolic and end systolic volumes, ejection fraction and BSA indexed values; if the request for the scan indicates that the patient: (d) is asymptomatic; and (e) has one or more first degree relatives diagnosed with confirmed arrhythmogenic right ventricular cardiomyopathy (ARVC) (R) (Contrast) (Anaes.)  (See para IN.0.19 of explanatory notes to this Category) <b>Fee:</b> \$855.20 <b>Benefit:</b> 75% = \$641.40    85% = \$770.50	
<b>15. MAGNETIC RESONANCE IMAGING</b>		<b>15. MAGNETIC RESONANCE ANGIOGRAPHY - SCAN OF CARDIOVASCULAR SYSTEM - FOR SPECIFIED CONDITIONS</b>
	<b>Group 15. Magnetic Resonance Imaging</b>	
	Subgroup 15. Magnetic Resonance Angiography - Scan Of Cardiovascular System - For Specified Conditions	
63401	MRA—if the request for the scan specifically identifies the clinical indication for the scan—scan of cardiovascular system for vascular abnormality in a patient with a previous anaphylactic reaction to an iodinated contrast medium (R) (Contrast) (Anaes.)  (See para IN.0.19 of explanatory notes to this Category) <b>Fee:</b> \$403.20 <b>Benefit:</b> 75% = \$302.40    85% = \$342.75	

<b>15. MAGNETIC RESONANCE IMAGING</b>		<b>15. MAGNETIC RESONANCE ANGIOGRAPHY - SCAN OF CARDIOVASCULAR SYSTEM - FOR SPECIFIED CONDITIONS</b>
		MRA—if the request for the scan specifically identifies the clinical indication for the scan—scan of cardiovascular system for obstruction of the superior vena cava, inferior vena cava or a major pelvic vein (R) (Contrast) (Anaes.)
63404		(See para IN.0.19 of explanatory notes to this Category) <b>Fee:</b> \$403.20 <b>Benefit:</b> 75% = \$302.40    85% = \$342.75
<b>15. MAGNETIC RESONANCE IMAGING</b>		<b>16. MAGNETIC RESONANCE ANGIOGRAPHY - FOR SPECIFIED CONDITIONS - PERSON UNDER THE AGE OF 16 YEARS</b>
		<b>Group 15. Magnetic Resonance Imaging</b>
		Subgroup 16. Magnetic Resonance Angiography - For Specified Conditions - Person Under The Age Of 16 Years
		MRA—scan of person under the age of 16 for the vasculature of limbs prior to limb or digit transfer surgery in congenital limb deficiency syndrome (R) (Contrast) (Anaes.)
63416		(See para IN.0.19 of explanatory notes to this Category) <b>Fee:</b> \$403.20 <b>Benefit:</b> 75% = \$302.40    85% = \$342.75
<b>15. MAGNETIC RESONANCE IMAGING</b>		<b>17. MAGNETIC RESONANCE IMAGING - PERSON UNDER THE AGE OF 16 YEARS - FOR PHYSEAL FUSION OR GAUCHER DISEASE</b>
		<b>Group 15. Magnetic Resonance Imaging</b>
		Subgroup 17. Magnetic Resonance Imaging - Person Under the Age of 16 Years - For Physeal Fusion or Gaucher Disease
		MRI—scan of person under the age of 16 for post inflammatory or post traumatic physeal fusion (R) (Anaes.)
63425		(See para IN.0.19 of explanatory notes to this Category) <b>Fee:</b> \$403.20 <b>Benefit:</b> 75% = \$302.40    85% = \$342.75
		MRI—scan of person under the age of 16 for Gaucher disease (R) (Anaes.)
63428		(See para IN.0.19 of explanatory notes to this Category) <b>Fee:</b> \$403.20 <b>Benefit:</b> 75% = \$302.40    85% = \$342.75
<b>15. MAGNETIC RESONANCE IMAGING</b>		<b>18. MAGNETIC RESONANCE IMAGING - PERSON UNDER THE AGE OF 16 YEARS - FOR OTHER CONDITIONS</b>
		<b>Group 15. Magnetic Resonance Imaging</b>
		Subgroup 18. Magnetic Resonance Imaging - Person Under The Age Of 16 Years - For Other Conditions
		MRI—scan of person under the age of 16 for pelvic or abdominal mass (R) (Contrast) (Anaes.)
63440		(See para IN.0.19 of explanatory notes to this Category) <b>Fee:</b> \$403.20 <b>Benefit:</b> 75% = \$302.40    85% = \$342.75
63443		MRI—scan of person under the age of 16 for mediastinal mass (R) (Contrast) (Anaes.)

<b>18. MAGNETIC RESONANCE IMAGING - PERSON UNDER THE AGE OF 16 YEARS - FOR OTHER CONDITIONS</b>	
<b>15. MAGNETIC RESONANCE IMAGING</b>	
	(See para IN.0.19 of explanatory notes to this Category) <b>Fee:</b> \$403.20 <b>Benefit:</b> 75% = \$302.40    85% = \$342.75
63446	MRI—scan of person under the age of 16 for congenital uterine or anorectal abnormality (R) (Contrast) (Anaes.)  (See para IN.0.19 of explanatory notes to this Category) <b>Fee:</b> \$403.20 <b>Benefit:</b> 75% = \$302.40    85% = \$342.75
<b>15. MAGNETIC RESONANCE IMAGING</b>	<b>19. SCAN OF BODY - FOR SPECIFIED CONDITIONS</b>
	<b>Group 15. Magnetic Resonance Imaging</b>
	Subgroup 19. Scan Of Body - For Specified Conditions
63454	MRI – scan of the pelvis or abdomen, if:  (a) the pregnancy is at, or after, 18 weeks gestation; and (b) fetal central nervous system abnormality is suspected; and (c) an ultrasound has been performed and is provided by, or on behalf of, or at the request of, a specialist who is practising in the specialty of obstetrics; and (d) the diagnosis is indeterminate or requires further examination; and (e) the service is requested by a specialist practising in the specialty of obstetrics (R) (Contrast)  (Anaes.)  (See para IN.0.19 of explanatory notes to this Category) <b>Fee:</b> \$1,200.00 <b>Benefit:</b> 75% = \$900.00    85% = \$1115.30
63461	MRI—scan of the body for adrenal mass in a patient with a malignancy that is otherwise resectable (R) (Anaes.)  (See para IN.0.19 of explanatory notes to this Category) <b>Fee:</b> \$358.40 <b>Benefit:</b> 75% = \$268.80    85% = \$304.65
63464	MRI—scan of both breasts for the detection of cancer, if a dedicated breast coil is used, the request for the scan identifies that the person is asymptomatic and is younger than 50 years of age, and the request for the scan identifies:  (a) that the patient is at high risk of developing breast cancer, due to one of the following: (i) 3 or more first or second degree relatives on the same side of the family diagnosed with breast or ovarian cancer; (ii) 2 or more first or second degree relatives on the same side of the family diagnosed with breast or ovarian cancer, if any of the relatives has been diagnosed with bilateral breast cancer, had onset of breast cancer before the age of 40 years, had onset of ovarian cancer before the age of 50 years, has been diagnosed with breast and ovarian cancer (at the same time or at different times), has Ashkenazi Jewish ancestry or is a male relative who has been diagnosed with breast cancer; (iii) one first or second degree relative diagnosed with breast cancer at age 45 years or younger, and another first or second degree relative on the same side of the family with bone or soft tissue sarcoma at age 45 years or younger; or (b) that genetic testing has identified the presence of a high risk breast cancer gene mutation (R) (Anaes.)  (See para IN.0.19 of explanatory notes to this Category)

<b>15. MAGNETIC RESONANCE IMAGING</b>		<b>19. SCAN OF BODY - FOR SPECIFIED CONDITIONS</b>
	<b>Fee:</b> \$690.00 <b>Benefit:</b> 75% = \$517.50    85% = \$605.30	
63467	<p>MRI—scan of both breasts for the detection of cancer, if:</p> <ul style="list-style-type: none"> <li>(a) a dedicated breast coil is used; and</li> <li>(b) the person has had an abnormality detected as a result of a service mentioned in item 63464 performed in the previous 12 months (R)</li> </ul> <p>(Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$690.00      <b>Benefit:</b> 75% = \$517.50    85% = \$605.30</p>	
63487	<p>MRI—scan of both breasts, if:</p> <ul style="list-style-type: none"> <li>(a) a dedicated breast coil is used; and</li> <li>(b) the request for the scan identifies that: <ul style="list-style-type: none"> <li>(i) the patient has been diagnosed with metastatic cancer restricted to the regional lymph nodes; and</li> <li>(ii) clinical examination and conventional imaging have failed to identify the primary cancer (R)</li> </ul> </li> </ul> <p>(Anaes.)</p> <p><b>Fee:</b> \$690.00      <b>Benefit:</b> 75% = \$517.50    85% = \$605.30</p>	
63489	<p>MRI—guided biopsy, if:</p> <ul style="list-style-type: none"> <li>(a) the request for the scan identifies that the patient has a suspicious lesion seen on MRI but not on conventional imaging; and</li> <li>(b) an ultrasound scan of the affected breast, performed immediately before the biopsy, confirms that the lesion is not amenable to biopsy guided by conventional imaging; and</li> <li>(c) a dedicated breast coil is used (R) (Anaes.)</li> </ul> <p><b>Fee:</b> \$1,440.00      <b>Benefit:</b> 75% = \$1080.00    85% = \$1355.30</p>	
63531	<p>MRI—scan of both breasts, if:</p> <ul style="list-style-type: none"> <li>(a) a dedicated breast coil is used; and</li> <li>(b) the request for the scan identifies that: <ul style="list-style-type: none"> <li>(i) the patient has a breast lesion; and</li> <li>(ii) the results of conventional imaging are inconclusive for the presence of breast cancer; and</li> <li>(iii) biopsy has not been possible (R) (Contrast)</li> </ul> </li> </ul> <p>(Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$690.00      <b>Benefit:</b> 75% = \$517.50    85% = \$605.30</p>	
63533	<p>MRI—scan of both breasts, if:</p> <ul style="list-style-type: none"> <li>(a) a dedicated breast coil is used; and</li> <li>(b) the request for the scan identifies that: <ul style="list-style-type: none"> <li>(i) the patient has been diagnosed with a breast cancer; and</li> <li>(ii) there is a discrepancy between the clinical assessment and the conventional imaging assessment of the extent of the malignancy; and</li> <li>(c) the results of breast MRI imaging may alter treatment planning (R) (Contrast)</li> </ul> </li> </ul>	

<b>15. MAGNETIC RESONANCE IMAGING</b>		<b>19. SCAN OF BODY - FOR SPECIFIED CONDITIONS</b>
	<p>(Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$690.00      <b>Benefit:</b> 75% = \$517.50    85% = \$605.30</p>	
63541	<p>Multiparametric Magnetic Resonance Imaging scan of the prostate for the detection of cancer, if the patient is referred by an urologist, radiation oncologist, or medical oncologist and the request for the scan identifies:</p> <p>that the patient is suspected of developing prostate cancer, due to one of the following:</p> <p>(i) a digital rectal examination which is suspicious for prostate cancer; or</p> <p>(ii) in a person under 70 years, at least two prostate specific antigen (PSA) tests performed within an interval of 1- 3 months are greater than 3.0 ng/ml, and the free/total PSA ratio is less than 25% or the repeat PSA exceeds 5.5 ng/ml; or</p> <p>(iii) in a person under 70 years, whose risk of developing prostate cancer based on relevant family history is at least double the average risk, at least two PSA tests performed within an interval of 1- 3 months are greater than 2.0 ng/ml, and the free/total PSA ratio is less than 25%; or</p> <p>(iv) in a person 70 years or older, at least two PSA tests performed within an interval of 1- 3 months are greater than 5.5ng/ml and the free/total PSA ratio is less than 25%.</p> <p>using a standardised image acquisition protocol involving T2 Weighted Imaging, Diffusion Weighted Imaging, and Dynamic Contrast Enhancement (unless contraindicated)</p> <p>(R)</p> <p>Note: Benefits are payable on one occasion only in any 12 month period.</p> <p>Relevant family history is a first degree relative with prostate cancer, or suspected of carrying a BRCA 1 or BRCA 2 mutation.</p> <p>(Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$450.00      <b>Benefit:</b> 75% = \$337.50    85% = \$382.50</p>	
63543	<p>Multiparametric Magnetic Resonance Imaging scan of the prostate for the assessment of cancer, if the patient is referred by an urologist, radiation oncologist, or medical oncologist and:</p> <p>the request for the scan identifies:</p> <p>(i) the patient is under active surveillance following a confirmed diagnosis of prostate cancer by biopsy histopathology; and</p> <p>(ii) the patient is not planning or undergoing treatment for prostate cancer.</p> <p>using a standardised image acquisition protocol involving T2 Weighted Imaging, Diffusion Weighted Imaging, and Dynamic Contrast Enhancement (unless contraindicated)</p> <p>(R)</p> <p>Note: Benefits are payable at the time of diagnosis of prostate cancer, 12 months following diagnosis and then every 3rd year thereafter or at any time, if there is a clinical concern, including PSA progression. This item is not to be used for the purposes of treatment planning or for monitoring after treatment.</p> <p>(Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$450.00      <b>Benefit:</b> 75% = \$337.50    85% = \$382.50</p>	

15. MAGNETIC RESONANCE IMAGING		19. SCAN OF BODY - FOR SPECIFIED CONDITIONS
63547	<p>MRI—scan of both breasts for the detection of cancer, if:</p> <p>(a) a dedicated breast coil is used; and  (b) the request for the scan identifies that:  (i) the patient has a breast implant in situ; and  (ii) anaplastic large cell lymphoma has been diagnosed  (R) (Contrast)</p> <p>(Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$690.00      <b>Benefit:</b> 75% = \$517.50    85% = \$605.30</p>	
15. MAGNETIC RESONANCE IMAGING		20. SCANS OF PELVIS AND UPPER ABDOMEN - FOR SPECIFIED CONDITIONS
	<b>Group 15. Magnetic Resonance Imaging</b>	
	Subgroup 20. Scans Of Pelvis And Upper Abdomen - For Specified Conditions	
63470	<p>MRI—scan of the pelvis for the staging of histologically diagnosed cervical cancer at FIGO stage 1B or greater, if the request for scan identifies that:</p> <p>(a) a histological diagnosis of carcinoma of the cervix has been made; and  (b) the patient has been diagnosed with cervical cancer at FIGO stage 1B or greater (R) (Contrast)</p> <p>(Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$403.20      <b>Benefit:</b> 75% = \$302.40    85% = \$342.75</p>	
63473	<p>MRI—scan of the pelvis and upper abdomen, in a single examination, for the staging of histologically diagnosed cervical cancer at FIGO stage 1B or greater, if the request for the scan identifies that:</p> <p>(a) a histological diagnosis of carcinoma of the cervix has been made; and  (b) the patient has been diagnosed with cervical cancer at FIGO stage 1B or greater (R) (Contrast)</p> <p>(Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$627.20      <b>Benefit:</b> 75% = \$470.40    85% = \$542.50</p>	
63476	<p>MRI—scan of the pelvis for the initial staging of rectal cancer, if:</p> <p>(a) a phased array body coil is used; and  (b) the request for the scan identifies that the indication is for the initial staging of rectal cancer (including cancer of the rectosigmoid and anorectum) (R) (Contrast)</p> <p>(Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$403.20      <b>Benefit:</b> 75% = \$302.40    85% = \$342.75</p>	
63740	<p>MRI—scan to evaluate small bowel Crohn’s disease if the service is provided to a patient for:</p> <p>(a) evaluation of disease extent at time of initial diagnosis of Crohn’s disease; or  (b) evaluation of exacerbation, or suspected complications, of known Crohn’s disease; or  (c) evaluation of known or suspected Crohn’s disease in pregnancy; or</p>	

<b>15. MAGNETIC RESONANCE IMAGING</b>		<b>20. SCANS OF PELVIS AND UPPER ABDOMEN - FOR SPECIFIED CONDITIONS</b>	
	(d) assessment of change to therapy in a patient with small bowel Crohn's disease (R) (Contrast)		
	<b>Fee:</b> \$457.20 <b>Benefit:</b> 75% = \$342.90    85% = \$388.65		
63741	MRI—scan with enteroclysis for Crohn's disease if the service is related to item 63740 (R)	<b>Fee:</b> \$265.25	<b>Benefit:</b> 75% = \$198.95    85% = \$225.50
63743	MRI—scan for fistulising perianal Crohn's disease if the service is provided to a patient for: (a) evaluation of pelvic sepsis and fistulas associated with established or suspected Crohn's disease; or (b) assessment of change to therapy of pelvis sepsis and fistulas from Crohn's disease (R) (Contrast)	<b>Fee:</b> \$403.20	<b>Benefit:</b> 75% = \$302.40    85% = \$342.75
<b>15. MAGNETIC RESONANCE IMAGING</b>		<b>21. SCAN OF BODY - FOR SUSPECTED HEPATO-BILIARY OR PANCREATIC PATHOLOGY</b>	
	<b>Group 15. Magnetic Resonance Imaging</b>		
	Subgroup 21. Scan Of Body - For Suspected Hepato-biliary or Pancreatic Pathology		
63482	MRI—scan of pancreas and biliary tree for suspected biliary or pancreatic pathology (R)  (Anaes.)  (See para IN.0.19 of explanatory notes to this Category)	<b>Fee:</b> \$403.20	<b>Benefit:</b> 75% = \$302.40    85% = \$342.75
63545	MRI – multiphase scans of liver (including delayed imaging, if performed) with a contrast agent, for characterisation or intervention planning, if: (a) the patient has:  (i) known colorectal carcinoma; and (ii) known, suspected, or possible liver metastasis; and (b) computed tomography, or ultrasound imaging, has identified a mass lesion in patient's liver. For any particular patient—applicable not more than once in a 12 month period (R) (Contrast)  (Anaes.)  (See para IN.0.19 of explanatory notes to this Category)	<b>Fee:</b> \$550.00	<b>Benefit:</b> 75% = \$412.50    85% = \$467.50
63546	MRI – multiphase scans of the liver (including delayed imaging, if performed) with a contrast agent, for diagnosis or staging, if: (a) the patient has:		

<b>21. SCAN OF BODY - FOR SUSPECTED HEPATO-BILIARY OR PANCREATIC PATHOLOGY</b>	
<b>15. MAGNETIC RESONANCE IMAGING</b>	
	<p>(i) known or suspected hepatocellular carcinoma; and  (ii) chronic liver disease that has been confirmed by a specialist or consultant physician; and  (b) the patient's liver function has been identified as Child Pugh class A or B; and  (c) the patient has an identified hepatic lesion over 10 mm in diameter.  For any particular patient—applicable not more than once in a 12 month period (R) (Contrast)</p> <p>(Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category)  <b>Fee:</b> \$550.00      <b>Benefit:</b> 75% = \$412.50    85% = \$467.50</p>
<b>15. MAGNETIC RESONANCE IMAGING</b>	
<b>22. MODIFYING ITEMS</b>	
	<b>Group 15. Magnetic Resonance Imaging</b>
	Subgroup 22. Modifying Items
	<p>NOTE: Benefits in Subgroup 22 are only payable for modifying items where claimed simultaneously with MRI services. Modifiers for sedation and anaesthesia may not be claimed for the same service.</p> <p>MRI or MRA service to which an item in this Group (other than an item in this Subgroup) applies if:</p> <p>(a) the service is performed on a person in accordance with clause 2.5.1; and  (b) the item for the service includes in its description '(Contrast)'; and  (c) the service is performed using a contrast agent</p> <p>(See para IN.0.19 of explanatory notes to this Category)  63491 <b>Fee:</b> \$44.80      <b>Benefit:</b> 75% = \$33.60    85% = \$38.10</p>
	<p>MRI or MRA service to which an item in this Group (other than an item in this Subgroup) applies if:</p> <p>(a) the service is performed on a person in accordance with clause 2.5.1; and  (b) the service is performed using intravenous or intra muscular sedation</p> <p>(See para IN.0.19 of explanatory notes to this Category)  63494 <b>Fee:</b> \$44.80      <b>Benefit:</b> 75% = \$33.60    85% = \$38.10</p>

Modifiers for sedation and anaesthesia may not be claimed for the same service.</p> <p>MRI service to which item 63545 or 63546 applies if:</p> <p>(a) the service is performed on a person under the supervision of an eligible provider; and  (b) the service is performed using an hepatobiliary specific contrast agent</p> <p>(See para IN.0.19 of explanatory notes to this Category)  63496 <b>Fee:</b> \$250.00      <b>Benefit:</b> 75% = \$187.50    85% = \$212.50</p>

15. MAGNETIC RESONANCE IMAGING		22. MODIFYING ITEMS
63497	<p>MRI or MRA service to which an item in this Group (other than an item in this Subgroup) applies if:</p> <p>(a) the service is performed on a person in accordance with clause 2.5.1; and            (b) the service is performed under anaesthetic in the presence of a medical practitioner who is qualified to perform an anaesthetic</p> <p>(See para IN.0.19 of explanatory notes to this Category)  <b>Fee:</b> \$156.80      <b>Benefit:</b> 75% = \$117.60    85% = \$133.30</p>	
63498	<p>MRI service to which item 63501, 63502, 63504 or 63505 applies if:</p> <p>(a) the service is performed in accordance with the determination; and            (b) the service is performed on a person using intravenous or intra muscular sedation</p> <p>(See para IN.0.19 of explanatory notes to this Category)  <b>Fee:</b> \$44.80      <b>Benefit:</b> 75% = \$33.60    85% = \$38.10</p>	
63499	<p>MRI service to which item 63501, 63502, 63504 or 63505 applies if:</p> <p>(a) the service is performed in accordance with the determination; and            (b) the service is performed on a person under anaesthetic in the presence of a medical practitioner who is qualified to perform an anaesthetic.</p> <p>(See para IN.0.19 of explanatory notes to this Category)  <b>Fee:</b> \$156.80      <b>Benefit:</b> 75% = \$117.60    85% = \$133.30</p>	
<b>15. MAGNETIC RESONANCE IMAGING</b>		<b>32. MAGNETIC RESONANCE IMAGING - PIP BREAST IMPLANT</b>
<b>Group 15. Magnetic Resonance Imaging</b>		
Subgroup 32. Magnetic Resonance Imaging - Pip Breast Implant		
63501	<p>MRI – scan of one or both breasts for the evaluation of implant integrity where:</p> <p>(a) a dedicated breast coil is used; and            (b) the request for the scan identifies that the patient:</p> <p style="padding-left: 40px;">(i) has or is suspected of having a silicone breast implant manufactured by Poly Implant Prosthese (PIP); and            (ii) the result of the scan confirms a loss of integrity of the implant. (R)</p> <p>Note: Benefits are payable on one occasion only in any 24 Month Period</p> <p>(See para IN.0.19 of explanatory notes to this Category)  <b>Fee:</b> \$500.00      <b>Benefit:</b> 75% = \$375.00    85% = \$425.00</p>	
63502	<p>MRI - scan of one or both breasts for the evaluation of implant integrity where:</p> <p>(a) a dedicated breast coil is used; and            (b) the request for the scan identifies that the patient:</p> <p style="padding-left: 40px;">(i) has or is suspected of having a silicone breast implant manufactured by Poly Implant Prosthese (PIP); and            (ii) the result of the scan does not demonstrate a loss of integrity of the implant (R)</p>	

<b>15. MAGNETIC RESONANCE IMAGING</b>		<b>32. MAGNETIC RESONANCE IMAGING - PIP BREAST IMPLANT</b>
	<p>Note: Benefits are payable on one occasion only in any 24 Month Period</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$500.00      <b>Benefit:</b> 75% = \$375.00    85% = \$425.00</p>	
63504	<p>MRI - scan of one or both breasts for the evaluation of implant integrity where:</p> <p>(a) a dedicated breast coil is used; and</p> <p>(b) the request for the scan identifies that the patient:</p> <p>(i) has or is suspected of having a silicone breast implant manufactured by Poly Implant Prosthese (PIP); and</p> <p>(ii) presents with symptoms where implant rupture is suspected; and</p> <p>(iii) the result of the scan confirms a loss of integrity of the implant (R)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$500.00      <b>Benefit:</b> 75% = \$375.00    85% = \$425.00</p>	
63505	<p>MRI - scan of one or both breasts for the evaluation of implant integrity where:</p> <p>(a) a dedicated breast coil is used; and</p> <p>(b) the request for the scan identifies that the patient:</p> <p>(i) has or is suspected of having a silicone breast implant manufactured by Poly Implant Prosthese (PIP); and</p> <p>(ii) presents with symptoms where implant rupture is suspected; and</p> <p>(iii) the result of the scan does not demonstrate a loss of integrity of the implant (R)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$500.00      <b>Benefit:</b> 75% = \$375.00    85% = \$425.00</p>	
<b>15. MAGNETIC RESONANCE IMAGING</b>		<b>33. SCAN OF BODY - PERSON UNDER THE AGE OF 16 YEARS - GENERAL PRACTICE REQUESTS</b>
<b>Group 15. Magnetic Resonance Imaging</b>		
Subgroup 33. Scan of Body - Person Under the Age of 16 Years - General Practice Requests		
63507	<p>MRI—scan of head for a patient under 16 years if the service is for:</p> <p>(a) an unexplained seizure; or</p> <p>(b) an unexplained headache if significant pathology is suspected; or</p> <p>(c) paranasal sinus pathology that has not responded to conservative therapy (R) (Contrast) (Anaes.)</p> <p><b>Fee:</b> \$403.20      <b>Benefit:</b> 75% = \$302.40    85% = \$342.75</p>	
63510	<p>MRI—scan of spine following radiographic examination for a patient under 16 years if the service is for:</p> <p>(a) significant trauma; or</p> <p>(b) unexplained neck or back pain with associated neurological signs; or</p> <p>(c) unexplained back pain if significant pathology is suspected (R) (Contrast)</p>	

<b>33. SCAN OF BODY - PERSON UNDER THE AGE OF 16 YEARS - GENERAL PRACTICE REQUESTS</b>	
<b>15. MAGNETIC RESONANCE IMAGING</b>	
	(Anaes.) <b>Fee:</b> \$448.00 <b>Benefit:</b> 75% = \$336.00    85% = \$380.80
63513	MRI—scan of knee for internal joint derangement for a patient under 16 years (R) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) <b>Fee:</b> \$403.20 <b>Benefit:</b> 75% = \$302.40    85% = \$342.75
63516	MRI—scan of hip following radiographic examination for a patient under 16 years if any of the following is suspected:  (a) septic arthritis; (b) slipped capital femoral epiphysis; (c) Perthes disease (R) (Contrast)  (Anaes.) <b>Fee:</b> \$403.20 <b>Benefit:</b> 75% = \$302.40    85% = \$342.75
63519	MRI—scan of elbow following radiographic examination for a patient under 16 years if a significant fracture or avulsion injury, which would change the way in which the patient is managed, is suspected (R) (Contrast) (Anaes.) <b>Fee:</b> \$403.20 <b>Benefit:</b> 75% = \$302.40    85% = \$342.75
63522	MRI—scan of wrist following radiographic examination for a patient under 16 years if a scaphoid fracture is suspected (R) (Contrast)  (Anaes.) <b>Fee:</b> \$448.00 <b>Benefit:</b> 75% = \$336.00    85% = \$380.80
<b>34. SCAN OF BODY - PERSON OVER THE AGE OF 16 YEARS - GENERAL PRACTICE REQUESTS</b>	
<b>15. MAGNETIC RESONANCE IMAGING</b>	
	<b>Group 15. Magnetic Resonance Imaging</b>
	Subgroup 34. Scan of Body - Person Over the Age of 16 Years - General Practice Requests
63551	MRI - scan of head for a patient 16 years or older, after a request by a medical practitioner (other than a specialist or consultant physician), for any of the following:  (a) unexplained seizure(s); (b) unexplained chronic headache with suspected intracranial pathology (R) (Contrast)  (Anaes.) <b>Fee:</b> \$403.20 <b>Benefit:</b> 75% = \$302.40    85% = \$342.75
63554	MRI - scan of spine for a patient 16 years or older, after referral by a medical practitioner (other than a specialist or consultant physician), for suspected cervical radiculopathy (R) (Contrast) (Anaes.) <b>Fee:</b> \$358.40 <b>Benefit:</b> 75% = \$268.80    85% = \$304.65
63557	MRI - scan of spine for a patient 16 years or older, after referral by a medical practitioner (other than a specialist or consultant physician), for suspected cervical spinal trauma (R) (Contrast) (Anaes.)

**34. SCAN OF BODY - PERSON OVER THE AGE OF 16 YEARS - GENERAL PRACTICE REQUESTS**

**15. MAGNETIC RESONANCE IMAGING**

	<b>Fee:</b> \$492.80 <b>Benefit:</b> 75% = \$369.60    85% = \$418.90
	MRI - scan of knee following acute knee trauma, after referral by a medical practitioner (other than a specialist or consultant physician), for a patient 16 to 49 years with:  (a) inability to extend the knee suggesting the possibility of acute meniscal tear; or (b) clinical findings suggesting acute anterior cruciate ligament tear (R) (Contrast)  (Anaes.)  (See para IN.0.19 of explanatory notes to this Category)
63560	<b>Fee:</b> \$403.20 <b>Benefit:</b> 75% = \$302.40    85% = \$342.75

**16. MANAGEMENT OF BULK-BILLED SERVICES**

	<b>Group 16. Management Of Bulk-Billed Services</b>
	A diagnostic imaging service to which an item in this table (other than this item or item 64991) applies if:  (a) the service is an unreferral service; and  (b) the service is provided to a person who is under the age of 16 or is a Commonwealth concession card holder;      and  (c) the person is not an admitted patient of a hospital; and  (d) the service is bulk-billed in respect of the fees for: (i) this item; and (ii) the other item in this table applying to the service  (See para IN.0.19 of explanatory notes to this Category)
64990	<b>Fee:</b> \$7.15 <b>Benefit:</b> 85% = \$6.10
	A diagnostic imaging service to which an item in this table (other than this item or item 64990) applies if:  (a) the service is an unreferral service; and  (b) the service is provided to a person who is under the age of 16 or is a Commonwealth concession card holder; and  (c) the person is not an admitted patient of a hospital; and  (d) the service is bulk-billed in respect of the fees for: (i) this item; and (ii) the other item in this table applying to the service; and  (e) the service is provided at, or from, a practice location within Modified Monash areas 2 to 7.  (See para IN.0.19 of explanatory notes to this Category)
64991	<b>Fee:</b> \$10.80 <b>Benefit:</b> 85% = \$9.20

## INDEX

### A

Abdomen, barium X-ray 58909  
 Abdominal x-ray, plain 58900, 58903  
 Air contrast study, with opaque enema 58921  
 Air insufflation 59763  
 Alimentary tract, x-ray of 58900, 58903, 58909, 58912  
 58915-58916, 58921  
 Angiocardiology 59903  
 Angiography, cerebral, preparation for 60918  
 Angiography, coronary 59912  
 Angiography, digital subtraction (DSA) 60000, 60003, 60006  
 60009, 60012, 60015, 60018, 60021, 60024, 60027, 60030  
 60033, 60036, 60039, 60042, 60045, 60048, 60051, 60054  
 60057, 60060, 60063, 60066, 60069  
 Angiography, with mobile image intensification 59970  
 Ankle, x-ray of 57518, 57521, 57524, 57527  
 Antegrade pyelography 58715  
 Arm, x-ray of 57506, 57509, 57512, 57515  
 Arteriogram - selective, preparation 60927  
 Arteriography 59912  
 Arteriography or venography, selective 60072, 60075, 60078  
 Arteriography, preparation for 60918  
 Arteriography, selective 59912  
 Arthrography 59751

### B

Barium, alimentary tract 58909, 58912, 58915  
 Biliary system, x-ray of 58927, 58933, 58936  
 Bone, age study 58300  
 Bowel - small, barium x-ray of 58912, 58915  
 Bowel - small, enema 58916  
 Breast x-ray, excised tissue 59318  
 Breast x-ray, restriction applies 59300, 59303  
 Breast x-ray, with surgical procedure 59312, 59314  
 Bronchography 59715  
 Bulk-billing 64990-64991

### C

Calculus, salivary, x-ray of 57918  
 CBCT dental imaging 57362  
 Cephalometry, x-ray 57902  
 Cerebral angiography, preparation for 60918  
 Cervical spine, x-ray of 58100  
 Chest, x-ray of 58500, 58503, 58506, 58509  
 Cholegraphy 58927, 58933, 58936  
 Clavicle, x-ray of 57706, 57709  
 Coccyx, x-ray of 58109  
 Colon, x-ray of 58912, 58921  
 Computed Tomography of the colon 56553  
 Computerised tomography, brain, chest and upper abdomen 57001,  
 57007  
 Computerised tomography, chest and upper abdomen 56301  
 56307  
 Computerised tomography, coronary arteries 57360  
 Computerised tomography, facial bones 56022, 56028

Computerised tomography, head, brain 56001, 56007  
 Computerised tomography, interventional technique 57341  
 Computerised tomography, middle ear 56016  
 Computerised tomography, neck 56101, 56107  
 Computerised tomography, orbits 56013  
 Computerised tomography, pelvimetry 57201  
 Computerised tomography, pelvis 56409, 56412  
 Computerised tomography, pituitary fossa 56010  
 Computerised tomography, spine 56219-56221, 56223-56226  
 56233-56234, 56237-56238  
 Computerised tomography, spiral angiography 57352-57354  
 Computerised tomography, upper abdomen 56401, 56407  
 Computerised tomography, upper abdomen & pelvis 56501, 56507  
 Computerised tomography, chest, abdomen, pelvis, neck 56801  
 56807  
 Contrast media, intro for radiology 60918  
 Coronary arteriography, selective 59912  
 Cysto-urethrography, retrograde micturating 58721  
 Cystography, retrograde 58718

### D

Dacryocystography 59703  
 Defaecogram 58939  
 Digits & phalanges 57506, 57509, 57512, 57515, 57518, 57521  
 57524, 57527  
 Discography 59700  
 Duodenum, barium x-ray of 58909, 58912  
 Duplex scanning, carotid and vertebral vessels 55274  
 Duplex scanning, of abdominal aorta, arteries, iliac arteries and  
 veins 55276  
 Duplex scanning, of arteries/grafts lower limb 55238  
 Duplex scanning, of arteries/grafts upper limb 55248  
 Duplex scanning, of intra-cranial vessels 55280  
 Duplex scanning, of penis, cavernosal artery 55282  
 Duplex scanning, of penis, cavernosal tissue 55284  
 Duplex scanning, of renal/visceral vessels 55278  
 Duplex scanning, of veins lower limb, venous disease 55246  
 Duplex scanning, of veins lower limb, venous thrombosis 55244  
 Duplex scanning, veins upper limb 55252

### E

Echocardiographic, exam of heart 55118, 55130, 55135  
 Echography, ultrasonic 55029-55033, 55036-55039, 55048-55049  
 55054, 55073, 55118  
 Elbow, x-ray 57506, 57509  
 Enema, opaque x-ray 58921  
 Eye, x-ray of 57924

### F

Femur, x-ray of 57518, 57527, 57721  
 Fistulogram 59739  
 Fluoroscopic exam 60500, 60503, 60506, 60509, 61109  
 Foot, x-ray of 57518, 57521, 57524, 57527  
 Forearm, x-ray of 57506, 57515  
 Foreign body, localisation of and report 59103

### G

Gallbladder, x-ray of 58927, 58933, 58936

**H**

Hand/wrist/forearm/elbow 57506, 57509, 57512, 57515  
Hip joint, x-ray of 57712  
Humerus, x-ray of 57506, 57509, 57512, 57515  
Hysterosalpingography 59712

**I**

Intravenous pyelogram 58706

**K**

Knee/foot/ankle/leg/femur x-ray 57518, 57521, 57524, 57527

**L**

Larynx, neck tissues, x-ray of 57945  
Leg, x-ray of 57518, 57521, 57524, 57527  
Lumbo-sacral spine, x-ray of 58106  
Lung fields, x-ray of 58500, 58503, 58506  
Lymphangiography 59754

**M**

Magnetic Resonance Angiography, cardiovascular system 63401  
63404  
Magnetic Resonance Angiography, persons under 16 years 63416  
Magnetic Resonance Imaging, body 63461  
Magnetic Resonance Imaging, cardiovascular system 63385  
63388, 63391  
Magnetic Resonance Imaging, cervical spine and brachial plexus  
63271, 63274, 63277, 63280  
Magnetic Resonance Imaging, Head 63001  
Magnetic Resonance Imaging, head 63004, 63007, 63010, 63040  
63043, 63046, 63049, 63052, 63055, 63058, 63061, 63064  
63067, 63070, 63073  
Magnetic Resonance Imaging, head and cervical spine 63125  
63128, 63131  
Magnetic Resonance Imaging, head and neck vessels 63101  
Magnetic Resonance Imaging, modifying items 63491, 63494  
63497-63499  
Magnetic Resonance Imaging, musculoskeletal system 63301  
63304, 63307, 63322, 63325, 63328, 63331, 63334, 63337  
63340, 63361  
Magnetic Resonance Imaging, pelvis and upper abdomen 63470  
63473  
Magnetic Resonance Imaging, person under 16 years 63425  
63428, 63440, 63443, 63446  
Magnetic Resonance Imaging, PIP Breast Implant 63501-63502  
63504-63505  
Magnetic Resonance Imaging, spine - one region or two  
contiguous regions 63151, 63154, 63161, 63164, 63167, 63170,  
63173  
63176, 63179, 63182, 63185  
Magnetic Resonance Imaging, spine - three contiguous or two non  
contiguous regio 63201, 63204, 63219, 63222, 63225  
63228, 63231, 63234, 63237  
Mammography, (restriction applies) 59300, 59303

Mandible, X-ray of 57915  
Myelography 59724

**N**

Nephography 58700, 58715  
Nose, X-ray of 57921  
Nuclear Medicine Imaging, brain study 61402  
Nuclear medicine imaging, cardiovascular, gated cardiac study -  
1st pass/cardiac 61314  
Nuclear medicine imaging, cardiovascular, gated cardiac study-  
planar or spect 61313  
Nuclear Medicine Imaging, cerebro spinal fluid study 61409  
61413  
Nuclear Medicine Imaging, endocrine, adrenal study 61485  
Nuclear Medicine Imaging, endocrine, parathyroid study 61480  
Nuclear Medicine Imaging, endocrine, thyroid study 61473  
Nuclear Medicine Imaging, gastrointestinal, bowel haemorrhage  
study 61364  
Nuclear Medicine Imaging, gastrointestinal, colonic transit study  
61384  
Nuclear Medicine Imaging, gastrointestinal, gastric emptying  
61381, 61383  
Nuclear Medicine Imaging, gastrointestinal, gastro-oesophageal  
reflux study 61373  
Nuclear Medicine Imaging, gastrointestinal, hepatobiliary study  
61360-61361  
Nuclear Medicine Imaging, gastrointestinal, oesophageal clearance  
study 61376  
Nuclear Medicine Imaging, genitourinary, cystoureterogram 61397  
Nuclear Medicine Imaging, genitourinary, renal cortical study  
61387  
Nuclear Medicine Imaging, genitourinary, renal study 61386  
61389-61390, 61393  
Nuclear Medicine Imaging, genitourinary, renal study including  
renogram or plana 61386  
Nuclear Medicine Imaging, Indium, labelled octreotide study  
61369  
Nuclear Medicine Imaging, Indium, Meckel's diverticulum study  
61368  
Nuclear Medicine Imaging, Indium, red blood cell spleen/liver  
SPECT 61356  
Nuclear Medicine Imaging, Indium, salivary study 61372  
Nuclear Medicine Imaging, liver and spleen study 61353  
Nuclear Medicine Imaging, localised study, gallium 61450  
61453  
Nuclear Medicine Imaging, localised study, technetium 61454  
61457  
Nuclear Medicine Imaging, localised study, thallium 61461  
Nuclear Medicine Imaging, lymphoscintigraphy 61469  
Nuclear Medicine Imaging, myocardial infarct-avid imaging 61310  
Nuclear Medicine Imaging, positron emission tomography 61523  
61529, 61541, 61553, 61559, 61565, 61575, 61577, 61598  
61604, 61610, 61620, 61632  
Nuclear Medicine Imaging, pulmonary, lung perfusion &  
ventilation 61348  
Nuclear Medicine Imaging, pulmonary, lung perfusion study 61328  
Nuclear Medicine Imaging, pulmonary, lung ventilation study  
61340  
Nuclear Medicine Imaging, repeat planar or SPECT 61462  
Nuclear Medicine Imaging, skeletal, bone marrow study 61441  
61445

Nuclear Medicine Imaging, skeletal, bone study 61421, 61425  
 Nuclear Medicine Imaging, skeletal, bone/joint localised 61446  
 Nuclear Medicine Imaging, tear duct study 61495  
 Nuclear Medicine Imaging, vascular, particle perfusion or Le Vein 61499  
 Nuclear Medicine Imaging, whole body study, gallium 61429-61430, 61442  
 Nuclear Medicine Imaging, whole body study, iodine 61426  
 Nuclear Medicine Imaging, whole body study, technetium 61433-61434  
 Nuclear Medicine Imaging, whole body study, thallium 61438

**O**

Oesophagus, barium X-ray of 58909, 58912  
 Opaque enema 58921  
 Opaque enema, meal 58909, 58912, 58915  
 Opaque enema, media, radiology prep 60918, 60927  
 Orthopantomography 57960, 57963, 57966, 57969

**P**

Palato-pharyngeal studies 57942  
 Palato-pharyngeal studies 57939  
 Pelvic girdle, X-ray of 57715  
 Pelvis, X-ray of 57715  
 Phalanges & digits 57506, 57509, 57512, 57515, 57518, 57521, 57524, 57527  
 Pharynx, barium X-ray of 58909  
 Phlebogram, preparation 60927  
 Phlebography 59718  
 Phlebography, preparation for 60918  
 Plain abdominal X-ray 58900  
 Plain, abdominal X-ray 58903  
 Plain, renal X-ray 58700  
 Pleura, X-ray of 58503  
 Pleura, X-ray of 58500  
 Positron emission tomography 61523, 61529, 61538, 61541, 61553, 61559, 61565, 61571, 61575, 61577, 61598, 61604, 61610, 61620, 61622, 61628, 61632, 61640, 61646  
 Prep, for radiological procedure 60918, 60927  
 Prostate, bladder base and urethra, ultrasound scan of 55600  
 Pyelography - intravenous 58706  
 Pyelography - intravenous, retrograde/antegrade 58715

**R**

Renal, plain X-ray 58700  
 Retrograde - pyelography 58715  
 Retrograde - pyelography, cysto-urethography 58721  
 Retrograde - pyelography, cystography 58718  
 Ribs, X-ray of 58521, 58524, 58527

**S**

Sacro-coccygeal spine, X-ray of 58109  
 Salivary calculus, X-ray of 57918  
 Scapula, X-ray of 57700, 57703  
 Screening with x-ray of chest 58506  
 Screening, palate/pharynx, x-ray 57939  
 Serial, angiocardigraphy 59903

Shoulder or scapula, X-ray of 57700, 57703  
 Sialography 59733  
 Sinogram, or fistulogram 59739  
 Skeletal survey 58306  
 Skull, X-ray 57901  
 Small bowel series, barium, X-ray 58912, 58915  
 Spine, X-ray of 58100, 58103, 58106, 58108-58109, 58112, 58115  
 Sternum, X-ray of 58521, 58524, 58527  
 Stomach, barium X-ray 58909, 58912

**T**

Teeth, orthopantomography 57960, 57963, 57966, 57969  
 Teeth, X-ray of 57930, 57933  
 Temporo-mandibular joints, X-ray of 57927  
 Thigh (femur), X-ray of 57518, 57521  
 Thoracic inlet, spine, X-ray of 58103  
 Thoracic inlet, X-ray of 58509  
 Trachea, X-ray of 58509

**U**

Ultrasound, cardiac examination 55118, 55130, 55135  
 Ultrasound, general 55029-55033, 55036-55039, 55048-55049, 55054, 55065, 55070, 55073, 55076, 55079, 55084-55085  
 Ultrasound, musculoskeletal 55854  
 Ultrasound, obstetric and gynaecological 55700, 55703-55709, 55712, 55715, 55718, 55721, 55723, 55725, 55729, 55736, 55739, 55759, 55762, 55764, 55766, 55768, 55770, 55772, 55774  
 Ultrasound, urological 55603  
 Ultrasound, vascular 55238, 55244, 55246, 55248, 55252, 55274, 55276, 55278, 55280, 55282, 55284, 55292, 55294, 55296  
 Upper forearm & elbow, leg and knee, X-ray of 57524, 57527  
 Upper forearm & elbow, X-ray 57512, 57515  
 Urethrography, retrograde 58718  
 Urinary tract, X-ray of 58700, 58706, 58715, 58718, 58721

**V**

Venography, selective 60072, 60075, 60078

**W**

Wrist/hand/forearm/elbow/humerus X-ray of 57506, 57509, 57512, 57515

**X**

X-ray, alimentary tract and biliary system 58900, 58903, 58909, 58912, 58915-58916, 58921, 58927, 58933, 58936, 58939  
 X-ray, bone age study and skeletal surveys 58300, 58306  
 X-ray, breasts 59300, 59303  
 X-ray, breasts, in conjunction with a surgical procedure 59312, 59314  
 X-ray, extremities 57509, 57512, 57515, 57518, 57521, 57524, 57527  
 X-ray, extremities 57506

X-ray, head 57901-57902, 57915, 57918, 57921, 57924, 57927  
57930, 57933, 57939, 57942, 57945, 57960, 57963, 57966  
57969  
X-ray, image intensification 60500, 60503  
X-ray, of excised breast tissue 59318  
X-ray, shoulder or pelvis 57700, 57703, 57706, 57709, 57712  
57715, 57721  
X-ray, spine 58100, 58103, 58106, 58108-58109, 58112, 58115  
X-ray, thoracic region 58500, 58503, 58506, 58509, 58521  
58524, 58527, 58706, 58715, 58718, 58721  
X-ray, Urinary tract 58700  
X-ray, with opaque or contrast media 59700, 59703, 59712  
59715, 59718, 59724, 59733, 59739, 59751, 59754, 59763

# **CATEGORY 6: PATHOLOGY SERVICES**

## SUMMARY OF CHANGES FROM 01/03/2021

The 01/03/2021 changes to the MBS are summarised below and are identified in the Schedule pages by one or more of the following words appearing above the item number:

(a) new item	New
(b) amended description	Amend
(c) fee amended	Fee
(d) item number changed	Renum
(e) EMSN changed	EMSN

### **Description Amended**

72860 73296 73297 73357

Items 73296 and 73297 have been amended to update the clinical terminology and align these items with the related changes, which occurred on 1 August 2020. As part of the changes, the term ‘pathogenic or likely pathogenic gene variant’ is included and the descriptor for item 73296 will now include ‘ovarian, fallopian tube or primary peritoneal cancer’.

The updated item descriptor for item 73297 also specifies that patients cannot receive this service if they have previously received a service under items 73295 or 73297 (as well item 73296 which is currently specified in the descriptor). This is to prevent unnecessary repeat testing, as the presence of a hereditary gene will not change over the life of a patient or their family member.

There was also a minor descriptor change for item 73357 to extend the genetic testing to ‘biological’ relative.

## **PATHOLOGY SERVICES NOTES**

### **PN.0.1 Changes to the Pathology Services Table Health Insurance Regulations**

The *Health Insurance Act 1973* allows the Minister for Health to determine an appropriate Pathology Services Table which is then prescribed by Regulation.

The Minister has established the Pathology Services Table Committee (PSTC) to assist in determining changes to the Table (except new medical services and technologies - see below). Any person or organisation seeking to make a submission to this Committee can contact the PSTC Secretariat on (02) 6289 4080 or e-mail [pstc.secretariat@health.gov.au](mailto:pstc.secretariat@health.gov.au) and/or write to: Secretary, PSTC, MDP 107, Department of Health and Ageing, GPO Box 9848, CANBERRA ACT 2601.

Pathology submissions relating to new medical services and technologies should be forwarded to the Medical Services Advisory Committee (MSAC). MSAC has been established to advise the Minister on the strength of evidence pertaining to new and emerging medical technologies and procedures in relation to their safety, effectiveness and cost effectiveness, and under what circumstances public funding should be supported.

Any person or organisation seeking to make a submission to MSAC can contact the MSAC Secretariat on (02) 6289 7550 or email [msac.secretariat@health.gov.au](mailto:msac.secretariat@health.gov.au) and/or write to: MSAC Secretariat, Australian Government, Department of Health, MDP 106, GPO Box 9848, CANBERRA ACT 2601. The application form and guidelines for applying can also be obtained from MSAC's website - [www.msac.gov.au](http://www.msac.gov.au)

### **PN.0.2 Explanatory Notes - Definitions Excessive Pathology Service**

This means a pathology service for which a Medicare benefit has become or may become payable and which is not reasonably necessary for the adequate medical or dental care of the patient concerned.

### **PN.0.3 Group of Practitioners**

This means:

- (i) a practitioner conducting a medical practice or a dental practice, or a participating nurse practitioner practice, or a participating midwife practice together with another practitioner, or other practitioners, participating (whether as employees or otherwise) in the provision of professional services as part of that practice; or
- (ii) two or more practitioners conducting a medical practice or a dental practice, or a participating nurse practitioner practice, or a participating midwife practice as partners; or
- (iii) those partners together with any other practitioner who participates (whether as an employee or otherwise) in the provision of professional services as part of that practice.

### **PN.0.4 Initiate**

In relation to a pathology service this means to request the provision of pathology services for a patient.

### **PN.0.5 Patient Episode**

A patient episode comprises a pathology service or services specified in one or more items which are provided for a single patient, the need for which was determined under subsection 16A(1) of the Act on the same day, whether they were provided by one or more approved pathology practitioners on one day or over several days and whether they are requested by one or more treating practitioners. Even if a treating practitioner writes separate request forms to cover the collection of specimens at different times, where the decision to collect the multiple specimens was made at the same time, the multiple tests are deemed to belong to the same patient episode. In addition, if more than one

request is made, on the same or different days, for tests on the same specimen within 14 days, they are part of the same patient episode.

Rule 4 of the Pathology Services Table provides an exemption to the above and enables services requested on one day which are performed under strictly limited circumstances for seriously or chronically ill patients with certain specified conditions to each be classified as a patient episode. See PD.2 for further information on exemptions.

Rule 14.(8) also provides that only a single patient episode initiation fee will be payable for all the specimens collected on one day from one patient in or by one Approved Pathology Authority.

### **PN.0.7 Personal Supervision**

This means that an Approved Pathology Practitioner will, to the fullest extent possible, be responsible for exercising an acceptable level of control over the rendering of pathology services. See PM.1 to PM.3 for a full description of the responsibilities involved in personal supervision.

### **PN.0.8 Prescribed Pathology Service**

These are simple basic pathology services which are included in Group P9 and may be performed by a medical practitioner in the practitioner's surgery without the need to obtain Approved Pathology Authority, Approved Pathology Practitioner or Accredited Pathology Laboratory status.

### **PN.0.9 Proprietor of a Laboratory**

This means in relation to a pathology laboratory the person, authority or body of persons having effective control of:

- (i) the laboratory premises, whether or not the holder of an estate or interest in the premises;
- (ii) the use of equipment used in the laboratory; and
- (iii) the employment of staff in the laboratory.

### **PN.0.10 Specialist Pathologist**

This means a medical practitioner recognised for the purposes of the Health Insurance Act 1973 as a specialist in pathology (see 5.1 of the "General Explanatory Notes" in Section 1 of this book). The principal specialty of pathology includes a number of sectional specialties. Accordingly, a medical practitioner who is recognised as a specialist in a sectional specialty of pathology is recognised as a specialist pathologist for this purpose.

### **PN.0.11 Designated Pathology Service**

This means a pathology service specified in items 65150, 65175, 66650, 66695, 66711, 66722, 66785, 66800, 66812, 66819, 66825, 69384, 69494, 71089, 71153 or 71165. Where one Approved Pathology Practitioner in an Approved Pathology Authority has performed some but not all the estimations in a coned item and has requested another Approved Pathology Practitioner in another Approved Pathology Authority to do the rest, the service provided by the second practitioner is deemed to be the "designated pathology service". Thus the first practitioner claims under the appropriate item for the services which he/she provides while the second practitioner claims one of items 65150, 65175, 66650, 66695, 66711, 66722, 66785, 66800, 66812, 66819, 66825, 69384, 69494, 71089, 71153 or 71165. Where one Approved Pathology Practitioner in an Approved Pathology Authority has performed some, but not all estimations and has requested another Approved Pathology Practitioner in another Approved Pathology Authority to do the remainder, the first Approved Pathology Practitioner can raise a "patient episode initiation fee". The second Approved Pathology Practitioner who receives the specimen can raise a "specimen referred fee".

### **PN.0.12 Interpretation of The Schedule - Items Referring to 'The Detection Of'**

Items that contain the term 'detection of' should be taken to mean 'testing for the presence of'.

**PN.0.13 Blood Grouping - (Item 65096)**

Where a request includes 'Group and Hold' or 'Group and Save', the appropriate item is 65096.

**PN.0.14 Glycosylated Haemoglobin - (Item 66551)**

The requirement of "established diabetes" in this item may be satisfied by:

- (a) a statement of the diagnosis by the ordering practitioner on the current request form or on a previous request form held in the database of the Approved Pathology Authority; or
- (b) two or more blood glucose levels that are in the diabetic range and is contained in the database of the Approved Pathology Authority; or
- (c) an oral glucose tolerance test result that is in the diabetic range and is contained in the database of the Approved Pathology Authority.

**PN.0.15 Iron Studies - (Item 66596)**

Where a request includes 'Iron Studies', 'IS', 'Fe', '% saturation' or 'Iron', the relevant item is 66596.

**PN.0.16 Faecal Occult Blood - (Items 66764 to 66770)****PN.0.17 Antibiotics/Antimicrobial Chemotherapeutic Agents**

A test for the quantitation of antibiotics/antimicrobial chemotherapeutic agents is claimable under item 66800 or 66812 - 'quantitation of a drug being used therapeutically'.

**PN.0.18 Human Immunodeficiency Virus (HIV) Diagnostic Tests - (included in Items 69384, 69387, 69390, 69393, 69396, 69405, 69408, 69411, 69413 and 69415)**

Prior to ordering an HIV diagnostics tests (included in items 69384, 69387, 69390, 69393, 69396, 69405, 69408, 69411, 69413, 69415) the ordering practitioner should ensure that the patient has given informed consent. Appropriate discussion should be provided to the patient. Further discussion may be necessary upon receipt of the test results.

**PN.0.19 Hepatitis - (Item 69481)**

Benefits for item 69481 are payable only if the request from the ordering practitioner indicates in writing that the patient is suspected of suffering from acute or chronic hepatitis; either by the use of the provisional diagnosis of hepatitis or by relevant clinical or laboratory information eg "hepatomegaly", "jaundice" or "abnormal liver function tests".

**PN.0.20 Eosinophil Cationic Protein - (Item 71095)**

Item 71095 applies to children aged less than 12 years who cannot be reliably monitored by spirometry or flowmeter readings.

**PN.0.21 Tissue Pathology and Cytology - (Items 72813 to 73061)**

When services described in Group P5 need to be performed upon material which is submitted for cytology items listed in Group P6 only the fee for the P6 item can be claimed.

**PN.0.22 Cervical and Vaginal Screening - (Items 73070 to 73076)**

It is the responsibility of the treating healthcare practitioner to determine if the sample is being collected as part of the routine screening program under 73070 or 73071 or represents a sample falling under 73072 or 73073 or 73074 or 73075 or 73076, and to indicate this on the request form. Unless a co-test is specifically requested, requiring the pathology laboratory to perform both a human papillomavirus (HPV) test and a liquid based cytology (LBC) test on

the same specimen, the pathology laboratory will by default perform an HPV test and then only undertake reflex LBC testing if oncogenic HPV (any type) is detected. The pathology laboratory will issue the HPV test result, the LBC test result and overall screening risk rating as a combined report as prescribed by the National Pathology Accreditation Advisory Council (NPAAC) Requirements for Laboratories reporting tests for the National Cervical Screening Program (NPAAC Requirements).

The test used for detecting oncogenic HPV must allow partial HPV genotyping to identify HPV16, HPV18 with or without HPV45 as well as meet the criteria for a population based screening test as prescribed by the NPAAC Requirements.

When used together, the self-collection device and the HPV test must meet the NPAAC Requirements, including the HPV test must be a polymerase chain reaction (PCR) test.

73070 applies to an HPV test on a cervical specimen for primary screening purposes and collected by a healthcare practitioner (or an accredited test provider under the supervision of a healthcare practitioner) from an asymptomatic patient as part of routine five yearly screening recommended by the National Cervical Screening Program. The Health Insurance Act 1973 excludes payment of Medicare Benefits for health screening services except where Ministerial directions have been issued to enable benefits to be paid, this includes HPV testing that is performed in accordance with the policy of the National Cervical Screening Program (available at [www.cancerscreening.gov.au](http://www.cancerscreening.gov.au)). This policy provides for a screening interval of five years for an asymptomatic patient commencing at 24 years and 9 months of age and for a patient aged between 70 to 74 years of age to cease cervical screening if the last test result is normal (i.e. low risk). A patient aged 75 years of age or older who has never had a cervical screening test or has not had one in the previous five years, may request a cervical screening test and be screened.

In accordance with the national policy for the National Cervical Screening Program, where oncogenic HPV (any type) is detected, the pathology laboratory will conduct reflex LBC automatically under 73076 (a) without requiring an additional request by the treating healthcare professional.

73071 only applies to HPV tests for primary screening purposes requested by a healthcare practitioner on a self-collected vaginal specimen if a specimen collected by a healthcare practitioner has been declined.

HPV testing on self collected vaginal specimens carried out under 73071 should be in accordance with the agreed National Cervical Screening Program Self Collection Policy. The Policy allows self collection where a patient is  $\geq$  30 years of age and has either never screened or is under screened (i.e. overdue for cervical screening by at least two years, being greater than 7 years since the patient's last HPV screening test). A patient aged 75 years of age or older who has never had a cervical screening test or has not had one in the previous seven years, may request a self collected vaginal sample and be screened.

During the early years of the transition, this may include a patient who is overdue since the patient's last conventional Pap test (i.e. greater than four years since last conventional Pap).

It is the intention of the National Cervical Screening Program where oncogenic HPV has previously been detected under this Item, the healthcare practitioner collected liquid based sample from the cervix that follows, can be claimed under 73076 (a) with a further request by the treating healthcare practitioner.

73072 applies to HPV tests where the specimen has been collected in accordance with the National Cervical Screening Program: Guidelines for the Management of Screen Detected Abnormalities, Screening in Specific Populations and Investigation of Abnormal Vaginal Bleeding (2016 Guidelines) which provides for:

- (a) an HPV test (and reflex LBC) performed on a patient within a specific population suggestive of a higher risk of pre cancerous or cancerous cervical changes. HPV tests carried out in specific populations under Item 73072 should be in accordance with the 2016 Guidelines including:
  - (i) screening with a primary HPV test (and reflex LBC) every 3 years for an immune-deficient patient; or

- (ii) a single HPV test between 20 and 24 years of age could be considered by healthcare practitioners on a case by case basis for a patient who experienced first sexual activity at a young age (less than 14 years of age) and who has not received the HPV vaccine before sexual debut; or
- (b) an HPV test (and reflex LBC) performed for the follow up management of previously detected oncogenic HPV infection with a negative or possible/low grade squamous intraepithelial lesion (LSIL) cytology result; or
- (c) a co-test (HPV+LBC) for the investigation of symptoms of cervical cancer, most commonly abnormal vaginal bleeding; or
- (d) co-test (HPV+LBC) for the management of a patient following treatment of high grade squamous intraepithelial lesions (HSIL) of the cervix as part of a 'test of cure' process performed at 12 months after treatment and annually thereafter, until receiving a negative co-test on two separate consecutive occasions, then the patient can return to routine five yearly screening. In accordance with the 2016 Guidelines this also applies to a patient undergoing follow up or post-treatment for a glandular abnormality as part of annual surveillance performed indefinitely; or
- (e) a co-test (HPV+LBC) for the follow up management of glandular abnormalities; or
- (f) a co-test (HPV+LBC) for screening a patient exposed to diethylstilbestrol (DES) in utero and daughters of patients exposed to DES in utero, if requested.

A co-test requires both HPV and LBC tests to be performed irrespective of the HPV test result. A reflex LBC is only required if oncogenic HPV (any type) is detected; where oncogenic HPV (any type) has been detected in a liquid based sample from the cervix by a healthcare professional, the pathology laboratory will conduct LBC automatically without requiring an additional request.

73073 applies to the management of a patient with previously detected oncogenic HPV (any type) infection on a self collected vaginal sample if a specimen collected by a healthcare practitioner has been declined. It may only be claimed when the test is performed within in a 21 month period following detection of oncogenic HPV (any type) associated with 73071.

It is expected that most patients who are undergoing follow up, after detection of oncogenic HPV (any type) on a self collected vaginal sample, will agree to have a clinician collected cervical sample at the follow up visit. Some patients may decline and this Item applies to this group of patients. It is the intention of the National Cervical Screening Program where oncogenic HPV has previously been detected under this Item, the healthcare practitioner collected liquid based sample from the cervix that follows, can be claimed under 73076 (a) with a further request by the treating healthcare practitioner.

73074 applies to an HPV test on a vaginal vault specimen collected by a healthcare practitioner (or an accredited test provider under the supervision of a healthcare practitioner) from a patient with past history of total hysterectomy, in accordance with the 2016 Guidelines which provides for:

- (a) an HPV test for a patient who has no evidence of cervical pathology and the patient's screening history is not available, performed at 12 months following a total hysterectomy and annually thereafter until a patient has two negative HPV tests (i.e. oncogenic HPV not detected) on two separate consecutive occasions and can be advised that no further testing is required; or
- (b) a co-test (HPV+LBC) for a patient who has had a total hysterectomy, performed at 12 months following a total hysterectomy and annually thereafter until two consecutive co-tests are negative:
  - (i) if unexpected LSIL or HSIL is identified in the cervix at the time of total hysterectomy after completed 'test of cure' process; or
  - (ii) if the total hysterectomy was for treatment of high-grade cervical intraepithelial neoplasia in the presence of benign gynaecological disease; or

(iii) if the total hysterectomy was after histologically confirmed HSIL without Test of Cure and there is no cervical pathology; or

(c) indefinite co-testing (HPV+LBC) for a patient who has had a total hysterectomy, performed at 12 months after treatment and annually thereafter if the total hysterectomy was after adenocarcinoma in situ (AIS).

73075 applies to HPV tests repeated due to an unsatisfactory HPV test under 73070 or 73071 or 73072 or 73073 or 73074.

73076 applies to a liquid-based cytology (LBC) test on a cervical or vaginal vault specimen:

(a) as part of a reflex test following detection of oncogenic HPV described in the national policy and 2016 Guidelines associated with items 73070 or 73071 or 73072 (a) or (b) or 73073 or 73074 or 73075; or

(b) as part of a co-test described in the national policy and 2016 Guidelines under 73072 (c) or (d) or (e) of (f) or 73074; or

(c) where the previous specimen collected is unsatisfactory; or

(d) for the follow up management of a patient with a past history of total hysterectomy for endometrial adenocarcinoma.

#### **PN.0.23 Detection of mutation tests (Items 73297, 73300, 73305, 73334, 73339 and 73340)**

Prior to ordering these tests (73297, 73300, 73305, 73334, 73339 and 73340) the ordering practitioner should ensure the patient (or approximate proxy) has given informed consent. Testing should only be performed after genetic counselling. Appropriate genetic counselling should be provided to the patient either by the specialist treating practitioner, a genetic counselling service or a clinical geneticist on referral. Further counselling may be necessary upon receipt of the test results.

#### **PN.0.24 Additional Bulk Billing Payment for Pathology Services - (Item 74990 and 74991)**

Item 74990 operates in the same way as item 10990 and item 74991 operates in the same way as item 10991, apart from the following differences:

- Item 74990 and 74991 can only be used in conjunction with items in the Pathology Services Table of the MBS;
- Item 74990 and 74991 applies to unreferral pathology services performed by a medical practitioner which are included in Group P9 of the Pathology Services Table, and unreferral pathology services provided by category M laboratories;
- Item 74990 and item 74991 applies to pathology services self determined by general practitioners and specialists with dual qualifications acting in their capacity as general practitioners;
- Specialists and consultant physicians who provide pathology services are not able to claim item 74990 or item 74991 unless, for the purposes of the Health Insurance Act, the medical practitioner is also a general practitioner and the service provided by the medical practitioner has not been referred to that practitioner by another medical practitioner or person with referring rights.

Rules 3 and 18 of the *Health Insurance (Pathology Services Table) Regulations 2003* have been amended to exclude item 74990 and 74991 from the Multiple Services Rule and the Coning Rule.

Item 74991 can only be used where the service is provided at, or from, a practice location in an eligible area that is regional, rural or remote area (Monash Modified Model (MMM) 2 to 7 under the MMM geographical classification system).

### **PN.0.25 Transfer of Existing Items from Group P1 (Haematology) to Group P7 Genetics Effective 1 May 2006.**

P16.14 has been created to note the transfer of existing items from Group P1 (Haematology) items 65168, 65174, 65200 and item 66794 from Group P2 (Chemistry) to Group P7 (Genetics) as items 73308, 73311, 73314, 73317 and the introduction of the new item in Group P7 (Genetics) item 73320 HLA-B27 typing by nucleic acid amplification (NAA) which was effective as of 1 May 2006.

### **PN.0.26 RAS gene mutation status (Item 73338)**

Item 73338 provides for testing of RAS mutations to limit subsidy of anti-EGFR antibodies to only those patients demonstrated to have no RAS mutations.

For a Medicare benefit to be payable, the test must be conducted for all clinically relevant mutations on KRAS exons 2, 3 and 4 and NRAS exons 2, 3 and 4, or until a RAS mutation is found.

Enabling the requirements of the item descriptor to be met once any RAS mutation is found means that once the test indicates that the patient is not RAS wild-type and therefore not suitable for access to cetuximab and panitumumab under the PBS, a pathologist is not required to continue testing for other clinically relevant mutations.

### **PN.0.27 Germline BRCA gene mutation tests (Items 73295, 73296 and 73333)**

Patients who are found to have any form of affected allele should be referred for post-test genetic counselling as there may be implications for other family members. Appropriate genetic counselling should be provided to the patient either by the specialist treating practitioner, a genetic counselling service or a clinical geneticist on referral.

### **PN.0.28 Abbreviations, Groups of Tests**

As stated at P3.2 of the Outline, details that must be recorded on accounts, receipts or assignment forms of an Approved Pathology Practitioner/Authority include a description of the pathology service that is of sufficient detail to identify the specific service rendered. The lists of abbreviations for group tests are contained in PQ.4. The lists of abbreviations for individual tests are contained in the Index to this Section. The abbreviations are provided to allow users to identify and refer to particular pathology services, or particular groups of pathology services, more accurately and conveniently.

The above requirements may be used for billing purposes but treating practitioners requesting pathology services are encouraged to use the approved abbreviations. In this regard treating practitioners should note that:

- pathology services cannot be self determined by a rendering pathologist responding to a request. This places the onus for medical necessity on the treating practitioner who, in normal circumstances would, if he or she was unclear in deciding the appropriate test for a clinical situation, consult a pathologist for assistance; and
- Approved Pathology Practitioners/Authorities undertake not to issue accounts etc unless the pathology service was rendered in response to an unambiguous request.

### **PN.0.29 Tests not Listed**

Tests which are not listed in the Pathology Services Table do not attract Medicare benefits. As explained at PN.1 of the Outline, changes to the Pathology Services Table can only be made by the Minister for Health and Ageing.

### **PN.0.30 Audit of Claims**

The Department of Human Services is undertaking routine audits of claims for pathology benefits against requested services to ensure compliance with the provisions of the Health Insurance Act 1973.

### **PN.0.31 Groups of Tests**

For the purposes of recording a description of the pathology service on accounts etc, an Approved Pathology Practitioner /Authority may use group abbreviations or group descriptions for the following specified groups of

tests. These groups consist of two or more tests within the same item. These groups exclude abbreviations such as MBA and TORCH.

Treating practitioners are encouraged to use these group abbreviations or group descriptions where appropriate.

For ease of identification of group tests, it is recommended that practitioners use the following abbreviations. Tests requested individually may attract Medicare benefits.

<b>Group</b>	<b>Estimations included in Group</b>	<b>Group Abbreviation</b>	<b>Item Numbers</b>
Cardiac enzymes or cardiac markers	Creatine kinase isoenzymes, Myoglobin, Troponin	CE / CM	66518, 66519
Coagulation studies	Full blood count, Prothrombin time, Activated partial thromboplastin time and two or more of the following tests - Fibrinogen, Thrombin, Clotting time, Fibrinogen degradation products, Fibrin monomer, D-dimer factor XIII screening tests	COAG	65129, 65070
Electrolytes	Sodium (NA), Potassium (K), Chloride (CL) and Bicarbonate (HCO <sub>3</sub> )	E	66509
Full Blood Examination	Erythrocyte count, Haematocrit, Haemoglobin, Platelet count, Red cell count, Leucocyte count, Manual or instrument generated differential, Morphological assessment of blood film where appropriate	FBE, FBC, CBC	65070
Lipid studies	Cholesterol (CHOL) and Triglycerides (TRIG)	FATS	66503
Liver function tests	Alkaline phosphatase (ALP),  Alanine aminotransferase (ALT),  Aspartate aminotransferase (AST),  Albumin (ALB), Bilirubin (BIL),  Gamma glutamyl transpeptidase (GGT), Lactate dehydrogenase (LDH), and  Protein (PROT)	LFT	66512
Syphilis serology	Rapid plasma regain test (RPR), or  Venereal disease research laboratory test (VDRL), and Treponema pallidum haemagglutination test (TPHA), or Fluorescent treponemal antibody-absorption test (FTA)	STS	69387
Urea, Electrolytes, Creatinine	Urea, Electrolytes, Creatinine	U&E	66512

### **PN.0.32 Complexity Levels for Histopathology Items**

Only one of these histopathology examination items (72813, 72816, 72817, 72818, 72823, 72824, 72825, 72826, 72827, 72828, 72830, 72836 and 72838) can be claimed in a patient episode.

The remaining items (72844, 72846, 72847, 72848, 72849, 72850, 72851, 72852, 72855, 72856 and 72857) are add-on items, covering enzyme histochemistry and immunohistochemistry, electron microscopy and frozen sections, which can be claimed in addition to the main item.

The list of complexity levels by type of specimen are contained at the back of this Section.

### **PN.0.33 Pathology Services Table**

#### **Rules for the Interpretation of the Pathology Services Table**

Please note that in the Health Insurance (Pathology Services Table) Regulations 2019 (effective 4 April 2019) rules and sub-rules are referred to as clauses and sub-clauses. In addition in the Regulations a rule that refers to specific items within a pathology group, for example Group P1 Haematology, is listed directly above the Schedule of Services for that group. A table cross referencing the following rules with the clauses in the Regulations is at the end of this section.

**1. (1)** In this table

***patient episode*** means:

(a) a pathology service or pathology services (other than a pathology service to which paragraph 1 (1) (b) refers) provided for a single patient whose need for the service or services was determined under section 16A of the Act:

- (i) on the same day; or
- (ii) if more than 1 test is performed on the 1 specimen within 14 days - on the same or different days;

whether the services:

- (iii) are requested by 1 or more practitioners; or
- (iv) are described in a single item or in more than 1 item; or
- (v) are rendered by 1 approved pathology practitioner or more than 1 approved pathology practitioner; or
- (vi) are rendered on the same or different days; or

(b) a pathology service to which rule 4 refers that is provided in the circumstances set out in that rule that relates to the service.

***receiving APP*** means an approved pathology practitioner in an approved pathology authority who performs one or more pathology services in respect of a single patient episode following receipt of a request for those services from a referring APP.

***recognised pathologist*** means a medical practitioner recognised as a specialist in pathology by a determination under section 3D, 3DB or 3E of the Act.

***referring APP*** means an approved pathology practitioner in an approved pathology authority who:

- (i) has been requested to render 1 or more pathology services, all of which are requested in a single patient episode; and
- (ii) is unable, because of the lack of facilities in, or expertise or experience of the staff of, the laboratory of the authority, to render 1 or more of the pathology services; and
- (iii) requests an approved pathology practitioner (the ***receiving APP***) in another approved pathology authority to render the pathology service or services that the referring APP is unable to render; and

(iv) renders each pathology service (if any) included in that patient episode, other than the pathology service or services in respect of which the request mentioned in subparagraph (iii) is made.

*serial examinations* means a series of examinations requested on 1 occasion whether or not:

- (a) the materials are received on different days by the approved pathology practitioner; or
- (b) the examinations or cultures were requested on 1 or more request forms by the treating practitioner.

*the Act* means the *Health Insurance Act 1973*.

**1. (2)** In these rules, a reference to a request to an approved pathology practitioner includes a reference to a request for a pathologist-determinable service to which subsection 16A (6) of the Act applies.

**1. (3)** A reference in this table by number to an item that is not included in this table is a reference to the item that has that number in the general medical services table or the diagnostic imaging services table, as the case requires.

**1. (4)** A reference to a **Group** in the table includes every item in the Group and a reference to a **Subgroup** in the table includes every item in the Subgroup.

#### **Precedence of items**

**2. (1)** If a service is described:

- (a) in an item in general terms; and
- (b) in another item in specific terms;

only the item that describes the service in specific terms applies to the service.

**2. (2)** Subject to subrule (3), if:

- (a) subrule (1) does not apply; and
- (b) a service is described in 2 or more items;

only the item that provides the lower or lowest fee for the service applies to the service.

**2. (3)** If an item is expressed to include a pathology service that is described in another item, the other item does not apply to the service in addition to the first-mentioned item, whether or not the services described in the 2 items are requested separately.

#### **Application of item 74990 and 74991**

**2. (4)** Despite subrules (1), (2) and (3):

- (a) if the pathology service described in item 74991 is provided to a person, either that item or item 74990, but not both those items, applies to the service; and
- (b) if item 74990 or 74991 applies to a pathology service, the fee specified in that item applies in addition to the fee specified in any other item in the table that applies to the service.

**2. (5)** For items 74990 and 74991:

*bulk-billed*, in relation to a pathology service, means:

- (a) a medicare benefit is payable to a person in respect of the service; and

(b) under an agreement entered into under section 20A of the Act:

(i) the person assigns to the practitioner by whom, or on whose behalf, the service is provided, his or her right to the payment of the medicare benefit; and

(ii) the practitioner accepts the assignment in full payment of his or her fee for the service provided.

**Commonwealth concession card holder** means a person who is a concessional beneficiary within the meaning given by subsection 84(1) of the *National Health Act 1953*.

**unreferred service** means a pathology service that:

(a) is provided to a person by, or on behalf of, a medical practitioner, being a medical practitioner who is not a consultant physician, or specialist, in any speciality (other than a medical practitioner who is, for the purposes of the Act, both a general practitioner and a consultant physician, or specialist, in a particular speciality); and

(b) has not been referred to the medical practitioner by another medical practitioner or person with referring rights.

**2. (6)** For item 74991:

**practice location**, in relation to the provision of a pathology service, means the place of practice in respect of which the practitioner by whom, or on whose behalf, the service is provided, has been allocated a provider number by the Commission.

**Circumstances in which services rendered following 2 requests to be taken to have been rendered following 1 request**

**3. (1)** In subrule 3(2), **service** includes assay, estimation and test.

**3. (2)** Two or more pathology services (other than services to which, under rule 4, this rule does not apply) rendered for a patient following 2 or more requests are taken to have been rendered following a single request if:

(a) the services are listed in the same item; and

(ab) that item is not item 74990 or 74991; and

(b) the patient's need for the services was determined under subsection 16A (1) of the Act on the same day even if the services are rendered by an approved pathology practitioner on more than one day.

**Services to which rule 3 does not apply**

**4. (1)** Rule 3 does not apply to a pathology service described in item 65060, 65070, 65120, 65123, 65126, 65129, 65150, 65153, 65156, 66500, 66503, 66506, 66509, 66512, 66584 or 66800, if:

(a) the service is rendered in relation to one or more specimens taken on each of not more than 6 separate occasions in a period of 24 hours; and

(b) the service is rendered to an inpatient in a hospital; and

(c) each service must be rendered as soon as possible after collection and after authorization of the result of the previous specimen; and

(d) the account for the service is endorsed 'Rule 3 Exemption'.

**4. (2)** Rule 3 does not apply to any of the following pathology services:

(a) estimation of prothrombin time (INR) in respect of a patient undergoing anticoagulant therapy;

(b) quantitative estimation of lithium in respect of a patient undergoing lithium therapy;

- (c) a service described in item 65070 in relation to a patient undergoing chemotherapy for neoplastic disease or immunosuppressant therapy;
- (d) a service described in item 65070 in relation to clozaril, ticlopidine hydrochloride, methotrexate, gold, sulphasalazine or penicillamine therapy of a patient;
- (e) a service described in item 66500 - 66512 in relation to methotrexate or leflunomide therapy of a patient;
- (f) quantitative estimation of urea, creatinine and electrolytes in relation to:
  - (i) cis-platinum or cyclosporin therapy of a patient; or
  - (ii) chronic renal failure of a patient being treated in a dialysis program conducted by a recognised hospital;
- (g) quantitative estimation of albumin and calcium in relation to therapy of a patient with vitamin D, its metabolites or analogues;
- (h) quantitative estimation of calcium, phosphate, magnesium, urea, creatinine and electrolytes in cancer patients receiving bisphosphonate infusions.

if:

- (i) under a request for a service, other than a request for a service described in paragraph (a), no more than 6 tests are requested; and
- (ii) the tests are performed within 6 months of the request; and
- (iii) the account for the service is endorsed "Rule 3 Exemption".

**4. (3)** Rule 3 does not apply to a pathology service described in items 65109 or 65110 if:

- (a) The service is rendered on not more than 5 separate occasions in the case of item 65109 and 2 separate occasions in the case of item 65110 in a period of 24 hours; and
- (b) The service is rendered in response to a written request separated in time from the previous request; and
- (c) The account for the service is endorsed "Rule 3 Exemption".

**Item taken to refer only to the first service of a particular kind**

**5. (1)** For an item in Group P1 (Haematology):

- (a) if pathology services of a kind referred to in item 65090 or 65093 are rendered for a patient during a period when the patient is in hospital, the item applies only to the first pathology service of that kind rendered for the patient during the period; and
- (b) if:
  - (i) tests (except tests mentioned in item 65099, 65102, 65105 and 65108) are carried out in relation to a patient episode; and
  - (ii) specimen material from the patient episode is stored; and
  - (iii) in response to a request made within 14 days of the patient episode, further tests (except tests mentioned in item 65099, 65102, 65105 and 65108) are carried out on the stored material; the later tests and the earlier tests are taken to be part of one patient episode.

**5. (2)** Benefits for items 65102 and 65108 are payable only if a minimum of 6 units are issued for the patient's care in any 1 day.

5.(3) For items 65099 and 65102:

**compatibility tests by crossmatch** means that, in addition to all the tests described in paragraphs (a) and (b) of the item, donor red cells from each unit must have been tested directly against the serum of the patient by 1 or more accepted crossmatching techniques.

**Certain items not to apply to a service referred by one pathology practitioner to another**

6. (1) In this rule:

**designated pathology service** means a pathology service in respect of tests relating to a single patient episode that are tests of the kind described in item 65150, 65175, 66650, 66695, 66711, 66722, 66785, 66800, 66812, 66819, 66825, 69384, 69494, 71089, 71153 or 71165.

6. (2) This rule applies in respect of a designated pathology service where:

- (a) an approved pathology practitioner (**practitioner A**) in an approved pathology authority:
  - (i) has been requested to render the designated pathology service; and
  - (ii) is unable, because of the lack of facilities in, or expertise or experience of the staff of, the laboratory of the authority, to render 1 or more of the tests included in the service; and
  - (iii) requests an approved pathology practitioner (**practitioner B**) in another approved pathology authority to render the test or tests that practitioner A is unable to render; and
  - (iv) renders each test (if any) included in the service, other than the test or tests in respect of which the request mentioned in subparagraph (iii) is made; and
- (b) the tests mentioned in subparagraph (a) (iv) that practitioner A renders are not tests constituting a service described in item 65156, 65179, 66653, 66712, 66734, 66788, 66806, 66815, 66822, 66828, 69496, 71093, 71159 or 71168.

6. (3) If this rule applies in respect of a designated pathology service:

- (a) item 65150, 65153, 65175, 65176, 65177, 65178, 66650, 66695, 66698, 66701, 66704, 66707, 66711, 66722, 66725, 66728, 66731, 66785, 66800, 66803, 66812, 66819, 66825, 69384, 69387, 69390, 69393, 69396, 69494, 69495, 71089, 71091, 71153, 71155, 71157, 71165, 71166 or 71167 (as the case requires) applies in respect of the test or tests rendered by practitioner A; and
- (b) where practitioner B renders a service under a request referred to in subparagraph (2) (a) (iii) and:
  - (i) practitioner A has rendered one or more of the tests that the service comprises - subject to subrule (4), the amount specified in item 65158, 65181, 66652, 66697, 66715, 66724, 66790, 66805, 66817, 66821, 66827, 69401, 69498, 71092, 71156 or 71170 (as the case requires) shall be taken to be the fee for each test that the service comprises; or
  - (ii) practitioner A has not rendered any of the tests that the service comprises -
    - (A) the amount specified in item 65157, 65180, 66651, 66696, 66714, 66723, 66789, 66804, 66816, 66820, 66826, 69400, 69497, 71090, 71154 or 71169 (as the case requires) shall be taken to be the fee for the first test that the service comprises; and
    - (B) subject to subrule (4), the amount specified in item 65158, 65181, 66652, 66697, 66715, 66724, 66790, 66805, 66817, 66821, 66827, 69401, 69498, 71092, 71156 or 71170 (as the case requires) shall be taken to be the fee for each subsequent test that the service comprises.

**6. (4)** For paragraph (3) (b), the maximum number of tests to which item 65158, 65181, 66652, 66697, 66715, 66724, 66790, 66805, 66817, 66821, 66827, 69401, 69498, 71092, 71156 or 71170 applies is:

(a) for item 66652, 66715, 66790, 66817, 66821 or 66827:

2 - X; and

(b) for item 65158, 66805, 69498 or 71092:

3 - X; and

(c) for item 71156 or 71170:

4 - X; and

(d) for item 65181 or 66724:

5 - X; and

where X is the number of tests rendered by practitioner A in relation to the designated pathology service in respect of which the request mentioned in that paragraph is made.

**6. (5)** Items in Group P10 (Patient episode initiation) do not apply to the second mentioned approved pathology practitioner in subrule (2).

#### **Items not to be split**

**7.** Except as stated in rule 6, the amount specified in an item is payable only to one approved pathology practitioner in respect of a single patient episode.

#### **Creatinine ratios - Group P2 (chemical)**

**8.** A pathology service mentioned in an item (except item 66500) in Group P2 (chemical) that:

(a) involves the measurement of a substance in urine; and

(b) requires calculation of a substance/creatinine ratio;

is taken to include the measurement of creatinine necessary for the calculation.

#### **Thyroid function testing**

**9. (1)** For item 66719:

***abnormal level of TSH*** means a level of TSH that is outside the normal reference range in respect of the particular method of assay used to determine the level.

**9. (2)** Except where paragraph (a) of item 66719 is satisfied, the amount specified in the item is not payable in respect of a pathology service described in the item unless the pathologist who renders the service has a written statement from the medical practitioner who requested the service that satisfies subrule (3).

**9. (3)** The written statement from the medical practitioner must indicate:

(a) that the tests are required for a particular purpose, being a purpose specified in paragraph (b) of item 66719; or

(b) that the medical practitioner who requested the tests suspects the patient has pituitary dysfunction; or

(c) that the patient is on drugs that interfere with thyroid hormone metabolism or function.

### Meaning of "serial examinations or cultures"

10. For an item in Group P3 (Microbiology):

(a) *serial examinations or cultures* means a series of examinations or cultures requested on 1 occasion whether or not:

- (i) the materials are received on different days by the approved pathology practitioner; or
- (ii) the examinations or cultures were requested on 1 or more request forms by the treating practitioner; and

(b) if:

- (i) tests are carried out in relation to a patient episode; and
- (ii) specimen material from the patient episode is stored; and

(iii) in response to a request made within 14 days of the patient episode, further tests are carried out on the stored material;

the later tests and the earlier tests are taken to be part of one patient episode.

### Investigation for hepatitis serology

11. A medicare benefit is not payable in respect of more than one of items 69475, 69478 and 69481 in a patient episode.

### Tests in Group P4 (Immunology) relating to antibodies

12. For items in Group P4 (Immunology), in items 71119, 71121, 71123 and 71125, if:

- (a) tests are carried out in relation to a patient episode; and
- (b) specimen material from the patient episode is stored; and
- (c) in response to a request made within 14 days of the patient episode, further tests are carried out on the stored material;

the later tests and the earlier tests are taken to be part of one patient episode.

### Tests on biopsy material - Group P5 (Tissue pathology) and Group P6 (Cytology)

13. (1) For items in Group P5 (Tissue pathology):

(a) *biopsy material* means all tissue received by the Approved Pathology Practitioner:

- (i) from a medical procedure or group of medical procedures performed on a patient at the same time; or
- (ii) after being expelled spontaneously from a patient.

(b) *cytology* means microscopic examination of 1 or more stained preparations of cells separated naturally or artificially from their normal environment by methods recognised as adequate to demonstrate their structure to a degree sufficient to enable an opinion to be formed about whether they are likely to be normal, abnormal but benign, or abnormal and malignant but, in accordance with customary laboratory practice, does not include examination of a blood film and a bone marrow aspirate; and

(c) *separately identified specimen* means an individual specimen collected, identified so that it is clearly distinguished from any other specimen, and sent for testing by or on behalf of the treating practitioner responsible for the procedure in which the specimen was taken.

**13.(2)** For Groups P5 and P6 of the pathology services table, services in Group P6 include any services described in Group P5 on the material submitted for a test in Group P6.

**13.(3)** For subrule (2), any sample submitted for cytology from which a cell block is prepared does not qualify for a Group P5 item.

**13.(4)** If more than 1 of the services mentioned in items 72813, 72816, 72817, 72818, 72823, 72824, 72825, 72826, 72827, 72828, 72830, 72836 and 72838 are performed in a single patient episode, only the fee for the item performed having the highest specified fee is applicable to the services.

**13.(5)** If more than 1 histopathological examinations are performed on separate specimens, of different complexity levels, from a single patient episode, a medicare benefit is payable only for the examination that has the highest schedule fee.

**13.(6)** In items 72813, 72816, 72817, 72818, 72823, 72824, 72825, 72826, 72827, 72828, 72830, 72836 and 72838 a reference to a **complexity level** is a reference to the level given to a specimen type mentioned in Part 4 of this Table.

**13.(7)** If more than 1 of the services mentioned in items 72846, 72847, 72848; 72849 and 72850 or 73059, 73060, 73061, 73064 and 73065 are performed in a single patient episode, a medicare benefit is payable only for the item performed that has the highest scheduled fee.

**13.(8)** If more than 1 of the services mentioned in items 73049, 73051, 73062, 73063, 73066 and 73067 are performed in a single patient episode, only the fee for the item performed having the higher or highest specified fee applies to the services.

**Items in Groups P10 (Patient episode initiation) and P11 (Specimen referred) not to apply in certain circumstances**

**14.(1)** For this rule and items in Groups P10 (Patient episode initiation) and P11 (Specimen referred):

**approved collection centre** has the same meaning as in Part IIA of the Act.

**institution** means a place at which residential accommodation or day care is, or both residential accommodation and day care are, made available to:

- (a) disadvantaged children; or
- (b) juvenile offenders; or
- (c) aged persons; or
- (d) chronically ill psychiatric patients; or
- (e) homeless persons; or
- (f) unemployed persons; or
- (g) persons suffering from alcoholism; or
- (h) persons addicted to drugs; or
- (i) physically or mentally handicapped persons;

but does not include:

- (j) a hospital; or
- (k) a residential aged care home; or

(l) accommodation for aged persons that is attached to a residential aged care home or situated within a residential aged care home.

**prescribed laboratory** means a laboratory operated by:

- (a) the Australian Government; or
- (b) an authority of the Commonwealth; or
- (c) a State or internal Territory; or
- (d) an authority of a State or internal Territory; or
- (e) an Australian tertiary education institution.

**specimen collection centre** has the same meaning as in Part IIA of the Act.

**treating practitioner** has the same meaning as in paragraph 16A(1)(a) of the Act.

**14. (2)** If a service described in an item in Group P10 is rendered by, or on behalf of, an approved pathology practitioner who is a recognised pathologist, the relevant one of those items does not apply to the service if:

(a) the service is rendered upon a request made in the course of a service provided to a public patient in a recognised hospital or when attending an outpatient service of a recognised hospital.

**14. (3)** An item in Group P10 or P11 does not apply to a pathology service to which subsection 16A(7) of the Act applies.

**14. (4)** An item in Group P10 or P11 does not apply to a pathology service unless at least 1 item in Groups P1 to P8 also applies to the service.

**14. (5)** Subject to subrule (7), if one item in Group P10 applies to a patient episode, no other item in the Group applies to the patient episode.

**14. (6)** An item in Group P11 applies only to the approved pathology practitioner or approved pathology authority to whom the specimen mentioned in the item was referred.

**14. (7)** If, in respect of the same patient episode:

(a) services referred to in 1 or more items in Group P5 and 1 or more of Groups P1, P2, P3, P4, P6, P7 and P8 are rendered by an approved pathology practitioner in the laboratory of another approved pathology authority; or

(b) services referred to in 1 or more items in Group P6 and 1 or more of Groups P1, P2, P3, P4, P5, P7 and P8 are rendered by another approved pathology practitioner in the laboratory of another approved pathology authority;

the fee specified in the applicable item in Group P10 is payable to both approved pathology practitioners.

**14. (8)** If more than one specimen is collected from a person on the same day for the provision of pathology services:

(a) in accordance with more than 1 request; and

(b) in or by a single approved pathology authority;

the fee specified in the applicable item in Group P10 applies once only to the services unless an exemption listed in Rule 4 applies or an exemption has been granted under Rule 3 "S4B(3)".

**14. (9)** The amount specified in item 73940 is payable only once in respect of a single patient episode.

### **Application of an item in Group P11 (Specimen referred) to a service excludes certain other items**

**15.** If item 73940 applies to a patient episode, none of the items in Group P10 applies to any pathology service rendered by the approved pathology authority or approved pathology practitioner who claimed item 73940 in respect of the patient episode.

### **Circumstances in which an item in Group P11 (Specimen referred) does not apply**

**16. (1)** An item in Group P11 does not apply to a referral if:

- (a) a service in respect of the same patient episode has been carried out by the referring approved pathology authority; and
- (b) the approved pathology authority to which the referral is made is related to the referring approved pathology authority.

**16. (2)** An approved pathology authority is *related to* another approved pathology authority for subrule (1) if:

- (a) both approved pathology authorities are employed (including employed under contract) by the same person, whether or not the person is also an approved pathology authority; or
- (b) either of the approved pathology authorities is employed (including employed under contract) by the other; or
- (c) both approved pathology authorities are corporations and are related corporations within the meaning of the Corporations Act; or
- (d) the approved pathology authorities are partners (whether or not either or both of the approved pathology authorities are individuals and whether or not other persons are in partnership with either or both of the approved pathology authorities); or
- (e) both approved pathology authorities are operated by the Commonwealth or an authority of the Commonwealth; or
- (f) both approved pathology authorities are operated by the same State or internal Territory or an authority of the same State or internal Territory.

**16. (3)** An item in Group P11 does not apply to a referral if the following common tests are referred either singly or in combination (except if the following items are referred in combination with other items not similarly specified): 65060, 65070, 65120, 66500, 66503, 66506, 66509, 66512, 66536, 66596, 69300, 69303, 69333 or 73527.

### **Abbreviations**

**17. (1)** The abbreviations in Part 4 of this table may be used to identify particular pathology services or groups of pathology services.

**17. (2)** The names of services or drugs not listed in Part 4 of this table must be written in full.

Certain pathology services to be treated as 1 service

**18. (1)** In this rule:

*general practitioner* means a medical practitioner who:

- (a) is not a consultant physician in any specialty; and
- (b) is not a specialist in any specialty.

*set of pathology services* means a group of pathology services:

- (a) that consists of services that are described in at least 4 different items; and
- (b) all of which are requested in a single patient episode; and
- (c) each of which relates to a patient who is not an admitted patient of a hospital; and
- (d) excludes services referred to in an item in Group P10, Group P11, Group P12 or Group P13, items 66900, 69484, 73070, 73071, 73072, 73073, 73074, 73075 or 73076; and
- (e) excludes services described in the following items:

65079, 65082, 65157, 65158, 65166, 65180, 65181, 66606, 66610, 66639, 66642, 66651, 66652, 66663, 66666, 66696, 66697, 66714, 66715, 66723, 66724, 66780, 66783, 66789, 66790, 66792, 66804, 66805, 66816, 66817, 66820, 66821, 66826, 66827, 66832, 66834, 66837, 69325, 69328, 69331, 69379, 69383, 69400, 69401, 69451, 69500, 69484, 69489, 69492, 69497, 69498, 71076, 71090, 71092, 71096, 71148, 71154, 71156, 71169, 71170, 73309, 73312, 73315, 73318, 73321 and 73324;

where those services are performed by an approved pathology practitioner in an accredited pathology laboratory of an approved pathology authority following referral by another approved pathology practitioner in an accredited pathology laboratory of an approved pathology authority which is not **related to** the first mentioned approved pathology authority.

(1A) An approved pathology authority is **related to** another approved pathology authority for the purposes of paragraph 18(1)(e) if that approved pathology authority would be related to the other approved pathology authority for the purposes of rule 16(2).

**18. (2)** If a general practitioner requests a set of pathology services, the pathology services in the set are to be treated as individual pathology services in accordance with this rule.

**18. (3)** If the fee specified in 1 item that describes any of the services in the set of pathology services is higher than the fees specified in the other items that describe the services in the set:

- (a) the pathology service described in the first-mentioned item is to be treated as 1 pathology service; and

- (b) either:

- (i) the pathology service in the set that is described in the item that specifies the second-highest fee is to be treated as 1 pathology service; or

- (ii) if 2 or more items that describe any of those services specify the second-highest fee, the pathology service described in the item that specifies the second-highest fee, and has the lowest item number, is to be treated as 1 pathology service; and

- (c) the pathology services in the set, other than the services that are to be treated as 1 pathology service under paragraphs (a) and (b), are to be treated as 1 pathology service.

**18. (4)** If the fees specified in 2 or more items that describe any of the services in the set of pathology services are the same, and higher than the fees specified in the other items that describe the services in the set:

- (a) the pathology service in the set that is described in the item that specifies the highest fee, and has the lowest item number, is to be treated as 1 pathology service; and

- (b) the pathology service in the set that is described in the item that specifies the highest fee, and has the second-lowest item number, is to be treated as 1 pathology service; and

(c) the pathology services in the set, other than the services that are to be treated as 1 pathology service under paragraphs (a) and (b), are to be treated as 1 pathology service.

**18. (5)** If pathology services are to be treated as 1 pathology service under paragraph (3)(c) or (4)(c), the fee for the 1 pathology service is the highest fee specified in any of the items that describe the pathology services that are to be treated as the 1 pathology service.

### **Hepatitis C viral RNA testing**

**19.** For item 69499 and 69500:

*Hepatitis C sero-positive*, for a patient, means 2 different assays of Hepatitis C antibodies are positive.

*serological status is uncertain*, for a patient, means any result where 2 different assays of Hepatitis C antibodies are inconclusive.

### **Haemochromatosis testing**

**20.** For items 73317 and 73318:

*elevated serum ferritin* for a patient, means a level of ferritin above the normal reference range in respect of the particular method of assay used to determine the level.

### **Nutritional and toxicity metals testing**

**22. (1)** For this rule:

*nutritional metals testing group* means items 66819, 66820, 66821 and 66822.

*metal toxicity testing group* means items 66825, 66826, 66827, 66828, 66831 and 66832.

**22. (2)** An item in the nutritional metals testing group or the metal toxicity testing group does not apply in relation to a service performed if medicare benefits are paid or payable for tests that are performed for the same patient in 3 patient episodes requested within 6 months before the request for that service, under any of:

- (a) that item; or
- (b) the other item in the same group; or
- (c) an item in the other group.

### **Antineutrophil Cytoplasmic Antibody**

**23.** A request for Antineutrophil Cytoplasmic Antibody immunofluorescence test (ANCA) shall be deemed to include requests for antineutrophil proteinase 3 antibody test (PR-3 ANCA) and antimyeloperoxidase antibody test (MPO ANCA) where the immunofluorescence test for ANCA is abnormal, or has been abnormal, or those specific antibodies have been previously detected.

### **Satisfying Requirements Described in Items**

**24.** Unless stated elsewhere in these rules, where an item contains a requirement, this requirement is satisfied if:

- (a) The requirement/s as stipulated in the item descriptor are contained in the request form; or
- (b) The requirement/s as stipulated in the item descriptor were supplied previously in writing to the APA and this documentation is retained by the APA; or
- (c) The results of other laboratory tests performed in the same episode meet the requirement/s as stipulated in the item descriptor; or

(d) The results of laboratory tests that meet the requirement/s as stipulated in the item descriptor are supplied on the request form; or

The results of laboratory tests that meet the requirement/s as stipulated in the item descriptor are contained in the APA's records.

### **Limitation on certain items**

25. (a) For any particular patient, items 66539, 66605, 66606, 66607, 66610, 69380, 69488, 69489, 71075, 71127, 71135 or 71137 is applicable not more than twice in a 12 month period.

(b) For any particular patient, item 66626 is applicable not more than 36 times in a 12 month period.

(c) For any particular patient, items 66655, 66659, 66838, 66841, 69482, 69491, 69499 or 69500 are applicable not more than once in a 12 month period.

(d) For any particular patient, item 66750 or 66751 is applicable not more than once in a pregnancy.

(e) For any particular patient, item 69336 is applicable not more than once in each period of 7 days.

(f) For any particular patient, items 66551, 66660, 69445, 69451, 69483, 71079 or 73523 are applicable not more than 4 times in a 12 month period.

(g) For any particular patient, items 66554, 66830 and 71077 are applicable not more than 6 times in a 12 month period.

(h) For any particular patient, item 66819, 66820, 66821, 66822, 66825, 66826, 66827 or 66828 is applicable not more than 3 times in a 6 month period.

(i) For any particular patient, items 73339 and 73340 are applicable not more than once.

### **Antigen Detection - Group P3 (Microbiology)**

26. If the service listed in 69316, 69317, 69319, 69494, 69495, 69496, 69497 or 69498 is a pathologist determinable service the specialist pathologist is required to record the reasons for determining the need for this service.

27. If the service rendered in 71148, 73320 or 73321 is a pathologist determinable service, the specialist pathologist is required to record the reason for determining the need for this service including the result of the service in 71147.

### **Second Opinion morphology, limitations on items 72858 and 72859**

28.1 Items 72858 and 72859 apply:

(a) only to a service that is covered by:

(i) item 65084 or 65087; or

(ii) item 72813, 72816, 72817, 72818, 72823, 72824, 72825, 72826, 72827, 72828, 72830, 72836 or 72838; or

(iii) an item in Group P6 (other than item 73070, 73071, 73072, 73073, 73074, 73075 or 73076);

and

(b) only if the treating practitioner and the approved pathology practitioner who provided the original opinion on the patient specimen agree that a second opinion is reasonably necessary for diagnostic purposes.

28.2 Items 72858 and 72859 do not apply if the accredited pathology laboratory in which the second opinion is provided is the same laboratory in which the original opinion was provided.

**PN.1.1 Pathology Services in Relation to Medicare Benefits - Outline of Arrangements  
Basic Requirements**

*Determination of Necessity of Service*

The treating practitioner must determine that the pathology service is necessary.

*Request for Service*

The service may only be provided:

- (i) in response to a request from the treating practitioner, including a participating midwife or a participating nurse practitioner, or from another Approved Pathology Practitioner and the request must be in writing (or, if oral, confirmed in writing within fourteen days); or

- (ii) if determined to be necessary by an Approved Pathology Practitioner who is treating the patient.

Services requested by participating midwives and participating nurse practitioners:

- (i) A participating midwife can request the following services:

Items 65060, 65070, 65090 to 65099 (inclusive), 65114, 66500 to 66512 (inclusive), 66545, 66548, 66566, 66743, 66750, 66751, 69303 to 69317 (inclusive), 69324, 69384 to 69415 (inclusive), 73070, 73071, 73075, 73076 and 73529.

- (ii) A participating nurse practitioner can request items in the range 65060 to 73529 (inclusive).

### ***Provision of Service***

The following conditions relate to provision of services:

- (i) the service has to be provided by or on behalf of an Approved Pathology Practitioner;
- (ii) the service has to be provided in a pathology laboratory accredited for that kind of service;
- (iii) the proprietor of the laboratory where the service is performed must be an Approved Pathology Authority;
- (iv) the Approved Pathology Practitioner providing the service must either be the proprietor of the laboratory or party to an agreement, either by way of contract of employment or otherwise, with the proprietor of the laboratory in which the service is provided; and
- (v) no benefit will be payable for services provided by an Approved Pathology Practitioner on behalf of an Approved Pathology Authority if they are not performed in the laboratories of that particular Approved Pathology Authority.

### ***Therapeutic Goods Act 1989***

For any service listed in the MBS to be eligible for a Medicare rebate, the service must be rendered in accordance with the provisions of the relevant Commonwealth and State and Territory laws. Approved Pathology Practitioners have the responsibility to ensure that the supply of medicines or medical devices used in the provision of pathology services is strictly in accordance with the provisions of the *Therapeutic Goods Act 1989*.

## **PN.1.2 Exemptions to Basic Requirements**

### **Satisfying requirements described in pathology service**

Unless the contrary intention appears, a requirement contained in the description of a pathology service in Part 2 is satisfied if:

- (a) for a requirement for information - the information:
  - (i) is included in the request for the service; or
  - (ii) was supplied in writing on an earlier occasion to the approved pathology authority that rendered the service, and has been kept by the approved pathology authority; or
- (b) for a requirement for laboratory test results ; the results are:
  - (i) included in the request for the service; or
  - (ii) obtained from another laboratory test performed in the same patient episode; or
  - (iii) included in results from an earlier laboratory test that have been kept by the approved pathology authority.

### **Services Where Request Not Required**

- (i) a pathologist determinable service. A pathologist-determinable service is a pathology service:
  - (a) that is rendered by or on behalf of an approved pathology practitioner for a person who is a patient of that approved pathology practitioner who has determined that the service is necessary; or
  - (b) that is specified in item 73332, 73336, 73337, 73341, 73342, 73344 or only one immunohistochemistry items 72846, 72847, 72848, 72849, 72850 and 72860 or electronmicroscopy items 72851 and 72852 or immunocytochemistry items 73059, 73060 or 73061, and 73364 to 73383 and is considered necessary by the approved pathology practitioner as a consequence of information resulting from a pathology service contained in tissue examination items 72813 - 72838 or cytology items 73045 - 73051 respectively.

Please note: a written request is required for a service contained in items 72813 to 72838 and items 73045 to 73051.

- (c) that is specified in one of the antigen detection items 69494, 69495 or 69496 is considered necessary by the approved pathology practitioner as a consequence of information provided by the requesting practitioner or by the nature or appearance of the specimen or as a consequence of information resulting from a pathology service contained in items 69303, 69306, 69312, 69318, 69321 and 69345.

Please note: a written request is required for a service contained in items 69303, 69306, 69312, 69318, 69321 and 69345.

- (d) that is specified in item 73320, HLA-B27 typing by nucleic acid amplification, and is considered necessary by the approved pathology practitioner because the results of HLA-B27 typing described in item 71147 are unsatisfactory.
- (e) that is specified in item 73305, detection of mutation of the FMRI gene by Southern Blot analysis where the results in item 73300 are inconclusive.

### **PN.1.3 Circumstances Where Medicare Benefits Not Attracted *Services Rendered by Disqualified Practitioner***

Medicare benefits are not payable for pathology services if at the time the service is rendered, the person, by or on whose behalf the service is rendered, is a person in relation to whom a determination is in force in relation to that class of services. That is, where an Approved Pathology Practitioner has breached an undertaking, and a determination has been made that Medicare benefits should not be paid during a specified period (of up to five years) in respect of specified pathology services rendered by the practitioner.

Note: An Approved Pathology Practitioner may be disqualified for reasons other than a breach of undertaking.

#### ***Certain Pathology Tests Do Not Attract Medicare Benefits***

Certain tests of public health significance do not qualify for payment of Medicare benefits. Examples of services in this category are:

- examination by animal inoculation;
- Guthrie test for phenylketonuria;
- neonatal screening for hypothyroidism (T4/TSH estimation);
- neonatal screening for Cystic Fibrosis;
- neonatal screening for Galactosemia;

- pathology services used with the intention of monitoring the performance enhancing effects of any substance;
- pathology tests carried out on specimens collected from persons occupationally exposed to sexual transmission of disease where the purpose of the collection of specimens is for testing in accordance with conditions determined by the health authority of the State or Territory in which the service is performed.

In addition to the above, certain other tests do not qualify for payment of Medicare benefits. These include:

- cytotoxic food testing;
- pathology services performed for the purposes of control estimation, repeat tests (eg. for confirmation of earlier tests on the same specimen, etc);
- preparation of autogenous vaccines;
- tissue banking and preparation procedures;
- pathology services performed on stillborn babies or cadavers;
- pathology services which are performed routinely in association with the termination of pregnancy without there being any indication for the necessity of the services.

However, benefits will be paid for the following pathology tests:

- item 65060 - haemoglobin estimation;
- item 65090 - blood grouping ABO and Rh (D antigen);
- item 65096 - examination of serum for Rh and other blood group antibodies.

## **PN.2.1 Responsibilities of Treating/Requesting Practitioners**

### ***Form of Request***

A treating practitioner may request a pathology service either orally or in writing but oral requests must be confirmed in writing within fourteen days from the day when the oral request was made.

Pathology request forms and combined pathology request/offer to assign forms which are prepared by the pathologists and distributed to requesting practitioners on or after 1 August 2012 must include the minimum information detailed under P.2.2.

All written requests for pathology services should contain the following particulars:

- (i) a description of the individual pathology services, or recognised groups of pathology tests to be rendered (see P.17.4 and the Index for acceptable terms and abbreviations). The description must be sufficient to enable the item in which the service is specified to be identified;
- (ii) the date of request;
- (iii) the name of the requesting practitioner and their practice address or provider number;
- (iv) the patient's name and address;
- (v) details of the hospital status of the patient, as follows (for benefit rate assessment). That is, whether the patient was or will be, at the time of the service and when the specimen is obtained:
  - (a) a private patient in a private hospital, or approved day hospital facility;

- (b) a private patient in a recognised hospital;
- (c) a public patient in a recognised hospital;
- (d) an outpatient of a recognised hospital;

***Offence Not to Confirm an Oral Request***

A requesting practitioner who, without reasonable excuse, does not confirm in writing an oral request within fourteen days of making the oral request is guilty of an offence under the *Health Insurance Act 1973* punishable, upon conviction, by a fine not exceeding \$1,100 (10 Penalty Units in accordance with the Crimes Act 1914), and the request is deemed never to have been made.

The Department of Human Services (DHS) has developed a [Health Practitioner Guideline to substantiate that a valid request existed \(pathology or diagnostic imaging\)](#) which is located on the DHS website.

**PN.2.2 Responsibilities of Approved Pathology Practitioners**

***Form of Request***

There is no official "request in writing" form, and the requesting practitioner's own stationery, or pre-printed forms supplied by Approved Pathology Practitioners/Authorities are acceptable.

For the purposes of Medicare eligible services, the minimum information requirements for a pre-printed pathology request and combined pathology request/offer to assign are detailed within the: *Health Insurance Act 1973*; *Health Insurance Regulations 2018*; and the *Privacy Act 1988*.

The following table presents the minimum details that pre-printed pathology request forms and combined pathology request/offer to assign forms must contain for the purposes of a subsequent Medicare claim:

Requesting Practitioner
a) name
b) practice address or provider number

Patient Details
a) name - surname, first name
b) address
c) date of birth
d) sex
e) Medicare card number
f) hospital status Two acceptable versions are as follows: State the patient's status at the time of the service or when the specimen was collected: OR cross out the statements that do not apply Was or will the patient be, at the time of the service or when the specimen is obtained: (a) a private patient in a private hospital or approved day hospital facility (b) a private patient in a recognised hospital (c) a public patient in a recognised hospital (d) an outpatient of a recognised hospital

Tests Requested
a) an area titled "Tests Requested"

Self Determined (SD)
A tick box is required for SD. This is used when the APP determines that pathologist-determinable tests are necessary. This tick box can be put in the Clinical Notes area.

Mandatory patient advisory statement
One of the following statements: 'Your doctor has recommended that you use (insert name of pathology provider). You are free to choose your own pathology provider. However, if your doctor has specified a particular pathologist on clinical grounds, a Medicare rebate will only be payable if that pathologist performs the service. You should discuss this with your doctor.' 'Your treating practitioner has recommended that you use (insert name of pathology provider). You are free to choose your own pathology provider. However, if your treating practitioner has specified a particular pathologist on clinical grounds, a Medicare rebate will only be payable if that pathologist performs the service. You should discuss this with your treating practitioner.'

Privacy Note
The wording of the note must be: "Privacy Note: The information provided will be used to assess any Medicare benefit payable for the services rendered and to facilitate the proper administration of government health programs, and may be used to update enrolment records. Its collection is authorised by the provisions of the <i>Health Insurance Act 1973</i> . The information may be disclosed to the Department of Health or to a person in the medical practice associated with this claim, or as authorised/required by law." The placement of the note is only necessary on the patient's copy and could be incorporated into the clinical notes area. Alternatively, the back of the patient copy could be used if that is more practicable.

The Department of Human Services (DHS) has developed a [Health Practitioner Guideline to substantiate that a valid request existed \(pathology or diagnostic imaging\)](#) which is located on the DHS website.

Combined Request/Assignment form only
Offer to Assign and Reference to Section 20A
An example of a Section 20A Offer to Assign is as follows: "Medicare Agreement (Section 20A of the Health Insurance Act 1973) I offer to assign my right to benefits to the approved pathology practitioner who will render the requested pathology service(s) and any eligible pathologist determinable service(s) established as necessary by the practitioner. Patient signature _____ Date / /
Practitioners Use Only
A text box is also required for 'Practitioner's Use Only' this section is used where the patient is unable to sign and an appropriate person endorses on behalf of patient, eg. Practitioner's Use Only _____ (Reason patient cannot sign)

An Approved Pathology Practitioner or Approved Pathology Authority who, without reasonable excuse, provides to practitioners (directly or indirectly) combined request/assignment forms which are not in accordance with the legislation is guilty of an offence under the *Health Insurance Act 1973* punishable, upon conviction, by a fine not exceeding 10 Penalty Units (in accordance with the *Crimes Act 1914*).

***Patient Copy***

Assignment of benefits requires the patient to receive a copy of the request. The doctor must cause the particulars relating to the professional service (tests requested) to be set out on the assignment form, before the patient signs the form and cause the patient to receive a copy of the form as soon as practicable after the patient signs it.

***Authority to lodge a Patient Claim electronically***

Where an Approved Pathology Practitioner or Approved Pathology Authority renders a service and the patient has not assigned the benefit the Approved Pathology Practitioner or Approved Pathology Authority can lodge a claim electronically to the Department of Human Services on behalf of the patient where consent is provided. This consent can be provided verbally.

***Combined Online Patient Claiming Authority***

*Authority for APP/APA to submit an electronic patient claim on behalf of the claimant*

An example of wording that could be used is:

'I authorise the approved pathology practitioner who will render the requested pathology services, and any further pathology services which the practitioner determines to be necessary, to submit my unpaid account to Medicare, so that Medicare can assess my claim and issue me a cheque made payable to the practitioner, for the Medicare benefit.'

Patient Signature \_\_\_\_\_ Date \_\_\_\_/\_\_\_\_/\_\_\_\_

Verbal consent was provided by patient to submit unpaid account to Medicare. No signature available.

***Request to Approved Pathology Authority***

It is acceptable for a request to be made to an Approved Pathology Authority who is the proprietor or one of the proprietors of a laboratory instead of making the request to the Approved Pathology Practitioner who renders the service or on whose behalf the service is rendered.

***Holding, Retention, Recording and Production of Request Forms***

Approved Pathology Practitioners must hold a request in writing for all services requested by any other practitioner before billing patients. An Approved Pathology Practitioner is required to retain written requests/confirmation of requests for pathology services for 2 years from the day when the service was rendered. This also applies to requests which an Approved Pathology Practitioner receives of which only some tests are referred to another Approved Pathology Practitioner (the first Approved Pathology Practitioner would retain the request for 2 years). If all tests were referred, the second pathologist would retain the original request.

If the written request or written confirmation has been recorded on film or other magnetic medium approved by the Minister for Health and Ageing, for the purposes of storage and subsequent retrieval, the record so made shall be deemed to be a retention of the request or confirmation. The production or reproduction of such a record shall be deemed to be a production of the written request or written confirmation.

An Approved Pathology Practitioner or an Approved Pathology Authority is required to produce, on request from the Department of Human Services CEO, no later than the end of the day following the request from the CEO, a written request or written confirmation retained pursuant to the above paragraphs. An employee of the Department

of Human Services is authorised to make and retain copies of or take and retain extracts from written requests or written confirmations.

### ***Offences in Relation to Retaining and Producing Request Forms***

The following offences are punishable upon conviction by a fine not exceeding 10 penalty units:

- i. an Approved Pathology Practitioner who, without reasonable excuse, does not keep request forms for 2 years;
- ii. an Approved Pathology Practitioner who, without reasonable excuse, does not produce a request form to an employee of the Department of Human Services before the end of the day following the day of the Department of Human Services CEO's request;
- iii. an Approved Pathology Authority which, without reasonable excuse, does not keep request forms for 2 years;
- iv. an Approved Pathology Authority which, without reasonable excuse, does not produce a request form to an employee of the Department of Human Services before the end of the day following the day of the Department of Human Services CEO's request.

### ***Referral From An Approved Pathology Practitioner To Another Approved Pathology Practitioner***

Where an Approved Pathology Practitioner refers some or all services requested to another Approved Pathology Practitioner not associated with the same Approved Pathology Authority the following apply:

- i. where all the services are referred, the first Approved Pathology Practitioner should forward the original request to the second Approved Pathology Practitioner, and the document bearing the patient's assignment voucher so that the second Approved Pathology Authority can direct-bill Medicare;
- ii. where some of the services which are listed in different items in the Schedule are referred, the first Approved Pathology Practitioner must issue his/her own request in writing listing the tests to be performed, and when necessary, forward a photocopy of the patient's assignment voucher so that the second Approved Pathology Authority can direct-bill Medicare

in addition to the details of the first Approved Pathology Practitioner, the second Approved Pathology Practitioner must show on the account/receipt/assignment form:

- a. name and provider number of the original requesting practitioner; and
  - b. date of original request;
- iii. under the item coning rules (which limit benefits for multiple services) only one Medicare benefit is payable for services included in coned items except for estimations covered by Rule 6 entitled "designated pathology services". The exemption allows payment of more than one Medicare benefit where various components of the one item number from the same request e.g. drug assays (items 66800 and 66812) are performed by two Approved Pathology Authorities.

Although the provisions concerning designated pathology services in Rule 6 permit similar services (e.g. hormone estimations) to be performed by 2 or more laboratories, with different Approved Pathology Authorities, the sum of the Medicare benefit payable for services provided by the laboratories concerned will not exceed the maximum amount payable under the item coning rules when a single laboratory performs all the estimations.

Notes:

- i. the patient should be billed by each Approved Pathology Practitioner only for those services rendered by or on his/her behalf;
- ii. photocopies of requests are not acceptable;
- iii. in the case of "designated pathology services" 65150, 65175, 66650, 66695, 66711, 66722, 66785, 66800, 66812, 66819, 66825, 69384, 69494, 71089, 71153 or 71165 a patient episode initiation fee (PEI) is payable for the services provided by the laboratory which receives the original request and performs one or more of the estimations. However, no PEI is payable for services provided by the other laboratory which performs the remainder of the estimations. A "specimen referred fee" is payable instead. One Approved

Pathology Practitioner cannot claim both a PEI and a "specimen referred fee" in relation to the same patient episode.

### ***Offence Not To Confirm An Oral Request***

An Approved Pathology Practitioner who, without reasonable excuse, does not confirm in writing an oral request to another Approved Pathology Practitioner within fourteen days of making the oral request is guilty of an offence under the *Health Insurance Act 1973* punishable, upon conviction, by a fine not exceeding 10 Penalty Units (in accordance with the *Crimes Act 1914*), and the request is deemed never to have been made.

### **PN.2.3 Pathology Tests not Covered by Request**

An Approved Pathology Practitioner, who has been requested to perform one or more pathology services, may consider it necessary, in the interest of the patient, that additional tests to those requested be carried out. The Approved Pathology Practitioner must discuss this need with the requesting practitioner, and if the requesting practitioner determines that additional tests are necessary, the Approved Pathology Practitioner must arrange with the requesting practitioner to forward an amended or second request for those services. The account will then be issued in the ordinary way and the additional services will attract benefits providing the Approved Pathology Practitioner is a recognised specialist pathologist.

### **PN.3.1 Details Required on Accounts, Receipts or Assignment Forms General**

Medicare benefit is not payable in respect of a pathology service unless specified details are provided, by the practitioner rendering the service, on his or her account, receipt or assignment form.

### **PN.3.2 Approved Pathology Practitioners**

In addition to holding a request in writing from the treating medical or dental practitioner or from another Approved Pathology Practitioner, the following additional details must be recorded on the account, receipt or assignment form of the Approved Pathology Practitioner providing the service:

- (i) the surname and initials of the Approved Pathology Practitioner who performed the service and either his/her practice address or the provider number for the address;
- (ii) the name of the person to whom the service was rendered;
- (iii) the date on which the service was rendered;
- (iv) the name of the requesting practitioner; or in the case of a referred test, the name of the original requesting practitioner;
- (v) the date on which the request was made; or in the case of a referred test, the date on which the original request was made;
- (vi) the requesting practitioner's provider number;
- (vii) a description of the pathology service in words which are derived from the item description in the Schedule and are of sufficient detail to identify the specific test in the Schedule that was rendered. Instead of such a full description, the abbreviations contained in the index and the group abbreviations listed at PQ.4 are acceptable alternatives (see PQ.1);
- (viii) where the Approved Pathology Practitioner determines or provides a pathology service on his/her own patient, the account must be endorsed "sd"; and
- (ix) provide collection centre identification number if the specimen was collected in a licensed collection centre (or approved pathology collection centre).

Where some services are referred from one Approved Pathology Practitioner to another Approved Pathology Practitioner, the request details to be shown on the second Approved Pathology Practitioner's account, receipt or assignment form must be identical to those of the original requesting practitioner including the date of request.

### **PN.3.3 Prescribed Pathology Services**

For Prescribed Pathology Services (that is, pathology items in Group P9) the medical practitioner who renders the service must ensure his or her account, receipt or assignment form includes his or her name, address or provider number, the date of the service, and a description to clearly identify the service in the Schedule that was rendered.

If the service was determined necessary by another medical practitioner who is a member of the same group practice as the practitioner who rendered the service, the name of the requesting practitioner, sufficient to identify the practitioner from other practitioners in the same group practice with the same surname, must also be included together with the date on which the request was made.

### **PN.3.4 Interferon Gamma Release Assay (IGRA) for detection of latent tuberculosis - (Item 69471)**

Before undertaking testing it is advisable to consult with a medical practitioner experienced in the management of tuberculosis. Neither IGRA tests or the tuberculin skin test (Mantoux) can absolutely exclude latent tuberculosis and following close contact exposure preventative therapy should always be considered in young children and immunosuppressed patients.

IGRA testing for the diagnosis of latent tuberculosis should be requested in compliance with recommendations made by the National Tuberculosis Advisory Committee in 2016 or later.

<http://www.health.gov.au/internet/main/publishing.nsf/Content/cdna-ntac-pubs.htm> including:

- IGRAs have no place in the initial investigation of active TB disease and cannot and should not be used to exclude suspected TB disease.
- IGRA should not be used for the purpose of screening prior to BCG vaccination.
- While IGRA tests can be used in children less than 5 years of age, there may be a higher proportion of indeterminate test results and tuberculin skin testing is preferred, unless there is a history of BCG.

At least eight weeks should elapse following last possible TB exposure before testing of a contact of a confirmed case of active tuberculosis – testing of contacts should be performed only after discussion with appropriate State or Territory public health authorities.

### **PN.3.5 Non-Public Health Laboratory Network laboratory use of item 69480**

Accredited pathology laboratories providing or planning to provide clinical diagnostic testing and reporting for SARS-CoV-2 (MBS item 69480 and 69479) must be enrolled and participate in a relevant External Quality Assurance Program for testing methods.

The Royal College of Pathologists of Australasia (RCPA) Quality Assurance Programs offers a SARS-CoV-2 Quality Assurance Program. Further details can be found at this link: <https://rcpaqap.com.au>

In addition, it is recommended that laboratories:

- a) Access and utilise positive control material provided by a state or territory reference laboratory (usually a Public Health Laboratory Network (PHLN) laboratory); and
- b) Arrange for parallel testing to be conducted by a PHLN laboratory to validate the results. This means referring all positive samples for confirmatory testing until a level of confidence is reached, determined by the jurisdictional PHLN laboratory; referring a subset of negative samples where a strong clinical or epidemiological suspicion exists; and referring all indeterminate samples for confirmatory testing.

### **PN.3.6 Note for item 69501**

Item 69501 - Detection of a SARS-CoV-2 nucleic acid 1 or more tests - is restricted to people employed, hired, retained or contracted;

- i. by an approved aged care provider, or are working in an aged care service in Victoria; or
- ii. to travel interstate as a driver of a heavy vehicle; or
- iii. to travel interstate as a rail crew member.

Results of the tests must be provided within 24 hours of receipt of the specimen to all appropriate authorities in accordance with relevant state or territory legislation or regulations.

The test can only be performed out of hospital by a private pathology provider.

The test must bulk-billed. PEI and bulk billing items cannot be claimed with this item.

A request from a medical practitioner is not necessary for a private pathology provider to perform this service.

### **PN.4.1 Inbuilt Multiple Services Rule**

The term "Multiple Services Rule" (Rule 3 of the Pathology Services Table) describes an arrangement which places limits on the benefits payable for items in the Pathology Services Table depending on the range of services performed during a single patient episode. A patient episode is defined in PO.4 of these notes.

### **PN.4.2 Exemptions**

Under Rule 4 of the Pathology Services Table, exemptions to the multiple services rule have been granted for certain specified tests. In some circumstances tests which are repeated up to 6 times over a 24 hour period, or tests which are requested up to 6 times on a single request form and are performed within 6 months of the date of request may be eligible for separate Medicare benefits. The services to which the exemptions apply are listed under Rule 4.(1 and 2) and cover seriously or chronically ill patients who require particular tests under specified circumstances. In order to claim the exemptions, accounts should be endorsed "Rule 3 Exemption".

Where a practitioner seeks an exemption to the multiple services rule for a patient whose condition requires a series of pathology investigations at various times throughout any one day or over a longer period of time, and the services required are not exempted under Rule 4, an application for exemption can be made which is endorsed "S4B(3)". Some factors that the delegate of the Minister may take into consideration in approving an exemption are: the patient is seriously ill; there are distinct and separate collections and performances of tests; and the services involve substantial additional expenses for the Approved Pathology Practitioner. These, and other clinical details, should be supplied by the practitioner when seeking an S4B(3) exemption.

If Rule 3 exemptions are endorsed "S4B(3)", claim assessment could take longer as all S4B(3) claims are passed to the delegate for assessment. S4B(3) covers all exemptions to the multiple services rule but, where applicable, specific "Rule 3 exemption" endorsements will speed up the payment of claims. Rule 3 and S4B(3) exemptions cannot be used to overcome time based restrictions within items e.g. "-. each test to a maximum of 4 tests in a 12 month period".

### **PN.5.1 Episode Cone Description of Rule 18**

The term "Episode Cone" describes an arrangement under which Medicare benefits payable in a patient episode for a set of pathology services, containing more than three items, ordered by a general practitioner for a non-hospitalised

patient, will be equivalent to the sum of the benefits for the three items with the highest Schedule fees. Further information on the episode coning arrangements is provided in PO.5 of these notes.

### **PN.5.2 Exemptions**

Some items are not included in the count of the items performed when applying episode coning. The items which have been exempted from the cone include all the items identified in Rule 18.(1)(d) and (e).

### **PN.6.1 Bulk Billing Incentives for Episodes Consisting of a P10 Service**

The Fees for items in Group P13 are additional payments for bulk billing a patient episode consisting of a pathology service to which a Group P10 item (Pathology Episode Initiation fee) applies.

### **PN.6.2 Patient Episode Initiation Fees (PEIs)**

Items in Groups P10 of the Pathology Services Table are only applicable to services performed:

- (i) by or on behalf of an Approved Pathology Practitioner who is a recognised specialist pathologist; and
- (ii) in private practice.

Accordingly, these fees are not payable for pathology services rendered by an Approved Pathology Practitioner, being a specialist pathologist when requested for a privately referred out-patient of a recognised hospital.

The patient episode initiation fees (PEIs) will be applicable on an episodic basis i.e. a claim may be made for the provision of pathology services requested by a practitioner in respect of one individual on the same day. For example, if a practitioner orders three pathology tests for a person on the one day, Medicare benefits will be payable for each of those tests but only one PEI will be applicable.

This Rule applies even when the treating practitioner has requested pathology tests from two or more Approved Pathology Practitioners. Thus a PEI will only be paid for the first account submitted unless an exemption listed in Rule 4 or 14.(7) applies or an exemption has been granted under "S4B(3)".

Under Rule 14.(7) two PEIs are payable in relation to the same patient episode where a referring practitioner refers two different specimens to two different Approved Pathology Authorities in the following circumstances:

- a tissue pathology specimen and any other non-tissue pathology specimen; or
- a cytopathology specimen and any other non-cytopathology specimen.

Rule 14.(8) also provides that only one PEI will be paid for the collection of specimens from a patient on one day in or by a single Approved Pathology Authority.

The patient episode initiation benefits are two-tiered. Higher benefits are paid for the collection of specimens from patients who are not private inpatients or private outpatients of a recognised hospital where the specimens are tested in a private laboratory.

A lower and uniform PEI benefit is paid where patients are private patients associated with a recognised hospital and the specimens are tested in a private laboratory or where the testing is performed by a prescribed laboratory on specimen collected from a patient eligible to claim Medicare benefits.

### **PN.6.3 Patient Episode Initiation Fees for Certain Tissue Pathology and Screening Items**

Tissue Pathology items 72813, 72816, 72817, 72818, 72823, 72824, 72825, 72826, 72830 and 72836 and Cervical screening items 73070, 73071, 73072, 73073, 73074, 73075, 73076 will be subject to a different patient episode initiation fee structure - items 73922 to 73939 refer.

#### **PN.6.4 Hospital, Government etc Laboratories**

The following laboratories have been prescribed for the purposes of payment of Medicare benefits as outlined in paragraphs PF.2 and PF.3:

- (i) laboratories operated by the Australian Government (these include health laboratories operated by the Australian Government Department of Health as well as the laboratories operated by other Departments, e.g. the Departments of Defence and Veterans' Affairs operate laboratories from which pathology services are provided);
- (ii) laboratories operated by a State Government or authority of a State (laboratories operated or associated with recognised hospitals are also included);
- (iii) laboratories operated by the Northern Territory and the Australian Capital Territory; and
- (iv) laboratories operated by Australian tertiary education institutions eg Universities.

#### **PN.7.1 Assignment of Medicare Benefits - Patient Assignment**

In addition to the general arrangements relating to the assignment of benefits, as outlined at paragraph 7 of the "General Explanatory Notes" in Section 1 of this book, it should be noted that, where the treating practitioner requests pathology services but the patient does not physically attend the Approved Pathology Practitioner, the patient may complete an assignment voucher at the time of the visit to the requesting doctor offering to assign benefits for the Approved Pathology Practitioner's services.

If an Approved Pathology Practitioner refers some of the tests requested by the treating practitioner to another Approved Pathology Authority, he/she should provide the second Approved Pathology Authority with a photocopy of the patient's assignment voucher so that the second Approved Pathology Authority can also direct-bill Medicare.

#### **PN.7.2 Approved Pathology Practitioner Eligibility**

If a practitioner requests an Approved Pathology Practitioner to perform a necessary pathology service, that Approved Pathology Practitioner must personally perform the service or have it performed on his/her behalf in order to be eligible to receive benefits by way of assignment. If, however, the first Approved Pathology Practitioner arranges for the service to be rendered by a second Approved Pathology Practitioner with the same Approved Pathology Authority, the second Approved Pathology Practitioner and not the first, is eligible to receive an assignment of the Medicare benefit for the service in question.

#### **PN.7.3 Cystic fibrosis gene testing**

- (1) For any particular patient, item 73345, 73347, 73348 and 73349 is applicable not more than once in a lifetime.
- (2) For any particular patient, item 73346 and 73350 is applicable not more than once in a pregnancy.
- (3) The testing laboratory used to undertake tests for items 73345, 73346, 73347, 73348, 73349 and 73350 must use a cystic fibrosis transmembrane conductance regulator methodology appropriate to the clinical setting with:
  - (a) sufficient diagnostic range and sensitivity to detect at least 95% of pathogenic cystic fibrosis transmembrane conductance regulator variants likely to be present in the patient; and
  - (b) with at least 25 of the most frequently encountered cystic fibrosis transmembrane conductance regulator variants in the Australian population.

#### **PN.7.4 Intellectual disability or global developmental delay**

Intellectual disability or global developmental delay of at least moderate severity, to be determined by a specialist paediatrician according to Diagnostic and Statistical Manual of Mental Disorders (DSM) criteria.

#### **PN.8.1 Accredited Pathology Laboratories - Need for Accreditation**

A pathology service will not attract Medicare benefits unless that service is provided in a pathology laboratory which is accredited for that kind of service. Details of the administration of the pathology laboratory accreditation arrangements are set out below.

### **PN.8.2 Applying for Accreditation**

To become an Accredited Pathology Laboratory it is necessary to lodge a completed application form with the Manager, Pathology Section, the Department of Human Services, PO Box 1001, TUGGERANONG ACT 2901. The prescribed fees for Approved Pathology Laboratories are:

- \$2500 for Category GX labs
- \$2000 for Category GY labs
- \$1500 for Category B labs
- \$ 750 for Category M & S labs.

It is necessary for an application for inspection be made to the National Association of Testing Authorities (NATA) NATA is the independent body chosen to act on the Australian Government's behalf as the primary inspection agency. The Royal Australian College of General Practitioners (RACGP) has also been appointed to inspect laboratories in Category M (general practitioner) in Victoria only.

Details of laboratory categories and associated supervisory requirements can be found on the Department's internet site ([www.health.gov.au/pathology](http://www.health.gov.au/pathology)).

### **PN.8.3 Effective Period of Accreditation**

Accreditation takes effect from the date of approval by the Minister for Health and Ageing. The Minister has no power to backdate an approval. Transitional accreditation may be given pending full accreditation. An application and fee are required annually.

### **PN.8.4 Assessment of Applications for Accreditation**

The principles of accreditation for pathology laboratories as determined by the Minister are used to assess applications for accreditation. These principles also require pathology laboratories to address National Pathology Accreditation Advisory Council standards. Copies of the principles and standards are available from the Secretariat, National Pathology Accreditation Advisory Council (see PH.6) on (02) 6289 4017 or email [npaac@health.gov.au](mailto:npaac@health.gov.au).

### **PN.8.5 Refusal of Accreditation and Right of Review**

An applicant who has been notified of the intention to refuse accreditation may, within 28 days of being notified, provide further information to the Minister which may be taken into consideration prior to a final decision being made.

Applicants refused accreditation or any person affected by the decision have the right to appeal to the Administrative Appeals Tribunal.

### **PN.8.6 National Pathology Accreditation Advisory Council (NPAAC)**

NPAAC was established in 1979. Its functions are to develop policy for accreditation of pathology laboratories, introduce and maintain uniform standards of practice in pathology services throughout Australia and initiate and coordinate educational programs in relation to pathology practice. The agencies used to inspect laboratories on the Australian Government's behalf are required to conduct inspections using the standards set down by NPAAC. For further information the NPAAC Secretariat can be contacted on (02) 6289 4017 or email [npaac@health.gov.au](mailto:npaac@health.gov.au).

### **PN.8.7 Change of Address/Location**

Laboratories are accredited for the particular premises given on the application form. Where a laboratory is relocated to other premises, any previously issued approvals for that Accredited Pathology Laboratory lapse. Medicare benefits are not payable for any pathology services performed at the new location until a new application has been approved by the Minister for Health and Ageing. Paragraph PH.2 sets out the method for applying for accreditation.

#### **PN.8.8 Change of Ownership of a Laboratory**

Part of the assessment of an application for an Accredited Pathology Laboratory relates to the Approved Pathology Authority status. Where the ownership, or some other material change occurs affecting the laboratory, the Minister for Health and Ageing must be provided with those changed details. Medicare benefits will not be payable for any pathology services performed on any premises other than those premises for which approval has been given.

#### **PN.8.9 Approved Collection Centres (ACC)**

New arrangements for specimen collection centres commenced on 1 December 2001 and replaced the Licensed Collection Centre (LCC) Scheme.

To enable the payment of Medicare benefits for pathology services performed on pathology specimens collected in a collection centre, the centre must first be approved. The exception to this rule is collection centres on the premises of recognised hospitals (recognised hospital in this context means the same as "recognized hospital" in Part 1 Section 3 of the Health Insurance Act 1973) as they do not need approval.

In order for a collection centre to be approved, a public or private Approved Pathology Authority must submit a completed application form to the Department of Human Services including details of the type of application (renewal, new or cancellation of collection centre), the location of the premises, the owner, and any leasing arrangements.

Application forms can be accessed by going to the [Department of Human Services website](#). Completed application forms and any enquiries should be forwarded to Pathology Registration, PO Box 9822 MELBOURNE VIC 3001.

#### **PN.9.1 Approved Pathology Practitioners**

##### **Introduction**

A pathology service will not attract Medicare benefits unless that service is provided by or on behalf of an Approved Pathology Practitioner. (Approved Pathology Practitioners must be registered medical practitioners.) Set out below is information which relates to Approved Pathology Practitioner requirements.

#### **PN.9.2 Applying for Acceptance of the Approved Pathology Practitioner Undertaking**

To apply for acceptance of an Approved Pathology Practitioner Undertaking, it is necessary to send:

- (i) a completed application for acceptance of an Approved Pathology Practitioner Undertaking; and
- (ii) a signed Approved Pathology Practitioner Undertaking to the Pathology Registration, the Department of Human Services,

PO Box 9822, Melbourne Victoria 3001.

An application form, undertaking and associated literature can be obtained from the Pathology Registration Coordinator.

##### **Payment of Acceptance Fee**

On receipt of advice that the Minister has accepted an undertaking, a cheque for \$500 should be sent to the Pathology Registration Coordinator. Applicants are required to pay this fee within 14 days of the notice being

given. As there is no discretion under the *Health Insurance Act 1973* to accept late payments, failure to pay the fee within the required time means that:

- (i) acceptance of the undertaking will be revoked;
- (ii) a new application must be completed;
- (iii) acceptance of the new undertaking cannot be backdated; and
- (iv) there will therefore be a period during which Medicare benefits cannot be paid.

### **PN.9.3 Undertakings**

#### Consideration of Undertakings

The Minister is unable to accept an undertaking from a person in respect of whom there is a determination in force that the person has breached the undertaking, or from a person who, if the undertaking were accepted, would be likely to carry on the business of a prescribed person or would enable a person to avoid the financial consequences of the disqualification (or likely disqualification) of that prescribed person. A 'prescribed person' includes, amongst other things, fully or partially disqualified persons (or persons likely to be so disqualified).

Similarly an undertaking cannot be accepted unless the Minister is satisfied that the person giving such undertaking is a fit and proper person to be an Approved Pathology Practitioner.

When an undertaking has been given, the Minister may require the person giving the undertaking to provide additional information within a fixed period of time and if the person does not comply the Minister may refuse to accept the undertaking.

#### Refusal of Undertaking and Rights of Review

Where the Minister refuses to accept an undertaking, for any of the reasons shown above, the Minister must notify the person of the decision. The notification must include advice of a right of internal review of the decision and a right of further appeal to the Administrative Appeals Tribunal if the internal review upholds the original decision to refuse the undertaking.

#### Effective Period of Undertaking

The following applies:

- (i) **Date of Effect** the earliest day from which the Minister or delegate can accept an undertaking is the day of the decision in respect of the undertaking. The day the undertaking is signed is to be the day it is actually signed and must not be backdated;
- (ii) **Period of Effect** in determining the period of effect of the undertaking the Minister shall, unless the Minister considers that special circumstances exist, determine that the period of effect shall be twelve months from the day on which the undertaking comes into force. There is a requirement for the Minister to notify persons giving undertakings of the period of time for which the undertaking is to have effect, and the notice is to advise persons whose interests are affected by the decision of their rights of appeal to the Administrative Appeals Tribunal against the Minister's decision;
- (iii) **Renewals** when an undertaking is given and accepted by the Minister while a former undertaking is current, the new undertaking does not take effect until the former undertaking ceases to be in force. When an undertaking is given while a former undertaking is current and the date on which the former undertaking is to expire passes without the Minister giving notice to accept or reject the new undertaking, the former undertaking remains in force until the Minister gives such notification. This provision does not apply when the renewal application is not received by the Department of Human Services until after the expiry of the existing undertaking. Under these circumstances there will be a period during which Medicare benefits cannot be paid unless the new application can

be backdated to the expiry of the previous undertaking. This is a limited discretion for periods up to one month and special conditions apply; and

(iv) Cessation of Undertaking the undertaking ceases to be in force if it is terminated, if the Minister revokes acceptance of the undertaking, or if the period of effect for the undertaking expires whichever event first occurs.

An Approved Pathology Practitioner may terminate an undertaking at any time providing that the practitioner gives at least 30 days notice of his/her intention to do so.

#### **PN.9.4 Obligations and Responsibilities of Approved Pathology Practitioners**

The requirements of the legislation and the undertaking impose a number of obligations and responsibilities on Approved Pathology Practitioners and the Minister. The more complex of these not already dealt with are considered in PK, PL and PM dealing with Breaches of Undertakings, Excessive Pathology Services and Personal Supervision.

#### **PN.10.1 Approved Pathology Authorities**

##### **Introduction**

A pathology service will not attract Medicare benefits unless the proprietor of the laboratory in which the pathology service is performed is an Approved Pathology Authority. Following is information which relates to Approved Pathology Authority requirements.

#### **PN.10.2 Applying for Acceptance of an Approved Pathology Authority Undertaking**

To apply for acceptance of an Approved Pathology Authority Undertaking, it is necessary to send:

- (i) a completed application for acceptance of an Approved Pathology Authority Undertaking; and
- (ii) a signed Approved Pathology Authority Undertaking to the Pathology Registration, the Department of Human Services,

PO Box 9822, Melbourne Victoria 3001.

An application form, undertaking and associated literature can be obtained from the Pathology Registration Coordinator.

##### **Payment of Acceptance Fee**

On receipt of advice that the Minister has accepted an undertaking, a cheque for \$1,500 should be sent to the Pathology Registration Coordinator. Applicants are required to pay this fee within 14 days of the notice being given. As there is no discretion under the *Health Insurance Act 1973* to accept late payments, failure to pay the fee within the required time means that:

- (i) acceptance of the undertaking will be revoked;
- (ii) a new application must be completed;
- (iii) acceptance of the new undertaking cannot be backdated; and
- (iv) there will therefore be a period during which Medicare benefits cannot be paid.

#### **PN.10.3 Undertakings**

##### **Consideration of Undertakings**

The Minister is unable to accept undertakings from a person in respect of whom there is a determination in force that the person has breached the undertaking, or from a person who, if the undertaking were accepted, would be likely to

carry on the business of a prescribed person or would enable a person to avoid the financial consequences of the disqualification (or likely disqualification) of that prescribed person. A 'prescribed person' includes, inter alia, fully or partially disqualified persons (or persons likely to be so disqualified).

Similarly an undertaking cannot be accepted unless the Minister is satisfied that the person giving such undertaking is a fit and proper person to be an Approved Pathology Authority.

When an undertaking has been given the Minister may require the person giving the undertaking to provide additional information within a specified period of time and if the person does not comply the Minister may refuse to accept the undertaking.

#### Refusal of Undertaking and Rights of Review

Where the Minister refuses to accept an undertaking, the Minister must notify the person of the decision. The notification must include advice of a right of internal review of the decision and a right of further appeal to the Administrative Appeals Tribunal if the internal review upholds the original decision to refuse the undertaking.

#### Effective Period of Undertaking

The following applies:

- (i) **Date of Effect** the earliest day from which the Minister or delegate can accept an undertaking is the day of the decision in respect of the undertaking. The day the undertaking is signed is to be the day it is actually signed and must not be backdated;
- (ii) **Period of Effect** in determining the period of effect of the undertaking the Minister shall, unless the Minister considers that special circumstances exist, determine that the period of effect shall be twelve months from the day on which the undertaking comes into force. There is a requirement for the Minister to notify persons giving an undertaking of the period of time for which the undertaking is to have effect, and the notice is to advise persons whose interests are affected by the decision of their rights of appeal to the Administrative Appeals Tribunal against the Minister's decision;
- (iii) **Renewals** when an undertaking is given and accepted by the Minister while a former undertaking is current, the new undertaking does not take effect until the former undertaking ceases to be in force. When an undertaking is given while a former undertaking is current and the date on which the former undertaking is to expire passes without the Minister giving notice to accept or reject the new undertaking, the former undertaking remains in force until the Minister gives such notification. This provision does not apply when the renewal application is not received by the Department of Human Services until after the expiry of the existing undertaking. Under these circumstances there will be a period during which Medicare benefits cannot be paid unless the new application can be backdated to the expiry of the previous undertaking. This is a limited discretion for periods up to one month and special conditions apply; and
- (iv) **Cessation of Undertaking** the undertaking ceases to be in force if it is terminated, if the Minister revokes acceptance of the undertaking, or if the period of effect for the undertaking expires whichever event first occurs.

An Approved Pathology Authority may terminate an undertaking at any time providing that at least 30 days notice of the intention to terminate the undertaking is given.

### **PN.10.4 Obligations and Responsibilities of Approved Pathology Authorities**

The requirements of the legislation and the undertaking impose a number of obligations and responsibilities on Approved Pathology Authorities and the Minister. The more complex of these which have not already been covered are considered in paragraphs PK and PL dealing with Breaches of Undertakings and Excessive Pathology Services.

#### **PN.11.1 Breaches of Undertakings**

##### **Notice Required**

Where the Minister has reasonable grounds for believing that an Approved Pathology Practitioner or an Approved Pathology Authority has breached the undertaking, the Minister is required to give notice in writing to the person explaining the grounds for that belief and inviting the person to put a submission to the Minister to show cause why no further action should be taken in the matter.

### **PN.11.2 Decisions by Minister**

Where a person provides a submission, the Minister may decide to take no further action against the person. Alternatively the Minister may refer the matter to a Medicare Participation Review Committee, notifying the grounds for believing that the undertaking has been breached. If after 28 days no submission has been received from the person, the Minister must refer that matter to the Committee.

### **PN.11.3 Appeals**

The Minister is empowered to suspend an undertaking where notice has been given to a Medicare Participation Review Committee of its possible breach, pending the outcome of the Committee's proceedings. The Minister must give notice in writing to the person who provided the undertaking of the determination to suspend it, and the notice shall inform the person of a right of appeal against the determination to the Administrative Appeals Tribunal. The Minister may also publish a notice of a determination in the Public Service Gazette. Rights of appeal to the Administrative Appeals Tribunal also exist in respect of any determination made by a Medicare Participation Review Committee.

### **PN.12.1 Initiation of Excessive Pathology Services Notice Required**

Where the Minister has reasonable grounds for believing that a person, of a specified class of persons, has initiated, or caused or permitted the initiation of excessive pathology services the Minister is required to give notice in writing to the person explaining the grounds for the belief and inviting the person to put a submission to the Minister to show cause why no further action should be taken in the matter.

### **PN.12.2 Classes of Persons**

The classes of persons are:

- (i) the practitioner who initiated the services;
- (ii) the employer of the practitioner who caused or permitted the practitioner to initiate the services; or
- (iii) an officer of the body corporate employing the practitioner who caused or permitted the practitioner to initiate the services.

### **PN.12.3 Decisions by Minister for Health and Ageing**

Where a person provides a submission, the Minister may decide to take no further action against the person. Alternatively, the Minister may refer the matter to a Professional Services Review (PSR) Committee, notifying the grounds for believing that excessive pathology services have been initiated. If after 28 days no submission has been received from the person, the Minister must refer the matter to the Committee. The Minister must give to the person notice in writing of the decision.

### **PN.12.4 Appeals**

Unlike the procedures relating to breaches of undertaking there is no power given to the Minister to determine a penalty. The Minister's role is either deciding to take no further action or referring the matter to a PSR Committee. Accordingly, there are no rights of appeal to the Administrative Appeals Tribunal applicable to the above procedures. However, rights of appeal to the Administrative Appeals Tribunal exist in respect of any determination made by a Medicare Participation Review Committee.

## **PN.13.1 Personal Supervision**

### **Introduction**

The *Health Insurance Act 1973* provides that the form of undertaking to be given by an Approved Pathology Practitioner may make provision for pathology services carried out under the personal supervision of the Approved Pathology Practitioner.

## **PN.13.2 Extract from Undertaking**

The following is an extract from the Approved Pathology Practitioner (APP) undertaking:

### Part 2 - Personal supervision

2.1 I acknowledge that it is my obligation, subject to Parts 2.2 and 2.4, personally to supervise any person who renders any service on my behalf and I undertake to accept personal responsibility for the rendering of that service under the following conditions of personal supervision:

(i) Subject to the following conditions, I will usually be physically available in the laboratory while services are being provided at the laboratory;

(ii) I may, subject to paragraph (vi) below, be physically absent from the laboratory while services are being rendered outside its normal hours of operation but in that event I will leave with the person rendering the service particulars of the manner in which I may be contacted while the service is being rendered and I must be able to personally attend at the laboratory while the service is being rendered or formally designate another APP present while I am absent;

(iii) I may, subject to paragraph (vi) below, be absent from the laboratory for brief periods due to illness or other personal necessity, or to take part in activities which, in accordance with normal and accepted practice, relate to the provision of services by that laboratory;

(iv) I will personally keep a written log of my absences from the laboratory that extend beyond one workday in respect of that laboratory and will retain that log in the laboratory for 18 months from date of last entry;

(v) If I am to be absent from the laboratory for more than 7 consecutive workdays, I will arrange for another APP to personally supervise the rendering of services in the laboratory. That arrangement shall be recorded in writing and retained in the laboratory for 18 months from date of last entry. Until such person is appointed, and his or her appointment is recorded in writing, I will remain personally responsible to comply with this undertaking;

(vi) If a service is being rendered on my behalf by a person who is not:

(a) a medical practitioner;

(b) a scientist; or

(c) a person having special qualifications or skills relevant to the service being rendered;

and no person in the above groups is physically present in the laboratory, then I must be physically present in the laboratory and closely supervise the rendering of the service;

(vii) I accept responsibility for taking all reasonable steps to ensure that in regard to services rendered by me or on my behalf:

(a) all persons who render services are adequately trained;

(b) all services which are to be rendered in the laboratory are allocated to persons employed by the APA and, these persons shall have appropriate qualifications and experience to render the services;

- (c) the methods and procedures in operation in the laboratory for the purpose of rendering services are in accordance with proper and correct practices;
- (d) for services rendered, proper quality control methods are established and reviewed to ensure their reliability and effectiveness; and
- (e) results of services and tests rendered are accurately recorded and sent to the treating practitioner and, where applicable, a referring practitioner;
- (viii) If I perform, or there is performed on my behalf, a service which consists of the analysis of a specimen which I know, or have reason to believe, has been taken other than in accordance with the provisions of section 16A(5AA) of the Act I will endorse, or cause to be endorsed, on the assignment form or the account for that service, as the case may be, particulars of the circumstances in which I believe, or have reason to believe, the specimen was taken.

2.2 Where services are to be rendered on my behalf in a Category B laboratory as defined in the Health Insurance (Accredited Pathology Laboratories - Approval) Principles 2002, I undertake to take all reasonable measures to ensure that the service is rendered under the supervision of an appropriate person as required by those Principles as in force from time to time.

2.3 I acknowledge to the best of my ability that any act or omission by a person, when acting with my authority, whether express or implied, that would, had it been done by me, have resulted in a breach of this undertaking, constitutes a breach of this undertaking by me.

2.4 Parts 2.1(i) to 2.1(vi) and 2.2 of this undertaking do not apply where a laboratory is limited to services (and associated equipment for those services) as detailed in Schedule 3.

### **PN.13.3 Notes on the Above**

Part 2 of the APP Undertaking outlines the requirements for the personal supervision by an Approved Pathology Practitioner where a pathology service is rendered by another person on behalf of the APP. It should be noted that "on behalf of" does not relieve an Approved Pathology Practitioner of professional responsibility for the service or from being personally involved in the supervision of services in the laboratory.

### **PR.5.1 Limitation of item 72860**

Item 72860 applies to a service (the relevant service) for a patient if:

- (a) the relevant service is subsequent to one or more earlier patient episodes involving:
  - (i) the rendering of services to which one or more items in Groups P5, P6 or P7 apply (other than item 72860); and
  - (ii) the collection of tissue material (either biopsy material or samples submitted for cytology) from which a tissue block was prepared; and
  - (iii) the archiving of the tissue material in formalin fixed paraffin embedded blocks; and
- (b) following the earlier patient episode or episodes, the treating practitioner determines that a service to which an item in Group P7 (which deal with genetic testing) applies is clinically necessary for the patient; and
- (c) the relevant service is rendered in a patient episode with services to which one or more items in Group P7 apply, but is not rendered in the same accredited pathology laboratory as those services.

### **PR.6.1 Episode Cone**

The episode cone is an arrangement, described in Rule 18, which effectively places an upper limit on the number of items for which Medicare benefits are payable in a patient episode. This cone only applies to services requested by general practitioners for their non-hospitalised patients. Pathology services requested for hospital in-patients, or ordered by specialists, are not subject to these coning arrangements.

When more than 3 items are requested by a general practitioner in a patient episode, the benefits payable will be equivalent to the sum of the benefits for the three items with the highest Schedule fees. Rule 18 provides that for the two items with the highest Schedule fees, Medicare benefits will be payable for each item. The remaining items are regarded as one service for which the benefit payable will be equivalent to that for the item with the third highest Schedule fee. Where items have the same Schedule fee, their item numbers are used as an artificial means to rank them.

The episode cone will apply even when the pathology services in a patient episode are performed by 2 or more Approved Pathology Authorities, with the exception of the services listed below.

The following items are not included in the count of the items performed when applying the episode cone:

- (i) all the items in Groups P10, P11, P12 and P13;
- (ii) Cervical Screening (items 73070, 73071, 73072, 73073, 73074, 73075, 73076);
- (iii) all the items detailed at Rule 18 (e) (items 65079, 65082, 65157, 65158, 65166, 65180, 65181, 66606, 66609, 66639, 66642, 66651, 66652, 66663, 66666, 66696, 66697, 66714, 66715, 66723, 66724, 66780, 66783, 66789, 66790, 66792, 66804, 66805, 66816, 66817, 66820, 66821, 66826, 66827, 69325, 69328, 69331, 69379, 69383, 69400, 69401, 69451, 69500, 69489, 69492, 69497, 69498, 71076, 71090, 71092, 71096, 71148, 71154, 71156, 71169, 71170, 73309, 73312, 73315, 73318);
- (iv) supplementary test for Hepatitis B and Hepatitis C (item 69484); and
- (v) the carbon-labelled urea breath test to confirm or monitor *Helicobacter pylori* (item 66900).

### **PR.9.1 Quality Assurance in Aboriginal Medical Services (QAAMS) Program items**

Item numbers 73839, 73840 and 73844 can only be performed in the following circumstances:

- a) the service is rendered by or on behalf of a medical practitioner;
- b) the practitioner referred to in paragraph (a), or the organisation for which the practitioner works, is participating in the Quality Assurance in Aboriginal Medical Services Program; and
- c) the service is provided in accordance with that Program; and
- d) the practitioner referred to in paragraph (a) has determined the service to be necessary for his or her patient.

## PATHOLOGY SERVICES ITEMS

<b>P1. HAEMATOLOGY</b>	
	<b>Group P1. Haematology</b>
65060	<p>Haemoglobin, erythrocyte sedimentation rate, blood viscosity - 1 or more tests</p> <p>(See para PN.0.33, PN.1.1 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$7.85      <b>Benefit:</b> 75% = \$5.90    85% = \$6.70</p>
65066	<p>Examination of:</p> <p>(a) a blood film by special stains to demonstrate Heinz bodies, parasites or iron; or</p> <p>(b) a blood film by enzyme cytochemistry for neutrophil alkaline phosphatase, alpha-naphthyl acetate esterase or chloroacetate esterase; or</p> <p>(c) a blood film using any other special staining methods including periodic acid Schiff and Sudan Black; or</p> <p>(d) a urinary sediment for haemosiderin</p> <p>including a service described in item 65072</p> <p><b>Fee:</b> \$10.40      <b>Benefit:</b> 75% = \$7.80    85% = \$8.85</p>
65070	<p>Erythrocyte count, haematocrit, haemoglobin, calculation or measurement of red cell index or indices, platelet count, leucocyte count and manual or instrument generated differential count - not being a service where haemoglobin only is requested - one or more instrument generated sets of results from a single sample; and (if performed)</p> <p>(a) a morphological assessment of a blood film;</p> <p>(b) any service in item 65060 or 65072</p> <p><b>Fee:</b> \$16.95      <b>Benefit:</b> 75% = \$12.75    85% = \$14.45</p>
65072	<p>Examination for reticulocytes including a reticulocyte count by any method - 1 or more tests</p> <p><b>Fee:</b> \$10.20      <b>Benefit:</b> 75% = \$7.65    85% = \$8.70</p>
65075	<p>Haemolysis or metabolic enzymes - assessment by:</p> <p>(a) erythrocyte autohaemolysis test; or</p> <p>(b) erythrocyte osmotic fragility test; or</p> <p>(c) sugar water test; or</p> <p>(d) G-6-P D (qualitative or quantitative) test; or</p> <p>(e) pyruvate kinase (qualitative or quantitative) test; or</p> <p>(f) acid haemolysis test; or</p> <p>(g) quantitation of muramidase in serum or urine; or</p> <p>(h) Donath Landsteiner antibody test; or</p>

<b>P1. HAEMATOLOGY</b>	
	<p>(i) other erythrocyte metabolic enzyme tests</p> <p>1 or more tests</p> <p><b>Fee:</b> \$51.95      <b>Benefit:</b> 75% = \$39.00    85% = \$44.20</p>
65078	<p>Tests for the diagnosis of thalassaemia consisting of haemoglobin electrophoresis or chromatography and at least 2 of:</p> <p>(a) examination for HbH; or</p> <p>(b) quantitation of HbA2; or</p> <p>(c) quantitation of HbF;</p> <p>including (if performed) any service described in item 65060 or 65070</p> <p><b>Fee:</b> \$90.20      <b>Benefit:</b> 75% = \$67.65    85% = \$76.70</p>
65079	<p>Tests described in item 65078 if rendered by a receiving APP - 1 or more tests (Item is subject to rule 18)</p> <p><b>Fee:</b> \$90.20      <b>Benefit:</b> 75% = \$67.65    85% = \$76.70</p>
65081	<p>Tests for the investigation of haemoglobinopathy consisting of haemoglobin electrophoresis or chromatography and at least 1 of:</p> <p>(a) heat denaturation test; or</p> <p>(b) isopropanol precipitation test; or</p> <p>(c) tests for the presence of haemoglobin S; or</p> <p>(d) quantitation of any haemoglobin fraction (including S, C, D, E);</p> <p>including (if performed) any service described in item 65060, 65070 or 65078</p> <p><b>Fee:</b> \$96.60      <b>Benefit:</b> 75% = \$72.45    85% = \$82.15</p>
65082	<p>Tests described in item 65081 if rendered by a receiving APP - 1 or more tests (Item is subject to rule 18)</p> <p><b>Fee:</b> \$96.60      <b>Benefit:</b> 75% = \$72.45    85% = \$82.15</p>
65084	<p>Bone marrow trephine biopsy - histopathological examination of sections of bone marrow and examination of aspirated material (including clot sections where necessary), including (if performed):</p> <p>any test described in item 65060, 65066 or 65070</p> <p><b>Fee:</b> \$165.85      <b>Benefit:</b> 75% = \$124.40    85% = \$141.00</p>
65087	<p>Bone marrow - examination of aspirated material (including clot sections where necessary), including (if performed):</p> <p>any test described in item 65060, 65066 or 65070</p> <p><b>Fee:</b> \$83.10      <b>Benefit:</b> 75% = \$62.35    85% = \$70.65</p>
65090	<p>Blood grouping (including back-grouping if performed) - ABO and Rh (D antigen)</p> <p>(See para PN.0.33, PN.1.1 of explanatory notes to this Category)</p>

<b>P1. HAEMATOLOGY</b>	
	<b>Fee:</b> \$11.15 <b>Benefit:</b> 75% = \$8.40    85% = \$9.50
65093	Blood grouping - Rh phenotypes, Kell system, Duffy system, M and N factors or any other blood group system - 1 or more systems, including item 65090 (if performed) <b>Fee:</b> \$22.00 <b>Benefit:</b> 75% = \$16.50    85% = \$18.70
65096	Blood grouping (including back-grouping if performed), and examination of serum for Rh and other blood group antibodies, including:  (a) identification and quantitation of any antibodies detected; and  (b) (if performed) any test described in item 65060 or 65070  (See para PN.1.1 of explanatory notes to this Category) <b>Fee:</b> \$41.00 <b>Benefit:</b> 75% = \$30.75    85% = \$34.85
65099	Compatibility tests by crossmatch - all tests performed on any 1 day for up to 6 units, including:  (a) direct testing of donor red cells from each unit against the serum of the patient by one or more accepted crossmatching techniques; and  (b) all grouping checks of the patient and donor; and  (c) examination for antibodies, and if necessary identification of any antibodies detected; and  (d) (if performed) any tests described in item 65060, 65070, 65090 or 65096  (Item is subject to rule 5) <b>Fee:</b> \$108.90 <b>Benefit:</b> 75% = \$81.70    85% = \$92.60
65102	Compatibility tests by crossmatch - all tests performed on any 1 day in excess of 6 units, including:  (a) direct testing of donor red cells from each unit against serum of the patient by one or more accepted crossmatching techniques; and  (b) all grouping checks of the patient and donor; and  (c) examination for antibodies, and if necessary identification of any antibodies detected; and  (d) (if performed) any tests described in item 65060, 65070, 65090, 65096, 65099 or 65105  (Item is subject to rule 5) <b>Fee:</b> \$164.60 <b>Benefit:</b> 75% = \$123.45    85% = \$139.95
65105	Compatibility testing using at least a 3 cell panel and issue of red cells for transfusion - all tests performed on any one day for up to 6 units, including:  (a) all grouping checks of the patient and donor; and  (b) examination for antibodies and, if necessary, identification of any antibodies detected; and  (c) (if performed) any tests described in item 65060, 65070, 65090 or 65096  (Item is subject to rule 5) <b>Fee:</b> \$108.90 <b>Benefit:</b> 75% = \$81.70    85% = \$92.60

<b>P1. HAEMATOLOGY</b>	
	Compatibility testing using at least a 3 cell panel and issue of red cells for transfusion - all tests performed on any one day in excess of 6 units, including:  (a) all grouping checks of the patient and donor; and  (b) examination for antibodies and, if necessary, identification of any antibodies detected; and  (c) (if performed) any tests described in item 65060, 65070, 65090, 65096, 65099 or 65105  (Item is subject to rule 5)
65108	<b>Fee:</b> \$164.60 <b>Benefit:</b> 75% = \$123.45    85% = \$139.95
	Release of fresh frozen plasma or cryoprecipitate for the use in a patient for the correction of a coagulopathy - 1 release.
65109	<b>Fee:</b> \$12.90 <b>Benefit:</b> 75% = \$9.70    85% = \$11.00
	Release of compatible fresh platelets for the use in a patient for platelet support as prophylaxis to minimize bleeding or during active bleeding - 1 release.
65110	<b>Fee:</b> \$12.90 <b>Benefit:</b> 75% = \$9.70    85% = \$11.00
	Examination of serum for blood group antibodies (including identification and, if necessary, quantitation of any antibodies detected)
65111	<b>Fee:</b> \$23.20 <b>Benefit:</b> 75% = \$17.40    85% = \$19.75
	1 or more of the following tests:  (a) direct Coombs (antiglobulin) test;  (b) qualitative or quantitative test for cold agglutinins or heterophil antibodies
65114	<b>Fee:</b> \$9.10 <b>Benefit:</b> 75% = \$6.85    85% = \$7.75
	1 or more of the following tests:  (a) Spectroscopic examination of blood for chemically altered haemoglobins;  (b) detection of methaemalbumin (Schumm's test)
65117	<b>Fee:</b> \$20.25 <b>Benefit:</b> 75% = \$15.20    85% = \$17.25
	Prothrombin time (including INR where appropriate), activated partial thromboplastin time, thrombin time (including test for the presence of heparin), test for factor XIII deficiency (qualitative), Echis test, Stypven test, reptilase time, fibrinogen, or 1 of fibrinogen degradation products, fibrin monomer or D-dimer - 1 test
65120	<b>Fee:</b> \$13.70 <b>Benefit:</b> 75% = \$10.30    85% = \$11.65
	2 tests described in item 65120
65123	<b>Fee:</b> \$20.35 <b>Benefit:</b> 75% = \$15.30    85% = \$17.30
	3 tests described in item 65120
65126	<b>Fee:</b> \$27.85 <b>Benefit:</b> 75% = \$20.90    85% = \$23.70
	4 or more tests described in item 65120
65129	(See para PN.0.28 of explanatory notes to this Category)

<b>P1. HAEMATOLOGY</b>	
	<b>Fee:</b> \$35.50 <b>Benefit:</b> 75% = \$26.65    85% = \$30.20
65137	Test for the presence of lupus anticoagulant not being a service associated with any service to which items 65175, 65176, 65177, 65178 and 65179 apply <b>Fee:</b> \$25.35 <b>Benefit:</b> 75% = \$19.05    85% = \$21.55
65142	Confirmation or clarification of an abnormal or indeterminate result from a test described in item 65175, by testing a specimen collected on a different day - 1 or more tests <b>Fee:</b> \$25.35 <b>Benefit:</b> 75% = \$19.05    85% = \$21.55
65144	Platelet aggregation in response to ADP, collagen, 5HT, ristocetin or other substances; or heparin, low molecular weight heparins, heparinoid or other drugs - 1 or more tests <b>Fee:</b> \$56.55 <b>Benefit:</b> 75% = \$42.45    85% = \$48.10
65147	Quantitation of anti-Xa activity when monitoring is required for a patient receiving a low molecular weight heparin or heparinoid - 1 test <b>Fee:</b> \$37.90 <b>Benefit:</b> 75% = \$28.45    85% = \$32.25
65150	Quantitation of von Willebrand factor antigen, von Willebrand factor activity (ristocetin cofactor assay), von Willebrand factor collagen binding activity, factor II, factor V, factor VII, factor VIII, factor IX, factor X, factor XI, factor XII, factor XIII, Fletcher factor, Fitzgerald factor, circulating coagulation factor inhibitors other than by Bethesda assay - 1 test  (Item is subject to rule 6 ) <b>Fee:</b> \$70.90 <b>Benefit:</b> 75% = \$53.20    85% = \$60.30
65153	2 tests described in item 65150  (Item is subject to rule 6 ) <b>Fee:</b> \$141.85 <b>Benefit:</b> 75% = \$106.40    85% = \$120.60
65156	3 or more tests described in item 65150  (Item is subject to rule 6 ) <b>Fee:</b> \$212.75 <b>Benefit:</b> 75% = \$159.60    85% = \$180.85
65157	A test described in item 65150, if rendered by a receiving APP, where no tests in the item have been rendered by the referring APP - 1 test (Item is subject to rule 6 and 18) <b>Fee:</b> \$70.90 <b>Benefit:</b> 75% = \$53.20    85% = \$60.30
65158	Tests described in item 65150, other than that described in 65157, if rendered by a receiving APP - each test to a maximum of 2 tests  (Item is subject to rule 6 and 18) <b>Fee:</b> \$70.90 <b>Benefit:</b> 75% = \$53.20    85% = \$60.30
65159	Quantitation of circulating coagulation factor inhibitors by Bethesda assay - 1 test <b>Fee:</b> \$70.90 <b>Benefit:</b> 75% = \$53.20    85% = \$60.30
65162	Examination of a maternal blood film for the presence of fetal red blood cells (Kleihauer test) <b>Fee:</b> \$10.45 <b>Benefit:</b> 75% = \$7.85    85% = \$8.90

<b>P1. HAEMATOLOGY</b>	
65165	<p>Detection and quantitation of fetal red blood cells in the maternal circulation by detection of red cell antigens using flow cytometric methods including (if performed) any test described in item 65070 or 65162</p> <p><b>Fee:</b> \$34.45      <b>Benefit:</b> 75% = \$25.85    85% = \$29.30</p>
65166	<p>A test described in item 65165 if rendered by a receiving APP - 1 or more tests</p> <p>(Item is subject to rule 18)</p> <p><b>Fee:</b> \$34.45      <b>Benefit:</b> 75% = \$25.85    85% = \$29.30</p>
65171	<p>Test for the presence of antithrombin III deficiency, protein C deficiency, protein S deficiency or activated protein C resistance in a first degree relative of a person who has a proven defect of any of the above - 1 or more tests</p> <p><b>Fee:</b> \$25.35      <b>Benefit:</b> 75% = \$19.05    85% = \$21.55</p>
65175	<p>Test for the presence of antithrombin III deficiency, protein C deficiency, protein S deficiency, lupus anticoagulant, activated protein C resistance - where the request for the test(s) specifically identifies that the patient has a history of venous thromboembolism - quantitation by 1 or more techniques - 1 test</p> <p>(Item is subject to Rule 6)</p> <p><b>Fee:</b> \$25.35      <b>Benefit:</b> 75% = \$19.05    85% = \$21.55</p>
65176	<p>2 tests described in item 65175</p> <p>(Item is subject to rule 6)</p> <p><b>Fee:</b> \$48.65      <b>Benefit:</b> 75% = \$36.50    85% = \$41.40</p>
65177	<p>3 tests described in item 65175</p> <p>(Item is subject to rule 6)</p> <p><b>Fee:</b> \$71.95      <b>Benefit:</b> 75% = \$54.00    85% = \$61.20</p>
65178	<p>4 tests described in item 65175</p> <p>(Item is subject to rule 6)</p> <p><b>Fee:</b> \$95.20      <b>Benefit:</b> 75% = \$71.40    85% = \$80.95</p>
65179	<p>5 tests described in item 65175</p> <p>(Item is subject to rule 6)</p> <p><b>Fee:</b> \$118.50      <b>Benefit:</b> 75% = \$88.90    85% = \$100.75</p>
65180	<p>A test described in item 65175, if rendered by a receiving APA, where no tests in the item have been rendered by the referring APA - 1 test</p> <p>(Item is subject to rule 6 and 18)</p> <p><b>Fee:</b> \$25.35      <b>Benefit:</b> 75% = \$19.05    85% = \$21.55</p>
65181	<p>A test described in item 65175, if rendered by a receiving APP, if one or more tests described in the item have been rendered by the referring APP - one test</p> <p>(Item is subject to rule 6 and 18)</p>

<b>P1. HAEMATOLOGY</b>	
	<b>Fee:</b> \$23.30 <b>Benefit:</b> 75% = \$17.50    85% = \$19.85
<b>P2. CHEMICAL</b>	
	<b>Group P2. Chemical</b>
	Quantitation in serum, plasma, urine or other body fluid (except amniotic fluid), by any method except reagent tablet or reagent strip (with or without reflectance meter) of: acid phosphatase, alanine aminotransferase, albumin, alkaline phosphatase, ammonia, amylase, aspartate aminotransferase, bicarbonate, bilirubin (total), bilirubin (any fractions), C-reactive protein, calcium (total or corrected for albumin), chloride, creatine kinase, creatinine, gamma glutamyl transferase, globulin, glucose, lactate dehydrogenase, lipase, magnesium, phosphate, potassium, sodium, total protein, total cholesterol, triglycerides, urate or urea - 1 test
66500	<b>Fee:</b> \$9.70 <b>Benefit:</b> 75% = \$7.30    85% = \$8.25
	2 tests described in item 66500
66503	<b>Fee:</b> \$11.65 <b>Benefit:</b> 75% = \$8.75    85% = \$9.95
	3 tests described in item 66500
66506	<b>Fee:</b> \$13.65 <b>Benefit:</b> 75% = \$10.25    85% = \$11.65
	4 tests described in item 66500
66509	<b>Fee:</b> \$15.65 <b>Benefit:</b> 75% = \$11.75    85% = \$13.35
	5 or more tests described in item 66500
66512	<b>Fee:</b> \$17.70 <b>Benefit:</b> 75% = \$13.30    85% = \$15.05
	Quantitation of bile acids in blood in pregnancy. Applicable not more than 3 times in a pregnancy.
66517	<b>Fee:</b> \$19.65 <b>Benefit:</b> 75% = \$14.75    85% = \$16.75
	Investigation of cardiac or skeletal muscle damage by quantitative measurement of creatine kinase isoenzymes, troponin or myoglobin in blood - testing on 1 specimen in a 24 hour period
66518	<b>Fee:</b> \$20.05 <b>Benefit:</b> 75% = \$15.05    85% = \$17.05
	Investigation of cardiac or skeletal muscle damage by quantitative measurement of creatine kinase isoenzymes, troponin or myoglobin in blood - testing on 2 or more specimens in a 24 hour period
66519	<b>Fee:</b> \$40.15 <b>Benefit:</b> 75% = \$30.15    85% = \$34.15
	Quantitation of HDL cholesterol
66536	<b>Fee:</b> \$11.05 <b>Benefit:</b> 75% = \$8.30    85% = \$9.40
	Electrophoresis of serum for demonstration of lipoprotein subclasses, if the cholesterol is >6.5 mmol/L and triglyceride >4.0 mmol/L or in the diagnosis of types III and IV hyperlipidaemia - (Item is subject to rule 25)
66539	<b>Fee:</b> \$30.60 <b>Benefit:</b> 75% = \$22.95    85% = \$26.05
	Oral glucose tolerance test for the diagnosis of diabetes mellitus that includes:
	(a) administration of glucose; and
	(b) at least 2 measurements of blood glucose; and
66542	

<b>P2. CHEMICAL</b>	
	(c) (if performed) any test described in item 66695 <b>Fee:</b> \$18.95 <b>Benefit:</b> 75% = \$14.25    85% = \$16.15
66545	Oral glucose challenge test in pregnancy for the detection of gestational diabetes that includes: (a) administration of glucose; and (b) 1 or 2 measurements of blood glucose; and (c) (if performed) any test in item 66695 <b>Fee:</b> \$15.80 <b>Benefit:</b> 75% = \$11.85    85% = \$13.45
66548	Oral glucose tolerance test in pregnancy for the diagnosis of gestational diabetes that includes: (a) administration of glucose; and (b) at least 3 measurements of blood glucose; and (c) any test in item 66695 (if performed) <b>Fee:</b> \$19.90 <b>Benefit:</b> 75% = \$14.95    85% = \$16.95
66551	Quantitation of glycated haemoglobin performed in the management of established diabetes - (Item is subject to rule 25) <b>Fee:</b> \$16.80 <b>Benefit:</b> 75% = \$12.60    85% = \$14.30
66554	Quantitation of glycated haemoglobin performed in the management of pre-existing diabetes where the patient is pregnant - including a service in item 66551 (if performed) - (Item is subject to rule 25) <b>Fee:</b> \$16.80 <b>Benefit:</b> 75% = \$12.60    85% = \$14.30
66557	Quantitation of fructosamine performed in the management of established diabetes - each test to a maximum of 4 tests in a 12 month period <b>Fee:</b> \$9.70 <b>Benefit:</b> 75% = \$7.30    85% = \$8.25
66560	Microalbumin - quantitation in urine <b>Fee:</b> \$20.10 <b>Benefit:</b> 75% = \$15.10    85% = \$17.10
66563	Osmolality, estimation by osmometer, in serum or in urine - 1 or more tests <b>Fee:</b> \$24.70 <b>Benefit:</b> 75% = \$18.55    85% = \$21.00
66566	Quantitation of: (a) blood gases (including pO <sub>2</sub> , oxygen saturation and pCO <sub>2</sub> ) ; and (b) bicarbonate and pH; including any other measurement (eg. haemoglobin, lactate, potassium or ionised calcium) or calculation performed on the same specimen - 1 or more tests on 1 specimen <b>Fee:</b> \$33.70 <b>Benefit:</b> 75% = \$25.30    85% = \$28.65
66569	Quantitation of blood gases, bicarbonate and pH as described in item 66566 on 2 specimens performed within any 1 day <b>Fee:</b> \$42.60 <b>Benefit:</b> 75% = \$31.95    85% = \$36.25

<b>P2. CHEMICAL</b>	
66572	Quantitation of blood gases, bicarbonate and pH as described in item 66566 on 3 specimens performed within any 1 day <b>Fee:</b> \$51.55 <b>Benefit:</b> 75% = \$38.70    85% = \$43.85
66575	Quantitation of blood gases, bicarbonate and pH as described in item 66566 on 4 specimens performed within any 1 day <b>Fee:</b> \$60.45 <b>Benefit:</b> 75% = \$45.35    85% = \$51.40
66578	Quantitation of blood gases, bicarbonate and pH as described in item 66566 on 5 specimens performed within any 1 day <b>Fee:</b> \$69.35 <b>Benefit:</b> 75% = \$52.05    85% = \$58.95
66581	Quantitation of blood gases, bicarbonate and pH as described in item 66566 on 6 or more specimens performed within any 1 day <b>Fee:</b> \$78.25 <b>Benefit:</b> 75% = \$58.70    85% = \$66.55
66584	Quantitation of ionised calcium (except if performed as part of item 66566) - 1 test <b>Fee:</b> \$9.70 <b>Benefit:</b> 75% = \$7.30    85% = \$8.25
66587	Urine acidification test for the diagnosis of renal tubular acidosis including the administration of an acid load, and pH measurements on 4 or more urine specimens and at least 1 blood specimen <b>Fee:</b> \$47.55 <b>Benefit:</b> 75% = \$35.70    85% = \$40.45
66590	Calculus, analysis of 1 or more <b>Fee:</b> \$30.60 <b>Benefit:</b> 75% = \$22.95    85% = \$26.05
66593	Ferritin - quantitation, except if requested as part of iron studies <b>Fee:</b> \$18.00 <b>Benefit:</b> 75% = \$13.50    85% = \$15.30
66596	Iron studies, consisting of quantitation of: (a) serum iron; and (b) transferrin or iron binding capacity; and (c) ferritin <b>Fee:</b> \$32.55 <b>Benefit:</b> 75% = \$24.45    85% = \$27.70
66605	Vitamins - quantitation of vitamins B1, B2, B3, B6 or C in blood, urine or other body fluid - 1 or more tests <b>Fee:</b> \$30.60 <b>Benefit:</b> 75% = \$22.95    85% = \$26.05
66606	A test described in item 66605 if rendered by a receiving APP - 1 or more tests (Item is subject to rule 18 and 25) <b>Fee:</b> \$30.60 <b>Benefit:</b> 75% = \$22.95    85% = \$26.05
66607	Vitamins - quantitation of vitamins A or E in blood, urine or other body fluid - 1 or more tests within a 6 month period <b>Fee:</b> \$75.75 <b>Benefit:</b> 75% = \$56.85    85% = \$64.40

<b>P2. CHEMICAL</b>	
	A test described in item 66607 if rendered by a receiving APP - 1 or more tests
66610	<b>Fee:</b> \$75.75 <b>Benefit:</b> 75% = \$56.85    85% = \$64.40
	All qualitative and quantitative tests on blood, urine or other body fluid for:  (a) a drug or drugs of abuse (including illegal drugs and legally available drugs taken other than in appropriate dosage); or  (b) ingested or absorbed toxic chemicals;  including a service described in item 66800, 66803, 66806, 66812 or 66815 (if performed), but excluding:  (c) the surveillance of sports people and athletes for performance improving substances; and  (d) the monitoring of patients participating in a drug abuse treatment program
66623	<b>Fee:</b> \$41.50 <b>Benefit:</b> 75% = \$31.15    85% = \$35.30
	Detection or quantitation or both (not including the detection of nicotine and metabolites in smoking withdrawal programs) of a drug, or drugs, of abuse or a therapeutic drug, on a sample collected from a patient participating in a drug abuse treatment program; but excluding the surveillance of sports people and athletes for performance improving substances; including all tests on blood, urine or other body fluid  (Item is subject to rule 25)
66626	<b>Fee:</b> \$24.10 <b>Benefit:</b> 75% = \$18.10    85% = \$20.50
	Beta-2-microglobulin - quantitation in serum, urine or other body fluids - 1 or more tests
66629	<b>Fee:</b> \$20.10 <b>Benefit:</b> 75% = \$15.10    85% = \$17.10
	Caeruloplasmin, haptoglobins, or prealbumin - quantitation in serum, urine or other body fluids - 1 or more tests
66632	<b>Fee:</b> \$20.10 <b>Benefit:</b> 75% = \$15.10    85% = \$17.10
	Alpha-1-antitrypsin - quantitation in serum, urine or other body fluid - 1 or more tests
66635	<b>Fee:</b> \$20.10 <b>Benefit:</b> 75% = \$15.10    85% = \$17.10
	Isoelectric focussing or similar methods for determination of alpha-1-antitrypsin phenotype in serum - 1 or more tests
66638	<b>Fee:</b> \$49.05 <b>Benefit:</b> 75% = \$36.80    85% = \$41.70
	A test described in item 66638 if rendered by a receiving APP - 1 or more tests  (Item is subject to rule 18)
66639	<b>Fee:</b> \$29.20 <b>Benefit:</b> 75% = \$21.90    85% = \$24.85
	Electrophoresis of serum or other body fluid to demonstrate:  (a) the isoenzymes of lactate dehydrogenase; or  (b) the isoenzymes of alkaline phosphatase;
66641	

<b>P2. CHEMICAL</b>	
	including the preliminary quantitation of total relevant enzyme activity - 1 or more tests <b>Fee:</b> \$29.20 <b>Benefit:</b> 75% = \$21.90    85% = \$24.85
66642	A test described in item 66641 if rendered by a receiving APP - 1 or more tests (Item is subject to rule 18) <b>Fee:</b> \$29.20 <b>Benefit:</b> 75% = \$21.90    85% = \$24.85
66644	C-1 esterase inhibitor - quantitation <b>Fee:</b> \$20.15 <b>Benefit:</b> 75% = \$15.15    85% = \$17.15
66647	C-1 esterase inhibitor - functional assay <b>Fee:</b> \$45.10 <b>Benefit:</b> 75% = \$33.85    85% = \$38.35
66650	Alpha-fetoprotein, CA-15.3 antigen (CA15.3), CA-125 antigen (CA125), CA-19.9 antigen (CA19.9), cancer associated serum antigen (CASA), carcinoembryonic antigen (CEA), human chorionic gonadotrophin (HCG), neuron specific enolase (NSE), thyroglobulin in serum or other body fluid, in the monitoring of malignancy or in the detection or monitoring of hepatic tumours, gestational trophoblastic disease or germ cell tumour - quantitation - 1 test (Item is subject to rule 6) <b>Fee:</b> \$24.35 <b>Benefit:</b> 75% = \$18.30    85% = \$20.70
66651	A test described in item 66650 if rendered by a receiving APP, where no tests in the item have been rendered by the referring APP - 1 test (Item is subject to rule 6 and 18) <b>Fee:</b> \$24.35 <b>Benefit:</b> 75% = \$18.30    85% = \$20.70
66652	A test described in item 66650 if rendered by a receiving APP - other than that described in 66651, if rendered by a receiving APP, 1 test (Item is subject to rule 6 and 18) <b>Fee:</b> \$20.30 <b>Benefit:</b> 75% = \$15.25    85% = \$17.30
66653	2 or more tests described in item 66650 (Item is subject to rule 6) <b>Fee:</b> \$44.60 <b>Benefit:</b> 75% = \$33.45    85% = \$37.95
66655	Prostate specific antigen - quantitation - 1 of this item in a 12 month period (Item is subject to rule 25) <b>Fee:</b> \$20.15 <b>Benefit:</b> 75% = \$15.15    85% = \$17.15
66656	Prostate specific antigen - quantitation in the monitoring of previously diagnosed prostatic disease (including a test described in item 66655) <b>Fee:</b> \$20.15 <b>Benefit:</b> 75% = \$15.15    85% = \$17.15
66659	Prostate specific antigen - quantitation of 2 or more fractions of PSA and any derived index including (if performed) a test described in item 66656, in the follow up of a PSA result that lies at or above the age related median but below the age related, method specific 97.5% reference limit - 1 of this item in a 12

<b>P2. CHEMICAL</b>	
	<p>month period</p> <p>(Item is subject to rule 25)</p> <p><b>Fee:</b> \$37.30      <b>Benefit:</b> 75% = \$28.00    85% = \$31.75</p>
66660	<p>Prostate specific antigen - quantitation of 2 or more fractions of PSA and any derived index including (if performed) a test described in item 66656, in the follow up of a PSA result that lies at or above the age related, method specific 97.5% reference limit, but below a value of 10 ug/L - 4 of this item in a 12 month period.</p> <p>(Item is subject to rule 25)</p> <p><b>Fee:</b> \$37.30      <b>Benefit:</b> 75% = \$28.00    85% = \$31.75</p>
66662	<p>Quantitation of hormone receptors on proven primary breast or ovarian carcinoma or a metastasis from a breast or ovarian carcinoma or a subsequent lesion in the breast - 1 or more tests</p> <p><b>Fee:</b> \$79.95      <b>Benefit:</b> 75% = \$60.00    85% = \$68.00</p>
66663	<p>A test described in item 66662 if rendered by a receiving APP - 1 or more tests</p> <p>(Item is subject to rule 18)</p> <p><b>Fee:</b> \$79.95      <b>Benefit:</b> 75% = \$60.00    85% = \$68.00</p>
66665	<p>Lead quantitation in blood or urine (other than for occupational health screening purposes) to a maximum of 3 tests in a 6 month period - each test</p> <p><b>Fee:</b> \$30.60      <b>Benefit:</b> 75% = \$22.95    85% = \$26.05</p>
66666	<p>A test described in item 66665 if rendered by a receiving APP - 1 or more tests</p> <p>(Item is subject to rule 18)</p> <p><b>Fee:</b> \$30.60      <b>Benefit:</b> 75% = \$22.95    85% = \$26.05</p>
66667	<p>Quantitation of serum zinc in a patient receiving intravenous alimentation - each test</p> <p><b>Fee:</b> \$30.60      <b>Benefit:</b> 75% = \$22.95    85% = \$26.05</p>
66671	<p>Quantitation of serum aluminium in a patient in a renal dialysis program - each test</p> <p><b>Fee:</b> \$36.90      <b>Benefit:</b> 75% = \$27.70    85% = \$31.40</p>
66674	<p>Quantitation of:</p> <p>(a) faecal fat; or</p> <p>(b) breath hydrogen in response to loading with disaccharides;</p> <p>1 or more tests within a 28 day period</p> <p><b>Fee:</b> \$39.95      <b>Benefit:</b> 75% = \$30.00    85% = \$34.00</p>
66677	<p>Test for tryptic activity in faeces in the investigation of diarrhoea of longer than 4 weeks duration in children under 6 years old</p> <p><b>Fee:</b> \$11.15      <b>Benefit:</b> 75% = \$8.40    85% = \$9.50</p>
66680	<p>Quantitation of disaccharidases and other enzymes in intestinal tissue - 1 or more tests</p>

<b>P2. CHEMICAL</b>	
	<b>Fee:</b> \$74.45 <b>Benefit:</b> 75% = \$55.85    85% = \$63.30
66683	Enzymes - quantitation in solid tissue or tissues other than blood elements or intestinal tissue - 1 or more tests <b>Fee:</b> \$74.45 <b>Benefit:</b> 75% = \$55.85    85% = \$63.30
66686	Performance of 1 or more of the following procedures: (a) growth hormone suppression by glucose loading; (b) growth hormone stimulation by exercise; (c) dexamethasone suppression test; (d) sweat collection by iontophoresis for chloride analysis; (e) pharmacological stimulation of growth hormone <b>Fee:</b> \$50.65 <b>Benefit:</b> 75% = \$38.00    85% = \$43.10
66695	Quantitation in blood or urine of hormones and hormone binding proteins - ACTH, aldosterone, androstenedione, C-peptide, calcitonin, cortisol, DHEAS, 11-deoxycortisol, dihydrotestosterone, FSH, gastrin, glucagon, growth hormone, hydroxyprogesterone, insulin, LH, oestradiol, oestrone, progesterone, prolactin, PTH, renin, sex hormone binding globulin, somatomedin C(IGF-1), free or total testosterone, urine steroid fraction or fractions, vasoactive intestinal peptide, - 1 test  (Item is subject to rule 6)  (See para TN.1.4 of explanatory notes to this Category) <b>Fee:</b> \$30.50 <b>Benefit:</b> 75% = \$22.90    85% = \$25.95
66696	A test described in item 66695, if rendered by a receiving APP - where no tests in the item have been rendered by the referring APP  (Item is subject to rule 6 and 18) <b>Fee:</b> \$30.50 <b>Benefit:</b> 75% = \$22.90    85% = \$25.95
66697	Tests described in item 66695, other than that described in 66696, if rendered by a receiving APP - each test to a maximum of 4 tests  (Item is subject to rule 6 and 18) <b>Fee:</b> \$13.20 <b>Benefit:</b> 75% = \$9.90    85% = \$11.25
66698	2 tests described in item 66695  (Item is subject to rule 6)  (See para TN.1.4 of explanatory notes to this Category) <b>Fee:</b> \$43.70 <b>Benefit:</b> 75% = \$32.80    85% = \$37.15
66701	3 tests described in item 66695

<b>P2. CHEMICAL</b>	
	<p>(Item is subject to rule 6)</p> <p>(See para TN.1.4 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$56.90      <b>Benefit:</b> 75% = \$42.70    85% = \$48.40</p>
66704	<p>4 tests described in item 66695</p> <p>(This fee applies where 1 laboratory, or more than 1 laboratory belonging to the same APA, performs the only 4 tests specified on the request form or performs 4 tests and refers the rest to the laboratory of a separate APA)</p> <p>(Item is subject to rule 6)</p> <p>(See para TN.1.4 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$70.15      <b>Benefit:</b> 75% = \$52.65    85% = \$59.65</p>
66707	<p>5 or more tests described in item 66695</p> <p>(Item is subject to rule 6)</p> <p>(See para TN.1.4 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$83.35      <b>Benefit:</b> 75% = \$62.55    85% = \$70.85</p>
66711	<p>Quantitation in saliva of cortisol in:</p> <p>(a) the investigation of Cushing's syndrome; or</p> <p>(b) the management of children with congenital adrenal hyperplasia</p> <p>(Item is subject to rule 6)</p> <p><b>Fee:</b> \$30.15      <b>Benefit:</b> 75% = \$22.65    85% = \$25.65</p>
66712	<p>Two tests described in item 66711</p> <p>(Item is subject to rule 6)</p> <p><b>Fee:</b> \$43.05      <b>Benefit:</b> 75% = \$32.30    85% = \$36.60</p>
66714	<p>A test described in item 66711, if rendered by a receiving APP, where no tests in the item have been rendered by the referring APP</p> <p>(Item is subject to rule 6 and 18)</p> <p><b>Fee:</b> \$30.15      <b>Benefit:</b> 75% = \$22.65    85% = \$25.65</p>
66715	<p>Tests described in item 66711, other than that described in 66714, if rendered by a receiving APP, each test to a maximum of 1 test</p> <p>(Item is subject to rule 6 and 18)</p> <p><b>Fee:</b> \$12.85      <b>Benefit:</b> 75% = \$9.65    85% = \$10.95</p>
66716	<p>TSH quantitation</p> <p><b>Fee:</b> \$25.05      <b>Benefit:</b> 75% = \$18.80    85% = \$21.30</p>

**P2. CHEMICAL**

	<p>Thyroid function tests (comprising the service described in item 66716 and either or both of a test for free thyroxine and a test for free T3) for a patient, if:</p> <ul style="list-style-type: none"><li>(a) the patient has a level of TSH that is outside the normal reference range for the particular method of assay used to determine the level; or</li><li>(b) the request from the requesting medical practitioner indicates that the tests are performed:<ul style="list-style-type: none"><li>(i) for the purpose of monitoring thyroid disease in the patient; or</li><li>(ii) to investigate the sick euthyroid syndrome if the patient is an admitted patient; or</li><li>(iii) to investigate dementia or psychiatric illness of the patient; or</li><li>(iv) to investigate amenorrhoea or infertility of the patient; or</li></ul></li><li>(c) the request from the requesting medical practitioner indicates that the medical practitioner suspects the patient has a pituitary dysfunction; or</li><li>(d) the request from the requesting medical practitioner indicates that the patient is on drugs that interfere with thyroid hormone metabolism or function</li></ul>
66719	<b>Fee:</b> \$34.80 <b>Benefit:</b> 75% = \$26.10    85% = \$29.60
	<p>TSH quantitation described in item 66716 and 1 test described in item 66695</p> <p>(This fee applies where 1 laboratory, or more than 1 laboratory belonging to the same APA, performs the only 2 tests specified on the request form or performs 2 tests and refers the rest to the laboratory of a separate APA)</p> <p>(Item is subject to rule 6)</p>
66722	<b>Fee:</b> \$37.90 <b>Benefit:</b> 75% = \$28.45    85% = \$32.25
	<p>Tests described in item 66722, that is, TSH quantitation and 1 test described in 66695, if rendered by a receiving APP, where no tests in the item have been rendered by the referring APP - 1 test</p> <p>(Item is subject to rule 6 and 18)</p>
66723	<b>Fee:</b> \$37.90 <b>Benefit:</b> 75% = \$28.45    85% = \$32.25
	<p>Tests described in item 66722, if rendered by a receiving APP, other than that described in 66723. It is to include a quantitation of TSH - each test to a maximum of 4 tests described in item 66695</p> <p>(Item is subject to rule 6 and 18)</p>
66724	<b>Fee:</b> \$13.15 <b>Benefit:</b> 75% = \$9.90    85% = \$11.20
	<p>TSH quantitation described in item 66716 and 2 tests described in item 66695</p> <p>(This fee applies where 1 laboratory, or more than 1 laboratory belonging to the same APA, performs the only 3 tests specified on the request form or performs 3 tests and refers the rest to the laboratory of a separate APA)</p>
66725	

<b>P2. CHEMICAL</b>	
	(Item is subject to rule 6) <b>Fee:</b> \$51.05 <b>Benefit:</b> 75% = \$38.30    85% = \$43.40
66728	TSH quantitation described in item 66716 and 3 tests described in item 66695  (This fee applies where 1 laboratory, or more than 1 laboratory belonging to the same APA, performs the only 4 tests specified on the request form or performs 4 tests and refers the rest to the laboratory of a separate APA)  (Item is subject to rule 6) <b>Fee:</b> \$64.20 <b>Benefit:</b> 75% = \$48.15    85% = \$54.60
66731	TSH quantitation described in item 66716 and 4 tests described in item 66695  (This fee applies where 1 laboratory, or more than 1 laboratory belonging to the same APA, performs the only 5 tests specified on the request form or performs 5 tests and refers the rest to the laboratory of a separate APA)  (Item is subject to rule 6) <b>Fee:</b> \$77.40 <b>Benefit:</b> 75% = \$58.05    85% = \$65.80
66734	TSH quantitation described in item 66716 and 5 tests described in item 66695  (This fee applies where 1 laboratory, or more than 1 laboratory belonging to the same APA, performs 6 or more tests specified on the request form)  (Item is subject to rule 6) <b>Fee:</b> \$90.55 <b>Benefit:</b> 75% = \$67.95    85% = \$77.00
66743	Quantitation of alpha-fetoprotein in serum or other body fluids during pregnancy except if requested as part of items 66750 or 66751 <b>Fee:</b> \$20.10 <b>Benefit:</b> 75% = \$15.10    85% = \$17.10
66749	Amniotic fluid, spectrophotometric examination of, and quantitation of:  (a) lecithin/sphingomyelin ratio; or  (b) palmitic acid, phosphatidylglycerol or lamellar body phospholipid; or  (c) bilirubin, including correction for haemoglobin  1 or more tests <b>Fee:</b> \$32.95 <b>Benefit:</b> 75% = \$24.75    85% = \$28.05
66750	Quantitation, in pregnancy, of any 2 of the following to detect foetal abnormality - total human chorionic gonadotrophin (total HCG), free alpha human chorionic gonadotrophin (free alpha HCG), free beta human chorionic gonadotrophin (free beta HCG), pregnancy associated plasma protein A (PAPP-A),

<b>P2. CHEMICAL</b>	
	<p>unconjugated oestriol (uE<sub>3</sub>), alpha-fetoprotein (AFP) - including (if performed) a service described in item 73527 or 73529 - Applicable not more than once in a pregnancy</p> <p><b>Fee:</b> \$39.75      <b>Benefit:</b> 75% = \$29.85    85% = \$33.80</p>
66751	<p>Quantitation, in pregnancy, of any three or more tests described in 66750</p> <p>(Item is subject to rule 25)</p> <p><b>Fee:</b> \$55.25      <b>Benefit:</b> 75% = \$41.45    85% = \$47.00</p>
66752	<p>Quantitation of acetoacetate, beta-hydroxybutyrate, citrate, oxalate, total free fatty acids, cysteine, homocysteine, cystine, lactate, pyruvate or other amino acids and hydroxyproline (except if performed as part of item 66773 or 66776) - 1 test</p> <p><b>Fee:</b> \$24.70      <b>Benefit:</b> 75% = \$18.55    85% = \$21.00</p>
66755	<p>2 or more tests described in item 66752</p> <p><b>Fee:</b> \$38.85      <b>Benefit:</b> 75% = \$29.15    85% = \$33.05</p>
66756	<p>Quantitation of 10 or more amino acids for the diagnosis of inborn errors of metabolism - up to 4 tests in a 12 month period on specimens of plasma, CSF and urine.</p> <p><b>Fee:</b> \$98.30      <b>Benefit:</b> 75% = \$73.75    85% = \$83.60</p>
66757	<p>Quantitation of 10 or more amino acids for monitoring of previously diagnosed inborn errors of metabolism in 1 tissue type.</p> <p><b>Fee:</b> \$98.30      <b>Benefit:</b> 75% = \$73.75    85% = \$83.60</p>
66758	<p>Quantitation of angiotensin converting enzyme, or cholinesterase - 1 or more tests</p> <p><b>Fee:</b> \$24.70      <b>Benefit:</b> 75% = \$18.55    85% = \$21.00</p>
66761	<p>Test for reducing substances in faeces by any method (except reagent strip or dipstick)</p> <p><b>Fee:</b> \$13.15      <b>Benefit:</b> 75% = \$9.90    85% = \$11.20</p>
66764	<p>Examination for faecal occult blood (including tests for haemoglobin and its derivatives in the faeces except by reagent strip or dip stick methods)</p> <p>with a maximum of 3 examinations on specimens collected on separate days in a 28 day period</p> <p><b>Fee:</b> \$8.90      <b>Benefit:</b> 75% = \$6.70    85% = \$7.60</p>
66767	<p>2 examinations described in item 66764 performed on separately collected and identified specimens</p> <p><b>Fee:</b> \$17.85      <b>Benefit:</b> 75% = \$13.40    85% = \$15.20</p>
66770	<p>3 examinations described in item 66764 performed on separately collected and identified specimens</p> <p><b>Fee:</b> \$26.70      <b>Benefit:</b> 75% = \$20.05    85% = \$22.70</p>
66773	<p>Quantitation of products of collagen breakdown or formation for the monitoring of patients with proven low bone mineral density, and if performed, a service described in item 66752 - 1 or more tests</p> <p><i>(Low bone densitometry is defined in the explanatory notes to Category 2 - Diagnostic Procedures and Investigations of the Medicare Benefits Schedule)</i></p>

<b>P2. CHEMICAL</b>	
	<b>Fee:</b> \$24.65 <b>Benefit:</b> 75% = \$18.50    85% = \$21.00
66776	Quantitation of products of collagen breakdown or formation for the monitoring of patients with metabolic bone disease or Paget's disease of bone, and if performed, a service described in item 66752 - 1 or more tests <b>Fee:</b> \$24.65 <b>Benefit:</b> 75% = \$18.50    85% = \$21.00
66779	Adrenaline, noradrenaline, dopamine, histamine, hydroxyindoleacetic acid (5HIAA), hydroxymethoxymandelic acid (HMMA), homovanillic acid (HVA), metanephrines, methoxyhydroxyphenylethylene glycol (MHPG), phenylacetic acid (PAA) or serotonin quantitation - 1 or more tests <b>Fee:</b> \$39.95 <b>Benefit:</b> 75% = \$30.00    85% = \$34.00
66780	A test described in item 66779 if rendered by a receiving APP - 1 or more tests (Item is subject to rule 18) <b>Fee:</b> \$39.95 <b>Benefit:</b> 75% = \$30.00    85% = \$34.00
66782	Porphyryns or porphyryns precursors - detection in plasma, red cells, urine or faeces - 1 or more tests <b>Fee:</b> \$13.15 <b>Benefit:</b> 75% = \$9.90    85% = \$11.20
66783	A test described in item 66782 if rendered by a receiving APP - 1 or more tests (Item is subject to rule 18) <b>Fee:</b> \$13.15 <b>Benefit:</b> 75% = \$9.90    85% = \$11.20
66785	Porphyryns or porphyryns precursors - quantitation in plasma, red cells, urine or faeces - 1 test (Item is subject to rule 6) <b>Fee:</b> \$39.95 <b>Benefit:</b> 75% = \$30.00    85% = \$34.00
66788	Porphyryns or porphyryns precursors - quantitation in plasma, red cells, urine or faeces - 2 or more tests (Item is subject to rule 6) <b>Fee:</b> \$65.85 <b>Benefit:</b> 75% = \$49.40    85% = \$56.00
66789	A test described in item 66785 if rendered by a receiving APP, where no tests in the item have been rendered by the referring APP - 1 test (Item is subject to rule 6 and 18) <b>Fee:</b> \$39.95 <b>Benefit:</b> 75% = \$30.00    85% = \$34.00
66790	A test described in item 66785 other than that described in 66789, if rendered by a receiving APP - to a maximum of 1 test (Item is subject to rule 6 and 18) <b>Fee:</b> \$25.90 <b>Benefit:</b> 75% = \$19.45    85% = \$22.05
66791	Porphyryn biosynthetic enzymes - measurement of activity in blood cells or other tissues - 1 or more tests <b>Fee:</b> \$74.45 <b>Benefit:</b> 75% = \$55.85    85% = \$63.30
66792	A test described in item 66791 if rendered by a receiving APP - 1 or more tests

<b>P2. CHEMICAL</b>	
	(Item is subject to rule 18) <b>Fee:</b> \$74.45 <b>Benefit:</b> 75% = \$55.85    85% = \$63.30
66800	Quantitation in blood, urine or other body fluid by any method (except reagent tablet or reagent strip) of any of the following being used therapeutically by the patient from whom the specimen was taken: amikacin, carbamazepine, digoxin, disopyramide, ethanol, ethosuximide, gentamicin, lithium, lignocaine, netilmicin, paracetamol, phenobarbitone, primidone, phenytoin, procainamide, quinidine, salicylate, theophylline, tobramycin, valproate or vancomycin - 1 test  (Item to be subject to rule 6)  (See para PN.0.17 of explanatory notes to this Category) <b>Fee:</b> \$18.15 <b>Benefit:</b> 75% = \$13.65    85% = \$15.45
66803	2 tests described in item 66800  (Item is subject to rule 6) <b>Fee:</b> \$30.50 <b>Benefit:</b> 75% = \$22.90    85% = \$25.95
66804	A test described in item 66800 if rendered by a receiving APP, where no tests in the item have been rendered by the referring APP - 1 test  (Item is subject to rule 6 and 18) <b>Fee:</b> \$18.15 <b>Benefit:</b> 75% = \$13.65    85% = \$15.45
66805	A test described in item 66800 other than that described in 66804, if rendered by a receiving APP - each test to a maximum of 2 tests  (Item is subject to rule 6 and 18) <b>Fee:</b> \$12.35 <b>Benefit:</b> 75% = \$9.30    85% = \$10.50
66806	3 tests described in item 66800  (Item is subject to rule 6) <b>Fee:</b> \$41.85 <b>Benefit:</b> 75% = \$31.40    85% = \$35.60
66812	Quantitation, not elsewhere described in this Table by any method or methods, in blood, urine or other body fluid, of a drug being used therapeutically by the patient from whom the specimen was taken - 1 test    (This fee applies where 1 laboratory performs the only test specified on the request form or performs 1 test and refers the rest to the laboratory of a separate APA) (Item is subject to rule 6)  (See para PN.0.17 of explanatory notes to this Category) <b>Fee:</b> \$34.80 <b>Benefit:</b> 75% = \$26.10    85% = \$29.60
66815	2 tests described in item 66812    (This fee applies where 1 laboratory, or more than 1 laboratory belonging to the same APA, performs the only 2 tests specified on the request form or performs 2 tests and refers the rest to the laboratory of a

<b>P2. CHEMICAL</b>	
	<p>separate APA) (Item is subject to rule 6)</p> <p><b>Fee:</b> \$59.55      <b>Benefit:</b> 75% = \$44.70    85% = \$50.65</p>
66816	<p>A test described in item 66812 if rendered by a receiving APP, where no tests in the item have been rendered by the referring APP - 1 test</p> <p>(Item is subject to rule 6 and 18)</p> <p><b>Fee:</b> \$34.80      <b>Benefit:</b> 75% = \$26.10    85% = \$29.60</p>
66817	<p>A test described in item 66812, other than that described in 66816, if rendered by a receiving APP - to a maximum of 1 test</p> <p>(Item is subject to rule 6 and 18)</p> <p><b>Fee:</b> \$24.75      <b>Benefit:</b> 75% = \$18.60    85% = \$21.05</p>
66819	<p>Quantitation of copper, manganese, selenium, or zinc (except if item 66667 applies), in blood, urine or other body fluid - 1 test.</p> <p>(Item is subject to rule 6, 22 and 25)</p> <p><b>Fee:</b> \$30.60      <b>Benefit:</b> 75% = \$22.95    85% = \$26.05</p>
66820	<p>A test described in item 66819 if rendered by a receiving APP, where no tests in the item have been rendered by the referring APP - 1 test</p> <p>(Item is subject to rule 6, 18, 22 and 25)</p> <p><b>Fee:</b> \$30.60      <b>Benefit:</b> 75% = \$22.95    85% = \$26.05</p>
66821	<p>A test described in item 66819 other than that described in 66820 if rendered by a receiving APP to a maximum of 1 test</p> <p>(Item is subject to rule 6, 18, 22 and 25)</p> <p><b>Fee:</b> \$21.80      <b>Benefit:</b> 75% = \$16.35    85% = \$18.55</p>
66822	<p>Quantitation of copper, manganese, selenium, or zinc (except if item 66667 applies), in blood, urine or other body fluid - 2 or more tests.</p> <p>(Item is subject to rule 6, 22 and 25)</p> <p><b>Fee:</b> \$52.45      <b>Benefit:</b> 75% = \$39.35    85% = \$44.60</p>
66825	<p>Quantitation of aluminium (except if item 66671 applies), arsenic, beryllium, cadmium, chromium, gold, mercury, nickel, or strontium, in blood, urine or other body fluid or tissue - 1 test. To a maximum of 3 of this item in a 6 month period</p> <p>(Item is subject to rule 6, 22 and 25)</p> <p><b>Fee:</b> \$30.60      <b>Benefit:</b> 75% = \$22.95    85% = \$26.05</p>
66826	<p>A test described in item 66825 if rendered by a receiving APP where no tests have been rendered by the referring APP - 1 test</p> <p>(Item is subject to rules 6, 18, 22 and 25 )</p> <p><b>Fee:</b> \$30.60      <b>Benefit:</b> 75% = \$22.95    85% = \$26.05</p>
66827	<p>A test described in item 66825, other than that described in 66826, if rendered by a receiving APP to a</p>

<b>P2. CHEMICAL</b>	
	<p>maximum of 1 test</p> <p>(Item is subject to rules 6, 18, 22 and 25)</p> <p><b>Fee:</b> \$21.80      <b>Benefit:</b> 75% = \$16.35    85% = \$18.55</p>
66828	<p>Quantitation of aluminium (except if item 66671 applies), arsenic, beryllium, cadmium, chromium, gold, mercury, nickel, or strontium, in blood, urine or other body fluid or tissue - 2 or more tests. To a maximum of 3 of this item in a 6 month period</p> <p>(Item is subject to rule 6, 22 and 25)</p> <p><b>Fee:</b> \$52.45      <b>Benefit:</b> 75% = \$39.35    85% = \$44.60</p>
66830	<p>Quantitation of BNP or NT-proBNP for the diagnosis of heart failure in patients presenting with dyspnoea to a hospital Emergency Department</p> <p>(Item is subject to rule 25)</p> <p><b>Fee:</b> \$58.50      <b>Benefit:</b> 75% = \$43.90    85% = \$49.75</p>
66831	<p>Quantitation of copper or iron in liver tissue biopsy</p> <p><b>Fee:</b> \$30.95      <b>Benefit:</b> 75% = \$23.25    85% = \$26.35</p>
66832	<p>A test described in item 66831 if rendered by a receiving APP</p> <p>(Item is subject to rule 18A and 22)</p> <p><b>Fee:</b> \$30.95      <b>Benefit:</b> 75% = \$23.25    85% = \$26.35</p>
66833	<p>25-hydroxyvitamin D, quantification in serum, for the investigation of a patient who:</p> <ul style="list-style-type: none"> <li>(a) has signs or symptoms of osteoporosis or osteomalacia; or</li> <li>(b) has increased alkaline phosphatase and otherwise normal liver function tests; or</li> <li>(c) has hyperparathyroidism, hypo- or hypercalcaemia, or hypophosphataemia; or</li> <li>(d) is suffering from malabsorption (for example, because the patient has cystic fibrosis, short bowel syndrome, inflammatory bowel disease or untreated coeliac disease, or has had bariatric surgery); or</li> <li>(e) has deeply pigmented skin, or chronic and severe lack of sun exposure for cultural, medical, occupational or residential reasons; or</li> <li>(f) is taking medication known to decrease 25OH-D levels (for example, anticonvulsants); or</li> <li>(g) has chronic renal failure or is a renal transplant recipient; or</li> <li>(h) is less than 16 years of age and has signs or symptoms of rickets; or</li> <li>(i) is an infant whose mother has established vitamin D deficiency; or</li> <li>(j) is a exclusively breastfed baby and has at least one other risk factor mentioned in a paragraph in this item; or</li> <li>(k) has a sibling who is less than 16 years of age and has vitamin D deficiency</li> </ul> <p><b>Fee:</b> \$30.05      <b>Benefit:</b> 75% = \$22.55    85% = \$25.55</p>

<b>P2. CHEMICAL</b>	
66834	<p>A test described in item 66833 if rendered by a receiving APP (Item is subject to Rule 18)</p> <p><b>Fee:</b> \$30.05      <b>Benefit:</b> 75% = \$22.55    85% = \$25.55</p>
66835	<p>1, 25-dihydroxyvitamin D - quantification in serum, if the request for the test is made by, or on advice of, the specialist or consultant physician managing the treatment of the patient</p> <p><b>Fee:</b> \$39.05      <b>Benefit:</b> 75% = \$29.30    85% = \$33.20</p>
66836	<p>1, 25-dihydroxyvitamin D-quantification in serum, if:</p> <p>(a) the patient has hypercalcaemia; and</p> <p>(b) the request for the test is made by a general practitioner managing the treatment of the patient</p> <p><b>Fee:</b> \$39.05      <b>Benefit:</b> 75% = \$29.30    85% = \$33.20</p>
66837	<p>A test described in item 66835 or 66836 if rendered by a receiving APP (Item is subject to Rule 18)</p> <p><b>Fee:</b> \$39.05      <b>Benefit:</b> 75% = \$29.30    85% = \$33.20</p>
66838	<p>Serum vitamin B12 test (Item is subject to Rule 25)</p> <p><b>Fee:</b> \$23.60      <b>Benefit:</b> 75% = \$17.70    85% = \$20.10</p>
66839	<p>Quantification of vitamin B12 markers such as holoTranscobalamin or methylmalonic acid, where initial serum vitamin B12 result is low or equivocal</p> <p><b>Fee:</b> \$42.95      <b>Benefit:</b> 75% = \$32.25    85% = \$36.55</p>
66840	<p>Serum folate test and, if required, red cell folate test for a patient at risk of folate deficiency, including patients with malabsorption conditions, macrocytic anaemia or coeliac disease</p> <p><b>Fee:</b> \$23.60      <b>Benefit:</b> 75% = \$17.70    85% = \$20.10</p>
66841	<p>Quantitation of HbA1c (glycated haemoglobin) performed for the diagnosis of diabetes in asymptomatic patients at high risk. (Item is subject to rule 25)</p> <p><b>Fee:</b> \$16.80      <b>Benefit:</b> 75% = \$12.60    85% = \$14.30</p>
66900	<p>CARBON-LABELLED UREA BREATH TEST using oral C-13 or C-14 urea, including the measurement of exhaled <sup>13</sup>CO<sub>2</sub> or <sup>14</sup>CO<sub>2</sub> (except if item 12533 applies) for either:-</p> <p>(a) the confirmation of <i>Helicobacter pylori</i> colonisation OR</p> <p>(b) the monitoring of the success of eradication of <i>Helicobacter pylori</i>.</p> <p><b>Fee:</b> \$77.65      <b>Benefit:</b> 75% = \$58.25    85% = \$66.05</p>
<b>P3. MICROBIOLOGY</b>	
	<b>Group P3. Microbiology</b>
69300	<p>Microscopy of wet film material other than blood, from 1 or more sites, obtained directly from a patient (not cultures) including:</p> <p>(a) differential cell count (if performed); or</p>

<b>P3. MICROBIOLOGY</b>	
	<p>(b) examination for dermatophytes; or</p> <p>(c) dark ground illumination; or</p> <p>(d) stained preparation or preparations using any relevant stain or stains;</p> <p>1 or more tests</p> <p><b>Fee:</b> \$12.50      <b>Benefit:</b> 75% = \$9.40    85% = \$10.65</p>
69303	<p>Culture and (if performed) microscopy to detect pathogenic micro-organisms from nasal swabs, throat swabs, eye swabs and ear swabs (excluding swabs taken for epidemiological surveillance), including (if performed):</p> <p>(a) pathogen identification and antibiotic susceptibility testing; or</p> <p>(b) a service described in item 69300;</p> <p>specimens from 1 or more sites</p> <p><b>Fee:</b> \$22.00      <b>Benefit:</b> 75% = \$16.50    85% = \$18.70</p>
69306	<p>Microscopy and culture to detect pathogenic micro-organisms from skin or other superficial sites, including (if performed):</p> <p>(a) pathogen identification and antibiotic susceptibility testing; or</p> <p>(b) a service described in items 69300, 69303, 69312, 69318;</p> <p>1 or more tests on 1 or more specimens</p> <p><b>Fee:</b> \$33.75      <b>Benefit:</b> 75% = \$25.35    85% = \$28.70</p>
69309	<p>Microscopy and culture to detect dermatophytes and other fungi causing cutaneous disease from skin scrapings, skin biopsies, hair and nails (excluding swab specimens) and including (if performed):</p> <p>(a) the detection of antigens not elsewhere specified in this Schedule; or</p> <p>(b) a service described in items 69300, 69303, 69306, 69312, 69318;</p> <p>1 or more tests on 1 or more specimens</p> <p><b>Fee:</b> \$48.15      <b>Benefit:</b> 75% = \$36.15    85% = \$40.95</p>
69312	<p>Microscopy and culture to detect pathogenic micro-organisms from urethra, vagina, cervix or rectum (except for faecal pathogens), including (if performed):</p> <p>(a) pathogen identification and antibiotic susceptibility testing; or</p> <p>(b) a service described in items 69300, 69303, 69306 and 69318;</p> <p>1 or more tests on 1 or more specimens</p> <p><b>Fee:</b> \$33.75      <b>Benefit:</b> 75% = \$25.35    85% = \$28.70</p>
69316	<p>Detection of Chlamydia trachomatis by any method - 1 test (Item is subject to rule 26)</p> <p><b>Fee:</b> \$28.65      <b>Benefit:</b> 75% = \$21.50    85% = \$24.40</p>

<b>P3. MICROBIOLOGY</b>	
69317	1 test described in item 69494 and a test described in 69316. (Item is subject to rule 26) <b>Fee:</b> \$35.85 <b>Benefit:</b> 75% = \$26.90    85% = \$30.50
69318	Microscopy and culture to detect pathogenic micro-organisms from specimens of sputum (except when part of items 69324, 69327 and 69330), including (if performed): (a) pathogen identification and antibiotic susceptibility testing; or (b) a service described in items 69300, 69303, 69306 and 69312; 1 or more tests on 1 or more specimens <b>Fee:</b> \$33.75 <b>Benefit:</b> 75% = \$25.35    85% = \$28.70
69319	2 tests described in item 69494 and a test described in 69316. (Item is subject to rule 26) <b>Fee:</b> \$42.95 <b>Benefit:</b> 75% = \$32.25    85% = \$36.55
69321	Microscopy and culture of post-operative wounds, aspirates of body cavities, synovial fluid, CSF or operative or biopsy specimens, for the presence of pathogenic micro-organisms involving aerobic and anaerobic cultures and the use of different culture media, and including (if performed): (a) pathogen identification and antibiotic susceptibility testing; or (b) a service described in item 69300, 69303, 69306, 69312 or 69318; specimens from 1 or more sites <b>Fee:</b> \$48.15 <b>Benefit:</b> 75% = \$36.15    85% = \$40.95
69324	Microscopy (with appropriate stains) and culture for mycobacteria - 1 specimen of sputum, urine, or other body fluid or 1 operative or biopsy specimen, including (if performed): (a) microscopy and culture of other bacterial pathogens isolated as a result of this procedure; or (b) pathogen identification and antibiotic susceptibility testing; including a service described in item 69300 <b>Fee:</b> \$43.00 <b>Benefit:</b> 75% = \$32.25    85% = \$36.55
69325	A test described in item 69324 if rendered by a receiving APP (Item is subject to rule 18) <b>Fee:</b> \$43.00 <b>Benefit:</b> 75% = \$32.25    85% = \$36.55
69327	Microscopy (with appropriate stains) and culture for mycobacteria - 2 specimens of sputum, urine, or other body fluid or 2 operative or biopsy specimens, including (if performed): (a) microscopy and culture of other bacterial pathogens isolated as a result of this procedure; or (b) pathogen identification and antibiotic susceptibility testing; including a service mentioned in item 69300 <b>Fee:</b> \$85.00 <b>Benefit:</b> 75% = \$63.75    85% = \$72.25
69328	A test described in item 69327 if rendered by a receiving APP

<b>P3. MICROBIOLOGY</b>	
	(Item is subject to rule 18) <b>Fee:</b> \$85.00 <b>Benefit:</b> 75% = \$63.75    85% = \$72.25
69330	Microscopy (with appropriate stains) and culture for mycobacteria - 3 specimens of sputum, urine, or other body fluid or 3 operative or biopsy specimens, including (if performed):  (a) microscopy and culture of other bacterial pathogens isolated as a result of this procedure; or  (b) pathogen identification and antibiotic susceptibility testing;  including a service mentioned in item 69300 <b>Fee:</b> \$128.00 <b>Benefit:</b> 75% = \$96.00    85% = \$108.80
69331	A test described in item 69330 if rendered by a receiving APP  (Item is subject to rule 18) <b>Fee:</b> \$128.00 <b>Benefit:</b> 75% = \$96.00    85% = \$108.80
69333	Urine examination (including serial examinations) by any means other than simple culture by dip slide, including:  (a) cell count; and  (b) culture; and  (c) colony count; and  (d) (if performed) stained preparations; and  (e) (if performed) identification of cultured pathogens; and  (f) (if performed) antibiotic susceptibility testing; and  (g) (if performed) examination for pH, specific gravity, blood, protein, urobilinogen, sugar, acetone or bile salts <b>Fee:</b> \$20.55 <b>Benefit:</b> 75% = \$15.45    85% = \$17.50
69336	Microscopy of faeces for ova, cysts and parasites that must include a concentration technique, and the use of fixed stains or antigen detection for cryptosporidia and giardia - including (if performed) a service described in item 69300 - 1 of this item in any 7 day period <b>Fee:</b> \$33.45 <b>Benefit:</b> 75% = \$25.10    85% = \$28.45
69339	Microscopy of faeces for ova, cysts and parasites using concentration techniques examined subsequent to item 69336 on a separately collected and identified specimen collected within 7 days of the examination described in 69336 - 1 examination in any 7 day period <b>Fee:</b> \$19.10 <b>Benefit:</b> 75% = \$14.35    85% = \$16.25
69345	Culture and (if performed) microscopy without concentration techniques of faeces for faecal pathogens, using at least 2 selective or enrichment media and culture in at least 2 different atmospheres including (if performed):  (a) pathogen identification and antibiotic susceptibility testing; and

<b>P3. MICROBIOLOGY</b>	
	<p>(b) the detection of clostridial toxins; and</p> <p>(c) a service described in item 69300;</p> <p>- 1 examination in any 7 day period</p> <p><b>Fee:</b> \$52.90      <b>Benefit:</b> 75% = \$39.70    85% = \$45.00</p>
69354	<p>Blood culture for pathogenic micro-organisms (other than viruses), including sub-cultures and (if performed):</p> <p>(a) identification of any cultured pathogen; and</p> <p>(b) necessary antibiotic susceptibility testing;</p> <p>to a maximum of 3 sets of cultures - 1 set of cultures</p> <p><b>Fee:</b> \$30.75      <b>Benefit:</b> 75% = \$23.10    85% = \$26.15</p>
69357	<p>2 sets of cultures described in item 69354</p> <p><b>Fee:</b> \$61.45      <b>Benefit:</b> 75% = \$46.10    85% = \$52.25</p>
69360	<p>3 sets of cultures described in item 69354</p> <p><b>Fee:</b> \$92.20      <b>Benefit:</b> 75% = \$69.15    85% = \$78.40</p>
69363	<p>Detection of <i>Clostridium difficile</i> or <i>Clostridium difficile</i> toxin (except if a service described in item 69345 has been performed) - one or more tests</p> <p><b>Fee:</b> \$28.65      <b>Benefit:</b> 75% = \$21.50    85% = \$24.40</p>
69378	<p>Quantitation of HIV viral RNA load in plasma or serum in the monitoring of a HIV sero-positive patient not on antiretroviral therapy - 1 or more tests</p> <p><b>Fee:</b> \$180.25      <b>Benefit:</b> 75% = \$135.20    85% = \$153.25</p>
69379	<p>A test described in item 69378 if rendered by a receiving APP - 1 or more tests (Item is subject to rule 18)</p> <p><b>Fee:</b> \$180.25      <b>Benefit:</b> 75% = \$135.20    85% = \$153.25</p>
69380	<p>Genotypic testing for HIV antiretroviral resistance in a patient with confirmed HIV infection if the patient's viral load is greater than 1,000 copies per ml at any of the following times:</p> <p>(a) at presentation; or</p> <p>(b) before antiretroviral therapy; or</p> <p>(c) when treatment with combination antiretroviral agents fails;</p> <p>maximum of 2 tests in a 12 month period</p> <p><b>Fee:</b> \$770.30      <b>Benefit:</b> 75% = \$577.75    85% = \$685.60</p>
69381	<p>Quantitation of HIV viral RNA load in plasma or serum in the monitoring of antiretroviral therapy in a HIV sero-positive patient - 1 or more tests on 1 or more specimens</p> <p><b>Fee:</b> \$180.25      <b>Benefit:</b> 75% = \$135.20    85% = \$153.25</p>
69382	<p>Quantitation of HIV viral RNA load in cerebrospinal fluid in a HIV sero-positive patient - 1 or more</p>

<b>P3. MICROBIOLOGY</b>	
	<p>tests on 1 or more specimens</p> <p><b>Fee:</b> \$180.25      <b>Benefit:</b> 75% = \$135.20    85% = \$153.25</p>
69383	<p>A test described in item 69381 if rendered by a receiving APP - 1 or more tests on 1 or more specimens (Item is subject to rule 18)</p> <p><b>Fee:</b> \$180.25      <b>Benefit:</b> 75% = \$135.20    85% = \$153.25</p>
69384	<p>Quantitation of 1 antibody to microbial antigens not elsewhere described in the Schedule - 1 test</p> <p>(This fee applies where a laboratory performs the only antibody test specified on the request form or performs 1 test and refers the rest to the laboratory of a separate APA)</p> <p>(Item is subject to rule 6)</p> <p>(See para PN.0.18 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$15.65      <b>Benefit:</b> 75% = \$11.75    85% = \$13.35</p>
69387	<p>2 tests described in item 69384</p> <p>(This fee applies where 1 laboratory, or more than 1 laboratory belonging to the same APA, performs the only 2 estimations specified on the request form or performs 2 of the antibody estimations specified on the request form and refers the remainder to the laboratory of a separate APA)</p> <p>(Item is subject to rule 6)</p> <p>(See para PN.0.18 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$29.00      <b>Benefit:</b> 75% = \$21.75    85% = \$24.65</p>
69390	<p>3 tests described in item 69384</p> <p>(This fee applies where 1 laboratory, or more than 1 laboratory belonging to the same APA, performs the only 3 estimations specified on the request form or performs 3 of the antibody estimations specified on the request form and refers the remainder to the laboratory of a separate APA)</p> <p>(Item is subject to rule 6)</p> <p>(See para PN.0.18 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$42.35      <b>Benefit:</b> 75% = \$31.80    85% = \$36.00</p>
69393	<p>4 tests described in item 69384</p> <p>(This fee applies where 1 laboratory, or more than 1 laboratory belonging to the same APA, performs the only 4 estimations specified on the request form or performs 4 of the antibody estimations specified on the request form and refers the remainder to the laboratory of a separate APA)</p> <p>(Item is subject to rule 6)</p> <p>(See para PN.0.18 of explanatory notes to this Category)</p>

<b>P3. MICROBIOLOGY</b>	
	<b>Fee:</b> \$55.70 <b>Benefit:</b> 75% = \$41.80    85% = \$47.35
	5 or more tests described in item 69384  (This fee applies where 1 laboratory, or more than 1 laboratory belonging to the same APA, performs the only 5 estimations specified on the request form or performs 5 of the antibody tests specified on the request form and refers the remainder to the laboratory of a separate APA)  (Item is subject to rule 6)  (See para PN.0.18 of explanatory notes to this Category)
69396	<b>Fee:</b> \$69.10 <b>Benefit:</b> 75% = \$51.85    85% = \$58.75
	A test described in item 69384, if rendered by a receiving APP, where no tests in the item have been rendered by the referring APP - 1 test  (Item is subject to rules 6 and 18)
69400	<b>Fee:</b> \$15.65 <b>Benefit:</b> 75% = \$11.75    85% = \$13.35
	A test described in item 69384, other than that described in 69400, if rendered by a receiving APP - each test to a maximum of 4 tests  (Item is subject to rule 6, 18 and 18A)
69401	<b>Fee:</b> \$13.35 <b>Benefit:</b> 75% = \$10.05    85% = \$11.35
	Microbiological serology during a pregnancy (except in the investigation of a clinically apparent intercurrent microbial illness or close contact with a patient suffering from parvovirus infection or varicella during that pregnancy) including:  (a) the determination of 1 of the following - rubella immune status, specific syphilis serology, carriage of Hepatitis B, Hepatitis C antibody, HIV antibody and  (b) (if performed) a service described in 1 or more of items 69384, 69475, 69478 and 69481  (See para PN.0.18 of explanatory notes to this Category)
69405	<b>Fee:</b> \$15.65 <b>Benefit:</b> 75% = \$11.75    85% = \$13.35
	Microbiological serology during a pregnancy (except in the investigation of a clinically apparent intercurrent microbial illness or close contact with a patient suffering from parvovirus infection or varicella during that pregnancy) including:  (a) the determination of 2 of the following - rubella immune status, specific syphilis serology, carriage of Hepatitis B, Hepatitis C antibody, HIV antibody and  (b) (if performed) a service described in 1 or more of items 69384, 69475, 69478 and 69481  (See para PN.0.18 of explanatory notes to this Category)
69408	<b>Fee:</b> \$29.00 <b>Benefit:</b> 75% = \$21.75    85% = \$24.65
	Microbiological serology during a pregnancy (except in the investigation of a clinically apparent intercurrent microbial illness or close contact with a patient suffering from parvovirus infection or varicella during that pregnancy) including:  (a) the determination of 3 of the following - rubella immune status, specific syphilis serology, carriage of Hepatitis B, Hepatitis C antibody, HIV antibody and
69411	

<b>P3. MICROBIOLOGY</b>	
	<p>(b) (if performed) a service described in 1 or more of items 69384, 69475, 69478 and 69481</p> <p>(See para PN.0.18 of explanatory notes to this Category)  <b>Fee:</b> \$42.35      <b>Benefit:</b> 75% = \$31.80    85% = \$36.00</p>
69413	<p>Microbiological serology during a pregnancy (except in the investigation of a clinically apparent intercurrent microbial illness or close contact with a patient suffering from parvovirus infection or varicella during that pregnancy) including:</p> <p>(a) the determination of 4 of the following - rubella immune status, specific syphilis serology, carriage of Hepatitis B, Hepatitis C antibody, HIV antibody and</p> <p>(b) (if performed) a service described in 1 or more of items 69384, 69475, 69478 and 69481</p> <p>(See para PN.0.18 of explanatory notes to this Category)  <b>Fee:</b> \$55.70      <b>Benefit:</b> 75% = \$41.80    85% = \$47.35</p>
69415	<p>Microbiological serology during a pregnancy (except in the investigation of a clinically apparent intercurrent microbial illness or close contact with a patient suffering from parvovirus infection or varicella during that pregnancy) including:</p> <p>(a) the determination of all 5 of the following - rubella immune status, specific syphilis serology, carriage of    Hepatitis B, Hepatitis C antibody, HIV antibody and</p> <p>(b) (if performed) a service described in 1 or more of items 69384, 69475, 69478 and 69481</p> <p>(See para PN.0.18 of explanatory notes to this Category)  <b>Fee:</b> \$69.10      <b>Benefit:</b> 75% = \$51.85    85% = \$58.75</p>
69445	<p>Detection of Hepatitis C viral RNA in a patient undertaking antiviral therapy for chronic HCV hepatitis (including a service described in item 69499) - 1 test. To a maximum of 4 of this item in a 12 month period</p> <p>(Item is subject to rule 25)</p> <p><b>Fee:</b> \$92.20      <b>Benefit:</b> 75% = \$69.15    85% = \$78.40</p>
69451	<p>A test described in item 69445 if rendered by a receiving APP - 1 test.</p> <p>(Item is subject to rule 18 and 25)</p> <p><b>Fee:</b> \$92.20      <b>Benefit:</b> 75% = \$69.15    85% = \$78.40</p>
69471	<p>Test of cell-mediated immune response in blood for the detection of latent tuberculosis by interferon gamma release assay (IGRA) in the following people:</p> <p>(a) a person who has been exposed to a confirmed case of active tuberculosis;</p> <p>(b) a person who is infected with human immunodeficiency virus;</p> <p>(c) a person who is to commence, or has commenced, tumour necrosis factor (TNF) inhibitor therapy;</p> <p>(d) a person who is to commence, or has commenced, renal dialysis;</p> <p>(e) a person with silicosis;</p> <p>(f) a person who is, or is about to become, immunosuppressed because of a disease, or a medical</p>

<b>P3. MICROBIOLOGY</b>	
	<p>treatment, not mentioned in paragraphs (a) to (e)</p> <p>(See para PN.3.4 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$34.90      <b>Benefit:</b> 75% = \$26.20    85% = \$29.70</p>
69472	<p>Detection of antibodies to Epstein Barr Virus using specific serology - 1 test</p> <p><b>Fee:</b> \$15.65      <b>Benefit:</b> 75% = \$11.75    85% = \$13.35</p>
69474	<p>Detection of antibodies to Epstein Barr Virus using specific serology - 2 or more tests</p> <p><b>Fee:</b> \$28.65      <b>Benefit:</b> 75% = \$21.50    85% = \$24.40</p>
69475	<p>One test for hepatitis antigen or antibodies to determine immune status or viral carriage following exposure or vaccination to Hepatitis A, Hepatitis B, Hepatitis C or Hepatitis D</p> <p>(Item subject to rule 11)</p> <p><b>Fee:</b> \$15.65      <b>Benefit:</b> 75% = \$11.75    85% = \$13.35</p>
69478	<p>2 tests described in 69475</p> <p>(Item subject to rule 11)</p> <p><b>Fee:</b> \$29.25      <b>Benefit:</b> 75% = \$21.95    85% = \$24.90</p>
69479	<p>Detection of a SARS-CoV-2 nucleic acid 1 or more tests if:</p> <p>(a) the person is a private patient in a recognised hospital; or</p> <p>(b) the person receives the service from a prescribed laboratory as described in 4.1 of the Pathology Services Table</p> <p>Where the service is bulk-billed.</p> <p><b>Fee:</b> \$50.00      <b>Benefit:</b> 75% = \$37.50    85% = \$42.50</p>
69480	<p>Detection of a SARS-CoV-2 nucleic acid 1 or more tests if:</p> <p>(a) the service is not covered by item 69479</p> <p>Where the service is bulk billed</p> <p><b>Fee:</b> \$100.00      <b>Benefit:</b> 75% = \$75.00    85% = \$85.00</p>
69481	<p>Investigation of infectious causes of acute or chronic hepatitis - 3 tests for hepatitis antibodies or antigens,</p> <p>(Item subject to rule 11)</p> <p>(See para PN.0.19 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$40.55      <b>Benefit:</b> 75% = \$30.45    85% = \$34.50</p>
69482	<p>Quantitation of Hepatitis B viral DNA in patients who are Hepatitis B surface antigen positive and have chronic hepatitis B, but are not receiving antiviral therapy - 1 test</p> <p>(Item is subject to rule 25)</p>

<b>P3. MICROBIOLOGY</b>	
	<b>Fee:</b> \$152.10 <b>Benefit:</b> 75% = \$114.10    85% = \$129.30
	Quantitation of Hepatitis B viral DNA in patients who are Hepatitis B surface antigen positive and who have chronic hepatitis B and are receiving antiviral therapy - 1 test  (Item is subject to rule 25)
69483	<b>Fee:</b> \$152.10 <b>Benefit:</b> 75% = \$114.10    85% = \$129.30
	Supplementary testing for Hepatitis B surface antigen or Hepatitis C antibody using a different assay on the specimen which yielded a reactive result on initial testing  (Item is subject to rule 18)
69484	<b>Fee:</b> \$17.10 <b>Benefit:</b> 75% = \$12.85    85% = \$14.55
	Quantitation of HCV RNA load in plasma or serum in:  (a) the pre-treatment evaluation, of a patient with chronic HCV hepatitis, for antiviral therapy; or  (b) the assessment of efficacy of antiviral therapy for such a patient  (including a service in item 69499 or 69445)  (Item is subject to rule 18 and 25)
69488	<b>Fee:</b> \$180.25 <b>Benefit:</b> 75% = \$135.20    85% = \$153.25
	A test described in item 69488 if rendered by a receiving APP  (Item is subject to rule 18 and 25)
69489	<b>Fee:</b> \$180.25 <b>Benefit:</b> 75% = \$135.20    85% = \$153.25
	Nucleic acid amplification and determination of Hepatitis C virus (HCV) genotype if the patient is HCV RNA positive and is being evaluated for antiviral therapy of chronic HCV hepatitis.  To a maximum of 1 of this item in a 12 month period
69491	<b>Fee:</b> \$204.80 <b>Benefit:</b> 75% = \$153.60    85% = \$174.10
	A test described in item 69491 if rendered by a receiving APP - 1 test (Item is subject to rule 18 and 25)
69492	<b>Fee:</b> \$204.80 <b>Benefit:</b> 75% = \$153.60    85% = \$174.10
	Detection of a virus or microbial antigen or microbial nucleic acid (not elsewhere specified)  1 test  (Item is subject to rule 6 and 26)
69494	<b>Fee:</b> \$28.65 <b>Benefit:</b> 75% = \$21.50    85% = \$24.40
	2 tests described in 69494  (Item is subject to rule 6 and 26)
69495	<b>Fee:</b> \$35.85 <b>Benefit:</b> 75% = \$26.90    85% = \$30.50

<b>P3. MICROBIOLOGY</b>	
	3 or more tests described in 69494  (Item is subject to rule 6 and 26)
69496	<b>Fee:</b> \$43.05 <b>Benefit:</b> 75% = \$32.30    85% = \$36.60
	A test described in item 69494, if rendered by a receiving APP, where no tests in the item have been rendered by the referring APP - 1 test (Item is subject to rule 6, 18 and 26)
69497	<b>Fee:</b> \$28.65 <b>Benefit:</b> 75% = \$21.50    85% = \$24.40
	A test described in item 69494, other than that described in 69497, if rendered by a receiving APP - each test to a maximum of 2 tests (Item is subject to rule 6, 18 and 26)
69498	<b>Fee:</b> \$7.20 <b>Benefit:</b> 75% = \$5.40    85% = \$6.15
	Detection of Hepatitis C viral RNA if at least 1 of the following criteria is satisfied:  (a) the patient is Hepatitis C seropositive;  (b) the patient's serological status is uncertain after testing;  (c) the test is performed for the purpose of:  (i) determining the Hepatitis C status of an immunosuppressed or immunocompromised patient; or  (ii) the detection of acute Hepatitis C prior to seroconversion where considered necessary for the clinical management of the patient;  To a maximum of 1 of this item in a 12 month period  (Item is subject to rule 19 and 25)
69499	<b>Fee:</b> \$92.20 <b>Benefit:</b> 75% = \$69.15    85% = \$78.40
	A test described in item 69499 if rendered by a receiving APP - 1 test (Item is subject to rule 18,19 and 25)
69500	<b>Fee:</b> \$92.20 <b>Benefit:</b> 75% = \$69.15    85% = \$78.40
	Detection of a SARS-CoV-2 nucleic acid 1 or more tests if:  (a) the person is employed, hired, retained or contracted;  (i) by an approved provider, or works in an aged care service, in Victoria; or  (ii) to travel interstate as a driver of a heavy vehicle; or  (iii) to travel interstate as a rail crew member; and  (b) the person is informed of the results of the tests within 24 hours of receipt of the specimen at an accredited pathology laboratory; and  (c) the results of the test are reported in adherence with the applicable State or Territory reporting requirements within 24 hours of receipt of the specimen
69501	

<b>P3. MICROBIOLOGY</b>	
	<p>at an accredited pathology laboratory; and</p> <p>(d) the person is not a private patient in a recognised hospital; and</p> <p>(e) the person is not an admitted patient of a hospital; and</p> <p>(f) the service is not performed in a prescribed laboratory as described in 4.1 of the pathology services table</p> <p>Other than a service to which item 69476, 69477, 69479 or 69480 applies, or an item in the pathology services tables applies.</p> <p>Where the service is bulk billed.</p> <p>(See para PN.3.6 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$110.00      <b>Benefit:</b> 85% = \$93.50</p>
<b>P4. IMMUNOLOGY</b>	
	<b>Group P4. Immunology</b>
	<p>Electrophoresis, quantitative and qualitative, of serum, urine or other body fluid all collected within a 28 day period, to demonstrate:</p> <p>(a) protein classes; or</p> <p>(b) presence and amount of paraprotein;</p> <p>including the preliminary quantitation of total protein, albumin and globulin - 1 specimen type</p>
71057	<b>Fee:</b> \$32.90 <b>Benefit:</b> 75% = \$24.70    85% = \$28.00
	Examination as described in item 71057 of 2 or more specimen types
71058	<b>Fee:</b> \$50.50 <b>Benefit:</b> 75% = \$37.90    85% = \$42.95
	<p>Immunofixation or immunoelectrophoresis or isoelectric focusing of:</p> <p>(a) urine for detection of Bence Jones proteins; or</p> <p>(b) serum, plasma or other body fluid;</p> <p>and characterisation of a paraprotein or cryoglobulin -</p> <p>examination of 1 specimen type (eg. serum, urine or CSF)</p>
71059	<b>Fee:</b> \$35.65 <b>Benefit:</b> 75% = \$26.75    85% = \$30.35
	Examination as described in item 71059 of 2 or more specimen types
71060	<b>Fee:</b> \$44.05 <b>Benefit:</b> 75% = \$33.05    85% = \$37.45
	<p>Electrophoresis and immunofixation or immunoelectrophoresis or isoelectric focussing of CSF for the detection of oligoclonal bands and including if required electrophoresis of the patient's serum for comparison purposes - 1 or more tests</p>
71062	<b>Fee:</b> \$44.05 <b>Benefit:</b> 75% = \$33.05    85% = \$37.45

<b>P4. IMMUNOLOGY</b>	
	Detection and quantitation of cryoglobulins or cryofibrinogen - 1 or more tests
71064	<b>Fee:</b> \$20.75 <b>Benefit:</b> 75% = \$15.60    85% = \$17.65
	Quantitation of total immunoglobulin A by any method in serum, urine or other body fluid - 1 test
71066	<b>Fee:</b> \$14.55 <b>Benefit:</b> 75% = \$10.95    85% = \$12.40
	Quantitation of total immunoglobulin G by any method in serum, urine or other body fluid - 1 test
71068	<b>Fee:</b> \$14.55 <b>Benefit:</b> 75% = \$10.95    85% = \$12.40
	2 tests described in items 71066, 71068, 71072 or 71074
71069	<b>Fee:</b> \$22.75 <b>Benefit:</b> 75% = \$17.10    85% = \$19.35
	3 or more tests described in items 71066, 71068, 71072 or 71074
71071	<b>Fee:</b> \$30.95 <b>Benefit:</b> 75% = \$23.25    85% = \$26.35
	Quantitation of total immunoglobulin M by any method in serum, urine or other body fluid - 1 test
71072	<b>Fee:</b> \$14.55 <b>Benefit:</b> 75% = \$10.95    85% = \$12.40
	Quantitation of all 4 immunoglobulin G subclasses
71073	<b>Fee:</b> \$106.15 <b>Benefit:</b> 75% = \$79.65    85% = \$90.25
	Quantitation of total immunoglobulin D by any method in serum, urine or other body fluid - 1 test
71074	<b>Fee:</b> \$14.55 <b>Benefit:</b> 75% = \$10.95    85% = \$12.40
	Quantitation of immunoglobulin E (total), 1 test. (Item is subject to rule 25)
71075	<b>Fee:</b> \$23.00 <b>Benefit:</b> 75% = \$17.25    85% = \$19.55
	A test described in item 71073 if rendered by a receiving APP - 1 test (Item is subject to rule 18)
71076	<b>Fee:</b> \$106.15 <b>Benefit:</b> 75% = \$79.65    85% = \$90.25
	Quantitation of immunoglobulin E (total) in the follow up of a patient with proven immunoglobulin-E-secreting myeloma, proven congenital immunodeficiency or proven allergic bronchopulmonary aspergillosis, 1 test. (Item is subject to rule 25)
71077	<b>Fee:</b> \$27.05 <b>Benefit:</b> 75% = \$20.30    85% = \$23.00
	Detection of specific immunoglobulin E antibodies to single or multiple potential allergens, 1 test (Item is subject to rule 25)
71079	<b>Fee:</b> \$26.80 <b>Benefit:</b> 75% = \$20.10    85% = \$22.80
	Quantitation of total haemolytic complement
71081	<b>Fee:</b> \$40.55 <b>Benefit:</b> 75% = \$30.45    85% = \$34.50
	Quantitation of complement components C3 and C4 or properdin factor B - 1 test
71083	

<b>P4. IMMUNOLOGY</b>	
	<b>Fee:</b> \$20.15 <b>Benefit:</b> 75% = \$15.15    85% = \$17.15
71085	2 tests described in item 71083 <b>Fee:</b> \$28.95 <b>Benefit:</b> 75% = \$21.75    85% = \$24.65
71087	3 or more tests described in item 71083 <b>Fee:</b> \$37.70 <b>Benefit:</b> 75% = \$28.30    85% = \$32.05
71089	Quantitation of complement components or breakdown products of complement proteins not elsewhere described in an item in this Schedule - 1 test  (Item is subject to rule 6) <b>Fee:</b> \$29.15 <b>Benefit:</b> 75% = \$21.90    85% = \$24.80
71090	A test described in item 71089, if rendered by a receiving APP, where no tests in the item have been rendered by the referring APP - 1 test  (Item is subject to rule 6 and 18) <b>Fee:</b> \$29.15 <b>Benefit:</b> 75% = \$21.90    85% = \$24.80
71091	2 tests described in item 71089  (Item is subject to rule 6) <b>Fee:</b> \$52.85 <b>Benefit:</b> 75% = \$39.65    85% = \$44.95
71092	Tests described in item 71089, other than that described in 71090, if rendered by a receiving APP - each test to a maximum of 2 tests  (Item is subject to rule 6 and 18) <b>Fee:</b> \$23.70 <b>Benefit:</b> 75% = \$17.80    85% = \$20.15
71093	3 or more tests described in item 71089  (Item is subject to rule 6) <b>Fee:</b> \$76.45 <b>Benefit:</b> 75% = \$57.35    85% = \$65.00
71095	Quantitation of serum or plasma eosinophil cationic protein, or both, to a maximum of 3 assays in 1 year, for monitoring the response to therapy in corticosteroid treated asthma, in a child aged less than 12 years  (See para PN.0.20 of explanatory notes to this Category) <b>Fee:</b> \$40.55 <b>Benefit:</b> 75% = \$30.45    85% = \$34.50
71096	A test described in item 71095 if rendered by a receiving APP.  (Item is subject to rule 18) <b>Fee:</b> \$40.55 <b>Benefit:</b> 75% = \$30.45    85% = \$34.50
71097	Antinuclear antibodies - detection in serum or other body fluids, including quantitation if required <b>Fee:</b> \$24.45 <b>Benefit:</b> 75% = \$18.35    85% = \$20.80
71099	Double-stranded DNA antibodies - quantitation by 1 or more methods other than the Crithidia method <b>Fee:</b> \$26.50 <b>Benefit:</b> 75% = \$19.90    85% = \$22.55

<b>P4. IMMUNOLOGY</b>	
71101	Antibodies to 1 or more extractable nuclear antigens - detection in serum or other body fluids <b>Fee:</b> \$17.40 <b>Benefit:</b> 75% = \$13.05    85% = \$14.80
71103	Characterisation of an antibody detected in a service described in item 71101 (including that service) <b>Fee:</b> \$52.05 <b>Benefit:</b> 75% = \$39.05    85% = \$44.25
71106	Rheumatoid factor - detection by any technique in serum or other body fluids, including quantitation if required <b>Fee:</b> \$11.30 <b>Benefit:</b> 75% = \$8.50    85% = \$9.65
71119	Antibodies to tissue antigens not elsewhere specified in this Table - detection, including quantitation if required, of 1 antibody (See para PN.0.33 of explanatory notes to this Category) <b>Fee:</b> \$17.35 <b>Benefit:</b> 75% = \$13.05    85% = \$14.75
71121	Detection of 2 antibodies specified in item 71119 (See para PN.0.33 of explanatory notes to this Category) <b>Fee:</b> \$20.80 <b>Benefit:</b> 75% = \$15.60    85% = \$17.70
71123	Detection of 3 antibodies specified in item 71119 (See para PN.0.33 of explanatory notes to this Category) <b>Fee:</b> \$24.25 <b>Benefit:</b> 75% = \$18.20    85% = \$20.65
71125	Detection of 4 or more antibodies specified in item 71119 (See para PN.0.33 of explanatory notes to this Category) <b>Fee:</b> \$27.65 <b>Benefit:</b> 75% = \$20.75    85% = \$23.55
71127	Functional tests for lymphocytes - quantitation other than by microscopy of: (a) proliferation induced by 1 or more mitogens; or (b) proliferation induced by 1 or more antigens; or (c) estimation of 1 or more mixed lymphocyte reactions; including a test described in item 65066 or 65070 (if performed), 1 of this item to a maximum of 2 in a 12 month period <b>Fee:</b> \$176.35 <b>Benefit:</b> 75% = \$132.30    85% = \$149.90
71129	2 tests described in item 71127 <b>Fee:</b> \$217.85 <b>Benefit:</b> 75% = \$163.40    85% = \$185.20
71131	3 or more tests described in item 71127 <b>Fee:</b> \$259.35 <b>Benefit:</b> 75% = \$194.55    85% = \$220.45
71133	Investigation of recurrent infection by qualitative assessment for the presence of defects in oxidative pathways in neutrophils by the nitroblue tetrazolium (NBT) reduction test <b>Fee:</b> \$10.40 <b>Benefit:</b> 75% = \$7.80    85% = \$8.85
71134	Investigation of recurrent infection by quantitative assessment of oxidative pathways by flow cytometric techniques, including a test described in 71133 (if performed)

<b>P4. IMMUNOLOGY</b>	
	<b>Fee:</b> \$104.05 <b>Benefit:</b> 75% = \$78.05    85% = \$88.45
	Quantitation of neutrophil function, comprising at least 2 of the following:  (a) chemotaxis; (b) phagocytosis; (c) oxidative metabolism; (d) bactericidal activity;  including any test described in items 65066, 65070, 71133 or 71134 (if performed), 1 of this item to a maximum of 2 in a 12 month period
71135	<b>Fee:</b> \$207.95 <b>Benefit:</b> 75% = \$156.00    85% = \$176.80
71137	Quantitation of cell-mediated immunity by multiple antigen delayed type hypersensitivity intradermal skin testing using a minimum of 7 antigens, 1 of this item to a maximum of 2 in a 12 month period  <b>Fee:</b> \$30.25 <b>Benefit:</b> 75% = \$22.70    85% = \$25.75
71139	Characterisation of 3 or more leucocyte surface antigens by immunofluorescence or immunoenzyme techniques to assess lymphoid or myeloid cell populations, including a total lymphocyte count or total leucocyte count by any method, on 1 or more specimens of blood, CSF or serous fluid  <b>Fee:</b> \$104.05 <b>Benefit:</b> 75% = \$78.05    85% = \$88.45
71141	Characterisation of 3 or more leucocyte surface antigens by immunofluorescence or immunoenzyme techniques to assess lymphoid or myeloid cell populations on 1 or more disaggregated tissue specimens  <b>Fee:</b> \$197.35 <b>Benefit:</b> 75% = \$148.05    85% = \$167.75
71143	Characterisation of 6 or more leucocyte surface antigens by immunofluorescence or immunoenzyme techniques to assess lymphoid or myeloid cell populations for the diagnosis (but not monitoring) of an immunological or haematological malignancy, including a service described in 1 or both of items 71139 and 71141 (if performed), on a specimen of blood, CSF, serous fluid or disaggregated tissue  <b>Fee:</b> \$260.00 <b>Benefit:</b> 75% = \$195.00    85% = \$221.00
71145	Characterisation of 6 or more leucocyte surface antigens by immunofluorescence or immunoenzyme techniques to assess lymphoid or myeloid cell populations for the diagnosis (but not monitoring) of an immunological or haematological malignancy, including a service described in 1 or more of items 71139, 71141 and 71143 (if performed), on 2 or more specimens of disaggregated tissues or 1 specimen of disaggregated tissue and 1 or more specimens of blood, CSF or serous fluid  <b>Fee:</b> \$424.50 <b>Benefit:</b> 75% = \$318.40    85% = \$360.85
71146	Enumeration of CD34+ cells, only for the purposes of autologous or directed allogeneic haemopoietic stem cell transplantation, including a total white cell count on the pheresis collection  <b>Fee:</b> \$104.05 <b>Benefit:</b> 75% = \$78.05    85% = \$88.45
71147	HLA-B27 typing  (Item is subject to rule 27)  <b>Fee:</b> \$40.55 <b>Benefit:</b> 75% = \$30.45    85% = \$34.50
71148	A test described in item 71147 if rendered by a receiving APP.

<b>P4. IMMUNOLOGY</b>	
	(Item is subject to rule 18 and 27) <b>Fee:</b> \$40.55 <b>Benefit:</b> 75% = \$30.45    85% = \$34.50
71149	Complete tissue typing for 4 HLA-A and HLA-B Class I antigens (including any separation of leucocytes), including (if performed) a service described in item 71147 <b>Fee:</b> \$108.25 <b>Benefit:</b> 75% = \$81.20    85% = \$92.05
71151	Tissue typing for HLA-DR, HLA-DP and HLA-DQ Class II antigens (including any separation of leucocytes) - phenotyping or genotyping of 2 or more antigens <b>Fee:</b> \$118.85 <b>Benefit:</b> 75% = \$89.15    85% = \$101.05
71153	Investigations in the assessment or diagnosis of systemic inflammatory disease or vasculitis - antineutrophil cytoplasmic antibody immunofluorescence (ANCA test), antineutrophil proteinase 3 antibody (PR-3 ANCA test), antimyeloperoxidase antibody (MPO ANCA test) or antiglomerular basement membrane antibody (GBM test) - detection of 1 antibody  (Item is subject to rule 6 and 23) <b>Fee:</b> \$34.55 <b>Benefit:</b> 75% = \$25.95    85% = \$29.40
71154	A test described in item 71153, if rendered by a receiving APP, where no tests in the item have been rendered by the referring APP - 1 test.  (Item is subject to rule 6, 18 and 23) <b>Fee:</b> \$34.55 <b>Benefit:</b> 75% = \$25.95    85% = \$29.40
71155	Detection of 2 antibodies described in item 71153  (Item is subject to rule 6 and 23) <b>Fee:</b> \$47.45 <b>Benefit:</b> 75% = \$35.60    85% = \$40.35
71156	Tests described in item 71153, other than that described in 71154, if rendered by a receiving APP - each test to a maximum of 3 tests  (Item is subject to rule 6, 18 and 23) <b>Fee:</b> \$12.85 <b>Benefit:</b> 75% = \$9.65    85% = \$10.95
71157	Detection of 3 antibodies described in item 71153  (Item is subject to rule 6 and 23) <b>Fee:</b> \$60.30 <b>Benefit:</b> 75% = \$45.25    85% = \$51.30
71159	Detection of 4 or more antibodies described in item 71153  (Item is subject to rule 6 and 23) <b>Fee:</b> \$73.15 <b>Benefit:</b> 75% = \$54.90    85% = \$62.20
71163	Detection of one of the following antibodies (of 1 or more class or isotype) in the assessment or diagnosis of coeliac disease or other gluten hypersensitivity syndromes and including a service described in item 71066 (if performed):  a) Antibodies to gliadin; or

<b>P4. IMMUNOLOGY</b>	
	<p>b) Antibodies to endomysium; or</p> <p>c) Antibodies to tissue transglutaminase;</p> <p>- 1 test</p> <p><b>Fee:</b> \$24.75      <b>Benefit:</b> 75% = \$18.60    85% = \$21.05</p>
71164	<p>Two or more tests described in 71163 and including a service described in 71066 (if performed)</p> <p><b>Fee:</b> \$39.90      <b>Benefit:</b> 75% = \$29.95    85% = \$33.95</p>
71165	<p>Antibodies to tissue antigens (acetylcholine receptor, adrenal cortex, heart, histone, insulin, insulin receptor, intrinsic factor, islet cell, lymphocyte, neuron, ovary, parathyroid, platelet, salivary gland, skeletal muscle, skin basement membrane and intercellular substance, thyroglobulin, thyroid microsome or thyroid stimulating hormone receptor) - detection, including quantitation if required, of 1 antibody</p> <p>(Item is subject to rule 6)</p> <p><b>Fee:</b> \$34.55      <b>Benefit:</b> 75% = \$25.95    85% = \$29.40</p>
71166	<p>Detection of 2 antibodies described in item 71165</p> <p>(Item is subject to rule 6)</p> <p><b>Fee:</b> \$47.45      <b>Benefit:</b> 75% = \$35.60    85% = \$40.35</p>
71167	<p>Detection of 3 antibodies described in item 71165</p> <p>(Item is subject to rule 6)</p> <p><b>Fee:</b> \$60.30      <b>Benefit:</b> 75% = \$45.25    85% = \$51.30</p>
71168	<p>Detection of 4 or more antibodies described in item 71165</p> <p>(Item is subject to rule 6)</p> <p><b>Fee:</b> \$73.15      <b>Benefit:</b> 75% = \$54.90    85% = \$62.20</p>
71169	<p>A test described in item 71165, if rendered by a receiving APP, where no tests in the item have been rendered by the referring APP - 1 test</p> <p>(Item is subject to rule 6 and 18)</p> <p><b>Fee:</b> \$34.55      <b>Benefit:</b> 75% = \$25.95    85% = \$29.40</p>
71170	<p>Tests described in item 71165, other than that described in 71169, if rendered by a receiving APP - each test to a maximum of 3 tests</p> <p>(Item is subject to rule 6 and 18)</p> <p><b>Fee:</b> \$12.85      <b>Benefit:</b> 75% = \$9.65    85% = \$10.95</p>
71180	<p>Antibody to cardiolipin or beta-2 glycoprotein I - detection, including quantitation if required; one antibody specificity (IgG or IgM)</p> <p><b>Fee:</b> \$34.55      <b>Benefit:</b> 75% = \$25.95    85% = \$29.40</p>
71183	<p>Detection of two antibodies described in item 71180</p> <p><b>Fee:</b> \$47.45      <b>Benefit:</b> 75% = \$35.60    85% = \$40.35</p>

<b>P4. IMMUNOLOGY</b>	
71186	Detection of three or more antibodies described in item 71180 <b>Fee:</b> \$60.30 <b>Benefit:</b> 75% = \$45.25    85% = \$51.30
71189	Detection of specific IgG antibodies to 1 or more respiratory disease allergens not elsewhere specified. <b>Fee:</b> \$15.50 <b>Benefit:</b> 75% = \$11.65    85% = \$13.20
71192	2 items described in item 71189. <b>Fee:</b> \$28.35 <b>Benefit:</b> 75% = \$21.30    85% = \$24.10
71195	3 or more items described in item 71189. <b>Fee:</b> \$40.05 <b>Benefit:</b> 75% = \$30.05    85% = \$34.05
71198	Estimation of serum tryptase for the evaluation of unexplained acute hypotension or suspected anaphylactic event, assessment of risk in stinging insect anaphylaxis, exclusion of mastocytosis, monitoring of known mastocytosis. <b>Fee:</b> \$40.55 <b>Benefit:</b> 75% = \$30.45    85% = \$34.50
71200	Detection and quantitation, if present, of free kappa and lambda light chains in serum for the diagnosis or monitoring of amyloidosis, myeloma or plasma cell dyscrasias. <b>Fee:</b> \$59.60 <b>Benefit:</b> 75% = \$44.70    85% = \$50.70
71203	Determination of HLAB5701 status by flow cytometry or cytotoxicity assay prior to the initiation of Abacavir therapy including item 73323 if performed. <b>Fee:</b> \$40.55 <b>Benefit:</b> 75% = \$30.45    85% = \$34.50
<b>P5. TISSUE PATHOLOGY</b>	
	<b>Group P5. Tissue Pathology</b>
72813	Examination of complexity level 2 biopsy material with 1 or more tissue blocks, including specimen dissection, all tissue processing, staining, light microscopy and professional opinion or opinions - 1 or more separately identified specimens  (Item is subject to rule 13) <b>Fee:</b> \$71.50 <b>Benefit:</b> 75% = \$53.65    85% = \$60.80
72814	Immunohistochemical examination by immunoperoxidase or other labelled antibody techniques using the programmed cell death ligand 1 (PD-L1) antibody of tumour material from a patient diagnosed with non-small cell lung cancer, to determine if the requirements relating to PD-L1 status for access to pembrolizumab under the Pharmaceutical Benefits Scheme are fulfilled. <b>Fee:</b> \$74.50 <b>Benefit:</b> 75% = \$55.90    85% = \$63.35
72816	Examination of complexity level 3 biopsy material with 1 or more tissue blocks, including specimen dissection, all tissue processing, staining, light microscopy and professional opinion or opinions - 1 separately identified specimen  (Item is subject to rule 13)

<b>P5. TISSUE PATHOLOGY</b>	
	<b>Fee:</b> \$86.35 <b>Benefit:</b> 75% = \$64.80    85% = \$73.40
	Examination of complexity level 3 biopsy material with 1 or more tissue blocks, including specimen dissection, all tissue processing, staining, light microscopy and professional opinion or opinions - 2 to 4 separately identified specimens  (Item is subject to rule 13)
72817	<b>Fee:</b> \$96.80 <b>Benefit:</b> 75% = \$72.60    85% = \$82.30
	Examination of complexity level 3 biopsy material with 1 or more tissue blocks, including specimen dissection, all tissue processing, staining, light microscopy and professional opinion or opinions - 5 or more separately identified specimens  (Item is subject to rule 13)
72818	<b>Fee:</b> \$107.05 <b>Benefit:</b> 75% = \$80.30    85% = \$91.00
	Examination of complexity level 4 biopsy material with 1 or more tissue blocks, including specimen dissection, all tissue processing, staining, light microscopy and professional opinion or opinions - 1 separately identified specimen  (Item is subject to rule 13)
72823	<b>Fee:</b> \$97.15 <b>Benefit:</b> 75% = \$72.90    85% = \$82.60
	Examination of complexity level 4 biopsy material with 1 or more tissue blocks, including specimen dissection, all tissue processing, staining, light microscopy and professional opinion or opinions - 2 to 4 separately identified specimens  (Item is subject to rule 13)
72824	<b>Fee:</b> \$141.35 <b>Benefit:</b> 75% = \$106.05    85% = \$120.15
	Examination of complexity level 4 biopsy material with 1 or more tissue blocks, including specimen dissection, all tissue processing, staining, light microscopy and professional opinion or opinions - 5 to 7 separately identified specimens  (Item is subject to rule 13)
72825	<b>Fee:</b> \$180.25 <b>Benefit:</b> 75% = \$135.20    85% = \$153.25
72826	Examination of complexity level 4 biopsy material with 1 or more tissue blocks, including specimen dissection, all tissue processing, staining, light microscopy and professional opinion or opinions - 8 to 11 separately identified specimens

<b>P5. TISSUE PATHOLOGY</b>	
	(Item is subject to rule 13) <b>Fee:</b> \$194.60 <b>Benefit:</b> 75% = \$145.95    85% = \$165.45
72827	Examination of complexity level 4 biopsy material with 1 or more tissue blocks, including specimen dissection, all tissue processing, staining, light microscopy and professional opinion or opinions - 12 to 17 separately identified specimens  (Item is subject to Rule 13) <b>Fee:</b> \$208.95 <b>Benefit:</b> 75% = \$156.75    85% = \$177.65
72828	Examination of complexity level 4 biopsy material with 1 or more tissue blocks, including specimen dissection, all tissue processing, staining, light microscopy and professional opinion or opinions - 18 or more separately identified specimens  (Item is subject to Rule 13) <b>Fee:</b> \$223.30 <b>Benefit:</b> 75% = \$167.50    85% = \$189.85
72830	Examination of complexity level 5 biopsy material with 1 or more tissue blocks, including specimen dissection, all tissue processing, staining, light microscopy and professional opinion or opinions - 1 or more separately identified specimens  (Item is subject to rule 13) <b>Fee:</b> \$274.15 <b>Benefit:</b> 75% = \$205.65    85% = \$233.05
72836	Examination of complexity level 6 biopsy material with 1 or more tissue blocks, including specimen dissection, all tissue processing, staining, light microscopy and professional opinion or opinions - 1 or more separately identified specimens  (Item is subject to rule 13) <b>Fee:</b> \$417.20 <b>Benefit:</b> 75% = \$312.90    85% = \$354.65
72838	Examination of complexity level 7 biopsy material with multiple tissue blocks, including specimen dissection, all tissue processing, staining, light microscopy and professional opinion or opinions - 1 or more separately identified specimens.  (Item is subject to rule 13) <b>Fee:</b> \$466.85 <b>Benefit:</b> 75% = \$350.15    85% = \$396.85
72844	Enzyme histochemistry of skeletal muscle for investigation of primary degenerative or metabolic muscle diseases or of muscle abnormalities secondary to disease of the central or peripheral nervous system - 1 or more tests  <b>Fee:</b> \$30.75 <b>Benefit:</b> 75% = \$23.10    85% = \$26.15
72846	Immunohistochemical examination of biopsy material by immunofluorescence, immunoperoxidase or other labelled antibody techniques with multiple antigenic specificities per specimen - 1 to 3 antibodies except those listed in 72848

<b>P5. TISSUE PATHOLOGY</b>	
	(Item is subject to rule 13) <b>Fee:</b> \$59.60 <b>Benefit:</b> 75% = \$44.70    85% = \$50.70
72847	Immunohistochemical examination of biopsy material by immunofluorescence, immunoperoxidase or other labelled antibody techniques with multiple antigenic specificities per specimen - 4-6 antibodies  (Item is subject to rule 13) <b>Fee:</b> \$89.40 <b>Benefit:</b> 75% = \$67.05    85% = \$76.00
72848	Immunohistochemical examination of biopsy material by immunofluorescence, immunoperoxidase or other labelled antibody techniques with multiple antigenic specificities per specimen - 1 to 3 of the following antibodies - oestrogen, progesterone and c-erb-B2 (HER2)  (Item is subject to rule 13) <b>Fee:</b> \$74.50 <b>Benefit:</b> 75% = \$55.90    85% = \$63.35
72849	Immunohistochemical examination of biopsy material by immunofluorescence, immunoperoxidase or other labelled antibody techniques with multiple antigenic specificities per specimen - 7-10 antibodies  (Item is subject to rule 13) <b>Fee:</b> \$104.30 <b>Benefit:</b> 75% = \$78.25    85% = \$88.70
72850	Immunohistochemical examination of biopsy material by immunofluorescence, immunoperoxidase or other labelled antibody techniques with multiple antigenic specificities per specimen - 11 or more antibodies  (Item is subject to rule 13) <b>Fee:</b> \$119.20 <b>Benefit:</b> 75% = \$89.40    85% = \$101.35
72851	Electron microscopic examination of biopsy material - 1 separately identified specimen  (Item is subject to rule 13) <b>Fee:</b> \$565.00 <b>Benefit:</b> 75% = \$423.75    85% = \$480.30
72852	Electron microscopic examination of biopsy material - 2 or more separately identified specimens  (Item is subject to rule 13) <b>Fee:</b> \$753.00 <b>Benefit:</b> 75% = \$564.75    85% = \$668.30
72855	Intraoperative consultation and examination of biopsy material by frozen section or tissue imprint or smear - 1 separately identified specimen  (Item is subject to rule 13) <b>Fee:</b> \$184.35 <b>Benefit:</b> 75% = \$138.30    85% = \$156.70

<b>P5. TISSUE PATHOLOGY</b>	
72856	<p>Intraoperative consultation and examination of biopsy material by frozen section or tissue imprint or smear - 2 to 4 separately identified specimens</p> <p>(Item is subject to rule 13)</p> <p><b>Fee:</b> \$245.80      <b>Benefit:</b> 75% = \$184.35    85% = \$208.95</p>
72857	<p>Intraoperative consultation and examination of biopsy material by frozen section or tissue imprint or smear - 5 or more separately identified specimens</p> <p>(Item is subject to rule 13)</p> <p><b>Fee:</b> \$286.75      <b>Benefit:</b> 75% = \$215.10    85% = \$243.75</p>
72858	<p>A second opinion, provided in a written report, where the opinion and report together require no more than 30 minutes to complete, on a patient specimen, requested by a treating practitioner, where further information is needed for accurate diagnosis and appropriate patient management.</p> <p>(See para PN.0.33 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$180.00      <b>Benefit:</b> 75% = \$135.00    85% = \$153.00</p>
72859	<p>A second opinion, provided in a written report, where the opinion and report together require more than 30 minutes to complete, on a patient specimen, requested by a treating practitioner, where further information is needed for accurate diagnosis and appropriate patient management.</p> <p>(See para PN.0.33 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$370.00      <b>Benefit:</b> 75% = \$277.50    85% = \$314.50</p>
Amend 72860	<p>Retrieval and review of one or more archived formalin fixed paraffin embedded blocks to determine the appropriate samples for the purpose of conducting genetic testing, other than:</p> <p>(a) a service associated with a service to which item 72858 or 72859 applies; or</p> <p>(b) a service associated with, and rendered in the same patient episode as, a service to which an item in Group P5, P6, P10 or P11 applies</p> <p>Applicable not more than once in a patient episode</p> <p>(See para PR.5.1 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$85.00      <b>Benefit:</b> 75% = \$63.75    85% = \$72.25</p>
<b>P6. CYTOLOGY</b>	
	<b>Group P6. Cytology</b>
73043	<p>Cytology (including serial examinations) of nipple discharge or smears from skin, lip, mouth, nose or anus for detection of precancerous or cancerous changes 1 or more tests</p> <p><b>Fee:</b> \$22.85      <b>Benefit:</b> 75% = \$17.15    85% = \$19.45</p>
73045	<p>Cytology (including serial examinations) for malignancy (other than an examination mentioned in item 73076); and including any Group P5 service, if performed on:</p> <p>(a) specimens resulting from washings or brushings from sites not specified in item 73043; or</p> <p>(b) a single specimen of sputum or urine; or</p>

<b>P6. CYTOLOGY</b>	
	<p>(c) 1 or more specimens of other body fluids; 1 or more tests</p> <p><b>Fee:</b> \$48.60      <b>Benefit:</b> 75% = \$36.45    85% = \$41.35</p>
73047	<p>Cytology of a series of 3 sputum or urine specimens for malignant cells</p> <p><b>Fee:</b> \$94.70      <b>Benefit:</b> 75% = \$71.05    85% = \$80.50</p>
73049	<p>Cytology of material obtained directly from a patient by fine needle aspiration of solid tissue or tissues - 1 identified site</p> <p><b>Fee:</b> \$68.15      <b>Benefit:</b> 75% = \$51.15    85% = \$57.95</p>
73051	<p>Cytology of material obtained directly from a patient at one identified site by fine needle aspiration of solid tissue or tissues if a recognized pathologist:</p> <p>(a) performs the aspiration; or</p> <p>(b) attends the aspiration and performs cytological examination during the attendance</p> <p><b>Fee:</b> \$170.35      <b>Benefit:</b> 75% = \$127.80    85% = \$144.80</p>
73059	<p>Immunocytochemical examination of material obtained by procedures described in items 73045, 73047, 73049, 73051, 73062, 73063, 73066 and 73067 for the characterisation of a malignancy by immunofluorescence, immunoperoxidase or other labelled antibody techniques with multiple antigenic specificities per specimen - 1 to 3 antibodies except those listed in 73061</p> <p>(Item is subject to rule 13)</p> <p><b>Fee:</b> \$43.00      <b>Benefit:</b> 75% = \$32.25    85% = \$36.55</p>
73060	<p>Immunocytochemical examination of material obtained by procedures described in items 73045, 73047, 73049, 73051, 73062, 73063, 73066 and 73067 for the characterisation of a malignancy by immunofluorescence, immunoperoxidase or other labelled antibody techniques with multiple antigenic specificities per specimen - 4 to 6 antibodies</p> <p>(Item is subject to rule 13)</p> <p><b>Fee:</b> \$57.35      <b>Benefit:</b> 75% = \$43.05    85% = \$48.75</p>
73061	<p>Immunocytochemical examination of material obtained by procedures described in items 73045, 73047, 73049, 73051, 73062, 73063, 73066 and 73067 for the characterisation of a malignancy by immunofluorescence, immunoperoxidase or other labelled antibody techniques with multiple antigenic specificities per specimen - 1 to 3 of the following antibodies - oestrogen, progesterone and c-erb-B2 (HER2)</p> <p>(Item is subject to rule 13)</p> <p><b>Fee:</b> \$51.20      <b>Benefit:</b> 75% = \$38.40    85% = \$43.55</p>
73062	<p>Cytology of material obtained directly from a patient by fine needle aspiration of solid tissue or tissues - 2 or more separately identified sites.</p> <p><b>Fee:</b> \$89.00      <b>Benefit:</b> 75% = \$66.75    85% = \$75.65</p>
73063	<p>Cytology of material obtained directly from a patient at one identified site by fine needle aspiration of solid tissue or tissues if an employee of an approved pathology authority attends the aspiration for confirmation of sample adequacy</p>

<b>P6. CYTOLOGY</b>	
	<b>Fee:</b> \$99.35 <b>Benefit:</b> 75% = \$74.55    85% = \$84.45
	Immunocytochemical examination of material obtained by procedures described in items 73045, 73047, 73049, 73051, 73062, 73063, 73066 and 73067 for the characterisation of a malignancy by immunofluorescence, immunoperoxidase or other labelled antibody techniques with multiple antigenic specificities per specimen - 7 to 10 antibodies  (Item is subject to rule 13)
73064	<b>Fee:</b> \$71.70 <b>Benefit:</b> 75% = \$53.80    85% = \$60.95
	Immunocytochemical examination of material obtained by procedures described in items 73045, 73047, 73049, 73051, 73062, 73063, 73066 and 73067 for the characterisation of a malignancy by immunofluorescence, immunoperoxidase or other labelled antibody techniques with multiple antigenic specificities per specimen - 11 or more antibodies  (Item is subject to rule 13)
73065	<b>Fee:</b> \$86.00 <b>Benefit:</b> 75% = \$64.50    85% = \$73.10
	Cytology of material obtained directly from a patient at 2 or more separately identified sites by fine needle aspiration of solid tissue or tissues if a recognized pathologist:  (a) performs the aspiration; or  (b) attends the aspiration and performs cytological examination during the attendance
73066	<b>Fee:</b> \$221.45 <b>Benefit:</b> 75% = \$166.10    85% = \$188.25
	Cytology of material obtained directly from a patient at 2 or more separately identified sites by fine needle aspiration of solid tissue or tissues if an employee of an approved pathology authority attends the aspiration for confirmation of sample adequacy
73067	<b>Fee:</b> \$129.15 <b>Benefit:</b> 75% = \$96.90    85% = \$109.80
	73070  A test, including partial genotyping, for oncogenic human papillomavirus that may be associated with cervical pre-cancer or cancer:  (a) performed on a liquid based cervical specimen; and  (b) for an asymptomatic patient who is at least 24 years and 9 months of age  For any particular patient, once only in a 57 month period  (See para PN.0.22 of explanatory notes to this Category)
73070	<b>Fee:</b> \$35.00 <b>Benefit:</b> 75% = \$26.25    85% = \$29.75
	73071  A test, including partial genotyping, for oncogenic human papillomavirus that may be associated with cervical pre-cancer or cancer:
73071	

**P6. CYTOLOGY**

	<p>(a) performed on a self-collected vaginal specimen; and</p> <p>(b) for an asymptomatic patient who is at least 30 years of age</p> <p>For any particular patient, once only in a 7 year period</p> <p>(See para PN.0.22 of explanatory notes to this Category) <b>Fee:</b> \$35.00      <b>Benefit:</b> 75% = \$26.25    85% = \$29.75</p>
73072	<p>A test, including partial genotyping, for oncogenic human papillomavirus, performed on a liquid based cervical specimen:</p> <p>(a) for the investigation of a patient in a specific population that appears to have a higher risk of cervical pre-cancer or cancer; or</p> <p>(b) for the follow-up management of a patient with a previously detected oncogenic human papillomavirus infection or cervical pre-cancer or cancer; or</p> <p>(c) for the investigation of a patient with symptoms suggestive of cervical cancer; or</p> <p>(d) for the follow-up management of a patient after treatment of high grade squamous intraepithelial lesions or adenocarcinoma in situ of the cervix; or</p> <p>(e) for the follow-up management of a patient with glandular abnormalities; or</p> <p>(f) for the follow-up management of a patient exposed to diethylstilboestrol in utero</p> <p>(See para PN.0.22 of explanatory notes to this Category) <b>Fee:</b> \$35.00      <b>Benefit:</b> 75% = \$26.25    85% = \$29.75</p>
73073	<p>A test, including partial genotyping, for oncogenic human papillomavirus:</p> <p>(a) performed on a self-collected vaginal specimen; and</p> <p>(b) for the follow-up management of a patient with oncogenic human papillomavirus infection or cervical pre-cancer or cancer that was detected by a test to which item 73071 applies</p> <p>For any particular patient, once only in a 21 month period</p> <p>(See para PN.0.22 of explanatory notes to this Category) <b>Fee:</b> \$35.00      <b>Benefit:</b> 75% = \$26.25    85% = \$29.75</p>
73074	<p>A test, including partial genotyping, for oncogenic human papillomavirus:</p> <p>(a) performed on a liquid based vaginal vault specimen; and</p> <p>(b) for the investigation of a patient following a total hysterectomy</p> <p>(See para PN.0.22 of explanatory notes to this Category) <b>Fee:</b> \$35.00      <b>Benefit:</b> 75% = \$26.25    85% = \$29.75</p>
73075	<p>A test, including partial genotyping, for oncogenic human papillomavirus, if:</p> <p>(a) the test is a repeat of a test to which item 73070, 73071, 73072, 73073, 73074 or this item applies; and</p>

<b>P6. CYTOLOGY</b>	
	<p>(b) the specimen collected for the previous test is unsatisfactory</p> <p>(See para PN.0.22 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$35.00      <b>Benefit:</b> 75% = \$26.25    85% = \$29.75</p>
73076	<p>Cytology of a liquid-based cervical or vaginal vault specimen, where the stained cells are examined microscopically or by automated image analysis by or on behalf of a pathologist, if:</p> <p>(a) the cytology is associated with the detection of oncogenic human papillomavirus infection by:</p> <p>(i) a test to which item 73070, 73071, 73073, 73074 or 73075 applies; or</p> <p>(ii) a test to which item 73072 applies for a patient mentioned in paragraph (a) or (b) of that item; or</p> <p>(b) the cytology is associated with a test to which item 73072 applies for a patient mentioned in paragraph (c), (d), (e) or (f) of that item; or</p> <p>(c) the cytology is associated with a test to which item 73074 applies; or</p> <p>(d) the test is a repeat of a test to which this item applies, if the specimen collected for the previous test is unsatisfactory; or</p> <p>(e) the cytology is for the follow-up management of a patient treated for endometrial adenocarcinoma</p> <p>(See para PN.0.22 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$46.00      <b>Benefit:</b> 75% = \$34.50    85% = \$39.10</p>
<b>P7. GENETICS</b>	
	<b>Group P7. Genetics</b>
73287	<p>The study of the whole of every chromosome by cytogenetic or other techniques, performed on 1 or more of any tissue or fluid except blood (including a service mentioned in item 73293, if performed) - 1 or more tests</p> <p><b>Fee:</b> \$394.55      <b>Benefit:</b> 75% = \$295.95    85% = \$335.40</p>
73289	<p>The study of the whole of every chromosome by cytogenetic or other techniques, performed on blood (including a service mentioned in item 73293, if performed) - 1 or more tests</p> <p><b>Fee:</b> \$358.95      <b>Benefit:</b> 75% = \$269.25    85% = \$305.15</p>
73290	<p>The study of the whole of each chromosome by cytogenetic or other techniques, performed on blood or bone marrow, in the diagnosis and monitoring of haematological malignancy (including a service in items 73287 or 73289, if performed). - 1 or more tests.</p> <p><b>Fee:</b> \$394.55      <b>Benefit:</b> 75% = \$295.95    85% = \$335.40</p>
73291	<p>Analysis of one or more chromosome regions for specific constitutional genetic abnormalities of blood or fresh tissue in</p> <p>a) diagnostic studies of a person with developmental delay, intellectual disability, autism, or at least two congenital abnormalities, in whom cytogenetic studies (item 73287 or 73289) are either normal or have not been performed; or</p> <p>b) studies of a relative for an abnormality previously identified in such an affected person.</p> <p>- 1 or more tests.</p>

<b>P7. GENETICS</b>	
	<b>Fee:</b> \$230.95 <b>Benefit:</b> 75% = \$173.25    85% = \$196.35
73292	<p>Analysis of chromosomes by genome-wide micro-array including targeted assessment of specific regions for constitutional genetic abnormalities in diagnostic studies of a person with developmental delay, intellectual disability, autism, or at least two congenital abnormalities (including a service in items 73287, 73289 or 73291, if performed)</p> <p>- 1 or more tests.</p> <p><b>Fee:</b> \$589.90      <b>Benefit:</b> 75% = \$442.45    85% = \$505.20</p>
73293	<p>Analysis of one or more regions on all chromosomes for specific constitutional genetic abnormalities of fresh tissue in diagnostic studies of the products of conception, including exclusion of maternal cell contamination.</p> <p>- 1 or more tests.</p> <p><b>Fee:</b> \$230.95      <b>Benefit:</b> 75% = \$173.25    85% = \$196.35</p>
73294	<p>Analysis of the PMP22 gene for constitutional genetic abnormalities causing peripheral neuropathy, either as:</p> <p>a) diagnostic studies of an affected person; or</p> <p>b) studies of a relative for an abnormality previously identified in an affected person</p> <p>- 1 or more tests.</p> <p><b>Fee:</b> \$230.95      <b>Benefit:</b> 75% = \$173.25    85% = \$196.35</p>
73295	<p>Detection of germline BRCA1 or BRCA2 pathogenic or likely pathogenic gene variants, in a patient with advanced (FIGO III-IV) high-grade serous or high-grade epithelial ovarian, fallopian tube or primary peritoneal cancer for whom testing of tumour tissue is not feasible, requested by a specialist or consultant physician, to determine eligibility for olaparib under the Pharmaceutical Benefits Scheme (PBS)</p> <p>Maximum of one test per patient's lifetime</p> <p>(See para PN.0.27 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$1,200.00      <b>Benefit:</b> 75% = \$900.00    85% = \$1115.30</p>
<b>Amend</b> 73296	<p>Characterisation of germline gene variants:</p> <p>(a) including copy number variation in:</p> <p>(i) BRCA1 genes; and</p> <p>(ii) BRCA2 genes; and</p> <p>(iii) one or more of the genes STK11, PTEN, CDH1, PALB2 and TP53; and</p> <p>(b) in a patient:</p> <p>(i) with breast, ovarian, fallopian tube or primary peritoneal cancer; and</p> <p>(ii) for whom clinical and family history criteria (as assessed, by the specialist or consultant physician who requests the service, using a quantitative algorithm) place the patient at greater than 10% risk of having a pathogenic or likely pathogenic gene variation identified in one or more of the genes specified</p>

<b>P7. GENETICS</b>	
	<p>in subparagraphs (a)(i), (ii) and (iii);</p> <p>requested by a specialist or consultant physician</p> <p>(See para PN.0.27 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$1,200.00      <b>Benefit:</b> 75% = \$900.00    85% = \$1115.30</p>
<b>Amend</b> 73297	<p>Characterisation of germline gene variations:</p> <p>(a) including copy number variation in:</p> <p>(i) BRCA1 genes; and</p> <p>(ii) BRCA2 genes; and</p> <p>(iii) one or more of the genes STK11, PTEN, CDH1, PALB2 and TP53; and</p> <p>(b) in a patient who:</p> <p>(i) is a biological relative of a patient who has had a pathogenic or likely pathogenic gene variation identified in one or more of the genes mentioned in subparagraphs (a)(i), (ii) and (iii); and</p> <p>(ii) has not previously received a service to which item 73295, 73296 or 73297 applies;</p> <p>requested by a specialist or consultant physician</p> <p>(See para PN.0.23 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$400.00      <b>Benefit:</b> 75% = \$300.00    85% = \$340.00</p>
73298	<p>Characterisation of germline gene variants in the following genes:</p> <p>(a) COL4A3; and</p> <p>(b) COL4A4; and</p> <p>(c) COL4A5;</p> <p>in a patient for whom clinical and relevant family history criteria have been assessed by a specialist or consultant physician, who requests the service to be strongly suggestive of Alport syndrome.</p> <p><b>Fee:</b> \$1,200.00      <b>Benefit:</b> 75% = \$900.00    85% = \$1115.30</p>
73299	<p>Characterisation of germline gene variants:</p> <p>(a) in the following genes:</p> <p>(i) COL4A3; and</p> <p>(ii) COL4A4; and</p> <p>(iii) COL4A5;</p> <p>(b) in a patient who:</p> <p>(i) is a first degree biological relative of a patient who has had a pathogenic mutation identified in one or more of the genes mentioned in subparagraphs (a)(i), (ii) and (iii); and</p> <p>(ii) has not previously received a service which item 73298 applies;</p>

<b>P7. GENETICS</b>	
	<p>requested by a specialist or consultant physician.</p> <p><b>Fee:</b> \$400.00      <b>Benefit:</b> 75% = \$300.00    85% = \$340.00</p>
73300	<p>Detection of mutation of the FMR1 gene where:</p> <p>(a) the patient exhibits intellectual disability, ataxia, neurodegeneration, or premature ovarian failure consistent with an FMRI mutation; or</p> <p>(b) the patient has a relative with a FMR1 mutation</p> <p>1 or more tests</p> <p>(See para PN.0.23 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$101.30      <b>Benefit:</b> 75% = \$76.00    85% = \$86.15</p>
73301	<p>A test of tumour tissue from a patient with advanced (FIGO III-IV), high-grade serous or high-grade epithelial ovarian, fallopian tube or primary peritoneal cancer, requested by a specialist or consultant physician, to determine eligibility relating to BRCA status for access to olaparib under the Pharmaceutical Benefits Scheme (PBS).</p> <p>Applicable once per primary tumour diagnosis</p> <p><b>Fee:</b> \$1,200.00      <b>Benefit:</b> 75% = \$900.00    85% = \$1115.30</p>
73302	<p>Characterisation of germline gene variants including copy number variants, in BRCA1 or BRCA2 genes, in a patient who has had a pathogenic or likely pathogenic variant identified in either gene by tumour testing and who has not previously received a service to which items 73295, 73296 or 73297 applies, requested by a specialist or consultant physician.</p> <p>Applicable once per primary tumour diagnosis</p> <p><b>Fee:</b> \$400.00      <b>Benefit:</b> 75% = \$300.00    85% = \$340.00</p>
73305	<p>Detection of mutation of the FMR1 gene by Southern Blot analysis where the results in item 73300 are inconclusive</p> <p>(See para PN.0.23 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$202.65      <b>Benefit:</b> 75% = \$152.00    85% = \$172.30</p>
73308	<p>Characterisation of the genotype of a patient for Factor V Leiden gene mutation, or detection of the other relevant mutations in the investigation of proven venous thrombosis or pulmonary embolism - 1 or more tests</p> <p><b>Fee:</b> \$36.45      <b>Benefit:</b> 75% = \$27.35    85% = \$31.00</p>
73309	<p>A test described in item 73308, if rendered by a receiving APP - 1 or more tests</p> <p>(Item is subject to rule 18)</p> <p><b>Fee:</b> \$36.45      <b>Benefit:</b> 75% = \$27.35    85% = \$31.00</p>
73311	<p>Characterisation of the genotype of a person who is a first degree relative of a person who has proven to have 1 or more abnormal genotypes under item 73308 - 1 or more tests</p> <p><b>Fee:</b> \$36.45      <b>Benefit:</b> 75% = \$27.35    85% = \$31.00</p>

<b>P7. GENETICS</b>	
	A test described in item 73311, if rendered by a receiving APP - 1 or more tests  (Item is subject to rule 18)
73312	<b>Fee:</b> \$36.45 <b>Benefit:</b> 75% = \$27.35    85% = \$31.00
	Characterisation of gene rearrangement or the identification of mutations within a known gene rearrangement, in the diagnosis and monitoring of patients with laboratory evidence of:  (a) acute myeloid leukaemia; or  (b) acute promyelocytic leukaemia; or  (c) acute lymphoid leukaemia; or  (d) chronic myeloid leukaemia;
73314	<b>Fee:</b> \$230.95 <b>Benefit:</b> 75% = \$173.25    85% = \$196.35
	A test described in item 73314, if rendered by a receiving APP - 1 or more tests  (Item is subject to rule 18)
73315	<b>Fee:</b> \$230.95 <b>Benefit:</b> 75% = \$173.25    85% = \$196.35
	Detection of the C282Y genetic mutation of the HFE gene and, if performed, detection of other mutations for haemochromatosis where:  (a) the patient has an elevated transferrin saturation or elevated serum ferritin on testing of repeated specimens; or  (b) the patient has a first degree relative with haemochromatosis; or  (c) the patient has a first degree relative with homozygosity for the C282Y genetic mutation, or with compound heterozygosity for recognised genetic mutations for haemochromatosis  (Item is subject to rule 20)
73317	<b>Fee:</b> \$36.45 <b>Benefit:</b> 75% = \$27.35    85% = \$31.00
	A test described in item 73317, if rendered by a receiving APP - 1 or more tests  (Item is subject to rule 18 and 20)
73318	<b>Fee:</b> \$36.45 <b>Benefit:</b> 75% = \$27.35    85% = \$31.00
	Detection of HLA-B27 by nucleic acid amplification    includes a service described in 71147 unless the service in item 73320 is rendered as a pathologist determinable service.  (Item is subject to rule 27)
73320	<b>Fee:</b> \$40.55 <b>Benefit:</b> 75% = \$30.45    85% = \$34.50
73321	A test described in item 73320, if rendered by a receiving APP - 1 or more tests.

<b>P7. GENETICS</b>	
	(Item is subject to rule 18 and 27) <b>Fee:</b> \$40.55 <b>Benefit:</b> 75% = \$30.45    85% = \$34.50
73323	Determination of HLAB5701 status by molecular techniques prior to the initiation of Abacavir therapy including item 71203 if performed. <b>Fee:</b> \$40.55 <b>Benefit:</b> 75% = \$30.45    85% = \$34.50
73324	A test described in item 73323 if rendered by a receiving APP 1 or more tests (Item is subject to Rule 18) <b>Fee:</b> \$40.95 <b>Benefit:</b> 75% = \$30.75    85% = \$34.85
73325	Characterisation of mutations in:  (a) the JAK2 gene; or  (b) the MPL gene; or  (c) both genes;  in the diagnostic work-up, by, or on behalf of, the specialist or consultant physician, of a patient with clinical and laboratory evidence of:  a) polycythaemia vera; or  b) essential thrombocythaemia;  1 or more tests <b>Fee:</b> \$74.50 <b>Benefit:</b> 75% = \$55.90    85% = \$63.35
73326	Characterisation of the gene rearrangement FIPIL1-PDGFR A in the diagnostic work-up and management of a patient with laboratory evidence of:  a) mast cell disease; or  b) idiopathic hypereosinophilic syndrome; or  c) chronic eosinophilic leukaemia;  1 or more tests <b>Fee:</b> \$230.95 <b>Benefit:</b> 75% = \$173.25    85% = \$196.35
73327	Detection of genetic polymorphisms in the Thiopurine S-methyltransferase gene for the prevention of dose-related toxicity during treatment with thiopurine drugs; including (if performed) any service described in item 65075.

<b>P7. GENETICS</b>	
	<p>1 or more tests</p> <p><b>Fee:</b> \$51.95      <b>Benefit:</b> 75% = \$39.00    85% = \$44.20</p>
73332	<p>An in situ hybridization (ISH) test of tumour tissue from a patient with breast cancer requested by, or on the advice of, a specialist or consultant physician who manages the treatment of the patient to determine if the requirements relating to human epidermal growth factor receptor 2 (HER2) gene amplification for access to trastuzumab under the Pharmaceutical Benefits Scheme (PBS) or the Herceptin Program are fulfilled.</p> <p><b>Fee:</b> \$315.40      <b>Benefit:</b> 75% = \$236.55    85% = \$268.10</p>
73333	<p>Detection of germline mutations of the von Hippel-Lindau (VHL) gene:</p> <ul style="list-style-type: none"> <li>(a) in a patient who has a clinical diagnosis of VHL syndrome and: <ul style="list-style-type: none"> <li>(i) a family history of VHL syndrome and one of the following: <ul style="list-style-type: none"> <li>(A) haemangioblastoma (retinal or central nervous system);</li> <li>(B) phaeochromocytoma;</li> <li>(C) renal cell carcinoma; or</li> </ul> </li> <li>(i) 2 or more haemangioblastomas; or</li> <li>(ii) one haemangioblastoma and a tumour or a cyst of: <ul style="list-style-type: none"> <li>(A) the adrenal gland; or</li> <li>(B) the kidney; or</li> <li>(C) the pancreas; or</li> <li>(D) the epididymis; or</li> <li>(E) a broad ligament (other than epididymal and single renal cysts, which are common in the general population); or</li> </ul> </li> </ul> </li> <li>(a) in a patient presenting with one or more of the following clinical features suggestive of VHL syndrome: <ul style="list-style-type: none"> <li>(i) haemangioblastomas of the brain, spinal cord, or retina;</li> <li>(ii) phaeochromocytoma;</li> <li>(iii) functional extra-adrenal paraganglioma</li> </ul> </li> </ul> <p>(See para PN.0.27 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$600.00      <b>Benefit:</b> 75% = \$450.00    85% = \$515.30</p>
73334	<p>Detection of germline mutations of the von Hippel-Lindau (VHL) gene in biological relatives of a patient with a known mutation in the VHL gene</p> <p>(See para PN.0.23 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$340.00      <b>Benefit:</b> 75% = \$255.00    85% = \$289.00</p>
73335	<p>Detection of somatic mutations of the von Hippel-Lindau (VHL) gene in a patient with:</p>

<b>P7. GENETICS</b>	
	<p>(a) 2 or more tumours comprising:</p> <p>(i) 2 or more haemangioblastomas, or</p> <p>(ii) one haemangioblastoma and a tumour of:</p> <p>(A) the adrenal gland; or</p> <p>(B) the kidney; or</p> <p>(C) the pancreas; or</p> <p>(D) the epididymis; and</p> <p>(b) no germline mutations of the VHL gene identified by genetic testing</p> <p><b>Fee:</b> \$470.00      <b>Benefit:</b> 75% = \$352.50    85% = \$399.50</p>
73336	<p>A test of tumour tissue from a patient with stage III or stage IV metastatic cutaneous melanoma, requested by, or on behalf of, a specialist or consultant physician, to determine if the requirements relating to BRAF V600 mutation status for access to dabrafenib, vemurafenib or encorafenib under the Pharmaceutical Benefits Scheme are fulfilled.</p> <p><b>Fee:</b> \$230.95      <b>Benefit:</b> 75% = \$173.25    85% = \$196.35</p>
73337	<p>A test of tumour tissue from a patient diagnosed with non-small cell lung cancer, shown to have non-squamous histology or histology not otherwise specified, requested by, or on behalf of, a specialist or consultant physician, to determine if the requirements relating to epidermal growth factor receptor (EGFR) gene status for access to an EGFR tyrosine kinase inhibitor listed under the Pharmaceutical Benefits Scheme (PBS) are fulfilled.</p> <p><b>Fee:</b> \$397.35      <b>Benefit:</b> 75% = \$298.05    85% = \$337.75</p>
73338	<p>A test of tumour tissue from a patient with metastatic colorectal cancer (stage IV), requested by a specialist or consultant physician, to determine if the requirements relating to rat sarcoma oncogene (RAS) gene mutation status for access to cetuximab or panitumumab under the Pharmaceutical Benefits Scheme (PBS) are fulfilled, if:</p> <p>(a) the test is conducted for all clinically relevant mutations on KRAS exons 2, 3 and 4 and NRAS exons 2, 3, and 4; or</p> <p>(b) a RAS mutation is found.</p> <p>(See para PN.0.26 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$362.60      <b>Benefit:</b> 75% = \$271.95    85% = \$308.25</p>
73339	<p>Detection of germline mutations in the RET gene in patients with a suspected clinical diagnosis of multiple endocrine neoplasia type 2 (MEN2) requested by a specialist or consultant physician who manages the treatment of the patient.</p> <p>One test. (Item is subject to rule 25)</p> <p>(See para PN.0.23 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$400.00      <b>Benefit:</b> 75% = \$300.00    85% = \$340.00</p>
73340	<p>Detection of a known mutation in the RET gene in an asymptomatic relative of a patient with a documented pathogenic germline RET mutation requested by a specialist or consultant physician who</p>

<b>P7. GENETICS</b>	
	<p>manages the treatment of the patient.</p> <p>One test. (Item is subject to rule 25)</p> <p>(See para PN.0.23 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$200.00      <b>Benefit:</b> 75% = \$150.00    85% = \$170.00</p>
73341	<p>Fluorescence in situ hybridisation (FISH) test of tumour tissue from a patient with locally advanced or metastatic non-small cell lung cancer, which is of non-squamous histology or histology not otherwise specified, with documented evidence of anaplastic lymphoma kinase (ALK) immunoreactivity by immunohistochemical (IHC) examination giving a staining intensity score &gt; 0, and with documented absence of activating mutations of the epidermal growth factor receptor (EGFR) gene, requested by a specialist or consultant physician to determine if requirements relating to ALK gene rearrangement status for access to an anaplastic lymphoma kinase inhibitor under the Pharmaceutical Benefits Scheme (PBS) are fulfilled</p> <p><b>Fee:</b> \$400.00      <b>Benefit:</b> 75% = \$300.00    85% = \$340.00</p>
73342	<p>An in situ hybridisation (ISH) test of tumour tissue from a patient with metastatic adenocarcinoma of the stomach or gastro-oesophageal junction, with documented evidence of human epidermal growth factor receptor 2 (<i>HER2</i>) overexpression by immunohistochemical (IHC) examination giving a staining intensity score of 2+ or 3+ on the same tumour tissue sample, requested by, or on the advice of, a specialist or consultant physician who manages the treatment of the patient to determine if the requirements relating to <i>HER2</i> gene amplification for access to trastuzumab under the Pharmaceutical Benefits Scheme are fulfilled.</p> <p>(See para PN.1.2 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$315.40      <b>Benefit:</b> 75% = \$236.55    85% = \$268.10</p>
73343	<p>Detection of 17p chromosomal deletions by fluorescence <i>in situ</i> hybridisation, in a patient with relapsed or refractory chronic lymphocytic leukaemia or small lymphocytic lymphoma, on a peripheral blood or bone marrow sample, requested by a specialist or consultant physician, to determine if the requirements for access to idelalisib, ibrutinib, venetoclax or acalabrutinib on the Pharmaceutical Benefits Scheme are fulfilled.</p> <p><b>Fee:</b> \$230.95      <b>Benefit:</b> 75% = \$173.25    100% = \$230.95</p>
73344	<p>Fluorescence in situ hybridization (FISH) test of tumour tissue from a patient with locally advanced or metastatic non-small-cell lung cancer (NSCLC), which is of non-squamous histology or histology not otherwise specified, with documented evidence of ROS proto-oncogene 1 (ROS1) immunoreactivity by immunohistochemical (IHC) examination giving a staining intensity score of 2+ or 3+; and with documented absence of both activating mutations of the epidermal growth factor receptor (EGFR) gene and anaplastic lymphoma kinase (ALK) immunoreactivity by IHC, requested by a specialist or consultant physician to determine if requirements relating to ROS1 gene rearrangement status for access to crizotinib or entrectinib under the Pharmaceutical Benefits Scheme are fulfilled.</p> <p>(See para PN.1.2 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$400.00      <b>Benefit:</b> 75% = \$300.00    85% = \$340.00</p>
73345	<p>Testing of a patient for pathogenic cystic fibrosis transmembrane conductance regulator variants for the purpose of investigating, making or excluding a diagnosis of cystic fibrosis or a cystic fibrosis transmembrane conductance regulator related disorder when requested by a specialist or consultant physician who manages the treatment of the patient, not being a service associated with a service to</p>

<b>P7. GENETICS</b>	
	<p>which item 73347, 73348, or 73349 applies.</p> <p>The patient must have clinical or laboratory findings suggesting there is a high probability suggestive of cystic fibrosis or a cystic fibrosis transmembrane conductance regulator related disorder.</p> <p>(See para PN.7.3 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$500.00      <b>Benefit:</b> 75% = \$375.00    85% = \$425.00</p>
73346	<p>Testing of a pregnant patient whose carrier status for pathogenic cystic fibrosis transmembrane conductance regulator variants, as well as their reproductive partner carrier status is unknown, for the purpose of determining whether pathogenic cystic fibrosis transmembrane conductance regulator variants are present in the fetus, in order to make or exclude a diagnosis of cystic fibrosis or a cystic fibrosis transmembrane conductance regulator related disorder in the fetus when requested by a specialist or consultant physician who manages the treatment of the patient, not being a service associated with a service to which item 73350 applies.</p> <p>The fetus must have ultrasonic findings of echogenic gut, with unknown familial cystic fibrosis transmembrane conductance regulator variants.</p> <p>(See para PN.7.3 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$500.00      <b>Benefit:</b> 75% = \$375.00    85% = \$425.00</p>
73347	<p>Testing of a prospective parent for pathogenic cystic fibrosis transmembrane conductance regulator variants for the purpose of determining the risk of their fetus having pathogenic cystic fibrosis transmembrane conductance regulator variants. This is indicated when the fetus has ultrasonic evidence of echogenic gut when requested by a specialist or consultant physician who manages the treatment of the patient, not being a service associated with a service to which item 73345, 73348, or 73349 applies.</p> <p>(See para PN.7.3 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$500.00      <b>Benefit:</b> 75% = \$375.00    85% = \$425.00</p>
73348	<p>Testing of a patient with a laboratory-established family history of pathogenic cystic fibrosis transmembrane conductance regulator variants, for the purpose of determining whether the patient is an asymptomatic genetic carrier of the pathogenic cystic fibrosis transmembrane conductance regulator variants that have been laboratory established in the family history, not being a service associated with a service to which item 73345, 73347, or 73349 applies.</p> <p>The patient must have a positive family history, confirmed by laboratory findings of pathogenic cystic fibrosis transmembrane conductance regulator variants, with a personal risk of being a heterozygous genetic carrier of at least 6%. (This includes family relatedness of: parents, children, full-siblings, half-siblings, grand-parents, grandchildren, aunts, uncles, first cousins, and first cousins once-removed, but excludes relatedness of second cousins or more distant relationships).</p> <p>(See para PN.7.3 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$250.00      <b>Benefit:</b> 75% = \$187.50    85% = \$212.50</p>
73349	<p>Testing of a patient for pathogenic cystic fibrosis transmembrane conductance regulator variants for the purpose of determining the reproductive risk of the patient with their reproductive partner because their reproductive partner is already known to have pathogenic cystic fibrosis transmembrane conductance regulator variants requested by a specialist or consultant physician who manages the treatment of the patient, not being a service associated with a service to which item 73345, 73347, or 73348 applies.</p> <p>(See para PN.7.3 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$500.00      <b>Benefit:</b> 75% = \$375.00    85% = \$425.00</p>
73350	<p>Testing of a pregnant patient, where one or both prospective parents are known to be a genetic carrier of pathogenic cystic fibrosis transmembrane conductance regulator variants for the purpose of determining whether pathogenic cystic fibrosis transmembrane conductance regulator variants are present in the fetus</p>

<b>P7. GENETICS</b>	
	<p>in order to make or exclude a diagnosis of cystic fibrosis or a cystic fibrosis transmembrane conductance regulator related disorder in the fetus, when requested by a specialist or consultant physician who manages the treatment of the patient, not being a service associated with a service to which item 73346 applies.</p> <p>The fetus must be at 25% or more risk of cystic fibrosis or a cystic fibrosis transmembrane conductance regulator related disorder because of known familial cystic fibrosis transmembrane conductance regulator variants.</p> <p>(See para PN.7.3 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$250.00      <b>Benefit:</b> 75% = \$187.50    85% = \$212.50</p>
73351	<p>A test of tumour tissue that is derived from a new sample from a patient with locally advanced (Stage IIIb) or metastatic (Stage IV) non-small cell lung cancer (NSCLC), who has progressed on or after treatment with an epidermal growth factor receptor tyrosine kinase inhibitor (EGFR TKI). The test is to be requested by a specialist or consultant physician, to determine if the requirements relating to EGFR T790M gene status for access to osimertinib under the Pharmaceutical Benefits Scheme are fulfilled.</p> <p><b>Fee:</b> \$397.35      <b>Benefit:</b> 75% = \$298.05    85% = \$337.75</p>
73352	<p>Characterisation of germline variants causing familial hypercholesterolaemia (which must include the LDLR, PCSK9 and APOB genes), requested by a specialist or consultant physician, for a patient:</p> <ul style="list-style-type: none"> <li>(a) for whom no familial mutation has been identified; and</li> <li>(b) who has any of the following: <ul style="list-style-type: none"> <li>(i) a Dutch Lipid Clinic Network score of at least 6;</li> <li>(ii) an LDL-cholesterol level of at least 6.5 mmol/L in the absence of secondary causes;</li> <li>(iii) an LDL-cholesterol level of between 5.0 and 6.5 mmol/L with signs of premature or accelerated atherogenesis</li> </ul> </li> </ul> <p>Applicable only once per lifetime</p> <p><b>Fee:</b> \$1,200.00      <b>Benefit:</b> 75% = \$900.00    85% = \$1115.30</p>
73353	<p>Detection of a familial mutation for a patient who has a first- or second-degree relative with a documented pathogenic germline gene variant for familial hypercholesterolaemia</p> <p>Applicable only once per lifetime</p> <p><b>Fee:</b> \$400.00      <b>Benefit:</b> 75% = \$300.00    85% = \$340.00</p>
73354	<p>Characterisation of germline gene variants, including copy number variation, in the MLH1, MSH2, MSH6, PMS2 and EPCAM genes, requested by a specialist or consultant physician, for:</p> <ul style="list-style-type: none"> <li>(a) a patient with suspected Lynch syndrome following immunohistochemical examination of neoplastic tissue that has demonstrated loss of expression of one or more mismatch repair proteins; or</li> <li>(b) a patient: <ul style="list-style-type: none"> <li>(i) who has endometrial cancer; and</li> <li>(ii) who is assessed by the specialist or consultant physician as being at a risk of more than</li> </ul> </li> </ul>

<b>P7. GENETICS</b>	
	<p>10% of having Lynch syndrome, on the basis of clinical and family history criteria</p> <p><b>Fee:</b> \$1,200.00      <b>Benefit:</b> 75% = \$900.00    85% = \$1115.30</p>
73355	<p>Characterisation of germline gene variants, including copy number variation, in the APC and MUTYH genes, requested by a specialist or consultant physician, for a patient:</p> <p>(a) who has adenomatous polyposis; and</p> <p>(b) who is assessed by the specialist or consultant physician as being at a risk of more than 10% of having either of the following, on the basis of clinical and family history criteria:</p> <p>(i) familial adenomatous polyposis;</p> <p>(ii) MUTYH-associated polyposis</p> <p><b>Fee:</b> \$1,200.00      <b>Benefit:</b> 75% = \$900.00    85% = \$1115.30</p>
73356	<p>Characterisation of germline gene variants, including copy number variation, in the SMAD4, BMPR1A, STK11 and GREM1 genes, requested by a specialist or consultant physician, for a patient:</p> <p>(a) who has non-adenomatous polyposis; and</p> <p>(b) who is assessed by the specialist or consultant physician as being at a risk of more than 10% of having any of the following, on the basis of clinical and family history criteria:</p> <p>(i) juvenile polyposis syndrome;</p> <p>(ii) Peutz-Jeghers syndrome;</p> <p>(iii) hereditary mixed polyposis syndrome</p> <p><b>Fee:</b> \$1,200.00      <b>Benefit:</b> 75% = \$900.00    85% = \$1115.30</p>
<b>Amend</b> 73357	<p>Characterisation of germline gene variants, including copy number variation, in the genes mentioned in item 73354, 73355 or 73356, requested by a specialist or consultant physician, for a patient:</p> <p>(a) who has a biological relative with a pathogenic mutation identified in one or more of those genes; and</p> <p>(b) who has not previously received a service to which any of items 73354, 73355 and 73356 apply</p> <p><b>Fee:</b> \$400.00      <b>Benefit:</b> 75% = \$300.00    85% = \$340.00</p>
73358	<p>Characterisation, via whole exome or genome sequencing and analysis, of germline variants known to cause monogenic disorders, if:</p> <p>(a) the characterisation is:</p> <p>(i) requested by a consultant physician practising as a clinical geneticist; or</p> <p>(ii) requested by a consultant physician practising as a specialist paediatrician, following consultation with a clinical geneticist; and</p> <p>(b) the patient is aged 10 years or younger and is strongly suspected of having a monogenic condition, based on the presence of:</p> <p>(i) dysmorphic facial appearance and one or more major structural congenital anomalies; or</p>

**P7. GENETICS**

	<p>(ii) intellectual disability or global developmental delay of at least moderate severity, as determined by a specialist paediatrician; and</p> <p>(c) the characterisation is performed following the performance for the patient of a service to which item 73292 applies for which the results were non-informative; and</p> <p>(d) the characterisation is not performed in conjunction with a service to which item 73359 applies</p> <p>Applicable only once per lifetime</p> <p>(See para PN.7.4 of explanatory notes to this Category) <b>Fee:</b> \$2,100.00      <b>Benefit:</b> 75% = \$1575.00    85% = \$2015.30</p>
73359	<p>Characterisation, via whole exome or genome sequencing and analysis, of germline variants known to cause monogenic disorders, if:</p> <p>(a) the characterisation is:</p> <ul style="list-style-type: none"><li>(i) requested by a consultant physician practising as a clinical geneticist; or</li><li>(ii) requested by a consultant physician practising as a specialist paediatrician, following consultation with a clinical geneticist; and</li></ul> <p>(b) the request for the characterisation states that singleton testing is inappropriate; and</p> <p>(c) the patient is aged 10 years or younger and is strongly suspected of having a monogenic condition, based on the presence of:</p> <ul style="list-style-type: none"><li>(i) dysmorphic facial appearance and one or more major structural congenital anomalies; or</li><li>(ii) intellectual disability or global developmental delay of at least moderate severity, as determined by a specialist paediatrician; and</li></ul> <p>(d) the characterisation is performed following the performance for the patient of a service to which item 73292 applies for which the results were non-informative; and</p> <p>(e) the characterisation is performed using a sample from the patient and a sample from each of the patient's biological parents; and</p> <p>(f) the characterisation is not performed in conjunction with a service to which item 73358 applies</p> <p>Applicable only once per lifetime</p> <p>(See para PN.7.4 of explanatory notes to this Category) <b>Fee:</b> \$2,900.00      <b>Benefit:</b> 75% = \$2175.00    85% = \$2815.30</p>
73360	<p>Re-analysis of whole exome or genome data obtained in performing a service to which item 73358 or 73359 applies, for characterisation of previously unreported germline gene variants related to the clinical phenotype, if:</p> <p>(a) the re-analysis is:</p> <ul style="list-style-type: none"><li>(i) requested by a consultant physician practising as a clinical geneticist; or</li></ul>

**P7. GENETICS**

	<p>(ii) requested by a consultant physician practising as a specialist paediatrician, following consultation with a clinical geneticist; and</p> <p>(b) the patient is aged 15 years or younger and is strongly suspected of having a monogenic condition; and</p> <p>(c) the re-analysis is performed at least 18 months after:</p> <p style="padding-left: 40px;">(i) a service to which item 73358 or 73359 applies; or</p> <p style="padding-left: 40px;">(ii) a service to which this item applies</p> <p>Applicable only twice per lifetime</p> <p><b>Fee:</b> \$500.00      <b>Benefit:</b> 75% = \$375.00    85% = \$425.00</p>
73361	<p>Detection of a single gene variant for diagnostic purposes, if:</p> <p>(a) the detection is:</p> <p style="padding-left: 40px;">(i) requested by a consultant physician practising as a clinical geneticist; or</p> <p style="padding-left: 40px;">(ii) requested by a consultant physician practising as a specialist paediatrician, following consultation with a clinical geneticist; and</p> <p>(b) the patient has a biological sibling with a known monogenic condition; and</p> <p>(c) a service to which item 73358, 73359 or 73360 applies has identified the causative variant for the sibling's condition; and</p> <p>(d) the results of the testing performed for the sibling are made available for the purpose of providing the detection for the patient; and</p> <p>(e) the detection is not performed in conjunction with a service to which item 73362 or 73363 applies</p> <p>Applicable only once per variant per lifetime</p> <p><b>Fee:</b> \$400.00      <b>Benefit:</b> 75% = \$300.00    85% = \$340.00</p>
73362	<p>Detection of a single gene variant for the purpose of reproductive decision making, if:</p> <p>(a) the detection is requested by a consultant physician or specialist; and</p> <p>(b) the patient has a first-degree relative with a known monogenic condition; and</p> <p>(c) a service to which item 73358, 73359 or 73360 applies has identified the causative variant for the relative; and</p> <p>(d) the results of the testing performed for the relative are made available for the purpose of providing the detection for the patient; and</p> <p>(e) the detection is not performed in conjunction with item 73361 or 73363</p>

<b>P7. GENETICS</b>	
	<p>Applicable only once per variant per lifetime</p> <p><b>Fee:</b> \$400.00      <b>Benefit:</b> 75% = \$300.00    85% = \$340.00</p>
	<p>Detection of a single gene variant for segregation purposes in relation to a person, if:</p> <ul style="list-style-type: none"> <li>(a) the detection is: <ul style="list-style-type: none"> <li>(i) requested by a consultant physician practising as a clinical geneticist; or</li> <li>(ii) requested by a consultant physician practising as a specialist paediatrician, following consultation with a clinical geneticist; and</li> </ul> </li> <li>(b) the patient: <ul style="list-style-type: none"> <li>(i) is a biological parent or other biological relative of the person and has a known phenotype of the person; or</li> <li>(ii) is a biological parent of the person and has a suspected monogenic condition; and</li> </ul> </li> <li>(c) a sample has not previously been tested for the patient for a service to which item 73359 applies; and</li> <li>(d) a service to which item 73358, 73359 or 73360 applies has identified a potentially causative variant for the person; and</li> <li>(e) the results of the testing performed for the patient are made available for the purpose of providing the detection for the person; and</li> <li>(f) the detection is not performed in conjunction with item 73361 or 73362</li> </ul> <p>Applicable only once per variant per lifetime</p>
73363	<p><b>Fee:</b> \$400.00      <b>Benefit:</b> 75% = \$300.00    85% = \$340.00</p>
	<p>Analysis of tumour tissue, requested by a specialist or consultant physician, that:</p> <ul style="list-style-type: none"> <li>(a) is for: <ul style="list-style-type: none"> <li>(i) the characterisation of MYC gene rearrangement; and</li> <li>(ii) if the results of the characterisation mentioned in subparagraph (i) are positive—the characterisation of either or both of BCL2 gene rearrangement and BCL6 gene rearrangement; and</li> </ul> </li> <li>(b) is for a patient: <ul style="list-style-type: none"> <li>(i) for whom MYC immunohistochemistry is non-negative; and</li> <li>(ii) with clinical or laboratory evidence, including morphological features, of diffuse large B-cell lymphoma or high grade B-cell lymphoma; and</li> </ul> </li> <li>(c) is not performed in conjunction with item 73365</li> </ul> <p>Applicable only once per lifetime</p>
73364	

<b>P7. GENETICS</b>	
	<b>Fee:</b> \$400.00 <b>Benefit:</b> 75% = \$300.00    85% = \$340.00
	Analysis of tumour tissue, requested by a specialist or consultant physician, that:  (a) is for the characterisation of MYC gene rearrangement; and  (b) is for a patient with clinical or laboratory evidence, including morphological features, of Burkitt lymphoma; and  (c) is not performed in conjunction with item 73364  Applicable only once per lifetime
73365	<b>Fee:</b> \$340.00 <b>Benefit:</b> 75% = \$255.00    85% = \$289.00
	Analysis of tumour tissue, requested by a specialist or consultant physician, that:  (a) is for the characterisation of either or both of the following:  (i) CCND1 gene rearrangement;  (ii) CCND2 gene rearrangement; and  (b) is for a patient with clinical or laboratory evidence, including morphological features, of mantle cell lymphoma  Applicable only once per lifetime
73366	<b>Fee:</b> \$400.00 <b>Benefit:</b> 75% = \$300.00    85% = \$340.00
	Analysis of tumour tissue, requested by a specialist or consultant physician, that:  (a) is for the presence of isochromosome 7q; and  (b) is for a patient with clinical or laboratory evidence, including morphological features, of hepatosplenic T-cell lymphoma  Applicable only once per lifetime
73367	<b>Fee:</b> \$340.00 <b>Benefit:</b> 75% = \$255.00    85% = \$289.00
	Analysis of tumour tissue, requested by a specialist or consultant physician, that:  (a) is for the characterisation of either or both of the following:  (i) DUSP22 gene rearrangement;  (ii) TP63 gene rearrangement; and  (b) is for a patient with clinical or laboratory evidence, including morphological features, of ALK negative anaplastic large cell lymphoma  Applicable only once per lifetime
73368	<b>Fee:</b> \$400.00 <b>Benefit:</b> 75% = \$300.00    85% = \$340.00
73369	Analysis of blood or bone marrow, requested by a specialist or consultant physician, that:  (a) is for the characterisation of either or both of the following:

<b>P7. GENETICS</b>	
	<p>(i) TCL1A gene rearrangement;</p> <p>(ii) MTCP1 gene rearrangement; and</p> <p>(b) is for a patient with clinical or laboratory evidence, including morphological features, of T-cell prolymphocytic leukaemia</p> <p>Applicable only once per lifetime</p> <p><b>Fee:</b> \$400.00      <b>Benefit:</b> 75% = \$300.00    85% = \$340.00</p>
73370	<p>Analysis of blood or bone marrow, requested by a specialist or consultant physician, that:</p> <p>(a) is for the characterisation of the following:</p> <p>(i) chromosome translocations t(4;14), t(14;16), t(14;20);</p> <p>(ii) 1q gain;</p> <p>(iii) 17p deletion; and</p> <p>(b) is for a patient with clinical or laboratory evidence, including morphological features, of plasma cell myeloma</p> <p>Applicable only once per lifetime</p> <p><b>Fee:</b> \$500.00      <b>Benefit:</b> 75% = \$375.00    85% = \$425.00</p>
73371	<p>Analysis of tumour tissue, requested by a specialist or consultant physician, that:</p> <p>(a) is for the detection of chromosome 1p/19q co-deletion; and</p> <p>(b) is for a patient with clinical or laboratory evidence, including morphological features, of glial neoplasm with probable oligodendroglial component</p> <p>Applicable only once per lifetime</p> <p><b>Fee:</b> \$340.00      <b>Benefit:</b> 75% = \$255.00    85% = \$289.00</p>
73372	<p>Analysis of tumour tissue, requested by a specialist or consultant physician, that:</p> <p>(a) is for the identification of IDH1/2 pathological variant status; and</p> <p>(b) is for a patient with:</p> <p>(i) negative IDH1 (R132H) immunohistochemistry; and</p> <p>(ii) clinical or laboratory evidence, including morphological features, of glial neoplasm</p> <p>Applicable only once per lifetime</p> <p><b>Fee:</b> \$340.00      <b>Benefit:</b> 75% = \$255.00    85% = \$289.00</p>
73373	<p>Analysis of tumour tissue, requested by a specialist or consultant physician, that:</p> <p>(a) is for the characterisation of MGMT promoter methylation status; and</p> <p>(b) is for a patient with clinical or laboratory evidence, including morphological features, of</p>

<b>P7. GENETICS</b>	
	<p>glioblastoma</p> <p>Applicable only once per lifetime</p> <p><b>Fee:</b> \$400.00      <b>Benefit:</b> 75% = \$300.00    85% = \$340.00</p>
	<p>Analysis of tumour tissue, requested by a specialist or consultant physician, that:</p> <p>(a) is for the characterisation of copy number changes, gene rearrangements, or other molecular changes in one of the following genes:</p> <ul style="list-style-type: none"> <li>(i) MDM2 CNV;</li> <li>(ii) FUS;</li> <li>(iii) DDIT3;</li> <li>(iv) EWSR1;</li> <li>(v) ETV6;</li> <li>(vi) NTRK1;</li> <li>(vii) NTRK3;</li> <li>(viii) COL1A1;</li> <li>(ix) PDGFB;</li> <li>(x) STAT6;</li> <li>(xi) PAX3;</li> <li>(xii) PAX7;</li> <li>(xiii) SS18;</li> <li>(xiv) BCOR;</li> <li>(xv) CIC;</li> <li>(xvi) HEY1;</li> <li>(xvii) ALK;</li> <li>(xviii) USP6;</li> <li>(xix) NR4A3;</li> <li>(xx) NCOA2;</li> <li>(xxi) FOXO1; and</li> </ul> <p>(b) is for a patient with clinical or laboratory evidence, including morphological features, of sarcoma</p> <p>Applicable only once per lifetime</p>
73374	<p><b>Fee:</b> \$340.00      <b>Benefit:</b> 75% = \$255.00    85% = \$289.00</p>

<b>P7. GENETICS</b>	
73375	<p>Analysis of tumour tissue, requested by a specialist or consultant physician, that:</p> <p>(a) is for the characterisation of copy number changes, gene rearrangements, or other molecular changes, in 2 or 3 of the genes mentioned in item 73374; and</p> <p>(b) is for a patient with clinical or laboratory evidence, including morphological features, of sarcoma</p> <p>Applicable only once per lifetime</p> <p><b>Fee:</b> \$400.00      <b>Benefit:</b> 75% = \$300.00    85% = \$340.00</p>
73376	<p>Analysis of tumour tissue, requested by a specialist or consultant physician, that:</p> <p>(a) is for the characterisation of copy number changes, gene rearrangements, or other molecular changes, in 4 or more of the genes mentioned in item 73374; and</p> <p>(b) is for a patient with clinical or laboratory evidence, including morphological features, of sarcoma</p> <p>Applicable only once per lifetime</p> <p><b>Fee:</b> \$800.00      <b>Benefit:</b> 75% = \$600.00    85% = \$715.30</p>
73377	<p>Analysis of tumour tissue, requested by a specialist or consultant physician, that:</p> <p>(a) is for the detection of FOXL2.402C&gt;G status; and</p> <p>(b) is for a patient with clinical or laboratory evidence, including morphological features, of granulosa cell ovarian tumour</p> <p>Applicable only once per lifetime</p> <p><b>Fee:</b> \$250.00      <b>Benefit:</b> 75% = \$187.50    85% = \$212.50</p>
73378	<p>Analysis of tumour tissue, requested by a specialist or consultant physician, that:</p> <p>(a) is for the characterisation of NUTM1 gene status at 15q14; and</p> <p>(b) is for a patient with clinical or laboratory evidence, including morphological features, of midline NUT carcinoma</p> <p>Applicable only once per lifetime</p> <p><b>Fee:</b> \$340.00      <b>Benefit:</b> 75% = \$255.00    85% = \$289.00</p>
73379	<p>Analysis of tumour tissue, requested by a specialist or consultant physician, that:</p> <p>(a) is for the characterisation of ETV6-NTRK3 gene rearrangement; and</p> <p>(b) is for a patient with clinical or laboratory evidence, including morphological features, of secretory carcinoma of the breast</p> <p>Applicable only once per lifetime</p> <p><b>Fee:</b> \$340.00      <b>Benefit:</b> 75% = \$255.00    85% = \$289.00</p>
73380	<p>Analysis of tumour tissue, requested by a specialist or consultant physician, that:</p> <p>(a) is for the characterisation of MAML2 gene rearrangement; and</p> <p>(b) is for a patient with clinical or laboratory evidence, including morphological features, of</p>

<b>P7. GENETICS</b>	
	<p>mucoepidermoid carcinoma</p> <p>Applicable only once per lifetime</p> <p><b>Fee:</b> \$340.00      <b>Benefit:</b> 75% = \$255.00    85% = \$289.00</p>
73381	<p>Analysis of tumour tissue, requested by a specialist or consultant physician, that:</p> <p>(a) is for the characterisation of ETV6-NTRK3 gene rearrangement; and</p> <p>(b) is for a patient with clinical or laboratory evidence, including morphological features, of mammary analogue secretory carcinoma of the salivary gland</p> <p>Applicable only once per lifetime</p> <p><b>Fee:</b> \$340.00      <b>Benefit:</b> 75% = \$255.00    85% = \$289.00</p>
73382	<p>Analysis of tumour tissue, requested by a specialist or consultant physician, that:</p> <p>(a) is for the characterisation of EWSR1 gene rearrangement, with or without PLAG1 gene rearrangement; and</p> <p>(b) is for a patient with clinical or laboratory evidence, including morphological features, of hyalinising clear cell carcinoma of the salivary gland</p> <p>Applicable only once per lifetime</p> <p><b>Fee:</b> \$340.00      <b>Benefit:</b> 75% = \$255.00    85% = \$289.00</p>
73383	<p>Analysis of tumour tissue, requested by a specialist or consultant physician, that:</p> <p>(a) is for the characterisation of either or both of the following:</p> <p>(i) TFE3 gene rearrangement;</p> <p>(ii) TFEB gene rearrangement; and</p> <p>(b) is for a patient with clinical or laboratory evidence, including morphological features, of renal cell carcinoma</p> <p>Applicable only once per lifetime</p> <p><b>Fee:</b> \$400.00      <b>Benefit:</b> 75% = \$300.00    85% = \$340.00</p>
<b>P8. INFERTILITY AND PREGNANCY TESTS</b>	
	<b>Group P8. Infertility And Pregnancy Tests</b>
73521	<p>Semen examination for presence of spermatozoa or examination of cervical mucus for spermatozoa (Huhner's test)</p> <p>(See para TN.1.4 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$9.70      <b>Benefit:</b> 75% = \$7.30    85% = \$8.25</p>
73523	<p>Semen examination (other than post-vasectomy semen examination), including:</p> <p>(a) measurement of volume, sperm count and motility; and</p> <p>(b) examination of stained preparations; and</p>

<b>P8. INFERTILITY AND PREGNANCY TESTS</b>	
	(c) morphology; and (if performed) (d) differential count and 1 or more chemical tests; (Item is subject to rule 25) <b>Fee:</b> \$41.75 <b>Benefit:</b> 75% = \$31.35    85% = \$35.50
73525	Sperm antibodies - sperm-penetrating ability - 1 or more tests (See para TN.1.4 of explanatory notes to this Category) <b>Fee:</b> \$28.35 <b>Benefit:</b> 75% = \$21.30    85% = \$24.10
73527	Human chorionic gonadotrophin (HCG) - detection in serum or urine by 1 or more methods for diagnosis of pregnancy - 1 or more tests <b>Fee:</b> \$10.00 <b>Benefit:</b> 75% = \$7.50    85% = \$8.50
73529	Human chorionic gonadotrophin (HCG), quantitation in serum by 1 or more methods (except by latex, membrane, strip or other pregnancy test kit) for diagnosis of threatened abortion, or follow up of abortion or diagnosis of ectopic pregnancy, including any services performed in item 73527 - 1 test (See para PN.0.33 of explanatory notes to this Category) <b>Fee:</b> \$28.65 <b>Benefit:</b> 75% = \$21.50    85% = \$24.40
<b>P9. SIMPLE BASIC PATHOLOGY TESTS</b>	
	<b>Group P9. Simple Basic Pathology Tests</b>
73801	Semen examination for presence of spermatozoa <b>Fee:</b> \$6.90 <b>Benefit:</b> 75% = \$5.20    85% = \$5.90
73802	Leucocyte count, erythrocyte sedimentation rate, examination of blood film (including differential leucocyte count), haemoglobin, haematocrit or erythrocyte count - 1 test <b>Fee:</b> \$4.55 <b>Benefit:</b> 75% = \$3.45    85% = \$3.90
73803	2 tests described in item 73802 <b>Fee:</b> \$6.35 <b>Benefit:</b> 75% = \$4.80    85% = \$5.40
73804	3 or more tests described in item 73802 <b>Fee:</b> \$8.15 <b>Benefit:</b> 75% = \$6.15    85% = \$6.95
73805	Microscopy of urine, excluding dipstick testing. <b>Fee:</b> \$4.55 <b>Benefit:</b> 75% = \$3.45    85% = \$3.90
73806	Pregnancy test by 1 or more immunochemical methods <b>Fee:</b> \$10.15 <b>Benefit:</b> 75% = \$7.65    85% = \$8.65
73807	Microscopy for wet film other than urine, including any relevant stain <b>Fee:</b> \$6.90 <b>Benefit:</b> 75% = \$5.20    85% = \$5.90
73808	Microscopy of Gram-stained film, including (if performed) a service described in item 73805 or 73807 <b>Fee:</b> \$8.65 <b>Benefit:</b> 75% = \$6.50    85% = \$7.40
73809	Chemical tests for occult blood in faeces by reagent stick, strip, tablet or similar method

<b>P9. SIMPLE BASIC PATHOLOGY TESTS</b>	
	<b>Fee:</b> \$2.35 <b>Benefit:</b> 75% = \$1.80    85% = \$2.00
73810	Microscopy for fungi in skin, hair or nails - 1 or more sites <b>Fee:</b> \$6.90 <b>Benefit:</b> 75% = \$5.20    85% = \$5.90
73811	Mantoux test <b>Fee:</b> \$11.20 <b>Benefit:</b> 75% = \$8.40    85% = \$9.55
73828	Semen examination for presence of spermatozoa by a participating nurse practitioner <b>Fee:</b> \$6.90 <b>Benefit:</b> 85% = \$5.90
73829	Leucocyte count, erythrocyte sedimentation rate, examination of blood film (including differential leucocyte count), haemoglobin, haematocrit or erythrocyte count by a participating nurse practitioner - 1 test <b>Fee:</b> \$4.55 <b>Benefit:</b> 85% = \$3.90
73830	2 tests described in item 73829 by a participating nurse practitioner <b>Fee:</b> \$6.35 <b>Benefit:</b> 85% = \$5.40
73831	3 or more tests described in item 73829 by a participating nurse practitioner <b>Fee:</b> \$8.15 <b>Benefit:</b> 85% = \$6.95
73832	Microscopy of urine, excluding dipstick testing by a participating nurse practitioner. <b>Fee:</b> \$4.55 <b>Benefit:</b> 85% = \$3.90
73833	Pregnancy test by 1 or more immunochemical methods by a participating nurse practitioner <b>Fee:</b> \$10.15 <b>Benefit:</b> 85% = \$8.65
73834	Microscopy for wet film other than urine, including any relevant stain by a participating nurse practitioner <b>Fee:</b> \$6.90 <b>Benefit:</b> 85% = \$5.90
73835	Microscopy of Gram-stained film, including (if performed) a service described in item 73832 or 73834 by a participating nurse practitioner <b>Fee:</b> \$8.65 <b>Benefit:</b> 85% = \$7.40
73836	Chemical tests for occult blood in faeces by reagent stick, strip, tablet or similar method by a participating nurse practitioner <b>Fee:</b> \$2.35 <b>Benefit:</b> 85% = \$2.00
73837	Microscopy for fungi in skin, hair or nails by a participating nurse practitioner - 1 or more sites <b>Fee:</b> \$6.90 <b>Benefit:</b> 85% = \$5.90
73839	Quantitation of HbA1c (glycated haemoglobin) performed for the diagnosis of diabetes in asymptomatic patients at high risk - not more than once in a 12 month period.  (Item is subject to restrictions in rule PR.9.1 of explanatory notes to this category)  (See para PR.9.1 of explanatory notes to this Category) <b>Fee:</b> \$16.80 <b>Benefit:</b> 75% = \$12.60    85% = \$14.30
73840	Quantitation of glycosylated haemoglobin performed in the management of established diabetes – each

<b>P9. SIMPLE BASIC PATHOLOGY TESTS</b>	
	<p>test to a maximum of 4 tests in a 12 month period.</p> <p>(Item is subject to restrictions in rule PR.9.1 of explanatory notes to this category)</p> <p>(See para PR.9.1 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$17.00      <b>Benefit:</b> 75% = \$12.75    85% = \$14.45</p>
73844	<p>Quantitation of urinary microalbumin as determined by urine albumin excretion on a timed overnight urine sample or urine albumin/creatinine ratio as determined on a first morning urine sample in the management of established diabetes.</p> <p>(Item is subject to restrictions in rule PR.9.1 of explanatory notes to this category)</p> <p>(See para PR.9.1 of explanatory notes to this Category)</p> <p><b>Fee:</b> \$20.35      <b>Benefit:</b> 75% = \$15.30    85% = \$17.30</p>
<b>P10. PATIENT EPISODE INITIATION</b>	
	<b>Group P10. Patient Episode Initiation</b>
73899	<p>Initiation of a patient episode that consists of a service described in item 72858 or 72859 in circumstances other than those mentioned in item 73900</p> <p><b>Fee:</b> \$5.95      <b>Benefit:</b> 75% = \$4.50    85% = \$5.10</p>
73900	<p>Initiation of a patient episode that consists of a service described in item 72858 or 72859 if the service is rendered in a prescribed laboratory.</p> <p><b>Fee:</b> \$2.40      <b>Benefit:</b> 75% = \$1.80    85% = \$2.05</p>
73920	<p>Initiation of a patient episode by collection of a specimen for 1 or more services (other than those services described in items 73922, 73924 or 73926) if the specimen is collected in an approved collection centre that the APA operates in the same premises as it operates a category GX or GY pathology laboratory</p> <p><b>Fee:</b> \$2.40      <b>Benefit:</b> 75% = \$1.80    85% = \$2.05</p>
73922	<p>Initiation of a patient episode that consists of a service described in item 73070, 73071, 73072, 73073, 73074, 73075 or 73076 (in circumstances other than those described in item 73923).</p> <p><b>Fee:</b> \$8.20      <b>Benefit:</b> 75% = \$6.15    85% = \$7.00</p>
73923	<p>Initiation of a patient episode that consists of a service described in items 73070, 73071, 73072, 73073, 73074, 73075 or 73076 if: (a) the person is a private patient in a recognised hospital; or (b) the person receives the service from a prescribed laboratory</p> <p><b>Fee:</b> \$2.40      <b>Benefit:</b> 75% = \$1.80    85% = \$2.05</p>
73924	<p>Initiation of a patient episode that consists of 1 or more services described in items 72813, 72816, 72817, 72818, 72823, 72824, 72825, 72826, 72827, 72828, 72830, 72836 and 72838 (in circumstances other than those described in item 73925) from a person who is an in-patient of a hospital.</p> <p><b>Fee:</b> \$14.65      <b>Benefit:</b> 75% = \$11.00    85% = \$12.50</p>
73925	<p>Initiation of a patient episode that consists of 1 or more services described in items 72813, 72816, 72817, 72818, 72823, 72824, 72825, 72826, 72827, 72828, 72830, 72836 and 72838 if the person is:</p> <p>(a) a private patient of a recognised hospital; or</p> <p>(b) a private patient of a hospital who receives the service or services from a prescribed laboratory.</p>

<b>P10. PATIENT EPISODE INITIATION</b>	
	<b>Fee:</b> \$2.40 <b>Benefit:</b> 75% = \$1.80    85% = \$2.05
73926	Initiation of a patient episode that consists of 1 or more services described in items 72813, 72816, 72817, 72818, 72823, 72824, 72825, 72826, 72827, 72828, 72830, 72836 and 72838 (in circumstances other than those described in item 73927) from a person who is not a patient of a hospital. <b>Fee:</b> \$8.20 <b>Benefit:</b> 75% = \$6.15    85% = \$7.00
73927	Initiation of a patient episode by a prescribed laboratory that consists of 1 or more services described in items, 72813, 72816, 72817, 72818, 72823, 72824, 72825, 72826, 72827, 72828, 72830, 72836 and 72838 from a person who is not a patient of a hospital. <b>Fee:</b> \$2.40 <b>Benefit:</b> 75% = \$1.80    85% = \$2.05
73928	Initiation of a patient episode by collection of a specimen for 1 or more services (other than those services described in items 73922, 73924 or 73926) if the specimen is collected in an approved collection centre. Unless item 73920 or 73929 applies <b>Fee:</b> \$5.95 <b>Benefit:</b> 75% = \$4.50    85% = \$5.10
73929	Initiation of a patient episode by collection of a specimen for 1 or more services (other than those services described in items 73922, 73924 or 73926) if the specimen is collected by an approved pathology practitioner for a prescribed laboratory or by an employee of an approved pathology authority, who conducts a prescribed laboratory, if the specimen is collected in an approved pathology collection centre <b>Fee:</b> \$2.40 <b>Benefit:</b> 75% = \$1.80    85% = \$2.05
73930	Initiation of a patient episode by collection of a specimen for a service for 1 or more services (other than those services described in items 73922, 73924 or 73926) if the specimen is collected by an approved pathology practitioner or an employee of an approved pathology authority from a person who is an in-patient of a hospital other than a recognised hospital. Unless item 73931 applies <b>Fee:</b> \$5.95 <b>Benefit:</b> 75% = \$4.50    85% = \$5.10
73931	Initiation of a patient episode by collection of a specimen for 1 or more services (other than those services described in items 73922, 73924 or 73926) if: <ul style="list-style-type: none"> <li>( ) the specimen is collected by an approved pathology practitioner for a prescribed laboratory or by an employee of an approved pathology authority, who conducts a prescribed laboratory, from a person who is a private patient in a hospital or</li> <li>( ) the person is a private patient in a recognised hospital and the specimen is collected by an approved pathology practitioner or an employee of an approved pathology authority</li> </ul> <b>Fee:</b> \$2.40 <b>Benefit:</b> 75% = \$1.80    85% = \$2.05
73932	Initiation of a patient episode by collection of a specimen for 1 or more services (other than those services described in items 73922, 73924 or 73926) if the specimen is collected by an approved pathology practitioner or an employee of an approved pathology authority from a person in the place where the person was residing. Unless item 73933 applies <b>Fee:</b> \$10.25 <b>Benefit:</b> 75% = \$7.70    85% = \$8.75
73933	Initiation of a patient episode by collection of a specimen for 1 or more services (other than those services described in items 73922, 73924 or 73926) if the specimen is collected by an approved pathology practitioner for a prescribed laboratory or by an employee of an approved pathology authority, who conducts a prescribed laboratory, from a person in the place where the person is residing <b>Fee:</b> \$2.40 <b>Benefit:</b> 75% = \$1.80    85% = \$2.05

<b>P10. PATIENT EPISODE INITIATION</b>	
73934	<p>Initiation of a patient episode by collection of a specimen for 1 or more services (other than those services described in items 73922, 73924 and 73926) if the specimen is collected by an approved pathology practitioner or an employee of an approved pathology authority from a person in a residential aged care home or institution. Unless 73935 applies</p> <p><b>Fee:</b> \$17.60      <b>Benefit:</b> 75% = \$13.20    85% = \$15.00</p>
73935	<p>Initiation of a patient episode by collection of a specimen for 1 or more services (other than those services described in items 73922, 73924 or 73926) if the specimen is collected by an approved pathology practitioner or by an employee of an approved pathology authority, who conducts a prescribed laboratory, from a person in a residential aged care home or institution</p> <p><b>Fee:</b> \$2.40      <b>Benefit:</b> 75% = \$1.80    85% = \$2.05</p>
73936	<p>Initiation of a patient episode by collection of a specimen for 1 or more services (other than those services described in items 73922, 73924 or 73926) if the specimen is collected from the person by the person.</p> <p><b>Fee:</b> \$5.95      <b>Benefit:</b> 75% = \$4.50    85% = \$5.10</p>
73937	<p>Initiation of a patient episode by collection of a specimen for 1 or more services (other than those services described in items 73922, 73924 or 73926), if the specimen is collected from the person by the person and if:</p> <ul style="list-style-type: none"> <li>( ) the service is performed in a prescribed laboratory or</li> <li>( ) the person is a private patient in a recognised hospital</li> </ul> <p><b>Fee:</b> \$2.40      <b>Benefit:</b> 75% = \$1.80    85% = \$2.05</p>
73938	<p>Initiation of a patient episode by collection of a specimen for 1 or more services (other than those services described in items 73922, 73924 or 73926) if the specimen is collected by or on behalf of the treating practitioner. Unless item 73939 applies</p> <p><b>Fee:</b> \$7.95      <b>Benefit:</b> 75% = \$6.00    85% = \$6.80</p>
73939	<p>Initiation of a patient episode by collection of a specimen for 1 or more services (other than those services described in items 73922, 73924 or 73926), if the specimen is collected by or on behalf of the treating practitioner and if:</p> <ul style="list-style-type: none"> <li>( ) the service is performed in a prescribed laboratory or</li> <li>( ) the person is a private patient in a recognised hospital</li> </ul> <p><b>Fee:</b> \$2.40      <b>Benefit:</b> 75% = \$1.80    85% = \$2.05</p>
<b>P11. SPECIMEN REFERRED</b>	
	<b>Group P11. Specimen Referred</b>
73940	<p>Receipt of a specimen by an approved pathology practitioner of an approved pathology authority from another approved pathology practitioner of a different approved pathology authority or another approved pathology authority</p> <p>(Item is subject to rules 14, 15 and 16)</p> <p><b>Fee:</b> \$10.25      <b>Benefit:</b> 75% = \$7.70    85% = \$8.75</p>

**P12. MANAGEMENT OF BULK-BILLED SERVICES**

<b>Group P12. Management Of Bulk-Billed Services</b>	
	<p>A pathology service to which an item in this table (other than this item or item 74991) applies if:</p> <ul style="list-style-type: none"> <li>(a) the service is an unREFERRED service; and</li> <li>(b) the service is provided to a person who is under the age of 16 or is a Commonwealth concession card holder; and</li> <li>(c) the person is not an admitted patient of a hospital; and</li> <li>(d) the service is bulk-billed in respect of the fees for: <ul style="list-style-type: none"> <li>(i) this item; and</li> <li>(ii) the other item in this table applying to the service</li> </ul> </li> </ul> <p>(See para PN.0.24 of explanatory notes to this Category)</p>
74990	<p><b>Fee:</b> \$7.15      <b>Benefit:</b> 85% = \$6.10</p>
	<p>A pathology service to which an item in this table (other than this item or item 74990) applies if:</p> <ul style="list-style-type: none"> <li>(a) the service is an unREFERRED service; and</li> <li>(b) the service is provided to a person who is under the age of 16 or is a Commonwealth concession card holder; and</li> <li>(c) the person is not an admitted patient of a hospital; and</li> <li>(d) the service is bulk-billed in respect of the fees for: <ul style="list-style-type: none"> <li>(i) this item; and</li> <li>(ii) the other item in this table applying to the service; and</li> </ul> </li> <li>(e) the service is provided at, or from, a practice location within Modified Monash areas 2 to 7.</li> </ul> <p>(See para PN.0.24 of explanatory notes to this Category)</p>
74991	<p><b>Fee:</b> \$10.80      <b>Benefit:</b> 85% = \$9.20</p>
<b>P13. BULK-BILLING INCENTIVE</b>	
<b>Group P13. Bulk-Billing Incentive</b>	
	<p>A payment when the episode is bulk billed and includes item 73920.</p>
74992	<p><b>Fee:</b> \$1.60      <b>Benefit:</b> 75% = \$1.20    85% = \$1.40</p>
	<p>A payment when the episode is bulk billed and includes item 73922 or 73926.</p>
74993	<p><b>Fee:</b> \$3.75      <b>Benefit:</b> 75% = \$2.85    85% = \$3.20</p>
	<p>A payment when the episode is bulk billed and includes item 73924.</p>
74994	<p><b>Fee:</b> \$3.25      <b>Benefit:</b> 75% = \$2.45    85% = \$2.80</p>
	<p>A payment when the episode is bulk billed and includes item 73899, 73900, 73928, 73930 or 73936.</p>
74995	<p><b>Fee:</b> \$4.00      <b>Benefit:</b> 75% = \$3.00    85% = \$3.40</p>

**P13. BULK-BILLING INCENTIVE**

	A payment when the episode is bulk billed and includes item 73932 or 73940.
74996	<b>Fee:</b> \$3.70 <b>Benefit:</b> 75% = \$2.80    85% = \$3.15
	A payment when the episode is bulk billed and includes item 73934.
74997	<b>Fee:</b> \$3.30 <b>Benefit:</b> 75% = \$2.50    85% = \$2.85
	A payment when the episode is bulk billed and includes item 73938.
74998	<b>Fee:</b> \$2.00 <b>Benefit:</b> 75% = \$1.50    85% = \$1.70
	A payment when the episode is bulk billed and includes item 73923, 73925, 73927, 73929, 73931, 73933, 73935, 73937 or 73939.
74999	<b>Fee:</b> \$1.60 <b>Benefit:</b> 75% = \$1.20    85% = \$1.40

## INDEX

<b>1</b>			
11 - Deoxycortisol DCOR		66695	
<b>A</b>			
Abnormal heamoglobins AH		65117	
Acetoacetate ACP		66500	
Acid phosphatase ACP		66500	
Actinimycetes - microbial antibody testing ACT		69384	
Activated Protein C resistance APC		65142, 65171	
Adenovirus - microbial antibody testing ADE		69384	
Adrenocorticotrophic hormone (ACTH) ACTH		66695	
AFB microscopy & culture of sputum - 1 specimen AFB1		69324	
AFB microscopy & culture of sputum - 2 specimens AFB2		69327	
AFB microscopy & culture of sputum - 3 specimens AFB3		69330	
Alanine aminotransferase ALT		66500	
Albumin ALB		66500	
Alcohol (ethanol) ETOH		66626, 66800	
Aldosterone ALDS		66695	
ALK gene testing		73341	
Alkaline phosphatase - isoenzymes ALPI		66641	
Alkaline phosphatase ALP		66500	
Alpha-1-antitrypsin AAT		66635	
Alpha-fetoprotein AFP		66650-66653, 66743	
Aluminium - renal dialysis ALR		66671	
Amikacin		66800	
Amino acids AA		66752	
Amiodarone AMIO		66812	
Amitriptyline AMIT		66812	
Ammonia NH3		66500	
Amniotic fluid examination AFE		66749	
Amylase AMS		66500	
Amylobarbitone AMYL		66812	
Androstenedione ANDR		66695	
Angiotensin converting exzyme ACE		66758	
Anti - Xa activity QAXA		65147	
Antibiotic & antimicrobial chemotherapeutic agents - quantitation QQA		66812	
Antibiotic & antimicrobial chemotherapeutic agents - quantitation QAA		66800	
Antibodies to extractable nuclear antigens - characterisation of antibodies if p		71103	
Antibodies to extractable nuclear antigens - detection ENA		71101	
Antibodies to nuclear antigens - detection ANA		71097	
Antibodies to nuclear antigens - quantitation & measurement of DNA binding if po		71099	
Antibodies to tissue antibodies - liver/kidney microsomes LKA		71119	
Antibodies to tissue antigens - ANCA - myeloperoxidase MPO		71153	
Antibodies to tissue antigens - ANCA - PR3 PR3		71153	
Antibodies to tissue antigens - anti - actin AACT		71119	
Antibodies to tissue antigens - anti - endomysial EMA		71163	
Antibodies to tissue antigens - coeliac disease panel CLC		71163-71164	
Antibodies to tissue antigens - gastric parietal cell PCA		71119	
Antibodies to tissue antigens - gliadin IgA GLIA		71163	
Antibodies to tissue antigens - gliadin IgG GLIG		71163	
Antibodies to tissue antigens - Jo-1 JO1		71119	
Antibodies to tissue antigens - keratin KERA		71119	
Antibodies to tissue antigens - mitochondria MA		71119	
Antibodies to tissue antigens - neutrophil cytoplasm ANCA		71153	
Antibodies to tissue antigens - PM-Sc1 PM1		71119	
Antibodies to tissue antigens - reticulin RCA		71119	
Antibodies to tissue antigens - Sc1-70 SCL		71119	
Antibodies to tissue antigens - smooth muscle SMA		71119	
Antibodies to tissue antigens - tissue transglutaminase TTG		71163	
Antibodies to tissue antigens - TSH receptor antibody test TSHA		71165	
Antibodies to tissue antigens -glomerular basement membrane GBM		71153	
Antibody to cardiolipin or beta 2 glycoprotein ACB		71180	
Antithrombin III ATH		65142, 65171, 65175-65179	
Anus - cytology on specimens from SMCY		73043	
Apolipoprotein B/A1 ratio APO		66536	
Arsenic AS		66825-66828	
Aspartate aminotransferase AST		66500	
Aspergillus - microbial antibody testing ASP		69384	
Avian precipitins (bird fancier's disease) - microbial antibody testing APP		69384	
<b>B</b>			
B12 markers vitamin B12M		66839	
B12 vitamin B12		66838	
Barbiturate BARB		66800	
Beryllium BE		66825-66828	
Beta-2 microglobulin BMIC		66629	
Beta-hydroxybutyrate BHYB		66500	
Bicarbonate HCO3		66500	
Bilirubin (all fractions) - in urine UBIL		66500	
Bilirubin (all fractions) - neonatal BILN		66749	
Bilirubin (all fractions) BILI		66500	
Bird fancier's disease (see avian precipitins) APP		69384	
Blastomyces - microbial antibody testing BLM		69384	
Blood - compatability testing XMAT		65099, 65102, 65105 65108	
Blood - culture BC		69354, 69357, 69360	
Blood - faecal occult FOB		66764, 66767, 66770	
Blood - film BF		65066	
Blood - full examination FBE		65070	
Blood - gas GAS		66566	
Blood - group & blood group antibodies BGAB		65096	
Blood - group antibodies BGA		65111	
Blood - group systems BGS		65093	
Blood - grouping - ABO & RH (D antigens) BG		65090	
Blood - viscosity VISC		65060	
BNP or NT-proBNP quantitation BNP		66830	
Body cavities - aspirations of - microscopy & culture of material from MCOP		69321	
Body fluids - cytology BFCY		73045	
Bone - low mineral densities CBLB		66773	
Bone - metabolic bone disease CBMB		66776	
Bone marrow examination - aspirate BMEA		65087	
Bone marrow examination - trephine BMET		65084	
Bordetella pertussis - microbial antibody testing BOR		69384	
Borrelia burgdorferi - microbial antibody testing BOB		69384	
Breath hydrogen test BHT		66674	

Bromide BRMD 66812  
 Brucella - microbial antibody testing BRU 69384  
 Bulk billing incentive 74995

### C

C-1 esterase inhibitor - functional CEIF 66647  
 C-1 esterase inhibitor - quantitation CEIQ 66644  
 C-Peptide CPEP 66695  
 C-Reactive protein CRP 66500  
 CA-125 antigen C125 66650  
 CA-15.3 antigen CA15 66650  
 CA-19.9 antigen 66650  
 Caeruloplasmin CPLS 66632  
 Calcitonin CALT 66695  
 Calcium (total or corrected for albumin) CA 66500  
 Calcium - ionised ICA 66584  
 Calculus analysis CALC 66590  
 Campylobacter jejuni - microbial testing antibody CAM 69384  
 Candida - microbial antibody testing CAN 69384  
 Carbamazepine (Tegretol) CARB 66800  
 Carboxyhaemoglobin COHB 65117  
 Carcinoembryonic antigen CEA 66650  
 Cardiac enzymes (see test groups at PQ.4) CE 66506  
 Catecholamines CAT 66779  
 Cell mediated immunity - delayed type - hypersensitivity test CMI 71137  
 Cell-mediated immunity in blood CMIB 69471  
 Cervix - microscopy & culture of material from MCGR 69312  
 CFS - microscopy & culture of material from MCPO 69321  
 Characterisation of antibodies if positive ENA ENAP 71103  
 Chemicals, toxic (ingested or absorbed) - assays DRGO 66623  
 Chlamydia - microbial antibody testing CHL 69384  
 Chloral hydrate CHHY 66812  
 Chlorazepate CHZP 66812  
 Chloride CL 66500  
 Chloroquine CLOQ 66812  
 Chlorpromazine CHLO 66812  
 Cholesterol - HDL HDLC 66536  
 Cholesterol CHOL 66500  
 Cholinesterase CHSE 66758  
 Chorionic gonadotrophin - detection for pregnancy diagnosis HCGP 73527, 73529  
 Chorionic gonadotrophin - quantitation HCG 66650-66653  
 73529  
 Chromosome identification - studies - blood CSB 73289  
 Chromosome identification - studies - other than blood CS 73287  
 Chromosome identification and banding 73287  
 Chromosome identification and banding 73289  
 Chronic eosinophilic leukaemia 73326  
 Cimetidine CMTD 66812  
 Clobazam CLOB 66812  
 Clomipramine CLOM 66812  
 Clonazepam (Rivotril) CLON 66812  
 Clostridium difficile - microbial antigen testing CLDT 69363  
 Coagulation - studies (see test groups at para PQ4) COAG 65120  
 Coagulation factor inhibitors by Bethesda assay BETH 65159  
 Coccidioides - microbial antibody testing CCC 69384  
 Coeliac antibodies CLC 71163-71164  
 Cold agglutinins CAG 65114  
 Collagen - low bone CBLB 66773  
 Collagen - metabolic disease CBMB 66776

Combatability testing XMAT 65099, 65102, 65105, 65108  
 Complement, total haemolytic - components C3 C3 71083  
 Complement, total haemolytic - components C4 C4 71083  
 Complement, total haemolytic - other components COMP 71089  
 Complement, total haemolytic - properdin factor B PFB 71083  
 Complement, total haemolytic COM 71081  
 Copper CU 66831  
 Cortisol CORT 66695  
 Cortisol in saliva CORS 66711-66712  
 Coxsackie B1-6 - microbial antibody testing COX 69384  
 Creatine Kinase - isoenzyme (electrophoresis) CKIE 66518  
 Creatine kinase - isoenzymes CKI 66518  
 Creatine kinase CK 66500  
 Creatinine C 66500  
 Cryofibrinogen - detection and quantitation CFID 71064  
 Cryoglobulins - characterisation by electrophoresis, and immunoelectrophoresis o 71059  
 Cryoglobulins - detection and quantitation CGLD 71064  
 Cryptococcus - microbial antibody testing CRY 69384  
 Cultural examination of faeces FCS 69345  
 Cyclic AMP CAMP 66695  
 Cyclosporin A CLSA 66812  
 Cystine - qualitative UCYS 66752  
 Cystine - quantitative CYST 66752  
 Cytology - fine needle aspiration of solid tissues - aspiration or attendance by 73051  
 Cytology - fine needle aspiration of solid tissues FNCY 73049  
 Cytology - from 3 sputum or urine specimens SPCY 73047  
 Cytology - from body fluids, sputum (1 specimen), urine, washings or brushings B 73045  
 Cytology - from skin, nipple discharge, lip, mouth, nose or anus SMCY 73043  
 Cytomegalovirus - microbial antibody testing CMV 69384  
 Cytomegalovirus serology in pregnancy - microbial antibody testing CMVP 69405, 69408, 69411

### D

D-dimer test DD 65120  
 Dehydroepiandrosterone sulphate (DHEAS) DHEA 66695  
 Dengue - microbial antibody testing DEN 69384  
 Desipramine DESI 66812  
 Dexamethasone - suppression test DEXA 66686  
 Dexamethasone DXST 66686  
 DHEAS (Dehydroepiandrosterone sulphate) DHEA 66695  
 Diazepam DIAZ 66812  
 Differential cell count DIFF 66812  
 Digoxin DIG 66800  
 Dihydrotestosterone DHTS 66695  
 Diphenylhydantoin (Dilantin) DIL 66812  
 Diphtheria - microbial antibody testing DIP 69384  
 Direct Coombs test CMBS 65114  
 Disopyramide (Rythmodan) DISO 66800  
 DNA binding - quantitation & measurement if positive ANA ANAP 71099  
 DNA, (double-stranded DNA) antibody DSDNA 71099  
 Donath Landsteiner antibody test DLAT 65075  
 Doxepin hydrochloride DOXE 66812  
 Drugs - abuse treatment programme - assay DATP 66626  
 Drugs - inappropriate dosage - assay DRGO 66623  
 Drugs - therapeutic - assay (See individual drugs) 66800  
 66812

HLAB5701 - status by flow cytometry or cytotoxicity assay HLA F	HLAF	69384
	71203	
HLAB5701 - status by molecular techniques or cytotoxicity assay		
HLAM	73323	
HLT typing - HLA class 1 HLA1	71149	
HMMA (hydroxy-3-methoxymandelic acid, previously known as VMA) HMMA	66779	
HMPG (hydroxy-methoxy phenylethylene glycol) HMPG	66779	
Homovanillic acid HVA	66779	
Hormone receptor assay - breast HRA	66662	
Hormone receptor assay - ovary HRO	66662	
Hormones & hormone binding proteins (see individual hormones and proteins)	66695	
Hormones - 11 deoxycortisol DCOR	66695	
Hormones - adrenocorticotrophic hormone ACTH	66695	
Hormones - aldosterone ALDS	66695	
Hormones - androstenedione ANDR	66695	
Hormones - C-Peptide CPEP	66695	
Hormones - Calcitonin CALT	66695	
Hormones - cortisol CORT	66695	
Hormones - cyclic AMP CAMP	66695	
Hormones - dehydroepiandrosterone sulphate (DHEAS) DHEA	66695	
Hormones - dihydrotestosterone DHTS	66695	
Hormones - follicle stimulating hormone FSH	66695	
Hormones - gastrin GAST	66695	
Hormones - glucagon GLGO	66695	
Hormones - growth hormone - stimulation by exercise or L-dopa GHSE	66686	
Hormones - growth hormone - suppression by dexamethasone or glucose GHSG	66686	
Hormones - growth hormone GH	66695	
Hormones - hormone receptor assay - breast HRA	66662	
Hormones - hormones receptor assay - ovary HRO	66662	
Hormones - human chorionic gonadotrophin - detection for pregnancy diagnosis HCG	73527, 73529	
Hormones - human chorionic gonadotrophin - quantitation HCG	66650-66653, 73529	
Hormones - hydroxyprogesterone OHP	66695	
Hormones - insulin INS	66695	
Hormones - luteinizing hormone LH	66695	
Hormones - oestradiol E2	66695	
Hormones - oestrone - E1	66695	
Hormones - parathyroid hormone PTH	66695	
Hormones - progesterone PROG	66695	
Hormones - prolactin PROL	66695	
Hormones - renin	66695	
Hormones - sex hormone binding globulin SHBG	66695	
Hormones - somatomedin SOMA	66695	
Hormones - stimulation by exercise or L-dopa GHSE	66686	
Hormones - suppression by dexamethasone or glucose GHSG	66686	
Hormones - testosterone TES	66695	
Hormones - urine steroid fraction or fractions USF	66695	
Hormones - vasoactive intestinal peptide VIP	66695	
Hormones - vasopressin ADH	66695	
Huhner's test HT	73521	
Human chorionic gonadotrophin - detection for diagnosis of pregnancy HCGP	73527, 73529	
Human chorionic gonadotrophin - quantitation HCG	66650-66653	
	73529	
HVA (homovanillic acid) HVA	66779	
Hydatid - microbial antibody testing HYD		69384
Hydroxy methoxy phenylethylene glycol HMPG		66779
Hydroxy-3-methoxymandelic acid, (previously known as VMA) HMMA		66779
Hydroxychloroquine HOCQ		66812
Hydroxyindoleacetic acid HIAA		66779
Hydroxyprogesterone OHP		66695
Hydroxyproline HYDP		66752
<b>I</b>		
Idiopathic hypereosinophilic syndrome		73326
Imipramine IMIP		66812
Immediate frozen section diagnosis of biopsy material FS		72855-72856
Immunocyto. 1-3 antibodies ICC		73059, 73061
Immunocyto. 4 + antibodies ICC1		73060
Immuno-electrophoresis and electrophoresis - characterisation of cryoglobulins RY		71059
Immuno-electrophoresis and electrophoresis - characterisation of paraprotein PPRO		71059
Immunoglobulins - A IGA		71066
Immunoglobulins - D IGD		71074
Immunoglobulins - E (total) IGE		71075-71077, 71079
Immunoglobulins - G IGG		71068
Immunoglobulins - M IGM		71072
Immunoglobulins -G, 4 subclasses SIGG		71073
Immunohistochemical investigation of biopsy material HIS		72846-72848
Infectious mononucleosis IM		69384
Influenza A - microbial antibody testing FLA		69384
Influenza B - microbial antibody testing FLB		69384
Insulin INS		66695
Intestinal disaccharidases INTD		66680
Iron studies (iron, transferrin & ferritin) IS		66596
Isoelectric focussing and electrophoresis - characterisation of cryoglobulins RY		71059
Isoelectric focussing and electrophoresis - characterisation of paraprotein PPRO		71059
<b>J</b>		
Jo-1 - tissue antigens - antibodies JO1		71119
<b>K</b>		
Keratin - tissue antigens - antibodies KERA		71119
Kleihauer test KLEI		65162
KRAS gene mutation status		73338
<b>L</b>		
Lactate - dehydrogenase isoenzymes LDI		66641
Lactate - dehydrogenase LDH		66500
Lactate LACT		66500
Lamellar body phospholipid LBPH		66749
Lead PB		66665
Lecithin/sphingomyelin ratio (amniotic fluid) LS		66749
Legionella pneumophila - serogroup 1 - microbial antibody testing LP1		69384

Legionella pneumophila - serogroup 2 - microbial antibody testing LP2 69384  
 Leishmaniasis - microbial antibody testing LEI 69384  
 Leptospira - microbial antibody testing LEP 69384  
 Leucocyte count - 3 surface markers - blood, CSF, serous fluid LMH3 71139  
 Leucocyte count - 3 surface markers - tissue LMT3 71141  
 Leucocyte count - 6 surface markers - blood, CSF, serous fluid & tissue(s) LMHT 71145  
 Leucocyte count - 6 surface markers - blood, CSF, serous fluid or tissue LM6 71143  
 Leucocyte count - CD34 surface marker only - blood LMCD34 71146  
 Leucocyte count WCC 65070  
 Light chains - free kappa or lambda LCHS 71200  
 Lignocaine LIGN 66800  
 Lip - cytology on specimens from SMCY 73043  
 Lipase LIP 66500  
 Lipid studies (see test groups at para PQ.4) 66500  
 Lipoprotein subclasses - electrophoresis LEPC 66539  
 Listeria - microbial antibody testing LIS 69384  
 Lithium LI 66800  
 Liver/kidney microsomes - tissue antigens - antibodies LKA71119  
 Lupus anticoagulant LUPA 65137, 65142  
 Luteinizing hormone LH 66695  
 Lymphocytes - functional tests - 1 test LF1 71127  
 Lymphocytes - functional tests - 2 test LF2 71129  
 Lymphocytes - functional tests - 3 tests LF3 71131

### U

Urate URAT	66500
Urea U	66500
Urethra - microscopy & culture of material from MCGR	69312
Urine - acidification test UAT	66587
Urine - cystine (cysteine) UCYS	66782
Urine - cytology - on 1 specimen BFCY	73045
Urine - cytology - on 3 specimens SPCY	73047
Urine - haemoglobin UHB	66782
Urine - microscopy, culture, identification & sensitivity UMCS	69333
Urine - porphyrins - qualitative test UPR	66782
Urine - urobilinogen UPG	66782
Urine - steroid fraction or fractions USF	66695
Urine - urobilinogen UUB	66782

### V

Vagina - microscopy & culture of material from MCGR	69312
Valproate (Epilim) VALP	66800
Vancomycin VAN	66800
Varicella zoster - microbial antibody testing VCZ	69384
Vasoactive intestinal peptide VIP	66695
Vasopressin ADH	66695
VDRL (Venereal Disease Research Laboratory) - microbial antibody testing VDRL	69384
Viscosity of blood or plasma VISC	65060
Vitamins - 1,25-dihydroxyvitamin D	66835-66836
Vitamins - 25-hydroxyvitamin D	66833
Vitamins - B12 B12	66838
Vitamins - B12 markers B12M	66839
Vitamins - D VITD	66833, 66835-66836
Vitamins - quantitation of A or E	66607
Vitamins - quantitation of B1, B2, B3, B6 or C	66605

## COMPLEXITY LEVELS FOR HISTOPATHOLOGY ITEMS

Specimen Type	Complexity level
Adrenal resection, neoplasm	5
Adrenal resection, not neoplasm	4
Anus, all specimens not otherwise specified	3
Anus, neoplasm, biopsy	4
Anus, neoplasm, radical resection	6
Anus, submucosal resection – neoplasm	5
Appendix	3
Artery, all specimens not otherwise specified	3
Artery, biopsy	4
Bartholin's gland - cyst	3
Bile duct, resection - all specimens	6
Bone, biopsy, curettings or fragments - lesion	5
Bone, biopsy or curettings quantitation - metabolic disease	6
Bone, femoral head	4
Bone, resection, neoplasm - all sites and types	6
Bone marrow, biopsy	4
Bone - all specimens not otherwise specified	4
Brain neoplasm, resection - cerebello-pontine angle	4
Brain or meninges, biopsy - all lesions	5
Brain or meninges, not neoplasm - temporal lobe	6
Brain or meninges, resection - neoplasm (intracranial)	5
Brain or meninges, resection - not neoplasm	4
Branchial cleft, cyst	4
Breast, excision biopsy, guidewire localisation - non-palpable lesion	6
Breast, excision biopsy, or radical resection, malignant neoplasm or atypical proliferative disease - all specimen types	6
Breast, incision biopsy or needle biopsy, malignant neoplasm - all specimen types	4
Breast – microdochoectomy	6
Breast, orientated wide local excision for carcinoma, with margin assessment	7
Breast tissue - all specimens not otherwise specified	4
Bronchus, biopsy	4
Carotid body - neoplasm	5
Cholesteatoma	3
Digits, amputation - not traumatic	4
Digits, amputation - traumatic	2
Ear, middle and inner - not cholesteatoma	4
Endocrine neoplasm - not otherwise specified	5
Extremity, amputation or disarticulation – neoplasm	6

<b>Specimen Type</b>	<b>Complexity level</b>
Extremity, amputation - not otherwise specified	4
Eye, conjunctiva - biopsy or pterygium	3
Eye, cornea	4
Eye, enucleation or exenteration - all lesions	6
Eye - not otherwise specified	4
Fallopian tube, biopsy	4
Fallopian tube, ectopic pregnancy	4
Fallopian tube, sterilization	2
Fetus with dissection	6
Foreskin - new born	2
Foreskin - not new born	3
Gallbladder	3
Gallbladder and porta hepatis-radical resection	6
Ganglion cyst, all sites	3
Gum or oral mucosa, biopsy	4
Heart valve	4
Heart - not otherwise specified	5
Hernia sac	2
Hydrocele sac	2
Jaw, upper or lower, including bone, radical resection for neoplasm	6
Joint and periarticular tissue, without bone - all specimens	3
Joint tissue, including bone - all specimens	4
Kidney, biopsy including transplant	5
Kidney, nephrectomy transplant	5
Kidney, partial or total nephrectomy or nephroureterectomy - neoplasm	6
Kidney, partial or total nephrectomy - not neoplasm	4
Large bowel (including rectum), biopsy - all sites	4
Large bowel, colostomy - stoma	3
Large bowel (including rectum), biopsy, for confirmation or exclusion of Hirschsprung's Disease	5
Large bowel (including rectum), polyp	4
Large bowel, segmental resection - colon, not neoplasm	5
Large bowel (including rectum), segmental resection, neoplasm	6
Large bowel (including rectum), submucosal resection – neoplasm	5
Larynx, biopsy	4
Larynx, partial or total resection	5
Larynx, resection with nodes or pharynx or both	6
Lip, biopsy - all specimens not otherwise specified	3
Lip, wedge resection or local excision with orientation	4
Liver, hydatid cyst or resection for trauma	4
Liver, total or subtotal hepatectomy - neoplasm	6
Liver - all specimens not otherwise specified	5

<b>Specimen Type</b>	<b>Complexity level</b>
Lung, needle or transbronchial biopsy	4
Lung, resection - neoplasm	6
Lung, wedge biopsy	5
Lung segment, lobar or total resection	6
Lymph node, biopsy - all sites	4
Lymph node, biopsy – for lymphoma or lymphoproliferative disorder	5
Lymph nodes, regional resection - all sites	5
Mediastinum mass	5
Muscle, biopsy	6
Nasopharynx or oropharynx, biopsy	4
Nerve, biopsy neuropathy	5
Nerve, neurectomy or removal of neoplasm	4
Nerve - not otherwise specified	3
Nose, mucosal biopsy	4
Nose or sinuses, polyps	3
Odontogenic neoplasm	5
Odontogenic or dental cyst	4
Oesophagus, biopsy	4
Oesophagus, diverticulum	3
Oesophagus, partial or total resection	6
Oesophagus, submucosal resection – neoplasm	5
Omentum, biopsy	4
Ovary with or without tube - neoplasm	5
Ovary with or without tube - not neoplasm	4
Pancreas, biopsy	5
Pancreas, cyst	4
Pancreas, subtotal or total with or without splenectomy	6
Parathyroid gland(s)	4
Penisectomy with node dissection	5
Penisectomy - simple	4
Peritoneum, biopsy	4
Pituitary neoplasm	4
Placenta - not third trimester	4
Placenta - third trimester, abnormal pregnancy or delivery	4
Pleura or pericardium, biopsy or tissue	4
Products of conception, spontaneous or missed abortion	4
Products of conception, termination of pregnancy	3
Prostate, radical prostatectomy or cystoprostatectomy for carcinoma	7
Prostate, radical resection	6
Prostate - all types of specimen not otherwise specified	4
Retroperitoneum, neoplasm	5
Salivary gland, Mucocele	3
Salivary gland, neoplasm - all sites	5

<b>Specimen Type</b>	<b>Complexity level</b>
Salivary gland - all specimens not otherwise specified	4
Sinus, paranasal, biopsy	4
Sinus, paranasal, resection - neoplasm	6
Skin, biopsy - blistering skin diseases	4
Skin biopsy - for investigation of alopecia other than for male pattern baldness, where serial horizontal sections are taken	5
Skin, biopsy - for investigation of lymphoproliferative disorder	5
Skin, biopsy - inflammatory dermatosis	4
Skin, eyelid, wedge resection	4
Skin, local resection - orientation	4
Skin, resection of malignant melanoma or melanoma in-situ	5
Skin - all specimens not otherwise specified including all neoplasms and cysts	3
Small bowel - biopsy, all sites	4
Small bowel, diverticulum	3
Small bowel, resection - neoplasm	6
Small bowel – resection, all specimens	5
Small bowel, submucosal resection – neoplasm	5
Soft tissue, infiltrative lesion, extensive resections at least 5cm in maximal dimension	6
Soft tissue, lipoma and variants	3
Soft tissue, neoplasm, not lipoma - all specimens	5
Soft tissue - not otherwise specified	4
Spleen	5
Stomach, endoscopic biopsy or endoscopic polypectomy	4
Stomach, resection, neoplasm - all specimens	6
Stomach, submucosal resection – neoplasm	5
Stomach - all specimens not otherwise specified	4
Tendon or tendon sheath, giant cell neoplasm	4
Tendon or tendon sheath - not otherwise specified	3
Testis, biopsy	5
Testis and adjacent structures, castration	2
Testis and adjacent structures, neoplasm with or without nodes	5
Testis and adjacent structures, vas deferens sterilization	2
Testis and adjacent structures - not otherwise specified	3
Thymus - not otherwise specified	5
Thyroglossal duct - all lesions	4
Thyroid - all specimens	5
Tissue or organ not otherwise specified, abscess	3
Tissue or organ not otherwise specified, haematoma	3
Tissue or organ not otherwise specified, malignant neoplasm with regional nodes	6
Tissue or organ not otherwise specified, neoplasm local	4

<b>Specimen Type</b>	<b>Complexity level</b>
Tissue or organ not otherwise specified, pilonidal cyst or sinus	3
Tissue or organ not otherwise specified, thrombus or embolus	3
Tissue or organ not otherwise specified, veins varicosity	3
Tissue or organ - all specimens not otherwise specified	3
Tongue, biopsy	4
Tongue or tonsil, neoplasm local	5
Tongue or tonsil, neoplasm with nodes	6
Tonsil, biopsy - excluding resection of whole organ	4
Tonsil or adenoids or both	2
Trachea, biopsy	4
reter, biopsy	4
Ureter, resection	5
Urethra, biopsy	4
Urethra, resection	5
Urinary bladder, partial or total with or without prostatectomy	6
Urinary bladder, transurethral resection of neoplasm	5
Urinary bladder - all specimens not otherwise specified	4
Uterus, cervix, curettings or biopsy	4
Uterus, cervix cone, biopsy (including LLETZ or LEEP biopsy)	5
Uterus, endocervix, polyp	3
Uterus, endometrium, polyp	3
Uterus with or without adnexa, malignant neoplasm - all specimen types not otherwise specified	6
Uterus with or without adnexa, neoplasm, Wertheim's or pelvic clearance	6
Uterus and/or cervix - all specimens not otherwise specified	4
Vagina, biopsy	4
Vagina, radical resection	6
Vaginal mucosa, incidental	3
Vulva or labia, biopsy	4
Vulval, subtotal or total with or without nodes	6

# **CATEGORY 7: CLEFT LIP AND CLEFT PALATE SERVICES**

## SUMMARY OF CHANGES FROM 01/03/2021

The 01/03/2021 changes to the MBS are summarised below and are identified in the Schedule pages by one or more of the following words appearing above the item number:

- |                         |       |
|-------------------------|-------|
| (a) new item            | New   |
| (b) amended description | Amend |
| (c) fee amended         | Fee   |
| (d) item number changed | Renum |
| (e) EMSN changed        | EMSN  |

There are no changes to this Category for 01/03/2021

## **CLEFT LIP AND CLEFT PALATE SERVICES NOTES**

### **CN.0.1 Schedule Fees and Medicare Benefits**

#### **CN.0.1 Schedule Fees and Medicare Benefits**

Medicare benefits are based on fees determined for each Schedule service. The fee is referred to in these notes as the "Schedule fee". The fee for any item listed in the Schedule is that which is regarded as being reasonable on average for that service having regard to usual and reasonable variations in the time involved in performing the service on different occasions and to reasonable ranges of complexity and technical difficulty encountered.

The Schedule fee and Medicare benefit levels for the medical services contained in the Schedule are located with the item descriptions. Where appropriate, the calculated benefit has been rounded to the nearest higher 5 cents. However, in no circumstances will the Medicare benefit payable exceed the fee actually charged.

There are presently two levels of Medicare benefit payable for cleft lip and cleft palate services:

(a) **75% of the Schedule fee:**

for professional services rendered to a patient as part of an episode of hospital treatment (other than public patients). Medical practitioners must indicate on their accounts if a medical service is rendered in these circumstances by placing an asterisk '\*' or the letter 'H' directly after an item number where used; or a description of the professional service and an indication the service was rendered as an episode of hospital treatment (for example, 'in hospital', 'admitted' or 'in patient');

for professional services rendered as part of an episode of hospital-substitute treatment, and the patient who receives the treatment chooses to receive a benefit from a private health insurer. Medical practitioners must indicate on their accounts if a medical service is rendered in these circumstances by placing the words 'hospital-substitute treatment' directly after an item number where used; or a description of the professional service, preceded by the words 'hospital-substitute treatment'.

(b) **85% of the Schedule fee**, or the Schedule fee less \$84.70 (indexed annually), whichever is the greater, for all other professional services.

It should be noted that the *Health Insurance Act 1973* makes provision for private medical insurance to cover the "patient gap" (ie, the difference between the Medicare benefit and the Schedule fee) for services attracting benefit at the 75% level. Patients may insure with private health insurance organisations for the gap between the 75% Medicare benefit and the Schedule fee or for amounts in excess of the Schedule fee where the patient has an agreement with their health fund.

### **CN.0.2 Where Medicare Benefits are not Payable**

Medicare benefits are not payable in respect of a professional service where the medical expenses for the service:-

- (a) are paid/payable to a public hospital;
- (b) are for a compensable injury or illness for which the patient's insurer or compensation agency has accepted liability. (Please note that if the medical expenses relate to a compensable injury/illness for which the insurer/compensation agency is disputing liability, then Medicare benefits are payable until the liability is accepted);
- (c) are for a medical examination for the purposes of life insurance, superannuation, a provident account scheme, or admission to membership of a friendly society; or
- (d) are incurred in mass immunisation.

Unless the Minister otherwise directs, Medicare benefits are not payable where:

- (a) the service is rendered by or on behalf of, or under an arrangement with the Australian Government, a State or Territory, a local government body or an authority established under Commonwealth, State or Territory law;

- (b) the medical expenses are incurred by the employer of the person to whom the service is rendered;
- (c) the person to whom the service is rendered is employed in an industrial undertaking and that service is rendered for the purposes related to the operation of the undertaking; or
- (d) the services is a health screening service.

Benefits are not payable for items 75150 to 75621 unless the patient was referred by letter of Referral by an eligible orthodontist.

### **CN.0.3 Limiting Rule**

In no circumstances will the benefit payable for a professional service exceed the fee charged for the service.

### **CN.0.4 Penalties**

Penalties of up to \$10,000 or imprisonment for up to five years, or both, may be imposed on any person who makes a statement (oral or written) or who issues or presents a document that is false or misleading in a material particular and which is capable of being used with a claim for benefits. In addition, any practitioner who is found guilty of such offences by a court shall be subject to examination by a Medicare Participation Review Committee and may be counselled or reprimanded or may have services wholly or partially disqualified from the Medicare benefit arrangements.

A penalty of up to \$1,000 or imprisonment for up to three months, or both, may be imposed on any person who obtains a patient's signature on a direct-billing form without the obligatory details having been entered on the form before the person signs, or who fails to cause a patient to be given a copy of the completed form.

### **CN.0.5 Billing of the Patient**

#### **CN.0.5 Billing of the Patient**

Where the practitioner bills the patient for medical services rendered, the patient needs a properly itemised account/receipt to enable a claim to be made for Medicare benefits.

Under the provisions of the *Health Insurance Act 1973* and Regulations, Medicare benefits are not payable in respect of a professional service unless there is recorded on the account setting out the fee for the service or on the receipt for the fee in respect of the service, the following particulars:-

- (a) Patient's name;
- (b) The date on which the professional service was rendered;
- (c) A description of the professional service sufficient to identify the item that relates to that service, including an indication where the service is rendered to a person while hospital treatment is provided in a hospital or day-hospital facility (other than a Medicare hospital patient), that is, the words (ie, accommodation and nursing care) "admitted patient" immediately preceding the description of the service or an asterisk "\*" directly after an item number where used;
- (d) The name and practice address or name and provider number of the practitioner who actually rendered the service; (Where the practitioner has more than one practice location recorded with Services Australia, the provider number used should be that which is applicable to the practice location at or from which the service was given).

A medical or dental practitioner must notate 'certified dental patient' on the patient's account or include 'certified dental patient' in the text field when submitting a Medicare claim for benefits.

Where a practitioner wishes to apportion the total fee between the appropriate professional fee for the particular service and any balance outstanding in respect of services rendered previously, the practitioner should ensure that

the balance is described in such a way (eg balance of account) that it cannot be mistaken as being a separate service. In particular no item number should be shown against the balance.

Only one original itemised account should be issued in respect of any one medical service and any duplicates of accounts or receipts should be clearly marked "duplicate" and should be issued only where the original has been lost. Duplicates should not be issued as a routine system for "accounts rendered".

## **CN.0.6 Claiming of Benefits**

### **Claiming Benefits**

The patient, upon receipt of a practitioner's account, has three courses open for paying the account and receiving benefits as outlined below.

#### **Paid Accounts**

The patient may pay the account and subsequently present the receipt at a Medicare customer service centre for assessment and payment of the Medicare benefit in cash. In these circumstances, where a claimant personally attends a customer service centre, the claimant is not required to complete a Medicare Patient Claim Form (PC1).

In circumstances where the claimant is seeking a cheque payment of the Medicare benefit or is arranging for an agent to receive the Medicare benefit on the claimant's behalf, completion of a Medicare Patient Claim Form (PC1) is still required.

#### **Unpaid and Partially Paid Accounts**

Where the patient has not paid the account, the unpaid account may be presented to Medicare with a Medicare claim form. In this case Medicare will forward to the claimant a benefit cheque made payable to the practitioner.

It will be the patient's responsibility to forward the cheque to the practitioner and make arrangements for payment of the balance of the account if any. "Pay doctor" cheques involving Medicare benefits cannot be sent direct to practitioners or to patients at a practitioner's address (even if requested by the patient to do so). "Pay doctor" cheques will be forwarded to the claimant's last known address.

When issuing a receipt to a patient in respect of an account that is being paid wholly or in part by a Medicare "pay doctor" cheque the practitioner should indicate on the receipt that a "Medicare" cheque for \$.....was involved in the payment of the account.

#### **Assignment of Benefits (Direct-Billing) Arrangements**

Under the *Health Insurance Act 1973* the Assignment of Benefit (direct-billing) facility for professional services is available to all persons in Australia who are eligible for benefit under the Medicare program. This facility is NOT confined to pensioners or people in special need. If a practitioner direct-bills, the practitioner undertakes to accept the relevant Medicare benefit as full payment for the service. Additional charges for that service (irrespective of the purpose or title of the charge) cannot be raised against the patient. Under these arrangements:-

- The patient's Medicare card number must be quoted on all direct-bill forms for that patient.
- The basic forms provided are loose leaf to enable the patient details to be imprinted from the Medicare card.
- The forms include information required by Regulations under Subsection 19(6) of the *Health Insurance Act 1973*.
- The practitioner must cause the particulars relating to the professional service to be set out on the assignment form before the patient signs the form and cause the patient to receive a copy of the form as soon as practicable after the patient signs it.

Where a patient is unable to sign the assignment form:

- the signature of the patient's parent, guardian or other responsible person (other than the doctor, doctor's staff, hospital proprietor, hospital staff, residential aged care facility proprietor or residential aged care facility staff) is acceptable; or
- In the absence of a "responsible person" the patient signature section should be left blank.

Where the signature space is either left blank or another person signs on the patient's behalf, the form must include:

- the notation "Patient unable to sign" and
- in the section headed 'Practitioner's Use', an explanation should be given as to why the patient was unable to sign (e.g. unconscious, injured hand etc.) and this note should be signed or initialled by the doctor. If in the opinion of the practitioner the reason is of such a "sensitive" nature that revealing it would constitute an unacceptable breach of patient confidentiality or unduly embarrass or distress the recipient of the patient's copy of the assignment of benefits form, a concessional reason "due to medical condition" to signify that such a situation exists may be substituted for the actual reason. However, this should not be used routinely and in most cases it is expected that the reason given will be more specific.

The administration of the direct-billing arrangements under Medicare as well as the payment of Medicare benefits on patient claims is the responsibility of Services Australia. Any enquiries in regard to these matters should therefore be directed to Medicare offices or enquiry points.

Under Medicare any eligible dental practitioner can accept assignment of benefit and direct-bill for any eligible person.

### **Use of Medicare Cards in Direct Billing**

An eligible person who applies to enrol for Medicare benefits (using a Medicare Enrolment/Amendment Application) will be issued with a uniquely numbered Medicare card which shows the Medicare card number, the patient identification number (reference number), the applicant's first given name, initial of second given name, surname and an effective "valid to" date. These cards may be issued on an individual or family basis. Up to 5 persons may be listed on the one Medicare card, and up to 9 persons may be listed under the one Medicare card number.

The Medicare card plays an important part in direct billing as it can be used to imprint the patient details (including Medicare number) on the basic direct-billing forms. A special Medicare imprinter has been developed for this purpose and is available free of charge, on request, from Medicare.

The patient details can of course be entered on the direct-bill forms by hand, but the use of a card to imprint patient details assists practitioners and ensures accuracy of information. The latter is essential to ensure that the processing of a claim by Medicare is expedited.

The Medicare card number must be quoted on direct-bill forms. If the number is not available, then the assignment of benefit facility should not be used. To do so would incur a risk that the patient is not eligible and Medicare benefits not payable.

Where a patient presents without a Medicare card and indicates that he/she has been issued with a card but does not know the details, the practitioner may contact a Medicare telephone enquiry number to obtain the number.

### **Assignment of Benefit Forms**

To meet varying requirements the following types of stationery are available from Medicare. Note that these forms are approved forms under the Health Insurance Act, and no other forms can be used to assign benefits without the approval of Services Australia.

- (a) *Form DB2*. This form is used to assign benefits for services other than requested pathology. It is loose leaf for imprinting and comprises a throw away cover sheet (after imprinting), a Medicare copy, a Patient copy and a Practitioner copy.

(b) *Form DB4*. Is a continuous stationery version of Form DB2, and has been designed for use on most office accounting machines.

### **The Claim for Assigned Benefits (Form DB1N, DB1H)**

Practitioners who accept assigned benefits must claim from Medicare using either Claim for Assigned Benefits form DB1N or DB1H. The DB1N form should be used where services are rendered to persons for treatment provided out of hospital or day hospital treatment. The DB1H form should be used where services are rendered to persons while hospital treatment is provided in a hospital or day hospital facility (other than public patients). Both forms have been designed to enable benefit for a claim to be directed to a practitioner other than the one who rendered the services. The facility is intended for use in situations such as where a short term locum is acting on behalf of the principal doctor and setting the locum up with a provider number and pay-group link for the principal doctor's practice is impractical. Practitioners should note that this facility cannot be used to generate payments to or through a person who does not have a provider number.

The DB1N and DB1H are also loose leaf to enable imprinting of practitioner details using the special Medicare imprinter. For this purpose, practitioner cards, showing the practitioner's name, practice address and provider numbers are available from Medicare on request.

### **Direct-Bill Stationery**

Medical practitioners and eligible dental practitioners wishing to direct-bill may obtain information on direct-bill stationery by telephoning **132150**. Information on the completion of the forms and direct-bill procedures are provided with the forms. Information on direct-billing is available from any Medicare office.

### **Time Limits Applicable to Lodgement of Claims for Assigned Benefits**

A time limit of two years applies to the lodgement of claims with Medicare under the direct-billing (assignment of benefit) arrangements. This means that Medicare benefits are not payable for any service where the service was rendered more than two years earlier than the date the claim was lodged with Medicare.

Provision exists whereby in certain circumstances (e.g. hardship cases), the Minister may waive the time limits. Special forms for this purpose are available, if required, from the processing centre to which assigned claims are directed.

### **CN.0.7 Interpretation of the Cleft Lip and Cleft Palate Scheme**

The prescribed services in this section have been grouped according to the general nature of the services: orthodontic, oral surgical and general and prosthodontic.

Each professional service listed in the Schedule is a complete medical service in itself. Where a service is rendered partly by one practitioner and partly by another, only the one amount of benefit is payable.

### **CN.0.8 Multiple Operation Rule**

The Schedule fee for two or more operations performed on a patient on the one occasion is calculated by the following rule:-

· 100% for the item with the greatest Schedule fee, plus 50% for the item with the next greatest Schedule fee, plus 25% for each other item.

**NOTE:** 1. Fees so calculated which result in a sum which is not a multiple of 5 cents are taken to the next higher multiple of 5 cents.

2. Where two or more operations performed on the one occasion have fees which are equal, one of these amounts shall be treated as being greater than the other or others of those amounts.

3. The Schedule fee for benefits purposes is the aggregate of the fees calculated in accordance with the above formula.

The above rule does not apply to an operation which is one of two or more operations performed under the one anaesthetic on the same patient by different dental practitioners unless either practitioner assists the other. In this case, the fees and benefits specified in the Schedule apply. For these purposes the term "operation" includes items 75200- 75615.

If the operation comprises a combination of procedures which are commonly performed together and for which a specific combined item is provided in the Schedule, it is regarded as the one item and service in applying the multiple operation rule.

### **CN.0.9 Administration of Anaesthetics**

When a medical practitioner administers an anaesthetic in connection with a dental procedure prescribed for the payment of Medicare benefits (and the procedure has been performed by an eligible dental practitioner), Medicare benefits are payable for the administration of the anaesthetic on the same basis as if the procedure had been rendered by a medical practitioner.

To ascertain the Schedule fee for the anaesthetic, medical practitioners should refer to Group T10 - Relative Value Guide for Anaesthesia - of the Medicare Benefits Schedule Book.

### **CN.0.10 Definitions**

#### ***Orthodontic treatment planning***

Orthodontic treatment planning is defined as the measurement and analysis of the face and jaws and occlusion providing a diagnosis and planned prescription of appliances and treatment required.

#### ***Study models***

Study models are defined as orthodontic plaster casts of the upper and lower teeth and alveolar processes.

### **CN.0.11 Referral of Oral and Maxillofacial Surgical Services - (Items 75150 to 75621)**

Benefits are payable for items 75150 to 75621 only where the service has been rendered to a patient who has been referred by letter of Referral by an eligible orthodontist.

Item 75621 may be claimed in association with items 45720 to 45754 where the service is performed by a practitioner holding a FRACDS (OMS) qualification with access to Category 3 of the MBS.

### **CN.0.12 General and Prosthodontic Services - (Item 75800)**

Item number 75800 refers to a consultation by a dentist for prevention and prophylaxis and includes such services as dietary advice, oral hygiene and fluoride treatment.

### **CN.0.13 Over-servicing**

Over-servicing must be avoided. In the case of denture services, examples of over-servicing might be:-

- Unjustifiably frequent replacement of dentures;
- Provision of new dentures when relining or re-modelling of an existing prosthesis would meet the clinical need;
- Provision of metal dentures where an acrylic denture would meet the clinical need.

The Schedule includes an item for metal dentures to allow for the provision of a precise, long-term prosthesis. The item is not intended for use during the period of growth, where prostheses must be replaced or altered frequently, unless there is some definite and extraordinary clinical requirement.

#### **CN.0.14 Commonwealth Department of Health Addresses**

**Postal : GPO Box 9848 in each Capital City**

Contact details: please visit [www.health.gov.au](http://www.health.gov.au)

#### **CN.1.1 Introduction - Medicare Benefits**

The Medicare Benefits Schedule includes certain professional services in respect of the treatment of cleft lip and cleft palate conditions for which Medicare benefits are payable. These services are normally described as dental services. However, for the purposes of these Notes the word "medical" is to be interpreted to include "dental". The definition of professional service as contained in the *Health Insurance Act 1973* provides that such a service must be "clinically relevant". A clinically relevant service means a service rendered by a medical or dental practitioner or optometrist that is generally accepted in the medical, dental or optometrical profession (as the case may be) as being necessary for the appropriate treatment of the patient to whom it is rendered.

Medicare benefits are payable in respect of services listed in the Schedule, when the services are rendered by eligible dental practitioners to prescribed dental patients.

The Schedule lists three categories of professional services:

- (Group C1) Orthodontic Services
- (Group C2) Oral and Maxillofacial Services
- (Group C3) General and Prosthodontic Services

#### **CN.2.1 Dental Practitioner Eligibility**

In order to attract Medicare benefits, all treatment must be carried out by eligible medical and dental practitioners who are resident in Australia.

All registered dental practitioners are entitled to perform simple extraction services covered by Items 75200-75206 listed in Group C2 of the Schedule and the general and prosthodontic services listed in Group C3 of the Schedule.

Dental practitioners who wish to perform those orthodontic services listed in Group C1 of the Schedule must be registered in the specialty of orthodontics.

Dental practitioners who were previously accredited to provide Cleft Lip and Cleft Palate services who do not meet the registration requirements as a dental specialist will be grandfathered under legislative arrangements that came into force on 1 November 2012.

Oral and maxillofacial services listed in Group C2 may be performed by:

- Medical practitioners who are specialists in the practice of their specialty of oral and maxillofacial surgery; and
- Dental practitioners who were approved by the Minister prior to 1 November 2004 for the purposes of Subsection 3 (1) of the Act to carry out prescribed medical services (oral and maxillofacial surgery) contained in the Medicare Benefits Schedule.
- Following a referral from an eligible orthodontist.

### **CN.3.1 Patient Eligibility**

To be eligible to claim benefits for Schedule services performed by eligible medical and dental practitioners, a patient must satisfy the following criteria:

- a. The patient must be an Australian resident or any other person or class of persons whom the Minister declares to be eligible. All eligible persons will be issued with a Medicare card on application as evidence of their eligibility.
- b. Under the provisions of Section 3BA of the *Health Insurance Act 1973*, a patient must be a prescribed dental patient. To be a prescribed dental patient, a person must meet one of the following categories:

#### **Certified with a cleft palate and cleft lip condition before the age of 22 years**

- a) an approved medical practitioner or dental practitioner has issued a certificate that states that the person is suffering from a cleft lip or a cleft palate condition; and
- b) the person has not attained the age of 22 years.

#### **Certified with a cleft palate and cleft lip condition and is aged between 22 and 27 years**

- a) before the person attained the age of 22 years, an approved medical practitioner or dental practitioner issued a certificate that states that the person is suffering from a cleft lip or a cleft palate condition; and
- b) the person has attained the age of 22 years, but has not attained the age of 28 years; and
- c) the person's treatment for the condition started before the person attained the age of 22 years.

#### **Certified with a cleft palate and cleft lip condition and is aged 28 years and over**

A person is also a prescribed dental patient, in relation to a particular course of treatment, if:

- a) before the person attained the age of 22 years, an approved medical practitioner or dental practitioner issued a certificate that states that the person is suffering from a cleft lip or a cleft palate condition; and
- b) the person has attained the age of 28 years; and
- c) before the person attained the age of 28 years, he or she received treatment for the condition; and
- d) the Minister declares in writing that he or she is satisfied that:
  - i. because of exceptional circumstances, the person requires repair of previous reconstructive surgery in connection with the condition; and
  - ii. the person therefore needs to undergo that course of treatment.

#### **Certified with a condition approved by the Minister**

- a) an approved medical practitioner or dental practitioner has issued a certificate that states that the person is suffering from a condition determined by the Minister to be a condition to which this definition applies (these additional conditions are outlined below); and
- b) the person has not attained the age of 22 years.

A Ministerial Determination, the *Health Insurance (Prescribed Dental Patient) Determination 2015*, is in place for these 'other' conditions, enabling the payment of Medicare benefits for the conditions listed below:

<b>1. Oral and/or facial clefting</b>	
<i>Limited to</i>	Cleft lip, alveolus and/or palate

	Tessier facial cleft
<b>2. Congenital or hereditary craniofacial malformation, deformation or disruption</b>	
<i>Limited to</i>	Achondroplasia
	Branchial arch disorders including: Hemifacial/craniofacial microsomia, Goldenhar syndrome, DiGeorge syndrome, Velocardiofacial syndrome
	CHARGE syndrome
	Congenital hemifacial hyperplasia
	Congenital lymphatic and/or vascular malformations of the head & neck, cystic hygroma, Sturge-Weber syndrome, excluding haemangiomas, birth marks and naevi.
	Craniofacial Neurofibromatosis Type 1
	Cranio metaphyseal dysplasia
	Ectodermal dysplasia
	Hemifacial atrophy (Parry Romberg syndrome)
	Mandibulofacial dysostosis (Treacher Collins syndrome)
	Maxillonasal dysplasia (Binder syndrome)
	Oral-facial digital syndrome Type 1
	Pierre Robin sequence
	Rubinstein-Taybi syndrome
	Sphrintzen-Goldberg syndrome
	Solitary median maxillary central incisor syndrome
	Stickler syndrome
	Syndromic craniosynostoses including: Apert, Crouzon, Pfeiffer, Saethre Chotzen, and Muenke syndromes
	Trichorhinophalangeal syndrome Type 1
<b>3. Hereditary conditions presenting with the absence of 6 (six) or more permanent teeth, excluding 3<sup>rd</sup> molars</b>	
<b>4. Hereditary conditions where the presence of supernumerary teeth is a major feature</b>	
<b>5. Hereditary conditions affecting the formation of enamel and/or dentine of all teeth</b>	
<i>Limited to</i>	Amelogenesis imperfecta
	Dentinogenesis imperfecta
	Regional odontodysplasia

### **CN.3.2 Application for approval for repairs to previous reconstructive work**

Applicants aged 28 and over seeking approval for repairs to previous reconstructive work under the Cleft Lip and Cleft Palate Scheme will be required to provide clinical details outlining the need for the repair of previous reconstructive surgery.

**NOTE:** Patients aged over 28 years of age are not eligible to receive Medicare payments for treatment until approval from the Minister's delegate has been obtained.

Applications should include the following:

- proof that the patient has been certified as a prescribed dental patient;
- a treatment plan devised by the treating professional, for the repair of the reconstructive surgery to be performed, including:
  - o an indicative time period for which patient eligibility for claiming related treatments should be reinstated
  - o date/s the treatment is expected to commence and
  - o date/s the treatment is expected to be completed.
- proof of previous eligibility and treatment under the Cleft Lip and Cleft Palate Scheme. This should take the form of a letter from the treating practitioner, which lists the patient details as follows:
  - o full name
  - o date of birth
  - o address
  - o condition
  - o date (or approximate) of original surgery
- a clinical report from the treating professional, describing the nature of the repair, information detailing the previous reconstructive surgery provided and an outline of the work to be undertaken.

This information will be forwarded to Services Australia for confirmation of eligibility.

Further information about the Scheme is available on Service Australia's website at:

<https://www.servicesaustralia.gov.au/individuals/services/medicare/cleft-lip-and-cleft-palate-scheme>

### **Assessment of Applications**

Assessment will take into account the information provided by the applicant and consider the circumstances surrounding each individual application. In the assessment, "previous reconstructive surgery" means surgery undertaken to repair structural defects in connection with a cleft lip or cleft palate condition. Repairs to this surgery must be in relation to the failure or deterioration of this surgery and due to that failure or deterioration, the patient requires further surgical intervention to restore optimal function.

Repair to previous reconstructive surgery may involve items in both the main Medicare Benefits Schedule, and items in the Cleft Lip and Cleft Palate Schedule. Under Section 3BA (2A), upon gaining the Minister's approval, applicants will have full access to items in the Cleft Lip and Cleft Palate Schedule that are necessary for the restoration of optimal function (provided the items are rendered by suitably qualified / approved practitioners).

Patients are eligible for Medicare benefits for treatment under the scheme once they are certified by a medical or dental practitioner as a prescribed dental patient.

### **CN.3.3 Visitors to Australia**

Medicare benefits for the Cleft Lip and Cleft Palate Scheme are generally not payable to visitors to Australia or temporary residents.

### **CN.3.4 Health Care Expenses Incurred Overseas**

Medicare does not cover medical or hospital expenses incurred outside Australia.

**CLEFT LIP AND CLEFT PALATE SERVICES ITEMS**

<b>C1. ORTHODONTIC SERVICES</b>	
	<b>Group C1. Orthodontic Services</b>
	<i>Note: In this Group, benefit is only payable where the service has been rendered to a patient by a dental practitioner who is registered in the specialty of orthodontics, except for the services covered by Items 75009-75023 which may also be rendered by a medical practitioner who is a specialist in the practice of his or her specialty of oral and maxillofacial surgery.</i>
	<b>CONSULTATIONS</b>
75001	<p>INITIAL PROFESSIONAL ATTENDANCE in a single course of treatment by an eligible orthodontist (AO)</p> <p><b>Fee:</b> \$88.20      <b>Benefit:</b> 75% = \$66.15    85% = \$75.00  <b>Extended Medicare Safety Net Cap:</b> \$264.60</p>
75004	<p>PROFESSIONAL ATTENDANCE by an eligible orthodontist subsequent to the first professional attendance by the orthodontist in a single course of treatment (AO)</p> <p><b>Fee:</b> \$44.35      <b>Benefit:</b> 75% = \$33.30    85% = \$37.70  <b>Extended Medicare Safety Net Cap:</b> \$133.05</p>
75006	<p>PRODUCTION OF DENTAL STUDY MODELS (not being a service associated with a service to which item 75004 applies) prior to provision of a service to which:</p> <p>(a) item 75030, 75033, 75034, 75036, 75037, 75039, 75045 or 75051 applies; or</p> <p>(b) an item in Group T8 or Groups 03 to 09 applies;</p> <p>in a single course of treatment</p> <p><b>Fee:</b> \$78.60      <b>Benefit:</b> 75% = \$58.95    85% = \$66.85</p>
	<b>RADIOGRAPHY</b>
75009	<p>ORTHODONTIC RADIOGRAPHY orthopantomography (panoramic radiography), including any consultation on the same occasion</p> <p><b>Fee:</b> \$70.30      <b>Benefit:</b> 75% = \$52.75    85% = \$59.80</p>
75012	<p>ORTHODONTIC RADIOGRAPHY ANTEROPOSTERIOR CEPHALOMETRIC RADIOGRAPHY with cephalometric tracings OR LATERAL CEPHALOMETRIC RADIOGRAPHY with cephalometric tracings including any consultation on the same occasion</p> <p><b>Fee:</b> \$111.45      <b>Benefit:</b> 75% = \$83.60    85% = \$94.75</p>
75015	<p>ORTHODONTIC RADIOGRAPHY ANTEROPOSTERIOR AND LATERAL CEPHALOMETRIC RADIOGRAPHY, with cephalometric tracings including any consultation on the same occasion</p> <p><b>Fee:</b> \$153.20      <b>Benefit:</b> 75% = \$114.90    85% = \$130.25</p>
75018	<p>ORTHODONTIC RADIOGRAPHY ANTEROPOSTERIOR AND LATERAL CEPHALOMETRIC</p>

<b>C1. ORTHODONTIC SERVICES</b>	
	RADIOGRAPHY, with cephalometric tracings and orthopantomography including any consultation on the same occasion <b>Fee:</b> \$195.20 <b>Benefit:</b> 75% = \$146.40    85% = \$165.95
75021	ORTHODONTIC RADIOGRAPHY hand-wrist studies (including growth prediction) including any consultation on the same occasion <b>Fee:</b> \$239.30 <b>Benefit:</b> 75% = \$179.50    85% = \$203.45
75023	INTRAORAL RADIOGRAPHY - single area, periapical or bitewing film <b>Fee:</b> \$47.90 <b>Benefit:</b> 75% = \$35.95    85% = \$40.75
	<b>PRESURGICAL INFANT MAXILLARY ARCH REPOSITIONING</b>
75024	PRESURGICAL INFANT MAXILLARY ARCH REPOSITIONING including supply of appliances and all adjustments of appliances and supervision - WHERE 1 APPLIANCE IS USED <b>Fee:</b> \$618.85 <b>Benefit:</b> 75% = \$464.15    85% = \$534.15
75027	PRESURGICAL INFANT MAXILLARY ARCH REPOSITIONING including supply of appliances and all adjustments of appliances and supervision WHERE 2 APPLIANCES ARE USED <b>Fee:</b> \$848.60 <b>Benefit:</b> 75% = \$636.45    85% = \$763.90
	<b>DENTITION TREATMENT</b>
75030	MAXILLARY ARCH EXPANSION not being a service associated with a service to which item 75039, 75042, 75045 or 75048 applies, including supply of appliances, all adjustments of the appliances, removal of the appliances and retention <b>Fee:</b> \$755.55 <b>Benefit:</b> 75% = \$566.70    85% = \$670.85
75033	MIXED DENTITION TREATMENT - incisor alignment using fixed appliances in maxillary arch, including supply of appliances, all adjustments of appliances, removal of the appliances and retention <b>Fee:</b> \$1,238.45 <b>Benefit:</b> 75% = \$928.85    85% = \$1153.75
75034	MIXED DENTITION TREATMENT - incisor alignment with or without lateral arch expansion using a removable appliance in the maxillary arch, including supply of appliances, associated adjustments and retention <b>Fee:</b> \$630.35 <b>Benefit:</b> 75% = \$472.80    85% = \$545.65
75036	MIXED DENTITION TREATMENT - lateral arch expansion and incisor alignment using fixed appliances in maxillary arch, including supply of appliances, all adjustments of appliances, removal of appliances and retention <b>Fee:</b> \$1,710.60 <b>Benefit:</b> 75% = \$1282.95    85% = \$1625.90
75037	MIXED DENTITION TREATMENT - lateral arch expansion and incisor correction - 2 arch (maxillary and mandibular) using fixed appliances in both maxillary and mandibular arches, including supply of appliances, all adjustments of appliances, removal of appliances and retention <b>Fee:</b> \$2,154.45 <b>Benefit:</b> 75% = \$1615.85    85% = \$2069.75

<b>C1. ORTHODONTIC SERVICES</b>	
75039	<p>PERMANENT DENTITION TREATMENT SINGLE ARCH (mandibular or maxillary) TREATMENT (correction and alignment) using fixed appliances, including supply of appliances - initial 3 months of active treatment</p> <p><b>Fee:</b> \$572.60      <b>Benefit:</b> 75% = \$429.45    85% = \$487.90</p>
75042	<p>PERMANENT DENTITION TREATMENT - SINGLE ARCH (mandibular or maxillary) TREATMENT (correction and alignment) using fixed appliances, including supply of appliances - each 3 months of active treatment (including all adjustments and maintenance and removal of the appliances) after the first for a maximum of a further 33 months</p> <p><b>Fee:</b> \$214.00      <b>Benefit:</b> 75% = \$160.50    85% = \$181.90</p>
75045	<p>PERMANENT DENTITION TREATMENT 2 ARCH (mandibular and maxillary) TREATMENT (correction and alignment) using fixed appliances, including supply of appliances - initial 3 months of active treatment</p> <p><b>Fee:</b> \$1,146.30      <b>Benefit:</b> 75% = \$859.75    85% = \$1061.60</p>
75048	<p>PERMANENT DENTITION TREATMENT - 2 ARCH (mandibular and maxillary) TREATMENT (correction and alignment) using fixed appliances, including supply of appliances - each subsequent 3 months of active treatment (including all adjustments and maintenance, and removal of the appliances) after the first for a maximum of a further 33 months</p> <p><b>Fee:</b> \$293.95      <b>Benefit:</b> 75% = \$220.50    85% = \$249.90</p>
75049	<p>RETENTION, FIXED OR REMOVABLE, single arch (mandibular or maxillary) - supply of retainer and supervision of retention</p> <p><b>Fee:</b> \$344.05      <b>Benefit:</b> 75% = \$258.05    85% = \$292.45</p>
75050	<p>RETENTION, FIXED OR REMOVABLE, 2-arch (mandibular and maxillary) - supply of retainers and supervision of retention</p> <p><b>Fee:</b> \$664.15      <b>Benefit:</b> 75% = \$498.15    85% = \$579.45</p>
	<b>JAW GROWTH GUIDANCE</b>
75051	<p>JAW GROWTH guidance using removable or functional appliances, including supply of appliances and all adjustments to appliances</p> <p><b>Fee:</b> \$1,019.50      <b>Benefit:</b> 75% = \$764.65    85% = \$934.80</p>
<b>C2. ORAL AND MAXILLOFACIAL SERVICES</b>	
	<b>Group C2. Oral And Maxillofacial Services</b>
75150	<p><i>Note: (i) In this Group, benefit is only payable where the service has been rendered to a patient who has been referred by an eligible orthodontist.</i></p> <p><i>(ii) While benefit is payable for simple extractions performed by a registered dental practitioner, benefit is only payable for surgical extractions and other surgical procedures where the service is rendered by a medical practitioner who is a specialist in the practice of his or her speciality of oral and maxillofacial surgery.</i></p>

<b>C2. ORAL AND MAXILLOFACIAL SERVICES</b>	
	<b>CONSULTATIONS</b>
	<p>INITIAL PROFESSIONAL attendance in a single course of treatment by an eligible oral and maxillofacial surgeon where the patient is referred to the surgeon by an eligible orthodontist (AOS)</p> <p><b>Fee:</b> \$88.20      <b>Benefit:</b> 75% = \$66.15    85% = \$75.00  <b>Extended Medicare Safety Net Cap:</b> \$264.60</p>
75153	<p>PROFESSIONAL ATTENDANCE by an eligible oral and maxillofacial surgeon subsequent to the first professional attendance by the surgeon in a single course of treatment where the patient is referred to the surgeon by an eligible orthodontist</p> <p><b>Fee:</b> \$44.35      <b>Benefit:</b> 75% = \$33.30    85% = \$37.70  <b>Extended Medicare Safety Net Cap:</b> \$133.05</p>
75156	<p>PRODUCTION OF DENTAL STUDY MODELS (not being a service associated with a service to which item 75153 applies) prior to provision of a service:</p> <p>(a) to which item 52321, 53212 or 75618 applies; or</p> <p>(b) to which an item in the series 52330 to 52382, 52600 to 52630, 53400 to 53409 or 53415 to 53429 applies;</p> <p>in a single course of treatment if the patient is referred by an eligible orthodontist (AOS)</p> <p><b>Fee:</b> \$78.60      <b>Benefit:</b> 75% = \$58.95    85% = \$66.85</p>
	<b>SIMPLE EXTRACTIONS</b>
75200	<p>Removal of tooth or tooth fragment (other than treatment to which item 75400, 75403, 75406, 75409, 75412 or 75415 applies), if the patient is referred by an eligible orthodontist (AD)</p> <p><b>Fee:</b> \$56.65      <b>Benefit:</b> 75% = \$42.50    85% = \$48.20</p>
75203	<p>REMOVAL OF TOOTH OR TOOTH FRAGMENT under general anaesthesia, if the patient is referred by an eligible orthodontist (AD)</p> <p><b>Fee:</b> \$85.00      <b>Benefit:</b> 75% = \$63.75    85% = \$72.25</p>
75206	<p>Removal of each additional tooth or tooth fragment at the same attendance at which a service to which item 75200 or 75203 applies is rendered, if the patient is referred by an eligible orthodontist (AD)</p> <p><b>Fee:</b> \$28.20      <b>Benefit:</b> 75% = \$21.15    85% = \$24.00</p>
	<b>SURGICAL EXTRACTIONS</b>
75400	<p>Surgical removal of erupted tooth, if the patient is referred by an eligible orthodontist (AOS)</p> <p><b>Fee:</b> \$169.90      <b>Benefit:</b> 75% = \$127.45    85% = \$144.45</p>
75403	<p>Surgical removal of tooth with soft tissue impaction, if the patient is referred by an eligible orthodontist (AOS)</p>

<b>C2. ORAL AND MAXILLOFACIAL SERVICES</b>	
	<b>Fee:</b> \$195.20 <b>Benefit:</b> 75% = \$146.40    85% = \$165.95
75406	Surgical removal of tooth with partial bone impaction, if the patient is referred by an eligible orthodontist (AOS) <b>Fee:</b> \$222.40 <b>Benefit:</b> 75% = \$166.80    85% = \$189.05
75409	Surgical removal of tooth with complete bone impaction, if the patient is referred by an eligible orthodontist (AOS) <b>Fee:</b> \$251.85 <b>Benefit:</b> 75% = \$188.90    85% = \$214.10
75412	Surgical removal of tooth fragment requiring incision of soft tissue only, if the patient is referred by an eligible orthodontist (AOS) <b>Fee:</b> \$140.70 <b>Benefit:</b> 75% = \$105.55    85% = \$119.60
75415	Surgical removal of tooth fragment requiring removal of bone, if the patient is referred by an eligible orthodontist (AOS) <b>Fee:</b> \$169.90 <b>Benefit:</b> 75% = \$127.45    85% = \$144.45
	<b>OTHER SURGICAL PROCEDURES</b>
75600	Surgical exposure, stimulation and packing of unerupted tooth, if the patient is referred by an eligible orthodontist (AOS) <b>Fee:</b> \$239.30 <b>Benefit:</b> 75% = \$179.50    85% = \$203.45
75603	Surgical exposure of unerupted tooth for the purpose of fitting a traction device, if the patient is referred by an eligible orthodontist (AOS) <b>Fee:</b> \$281.25 <b>Benefit:</b> 75% = \$210.95    85% = \$239.10
75606	Surgical repositioning of unerupted tooth, if the patient is referred by an eligible orthodontist (AOS) <b>Fee:</b> \$281.25 <b>Benefit:</b> 75% = \$210.95    85% = \$239.10
75609	Transplantation of tooth bud, if the patient is referred by an eligible orthodontist (AOS) <b>Fee:</b> \$419.85 <b>Benefit:</b> 75% = \$314.90    85% = \$356.90
75612	Surgical procedure for intra oral implantation of osseointegrated fixture (first stage), if the patient is referred by an eligible orthodontist (AOS) <b>Fee:</b> \$519.60 <b>Benefit:</b> 75% = \$389.70    85% = \$441.70
75615	Surgical procedure for fixation of trans mucosal abutment (second stage of osseointegrated implant), if the patient is referred by an eligible orthodontist (AOS) <b>Fee:</b> \$192.35 <b>Benefit:</b> 75% = \$144.30    85% = \$163.50
75618	Provision and fitting of a bite rising appliance or dental splint for the management of temporomandibular joint dysfunction syndrome, if the patient is referred by an eligible orthodontist (AOS) <b>Fee:</b> \$238.85 <b>Benefit:</b> 75% = \$179.15    85% = \$203.05
75621	The provision and fitting of surgical template in conjunction with orthognathic surgical procedures in

<b>C2. ORAL AND MAXILLOFACIAL SERVICES</b>	
	<p>association with:</p> <p>(a) an item in the series:</p> <p>(i) 45720 to 45754; or</p> <p>(ii) 52342 to 52375; or</p> <p>(b) item 52380 or 52382;</p> <p>if the patient is referred by an eligible orthodontist (AOS)</p> <p><b>Fee:</b> \$238.85      <b>Benefit:</b> 75% = \$179.15    85% = \$203.05</p>

## SUMMARY OF CHANGES FROM 01/03/2021

The 01/03/2021 changes to the MBS are summarised below and are identified in the Schedule pages by one or more of the following words appearing above the item number:

- |                         |       |
|-------------------------|-------|
| (a) new item            | New   |
| (b) amended description | Amend |
| (c) fee amended         | Fee   |
| (d) item number changed | Renum |
| (e) EMSN changed        | EMSN  |

There are no changes to this Category for 01/03/2021

## **MISCELLANEOUS SERVICES NOTES**

### **MN.1.1 Additional Bulk Billing Payment for General Medical Services - (Items 10990 and 10991)**

Item 10990 can only be claimed where all of the conditions set out in paragraphs (a) to (d) of item 10990 have been met.

Item 10991 can only be claimed where all of the conditions set out in paragraphs (a) to (e) of item 10991 have been met:

- Item 10991 can only be used where the service is provided at, or from, a practice location that is in a regional, rural or remote area (MMM 2 to 7 areas under the Modified Monash Model classification system). A locator map that can be used to identify a medical practice's MMM classification is available at the DoctorConnect website at <http://www.doctorconnect.gov.au/internet/otd/publishing.nsf/Content/locator>.

Practice location is the place associated with the medical practitioner's provider number from which the service has been provided. This includes services performed either at the medical practitioner's surgery, or those services performed away from the surgery using the provider number for that surgery (eg home visits or visits to aged care facilities).

Where a medical practitioner has a practice location in both an eligible and ineligible area, item 10991 can only be claimed in respect of those services provided at, or from, the eligible practice location.

Item 10990 and item 10991 can only be used in conjunction with items in the General Medical Services Table of the MBS. There are similar items to be used in conjunction with diagnostic imaging services (item 64990 or 64991) or pathology services (item 74990 or 74991).

Item 10990 or item 10991 can be claimed for each item of service claimable under the MBS (other than diagnostic imaging services and pathology services), provided the conditions of the relevant item, 10990 or 10991, are satisfied. For example, item 10990 or 10991 can be claimed in conjunction with attendance items, procedural items (other than diagnostic imaging or pathology items) or services provided by a practice nurse on behalf of a medical practitioner (items 10983, 10984, 10987 and 10997). In some cases, this will mean that item 10990 or 10991 can be claimed more than once in respect of a patient visit.

Item 10990 or 10991 cannot be claimed in conjunction with each other.

Where a Medicare benefit is not payable for a particular service (eg because the patient has exceeded the number of allowable services in a period of time), the additional bulk billing payment will not be paid for that service.

All GPs whether vocationally registered or not are eligible to claim the additional bulk billing payment.

Commonwealth concession card holder means a person listed on a Pensioner Concession Card, Health Care Card or Commonwealth Seniors Health Card issued by either Centrelink or the Department of Veterans' Affairs. Gold or White Cards issued by the Department of Veterans' Affairs do not attract the additional bulk billing payment. However, if a Gold or White Card holder also holds a recognised Commonwealth concession card and chooses to be treated under the Medicare arrangements, then that patient is an eligible concession card holder.

Unreferred service means a medical service provided to a patient by, or on behalf of, a medical practitioner, being a service that has not been referred to that practitioner by another medical practitioner or person with referring rights.

The Department of Health will undertake regular post payment auditing to ensure that the additional bulk billing payment is being claimed correctly.

### **MN.1.2 After-hours services provided in areas eligible for the higher bulk billing payment - (Item 10992)**

Item 10992 can only be claimed where all of the conditions set out in paragraphs (a) to (g) of item 10992 have been met:

- Item 10992 must be claimed in conjunction with one of the items 585, 588, 591, 594, 599, 600, 761, 763, 766, 769, 772, 776, 788, 789, 5003, 5010, 5023, 5028, 5043, 5049, 5063, 5067, 5220, 5223, 5227, 5228, 5260, 5263 5265, or 5267. These items are for services provided after-hours outside of consulting rooms or hospital.
- Item 10992 can only be used where the service is provided in one of the designated areas listed in item 10992, by a medical practitioner whose practice location (i.e. the location associated with the medical practitioner's provider number) is not in one of these areas.
- This includes all regional, rural and remote areas (RRMA 3 to 7 under the Rural Remote Metropolitan Areas classification system), all of Tasmania and those areas covered by a Statistical Subdivision (SSD) or Statistical Local Areas (SLA) listed in item 10992. SSDs and SLAs are specified in the Australian Standard Geographical Classification (ASGC) 2002. A locator map that can be used to identify a specific location's RRMA and ASGC classification is available at the DoctorConnect website at <http://www.doctorconnect.gov.au/internet/otd/publishing.nsf/Content/locator>.

Medical practitioners whose practice location is inside one of the designated locations should claim item 10991 for eligible services.

Item 10992 cannot be claimed in conjunction with item 10990 or 10991.

Where a Medicare benefit is not payable for a particular service the payment for item 10992 will not be paid for that service.

All GPs, whether vocationally recognised or not, are eligible to claim the additional bulk billing payment.

Commonwealth concession card holder means a person listed on a Pensioner Concession Card, Health Care Card or Commonwealth Seniors Health Card issued by either Centrelink or the Department of Veterans' Affairs. Gold or White Cards issued by the Department of Veterans' Affairs do not attract the additional bulk billing payment. However, if a Gold or White Card holder also holds a recognised Commonwealth concession card and chooses to be treated under the Medicare arrangements, then that patient is an eligible concession card holder.

Unreferred service means a medical service provided to a patient by, or on behalf of, a medical practitioner, being a service that has not been referred to that practitioner by another medical practitioner or person with referring rights.

The Department of Health will undertake regular post payment auditing to ensure that the additional bulk billing payment is being claimed correctly.

### **MN.3.1 Individual Allied Health Services (Items 10950 to 10970) for Chronic Disease Management - Eligible Patients**

#### **ELIGIBLE PATIENTS**

Medicare benefits are available for certain services provided by eligible allied health professionals to people with chronic conditions and complex care needs who are being managed by a GP or medical practitioner using certain Chronic Disease Management (CDM) Medicare items or are enrolled in a Health Care Home. The allied health services must be recommended in the patient's plan as part of the management of their chronic condition.

#### **Chronic medical conditions and complex care needs**

A chronic medical condition is one that has been or is likely to be present for at least six months, e.g. asthma, cancer, cardiovascular illness, diabetes mellitus, musculoskeletal conditions and stroke. A patient is considered to have complex care needs if they require ongoing care from a multidisciplinary team consisting of their GP or medical practitioner and at least two other health or care providers.

### **Prerequisite CDM services**

Patients must have received the following MBS CDM services:

- GP Management Plan - MBS GP item 721 or medical practitioner item 229 (or GP review item 732 or medical practitioner review item 233 for a review of a GPMP); and
- Team Care Arrangements - MBS GP item 723 or medical practitioner item 230 (or GP review items 732 or medical practitioner review item 233 for a review of TCAs)

Alternatively, for patients who are permanent residents of an aged care facility, their GP or medical practitioner must have contributed to, or contributed to a review of, a multidisciplinary care plan prepared for them by the aged care facility (MBS GP item 731 or medical practitioner item 232).

Alternatively, for patients who are enrolled with a Health Care Home, a shared care plan must have been prepared by the medical practitioner who is leading the patient's care.

For more information on the CDM planning items, refer to the explanatory notes for these items.

### **Allied health membership of a TCAs team**

The allied health professional providing the service may be a member of the TCAs team convened by the GP or medical practitioner to manage a patient's chronic condition and complex care needs. However, the service may also be provided by an allied health professional who is not a member of the TCAs team, provided that the service has been identified as necessary by the patient's GP or medical practitioner and recommended in the patient's care plan/s.

### **Group services**

In addition to individual services, patients who have type 2 diabetes may also access MBS items 81100 to 81125 which provide group allied health services. Patients only need to have MBS GP items 721 or 723 or medical practitioner items 229 or 230 or a Health Care Home shared care plan in place to be eligible for the group services.

## **MN.3.2 Individual Allied Health Services (Items 10950 to 10970) for Chronic Disease Management - Referral Requirements**

### **Referral form**

For Medicare benefits to be payable, the patient must be referred to an eligible allied health professional by their GP or medical practitioner using a referral form that has been issued by the Australian Government Department of Health or a form that contains all the components of this form.

The form issued by the department is available at [www.health.gov.au/mbsprimarycareitems](http://www.health.gov.au/mbsprimarycareitems) (click on the link for allied health individual services).

GPs and medical practitioners are encouraged to attach a copy of the relevant part of the patient's care plan to the referral form.

GPs and medical practitioners may use one referral form to refer patients for single or multiple services of the same service type (e.g. five chiropractic services). If referring a patient for single or multiple services of different service types (e.g. two dietetic services and three podiatry services), a separate referral form will be needed for each service type.

The patient will need to present the referral form to the allied health professional at the first consultation, unless the GP or medical practitioner has previously provided it directly to the allied health professional.

It is required that allied health professionals retain the referral form for 2 years from the date the service was rendered (for the Department of Human Services auditing purposes).

A copy of the referral form is not required to accompany Medicare claims, and allied health professionals do not need to attach a signed copy of the form to patients' itemised accounts/receipts or assignment of benefit forms.

Completed forms do not have to be sent to the Department of Health.

### **Health Care Home shared care plan**

A Health Care Home shared care plan means a written plan that is prepared for a patient enrolled at a Health Care Home trial site; is prepared by a medical practitioner (including a general practitioner but not including a specialist or consultant physician) who is leading the patient's care at the Health Care Home trial site; and includes: an outline of the patient's agreed current and long-term goals; the person or people responsible for each activity; arrangements to review the plan by a day mentioned in the plan; and if authorised by the patient, arrangements for the transfer of information between the medical practitioner and other health care providers supporting patient care about the patient's condition or conditions and treatment. A Health Care Home Shared care plan must be kept for 2 years after the date it was created.

### **Referral validity**

Medicare benefits are available for up to five allied health services per patient per calendar year. Where a patient receives more than the limit of five services in a calendar year, the additional service/s will not attract a Medicare benefit and the MBS Safety Net arrangements will not apply to costs incurred by the patient for the service/s.

If a patient has not used all of their allied health services under a referral in a calendar year, it is not necessary to obtain a new referral for the "unused" services. However, any "unused" services received from 1 January in the following year under that referral will count as part of the total of five services for which the patient is eligible in that calendar year.

When patients have used all of their referred services, or require a referral for a different type of allied health service recommended in their CDM plan/s or Health Care Home shared care plan, they will need to obtain a new referral from their GP or medical practitioner. GPs and medical practitioners may choose to use this visit to undertake a review of the patient's CDM plan/s or, where appropriate, to manage the process using a GP/medical practitioner consultation item.

It is not necessary to have a new CDM plan/s prepared each calendar year in order to access a new referral/s for eligible allied health services. Patients continue to be eligible for rebates for allied health services while they are being managed under the prerequisite CDM items or Health Care Home shared care plan as long as the need for eligible services continues to be recommended in their plan. However, regular reviews using MBS GP item 732 or medical practitioner item 233 are encouraged.

## **MN.3.3 Individual Allied Health Services - (Items 10950 to 10970) for Chronic Disease Management - Eligible Providers and Services**

### **Eligible allied health providers**

The following allied health professionals are eligible to provide services under Medicare for patients with a chronic or terminal medical condition and complex care needs when they meet the provider eligibility requirements set out the next section and are registered with the Department of Human Services.

- Aboriginal and Torres Strait Islander health practitioners
- Aboriginal health workers
- Audiologists
- Chiropractors
- Diabetes educators

- Dietitians
- Exercise physiologists
- Mental health workers
- Occupational therapists
- Osteopaths
- Physiotherapists
- Podiatrists
- Psychologists
- Speech pathologists

### **Number of services per year**

Medicare benefits are available for up to five allied health services per eligible patient, per calendar year. The five allied health services can be made up of one type of service (e.g. five physiotherapy services) or a combination of different types of services (e.g. one dietetic and four podiatry services). Five services per calendar year are the legal maximum per patient and exemptions to this are not possible.

### **Checking patient eligibility for allied health services**

Patients seeking Medicare rebates for allied health services will need to have a valid referral form. If there is any doubt about a patient's eligibility, the Department of Human Services will be able to confirm the number of allied health services already claimed by the patient during the calendar year. The allied health professional or the patient can call the Department of Human Services to check this information (132 150 for provider enquiries; 132 011 for public enquiries).

### **Service length and type**

Individual allied health services under Medicare for patients with a chronic medical condition and complex care needs (items 10950 to 10970) must be of at least 20 minutes duration and provided to an individual patient, not to a group. The allied health professional must personally attend the patient.

### **Reporting back to the Practitioner**

Where an allied health professional provides a single service to the patient under a referral, they must provide a written report back to the referring GP or medical practitioner after each service.

Where an allied health professional provides multiple services to the same patient under the one referral, they must provide a written report back to the referring GP or medical practitioner after the first and last service only, or more often if clinically necessary. Written reports should include:

- any investigations, tests, and/or assessments carried out on the patient;
- any treatment provided; and
- future management of the patient's condition or problem.

The report to the Practitioner must be kept for 2 years from the date of service.

### **Out-of-pocket expenses and Medicare Safety Net**

Allied health professionals can determine their own fees for the professional service. Charges in excess of the Medicare benefit are the responsibility of the patient. However, out-of-pocket costs will count toward the Medicare Safety Net for that patient. Allied health services in excess of five in a calendar year will not attract a Medicare benefit and the Safety Net arrangements will not apply to costs incurred by the patient for such services.

### **Publicly funded services**

Items 10950 to 10970 do not apply for services that are provided by any Commonwealth or state funded services or provided to an admitted patient of a hospital. However, where an exemption under subsection 19(2) of the Health Insurance Act 1973 has been granted to an Aboriginal Community Controlled Health Service or state/territory government health clinic, items 10950 to 10970 can be claimed for services provided by eligible allied health professionals salaried by, or contracted to, the service or health clinic. All requirements of the relevant item must be met, including registration of the allied health professional with the Department of Human Services. Medicare services provided under a subsection 19(2) exemption must be bulk billed (i.e. the Medicare rebate is accepted as full payment for services).

### **Private health insurance**

Patients need to decide if they will use Medicare or their private health insurance ancillary cover to pay for these services. Patients cannot use their private health insurance ancillary cover to 'top up' the Medicare rebate paid for the services.

### **MN.3.4 Individual Allied Health Services - (Items 10950 to 10970) for Chronic Disease Management - Professional Eligibility**

The individual allied health items (10950 to 10970) can only be claimed for services provided by eligible allied health professionals who are registered with the Department of Human Services. To be eligible to register with the Department of Human Services to provide these services, allied health professionals must meet the specific eligibility requirements detailed below.

**Aboriginal and Torres Strait Islander health** practitioners must be registered with the Aboriginal and Torres Strait Islander Health Practice Board of Australia. Aboriginal and Torres Strait Islander health practitioners may use any of the titles authorised by the Aboriginal and Torres Strait Islander Health Practice Board: Aboriginal health practitioners; Aboriginal and Torres Strait Islander health practitioners; or Torres Strait Islander health practitioners.

**Aboriginal health workers** in a State or Territory other than the Northern Territory must have been awarded either:

- a. a Certificate III in Aboriginal and/or Torres Strait Islander Primary Health Care (or an equivalent or higher qualification) by a registered training organisation; or
- b. a Certificate III in Aboriginal and Torres Strait Islander Health (or an equivalent or higher qualification) by a registered training organisation before 1 July 2012.

Note: Where individuals consider their qualification to be equivalent to or higher than the qualifications listed above, they will need to contact a registered training organisation in their State or Territory to have the qualification assessed as such before they can register with the Department of Human Services. In the Northern Territory, a practitioner must be registered with the Aboriginal and Torres Strait Islander Health Practice Board of Australia.

**Audiologists** must be either a 'Full Member' of the Audiological Society of Australia Inc (ASA), who holds a 'Certificate of Clinical Practice' issued by the ASA; or an 'Ordinary Member - Audiologist' or 'Fellow Audiologist' of the Australian College of Audiology (ACAud).

**Diabetes educators** must be a Credentialed Diabetes Educator (CDE) as credentialed by the Australian Diabetes Educators Association (ADEA).

**Chiropractors** must be registered with the Chiropractic Board of Australia.

**Dietitians** must be an 'Accredited Practising Dietitian' as recognised by the Dietitians Association of Australia (DAA).

**Exercise physiologists** must be an 'Accredited Exercise Physiologist' as accredited by Exercise and Sports Science Australia (ESSA).

### **Mental health workers**

'Mental health' can include services provided by members of five different allied health professional groups. 'Mental health workers' are drawn from the following:

- psychologists;
- mental health nurses;
- occupational therapists;
- social workers;
- Aboriginal and Torres Strait Islander health practitioners; and
- Aboriginal health workers.

Psychologists, occupational therapists, Aboriginal and Torres Strait Islander health practitioners and Aboriginal health workers are eligible in separate categories for these items.

**Mental health nurses** must be a credentialed mental health nurse, as certified by the Australian College of Mental Health Nurses.

Mental health nurses who were registered in the ACT or Tasmania prior to the introduction of the National Registration and Accreditation Scheme (NRAS) on 1 July 2010, will have until 31 December 2010 to be certified by the Australian College of Mental Health Nurses.

**Social workers** must be a 'Member' of the Australian Association of Social Workers (AASW) and be certified by AASW as meeting the standards for mental health set out in the document published by AASW titled 'Practice Standards for Mental Health Social Workers' as in force on 8 November 2008.

**Occupational therapists** must be registered with the Occupational Therapy Board of Australia.

**Osteopaths** must be registered with the Osteopathy Board of Australia.

**Physiotherapists** must be registered with the Physiotherapy Board of Australia.

**Podiatrists** must be registered with the Podiatry Board of Australia.

**Psychologists** must hold general registration in the health profession of psychology under the applicable law in force in the State or Territory in which the service is provided.

**Speech pathologists** must be a 'Practising Member' of Speech Pathology Australia.

### **Registering with the Department of Human Services**

Provider registration forms may be obtained from the [Department of Human Services](#) on 132 150 or at the Department of Human Services website.

Chiropractors, osteopaths, physiotherapists and podiatrists who were already registered with the Department of Human Services on 1 July 2004 to order diagnostic imaging under Medicare, do not need to re-register to provide services under this initiative. Allied health professionals registering with the Department of Human Services for the

first time only need to fill in one application form which will give them rights to provide services under this initiative and order diagnostic imaging tests etc., where appropriate, under Medicare.

### **Changes to provider details**

Allied health providers must notify the Department of Human Services in writing of all changes to mailing details to ensure that they continue to receive information about Medicare rebateable allied health services.

The individual allied health items (10950 to 10970) can only be claimed for services provided by eligible allied health professionals who are registered with the Department of Human Services. To be eligible to register with the Department of Human Services to provide these services, allied health professionals must meet the specific eligibility requirements detailed below.

### **MN.3.5 Individual Allied Health Services (10950 to 10970) for Chronic Disease Management - Further Information**

Further information about Medicare Benefits Schedule items is available on the Department of Health's website at [www.health.gov.au/mbsprimarycareitems](http://www.health.gov.au/mbsprimarycareitems)

### **MN.6.1 Provision of Psychological Therapy Services by Clinical Psychologists - (Items 80000 TO 80021)**

#### **OVERVIEW**

The Better Access to Psychiatrists, Psychologists and General Practitioners through the Medicare Benefits Schedule initiative commenced on 1 November 2006. Under the Better Access initiative MBS items provide Medicare benefits for the following allied mental health services:

- psychological therapy (items 80000 to 80021) - provided by eligible clinical psychologists; and
- focussed psychological strategies - allied mental health (items 80100 to 80171) - provided by eligible psychologists, occupational therapists and social workers.

### **MN.6.2 Psychological Therapy Services Attracting Medicare Rebates**

#### **Eligible psychological therapy services**

There are eight MBS items for the provision of psychological therapy services to eligible patients by a clinical psychologist, including five items for face-to-face consultations and three items for video conference consultations. Clinical psychologists must meet the provider eligibility requirements set out below and be registered with the Department of Human Services.

In these notes, 'GP' means a medical practitioner, including a general practitioner, but not including a specialist or consultant physician.

#### **Referrals and Referral Validity**

Services provided under the Psychological Therapy items will not attract a Medicare rebate unless:

- a referral has been made by a GP or medical practitioner who is managing the patient under a GP Mental Health Treatment Plan (GP items 2700, 2701, 2715, 2717 or medical practitioner items 272, 276, 281, 282);
- a referral has been made by a medical practitioner (including a general practitioner, but not a specialist or consultant physician) who is managing the patient under a referred psychiatrist assessment and management plan (item 291);
- a referral has been made by a psychiatrist or paediatrician from an eligible psychiatric or paediatric service (see Referral Requirements for further details regarding psychiatrist and paediatrician referrals); or

- a referral has been made by a medical practitioner (including a general practitioner, but not a specialist or consultant physician) under a Health Care Home shared care plan.

### **Health Care Home shared care plan**

A Health Care Home shared care plan means a written plan that is prepared for a patient enrolled at a Health Care Home trial site; is prepared by a medical practitioner (including a general practitioner but not including a specialist or consultant physician) who is leading the patient's care at the Health Care Home trial site; and includes: an outline of the patient's agreed current and long-term goals; the person or people responsible for each activity; arrangements to review the plan by a day mentioned in the plan; and if authorised by the patient, arrangements for the transfer of information between the medical practitioner and other health care providers supporting patient care about the patient's condition or conditions and treatment.

### **Number of services per year**

Medicare rebates are available for up to 10 individual allied mental health services in a calendar year. The 10 services may consist of: GP/medical practitioner focussed psychological strategies services (GP items 2721 to 2727 or medical practitioner items 283 to 287); and/or psychological therapy services (items 80000 to 80015); and/or focussed psychological strategies - allied mental health services (items 80100 to 80115; 80125 to 80140; 80150 to 80165).

Referrals should be provided, as required, for an initial course of treatment (a maximum of six services but may be less depending on the referral and patient need) to a maximum of 10 services per calendar year. For the purposes of these services, a course of treatment will consist of the number of services stated in the patient's referral (up to a maximum of six in any one referral).

Patients will also be eligible to claim up to 10 separate services within a calendar year for group therapy services involving 6-10 patients to which items 80020 (psychological therapy - clinical psychologist), 80021 (psychological therapy by video conference - clinical psychologist), 80120 (focussed psychological strategies - psychologist), 80121 (focussed psychological strategies by video conference - psychologist), 80145 (focussed psychological strategies - occupational therapist), 80146 (focussed psychological strategies by video conference - occupational therapist), 80170 (focussed psychological strategies - social worker) and 80171 (focussed psychological strategies by video conference - social worker) apply. These group services are separate from the individual services and do not count towards the 10 individual services per calendar year maximum associated with those items.

In the instance where a patient has received the 10 psychological therapy services (items 80000 to 80021), focussed psychological services -allied mental health services (items 80100 to 80171) or GP/medical practitioner focussed psychological strategies services (GP items 2721 to 2727 or medical practitioner items 283 to 287) available under the Better Access to Psychiatrists, Psychologists and General Practitioners through the Medicare Benefits Schedule initiative per calendar year and is considered to clinically benefit from some additional services, the patient may be eligible for Primary Health Networks (PHNs) funded psychological therapies if they meet relevant eligibility criteria for the PHN commissioned services. It is recommended that providers refer to their PHN for further guidance.

### **Service length and type**

Services provided by eligible clinical psychologists under these items must be within the specified time period within the item descriptor. The clinical psychologist must personally attend the patient face-to-face, or by video conference for items 80001, 80011, 80021, 80101, 80111, 80121, 80126, 80136, 80146, 80151, 80161 and 80171.

It is expected that professional attendances at places other than consulting rooms would be provided where treatment in other environments is necessary to achieve therapeutic outcomes.

In addition to psycho-education, it is recommended that cognitive-behaviour therapy be provided. However, other evidence-based therapies — such as interpersonal therapy — may be used if considered clinically relevant.

Course of treatment and reporting back to the referring medical practitioner

Patients are eligible to receive up to 10 individual services and up to 10 group sessions in a calendar year.

Within this maximum service allocation, the clinical psychologist can provide one or more courses of treatment. For the purposes of these services, a course of treatment consists of the number of services stated in the patient's referral (up to a maximum of six in any one referral). This enables the referring medical practitioner to consider a report from the clinical psychologist on the services provided to the patient, and the need for further treatment.

On completion of the initial course of treatment, the clinical psychologist must provide a written report to the referring GP or medical practitioner, which includes information on:

- assessments carried out on the patient;
- treatment provided; and
- recommendations on future management of the patient's disorder.

A written report must also be provided to the referring GP or medical practitioner at the completion of any subsequent course(s) of treatment provided to the patient.

### **Out of pocket expenses and Medicare safety net**

Charges in excess of the Medicare benefit for these items are the responsibility of the patient. However, if a service was provided out-of-hospital, any out-of-pocket costs will count towards the Medicare safety net for that patient. The out-of-pocket costs for mental health services which are not Medicare eligible do not count towards the Medicare safety net.

### **Eligible patients**

Items 80000 to 80021 (inclusive) apply to people with an assessed mental disorder and where the patient is referred by a GP or medical practitioner who is managing the patient under a GP Mental Health Treatment Plan (GP items 2700, 2701, 2715, 2717 or medical practitioner items 272, 276, 281, 282), under a Health Care Home shared care plan, under a referred psychiatrist assessment and management plan (item 291), or on referral from an eligible psychiatrist or paediatrician.

The conditions classified as mental disorders for the purposes of these services are informed by the World Health Organisation, 1996, Diagnostic and Management Guidelines for Mental Disorders in Primary Care: ICD-10 Chapter V Primary Care Version. For the purposes of these items, dementia, delirium, tobacco use disorder and mental retardation are not regarded as a mental disorder.

### **Checking patient eligibility for psychological therapy services**

Patients seeking Medicare rebates for psychological therapy services will need to have a referral from a GP, medical practitioner, psychiatrist or paediatrician. If there is any doubt about a patient's eligibility, the Department of Human Services will be able to confirm whether a GP Mental Health Treatment Plan; shared care plan and/or a psychiatrist assessment and management plan is in place and claimed; or an eligible psychiatric or paediatric service has been claimed, as well as the number of allied mental health services already claimed by the patient during the calendar year.

Clinical psychologists can call the Department of Human Services on 132 150 to check this information, while unsure patients can seek clarification by calling 132 011.

The patient will not be eligible if they have not been appropriately referred and a relevant Medicare service provided to them. If the referring service has not yet been claimed, the Department of Human Services will not be aware of the patient's eligibility. In this case the clinical psychologist should, with the patient's permission, contact the referring practitioner to ensure the relevant service has been provided to the patient.

### **Publicly funded services**

Psychological therapy items 80000 to 80021 do not apply for services that are provided by any other Commonwealth or State funded services or provided to an admitted patient of a hospital. However, where an

exemption under subsection 19(2) of the *Health Insurance Act 1973* has been granted to an Aboriginal Community Controlled Health Service or state/territory clinic, the items apply for services that are provided by eligible clinical psychologists salaried by, or contracted to, the service as long as all requirements of the items are met, including registration with the Department of Human Services. These services must be direct billed (that is, the Medicare rebate is accepted as full payment for services).

### **Private health insurance**

Patients need to decide if they will use Medicare or their private health insurance ancillary cover to pay for these services. Patients cannot use their private health insurance ancillary cover to 'top up' the Medicare rebate paid for the services.

## **MN.6.3 Referral Requirements (GPs, Medical Practitioners, Psychiatrists or Paediatricians to Clinical Psychologists for Psychological Therapy)**

### **Referrals**

Patients must be referred for psychological therapy services by a GP or medical practitioner managing the patient under a GP Mental Health Treatment Plan (GP items 2700, 2701, 2715, 2717 or medical practitioner items 272, 276, 281, 282), or a referred psychiatrist assessment and management plan (item 291); on referral from a psychiatrist or a paediatrician; or a Health Care Home shared care plan.

Referrals from psychiatrists and paediatricians must be made from eligible Medicare services. For specialist psychiatrists and paediatricians these services include any of the specialist attendance items 104 through 109. For consultant physician psychiatrists the relevant eligible Medicare services cover any of the consultant psychiatrist items 293 through 370; while for consultant physician paediatricians the eligible services are consultant physician attendance items 110 through 133.

Referring practitioners are not required to use a specific form to refer patients for these services. The referral may be a letter or note to an eligible clinical psychologist signed and dated by the referring practitioner.

The clinical psychologist must be in receipt of the referral at the first allied mental health consultation. It is recommended that the clinical psychologist retain the referral for 24 months from the date the service was rendered (for the Department of Human Services auditing purposes).

### **Health Care Home shared care plan**

A Health Care Home shared care plan means a written plan that is prepared for a patient enrolled at a Health Care Home trial site; is prepared by a medical practitioner (including a general practitioner but not including a specialist or consultant physician) who is leading the patient's care at the Health Care Home trial site; and includes: an outline of the patient's agreed current and long-term goals; the person or people responsible for each activity; arrangements to review the plan by a day mentioned in the plan; and if authorised by the patient, arrangements for the transfer of information between the medical practitioner and other health care providers supporting patient care about the patient's condition or conditions and treatment.

The Health Care Home shared care plan should also include a record of the patient's agreement to mental health services; an outline of assessment of the patient's mental disorder, including the mental health formulation and diagnosis or provisional diagnosis; and if appropriate, a plan for one or more of crisis intervention and relapse prevention.

### **Referral validity**

Medicare benefits are available for up to 10 individual and/or 10 group psychological therapy services and/or focussed psychological strategies services per patient per calendar year.

Referrals should be provided, as required, for an initial course of treatment (a maximum of six services but may be less depending on the referral and the patient's clinical need) to a maximum of 10 services per calendar year. For the

purposes of these services, a course of treatment will consist of the number of services stated in the patient's referral (up to a maximum of six in any one referral).

If a patient has not used all of their psychological therapy services and/or focussed psychological strategies services under a referral in a calendar year, it is not necessary to obtain a new referral for the "unused" services. However, any "unused" services received from 1 January in the following year under that referral will count as part of the total of 10 services for which the patient is eligible in that calendar year.

When patients have used all of their referred services they will need to obtain a new referral from the referring practitioner if they are eligible for further services. Where the patient's care is being managed by a GP or medical practitioner, the GP/medical practitioner may choose to use this visit to undertake a review of the patient's GP Mental Health Treatment Plan, Health Care Home shared care plan, and/or psychiatrist assessment and management plan.

It is not necessary to have a new GP Mental Health Treatment Plan, Health Care Home shared care plan, and/or psychiatrist assessment and management plan prepared each calendar year in order to access a new referral(s) for eligible psychological therapy services and/or focussed psychological strategies services. Patients continue to be eligible for rebates for psychological therapy services and/or focussed psychological strategies services while they are being managed under a GP Mental Health Treatment Plan, Health Care Home shared care plan, and/or a psychiatrist assessment and management plan as long as the need for eligible services continues to be recommended in their plan.

#### **MN.6.4 Clinical Psychologist Professional Eligibility** **Eligible clinical psychologists**

A person is an allied health professional in relation to the provision of a psychological therapy health service if the person:

- a. holds general registration in the health profession of psychology under the applicable law in force in the state or territory in which the service is provided; and
- b. is endorsed by the Psychology Board of Australia to practice in clinical psychology.

Until 31 October 2015, a person was also an allied health professional in relation to the provision of a psychological therapy health service if the person:

- a. holds general registration in the health profession of psychology under the applicable law in force in the state or territory in which the service is provided; and
- b. on 31 October 2015 was an allied health professional in relation to the provision of a psychological therapy health service because the person:
  - i. was a member of the College of Clinical Psychologists of the Australian Psychological Society; or
  - ii. had been assessed by the College of Clinical Psychologists of the Australian Psychological Society as meeting the requirements for membership of that College.

The clinical psychologist must be registered with the Department of Human Services.

#### **Registering with the Department of Human Services**

Advice about registering with the Department of Human Services to provide psychological therapy services using items 80000-80021 inclusive is available from the Department of Human Services provider inquiry line on 132 150.

#### **Further information**

For further information about Medicare Benefits Schedule items, please go to the Department of Health's website at [www.health.gov.au/mbsonline](http://www.health.gov.au/mbsonline).

For providers, further information is also available for providers from the Department of Human Services provider inquiry line on 132 150.

### **MN.6.5 Telehealth Psychological Therapy Services**

These notes provide information on the telehealth psychological therapy MBS video consultation items by clinical psychologists. A video consultation involves a single clinical psychologist attending a patient, or a group of 6 to 10 patients.

MBS item numbers 80001 and 80011 provide for attendance via videoconferencing by a clinical psychologist to an individual patient. MBS item number 80021 provide for attendance via videoconferencing by a clinical psychologist to a group of 6 to 10 patients. The items are stand-alone items and do not have a derived fee.

These therapies are time limited, being deliverable in up to 10 planned sessions in a calendar year (including services to which items 80001, 80011, 80101, 80111, 80126, 80136, 80151 and 80161 apply).

Patients will also be eligible to claim up to 10 separate services within a calendar year for group therapy services involving 6-10 patients to which items 80021 (psychological therapy via video conference – clinical psychologist), 80121 (focussed psychological strategies via video conference – psychologist), 80146 (focussed psychological strategies via video conference – occupational therapist) and 80171 (focussed psychological strategies via video conference – social worker) apply. These group services are separate from the individual services and do not count towards the 10 individual services per calendar year maximum associated with those items.

#### **Clinical indications**

The clinical psychologist must be satisfied that it is clinically appropriate to provide a video consultation to a patient, or a group of 6 to 10 patients.

#### **Restrictions**

The MBS telehealth attendance items are not payable for services to an admitted hospital patient (this includes hospital in the home patients). Benefits are not payable for telephone or email consultations. In order to fulfil the item descriptor there must be a visual and audio link between the patient and the remote clinical psychologist. If the remote clinical psychologist is unable to establish both a video and audio link with the patient, a MBS rebate for a telehealth attendance is not payable.

#### **Billing Requirements**

All video consultations provided by clinical psychologists must be separately billed. That is, only the relevant telehealth MBS consultation item is to be itemised on the account/bill/voucher. Any other service/item billed should be itemised on a separate account/bill/voucher. This will ensure the claim is accurately assessed as being a video consultation and paid accordingly.

Clinical psychologists should not use the notation ‘telehealth’, ‘verbal consent’ or ‘Patient unable to sign’ to overcome administrative difficulties to obtaining a patient signature for bulk-billed claims (for further information see [mbsonline.gov.au/telehealth](http://mbsonline.gov.au/telehealth)).

#### **Eligible Geographical Areas**

Geographic eligibility for psychological telehealth services funded under Medicare (in Groups M6 and M7) is determined according to the Modified Monash Model (MMM) classifications. Telehealth Eligible Areas are those areas that are within MMM classifications 4 to 7. Patients and providers are able to check their eligibility using the Modified Monash Model locator on the Department of Health’s website ([http://www.health.gov.au/internet/otd/publishing.nsf/Content/MMM\\_locator](http://www.health.gov.au/internet/otd/publishing.nsf/Content/MMM_locator)).

There is a requirement for the patient and clinical psychologist to be located a minimum of 15 kilometres apart at the time of the consultation. Minimum distance between clinical psychologist and patient video consultations are measured by the most direct (ie least distance) route by road. The patient or the clinical psychologist is not permitted to travel to an area outside the minimum 15 kilometres distance in order to claim a video consultation.

#### **Record Keeping**

Participating telehealth clinical psychologists must keep contemporaneous notes of the consultation including documenting that the service was performed by video conference, the date, time and the people who participated.

Only clinical details recorded at the time of the attendance count towards the time of the consultation. It does not include information added at a later time, such as reports of investigations.

### **Extended Medicare Safety Net (EMSN)**

All telehealth consultations (with the exception of the participating optometrist telehealth items) are subject to EMSN caps. The EMSN caps for telehealth consultation items in Groups M6 and M7 are equal to 300% of the schedule fee (to a maximum of \$500).

### **Aftercare Rule**

Video consultations are subject to the same aftercare rules as clinical psychologists providing face-to-face consultations.

### **Multiple attendances on the same day**

In some situations a patient may receive a consultation via video conference and a face-to-face consultation by the same or different clinical psychologist on the same day.

Medicare benefits may be paid for more than one video consultation on a patient on the same day by the same clinical psychologist, provided the second (and any following) video consultations are not a continuation of the initial or earlier video consultations. Clinical psychologists will need to provide the times of each consultation on the patient's account or bulk-billing voucher.

### **Referrals**

The referral procedure for a video consultation is the same as for conventional face-to-face consultations.

### **Technical requirements**

In order to fulfil the item descriptor there must be a visual and audio link between the patient and the remote clinical psychologist. If the remote clinical psychologist is unable to establish both a video and audio link with the patient, a MBS rebate for a telehealth attendance is not payable.

Individual clinicians must be confident that the technology used is able to satisfy the item descriptor and that software and hardware used to deliver a videoconference meets the applicable laws for security and privacy.

## **MN.7.1 Provision of Focussed Psychological Strategies Services by Allied Health Providers - (Items 80100 to 80170)**

### **OVERVIEW**

The Better Access to Psychiatrists, Psychologists and General Practitioners through the Medicare Benefits Schedule initiative commenced on 1 November 2006. Under the Better Access initiative MBS items provide Medicare benefits for the following allied mental health services:

- psychological therapy (items 80000 to 80021) - provided by eligible clinical psychologists; and
- focussed psychological strategies – allied mental health (items 80100 to 80171) - provided by eligible psychologists, occupational therapists and social workers.

### **FOCUSSED PSYCHOLOGICAL STRATEGIES – ALLIED MENTAL HEALTH SERVICES ATTRACTING MEDICARE REBATES**

#### **Eligible focussed psychological strategies services**

There are 24 MBS items for the provision of focussed psychological strategies (FPS) - allied mental health services to eligible patients by allied health professionals:

- 80100, 80105, 80110, 80115 and 80120 for provision of FPS services by a psychologist;
- 80101, 80111 and 80121 for provision of video conference FPS services by a psychologist;
- 80125, 80130, 80135, 80140 and 80145 for provision of FPS services by an occupational therapist;
- 80126, 80136 and 80146 for provision of video conference FPS services by an occupational therapist;
- 80150, 80155, 80160, 80165 and 80170 for provision of FPS services by a social worker; and
- 80151, 80161 and 80171 for provision of video conference FPS services by a social worker.

The allied health professional must meet the provider eligibility requirements set out below and be registered with the Department of Human Services.

In these notes, 'GP' means a medical practitioner, including a general practitioner, but not including a specialist or consultant physician.

### **Referrals and Referral Validity**

Services provided under the focussed psychological strategies – allied mental health items will not attract a Medicare rebate unless:

- a referral has been made by a GP or medical practitioner who is managing the patient under a GP Mental Health Treatment Plan (GP items 2700, 2701, 2715, 2717 or medical practitioner items 272, 276, 281, 282);
- a referral has been made by a medical practitioner (including a general practitioner, but not a specialist or consultant physician) under a shared care plan;
- a referral has been made by a medical practitioner (including a general practitioner, but not a specialist or consultant physician) who is managing the patient under a referred psychiatrist assessment and management plan (item 291); or
- a referral has been made by a psychiatrist or paediatrician from an eligible psychiatric or paediatric service (see Referral Requirements for further details regarding psychiatrist and paediatrician referrals).

### **Number of services per year**

Medicare rebates are available for up to 10 individual allied mental health services in a calendar year. The 10 services may consist of: GP or medical practitioner focussed psychological strategies services (GP items 2721 to 2727 or medical practitioner items 283 to 287); and/or psychological therapy services (items 80000 to 80015); and/or focussed psychological strategies - allied mental health services (items 80100 to 80115; 80125 to 80140; 80150 to 80165).

Referrals should be provided, as required, for an initial course of treatment (a maximum of six services but may be less depending on the referral and patient need) to a maximum of 10 services per calendar year. For the purposes of these services, a course of treatment will consist of the number of services stated in the patient's referral (up to a maximum of six in any one referral).

Patients will also be eligible to claim up to 10 separate services within a calendar year for group therapy services involving 6-10 patients to which items 80020 (psychological therapy – clinical psychologist), 80021 (psychological therapy via video conference – clinical psychologist), 80120 (focussed psychological strategies – psychologist), 80121 (focussed psychological strategies via video conference – psychologist), 80145 (focussed psychological strategies – occupational therapist), 80146 (focussed psychological strategies via video conference – occupational therapist), 80170 (focussed psychological strategies - social worker) and 80171 (focussed psychological strategies via video conference – social worker) apply. These group services are separate from the individual services and do not count towards the 10 individual services per calendar year maximum associated with those items.

In the instance where a patient has received the 10 psychological therapy services (items 80000 to 80021), focussed psychological services-allied mental health services (items 80100 to 80171) or GP or medical practitioner focussed psychological strategies services (GP items 2721 to 2727 or medical practitioner items 283 to 287) available under

the Better Access to Psychiatrists, Psychologists and General Practitioners through the Medicare Benefits Schedule initiative per calendar year and is considered to clinically benefit from some additional services, the patient may be eligible for Primary Health Networks (PHNs) funded psychological therapies if they meet relevant eligibility criteria for the PHN commissioned services. It is recommended that providers refer to their PHN for further guidance.

### **Service length and type**

Services provided by eligible allied health professionals under these items must be within the specified time period within the item descriptor. The allied mental health professional must personally attend the patient face to face, or via video conference for items 80001, 80011, 80021, 80101, 80111, 80121, 80126, 80136, 80146, 80151, 80161 and 80171.

It is expected that professional attendances at places other than consulting rooms would be provided where treatment in other environments is necessary to achieve therapeutic outcomes.

A range of acceptable strategies has been approved for use by allied mental health professionals utilising the FPS items.

These are:

#### **1. Psycho-education**

(including motivational interviewing)

#### **2. Cognitive-behavioural therapy including:**

##### **• Behavioural interventions**

- Behaviour modification
- Exposure techniques
- Activity scheduling

##### **• Cognitive interventions**

- Cognitive therapy

#### **3. Relaxation strategies**

- Progressive muscle relaxation
- Controlled breathing

#### **4. Skills training**

- Problem solving skills and training
- Anger management
- Social skills training
- Communication training
- Stress management
- Parent management training

#### **5. Interpersonal therapy** (especially for depression)

#### **6. Narrative therapy** (for Aboriginal and Torres Strait Islander people).

#### **7. Eye-Movement Desensitisation Reprocessing (EMDR)**

### **Course of treatment and reporting back to the referring medical practitioner**

Patients are eligible to receive up to 10 individual services and up to 10 group sessions in a calendar year.

Within this maximum service allocation, the allied mental health professional can provide one or more courses of treatment. For the purposes of these services, a course of treatment consists of the number of services stated in the patient's referral (up to a maximum of six services in any one referral). This enables the referring medical practitioner to consider a report from the allied mental health professional on the services provided to the patient, and the need for further treatment.

On completion of the initial course of treatment, the allied mental health professional must provide a written report to the referring medical practitioner, which includes information on:

- assessments carried out on the patient;
- treatment provided; and
- recommendations on future management of the patient's disorder.

A written report must also be provided to the referring medical practitioner at the completion of any subsequent course(s) of treatment provided to the patient.

### **Out-of-pocket expenses and Medicare safety net**

Charges in excess of the Medicare benefit for these items are the responsibility of the patient. However, if a service was provided out of hospital, any out-of-pocket costs will count towards the Medicare safety net for that patient. The out-of-pocket costs for mental health services which are not Medicare eligible do not count towards the Medicare safety net.

### **Eligible patients**

Items 80100 to 80171 (inclusive) apply to people with an assessed mental disorder and where the patient is referred by a GP or medical practitioner who is managing the patient under a GP Mental Health Treatment Plan (GP items 2700, 2701, 2715, 2717 or medical practitioner items 272, 276, 281, 282) under a referred psychiatrist assessment and management plan (item 291) or Health Care Home shared care plan; or from an eligible psychiatrist or paediatrician.

The conditions classified as mental disorders for the purposes of these services are informed by the World Health Organisation, 1996, Diagnostic and Management Guidelines for Mental Disorders in Primary Care: ICD-10 Chapter V Primary Care Version. For the purposes of these items, dementia, delirium, tobacco use disorder and mental retardation are not regarded as a mental disorder.

### **Checking patient eligibility for focussed psychological strategies – allied mental health services**

Patients seeking Medicare rebates for focussed psychological strategies – allied mental health services will need to have a referral from a GP, medical practitioner, psychiatrist or paediatrician. If there is any doubt about a patient's eligibility, the Department of Human Services will be able to confirm whether a GP Mental Health Treatment Plan, Health Care Home shared care plan and/or a psychiatrist assessment and management plan is in place and claimed; or an eligible psychiatric or paediatric service has been claimed, as well as the number of allied mental health services already claimed by the patient during the calendar year.

Allied mental health professionals can call the Department of Human Services on 132 150 to check this information, while unsure patients can seek clarification by calling 132 011.

The patient will not be eligible if they have not been appropriately referred and a relevant Medicare service provided to them. If the referring service has not yet been claimed, the Department of Human Services will not be aware of the patient's eligibility. In this case the allied mental health professional should, with the patient's permission, contact the referring practitioner to ensure the relevant service has been provided to the patient.

### **Publicly funded services**

Focussed psychological strategies (FPS) services items 80100 to 80171 do not apply for services that are provided by any other Commonwealth or state funded services or provided to an admitted patient of a hospital. However, where an exemption under subsection 19(2) of the *Health Insurance Act 1973* has been granted to an Aboriginal Community Controlled Health Service or state/territory clinic, the FPS services items apply for services that are provided by eligible allied mental health professionals salaried by, or contracted to, the service as long as all requirements of the items are met, including registration with the Department of Human Services. These services must be direct billed (that is, the Medicare rebate is accepted as full payment for services).

### **Private health insurance**

Patients need to decide if they will use Medicare or their private health insurance ancillary cover to pay for these services. Patients cannot use their private health insurance ancillary cover to 'top up' the Medicare rebate paid for the services.

## **REFERRAL REQUIREMENTS (GPs, MEDICAL PRACTITIONERS, PSYCHIATRISTS OR PAEDIATRICIANS TO ALLIED MENTAL HEALTH PROFESSIONALS)**

### **Referrals**

Patients must be referred for focussed psychological strategies – allied mental health services by either a GP or medical practitioner managing the patient under a GP Mental Health Treatment Plan (GP items 2700, 2701, 2715, 2717 or medical practitioner items 272, 276, 281, 282), a Health Care Home shared care plan or referred by a medical practitioner (including a general practitioner, but not a specialist or consultant physician) who is managing the patient under a referred psychiatrist assessment and management plan (item 291); or on referral from a psychiatrist or a paediatrician.

Referrals from psychiatrists and paediatricians must be made from eligible Medicare services. For specialist psychiatrists and paediatricians these services include any of the specialist attendance items 104 through 109. For consultant physician psychiatrists the relevant eligible Medicare services cover any of the consultant psychiatrist items 293 through 370; while for consultant physician paediatricians the eligible services are consultant physician attendance items 110 through 133.

Referring practitioners are not required to use a specific form to refer patients for these services. The referral may be a letter or note to an eligible allied mental health professional signed and dated by the referring practitioner.

The allied mental health professional must be in receipt of the referral at the first allied mental health consultation. It is required that the allied health professional retain the referral for 24 months from the date the service was rendered (for the Department of Human Services auditing purposes).

### **Referral validity**

Medicare benefits are available for up to 10 individual and/or 10 group psychological therapy services and/or focussed psychological strategies services per patient per calendar year.

Referrals should be provided, as required, for an initial course of treatment (a maximum of six services but may be less depending on the referral and the patient's clinical need) to a maximum of 10 services per calendar year. For the purposes of these services, a course of treatment will consist of the number of services stated in the patient's referral (up to a maximum of six in any one referral).

If a patient has not used all of their psychological therapy services and/or focussed psychological strategies services under a referral in a calendar year, it is not necessary to obtain a new referral for the "unused" services. However, any "unused" services received from 1 January in the following year under that referral will count as part of the total of 10 services for which the patient is eligible in that calendar year.

When patients have used all of their referred services they will need to obtain a new referral from the referring practitioner if they are eligible for further services. Where the patient's care is being managed by a GP or medical practitioner, the GP/medical practitioner may choose to use this visit to undertake a review of the patient's GP Mental Health Treatment Plan, Home Health Care shared care plan and/or psychiatrist assessment and management plan.

It is not necessary to have a new GP Mental Health Treatment Plan, Home Health Care shared care plan and/or psychiatrist assessment and management plan prepared each calendar year in order to access a new referral(s) for eligible psychological therapy services and/or focussed psychological strategies services. Patients continue to be eligible for rebates for psychological therapy services and/or focussed psychological strategies services while they are being managed under a GP Mental Health Treatment Plan, Home Health Care shared care plan and/or a psychiatrist assessment and management plan as long as the need for eligible services continues to be recommended in their plan.

## **Health Care Home shared care plan**

A Health Care Home shared care plan means a written plan that is prepared for a patient enrolled at a Health Care Home trial site; is prepared by a medical practitioner (including a general practitioner but not including a specialist or consultant physician) who is leading the patient's care at the Health Care Home trial site; and includes: an outline of the patient's agreed current and long-term goals; the person or people responsible for each activity; arrangements to review the plan by a day mentioned in the plan; and if authorised by the patient, arrangements for the transfer of information between the medical practitioner and other health care providers supporting patient care about the patient's condition or conditions and treatment. Additionally, a Health Care Home shared care plan must include a record of the patient's agreement to mental health services; an outline of assessment of the patient's mental disorder, including the mental health formulation and diagnosis or provisional diagnosis; and if appropriate, a plan for one or more of crisis intervention and relapse prevention.

## **ALLIED MENTAL HEALTH PROFESSIONAL ELIGIBILITY**

### **Eligible allied health professionals**

A person is an allied health professional in relation to the provision of a FPS service if the person meets one of the following requirements:

- a. the person is a psychologist who holds general registration in the health profession of psychology under the applicable law in force in the State or Territory in which the service is provided;
- b. the person is a member of the Australian Association of Social Workers (AASW) and certified by AASW as the meeting the standards for mental health set out in the document published by AASW titled 'Practice Standards for Mental Health Social Workers 2014' as in force on 25 September 2014;
- c. the person:
  - i. is an occupational therapist who is registered as a person who may provide that kind of service under the applicable law in force in the State or Territory in which the service is provided; and
  - ii. is accredited by Occupational Therapy Australia as:
    - having a minimum of two years experience in mental health; and
    - having undertaken to observe the standards set out in the document published by Occupational Therapy Australia's 'Australian Competency Standards for Occupational Therapists in Mental Health' as in force on 1 November 2006.

### **Continuing professional development (CPD) for Occupational Therapists and Social Workers providing focussed psychological strategies (FPS) services**

Occupational Therapists and Social Workers providing FPS services are required to have completed 10 hours FPS CPD.

A CPD year for the purposes of these items is from 1 July to 30 June annually.

Part-time allied mental health professionals are required to have 10 hours of FPS related CPD, the same as full-time allied mental health professionals.

Occupational Therapists and Social Workers who are registered during the course of the CPD year, their obligation to undertake CPD will be on a pro-rata basis. The amount of units will be calculated from the 1st of the month immediately succeeding the month they obtained initial registration. The obligation will be one-twelfth of the yearly requirement for each month.

CPD activities must be relevant to delivering FPS services. Acceptable CPD activities where the content is related to FPS can include formal postgraduate education, workshops, seminars, lectures, journal reading, writing papers, receipt of supervision and peer consultation, and online training.

There is flexibility in the CPD activities that can be undertaken to meet individual professional needs and their practice/client base and client needs. For example, activities could also include assessment and treatment of specific disorders and client types such as youth, or different modalities and delivery such as working with groups.

## **Registering with the Department of Human Services**

Advice about registering with the Department of Human Services to provide focussed psychological strategies - allied mental health services using items 80100-80171 inclusive is available from the Department of Human Services provider inquiry line on 132 150.

### **Further information**

For further information about Medicare Benefits Schedule items, please go to the Department of Health's website at [www.health.gov.au/mbsonline](http://www.health.gov.au/mbsonline)

For providers, further information is also available for providers from the Department of Human Services provider inquiry line on 132 150.

The Department of Human Services (DHS) has developed a Health Practitioner Guideline to substantiate that a valid Allied Mental Health service has been provided (for allied health professionals) which is located on the DHS website.

## **MN.7.2 Telehealth Focussed Psychological Strategies Services**

These notes provide information on the telehealth focussed psychological strategies MBS video consultation items by psychologists, occupational therapists and social workers. A video consultation involves a single psychologist, occupational therapist or social worker attending a patient, or a group of 6 to 10 patients.

MBS item numbers 80101, 80111, 80126, 80136, 80151 and 80161 provide for attendance via videoconferencing by a psychologist, occupational therapist or social worker to an individual patient. MBS item numbers 80121, 80146 and 80171 provide for attendance via videoconferencing by a psychologist, occupational therapist or social worker to a group of 6 to 10 patients. The items are stand-alone items and do not have a derived fee.

These therapies are time limited, being deliverable in up to 10 planned sessions in a calendar year (including services to which items 80001, 80011, 80101, 80111, 80126, 80136, 80151 and 80161 apply).

Patients will also be eligible to claim up to 10 separate services within a calendar year for group therapy services involving 6-10 patients to which items 80021 (psychological therapy via video conference – clinical psychologist), 80121 (focussed psychological strategies via video conference – psychologist), 80146 (focussed psychological strategies via video conference – occupational therapist) and 80171 (focussed psychological strategies via video conference – social worker) apply. These group services are separate from the individual services and do not count towards the 10 individual services per calendar year maximum associated with those items.

### **Clinical indications**

The psychologist, occupational therapist or social worker must be satisfied that it is clinically appropriate to provide a video consultation to a patient, or a group of 6 to 10 patients.

### **Restrictions**

The MBS telehealth attendance items are not payable for services to an admitted hospital patient (this includes hospital in the home patients). Benefits are not payable for telephone or email consultations. In order to fulfil the item descriptor there must be a visual and audio link between the patient and the remote psychologist, occupational therapist or social worker. If the remote psychologist, occupational therapist or social worker is unable to establish both a video and audio link with the patient, a MBS rebate for a telehealth attendance is not payable.

### **Billing Requirements**

All video consultations provided by psychologists, occupational therapists or social workers must be separately billed. That is, only the relevant telehealth MBS consultation item is to be itemised on the account/bill/voucher. Any other service/item billed should be itemised on a separate account/bill/voucher. This will ensure the claim is accurately assessed as being a video consultation and paid accordingly.

Psychologists, occupational therapists or social workers should not use the notation 'telehealth', 'verbal consent' or 'Patient unable to sign' to overcome administrative difficulties to obtaining a patient signature for bulk-billed claims (for further information see [mbsonline.gov.au/telehealth](http://mbsonline.gov.au/telehealth)).

### **Eligible Geographical Areas**

Geographic eligibility for psychological telehealth services funded under Medicare (in Groups M6 and M7) is determined according to the Modified Monash Model (MMM) classifications. Telehealth Eligible Areas are those areas that are within MMM classifications 4 to 7. Patients and providers are able to check their eligibility using the Modified Monash Model locator on the Department of Health's website ([http://www.health.gov.au/internet/otd/publishing.nsf/Content/MMM\\_locator](http://www.health.gov.au/internet/otd/publishing.nsf/Content/MMM_locator)).

There is a requirement for the patient and psychologist, occupational therapist or social worker to be located a minimum of 15 kilometres apart at the time of the consultation. Minimum distance between psychologist, occupational therapist or social worker and patient video consultations are measured by the most direct (ie least distance) route by road. The patient or the psychologist, occupational therapist or social worker is not permitted to travel to an area outside the minimum 15 kilometres distance in order to claim a video consultation.

### **Record Keeping**

Participating telehealth psychologists, occupational therapists and social workers must keep contemporaneous notes of the consultation including documenting that the service was performed by video conference, the date, time and the people who participated.

Only clinical details recorded at the time of the attendance count towards the time of the consultation. It does not include information added at a later time, such as reports of investigations.

### **Extended Medicare Safety Net (EMSN)**

All telehealth consultations (with the exception of the participating optometrist telehealth items) are subject to EMSN caps. The EMSN caps for telehealth consultation items in Groups M6 and M7 are equal to 300% of the schedule fee (to a maximum of \$500).

### **Aftercare Rule**

Video consultations are subject to the same aftercare rules as psychologists, occupational therapists and social workers providing face-to-face consultations.

### **Multiple attendances on the same day**

In some situations a patient may receive a consultation via video conference and a face-to-face consultation by the same or different psychologist, occupational therapist or social worker on the same day.

Medicare benefits may be paid for more than one video consultation on a patient on the same day by the same psychologist, occupational therapist or social worker, provided the second (and any following) video consultations are not a continuation of the initial or earlier video consultations. Psychologists, occupational therapists and social workers will need to provide the times of each consultation on the patient's account or bulk-billing voucher.

### **Referrals**

The referral procedure for a video consultation is the same as for conventional face-to-face consultations.

### **Technical requirements**

In order to fulfil the item descriptor there must be a visual and audio link between the patient and the remote psychologist, occupational therapist or social worker. If the remote clinical psychologist is unable to establish both a video and audio link with the patient, a MBS rebate for a telehealth attendance is not payable.

Individual clinicians must be confident that the technology used is able to satisfy the item descriptor and that software and hardware used to deliver a videoconference meets the applicable laws for security and privacy.

### **MN.8.1 Pregnancy Support Counselling - Eligible Patients - (Items 81000 to 81010)**

Medicare benefits are available for non-directive pregnancy support counselling services provided to a person who is pregnant or who has been pregnant in the 12 months preceding the first service to which item 81000, 81005 or 81010 applies in relation to that pregnancy. Services can be provided either by an eligible GP or by an eligible psychologist, social worker or mental health nurse on referral from a GP.

The term 'GP' is used hereafter as a generic reference to medical practitioners (including a general practitioner, but not including a specialist or consultant physician).

The items may be used to address any pregnancy related issues for which non-directive counselling is appropriate.

### **MN.8.2 Pregnancy Support Counselling - Eligible Services - (Items 81000 to 81010)**

There are four MBS items for the provision of non-directive pregnancy support counselling services:

Item 4001 - services provided by an eligible GP;

Item 81000 - services provided by an eligible psychologist;

Item 81005 - services provided by an eligible social worker; and

Item 81010 - services provided by an eligible mental health nurse.

These notes relate to items 81000-81010. Each individual allied health professional must meet the provider eligibility requirements set out below and be registered with the Department of Human Services.

#### **Service length and type**

Non-directive pregnancy support counselling services provided by eligible psychologists, social workers and mental health nurses using items 81000-81010 inclusive must be of at least 30 minutes duration and provided to an individual patient. The allied health professional must personally attend the patient.

The service involves the psychologist, social worker or mental health nurse undertaking a safe, confidential process that helps the patient explore concerns they have about a current pregnancy or a pregnancy that occurred in the preceding 12 months. This includes providing, on request, unbiased, evidence-based information about all options and services available to the patient.

Non-directive counselling is a form of counselling that is based on the understanding that, in many situations, people can resolve their own problems without being provided with a solution by the counsellor. The counsellor's role is to encourage the person to express their feelings but not suggest what decision the person should make. By listening and reflecting back what the person reveals to them, the counsellor helps them to explore and understand their feelings. With this understanding, the person is able to make the decision that is best for them.

#### **Number of services per year**

Medicare benefits are available for up to three (3) eligible non-directive pregnancy support counselling services per patient, per pregnancy, provided using items 81000, 81005, 81010 and 4001.

Partners of eligible patients may attend each or any counselling session, however, only one fee applies to each service.

#### **Out-of-pocket expenses and Medicare Safety Net**

Charges in excess of the Medicare benefit for these items are the responsibility of the patient. However, such out-of-pocket costs will count toward the Medicare safety net for that patient. Non-directive pregnancy support counselling services in excess of three (3) per pregnancy will not attract a Medicare benefit and the safety net arrangements will not apply to costs incurred by the patient for such services.

### **Publicly funded services**

Items 81000, 81005 and 81010 do not apply for services that are provided by any other Commonwealth or State funded services or provided to an admitted patient of a hospital.

However, where an exemption under subsection 19(2) of the *Health Insurance Act 1973* has been granted to an Aboriginal Community Controlled Health Service or State/Territory clinic, items 81000, 81005 and 81010 can be claimed for services provided by an eligible psychologist, social worker or mental health nurse salaried by or contracted to the service, where all requirements of the relevant item are met, including registration with the Department of Human Services. These services must be direct billed (that is, the Medicare rebate is accepted as full payment for services).

### **Private health insurance**

Patients need to decide if they will use Medicare or their private health insurance ancillary cover to pay for these services. Patients cannot use their private health insurance ancillary cover to 'top up' the Medicare rebate paid for the services.

### **MN.8.3 Pregnancy Support Counselling - Referral Requirements - (Items 81000 to 81010)**

Patients must be referred for non-directive pregnancy support counselling services by a GP or medical practitioner. GPs/medical practitioners are not required to use a specific form to refer patients for these services. The referral may be a letter or note to an eligible allied health professional signed and dated by the referring GP/medical practitioner.

Patients may be referred by a GP or medical practitioner to more than one eligible allied health professional for eligible non-directive pregnancy support counselling services (for example, where a patient does not wish to continue receiving services from the provider they were referred to in the first instance). However, Medicare benefits are only available for a maximum of three (3) non-directive pregnancy support counselling services to which items 792, 4001, 81000, 81005 and 81010 apply, per patient, per pregnancy.

Where the patient is unsure of the number of Medicare rebated non-directive pregnancy support counselling services they have already accessed, the patient may check with the Department of Human Services on 132 011. Alternatively, the psychologist, social worker or mental health nurse may check with the Department of Human Services.

The relevant allied health professional must be in receipt of the referral at the first non-directive pregnancy support counselling service and must retain the referral for 2 years from the date the service was rendered, for the Department of Human Services auditing purposes.

A copy of the referral is not required to accompany Medicare claims. However, referral details are required to be included on patients' itemised accounts/receipts or Medicare assignment of benefit forms.

### **Referral validity**

The referral is valid for up to three (3) non-directive pregnancy support counselling services, per patient, per pregnancy.

### **Subsequent Referrals**

A new referral is required where the patient seeks to access non-directive pregnancy support counselling in relation to a different pregnancy or where the patient wishes to be referred to a different allied health professional than the one they were referred to in the first instance.

## **MN.8.4 Pregnancy Support Counselling - Allied Health Professional Eligibility -(Items 81000 to 81010)**

### **Eligible allied health professionals**

Items 81000, 81005 and 81010 can only be claimed for services provided by psychologists, social workers and mental health nurses who meet the following specific eligibility requirements, and are registered with the Department of Human Services.

To be eligible to provide services using MBS Item 81000, a psychologist must hold general registration in the health profession of psychology under the applicable law in force in the State or Territory in which the service is provided and be certified by the Australian Psychological Society as appropriately trained in non-directive pregnancy counselling.

To be eligible to provide services using MBS Item 81005, a social worker must be a 'Member' of the Australian Association of Social Workers (AASW), be certified by AASW either as meeting the standards for mental health set out in the document published by AASW titled 'Practice Standards for Mental Health Social Workers 2014' as in force on 25 September 2014 or as an Accredited Social Worker, and have completed appropriate non-directive pregnancy counselling training;

To be eligible to provide services using MBS Item 81010, a mental health nurse must be a 'Credentialled Mental Health Nurse' as certified by the Australian College of Mental Health Nurses, and have completed appropriate non-directive pregnancy counselling training.

### **Registering with the Department of Human Services**

Advice about registering with the Department of Human Services to provide non-directive pregnancy support counselling services using items 81000-81010 inclusive is available from the Department of Human Services provider inquiry line on 132 150.

### **Further information**

A copy of the Medicare Allied Health Supplement can be accessed from [www.health.gov.au/mbsonline](http://www.health.gov.au/mbsonline). The Supplement includes more information about Medicare, including how to make a claim from Medicare.

Further information is also available for providers from the Department of Human Services provider inquiry line on 132 150.

## **MN.9.1 Group Allied Health Services (Items 81100 to 81125) for People with Type 2 Diabetes - Eligible Patients**

MBS items (81100 to 81125) are available for group allied health services for patients with type 2 diabetes. These items apply to services provided by eligible diabetes educators, exercise physiologists and dietitians, on referral from a GP or medical practitioner.

Services available under these items are in addition to the five individual allied health services available to patients each calendar year (refer to items 10950 to 10970).

To be eligible for these services, the patient must have in place one of the following:

- a GP Management Plan (GPMP) (GP item 721 or medical practitioner item 229); OR
- for a resident of a residential aged care facility, the GP or medical practitioner must have contributed to, or contributed to a review of, a care plan prepared for them by the facility (GP item 731 or medical practitioner item 232). [Note: Generally, residents of an aged care facility rely on the facility for assistance to manage their type 2 diabetes. Therefore, the resident may not need to be referred for group allied health services under these items, as the self-management approach offered in group services may not be appropriate.]; OR

- a Health Care Home shared care plan.

Unlike the individual allied health services under items 10950 to 10970, there is no additional requirement for a Team Care Arrangement (GP item 723 or medical practitioner item 230) in order for the patient to be referred for group allied health services.

Once the patient has been referred by their GP or medical practitioner, a diabetes educator, exercise physiologist or dietitian will conduct an individual assessment (under items 81100, 81110 or 81120). A maximum of one (1) assessment service is available per calendar year. After assessment, the patient may receive up to eight (8) group services per calendar year from an eligible diabetes educator, exercise physiologist and/or dietitian (under items 81105, 81115 and 81125). A collaborative approach, where diabetes educators, exercise physiologists and dietitians work together to develop group service programs in their local area, is encouraged.

### **MN.9.2 Group Allied Health Services (Items 81100 to 81125) for People with Type 2 Diabetes - GP Referral Requirements**

Patients must be referred by their GP to an eligible allied health professional (diabetes educator, exercise physiologist or dietitian) who will undertake an individual assessment of their suitability for a group services program (under item 81100, 81110 or 81120).

When referring patients, **GPs** must use a referral form that has been issued by the Australian Government Department of Health or a Health Care Home shared care plan or a form that contains all the components of this form. The form issued by the department is available at <http://www.health.gov.au/mbsprimarycareitems> (click on the link for group allied health services).

GPs are also encouraged to provide a copy of the relevant part of the patient's care plan to the allied health professional.

#### **Health Care Home shared care plan**

A Health Care Home shared care plan means a written plan that is prepared for a patient enrolled at a Health Care Home trial site; is prepared by a medical practitioner (including a general practitioner but not including a specialist or consultant physician) who is leading the patient's care at the Health Care Home trial site; and includes: an outline of the patient's agreed current and long-term goals; the person or people responsible for each activity; arrangements to review the plan by a day mentioned in the plan; and if authorised by the patient, arrangements for the transfer of information between the medical practitioner and other health care providers supporting patient care about the patient's condition or conditions and treatment.

### **MN.9.3 Group Allied Health Services (Items 81100 to 81125) for People with Type 2 Diabetes - Eligible Allied Health Professionals**

Items 81100 to 81125 only apply to services provided by eligible diabetes educators, exercise physiologists and dietitians who are registered with the Department of Human Services. If providers are already registered with the Department of Human Services to use item 10951, 10953 or 10954, they do not need to register separately for items 81100 to 81125. Eligibility criteria are as follows:

**Diabetes educator:** must be a 'credentialed diabetes educator' (CDE) as credentialed by the Australian Diabetes Educators Association (ADEA).

**Exercise physiologist:** must be an 'accredited exercise physiologist' as accredited by Exercise and Sports Science Australia (ESSA).

**Dietitian:** must be an 'accredited practising dietitian' as recognised by the Dietitians Association of Australia (DAA).

The Department of Human Services registration forms may be obtained from the Department of Human Services on 132 150 or at the [Department of Human Services' website](#).

#### **MN.9.4 Assessment for Group Allied Health Services (Items 81100, 81110 and 81120) for People with Type 2 Diabetes**

An assessment service is provided by a diabetes educator (item 81100), an exercise physiologist (item 81110) or a dietitian (item 81120), on referral from a GP.

The purpose of this service is to undertake an individual assessment and determine the patient's suitability for a group services program. It involves taking a comprehensive patient history and identification of individual goals. This may also provide an opportunity to identify any patient who is likely to be unsuitable for group services.

#### **Number of services per year**

Patients are eligible for a maximum of one assessment for group services (item 81100 **or** 81110 **or** 81120) per calendar year. If more than one assessment service is provided in a calendar year, the subsequent service/s will not attract a Medicare rebate and the MBS Safety Net arrangements will not apply to costs incurred by the patient for the service/s.

If there is any doubt about a patient's eligibility for items 81100, 81110 or 81120, the allied health professional should contact the Department of Human Services to confirm the number of assessment services already claimed by the patient in the calendar year. Allied health professionals can call the Department of Human Services on 132 150 to check this information.

#### **Referral form**

The GP must refer the patient using the *Referral form for group allied health services under Medicare for patients with type 2 diabetes* or a Health Care Home shared care plan or a form that contains all the components of this form. The form issued by the department is available at <http://www.health.gov.au/mbsprimarycareitems> (click on the link for group allied health services).

The allied health professional undertaking the assessment service will need to complete Part B of this form, and the patient will then need to present this form to the provider/s of group services.

#### **Health Care Home shared care plan**

A Health Care Home shared care plan means a written plan that is prepared for a patient enrolled at a Health Care Home trial site; is prepared by a medical practitioner (including a general practitioner but not including a specialist or consultant physician) who is leading the patient's care at the Health Care Home trial site; and includes: an outline of the patient's agreed current and long-term goals; the person or people responsible for each activity; arrangements to review the plan by a day mentioned in the plan; and if authorised by the patient, arrangements for the transfer of information between the medical practitioner and other health care providers supporting patient care about the patient's condition or conditions and treatment.

#### **Length of service**

This service must be of at least 45 minutes duration and provided to an individual patient. The allied health professional must personally attend the patient.

#### **Reporting requirements**

On completion of the assessment service, the allied health professional must provide a written report back to the referring GP outlining the assessment undertaken, whether the patient is suitable for group services and, if so, the nature of the group services to be delivered.

#### **MN.9.5 Group Allied Health Services (Items 81105, 81115 and 81125) for People with Type 2 Diabetes - Service Requirements and Referral Forms**

These services are provided in a group setting to assist with the management of type 2 diabetes.

### **Number of services per year**

Patients are eligible for up to eight group allied health services in total (items 81105, 81115 and 81125 inclusive) per calendar year. Each separate group service must be provided to the patient by only one type of allied health professional (i.e. by a diabetes educator, or by an exercise physiologist or by a dietitian). However, the overall group services program provided for the patient could be comprised of one type of service only (e.g. eight diabetes education services) or a combination of services (e.g. three diabetes education services, three dietitian services and two exercise physiology services). An eligible allied health professional with more than one Medicare provider number (e.g. for the provision of diabetes education and dietetics) may provide separate services under each of these provider numbers.

Group allied health service providers are strongly encouraged to deliver multidisciplinary group services programs that allow patients to benefit from a range of interventions designed to assist in the management of their type 2 diabetes.

Where a patient receives more than the limit of eight group services in a calendar year, the additional service/s will not attract a Medicare benefit and the MBS Safety Net arrangements will not apply to costs incurred by the patient for the service/s.

If there is any doubt about a patient's eligibility for group services, the allied health professional should contact the Department of Human Services to confirm the number of group services already claimed by the patient in the calendar year. Allied health professionals can call the Department of Human Services on 132 150 to check this information.

### **Multiple services on the same day**

Where clinically relevant, up to two group services may be provided consecutively on the same day by the same allied health professional.

### **Referral form**

The allied health professional/s undertaking the group services will need to receive the *Referral form for group allied health services under Medicare for patients with type 2 diabetes issued by the Department of Health* or the Health Care Home shared care plan or a form that contains all the components of this form, with Part B completed by the provider who has undertaken the assessment service. The form issued by the department is available at <http://www.health.gov.au/mbsprimarycareitems> (click on the link for group allied health services).

### **Health Care Home shared care plan**

A Health Care Home shared care plan means a written plan that is prepared for a patient enrolled at a Health Care Home trial site; is prepared by a medical practitioner (including a general practitioner but not including a specialist or consultant physician) who is leading the patient's care at the Health Care Home trial site; and includes: an outline of the patient's agreed current and long-term goals; the person or people responsible for each activity; arrangements to review the plan by a day mentioned in the plan; and if authorised by the patient, arrangements for the transfer of information between the medical practitioner and other health care providers supporting patient care about the patient's condition or conditions and treatment.

### **Group size**

The service must be provided to a person who is part of a group of between two and 12 persons.

### **Length of service**

Each group service must be of at least 60 minutes duration.

### **Reporting requirements**

On completion of the group services program, each allied health professional must provide, or contribute to, a written report back to the referring GP in respect of each patient. The report should describe the group services provided for the patient and indicate the outcomes achieved. While each allied health professional is required to provide feedback to the GP in relation to the group services that they provide to the patient, allied health professionals involved in the provision of a multidisciplinary program are encouraged to combine feedback into a single report to the referring GP.

### **MN.9.6 Group Allied Health Services (Items 81100 to 81125) for People with Type 2 Diabetes - Additional Requirements**

Retention of Referral Form for the Department of Human Services Audit Purposes

It is recommended that Allied health professionals retain a copy of the referral form for 24 months from the date the service was rendered (for the Department of Human Services auditing purposes).

#### **Publicly funded services**

Items 81100 - 81125 do not apply for services that are provided by any other Commonwealth or state-funded services or provided to an admitted patient of a hospital. However, where an exemption under subsection 19(2) of the *Health Insurance Act 1973* has been granted to an Aboriginal Community Controlled Health Service or a state/territory government health clinic, items 81100-81125 can be claimed for services provided by eligible allied health professionals salaried by, or contracted to, service or health clinic. All requirements of the relevant item must be met, including registration of the allied health professional with the Department of Human Services. These services must also be bulk billed.

#### **Private health insurance**

Patients need to decide if they will use Medicare or their private health insurance ancillary cover to pay for these services. Patients cannot use their private health insurance ancillary cover to 'top up' the Medicare rebate paid.

#### **Out-of-pocket expenses and Medicare Safety Net**

Allied health professionals are free to determine their own fees for the professional service. Charges in excess of the Medicare benefit for the allied health items are the responsibility of the patient. However, such out of pocket costs will count toward the Medicare Safety Net for that patient.

### **MN.9.7 Group Allied Health Services (Items 81100 to 81125) for People with Type 2 Diabetes - Further Information**

Further information about these items is available on the Department of Health's website at [www.health.gov.au/mbsprimarycareitems](http://www.health.gov.au/mbsprimarycareitems)

### **MN.10.1 Provision of Autism, Pervasive Developmental Disorder or Disability Services by Allied Health Professionals - (Items 82000 to 82035) Eligible patients**

MBS items 82000 to 82035 provide Medicare-rebateable allied health services to children with autism or any other pervasive developmental disorder (PDD) through the Helping Children with Autism program, and to children with an eligible disability through the Better Start for Children with Disability program. Children with both autism/PDD and an eligible disability can access either program, but not both.

The conditions classified as PDD in 2008 for the purposes of these services were informed by the American Psychiatric Association: Diagnostic and Statistical Manual of Mental Disorders, Fourth Edition (DSM-IV-TR), Washington, DC, American Psychiatric Association, 2000.

'Eligible disabilities' for the purpose of these services means any of the following conditions:

- (a) sight impairment that results in vision of less than or equal to 6/18 vision or equivalent field loss in the better eye, with correction.
- (b) hearing impairment that results in:
  - (iii) a hearing loss of 40 decibels or greater in the better ear, across 4 frequencies; or
  - (iv) permanent conductive hearing loss and auditory neuropathy.
- (c) deafblindness
- (d) cerebral palsy
- (e) Down syndrome
- (f) Fragile X syndrome
- (g) Prader-Willi syndrome
- (h) Williams syndrome
- (i) Angelman syndrome
- (j) Kabuki syndrome
- (k) Smith-Magenis syndrome
- (l) CHARGE syndrome
- (m) Cri du Chat syndrome
- (n) Cornelia de Lange syndrome
- (o) microcephaly if a child has:
  - (iii) a head circumference less than the third percentile for age and sex; and
  - (iv) a functional level at or below 2 standard deviations below the mean for age on a standard developmental test, or an IQ score of less than 70 on a standardised test of intelligence.
- (p) Rett's disorder

"standard developmental test" refers to the Bayley Scales of Infant Development or the Griffiths Mental Development Scales; "standardised test of intelligence" means the Wechsler Intelligence Scale for Children (WISC) or the Wechsler Preschool and Primary Scale of Intelligence (WPPSI). It is up to the clinical judgement of the diagnosing practitioner if other tests are appropriate to be used.

#### **Allied health services available under Medicare**

Items are available for **assessment/diagnosis** services, the results of which can contribute to development of a treatment and management plan by the referring medical practitioner, and for **treatment** services.

The **assessment/diagnosis** items (82000, 82005, 82010, 82030) can be accessed when:

- a child with autism/PDD is aged under 13 years and referred by an eligible consultant psychiatrist or paediatrician; or
- a child with an eligible disability is aged under 13 years and referred by a specialist, consultant physician or GP.

The **treatment** items (82015, 82020, 82025 and 82035) can be accessed when:

- A child with autism/PDD is aged under 15 years and a treatment and management plan has been put in place for them before their 13th birthday, and they have been referred by an eligible consultant psychiatrist or paediatrician.
- A child with an eligible disability is aged under 15 years and a treatment and management plan has been put in place for them before their 13th birthday, and they have been referred by a specialist, consultant physician or GP.

The allied health assessment and treatment services can be provided by eligible audiologists, occupational therapists, optometrists, orthoptists, physiotherapists, psychologists and speech pathologists.

#### **Number of assessment services**

Medicare rebates are available for up to four services in total per eligible child, to assist with assessment and diagnosis and development of a treatment plan. The four services may consist of any combination of items 82000, 82005, 82010 and 82030. It is the responsibility of the referring practitioner to allocate these services in keeping with the child's individual needs and to refer the child to appropriate allied health professional(s) accordingly.

These services will not attract a Medicare rebate unless a referral has been made by a consultant psychiatrist (using items 296-370) or paediatrician (using items 110-131) for a child with autism/PDD, or by a specialist or consultant physician (using items 104-131 or 296-370 excluding item 359) or GP (using items 3-51) for a child with a disability.

#### **Number of treatment services**

Medicare rebates are available for up to twenty allied health treatment services in total per eligible child. The twenty services may consist of any combination of items 82015, 82020, 82025 and 82035. It is the responsibility of the referring practitioner to allocate these services in keeping with the child's individual treatment needs and to refer the child to appropriate allied health professional(s) accordingly.

These services will not attract a Medicare rebate unless referral has been made by a consultant psychiatrist (using item 289) or paediatrician (using item 135) for children with autism/PDD, or by a specialist or consultant physician (using item 137) or a GP for disability (using item 139) for children with disability.

#### **Service length and type**

Services under these items must be for the time period specified within the item descriptor. The allied health professional must personally attend the child.

A child may receive up to four Medicare eligible services from an allied health professional on the same day.

It is anticipated that professional attendances at places other than consulting rooms would be provided where treatment in other environments is necessary to achieve therapeutic outcomes.

It is also expected that participating allied health providers will deliver treatment under these items that is consistent with the autism/PDD or disability treatment plan prepared by the medical practitioner, and is in keeping with commonly established autism/PDD or disability interventions as practised by their profession and appropriate for the age and particular needs of the child being treated.

#### **Eligible allied health professionals**

Allied health professionals providing services under these items must be registered with the Department of Human Services. To register with the Department of Human Services to provide these services, an allied health professional must meet the specific eligibility requirements detailed below:

- **Audiologist** must be either a 'Full Member' of the Audiological Society of Australia Inc (ASA), who holds a 'Certificate of Clinical Practice' issued by the ASA; or an 'Ordinary Member - Audiologist' or 'Fellow Audiologist' of the Australian College of Audiology (ACAud).
- **Occupational Therapist** must be registered with the Occupational Therapy Board of Australia.
- **Optometrist** must be registered as an optometrist or optician under a law of a State or an internal Territory that provides for the registration of optometrists or opticians, and be a participating optometrist.
- **Orthoptist** must be registered with the Australian Orthoptic Board and have a Certificate of Currency; and be a member of Orthoptics Australia.
- **Physiotherapist** must be registered with the Physiotherapy Board of Australia.
- **Psychologist** must hold General Registration with the Psychology Board of Australia.
- **Speech Pathologist** must be a 'Practising Member' of Speech Pathology Australia.

In addition to meeting the above mentioned credentialing requirements, it is expected that eligible providers will "self-select" for the autism/PDD and disability items (i.e. possess the skills and experience appropriate for provision of these services and be oriented to work with children with autism/PDD or disability).

### **Referral requirements**

An allied health professional wanting to provide any of the items 82000-82035 must be in receipt of a current referral provided by an eligible medical practitioner. Referrals are only valid when prerequisite MBS services have been provided.

An eligible allied health professional can provide assessment items (82000, 82005, 82010 and 82030) to a child under the Helping Children with Autism program when:

- the child has previously been provided with any MBS service covering items 110 through 131 inclusive by a consultant paediatrician; or
- the child has previously been provided with any MBS service covering items 296 through 370 (excluding item 359) inclusive by a consultant psychiatrist.

An eligible allied health professional can provide assessment items (82000, 82005, 82010 and 82030) to a child under the Better Start for Children with Disability program when:

- the child has previously been provided with any MBS service covering items 104 through 131 inclusive, or items 296 through 370 (excluding item 359) inclusive by a specialist or consultant physician; or
- the child has previously been provided with any MBS service covering items 3 through 51 by a GP.

An eligible allied health professional can provide treatment items (82015-82025 and 82035) to a child under the Helping Children with Autism program when:

- the child has previously been provided with a treatment plan (item 135) by a consultant paediatrician; or
- the child has previously been provided with a treatment plan (item 289) by a consultant psychiatrist.

An eligible allied health professional can provide treatment items (82015-82025 and 82035) to a child under the Better Start for Children with Disability program when:

- the child has previously been provided with a treatment plan (MBS item 137) by a specialist or consultant physician; or
- the child has previously been provided with a treatment plan (MBS item 139) by a GP.

If the referring service has not yet been claimed, the Department of Human Services (DHS) will not be aware of the child's eligibility and Medicare benefits cannot be paid. DHS will be able to confirm whether a relevant MBS service has been claimed and/or the number of allied health services already claimed by the child. Allied health professionals can call the DHS provider line on 132 150. Parents and carers can call the patient information line on 132 011.

It is recommended that allied health professionals retain the referral for 24 months from the date the service was rendered for Medicare auditing purposes.

Referring medical practitioners are not required to use a specific form to refer patients for these services. The referral may be a letter or note to an eligible allied health professional signed and dated by the referring practitioner.

### **Referral validity**

Medicare benefits are available for up to four allied health assessment and diagnosis services and up to twenty allied health treatment services per patient in total.

Patients will require a separate referral for each allied health professional they are referred to and they will also need new referrals for each new course of treatment.

A course of treatment for the allied health treatment services consists of the number of allied health services stated on the child's referral. This enables the referring practitioner to consider a report from the allied health professional(s) about the services provided to the child, and the need for further treatment.

Within the maximum service allocation of twenty services for the treatment items, the allied health professional(s) can provide one or more courses of treatment. Up to 4 services may be provided to the same child on the same day.

### **Reporting requirements**

A written report must be provided to the referring medical practitioner by the allied health professional(s) after having provided the assessment and diagnosis and development of a treatment plan service(s) to the child.

On completion of a course of treatment, the eligible audiologist, occupational therapist, optometrist, orthoptist, physiotherapist, psychologist and speech pathologist must provide a written report to the referring medical practitioner which includes information on:

- treatment provided;
- recommendations on future management of the child's disorder; and
- any advice provided to third parties (e.g. parents, schools).

A written report must also be provided to the referring medical practitioner at the completion of any subsequent course(s) of treatment provided to the child.

### **Further information**

For more information refer to the [MBS online website](#) or the [MBS Primary Care Items](#) information page.

## **MN.11.1 Follow-up Allied Health Services for people of Aboriginal or Torres Strait Islander descent (Items 81300 to 81360)**

### **Eligible Patients**

A person who is of Aboriginal or Torres Strait Islander descent may be referred by their GP for follow-up allied health services under items 81300 to 81360 when the GP has undertaken a health assessment or a Health Care Home shared care plan and identified a need for follow-up allied health services.

These items are similar to the individual allied health items (items 10950 to 10970) available to patients who have a chronic or terminal medical condition and complex care needs and have a GP Management Plan and Team Care Arrangements or a Health Care Home shared care plan prepared by their GP. However items 81300 to 81360 provide an alternative referral pathway for Aboriginal or Torres Strait Islander people to access allied health services. If a patient meets the eligibility criteria for individual allied health services under the Chronic Disease Management items or the Health Care Home shared care plan and for follow-up allied health services, they can access both sets of services and are eligible for up to ten allied health services under Medicare per calendar year.

A practice nurse/Aboriginal and Torres Strait Islander health practitioner item (10987) is also available for Indigenous Australians who have received a health check. This item enables Aboriginal or Torres Strait Islander people to receive follow-up services from a practice nurse or Aboriginal and Torres Strait Islander health practitioner on behalf of a GP. More detail on this item is provided at explanatory note M.12.4 of the Medicare Benefits Schedule.

### **Eligible Allied Health Services**

The following allied health professionals are eligible to provide services under these items:

- Aboriginal and Torres Strait Islander health practitioners
- Aboriginal Health Workers
- Audiologists
- Chiropractors
- Diabetes Educators
- Dietitians
- Exercise Physiologists
- Mental Health Workers
- Occupational Therapists
- Osteopaths
- Physiotherapists
- Podiatrists
- Psychologists
- Speech Pathologists

### **Publicly funded services**

Items 81300 to 81360 do not apply for services that are provided by any Commonwealth or state or territory government funded services or provided to an admitted patient of a hospital. However, where an exemption under subsection 19(2) of the Health Insurance Act 1973 has been granted to an Aboriginal Community Controlled Health Service or state/territory government health clinic, items 81300 to 81360 can be claimed for services provided by eligible allied health professionals salaried by, or contracted to, the service or health clinic. All requirements of the relevant item must be met, including registration of the allied health professional with the Department of Human Services. Medicare services provided under a subsection 19(2) exemption must be bulk billed (i.e. the Medicare rebate is accepted as full payment for services).

### **Number of services per year**

Medicare benefits are available for up to five follow-up allied health services per eligible patient, per calendar year. The five allied health services can be made up of one type of service (e.g. five physiotherapy services) or a combination of different types of services (e.g. one dietetic, two podiatry and two physiotherapy services).

The annual limit of five allied health services per patient under items 81300 to 81360 is in addition to the individual allied health services for patients with a chronic or terminal medical condition and complex care needs (items 10950 to 10970).

### **Checking patient eligibility for items 81300 to 81360**

If there is any doubt about a patient's eligibility, the Department of Human Services will be able to confirm the number of allied health services already claimed by the patient during the calendar year. Allied health professionals can call the Department of Human Services on 132 150 and patients can call the Department of Human Services on 132 011 or alternatively the Indigenous Access Line for the Department of Human Services on 1800 556 955.

### **Service length and type**

Services provided by eligible allied health professionals under these items must meet the specific requirements set out in the item descriptors. These requirements include that:

- the service is of at least 20 minutes duration;
- the service is provided to the person individually (i.e. not as part of a group service) and in person (i.e. the allied health professional must personally attend the patient);
- the person is not an admitted patient of a hospital;
- the allied health professional must provide a written report to the GP; and
- if the patient has private health insurance, he/she cannot use their private health insurance ancillary cover to 'top up' the Medicare rebate paid for these services.

### **Private health insurance**

Patients need to decide if they will use Medicare or their private health insurance ancillary cover to pay for these services. Patients cannot use their private health insurance ancillary cover to 'top up' the Medicare rebate paid for the services.

### **Reporting back to the GP**

Where an allied health professional provides a single service to the patient under a referral, the allied health professional must provide a written report back to the referring GP after that service.

Where an allied health professional provides multiple services to the same patient under a referral, the allied health professional must provide a written report back to the referring GP after the first and last service, or more often if clinically necessary. Written reports should include:

- any investigations, tests, and/or assessments carried out on the patient;
- any treatment provided; and
- future management of the patient's condition or problem.

Allied health professionals are required to retain the referral form 24 months.

### **Out-of-pocket expenses and Medicare safety net**

Allied health professionals can determine their own fees for the professional service, except where the service is provided under a subsection 19(2) exemption. Charges in excess of the Medicare benefit for the allied health items

are the responsibility of the patient. However, such out-of-pocket costs will count toward the Medicare safety net for that patient. Allied health services in excess of five in a calendar year will not attract a Medicare benefit and the safety net arrangements will not apply to costs incurred by the patient for such services.

## **Referral Requirements**

### **Referral form**

For Medicare benefits to be payable, the patient must be referred to an eligible allied health professional by their GP using a referral form that has been issued by the Australian Government Department of Health or a form that contains all the components of this form.

The form issued by the department is available at the [MBS Primary Care Items](#) information page (click on the link for follow-up allied health services).

GPs are encouraged to attach a copy of the relevant part of the patient's care plan to the referral form.

GPs may use one referral form to refer patients for single or multiple services of the same service type (e.g. five dietetic services). If referring a patient for single or multiple services of different service types (e.g. two dietetic services and three podiatry services), a separate referral form will be needed for each service type.

The patient will need to present the referral form to the allied health professional at the first consultation, unless the GP has previously provided it directly to the allied health professional.

Allied health professionals are required to retain the referral form for 2 years from the date the service was rendered (for the Department of Human Services auditing purposes). A copy of the referral form is not required to accompany Medicare claims, and allied health professionals do not need to attach a signed copy of the form to patients' itemised accounts/receipts or assignment of benefit forms.

Completed forms do not have to be sent to the Department of Health.

### **Health Care Home shared care plan**

A Health Care Home shared care plan means a written plan that is prepared for a patient enrolled at a Health Care Home trial site; is prepared by a medical practitioner (including a general practitioner but not including a specialist or consultant physician) who is leading the patient's care at the Health Care Home trial site; and includes: an outline of the patient's agreed current and long-term goals; the person or people responsible for each activity; arrangements to review the plan by a day mentioned in the plan; and if authorised by the patient, arrangements for the transfer of information between the medical practitioner and other health care providers supporting patient care about the patient's condition or conditions and treatment.

### **Referral validity**

A referral is valid for the stated number of services. If all services are not used during the calendar year in which the patient was referred, the unused services can be used in the next calendar year. However, those services will be counted as part of the five rebates for allied health services available to the patient during that calendar year.

When patients have used all of their referred services they will need to obtain a new referral from their GP.

### **Allied health Professional Eligibility**

Items 81300 to 81360 can only be claimed for services provided by eligible allied health professionals who are registered with the Department of Human Services. Allied health professionals already registered with Medicare (e.g. for items 10950 to 10970) do not need to register again to claim these items.

Specific eligibility requirements for allied health professionals providing services under these items are:

**Aboriginal and Torres Strait Islander health practitioners** must be registered with the Aboriginal and Torres Strait Islander Health Practice Board of Australia. Aboriginal and Torres Strait Islander health practitioners may use any of the titles authorised by the Aboriginal and Torres Strait Islander Health Practice Board: Aboriginal health practitioners; Aboriginal and Torres Strait Islander health practitioners; or Torres Strait Islander health practitioners.

**Aboriginal health workers** in a State or Territory other than the Northern Territory must have been awarded either:

- a. a Certificate III in Aboriginal and/or Torres Strait Islander Primary Health Care (or an equivalent or higher qualification) by a registered training organisation; or
- b. a Certificate III in Aboriginal and Torres Strait Islander Health (or an equivalent or higher qualification) by a registered training organisation before 1 July 2012.

Note: Where individuals consider their qualification to be equivalent to or higher than the qualifications listed above, they will need to contact a registered training organisation in their State or Territory to have the qualification assessed as such before they can register with the Department of Human Services. In the Northern Territory, a practitioner must be registered with the Aboriginal and Torres Strait Islander Health Practice Board of Australia.

**Audiologists** must be either a 'Full Member' of the Audiological Society of Australia Inc (ASA), who holds a 'Certificate of Clinical Practice' issued by the ASA; or an 'Ordinary Member - Audiologist' or 'Fellow Audiologist' of the Australian College of Audiology (ACAud).

**Chiropractors** must be registered with the Chiropractic Board of Australia.

**Diabetes educators** must be a Credentialed Diabetes Educator (CDE) as credentialed by the Australian Diabetes Educators Association (ADEA).

**Dietitians** must be an 'Accredited Practising Dietitian' as recognised by the Dietitians Association of Australia (DAA).

**Exercise physiologists** must be an 'Accredited Exercise Physiologist' as accredited by Exercise and Sports Science Australia (ESSA).

**Mental health workers** can include services provided by members of five different allied health professional groups. 'Mental health workers' are drawn from the following:

- psychologists;
- mental health nurses;
- occupational therapists;
- social workers;
- Aboriginal and Torres Strait Islander health practitioners; and
- Aboriginal health workers.

**Psychologists, occupational therapists, Aboriginal and Torres Strait Islander health practitioners and Aboriginal health workers** are eligible in separate categories for these items.

**Mental health nurses** must be a credentialed mental health nurse, as certified by the Australian College of Mental Health Nurses.

Mental health nurses who were registered in the ACT or Tasmania prior to the introduction of the National Registration and Accreditation Scheme (NRAS) on 1 July 2010, will have until 31 December 2010 to be certified by the Australian College of Mental Health Nurses.

**Social workers** must be a 'Member' of the Australian Association of Social Workers (AASW); and be certified by AASW as meeting the standards for mental health set out in the document published by AASW titled 'Practice Standards for Mental Health Social Workers' as in force on 8 November 2008.

**Occupational therapists** must be registered with the Occupational Therapy Board of Australia.

**Osteopaths** must be registered with the Osteopathy Board of Australia.

**Physiotherapists** must be registered with the Physiotherapy Board of Australia.

**Podiatrists** must be registered with the Podiatry Board of Australia.

**Psychologists** must hold general registration in the health profession of psychology under the applicable law in force in the State or Territory in which the service is provided.

**Speech pathologists** must be a 'Practising Member' of Speech Pathology Australia.

### **Registering with the Department of Human Services**

Provider registration forms may be obtained from the Department of Human Services on 132 150 or by visiting the [Department of Human Services](#) website and then searching for "allied health application".

### **Further information**

Further information about these items, including a fact sheet and the referral form, is available on the Department of Health's [MBS Primary Care Items](#) information page. For providers, information is also available from the Department of Human Services provider inquiry line on 132 150. The Indigenous Access Line for the Department of Human Services on 1800 556 955 is also a useful source of information.

### **MN.12.1 Immunisation services provided by an Aboriginal and Torres Strait Islander health practitioner - (Item 10988)**

Item 10988 can only be claimed by a medical practitioner where an immunisation is provided to a patient by an Aboriginal and Torres Strait Islander health practitioner on behalf of the medical practitioner.

Item 10988 can be claimed only once per patient visit, even if more than one vaccine is administered during the same patient visit.

An Aboriginal and Torres Strait Islander health practitioner means a person who has been registered as an Aboriginal and Torres Strait Islander health practitioner by the Aboriginal and Torres Strait Islander Health Practice Board of Australia and meets the Board's registration standards. The Aboriginal and Torres Strait Islander health practitioner must be employed or retained by a general practice, or by a health service that has an exemption to claim Medicare benefits under subsection 19(2) of the Health Insurance Act 1973.

An Aboriginal and Torres Strait Islander health practitioner may use any of the titles authorised by the Aboriginal and Torres Strait Islander Health Practice Board: Aboriginal health practitioner; Aboriginal and Torres Strait Islander health practitioner; or Torres Strait Islander health practitioner.

The Aboriginal and Torres Strait Islander health practitioner must be appropriately qualified and trained to provide immunisations. This includes compliance with any territory requirements.

The medical practitioner under whose supervision the immunisation is provided retains responsibility for the health, safety and clinical outcomes of the patient.

Supervision may include distance supervision where the medical practitioner does not have to be physically present at the time that the service is provided by the Aboriginal and Torres Strait Islander health practitioner, but should be able to be contacted for advice if required.

The immunisation must be performed by the Aboriginal and Torres Strait Islander health practitioner in accordance with the current edition of the Australian Immunisation Handbook and the Central Australian Rural Practitioners Association (CARPA) Standard Treatment Manual.

Immunisation means the administration of a registered vaccine to a patient for any purpose other than as part of a mass immunisation of persons.

A registered vaccine means a vaccine that is included on the Australian Register of Therapeutic Goods. This includes all vaccines on the Australian Standard Vaccination Schedule and vaccines covered in the current edition of the Australian Immunisation Handbook. The following substances cannot be claimed under this item: vaccines used experimentally; homeopathic substances; immunotherapy for allergies (eg de-sensitisation preparations); and other substances that are not vaccines. There may also be territory limitations on the administration of some vaccines, such as those for tuberculosis, yellow fever and Q-fever.

All GPs whether vocationally registered or not are eligible to claim this item. District Medical Officers (DMOs) employed by the Northern Territory Department of Health and Community Services are also eligible to claim this item.

Where the medical practitioner provides a professional attendance to the patient (in addition to the immunisation service provided by the Aboriginal and Torres Strait Islander health practitioner), the medical practitioner may also claim for the professional attendance they provide to the patient.

Item 10991 can also be claimed in conjunction with item 10988 provided the conditions of both items are satisfied.

Related Items: 10988

### **MN.12.2 Wound management services provided by an Aboriginal and Torres Strait Islander health practitioner (item 10989)**

Item 10989 can only be claimed by a medical practitioner where wound management (other than normal aftercare) is provided to a patient by an Aboriginal and Torres Strait Islander health practitioner on behalf of the medical practitioner.

Item 10989 can be claimed only once per patient visit, even if more than one wound is treated during the same patient visit.

An Aboriginal and Torres Strait Islander health practitioner means a person who has been registered as an Aboriginal and Torres Strait Islander health practitioner by the Aboriginal and Torres Strait Islander Health Practice Board of Australia and meets the Board's registration standards. The Aboriginal and Torres Strait Islander health practitioner must be employed or 806 retained by a general practice, or by a health service that has an exemption to claim Medicare benefits under subsection 19(2) of the Health Insurance Act 1973.

An Aboriginal and Torres Strait Islander health practitioner may use any of the titles authorised by the Aboriginal and Torres Strait Islander Health Practice Board: Aboriginal health practitioner; Aboriginal and Torres Strait Islander health practitioner; or Torres Strait Islander health practitioner.

The Aboriginal and Torres Strait Islander health practitioner must be appropriately qualified and trained to treat wounds. This includes compliance with any territory requirements.

The medical practitioner under whose supervision the treatment is provided retains responsibility for the health, safety and clinical outcomes of the patient.

Supervision may include distance supervision where the medical practitioner does not have to be physically present at the time that the service is provided by the Aboriginal and Torres Strait Islander health practitioner, but should be able to be contacted for advice if required.

The medical practitioner must conduct an initial assessment of the patient (including under a distance supervision arrangement if the medical practitioner is not physically present) in order to give instruction in relation to the treatment of the wound.

Where an Aboriginal and Torres Strait Islander health practitioner provides ongoing wound management, the medical practitioner is not required to give instruction or see the patient during each subsequent visit.

**MN.12.3 Follow up service provided by a practice nurse or Aboriginal and Torres Strait Islander health practitioner, on behalf of a Medical Practitioner, for an Indigenous person who has received a health assessment (Item 10987)**

Item 10987 may be claimed by a medical practitioner, where a follow up service is provided by a practice nurse or Aboriginal and Torres Strait Islander health practitioner on behalf of that medical practitioner for an Indigenous person who has received a health check.

All GPs whether vocationally registered or not are eligible to claim this item. District Medical Officers (DMOs) employed by state/territory health Departments are also eligible to claim this item. The term 'GP' is used in these notes as a generic reference to medical practitioners able to claim this item.

Item 10987 does not apply for services that are provided by any other Commonwealth or State funded services. However, where an exemption under subsection 19(2) of the *Health Insurance Act 1973* has been granted to an Aboriginal Community Controlled Health Service or State/Territory Government Health clinic, item 10987 can be claimed for services provided by practice nurses or Aboriginal and Torres Strait Islander health practitioner salaried or contracted to, the Service or Health clinic. All requirements of the item must be met.

Item 10987 will assist Indigenous patients who have received a health check which has identified a need for follow up services which can be provided by a practice nurse or Aboriginal and Torres Strait Islander health practitioner between further consultations with the patient's GP.

Item 10987 may be used to provide:

- Examinations/interventions as indicated by the health check;
- Education regarding medication compliance and associated monitoring;
- Checks on clinical progress and service access;
- Education, monitoring and counselling activities and lifestyle advice;
- Taking a medical history; and
- Prevention advice for chronic conditions, and associated follow up.

Item 10987 may be claimed up to a maximum of 10 times per patient per calendar year.

Item 10987 may be accessed by an Indigenous patient who has received the Aboriginal and Torres Strait Islander Peoples Health Assessment (item 715), which is available to:

- a) children between the ages of 0 and 14 years;
- b) adults between the ages of 15 and 54 years; and
- c) older people over the age of 55 years.

The item can also be accessed by a child who has received a health check as part of the Northern Territory Emergency Response (NTER).

Patients whose condition is unstable/deteriorating should be referred to their GP for further treatment.

A practice nurse means a registered or enrolled nurse who is employed by, or whose services are otherwise retained by a general practice or by a health service that has an exemption to claim Medicare benefits under sub-section 19(2) of the *Health Insurance Act 1973*.

An Aboriginal and Torres Strait Islander health practitioner means a person who has been registered as an Aboriginal and Torres Strait Islander health practitioner by the Aboriginal and Torres Strait Islander Health Practice Board of Australia and meets the Board's registration standards. The Aboriginal and Torres Strait Islander health practitioner must be employed or retained by a general practice, or by a health service that has an exemption to claim Medicare benefits under subsection 19(2) of the Health Insurance Act 1973.

An Aboriginal and Torres Strait Islander health practitioner may use any of the titles authorised by the Aboriginal and Torres Strait Islander Health Practice Board: Aboriginal health practitioner; Aboriginal and Torres Strait Islander health practitioner; or Torres Strait Islander health practitioner.

In all cases, the GP under whose supervision the health check follow-up is being provided retains responsibility for the health, safety and clinical outcomes of the patient. The GP must be satisfied that the practice nurse or Aboriginal and Torres Strait Islander health practitioner is appropriately qualified and trained to provide the relevant follow up for the patient. GPs are advised to consult their insurer concerning indemnity coverage for services provided on their behalf.

General practices where nurses or Aboriginal and Torres Strait Islander health practitioners provide follow up for Indigenous people who have received a health check, should also have a written clinical risk management strategy covering issues like clinical roles, patient follow up and patient consent.

Continuing professional development is recommended for all nurses and an Aboriginal and Torres Strait Islander health practitioners providing follow up services for Indigenous people who have received a health check.

Supervision of the practice nurse/Aboriginal and Torres Strait Islander health practitioner by the GP at a distance is recognised as an acceptable form of supervision. This means that the claiming GP does not have to be physically present at the time the service is provided. However the GP should be able to be contacted if required.

Where the GP and practice nurse/Aboriginal and Torres Strait Islander health practitioner are at the same location, the GP is not required to be present while the health check follow up is undertaken. It is up to the GP to decide whether they need to see the patient. Where the GP has a consultation with the patient, then the GP is entitled to claim a Medicare item for the time and complexity of their personal attendance on the patient. The time the patient spends receiving a service from the practice nurse or Aboriginal and Torres Strait Islander health practitioner is itemised separately under item 10987 and should not be counted as part of the Medicare items claimed for time spent with the GP. Where the practice nurse or Aboriginal and Torres Strait Islander health practitioner provides another service (eg immunisation, cervical screening) on the same day, the GP is able to claim for all practice nurse/Aboriginal and Torres Strait Islander health practitioner services provided.

Item 10990 or 10991 (bulk billing incentives) can be claimed in conjunction with item 10987 provided the conditions of item 10990 or 10991 are satisfied.

#### **MN.12.4 Provision of monitoring and support for a person with a chronic disease by a practice nurse or Aboriginal and Torres Strait Islander health practitioner (item 10997)**

Item 10997 may be claimed by a medical practitioner, where a monitoring and support service for a person with a chronic disease care plan is provided by a practice nurse or Aboriginal and Torres Strait Islander health practitioner on behalf of that medical practitioner.

All GPs whether vocationally registered or not are eligible to claim this item. The term 'GP' is used in these notes as a generic reference to medical practitioners able to claim this item.

Item 10997 does not apply for services that are provided by any other Commonwealth or State funded services. However, where an exemption under subsection 19(2) of the Health Insurance Act 1973 has been granted to an Aboriginal Community Controlled Health Service or State/Territory Government health clinic, item 10997 can be claimed for services provided by practice nurses or Aboriginal and Torres Strait Islander health practitioners salaried by or contracted to, the Service or health clinic. All requirements of the item must be met.

Item 10997 will assist patients who require access to ongoing care, routine treatment and ongoing monitoring and support between the more structured reviews of the care plan by the patient's usual GP.

Item 10997 may be used to provide:

- checks on clinical progress;
- monitoring medication compliance;
- self management advice, and;
- collection of information to support GP/medical practitioner reviews of Care Plans.

The services provided by the practice nurse or Aboriginal and Torres Strait Islander health practitioner should be consistent with the scope of the GP Management Plan, Team Care Arrangements, or Multidisciplinary Care Plan.

Item 10997 may be claimed up to a maximum of 5 times per patient per calendar year.

Item 10997 may only be accessed by a patient with a GP Management Plan, Team Care Arrangements or Multidisciplinary Care Plan (GP items 721, 723, 729, 731, 732 or medical practitioner items 229, 230, 231, 232, 233).

Patients whose condition is unstable/deteriorating should be referred to their GP or medical practitioner for further treatment.

A practice nurse means a registered or enrolled nurse or Nurse Practitioner who is employed by, or whose services are otherwise retained by a general practice.

An Aboriginal and Torres Strait Islander health practitioner means a person who has been registered as an Aboriginal and Torres Strait Islander health practitioner by the Aboriginal and Torres Strait Islander Health Practice Board of Australia and meets the Board's registration standards. The Aboriginal and Torres Strait Islander health practitioner must be employed or retained by a general practice, or by a health service that has an exemption to claim Medicare benefits under subsection 19(2) of the Health Insurance Act 1973.

An Aboriginal and Torres Strait Islander health practitioner may use any of the titles authorised by the Aboriginal and Torres Strait Islander Health Practice Board: Aboriginal health practitioner; Aboriginal and Torres Strait Islander health practitioner; or Torres Strait Islander health practitioner.

In all cases, the GP or medical practitioner under whose supervision the chronic disease monitoring and support is being provided retains responsibility for the health, safety and clinical outcomes of the patient. The GP or medical practitioner must be satisfied that the practice nurse is appropriately qualified and trained to provide chronic disease support and monitoring. GPs and medical practitioners are advised to consult their insurer concerning indemnity coverage for services performed on their behalf.

General practices where nurses or Aboriginal and Torres Strait Islander health practitioner provide chronic disease support and monitoring, should also have a written clinical risk management strategy covering issues like clinical roles, patient follow up and patient consent.

Continuing professional development is recommended for all nurses and Aboriginal and Torres Strait Islander health practitioners providing chronic disease monitoring and support.

Supervision by the GP or medical practitioner at a distance is recognised as an acceptable form of supervision. This means that the claiming GP or medical practitioner does not have to be physically present at the time the service is provided. However, the GP/medical practitioner should be able to be contacted if required.

Where the GP/medical practitioner and the practice nurse/ Aboriginal and Torres Strait Islander health practitioner are at the same location, the GP/medical practitioner is not required to be present while the chronic disease monitoring and support is undertaken. It is up to the GP/medical practitioner to decide whether they need to see the

patient. Where the GP/medical practitioner has a consultation with the patient, then the GP/medical practitioner is entitled to claim a Medicare item for the time and complexity of their personal attendance on the patient. The time the patient spends receiving a service from the practice nurse or Aboriginal and Torres Strait Islander health practitioner is itemised separately under item 10997 and should not be counted as part of the Medicare item claimed for time spent with the GP/medical practitioner. Where the practice nurse or Aboriginal and Torres Strait Islander health practitioner provides another service (eg immunisation) on the same day, the GP/medical practitioner is able to claim for both practice nurse/ Aboriginal and Torres Strait Islander health practitioner items.

Item 10990 or 10991 (bulk billing incentives) can be claimed in conjunction with item 10997 provided the conditions of item 10990 or 10991 are satisfied (see explanatory note M.1).

### **MN.12.5 Telehealth Support Services by Health Professionals**

These notes provide information on the telehealth MBS attendance items for health professionals to provide clinical support to their patients during video consultations with a specialist, consultant physicians and psychiatrists under items 10945 to 10948 in Group A10 which are available for participating optometrists, items 82150, 82151 and 82152 in Group M13 which are available for participating midwives, items 82220 to 82225 in Group M14 for participating nurse practitioners and items 10983 and 10984 in Group M12 for practice nurses, Aboriginal and Torres Strait Islander health practitioners or Aboriginal health workers for services provided for and on behalf of a medical practitioner.

Telehealth patient-end support services can only be claimed where:

- a Medicare eligible specialist service is claimed;
- the service is rendered in Australia; and
- where this is necessary for the provision of the specialist service.

The above patient-end support services provide for attendances in various settings including eligible residential aged care services, eligible Aboriginal Medical Service or Aboriginal Community Controlled Health Service to which a 19(2) direction under the Health Insurance Act 1973 applies.

#### **Clinical indications**

The specialist, consultant physician or psychiatrist must be satisfied that it is clinically appropriate to provide a video consultation to a patient. The decision to provide clinically relevant support to the patient is the responsibility of the specialist, consultant physician or psychiatrist.

Telehealth specialist services can be provided to patients when there is no patient-end support service provided.

#### **Collaborative Consultation**

The practitioner, who provides assistance to the patient where this is necessary for the provision of the specialist service, may seek assistance from a health professional (e.g. a practice nurse, Aboriginal and Torres Strait Islander health practitioner or Aboriginal health worker) but only one item is billable for the patient-end support service. The practitioner must be present during part or all of the consultation in order to bill an appropriate time-tiered MBS item. Any time spent by another health professional called to assist with the consultation may not be counted against the overall time taken to complete the video consultation.

#### **Restrictions**

The MBS telehealth attendance items are not payable for services to an admitted hospital patient (this includes hospital in the home patients). Benefits are not payable for telephone or email consultations. In order to fulfill the item descriptor there must be a visual and audio link between the patient and the remote practitioner. If the remote practitioner is unable to establish both a video and audio link with the patient, a MBS rebate for a telehealth attendance is not payable.

## **Eligible Geographical Areas**

Geographic eligibility for telehealth services funded under Medicare are determined according to the Australian Standard Geographical Classification Remoteness Area (ASGC-RA) classifications. Telehealth Eligible Areas are areas that are outside a Major City (RA1) according to ASGC-RA (RA2-5). Patients and providers are able to check their eligibility by following [the links on the MBS Online website](#).

There is a requirement for the patient and specialist to be located a minimum of 15km apart at the time of the consultation. Minimum distance between specialist and patient video consultations are measured by the most direct (ie least distance) route by road. The patient or the specialist is not permitted to travel to an area outside the minimum 15 km distance in order to claim a video conference.

This rule will not apply to specialist video consultation with patients who are a care recipient in a residential care service; or at an Aboriginal Medical Service or an Aboriginal Community Controlled Health Service for which a direction, made under subsection 19(2) of the Health Insurance Act 1973, as these patients are to receive telehealth services anywhere in Australia.

Telehealth Eligible Service Areas are defined at the [MBS Online website](#).

## **Record Keeping**

Participating telehealth practitioners must keep contemporaneous notes of the consultation including documenting that the service was performed by video conference, the date, time and the people who participated.

Only clinical details recorded at the time of the attendance count towards the time of the consultation. It does not include information added at a later time, such as reports of investigations.

## **Multiple attendances on the same day**

In some situations a patient may receive a telehealth consultation and a face to face consultation by the same or different practitioner on the same day.

Medicare benefits may be paid for more than one video consultation on a patient on the same day by the same practitioner, provided the second (and any following) video consultations are not a continuation of the initial or earlier video consultations. Practitioners will need to provide the times of each consultation on the patient's account or bulk billing voucher.

## **Aftercare Rule**

Video consultations are subject to the same aftercare rules as face to face consultations.

## **Referrals**

The referral procedure for a video consultation is the same as for conventional face-to-face consultations.

## **Technical requirements**

In order to fulfill the item descriptor there must be a visual and audio link between the patient and the remote practitioner. If the remote practitioner is unable to establish both a video and audio link with the patient, a MBS rebate for a telehealth attendance is not payable.

Individual clinicians must be confident that the technology used is able to satisfy the item descriptor and that software and hardware used to deliver a video conference meets the applicable laws for security and privacy.

## **Bulk billing**

Bulk bill incentive items 10990 or 10991 may be billed in conjunction with the MBS medical practitioner telehealth items 812, 827, 829, 867, 868, 869, 873, 876, 881, 885, 892 or GP items 2100, 2122, 2125, 2126, 2137, 2138, 2143, 2147, 2179, 2195, 2199 and 2220.

### **Duration of attendance**

The practitioner attending at the patient end of the video consultation does not need to be present for the entire consultation, only as long as is clinically relevant - this can be established in consultation with the specialist. The MBS fee payable for the supporting practitioner will be determined by the total time spent assisting the patient. This time does not need to be continuous.

### **Aboriginal health workers**

For the purpose of items 10983 and 10984 an Aboriginal health worker means a person who:

- a) holds a Certificate III in Aboriginal or Torres Strait Islander Health Worker Primary Health Care (Clinical) or other appropriate qualifications; or
- b) is registered, and holds a current registration issued by a State or Territory regulatory authority, as an Aboriginal health worker; and
- c) is employed by, or whose services are otherwise retained by a medical practitioner or their practice. This includes health service in relation to which a direction made under subsection 19(2) of the Act applies.

### **Aboriginal and Torres Strait Islander health practitioners**

For the purpose of items 10983 and 10984 an Aboriginal and Torres Strait Islander health practitioner means a person who has been registered as an Aboriginal and Torres Strait Islander health practitioner by the Aboriginal and Torres Strait Islander Health Practice Board of Australia and meets the Board's registration standards. The Aboriginal and Torres Strait Islander health practitioner must be employed or retained by a general practice, or by a health service that has an exemption to claim Medicare benefits under subsection 19(2) of the Health Insurance Act 1973.

An Aboriginal and Torres Strait Islander health practitioner may use any of the titles authorised by the Aboriginal and Torres Strait Islander Health Practice Board: Aboriginal health practitioner; Aboriginal and Torres Strait Islander health practitioner; or Torres Strait Islander health practitioner.

### **Practice Nurse**

For the purpose of items 10983 and 10984 a practice nurse means a registered or enrolled nurse who is employed by, or whose services are otherwise retained by a medical practitioner or their practice. This includes a health service in relation to which a direction made under subsection 19(2) of the Health Insurance Act 1973 applies.

### **MN.13.1 Maternity Services by Participating Midwives - Overview**

As at 1 November 2010, Medicare benefits are payable for antenatal, intrapartum and postnatal care for the first 6 weeks after the delivery, provided by eligible privately practising midwives. Eligible midwives can also request certain pathology and diagnostic imaging services for their patients and refer patients to obstetricians and paediatricians, as the clinical need arises. Each service that attracts a Medicare benefit is identified in the Medicare Benefits Schedule (MBS) by an item number. Each item describes the service that the item covers.

### **MN.13.2 Participating Midwives**

To provide services under Medicare, the legislation requires that a midwife be a participating midwife. A participating midwife is an eligible midwife who provides services in a collaborative arrangement or collaborative arrangements with one or more medical practitioners, of a kind or kinds specified in the regulations.

For more details on collaborative arrangements required under the regulations see Point M.13.5.

### **MN.13.3 Eligible Midwives**

Under the legislation, to be an eligible midwife the midwife must be registered or authorised (however described) under State and Territory law to practice midwifery. The midwife must also demonstrate that he or she has the appropriate qualifications and experience to meet the registration standard developed by the Nursing and Midwifery Board of Australia.

Information regarding eligibility can be found on the Nursing and Midwifery Board of Australia (NMBA) site of the Australian Health Practitioner Regulatory Agency (AHPRA) website at:

<http://www.nursingmidwiferyboard.gov.au/>.

### **MN.13.4 Midwife Professional Indemnity Insurance**

Under National Law, which governs the National Registration and Accreditation Scheme (NRAS), it is a requirement for midwives to have appropriate professional indemnity insurance. All privately practising midwives who wish to provide private midwifery services in must have appropriate professional indemnity insurance from the date the State or Territory in which they were registered enacted National Law.

Further information about professional indemnity insurance for midwives can be found at:

<http://www.health.gov.au/internet/main/publishing.nsf/Content/Maternity+Services+Review-Q&A-PIMI>

### **MN.13.5 Collaborative Arrangements**

To provide Medicare rebate-able services an eligible midwife must have a collaborative arrangement in place that must provide for consultation, referral or transfer of care as clinical needs dictate, to ensure safe, high quality maternity care.

Under the legislation a collaborative arrangement can be with the following "specified" medical practitioners:

1. an obstetrician;
2. a medical practitioner who provides obstetric services; or
3. a medical practitioner employed or engaged by a hospital authority and authorised by the hospital authority to participate in a collaborative arrangement.

The types of practitioners listed 1) and 2) are defined in the Regulations as "obstetric specified medical practitioners".

Collaborative arrangement can be established in the following ways:

- a. where the midwife:
  - i. is employed or engaged by 1 or more obstetric specified medical practitioners or by an entity that employs or engages 1 or more obstetric specified medical practitioners; or
  - ii. has an agreement, in writing, with an entity, other than a hospital, that employs or engages one or more obstetric specified medical practitioners, OR
- b. receiving patients by referral in writing to the midwife for midwifery treatment from a specified medical practitioner, OR
- c. having a signed written agreement with one or more specified medical practitioners, OR
- d. having an arrangement with and acknowledged by at least one specified medical practitioner
  - i. an arrangement requires that the eligible midwife must record the following in the midwife's written records:-
    - i. The name of at least one specified medical practitioner who is, or will be, collaborating with the midwife in the patient's care (a named medical practitioner);
    - ii. That the midwife has told the patient that the midwife will be providing midwifery services to the patient in collaboration with one or more specified medical practitioners;
    - iii. Acknowledgement by a named medical practitioner that the practitioner will be collaborating in the patient's care;

- iv. Plans for the circumstances in which the midwife will do any of the following:
      - i. consult with an obstetric specified medical practitioner;
      - ii. refer the patient to a specified medical practitioner;
      - iii. transfer the patient's care to an obstetric specified medical practitioner.
  - ii. The midwife must also record the following in the midwife's written records:
    - i. Any consultation or other communication between the midwife and an obstetric specified medical practitioner about the patient's care;
    - ii. Any referral of the patient by the midwife to a specified medical practitioner;
    - iii. Any transfer by the midwife of the patient's care to an obstetric specified medical practitioner;
    - iv. When the midwife gives a copy of the hospital booking letter for the patient to a named medical practitioner - acknowledgement that the named medical practitioner has received the copy;
    - v. When the midwife gives a copy of the patient's maternity care plan prepared by the midwife to a named medical practitioner - acknowledgement that the named medical practitioner has received the copy;
    - vi. If the midwife requests diagnostic imaging or pathology services for the patient - when the midwife gives the results of the services to a named medical practitioner
    - vii. That the midwife has given a discharge summary at the end of the midwife's care for the patient to:
      - i. a named medical practitioner; and
      - ii. the patient's usual general practitioner, OR
- e. In relation to a hospital, the midwife is:
  - i. credentialed to provide midwifery services after successfully completing a formal process to assess the midwife's competence, performance and professional suitability; and
  - ii. given clinical privileges for a defined scope of clinical practice for the hospital; and
  - iii. permitted to provide midwifery care to his or her own patients at the hospital.

The legislation requires that collaborative arrangements must be in place at the time the participating midwife provides the service.

- a. Being employed or engaged by a medical practice or an entity or having a written agreement with an entity  
An entity may refer to, for example, a community health centre or a medical practice. For a midwife to have a collaborative arrangement in these circumstances, that midwife must be employed or engaged by or have a written agreement with an entity that also employs or engages 1 or more obstetric specified medical practitioners.  
The terms employ or engage covers both employees and contractors. This will cover an eligible midwife who is employed or engaged by a medical practice so long as that medical practice employs or engages at least one obstetrician or medical practitioner that provides obstetric services.  
There must be at least one obstetric specified medical practitioner employed or engaged by the entity each time the midwife renders a service/performs treatment. However, there is no requirement that the consultation, referral or transfer of care must always be to the medical practitioner(s) employed/engaged by the entity.
- b. Referral from a medical practitioner  
A participating midwife's patient will be able to access the MBS and PBS if a patient has been referred in writing to the midwife by a specified medical practitioner. The arrangement must provide for consultation, referral and transfer of care should the clinical need arise.
- c. Written agreement with a medical practitioner  
A participating midwife's patient will be able to access the MBS and PBS if the nurse practitioner has a written agreement in place with one or more specified medical practitioners. The agreement must be signed by the nurse practitioner and doctor. The arrangement must provide for consultation, referral and transfer of care.
- d. Arrangement with, acknowledged by a medical practitioner  
Evidence of 'acknowledgement' by an obstetrician/GP obstetrician for each woman for whom the midwife provides care is a requirement to ensure that the medical practitioner being named understands and accepts the collaborative arrangement.

The acknowledgement does not have to be obtained on an individual patient basis. This means that, for example, a midwife could obtain an acknowledgement from a specified medical practitioner that he or she will be the collaborating medical practitioner for some or all of the midwife's patients. Arrangements to collaborate could be obtained in a number of ways including signing of documents, email or fax confirmation, or verbal acknowledgement which the midwife documents in their written records.

The midwife is required to record in written records communications in regard to consultations, referral and transfer of the woman's care with the medical practitioner, including information that has been forwarded to the medical practitioner. The midwife is also required to send a copy of all pathology and diagnostic imaging results to a named medical practitioner and to record in the midwife's written records when this occurs (however, there is no requirement that the midwife consult with a medical practitioner in relation to every test result). The purpose of sharing records with the collaborating medical practitioner is to prevent duplication of services and to ensure continuity of care.

e. Collaborative arrangement with a hospital

This type of collaborative arrangement applies where an eligible midwife is credentialed for a hospital, having successfully completed a formal assessment of his or her qualifications, skills, experience and professional standing. It is expected that the assessment would involve an appropriately qualified medical practitioner/s. The midwife is also required to have a defined scope of clinical practice at the hospital and be eligible to treat his or her own patients at the hospital. The hospital must employ or engage at least one obstetric specified medical practitioner. It is expected that the hospital will have a formal written agreement with such midwives, addressing consultation, referral and transfer of care, relevant clinical guidelines and locally determined policies.

### **MN.13.6 Provider Numbers**

To access the Medicare arrangements, eligible midwives will need to apply to the Department of Human Services for a provider number. A separate provider number is required for each location at which a midwife practices.

Advice about registering with the Department of Human Services to provide midwifery services using items 82100 to 82140 inclusive, is available from the Department of Human Services provider inquiry line on 132 150.

Medicare provider application forms for midwives can be downloaded from the following site:

[www.medicareaustralia.gov.au](http://www.medicareaustralia.gov.au)

### **MN.13.7 Schedule Fees and Medicare Benefits**

Each midwifery service is identified in the MBS by an item number. The fee set for any item in the MBS is known as the "Schedule fee". The Schedule fee and Medicare benefit for each service is listed in the item description.

There are two levels of benefit payable for midwifery services:

75% of the Schedule fee for midwifery services rendered to privately insured patients as part of an episode of hospital treatment (other than for public patients); or

85% of the Schedule fee for antenatal and postnatal services rendered to non-admitted patients.

### **MN.13.8 Safety Nets**

Where practitioners charge more than the Medicare benefit, the resultant out-of-pocket costs are the responsibility of the patient.

Assistance is provided to families and singles for out-of-pocket costs for out-of-hospital services through the "original" and "extended" Medicare safety nets:

- the original safety net provides that once the threshold is met, the Medicare benefit increases to 100 per cent of the Schedule fee. The threshold in 2021 is \$481.20; and

- under the Extended Medicare Safety Net (EMSN), once certain thresholds are met, Medicare reimburses 80 per cent of the out-of-pocket costs. However, where the item has an EMSN benefit cap, there is a maximum limit on the EMSN benefit that will be paid for that item.

In 2021, the annual EMSN threshold for concession cardholders and people who receive Family Tax Benefits (Part A) is \$697.00. For all other singles and families the annual threshold is \$2,184.30. These amounts are indexed by Consumer Price Index on 1 January each year.

### **MN.13.9 Safety Net Capping for Midwifery Items**

Midwifery services will be subject to a benefit limit or cap under the EMSN. This is in line with obstetric services which are also subject to a safety net cap. The caps that apply to midwifery services are outlined below:

<b>Item</b>	<b>Maximum increase (\$)</b>
82100	21.70
82105	16.30
82110	21.70
82115	54.10
82130	16.30
82135	21.70
82140	16.30

### **MN.13.10 Where Medicare Benefits are not payable**

Medicare benefits are not available:

- a. for services listed in the MBS, where the service rendered does *not* meet the item description and associated requirements;
- b. where the midwifery service is *not* personally performed by the participating midwife;
- c. for MBS services that are time based, the inclusion of any time period in the consultation periods when the patient is *not* receiving active attention e.g. the time the provider may take to travel to the patient's home or where the patient is resting between blood pressure readings; and
- d. services provided where the patient is not in attendance, such as the issuing of repeat prescriptions;
- e. for telephone attendances;
- f. group sessions; and
- g. The issuing of repeat prescriptions, updating patient notes or telephone consultations.

The fee charged under Medicare must not include the cost of services that are not part of the MBS service being claimed. Medicare benefits are not payable for good or appliances associated with the service, such as bandages or other skin dressings

Unless the Minister otherwise directs, Medicare benefits are not payable where funding has already been provided under an arrangement with the Commonwealth, state or a local governing body.

### **MN.13.11 Billing of Patient**

Where the practitioner bills the patient for medical services rendered, the patient needs a properly itemised account/receipt to enable a claim to be made for Medicare benefits.

Under the provisions of the Health Insurance Act and Regulations, Medicare benefits are not payable in respect of a professional service unless there is recorded on the account setting out the fee for the service or on the receipt for the fee in respect of the service, the following particulars:-

- (a) Patient's name;
- (b) The date on which the professional service was rendered;
- (c) An item number or a description of the professional service sufficient to identify the item that relates to that service, including an indication where the service is rendered to a person while hospital treatment is provided in a hospital "admitted patient" immediately preceding the description of the service or an asterisk "\*" directly after an item number where used;
- (d) The name and practice address and provider number of the participating midwife who actually rendered the service; (where the participating midwife has more than one practice location recorded with the Department of Human Services, the provider number used should be that which is applicable to the practice location at or from which the service was given).

Only one original itemised account should be issued in respect of any one service and any duplicates of accounts or receipts should be clearly marked "duplicate" and should be issued only where the original has been lost. Duplicates should not be issued as a routine system for "accounts rendered".

#### **MN.13.12 Assignment of Benefits (Direct-Billing) Arrangements**

Under the Health Insurance Act the Assignment of Benefit (direct-billing) facility for professional services is available to all persons in Australia who are eligible for benefit under the Medicare program. This facility is NOT confined to pensioners or people in special need.

If a participating midwife direct-bills, the participating midwife undertakes to accept the relevant Medicare benefit as full payment for the service. Additional charges for that service (irrespective of the purpose or title of the charge) cannot be raised against the patient. Under these arrangements:-

- The patient's Medicare card number must be quoted on all direct-bill forms for that patient.
- The basic forms provided are loose leaf to enable the patient details to be imprinted from the Medicare card.
- The forms include information required by Regulations under Subsection 19(6) of the Health Insurance Act.
- The practitioner must include the particulars relating to the professional service out on the assignment form before the patient signs the form and ensure that the patient to receive a copy of the form as soon as practicable after the patient signs it.
- Where a patient is unable to sign the assignment form the signature of the patient's parent, guardian or other responsible person (other than the practitioner, practitioner's staff, hospital proprietor, hospital staff, residential aged care facility proprietor or residential aged care facility staff) is acceptable. The reason the patient is unable to sign should also be stated.

The administration of the direct-billing arrangements under Medicare as well as the payment of Medicare benefits on patient claims is the responsibility of **the Department of Human Services**. Any enquiries in regard to these matters should therefore be directed to Medicare offices or enquiry points.

#### **MN.13.13 Assignment of Benefit Forms**

Participating midwives wishing to direct-bill are required to use a specific form available from the Department of Human Services. This stationary is available from the Department of Human Services. Note that these forms are approved forms under the Health Insurance Act, and no other forms can be used to assign benefits without the approval of the Department of Human Services. Further information about direct-billing stationary can be obtained by telephoning **132150**.

### **MN.13.14 Time Limits Applicable to Lodgement of Claims for Assigned Benefits**

A time limit of two years applies to the lodgement of claims with Medicare under the direct-billing (assignment of benefit) arrangements. This means that Medicare benefits are not payable for any service where the service was rendered more than two years earlier than the date the claim was lodged with Medicare.

Provision exists whereby in certain circumstances (e.g. hardship cases), the Minister may waive the time limits. Special forms for this purpose are available, if required, from the processing centre to which assigned claims are directed.

### **MN.13.15 Overview of the Maternity Items**

Antenatal, intrapartum and postnatal care provided by participating midwives are covered by MBS items 82100, 82105, 82110, 82115, 82120, 82125, 82130, 82135, 82140. These items cover nine specific types of service that allow the participating midwife to:

- undertake an initial antenatal attendance of more than 40 minutes duration (item 82100)
- provide a short antenatal attendance of up to 40 minutes duration (item 82105)
- provide a long antenatal attendance of more than 40 minutes duration (item 82110);
- make an assessment of and prepare a maternity care plan for a woman across a pregnancy that has progressed beyond 20 weeks (item 82115);
- undertake management of a confinement for up to 12 hours, including delivery (item 82120);
- undertake management of a confinement in excess of 12 hours including delivery (item 82125);
- provide a short postnatal attendance of up to 40 minutes duration (item 82130);
- provide long postnatal attendance of at least 40 minutes duration (item 82135); and
- provide a comprehensive postnatal check to a woman six weeks after the birth of her baby (item 82140).

### **MN.13.16 Maternity Services Attracting Medicare Rebates**

Medicare Benefits are only payable for clinically relevant services. *Clinically relevant* in relation to midwifery care means a service generally accepted by the midwifery profession as necessary to the appropriate treatment of the patient's clinical condition.

Medicare benefits are only payable where the participating midwife provides care to not more than one patient on the one occasion.

#### **Antenatal Care**

##### **Eligible maternity care plan service**

There is one MBS item available for eligible midwife practitioners to undertake a comprehensive assessment of and prepare a written maternity care plan for a woman, who is not an admitted patient of a hospital, across a pregnancy that has progressed beyond 20 weeks. It is expected that the care plan would be agreed with the woman and detail such things as agreed expectation, health problems and care needs and appropriate referrals, medication and diagnostic tests.

##### **Number of services**

Only one (1) midwifery care plan is payable in any pregnancy.

##### **Antenatal Attendances**

Medicare benefits are payable for an antenatal service where a midwife provides a clinically relevant service in respect of a miscarriage. Medicare benefits are not payable for an antenatal attendance associated with the confinement. The confinement items 82120 and 82125 include all associated attendances.

Any clinically relevant indication that requires an antenatal attendance by a midwife on an admitted patient in hospital, but that is not associated with the confinement, will attract a Medicare benefit.

### **Number of services**

Only one (1) initial antenatal attendance under item 82100 is payable in any pregnancy.

There is no limit attached to long and short antenatal attendances by a participating midwife. However, only clinically relevant attendances should be itemised under Medicare and services provided by participating midwives will be subject to Medicare Audit and Professional Review Processes.

### **Management of Confinement**

The MBS includes two items for management of confinement by a participating midwife; 82120 for a confinement of up to 12 hours, and 82125 for a confinement where labour is in excess of 12 hours, and the woman's care has been transferred to another participating midwife.

Medicare benefits are payable under items 82120 and 82125 whether or not the participating midwife undertakes the delivery i.e. including where the woman's care is escalated to an obstetrician during labour or for the delivery.

Medicare benefits are only payable where the service is provided to a woman who is an admitted patient of a hospital, including a hospital birthing centre. For Medicare benefit purposes a confinement is taken to commence when the participating midwife attends a patient that is in labour and who has been admitted to the hospital for confinement and delivery. The time period for these items is the period for which the midwife is in exclusive and continuous attendance on the woman for labour, and delivery where performed.

Medicare benefits are only payable for management of confinement where the participating midwife undertaking the service has provided the patient's antenatal care or who is a member of a practice that provided the patient's antenatal care.

It is not intended that these items be claimed routinely by midwives who do not intend to undertake the delivery i.e. where the midwife has arranged beforehand for a medical practitioner to undertake the delivery. Where the midwife does not undertake the delivery it is because:

- care was transferred to a second midwife for management of labour which had exceeded 12 hours; or
- there was a clinical need to escalate care to an obstetrician or medical practitioner who provides obstetric services; or
- the patient's care was transferred from the first midwife to another participating midwife in exceptional circumstances.

### **Number of services**

Only one (1) confinement item 82120 is payable in any pregnancy, except where exceptional circumstances have required the patient's care to be transferred from the first midwife to another participating midwife. In these circumstances, both midwives may bill an item 82120 service.

Medicare rebates are only payable for (1) confinement item 82125.

### **Postnatal Care**

In addition to the long and short antenatal attendance items for postnatal care in the first 6 weeks post delivery the MBS provides for a 6 week postnatal check, after which the woman would be referred back to her usual GP.

## **Number of services**

Only one (1) postnatal check by a participating midwife is payable in any pregnancy.

There is no limit attached to long and short postnatal attendances by a participating midwife. However, only clinically relevant attendances should be itemised under Medicare and services provided by participating midwives will be subject to Medicare Audit and Professional Review Processes.

## **MN.13.17 Conditions Governing the Provision and Claiming of Items**

### **Service length and type**

Services under these items must be for the time period specified within the item descriptor.

Professional attendance for MBS items 82100, 82105, 82110, 82115, 82130, 82135, 82140 may be provided in an appropriate setting that includes but is not limited to: the woman's home, a midwifery group practice, a midwife practitioner's rooms or a medical practice.

## **MN.13.18 Referral Requirements**

A participating midwife will be able to refer women to specialist obstetricians and paediatricians as clinical services dictate.

This measure does not include referral by a midwife for allied health care. If a participating midwife refers a patient to an allied health practitioner, no benefits would be payable for that service.

Medicare benefits are not payable specifically for services provided by a lactation consultant at this time. Medicare benefits would be payable for breast feeding support provide as part of the postnatal care by the participating midwife.

A referral is valid for 12 months to cover the confinement (antenatal, birthing and postnatal care for 6 weeks post delivery). Should there be a new pregnancy in that period, a new referral will be required.

A new pregnancy represents a new episode of care.

A referral to a specialist must be in writing in the form of a letter or a note to the specialist and must be signed and dated by the referring midwife. The referral must contain any information relevant to the patient and the specialist must have received the referral on or prior to providing a specialist consultation.

If a specialist provides a consultation without a referral, the specialist's consultation would not attract Medicare benefits at the specialist rate.

There are exemptions from this requirement in an emergency if the specialist considers the patient's condition requires immediate attention without a referral. In that situation, the specialist is taken to be the referring practitioner.

If a referral is lost, stolen or destroyed, the midwife would need to provide a replacement referral as soon as is practicable after the service is provided.

If the woman is a privately admitted patient of a hospital a letter or note is not required. The referring midwife would make a notation in the woman's hospital, which he or she would sign, approving the referral.

A referral is not required to transfer a woman's care during the intra-partum period under items 16527 and 16528. The midwife would make a signed notation in the woman's clinical record approving the transfer of care.

A referral is not required to refer the woman back to her GP after the 6 week postnatal period. The midwife would provide a discharge summary to the GP outlining her maternity history and any relevant clinical issues, which would also be recorded on the patient's notes.

**MN.13.19 Requesting Requirements**  
**Pathology Services**

***Determination of Necessity of Service***

The participating midwife requesting a pathology service for a woman must determine that the pathology service is necessary.

***Request for Service***

The service may only be provided in response to a request from the treating practitioner and the request must be in writing (or, if oral, confirmed in writing within fourteen days).

**Pathology Services approved for participating midwives**

FBC (item 65070)	vaginal /anal swab/GBS (69312)* varicella 69384 - 69401 (antibody test) parvo virus 69384 - 69401
Hb (item 65060)	rubella titre syphilis Hep B/C - items 69405, 69408, 69411, 69413 or 69415 HIV
Group and antibodies ( items 65090, 65093, 65096 ) glucose load (items 66545, 66548)	Serum Bilirubin (SBR); 66500
Downs Syndrome/ Spina Bifida (items 66743, 66750, 66751)	Direct Coombs; 65114
eye swab (69303)	Blood glucose level (item 66500)
skin swab (69306)	Cord PH and gases cord (O2 and CO2) (Item 66566)
skin scrapings (69309)	Group and Hold (item 65099)
Chlamydia (item 69316)	Coagulation Studies (items 65129, 65070)
Gonorrhea (item 69317)	Mid stream urine (item 69324)
Cervical screening (items 73070, 73071, 73075, 73076)	HCG (item 73529)

**Diagnostic Imaging Services**

***Determination of Necessity of Service***

The participating midwife requesting a diagnostic imaging service for a woman must determine that the diagnostic imaging service is necessary for the appropriate professional care of the patient.

***Request for Service***

The service may only be provided in response to a request from the treating practitioner, and the request must be in writing, signed and dated.

The request does not have to be in a particular form. However, legislation provides that a request must be in writing and contain sufficient information, in terms that are generally understood by the profession, to clearly identify the item/s of service requested. This includes, where relevant, noting on the request the clinical indication(s) for the requested service. The provision of additional relevant clinical information can often assist the service provider, and enhance the overall service provided to the patient.

It is not necessary that a written request for a diagnostic imaging service be addressed to a particular provider or that, if the request is addressed to a particular provider, the service must be rendered by that provider.

A single request may be used to order a number of diagnostic imaging services. However, all services provided under this request must be rendered within seven days after rendering the first service.

#### **Ultrasound:**

Routine morphology scan (item 55706)	Nuchal Translucency (item 55707)
Early dating scan ( item 55700)	Post 22 weeks scan (item 55718)
Scan at 12-16 weeks (item 55704)	

#### **MN.14.1 Participating Nurse Practitioners Services - Overview**

As at 1 November 2010, Medicare benefits are payable for services provided by privately practising participating nurse practitioners in collaboration with other health care providers. Participating nurse practitioners can also request certain pathology and diagnostic imaging services for their patients and refer patients to specialist, as the clinical need arises. The nurse practitioner services that attract a Medicare benefit are identified in the Medicare Benefits Schedule (MBS) by an item number and the each item describes the service requirements and schedule fee.

#### **MN.14.2 Eligible Nurse Practitioners**

Under the legislation, to be an eligible nurse practitioner the nurse practitioner must be registered or authorised (however described) under State and Territory law. The nurse practitioner must also demonstrate that he or she has the appropriate qualifications and experience to meet the registration standard developed by the Nursing and Midwifery Board of Australia (NMBA).

This standard was developed for the purposes of the National Registration and Accreditation Scheme (NRAS), a single regulation and accreditation scheme for health professionals, including nurse practitioners. Additional information is available at the Australian Health Practitioners Regulation Agency (AHPRA) website at: <http://www.ahpra.gov.au/index.php>

#### **MN.14.3 Provider Numbers**

To access the Medicare arrangements, eligible nurse practitioners will need to apply to the Department of Human Services for a provider number. A separate provider number is required for each location at which a nurse practitioner practices.

Advice about registering with the Department of Human Services to provide nurse practitioner services using items 82200 to 82215 inclusive, is available from the Department of Human Services provider inquiry line on 132 150.

Medicare provider application forms for nurse practitioners can be downloaded from [the Department of Human Services' website](#).

#### **MN.14.4 Participating Nurse Practitioners**

To provide services under Medicare, the legislation requires that a nurse practitioner be a participating nurse practitioner. A participating nurse practitioner is an eligible nurse practitioner who has a Medicare provider number and who provides Medicare services in a collaborative arrangement or collaborative arrangements with one or more medical practitioners, of a kind or kinds specified in the regulations.

#### **MN.14.5 Collaborative Arrangements**

Under the Medicare program collaboration is having arrangements in place with a medical practitioner/s to consult, refer or transfer care as clinical needs dictate, to ensure safe, high quality maternity care. Under Medicare a collaborative arrangement can be with any medical practitioner.

Collaborative arrangement can be established in the following ways:

- a) being employed or engaged by 1 or more specified medical practitioners or by an entity that employs or engages 1 or more specified medical practitioners; OR
- b) receiving patients by referral in writing to the nurse practitioner for treatment from a specified medical practitioner, OR
- c) having a signed written agreement with one or more specified medical practitioners, OR
- d) having an arrangement with and acknowledged by at least one specified medical practitioners. This includes keeping comprehensive notes on all instances of consultation, referral and transfer of care, diagnostic tests requested and the test results and providing the collaborating practitioner/s with those results.

The legislation requires that collaborative arrangements must be in place at the time the participating nurse practitioner provides the service. The legislation requires that for each kind of collaborative arrangement, at least one medical practitioner is needed; it is not possible for the nurse practitioner to have a collaborative arrangement with an entity such as a health service.

- a) Being employed or engaged by a medical practice or an entity

An entity may refer to a hospital or community health centre. For a nurse practitioner to have a collaborative arrangement in these circumstances, that nurse practitioner must be employed or engaged by an entity that also employs or engages 1 or more specified medical practitioners.

The terms employ or engage covers both employees and contractors. This will cover an eligible nurse practitioner who is employed or engaged by a medical practice so long as that medical practice employs or engages at least one medical practitioner.

There must be at least one specified medical practitioner employed or engaged by the entity each time the nurse practitioner renders a service/performs treatment. However, there is no requirement that the consultation, referral or transfer of care must always be to the medical practitioner(s) employed/engaged by the entity.

- b) Referral from a medical practitioner

A participating nurse practitioner's patient will be able to access the MBS and PBS if a patient has been referred in writing to the nurse practitioner by a specified medical practitioner. The arrangement must provide for consultation, referral and transfer of care should the clinical need arise.

- c) Written agreement with a medical practitioner

A nurse practitioner's patient will be able to access the MBS and PBS if the nurse practitioner has a written agreement in place with one or more doctors. The agreement must be signed by the nurse practitioner and a doctor. The arrangement must deal with consultation, referral and transfer to a doctor.

- d) Arrangement with, acknowledged by a medical practitioner.

Evidence of 'acknowledgement' by a medical practitioner for each patient for whom the nurse practitioner provides care is a requirement to ensure that the medical practitioner being named understands and accepts the collaborative arrangement.

The acknowledgement does not have to be obtained on an individual patient basis. This means that, for example, a nurse practitioner could obtain an acknowledgement from a specified medical practitioner that he or she will be the collaborating medical practitioner for some or all of the nurse practitioner's patients. Arrangements to collaborate could be obtained in a number of ways including signing of documents, email or fax confirmation, or verbal acknowledgement which the nurse practitioner documents in their written records.

The nurse practitioner is required to record in written records any communications in regard to consultations, referral and transfer of the patient's care with the medical practitioner, including information that has been forwarded to the medical practitioner. The nurse practitioner is also required to send a copy of all pathology and diagnostic

imaging results to a named medical practitioner and to record in the nurse practitioner's written records when this occurs (however, there is no requirement that the nurse practitioner consult with a medical practitioner in relation to every test result). The purpose of sharing records with the collaborating medical practitioner is to prevent duplication of services and to ensure continuity of care.

Arrangements to collaborate could be obtained in a number of ways including signing of documents, email or fax confirmation, or verbal acknowledgement which the nurse practitioner documents in their written records.

#### **MN.14.6 Schedule Fees and Medicare Benefits**

Each nurse practitioner service is identified in the MBS by an item number. The fee set for any item in the MBS is known as the "Schedule fee". The Schedule fee and Medicare benefit for each service is listed in the item description. The Medicare benefit for nurse practitioner services rendered to non-admitted patients is 85% of the Schedule fee.

#### **MN.14.7 Where Medicare Benefits are not payable**

Medicare benefits are not available:

- a. where the service rendered does not meet the item description and associated requirements;
- b. where the nurse practitioner service is not personally performed by the participating nurse practitioner;
- c. for any time period in the consultation periods when the patient is not receiving active attention e.g. the time the provider may take to travel to the patient's home or where the patient is resting between blood pressure readings;
- d. services provided where the patient is not in attendance, such as the issuing of repeat prescriptions;
- e. for telephone attendances; and
- f. group sessions.

The fee charged under Medicare must not include the cost of services that are not part of the MBS service being claimed. Medicare benefits are not payable for good or appliances associated with the service, such as bandages or other skin dressings.

Unless the Minister otherwise directs, Medicare benefits are not payable where funding has already been provided under an arrangement with the Commonwealth, state or a local governing body.

#### **MN.14.8 Billing of the Patient**

Where the nurse practitioner bills the patient for medical services rendered, the patient needs a properly itemised account/receipt to enable a claim to be made for Medicare benefits.

Under the provisions of the Health Insurance Act and Regulations, Medicare benefits are not payable in respect of a professional service unless there is recorded on the account setting out the fee for the service or on the receipt for the fee in respect of the service, the following particulars:

- (a) Patient's name;
- (b) The date on which the professional service was rendered;
- (c) An item number or a description of the professional service sufficient to identify the item that relates to that service, including an indication where the service is rendered to a person while hospital treatment is provided in a hospital "admitted patient" immediately preceding the description of the service or an asterisk "\*" directly after an item number where used;

(d) The name and practice address and provider number of the participating nurse practitioner who actually rendered the service; (where the participating nurse practitioner has more than one practice location recorded with the Department of Human Services, the provider number used should be that which is applicable to the practice location at or from which the service was given).

Only one original itemised account should be issued in respect of any one service and any duplicates of accounts or receipts should be clearly marked "duplicate" and should be issued only where the original has been lost. Duplicates should not be issued as a routine system for "accounts rendered".

#### **MN.14.9 Assignment of Benefits (Direct-Billing Arrangements)**

Under the Health Insurance Act the Assignment of Benefit (direct billing) facility for professional services is available to all persons in Australia who are eligible for benefit under the Medicare program. This facility is NOT confined to pensioners or people in special need.

If a participating nurse practitioner direct-bills, the participating nurse practitioner undertakes to accept the relevant Medicare benefit as full payment for the service. Additional charges for that service (irrespective of the purpose or title of the charge) cannot be raised against the patient.

Under these arrangements:

The patient's Medicare card number must be quoted on all direct bill forms for that patient.

The basic forms provided are loose leaf to enable the patient details to be imprinted from the Medicare card.

The forms include information required by Regulations under Subsection 19(6) of the Health Insurance Act.

The nurse practitioner must include the particulars relating to the professional service out on the assignment form before the patient signs the form and ensure that the patient to receive a copy of the form as soon as practicable after the patient signs it.

Where a patient is unable to sign the assignment form the signature of the patient's parent, guardian or other responsible person (other than the nurse practitioner, nurse practitioner's staff, hospital proprietor, hospital staff, residential aged care facility proprietor or residential aged care facility staff) is acceptable. The reason the patient is unable to sign should also be stated.

The administration of the direct billing arrangements under Medicare as well as the payment of Medicare benefits on patient claims is the responsibility of the Department of Human Services. Any enquiries in regard to these matters should therefore be directed to Medicare offices or enquiry points.

#### **MN.14.10 Assignment of Benefit Forms**

Participating nurse practitioners wishing to direct-bill are required to use a specific form available from the Department of Human Services. This stationary is available from the Department of Human Services. Note that these forms are approved forms under the Health Insurance Act, and no other forms can be used to assign benefits without the approval of the Department of Human Services. Further information about direct-billing stationary can be obtained by telephoning 132150.

#### **MN.14.11 Time Limits applicable to lodgement of claims for assigned benefits**

A time limit of two years applies to the lodgement of claims with Medicare under the direct billing (assignment of benefit) arrangements. This means that Medicare benefits are not payable for any service where the service was rendered more than two years earlier than the date the claim was lodged with Medicare.

Provision exists whereby in certain circumstances (e.g. hardship cases), the Minister may waive the time limits. Special forms for this purpose are available, if required, from the processing centre to which assigned claims are directed.

#### **MN.14.12 Overview of the Nurse Practitioner items**

Services provided by participating nurse practitioners are covered by MBS items 82200, 82205, 82210, 82215. These items cover four time-tiered specific types of service that allow the participating nurse practitioner to perform a:

professional attendance for an obvious problem, straight forward in nature, with limited examination and management required (82200)

professional attendance for a patient presenting with clinical signs and symptoms with an easily identifiable underlying cause following a short consultation lasting less than 20 minutes duration (item 82205)

professional attendance for a patient presenting with clinical signs and symptoms with no obvious underlying cause requiring a more detailed consultation lasting at least 20 minutes duration (item 82210);

professional attendance for a patient presenting with multiple clinical signs and symptoms with the possibility of multiple causes and outcomes requiring an extensive consultation of at least 40 minutes (item 82215);

#### **MN.14.13 Nurse Practitioner services attracting Medicare rebates**

Medicare Benefits are only payable for clinically relevant services. Clinically relevant in relation to nurse practitioner care means a service generally accepted by the nursing profession as necessary to the appropriate treatment of the patient's clinical condition.

Medicare benefits are only payable where the participating nurse practitioner provides care to not more than one patient on one occasion.

#### **MN.14.14 Conditions governing the provision and claiming of items**

Service length and type

Services under these items must be for the time period specified within the item descriptor.

Professional attendance for MBS items 82200, 82205, 82210, 82215, may be provided in an appropriate setting that includes but is not limited to: the patient's home, a nurse practitioner group practice, a nurse practitioner's rooms or a medical practice.

#### **MN.14.15 Referral requirements**

A participating nurse practitioner will be able to refer private patients to a specialist and consultant physician as clinical services dictate.

This measure does not include referral by a nurse practitioner for allied health care. If a participating nurse practitioner refers a patient to an allied health practitioner, no benefits would be payable for that service provided by the allied health professional.

A referral given by a participating nurse practitioner is valid until 12 months after the first service given in accordance with the referral.

If the referral is lost, stolen or destroyed, the nurse practitioner would need to provide a replacement referral as soon as is practicable after the service is provided.

A referral to a specialist must be in writing in the form of a letter or a note to the specialist and must be signed and dated by the referring nurse practitioner. The referral must contain any information relevant to the patient and the specialist must have received the referral on or prior to providing a specialist consultation.

There are exemptions from this requirement in an emergency if the specialist considers the patient's condition requires immediate attention without a referral. In that situation, the specialist is taken to be the referring practitioner.

## **MN.14.16 Requesting requirements** **Pathology Services**

### **Determination of Necessity of Service**

The participating nurse practitioner requesting a pathology service for a patient must determine that the pathology service is necessary.

### **Request for Service**

The service may only be provided in response to a request from the treating practitioner and the request must be in writing (or, if oral, confirmed in writing within fourteen days).

### **Pathology Services approved for participating nurse practitioners**

Nurse practitioners may request MBS pathology items 65060 - 73810 (inclusive). Requesting pathology services must be within the nurse practitioner's scope of practice.

### **Further information**

For further information about Medicare Benefits Schedule items, please go to the Department of Health's website at [www.health.gov.au/mbsonline](http://www.health.gov.au/mbsonline).

## **Diagnostic Imaging Services**

### **Determination of Necessity of Service**

The participating nurse practitioner requesting a diagnostic imaging service for a patient must determine that the diagnostic imaging service is necessary for the appropriate professional care of the patient.

### **Request for Service**

The service may only be provided in response to a request from the treating nurse practitioner, and the request must be in writing, signed and dated. The legislation provides that a request must be in writing and contain sufficient information, in terms that are generally understood by the profession, to clearly identify the item/s of service requested. This includes, where relevant, noting on the request the clinical indication(s) for the requested service. The provision of additional relevant clinical information can often assist the service provider, and enhance the overall service provided to the patient.

It is not necessary that a written request for a diagnostic imaging service be addressed to a particular provider or that, if the request is addressed to a particular provider, the service must be rendered by that provider.

A single request may be used to order a number of diagnostic imaging services. However, all services provided under this request must be rendered within seven days after rendering the first service.

### **Ultrasound:**

Subgroup 1: General Ultrasound

MBS item: 55036 (abdomen)

MBS items: 55070, 55076 (breast)

Subgroup 4: Urological

MBS item: 55600 (prostate)

Subgroup 5: Obstetric and Gynaecological

MBS item: 55768

Subgroup 6: Musculoskeletal

MBS items: 55800, 55804, 55808, 55812, 55816, 55820, 55824, 55828, 55832, 55836, 55840, 55844, 55848, 55850, 55852

### **X-ray:**

Subgroup 1: Radiographic examination of the extremities

MBS items: 57509, 57515, 57521

subgroup 6: Radiographic examination of the thoracic region

MBS items: 58503 - 58527 (inclusive)

### **MN.15.1 Brain Stem Evoked Response Audiometry - (Item 82300)**

Item 82300 can be claimed for the programming of a cochlear speech processor.

### **MN.15.2 Non-Determinate Audiometry - (Item 82306)**

This refers to audiometry covering those services, one or more, referred to in Items 82309-82318 when not performed under the conditions set out in paragraph M15.3.

### **MN.15.3 Conditions for Audiology Services - (Items 82309 to 82318)**

A service specified in Items 82309 to 82318 shall be taken to be a service for the purposes of payment of benefits if, and only if, it is rendered:

- (a) in conditions that allow the establishment of determinate thresholds;
- (b) in a sound attenuated environment with background noise conditions that comply with Australian Standard AS/NZS 1269.3-2005; and
- (c) using calibrated equipment that complies with Australian Standard AS IEC 60645.1-22002, ASIEC60645.2-2002 and AS IEC 60645.3-2002.

### **MN.15.4 Oto-Acoustic Emission Audiometry - (Item 82332)**

Medicare benefits are not payable under Item 82332 for routine screening of infants. The equipment used to provide this service must be capable of displaying the recorded emission and not just a pass/fail indicator.

### **MN.15.5 Provision of Diagnostic Audiology Services by Audiologists - (Items 82300 to 82332)** **OVERVIEW**

The diagnostic audiology services available through MBS items 82300 to 82332 enable an eligible audiologist to perform diagnostic tests upon written request from an Ear, Nose and Throat (ENT) specialist (a specialist in the

specialty of otolaryngology head and neck surgery); or for some services, a written request from a neurologist (a specialist or consultant physician in the specialty of neurology).

These diagnostic audiology services assist ENT specialists and neurologists in their medical diagnosis and/or treatment and/or management of ear disease or related disorders. The new diagnostic audiology items supplement the existing Otolaryngology items for services delivered by, or on behalf of medical practitioners (MBS items 11300 to 11339, excluding 11304).

### **Requesting arrangements**

Medicare benefits are payable only under the following circumstances:

- For items 82300 and 82306, the written request must be made by an eligible practitioner who is a specialist in the specialty of otolaryngology head and neck surgery;
- For items 82309 to 82332, the written request must be made by an eligible practitioner who is a specialist in the specialty of otolaryngology head and neck surgery or a specialist or consultant physician in the specialty of neurology.

The written request must be in writing and must contain:

- (a) the date of the request; and
- (b) the name of the eligible practitioner who requested the service and either the address of his or her place of practice or the provider number in respect of his or her place of practice; and
- (c) a description of the service which provides sufficient information to identify the service as relating to a particular item (but need not specify the item number).

Written requests should, where possible, note the clinical indication/s for the requested service/s.

A request may be for the performance of more than one diagnostic audiology service making up a single audiological assessment, but cannot be for more than one audiological assessment. This means that for Medicare benefits to be payable, any re-evaluation of the patient should be made at the discretion of the ENT specialist or neurologist through a separate request.

Audiologists do not have the discretion to self-determine diagnostic tests under items 82300 to 82332. If a written request is incomplete or requires clarification, the audiologist should contact the requesting ENT specialist or neurologist for further information. If an audiologist considers that additional tests may be necessary, the audiologist should contact the requesting ENT specialist or neurologist to discuss the need and if the requesting practitioner determines that additional tests are necessary, an amended or separate written request must be arranged.

It is recommended that audiologists retain the written request for 24 months from the date the service was rendered (for Medicare auditing purposes). A copy of the written request is not required to accompany Medicare claims or be attached to patients' itemised accounts/receipts or assignment of benefit forms.

### **Eligibility requirements for audiologists**

The diagnostic audiology items (82300 to 82332) can only be claimed by audiologists who are registered with the Department of Human Services. To be eligible to register with the Department of Human Services to provide these services, audiologists must meet the following requirements:

Audiologists must be either:

- a 'Full Member' of the Audiological Society of Australia Inc (ASA), who holds a 'Certificate of Clinical Practice' issued by the ASA; or
- an 'Ordinary Member - Audiologist' or 'Fellow Audiologist' of the Australian College of Audiology (ACAud).

## **Registering with the Department of Human Services**

Provider registration forms may be obtained from Medicare on 132 150 or at [www.humanservices.gov.au](http://www.humanservices.gov.au).

## **Changes to provider details**

Audiologists must notify the Department of Human Services in writing of all changes to mailing details to ensure that they continue to receive information about Medicare services.

## **Reporting requirements**

Where an audiologist provides diagnostic audiology service/s to the patient under a written request, they must provide a copy of the results of the service/s performed together with relevant written comments on those results to the requesting ENT specialist or neurologist. It is recommended that these be provided within 7 days of the date the service was performed.

## **Out-of-pocket expenses and Medicare Safety Net**

Audiologists can determine their own fees for the professional service. Charges in excess of the Medicare benefit are the responsibility of the patient. However, out-of-pocket costs will count toward the Medicare Safety Net for that patient.

## **Publicly funded services**

Items 82300 to 82332 do not apply for services that are provided by any Commonwealth or state funded services or provided to an admitted patient of a hospital. However, where an exemption under subsection 19(2) of the Health Insurance Act 1973 has been granted to an Aboriginal Community Controlled Health Service or state/territory government health clinic, items 82300 to 82332 can be claimed for services provided by audiologists salaried by, or contracted to, the service or health clinic. All requirements of the relevant item must be met, including registration of the audiologist with the Department of Human Services. Medicare services provided under a subsection 19(2) exemption must be bulk billed (i.e. the Medicare rebate is accepted as full payment for services).

## **Private health insurance**

Patients need to decide if they will use Medicare or their private health insurance ancillary cover to pay for these services. Patients cannot use their private health insurance ancillary cover to 'top up' the Medicare rebate paid for the services.

## **MN.16.1 Eating Disorders General Explanatory Notes**

### **Eating Disorders General Explanatory Notes (items 82350-82383)**

This note provides a general overview of the full range of 1 November 2019 eating disorders items and supporting information more specifically on the on the Category 8 – Miscellaneous Services: Group M16 – Eating disorders services (82350-82383).

It includes an overview of the items, model of care, patient eligibility, and links to other guidance and resources.

## **Overview**

*All 1 November 2019 Eating Disorders new items:*

The Eating Disorders items define services for which Medicare rebates are payable where service providers undertake assessment and management of patients with a diagnosis of anorexia nervosa and patients with other specified eating disorder diagnoses who meet the eligibility criteria (see – patient eligibility). It is expected that there will be a multidisciplinary approach to patient management through these items.

The items mean eligible patients are able to receive a Medicare rebate for development of an eating disorders treatment plan by a medical practitioner in general practice (Group A36, subgroup 1), psychiatry or paediatrics (Group A36, subgroup 2). Patients with an eating disorders treatment and management plan (EDP) will be eligible for comprehensive treatment and management services for a 12 month period, including:

- Up to 20 dietetic services under items 10954, 82350 and 82351.
- Up to 40 eating disorder psychological treatment services (EDPT service).
- Review and ongoing management services to ensure that the patient accesses the appropriate level of intervention (Group A36, subgroup 3).

*An EDPT service includes mental health treatment services which are provided by an allied health professional or a medical practitioner in general practice with appropriate mental health training. These treatment services include:*

- Medicare mental health treatment services currently provided to patients under the ‘Better Access to Psychiatrists, Psychologists and General Practitioners through the MBS (‘Better Access’) initiative.
  - This includes medical practitioner items 2721, 2723, 2725, 2727, 283, 285, 286, 287, 371, 372; and
  - This includes allied health items in Groups M6 and M7 of Category 8; and
- new items for EDPT services provided by suitably trained medical practitioners in general practice (items 90271, 90272, 90273, 90274, 90275, 90276, 90277, 90278, 90279, 90280, 90281, 90282)
- new items for EDPT services provided by eligible clinical psychologists (items 82352-82359), eligible psychologists (items 82360-82367), eligible occupational therapists (items 82368-82375) and eligible social workers (items 82376-82383)

*For any particular patient, an eating disorder treatment and management plan expires at the end of a 12 month period following provision of that service. After that period, a patient will require a new EDP to continue accessing EDPT services.*

## **Patient Eligibility**

The eating disorder items are available to eligible patients in the community. These items do not apply to services provided to admitted (in-hospital) patients.

*The referring practitioner is responsible for determining that a patient is eligible for an EDP and therefore EDPT and dietetic services.*

‘Eligible patient’ defines the group of patients who can access the new eating disorder services. There are two cohorts of eligible patients.

1. Patients with a clinical diagnosis of anorexia nervosa; or
2. Patients who meet the eligibility criteria (below), and have a clinical diagnosis of any of the following conditions:
  - i. bulimia nervosa;
  - ii. binge-eating disorder;
  - iii. other specified feeding or eating disorder.

*The eligibility criteria, for a patient, is:*

- a. a person who has been assessed as having an Eating Disorder Examination Questionnaire score of 3 or more; and
- b. the condition is characterised by rapid weight loss, or frequent binge eating or inappropriate compensatory behaviour as manifested by 3 or more occurrences per week; and
- c. a person who has at least two of the following indicators:

- i. clinically underweight with a body weight less than 85% of expected weight where weight loss is directly attributable to the eating disorder;
- ii. current or high risk of medical complications due to eating disorder behaviours and symptoms;
- iii. serious comorbid medical or psychological conditions significantly impacting on medical or psychological health status with impacts on function;
- iv. the person has been admitted to a hospital for an eating disorder in the previous 12 months;
- v. inadequate treatment response to evidence based eating disorder treatment over the past six months despite active and consistent participation.

### **The Eating Disorders Items Stepped Model of Care**

The eating disorder items incorporate a ‘stepped model’ for best practice care for eligible patients with eating disorders that comprise:

- assessment and treatment planning
- provision of and/or referral for appropriate evidence based eating disorder specific treatment services by allied mental health professionals and provision of services by dietitians
- review and ongoing management items to ensure that the patient accesses the appropriate level of intervention.

#### *The Stepped Model*

‘STEP 1’ – PLANNING (trigger eating disorders pathway) 90250-90257 and 90260-90263

An eligible patient receives an eating disorder plan (EDP) developed by a medical practitioner in general practice (items 90250-90257), psychiatry (items 90260-90262) or paediatrics (items 90261-90263).

‘STEP 2’ – COMMENCE INITIAL COURSE OF TREATMENT (psychological & dietetic services)

Once an eligible patient has an EDP in place, the 12 month period commences, and the patient is eligible for an initial course of treatment up to 20 dietetic services and 10 eating disorder psychological treatment (EDPT) services. A patient will be eligible for an additional 30 EDPT services in the 12 month period, subject to reviews from medical practitioners to determine appropriate intensity of treatment.

‘STEP 3’ – CONTINUE ON INITIAL COURSE OF TREATMENT 90264-90269 (managing practitioner review and progress up to 20 EDPT services)

It is expected that the managing practitioner will be reviewing the patient on a regular, ongoing and as required basis. However, a patient must have a review of the EDP (90264-90269), to assess the patient’s progress against the EDP or update the EDP, before they can access more than 10 EDPT services. This is known as the ‘first review’. The first review should be provided by the patient’s managing practitioner, where possible.

‘STEP 4’ FORMAL SPECIALIST AND PRACTITIONER REVIEW 90266-90269 (continue beyond 20 EDPT services)

A patient must have two additional reviews before they can access more than 20 EDPT services. One review (the ‘second review’) must be performed by a medical practitioner in general practice (who is expected to be the managing practitioner), and the other (the ‘third review’) must be performed by a paediatrician (90267 or 90269) or psychiatrist (90266 or 90268). Should both recommend the patient requires more intensive treatment, the patient would be able to access an additional 10 EDPT services in the 12 month period. These reviews are required to determine that the patient has not responded to treatment at the lower intensity levels.

The patient’s managing practitioner should be provided with a copy of the specialist review.

The specialist review by the psychiatrist or paediatrician can occur at any point before 20 EDPT services. The practitioner should refer the patient for specialist review as early in the treatment process as appropriate. If the

practitioner is of the opinion that the patient should receive more than 20 EDPT services, the referral should occur at the first practitioner review (after the first course of treatment) if it has not been initiated earlier.

Practitioners should be aware that the specialist review can be provided via telehealth (90268 and 90269). Where appropriate, provision has been made for practitioner participation on the patient-end of the telehealth consultation.

It is expected that the managing practitioner will be reviewing the patient on a regular, ongoing and as required basis. However, a patient must have a review of the EDP (90264-90269), to assess the patient's progress against the EDP or update the EDP, before they can access the next course of treatment.

‘STEP 5’ ACCESS TO MAXIMUM INTENSITY OF TREATMENT 90266-90269 (continue beyond 30 EDPT services)

To access more than 30 EDPT treatment services in the 12 month period, patients are required to have an additional review (the ‘fourth review’) to ensure the highest intensity of treatment is appropriate. Subject to this review, a patient could access the maximum of 40 EDPT treatment services in a 12 month period. The fourth review should be provided by the patient's managing practitioner, where possible.

#### *An Integrated Team Approach*

A patient's family and/or carers should be involved in the treatment planning and discussions where appropriate. The family can be involved in care options throughout the diagnosis and assessment, and are usually the support unit that help to bridge the gap between initial diagnosis and eating disorder specific treatment.

The National Standards for the safe treatment of eating disorders specify a multi-disciplinary treatment approach that provides coordinated psychological, physical, behavioural, nutritional and functional care to address all aspects of eating disorders. People with eating disorders require integrated inter-professional treatment that is able to work within a framework of shared goals, care plans and client and family information. Frequent communication is required between treatment providers to prevent deterioration in physical and mental health (RANZCP Clinical Guidelines: Hay et al., 2014). Consider regular case conferencing to ensure that the contributing team members are able to work within a shared care plan and with client and carers to achieve best outcomes.

#### **Clinical guidelines and other resources**

##### *Eating Disorders Training*

It is expected that allied health professionals who are providing services under these items have appropriate training, skills and experience in treatment of patients with eating disorders and meet [the national workforce core competencies](#) for the safe and effective identification of and response to eating disorders more information available at [National Eating Disorders Collaboration](#)

##### *Training Services*

Allied health professionals should contact their professional organisation to identify education and training which may assist to practitioners to gain the skills and knowledge to provide services under these items.

The following organisations provide training which may assist practitioners to meet the workforce competency standards:

- The Australia and New Zealand Academy of eating disorders (ANZAED) - National
- InsideOut Institute - National
- The Victorian Centre of Excellence in Eating Disorders (CEED) - VIC
- Queensland Eating Disorder Service (QuEDS) - QLD
- Statewide Eating Disorder Service (SEDS) - SA
- WA Eating Disorders Outreach & Consultation Service (WAEDOCS) – WA

This list is not exhaustive, but has been included to provide examples on the types of training available which may assist practitioners to upskill in this area.

## **MN.16.2 Eating Disorders Dietetic Treatment Services**

### **Eating Disorders Dietetic Treatment Services (82350 and 82351)**

This note provides information on the Category 8 – Miscellaneous Services: Group M16 – Subgroup 1 (82350-82351) and should be read in conjunction with MN.16.1 Eating Disorders General Explanatory Notes.

#### **Eating Disorder Dietetic Treatment Services Overview**

Provision of eating disorder dietetic services by a suitably trained Dietitian (82350 and 82351) are for patients with anorexia nervosa and other patients with complex presentations of diagnosed eating disorders who meet the eligibility requirements and would benefit from a structured approach to the management of their treatment needs in the community setting.

A patient with an EDP plan can access up to 20 dietetic services under items 10954, 82350 and 82351 in a 12 Month Period. For any particular patient, an eating disorder treatment and management plan expires at the end of a 12 month period following provision of that service. After that period, a patient will require a new EDP to continue accessing eating disorders dietetic services.

#### **Provider Eligibility**

In order to provide eating disorder dietetic services, Dietitians must be an 'Accredited Practising Dietitian' as recognised by the Dietitians Association of Australia (DAA).

#### **Checking patient eligibility for services**

*Note: The 12 month period commences from the date of the EDP.*

Patients seeking rebates for eating disorders dietetic services must have had an Eating Disorder Treatment Plan (EDP) 90250-90257 or 90260-90263 in the previous 12 Months. The plan must require that the patient needs dietetic services for treatment of their eating disorder, and the patient must be provided with a referral for access to the dietetic health services.

If the EDP service has not yet been claimed, the Department of Human Services will not be aware of the patient's eligibility. In this case the allied health professional should, with the patient's permission, contact the practitioner who developed the plan to ensure the relevant service has been provided to the patient.

#### *Support:*

If there is any doubt about whether a patient has had a claim for an eating disorder service, health professionals can access the Health Professionals Online System (HPOS). HPOS is a fast and secure way for health professionals and administrators to check if a patient is eligible for a Medicare benefit for a specific item on the date of the proposed service. However, this system will only return advice that the service/item is payable or not payable.

Patients can also access their own claiming history with a My Health Record or by establishing a Medicare online account through myGov or the Express Plus Medicare mobile app.

Alternatively, health professionals can call the Department of Human Services on 132 150 to check this information, while patients can seek clarification by calling 132 011.

## **Additional Claiming Information (general conditions and limitations)**

### *Reporting Back*

After each course of treatment, the relevant dietitian is required to provide the referring medical practitioner with a written report on assessments carried out, treatment provided and recommendations for future management of the patient's condition. This reporting is required after the first service, as clinically required following subsequent services and after the final service.

This reporting will inform the managing practitioner's reviews of the EDP and enable the practitioner to assess the patient's progress and response to treatment.

*Written reports should include, at a minimum:*

- any investigations, tests, and/or assessments carried out on the patient;
- any treatment provided; and
- future management of the patient's condition or problem.

The report to the Practitioner must be kept for 2 years from the date of service.

Where appropriate, it is expected that the report will also be provided to the patients and/or the patient's family/carer (with the patient's agreement).

## **MN.16.3 Eating Disorders Psychological Treatment (EDPT) Services**

### **Eating Disorders Psychological Treatment (EDPT) services (82352-82383)**

This note provides information on the Category 8 – Miscellaneous Services: Group M16 – Subgroups 2-5 (82352-82383) and should be read in conjunction with MN.16.1 Eating Disorders General Explanatory Notes

For the purpose of this note Allied mental health professional is the generic term used to describe providers eligible to provider services under these items, including; clinical psychologists, registered psychologists, eligible accredited mental health social workers and eligible occupational therapists.

### **Eating Disorder Psychological Treatment (EDPT) Services Overview**

Provision of EDPT services by a suitably trained Allied mental health professional (82352-82383) are for patients with anorexia nervosa and other patients with complex presentations of diagnosed eating disorders who meet the eligibility requirements and would benefit from a structured approach to the management of their treatment needs in the community setting.

There are 24 items for the provision of eating disorder specific evidence based psychological treatment services by eligible allied mental health professionals:

- clinical psychologists (item 82352-82359)
- registered psychologists (item 82360-82367)
- occupational therapists (82368- 82375)
- accredited mental health social workers (items 82376-82383)

### **Psychological Treatment Service**

Patients seeking rebates for EDPT services must have had an EDP 90250-90257 or 90260-90263 in the previous 12 Months.

An 'eating disorder psychological treatment service' (EDPT) is defined in the MN.16.1 Eating Disorders General Explanatory Note. For any particular patient, an eating disorder treatment and management plan expires at the end of

a 12 month period following provision of that service. After that period, a patient will require a new EDP to continue accessing EDPT services.

### **Rendering an EDPT item**

#### *Who can provide the service*

In order to provide EDPT services, the allied mental health professional must be recognised by the Department of Human Services as eligible to provide focussed psychological strategies (FPS) services under the Better Access to Mental Health items (see Provider Eligibility for more information).

#### *What is Involved in an EDPT service*

The eating disorder items incorporate a 'stepped model' for best practice care for eligible patients with eating disorders. Under the Eating Disorders Items Stepped Model of Care a course of treatment is defined as 10 eating disorder psychological treatment (EDPT) services. It is required that a patient must have a review (an EDR item in subgroup 3 of A36) after each course of treatment (see MN.16.1 Eating Disorders General Explanatory Notes).

A range of acceptable treatments has been approved for use by practitioners in this context. It is expected that professionals will have the relevant education and training to deliver these services. The approved treatments are:

- Family Based Treatment for Eating Disorders (EDs) (including whole family, Parent Based Therapy, parent only or separated therapy)
- Adolescent Focused Therapy for EDs
- Cognitive Behavioural Therapy (CBT) for EDs (CBT-ED)
- CBT-Anorexia Nervosa (AN) (CBT-AN)
- CBT for Bulimia Nervosa (BN) and Binge-eating Disorder (BED) (CBT-BN and CBT-BED)
- Specialist Supportive Clinical Management (SSCM) for EDs
- Maudsley Model of Anorexia Treatment in Adults (MANTRA)
- Interpersonal Therapy (IPT) for BN, BED
- Dialectical Behavioural Therapy (DBT) for BN, BED
- Focal psychodynamic therapy for EDs

After each course of treatment, the relevant allied mental health professional is required to provide the referring medical practitioner with a written report on assessments carried out, treatment provided and recommendations for future management of the patient's condition. This reporting is required after the first service, as clinically required following subsequent services and after the final service.

This reporting will inform the managing practitioner's reviews of the EDP and enable the practitioner to assess the patient's progress and response to treatment.

Written reports should include, at a minimum:

- any investigations, tests, and/or assessments carried out on the patient;
- any treatment provided; and
- future management of the patient's condition or problem.

The report to the Practitioner must be kept for 2 years from the date of service.

Where appropriate, it is expected that the report will also be provided to the patients and/or the patient's family/carer (with the patient's agreement).

### **Checking patient eligibility for services**

*Note: The 12 month period commences from the date of the EDP.*

Patients seeking rebates for EDPT services must have had an EDP 90250-90257 or 90260-90263 in the previous 12 Months. The plan must require that the patient needs mental health services for treatment of their eating disorder, and the patient must be provided with a referral for access to the allied health services.

If the EDP service has not yet been claimed, the Department of Human Services will not be aware of the patient's eligibility. In this case the allied health professional should, with the patient's permission, contact the practitioner who developed the plan to ensure the relevant service has been provided to the patient.

*Support:*

If there is any doubt about whether a patient has had a claim for an eating disorder service, health professionals can access the Health Professionals Online System (HPOS). HPOS is a fast and secure way for health professionals and administrators to check if a patient is eligible for a Medicare benefit for a specific item on the date of the proposed service. However, this system will only return advice that the service/item is payable or not payable.

Patients can also access their own claiming history with a My Health Record or by establishing a Medicare online account through myGov or the Express Plus Medicare mobile app.

Alternatively, health professionals can call the Department of Human Services on 132 150 to check this information, while patients can seek clarification by calling 132 011.

### **Provider Eligibility**

Advice about registering with the Department of Human Services to provide focussed psychological strategies - allied mental health services is available from the Department of Human Services provider inquiry line on 132 150.

Eligible clinical psychologist - [MN.6.4 - Clinical Psychologist Professional Eligibility](#)

Eligible allied health professionals

A person is an allied health professional in relation to the provision of Better Access to Mental Health items if the person meets one of the following requirements:

- a. the person is a psychologist who holds general registration in the health profession of psychology under the applicable law in force in the State or Territory in which the service is provided;
- b. the person is a member of the Australian Association of Social Workers (AASW) and certified by AASW as the meeting the standards for mental health set out in the document published by AASW titled 'Practice Standards for Mental Health Social Workers 2014' as in force on 25 September 2014;
- c. the person:
  - i. is an occupational therapist who is registered with the Australian Health Practitioners Regulatory Agency as a person who can provide that kind of service under the applicable law in force in the State or Territory in which the service is provided; and
  - ii. is accredited by Occupational Therapy Australia as:
    - having a minimum of two years experience in mental health; and
    - having undertaken to observe the standards set out in the document published by Occupational Therapy Australia's 'Australian Competency Standards for Occupational Therapists in Mental Health' as in force on 1 November 2006; and
    - having undertaken to observe the standards set out in the 2018 'Australian Occupational Therapy Competency Standards' published the Occupational Therapy Board of Australia.

Continuing professional development (CPD) for Occupational Therapists and Social Workers providing focussed psychological strategies (FPS) services

Occupational therapists and accredited mental health social workers providing FPS services are required to have completed 10hours FPS CPD. A CPD year for the purposes of these items is from 1 July to 30 June annually.

Part-time allied mental health professionals are required to have 10 hours of FPS related CPD, the same as full-time allied mental health professionals.

Occupational Therapists and Social Workers who are registered during the course of the CPD year, their obligation to undertake CPD will be on a pro-rata basis. The amount of units will be calculated from the 1st of the month immediately succeeding the month they obtained initial registration. The obligation will be one-twelfth of the yearly requirement for each month.

CPD activities must be relevant to delivering FPS services. Acceptable CPD activities where the content is related to FPS can include formal postgraduate education, workshops, seminars, lectures, journal reading, writing papers, receipt of supervision and peer consultation, and online training.

There is flexibility in the CPD activities that can be undertaken to meet individual professional needs and their practice/client base and client needs. For example, activities could also include assessment and treatment of specific disorders and client types such as youth, or different modalities and delivery such as working with groups.

#### **Additional Claiming Information (general conditions and limitations)**

*Other than Consultation Room (items 82354, 82357, 82362, 82365, 82370, 82373, 82378, 82381)*

It is expected that this service would be provided only for patients who are unable to attend the practice.

#### **MN.16.4 Eating Disorders Services Telehealth**

**Eating Disorders Services Telehealth – (items 82351, 82353, 82356, 82359, 82361, 82364, 82367, 82369, 82372, 82375, 82377, 82380, 82383)**

This note provides telehealth supporting information for eating disorders Items provided via telehealth by a medical practitioner in general practice and should be read in conjunction with Eating Disorders General Explanatory Notes.

#### **Eligible Geographical Areas**

Geographic eligibility for eating disorders telehealth services funded under Medicare (in Group M16) is determined according to the Modified Monash Model (MMM) classifications. Telehealth Eligible Areas are those areas that are within MMM classifications 4 to 7. Patients and providers are able to check their eligibility using the Modified Monash Model locator on the Department of Health's website at Health Workforce Locator.

There is a requirement for the patient and practitioner to be located a minimum of 15 kilometres apart at the time of the consultation. Minimum distance between practitioner and patient video consultations are measured by the most direct (ie least distance) route by road. The patient or the practitioner is not permitted to travel to an area outside the minimum 15 kilometres distance in order to claim a video consultation.

#### **Record Keeping**

Participating telehealth practitioners must keep contemporaneous notes of the consultation including documenting that the service was performed by video conference, the date, time and the people who participated.

Only clinical details recorded at the time of the attendance count towards the time of the consultation. It does not include information added at a later time, such as reports of investigations.

#### **Aftercare Rule**

Video consultations are subject to the same aftercare rules as allied health practitioners providing face-to-face consultations.

#### **Multiple Attendances on the Same Day**

In some situations a patient may receive a consultation via video conference and a face-to-face consultation by the same or different clinical psychologist on the same day.

Medicare benefits may be paid for more than one video consultation on a patient on the same day by the same clinical psychologist, provided the second (and any following) video consultations are not a continuation of the initial or earlier video consultations. Clinical psychologists will need to provide the times of each consultation on the patient's account or bulk-billing voucher.

## **Referrals**

The referral procedure for a video consultation is the same as for conventional face-to-face consultations.

### **MN.17.1 Bushfire Recovery Access Initiative – Mental Health Services Attracting Medicare Rebates**

There are 36 MBS items for the provision of psychological therapy and focussed psychological strategies (FPS) services to patients who are considered to have had their mental health adversely affected by bushfire in the 2019-20 financial year, including 24 items for face-to-face consultations and 12 items for video conference consultations.

#### **Patient eligibility and access to mental health services**

Any patient who is considered to have had their mental health adversely affected by bushfire in the 2019-20 financial year is eligible for mental health services. Eligible patients may be identified by a medical or allied health practitioner. Alternatively, they may identify themselves and request a mental health service. The services are available to anyone whose mental health has been affected by the bushfire crisis, including residents of residential aged care facilities. Access is not restricted to people living in areas directly affected by bushfire.

Patients are not required to have a diagnosed mental health condition, GP mental health treatment plan or a referral to access the services.

Patients wishing to access the services via video conference are not required to have an existing relationship with the treating practitioner. In addition, no minimum distance requirement applies to these video conference services.

#### **Number of services per year**

Under the Bushfire Recovery Access Initiative, Medicare rebates are available for up to 10 individual mental health services in a calendar year.

The 10 services may consist of: GP/medical practitioner focussed psychological strategies services (GP items 91721 to 91731 or medical practitioner items 91283 to 91372); and/or psychological therapy services (items 91000 to 91015); and/or focussed psychological strategies - allied mental health services (items 91100 to 91115; 91125 to 91140; 91150 to 91165).

Note: Patients who meet the eligibility requirements of the Better Access to Psychiatrists, Psychologists and General Practitioners through the MBS (Better Access) initiative may receive services under that initiative and the Bushfire Recovery Access Initiative. Services received under the Bushfire Recovery Access Initiative do not count against a patient's quota of services under the Better Access Initiative.

#### **Provider Eligibility**

**Eligible psychological therapy services provided by a clinical psychologist: MBS items 91000, 91001, 91005, 91010, 91011, and 91015**

- An eligible clinical psychologist must be registered with Services Australia (Department of Human Services).

**Focussed psychological strategies provided by an eligible GP: MBS items 91721, 91723, 91725, 91727, 91729 and 91731**

**Focussed psychological strategies provided by an eligible medical practitioner: 91283, 91285, 91286, 91287, 91371 and 91372**

- An eligible GP or medical practitioners must registered with Services Australia (Department of Human Services) as having satisfied the requirements for higher level mental health skills for provision of the service, as determined by the General Practice Mental Health Standards Collaboration.

**Focussed psychological strategies provided by an eligible psychologist: 91100, 91101, 91105, 91110, 91111 and 91115**

- An eligible psychologist must hold general registration in the health profession of psychology under the applicable law in force in the State or Territory in which the service is provided.

**Focussed psychological strategies provided by an eligible occupational therapist: 91125, 91126, 91130, 91135, 91136 and 91140**

- An eligible occupational therapist must be registered as a person who may provide that kind of service under the applicable law in force in the State or Territory in which the service is provided, and be accredited by Occupational Therapy Australia as:
  - having a minimum of two years' experience in mental health; and
  - having undertaken to observe the standards set out in the document published by Occupational Therapy Australia's 'Australian Competency Standards for Occupational Therapists in Mental Health' as in force on 1 November 2006.

**Focussed psychological strategies provided by an eligible social worker: 91150, 91151, 91155, 91160, 91161, 91165**

- An eligible social worker must be a member of the Australian Association of Social Workers (AASW) and certified by AASW as the meeting the standards for mental health set out in the document published by AASW titled 'Practice Standards for Mental Health Social Workers 2014' as in force on 25 September 2014.

Note: In these notes, 'GP' means a medical practitioner, including a general practitioner, but not including a specialist or consultant physician.

**Service length and type**

Services provided by eligible medical and allied health practitioners under the Bushfire Recovery Access Initiative must be within the specified time period within the item descriptor. Practitioners must personally attend the patient face-to-face (or by video conference for items 91001, 91011, 91101, 91111, 91126, 91136, 91151, 91161, 91371, 91372, 91729 and 91731).

**Psychological therapy provided by clinical psychologists**

In addition to psycho-education, it is recommended that cognitive-behaviour therapy be provided. However, other evidence-based therapies — such as interpersonal therapy — may be used if considered clinically relevant.

**Focussed psychological strategies**

A range of acceptable strategies has been approved for use by health professionals utilising the FPS items:

**1. Psycho-education**

(including motivational interviewing)

**2. Cognitive-behavioural therapy including:**

**Behavioural interventions**

- Behaviour modification

- Exposure techniques
- Activity scheduling

### **Cognitive interventions**

- Cognitive therapy

### **3. Relaxation strategies**

- Progressive muscle relaxation
- Controlled breathing

### **4. Skills training**

- Problem solving skills and training
- Anger management
- Social skills training
- Communication training
- Stress management
- Parent management training

### **5. Interpersonal therapy** (especially for depression)

### **6. Narrative therapy**

### **7. Eye-Movement Desensitisation Reprocessing (EMDR)**

### **Out of pocket expenses**

Charges in excess of the Medicare benefit for these items are the responsibility of the patient.

### **Private health insurance**

Patients need to decide if they will use Medicare or their private health insurance ancillary cover to pay for services provided by allied health professionals. Patients cannot use their private health insurance ancillary cover to 'top up' the Medicare rebate paid for the services.

**MISCELLANEOUS SERVICES ITEMS**

<b>M1. MANAGEMENT OF BULK-BILLED SERVICES</b>	
	<b>Group M1. Management Of Bulk-Billed Services</b>
10990	<p>A medical service to which an item in this table (other than this item or item 10991) applies if:</p> <ul style="list-style-type: none"> <li>(a) the service is an unREFERRED service; and</li> <li>(b) the service is provided to a person who is under the age of 16 or is a Commonwealth concession card holder; and</li> <li>(c) the person is not an admitted patient of a hospital; and</li> <li>(d) the service is bulk-billed in respect of the fees for: <ul style="list-style-type: none"> <li>(i) this item; and</li> <li>(ii) the other item in this table applying to the service</li> </ul> </li> </ul> <p>(See para MN.1.1 of explanatory notes to this Category)  <b>Fee:</b> \$7.60      <b>Benefit:</b> 85% = \$6.50</p>

**M1. MANAGEMENT OF BULK-BILLED SERVICES**

- (iv) the geographical area included in the SLA spatial unit of Palm Island (AC)
- (f) the service is provided by, or on behalf of, a medical practitioner whose practice location is not in a designated area; and
- (g) the service is bulk billed in respect of the fees for:
  - (i) this item; and
  - (ii) the other item in this table applying to the service.

(See para MN.1.2 of explanatory notes to this Category)

**Fee:** \$11.50      **Benefit:** 85% = \$9.80

**M3. ALLIED HEALTH SERVICES****Group M3. Allied Health Services****ABORIGINAL AND TORRES STRAIT ISLANDER HEALTH SERVICE**

Aboriginal or Torres Strait Islander health service provided to a person by an eligible Aboriginal health worker or eligible Aboriginal and Torres Strait Islander health practitioner if:

- (a) the service is provided to a person who has:
  - i. a chronic condition; and
  - ii. complex care needs being managed by a medical practitioner (including a general practitioner, but not a specialist or consultant physician) under a shared care plan or under both a GP Management Plan and Team Care Arrangements or, if the person is a resident of an aged care facility, the person's medical practitioner has contributed to a multidisciplinary care plan; and
- (b) the service is recommended in the person's Team Care Arrangements, multidisciplinary care plan or shared care plan as part of the management of the person's chronic condition and complex care needs; and
- (c) the person is referred to the eligible Aboriginal health worker or eligible Aboriginal and Torres Strait Islander health practitioner by the medical practitioner using a referral form that has been issued by the Department or a referral form that contains all the components of the form issued by the Department; and
- (d) the person is not an admitted patient of a hospital; and
- (e) the service is provided to the person individually and in person; and
- (f) the service is of at least 20 minutes duration; and
- (g) after the service, the eligible Aboriginal health worker or eligible Aboriginal and Torres Strait Islander health practitioner gives a written report to the referring medical practitioner mentioned in paragraph (c):
  - (i) if the service is the only service under the referral - in relation to that service; or
  - (ii) if the service is the first or the last service under the referral - in relation to that service; or
  - (iii) if neither subparagraph (i) nor (ii) applies but the service involves matters that the referring medical practitioner would reasonably expect to be informed of - in relation to those matters; and

10950

**M3. ALLIED HEALTH SERVICES**

(h) for a service for which a private health insurance benefit is payable - the person who incurred the medical expenses for the service has elected to claim the Medicare benefit for the service, and not the private health insurance benefit;

- to a maximum of five services (including any services to which items 10950 to 10970, 93000, 93013, 93501 to 93513 and 93524 to 93538 apply) in a calendar year

(See para MN.3.4, MN.3.3, MN.3.2, MN.3.5, MN.3.1 of explanatory notes to this Category)  
**Fee:** \$64.20      **Benefit:** 85% = \$54.60  
**Extended Medicare Safety Net Cap:** \$192.60

**DIABETES EDUCATION SERVICE**

Diabetes education health service provided to a person by an eligible diabetes educator if:

(a) the service is provided to a person who has:

- i. a chronic condition; and
- ii. complex care needs being managed by a medical practitioner (including a general practitioner, but not a specialist or consultant physician) under a shared care plan or under both a GP Management Plan and Team Care Arrangements or, if the person is a resident of an aged care facility, the person's medical practitioner has contributed to a multidisciplinary care plan; and

(b) the service is recommended in the person's Team Care Arrangements, multidisciplinary care plan or shared care plan as part of the management of the person's chronic condition and complex care needs; and

(c) the person is referred to the eligible diabetes educator by the medical practitioner using a referral form that has been issued by the Department or a referral form that contains all the components of the form issued by the Department; and

(d) the person is not an admitted patient of a hospital; and

(e) the service is provided to the person individually and in person; and

(f) the service is of at least 20 minutes duration; and

(g) after the service, the eligible diabetes educator gives a written report to the referring medical practitioner mentioned in paragraph (c):

- (i) if the service is the only service under the referral - in relation to that service; or
- (ii) if the service is the first or the last service under the referral - in relation to that service; or
- (iii) if neither subparagraph (i) nor (ii) applies but the service involves matters that the referring medical practitioner would reasonably expect to be informed of - in relation to those matters; and

(h) for a service for which a private health insurance benefit is payable - the person who incurred the medical expenses for the service has elected to claim the Medicare benefit for the service, and not the private health insurance benefit;

- to a maximum of five services (including any services to which items 10950 to 10970, 93000, 93013, 93501 to 93513 and 93524 to 93538 apply) in a calendar year

(See para MN.3.4, MN.3.3, MN.3.2, MN.3.5, MN.3.1 of explanatory notes to this Category)  
**Fee:** \$64.20      **Benefit:** 85% = \$54.60  
**Extended Medicare Safety Net Cap:** \$192.60

82020

**OCCUPATIONAL THERAPY**

Occupational therapy health service provided to a child, aged under 15 years, for treatment of a pervasive developmental disorder (PDD) or an eligible disability by an eligible occupational therapist where:

- (a) the child has been diagnosed with PDD or an eligible disability; and
- (b) the child has received a PDD or disability treatment plan (while aged under 13 years) as prepared by an eligible practitioner; and
- (c) the child has been referred by an eligible practitioner for the provision of services that are consistent with the PDD or disability treatment plan; and

82025

**M10. AUTISM, PERVASIVE DEVELOPMENTAL DISORDER AND DISABILITY SERVICES**

(d) for a child with PDD, the eligible practitioner is a consultant physician in the practice of his or her field of psychiatry or paediatrics; or for a child with disability, the eligible practitioner is a specialist, consultant physician or general practitioner; and

(e) the occupational therapist attending the child is registered with the Department of Human Services as meeting the credentialing requirements for provision of these services; and

(f) the child is not an admitted patient of a hospital; and

(g) the service is provided to the child individually and in person; and

(h) the service lasts at least 30 minutes in duration.

These items are limited to a maximum of 20 services per patient, consisting of any combination of items — 82015, 82020, 82025 and 82035

(See para MN.10.1 of explanatory notes to this Category)  
**Fee:** \$90.70      **Benefit:** 85% = \$77.10  
**Extended Medicare Safety Net Cap:** \$272.10

**AUDIOLOGY, OPTOMETRY, ORTHOPTIC OR PHYSIOTHERAPY**

Audiology, optometry, orthoptic or physiotherapy health service provided to a child, aged under 13 years, by an eligible audiologist, optometrist, orthoptist or physiotherapist where:

(a) the child is referred by an eligible practitioner for the purpose of assisting the practitioner with their diagnosis of the child;

or

(b) the child is referred by an eligible practitioner for the purpose of contributing to the child's pervasive developmental disorder (PDD) or disability treatment plan, developed by the practitioner; and

(c) for a child with PDD, the eligible practitioner is a consultant physician in the practice of his or her field of psychiatry or paediatrics; or for a child with disability, the eligible practitioner is a specialist, consultant physician or general practitioner; and

(d) the audiologist, optometrist, orthoptist or physiotherapist attending the child is registered with the Department of Human Services as meeting the credentialing requirements for provision of these services; and

(e) the child is not an admitted patient of a hospital; and

(f) the service is provided to the child individually and in person; and

(g) the service lasts at least 50 minutes in duration.

82030

**M10. AUTISM, PERVASIVE DEVELOPMENTAL DISORDER AND DISABILITY SERVICES**

These items are limited to a maximum of four services per patient, consisting of any combination of the following items

- 82000, 82005, 82010 and 82030

(See para MN.10.1 of explanatory notes to this Category)  
**Fee:** \$90.70      **Benefit:** 85% = \$77.10  
**Extended Medicare Safety Net Cap:** \$272.10

**AUDIOLOGY, OPTOMETRY, ORTHOPTIC OR PHYSIOTHERAPY**

Audiology, optometry, orthoptic or physiotherapy health service provided to a child, aged under 15 years, for treatment of a pervasive developmental disorder (PDD) or eligible disability by an eligible audiologist, optometrist, orthoptist or physiotherapist where:

(a) the child has been diagnosed with PDD or eligible disability; and

(b) the child has received a PDD or disability treatment plan (while aged under 13 years) as prepared by an eligible practitioner; and

(c) the child has been referred by an eligible practitioner for the provision of services that are consistent with the PDD or disability treatment plan; and

(d) for a child with PDD, the eligible practitioner is a consultant physician in the practice of his or her field of psychiatry or paediatrics; or for a child with disability, the eligible practitioner is a specialist, consultant physician or general practitioner; and

(e) the audiologist, optometrist, orthoptist or physiotherapist attending the child is registered with the Department of Human Services as meeting the credentialing requirements for provision of these services; and

(f) the child is not an admitted patient of a hospital; and

(g) the service is provided to the child individually and in person; and

(h) the service lasts at least 30 minutes in duration.

These items are limited to a maximum of 20 services per patient, consisting of any combination of items

- 82015, 82020, 82025 and 82035

(See para MN.10.1 of explanatory notes to this Category)  
**Fee:** \$90.70      **Benefit:** 85% = \$77.10
